LEGISLATIVE JOURNAL

SESSION OF 1951

REASONS FOR PARDONS GRANTED BY GOVERNOR

Commonwealth of Pennsylvania,
Governor's Office, Harrisburg, January 2, 1951.
To the Honorable the House of Representatives of the
Commonwealth of Pennsylvania:

I have the honor to present herewith the reasons for pardons and commutations of sentence granted by the Governor from January 5, 1949 to date.

(Signed) JAMES H. DUFF.

BOARD OF PARDONS

In re application of Julius Berg, No. 5169, December Session, 1948.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed on Julius Berg, convicted of unlawful possession and transporting intoxicating liquor in the Quarter Sessions Court of Philadelphia County on November 25, 1929; and of maintaining an illegal lottery and conspiracy in the Quarter Sessions Court of Philadelphia on July 30, 1934, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is forty years of age and although he has been arrested approximately thirteen times, he only suffered the two convictions for which he asks a pardon. These two convictions took place almost fourteen and nineteen years ago, respectively. This applicant then decided that crime did not pay and agreed to go along the paths of righteousness.

In 1929 this applicant was found guilty of the possession of intoxicating liquors and was placed on probation for a period of eighteen months for this violation. In 1934 he was found guilty to be an adding machine operator for a "number man," and was sentenced to a flat term of imprisonment in the Philadelphia County Prison for seven years. Since that time he has been in no further trouble and with his wife is now operating a restaurant in the City of Philadelphia. The applicant lives in a good home and he is making a success of the restaurant business which his wife is now operating. The applicant has three daughters, one daughter is in Temple University and two daughters in high school.

The district attorney of Philadelphia County leaves the matter of a pardon up to the Board of Pardons.

This applicant desires to have his name cleared because he is afraid that it will adversely affect the future of his daughters and also his connection with the restaurant business now being conducted by his wife. Since these offenses all occurred more than fourteen years ago and applicant has been in no further trouble, we believe

he will not again offend against society, and we therefore, recommend that a pardon be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of James Arthur Broughton, C-5985, No. 1350, December Session, 1948.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed upon James Arthur Broughton, convicted of breaking and entering, larceny in the Court of Oyer and Terminer and Quarter Sessions of Tioga County on April 2, 1936, be commuted from a maximum term on Bill No. 13 January Sessions, 1936, from a maximum term of 10 years to a maximum term of 5 years, 6 months, and 10 days, expiring on January 26, 1949.

Our reasons for making this recommendation are as follows:

This applicant is thirty-eight years of age and up to his release on parole in July of 1943 has had very little to commend him. However, following his release in 1943, this applicant has shown the disposition to settle down and become a law-abiding and peaceful citizen. He has gotten himself into no further trouble and he has been given a position with Stark Brothers Greenhouse, at Wellsboro, Pennsylvania, and they think very well of his work. His present job requires that he often make out of state deliveries, and sometimes this is difficult thing to do while he is on parole and is withholding further advancement with his employer.

The employer was present and pleaded for him and the applicant was also present and was asked regarding his parole. It was shown that he is making an excellent adjustment and his reputation is being built up, and today he is an honest and law-abiding citizen.

Under all of these circumstances, and the fact the parole board does not object to his parole release, the Board of Pardons recommend that his maximum sentence be commuted and the parole be lifted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.

CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of James R. Chandler, D-4327, No. 7126, December Session, 1948.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of James R. Chandler, convicted of murder in the second degree in the Court of Oyer & Terminer and Quarter Sessions of Delaware County on October 3, 1939 to be computed from June 27, 1939 be commuted from 10 years to 9 years and 7 months, expiring on January 27, 1949.

Our reasons for making this recommendation are as follows:

This applicant is thirty-five years of age and this is his first major conviction. The applicant was convicted on a charge of murder in the second degree. He was charged with having murdered a girl friend. He, however, alleges that he had been drinking and went home. Later he returned to the scene of his drinking and found his girl friend in the car. He got in the car beside the girl and she stated to him that she had been cut. He then took her to the hospital, where it was learned the girl had indeed been stabbed and lost consciousness because of her loss of blood.

From investigation, the Board of Pardons believes that this applicant's statement is true and it may have been that this applicant did not actually stab this victim nor cause her death. At any rate, this applicant has now served nine and one-half years of a minimum sentence of ten years and in view of the uncertainty of his guilt surrounding this sentence, we feel that this applicant has been severely punished.

The Board of Trustees of the Eastern State Penitentiary states that he is one of the better inmates under their supervision. Because of the uncertainty surrounding the conviction, the length of time he has served and his excellent institutional record, the Board of Pardons recommends that a commutation of sentence be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Bernard Booth Davis, B-9962, No. 9663, December Session, 1948.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Bernard Booth Davis, convicted of burglary, larceny, receiving stolen goods in the Court of Quarter Sessions of Westmoreland County on December 16, 1946 to be computed from December 9, 1946 be commuted from 4 years to 2 yrs. 1 mo. & 10 days, expiring on January 19, 1949.

Our reasons for making this recommendation are as follows:

This applicant is thirty-six years of age and was sentenced to a term of imprisonment in the Western State Penitentiary for from four to eight years on a charge of burglary, larceny and receiving stolen goods. This grew out of his entry to certain railroad cars with his accomplices where merchandise totalling more than \$2,700.00 was stolen. This applicant, however, never actually participated in the stealing but acted as a lookout man in each case. Nevertheless, he was only the lookout man, he received the stiffest sentence of any of the other accomplices who actually committed the burglaries.

At the present time he has served over two years of his minimum sentence of four years. All the other accomplices received sentences ranging from one year down to six months and they are now free.

There is no opposition to the release of this applicant from the Westmoreland County officials and the Board of Trustees of the Western State Penitentiary recommend him because of his excellent institutional record. Therefore, the Board of Pardons recommends that this sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Harry A. Fetterolf, D-4146, No. 5574, December Session, 1948.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Harry A. Fetterolf, convicted of robbery in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on July 11, 1939 to be computed from June 16, 1939, be commuted from 10 years to 9 years, 6 months and 10 days, expiring on December 26, 1948.

Our reasons for making this recommendation are as follows:

The applicant is one of many parolees whose release from parole by commutation of the maximum sentence has been recommended to the Board of Pardons by the Board of Parole.

The Board of Parole has recommended this applicant, as well as the others, because of his excellent record in the armed forces of the United States. By reason of his fealty to country, steadfastness in courage, and military earnestness, he helped overpower the enemies of our country in World War II.

As a token of appreciation, and feeling that his gallant conduct has atoned for the error of his past ways, it is our recommendation to your Excellency that the term of the

maximum sentence of the applicant be commuted and that he be freed from further parole supervision.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of John S. Gulesich, No. 9678, December Session, 1948.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that John S. Gulesich, convicted of larceny, receiving stolen goods in the Court of Quarter Sessions of Philadelphia County, on December 8, 1942 be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is thirty-three years of age and this is the only offense that he ever committed. While this applicant was a salesman for the victim, he sold his samples at ridiculously low prices and received approximately \$2,000.00 which he appropriated to his own name. After being apprehended, the applicant made restitution to the complete satisfaction of the employer and paid all costs of the proceedings.

He then left the City of Philadelphia and went to Pittsburgh where he secured employment as a waiter. He has been a waiter at Frenchy's Restaurant for the past sixteen months, is well liked, and he is earning approximately eighty (\$80.00) dollars per week. This applicant desires a pardon because he is next in line for the headwaiter or manager's position and if given this pardon, will be able to give the required bond.

Since he has been in no further trouble for a period of over six years, we feel that he has shown himself to be fully rehabilitated and will not again offend against society, and for these reasons, the Board of Pardons recommends that a pardon be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Nancy Hess, 670, No. 9587, December Session, 1948.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due

public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed upon Nancy Hess, convicted of abortion in the Court of Oyer and Terminer of Lancaster County on February 20, 1932, be commuted on Bill No. 42 March Sessions, 1932, from a maximum term of 6 years to a maximum term of 4 years and 11 months, expiring on January 20, 1949.

Our reasons for making this recommendation are as follows:

This applicant is sixty-four years of age and has no prior criminal record. She was convicted and sentenced to a term of imprisonment in the State Industrial Home for Women, at Muncy, for a period of not less than six nor more than eighteen years on a charge of abortion.

Her minimum sentence expired in 1938 and the fact that she has had no employment or sponsorship this applicant was retained until released in custody of her parole officer. Since her release in April of 1946 this applicant had been living with her parole agent until September 1948 when she accepted a position as housekeeper in the home of Mr. and Mrs. George Stanton of Williamsport, Pennsylvania. She is thrifty and has made the most of her small and meager income and she has shown every effort to completely rehabilitate herself.

Because of her age, it is doubtful if she will again become an active practicing abortionist and we feel that since she has been in no further trouble for approximately eighteen years, that we can recommend her to Your Excellency for a commutation of her maximum sentence.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Frank Kerchel, B-3536, No. 9658, December Session, 1948.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons that the maximum sentence of Frank Kerchel, convicted of robbery with aggravated circumstances, robbery, receiving stolen goods in the Court of Oyer and Terminer of Beaver County on December 31, 1932, be commuted from 20 years to 16 years and 1 month, expiring on January 31, 1949.

Our reasons for making this recommendation are as follows:

This applicant is thirty-seven years of age and this is his first major conviction. He was sentenced to a term of imprisonment in the Western State Penitentiary on a charge of robbery with aggravated circumstances, robbery and receiving stolen goods and served his minimum term of three years. Since that time, or a matter of thirteen years, this applicant has been on parole. In that period of time, he worked on a farm, in a steel mill in Beaver, and bought a coal mine which he later sold at a profit. Since February 1948, he has been in the business of hauling coal and scrap iron and has been successful in this business. He has made a successful adjustment in the community and has four children, one son and three daughters, ranging in age from seventeen months to ten years.

Since all of this first took place prior to the birth of

these children, and since they do not know of his parole status, this applicant asks that his maximum sentence be commuted. He has now served thirteen years on parole and the sentencing authorities of Beaver County know of no objection to the granting of relief, the Board, therefore, recommends that his maximum sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of David V. Lahr, C-2982, No. 139, December Session, 1948.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed upon David V. Lahr, convicted of robbery and rape in the Court of Oyer and Terminer and Quarter Sessions of Luzerne County on May 29, 1925, be commuted on Bill No. 399 June Sessions, 1925, from a maximum term of 15 years to a maximum term of 5 years, 4 months and 23 days, expiring on January 25, 1949.

Our reasons for making this recommendation are as follows:

This applicant is seventy-one years of age, one of the oldest prisoners in the Eastern State Penitentiary. This is not a major conviction. He was, however, sentenced in 1925 to a term of imprisonment in the Eastern State Penitentiary for from fifteen to thirty years on a charge of robbery and rape. At that time, the sentence was improperly lumped and the applicant never had an opportunity to make a plea at the expiration of his combined minimum sentences. As a result of this, the applicant was granted a special commutation of sentence in 1940, after he had served an amount equal to the combined minimum. However, after being out for a period of approximately two years and three months, this applicant was returned as a technical parole violator. This applicant states he feels that it was a shakedown and he should not have been returned.

Because of his age, the Board, more or less, is inclined to agree with the applicant. He has served a period of five years and three months, and served a total time in the Eastern State Penitentiary of over twenty years. We feel that his present plan to go to Colonel Shaw's Home of Industry also offers a good plan for the applicant and that he will not again be returned to Wilkes-Barre, where he got into this difficulty.

Under all of these circumstances, we feel that five years has been sufficiently a long period of time and that he should be granted commutation of his maximum sentence, and the Board of Pardons so recommends.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Mike Misco, B-9130, No. 8184, December Session, 1948.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Mike Misco, convicted of arson, burglary, receiving stolen goods, larceny in the Court of Quarter Sessions of Lawrence County on November 3, 1944 to be computed from October 15, 1944 be commuted from 5 years to 4 years and 3 months, expiring on January 25, 1949.

Our reasons for making this recommendation are as follows:

This applicant is twenty-four years of age and has now served four years and two months of his minimum sentence of five years on a charge of burglary, larceny, arson and receiving stolen goods. This applicant, together with two accomplices, broke into several places and stole a number of articles of goods and on one occasion attempted to set fire to the home of one of the victims. The applicant, however, endeavored to dissuade the accomplices from performing this act.

He has an excellent institutional record in the Western State Penitentiary and the trial judge, Honorable W. Walter Braham, favors parole in this matter and feels quite strongly about it, and there is no objection from the district attorney of Lawrence County.

Under all of these circumstances and since this applicant has served all but nine months of his minimum sentence and the sentencing authorities recommend this applicant to us highly, we, therefore, recommend that his commutation be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Edward Mitchell, 63637, No. 9666, December Session, 1948.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Edward Mitchell, convicted of assault and battery with intent to rape in the Court of Quarter Sessions of Allegheny County on January 28, 1948 be commuted from 1½ years to 1 year, expiring on January 28, 1949.

Our reasons for making this recommendation are as follows:

This applicant is twenty-eight years of age and this was his first major conviction. This applicant is charged with assault and battery with intent to rape and at the present time has served thirteen months of an eighteen month minimum sentence. This applicant is colored and the alleged victim is a member of the white race.

The Board was moved to recommend commutation in this case for the following reasons: . . . the victim telephoned the applicant to visit her in her own home and when he arrived there the evidence further discloses that it was found that the victim's husband was not at home. Nevertheless, the victim invited the applicant into her home and offered applicant a bottle of beer. During this time, the victim contended that an assault was made on her by the applicant.

We have in our records letters from outstanding citizens of Carnegie, Pennsylvania, of whom are J. C. Bigham of Bigham's Restaurant; Benjamin Kahn, President of the Carnegie Kiwanis Club; and A. J. Harding, Past President of the Lions Club; all of whom testify to the past good reputation of the applicant and they feel that they can recommend him for a commutation of sentence.

Applicant has also been a hard working young man and has taken care of his three children and his mother. They are the ones suffering from his incarceration.

In view of the circumstances under which this alleged crime took place and the views given by the prominent citizens of Carnegie, we feel that further incarceration will not have any rehabilitative effects on the applicant, and that he will be able to support his family if released. We, therefore, recommend that his sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Sandy Naples, B-4187, No. 5361, December Session, 1948.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Sandy Naples, convicted of robbery with aggravated circumstances, robbery, receiving stolen goods in the Court of Oyer and Terminer of Beaver County on June 16, 1934, be commuted from 20 years to 14 years, 7 months and 15 days expiring on January 31, 1949.

Our reasons for making this recommendation are as follows:

This applicant is forty-three years of age and is seeking commutation of his maximum sentence, having been sentenced to a term of imprisonment in the Western State Penitentiary for from ten to twenty years on a charge of robbery with aggravated circumstances, robbery and receiving stolen goods. This applicant served his minimum sentence of ten years and was paroled and began to live with his parents in Youngstown, Ohio. After being there for a period of some three years and two months, the applicant was rearrested by his parole agent and returned to the Western State Penitentiary for violation of parole. The applicant was not charged with any crime whatsoever, but merely picked up by the agent on suspicion and heard say that this applicant was consorting with people of bad reputation.

It is the consensus of opinion of the Board of Pardons that this applicant should not have been returned and his record marred as a parole violator on the grounds that shady characters loafed in his restaurant which he had in partnership with another party. This is very weak evidence for the grievous pressure maintained on this appli-

cant. For this reason, this applicant asks that the Board commute his maximum sentence.

One of the accomplices already has had his maximum sentence commuted. The others are all on parole. Both the trial judge and the district attorney of Beaver County leave the matter of commutation up to the Board of Pardons.

This Board feels that this applicant has been unduly punished and harassed by the parole agent and therefore, feels that he is entitled to have his petition granted. The Board of Pardons, therefore, recommends that commutation of maximum sentence be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Harvey Nichols, D-4015, No. 7217, December Session, 1948.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Harvey Nichols, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on November 11, 1939 to be computed from May 6, 1939, be commuted from 40 years to 9 years, 7 months and 20 days, expiring on December 26, 1948.

Our reasons for making this recommendation are as follows:

The applicant is one of many parolees whose release from parole by commutation of the maximum sentence has been recommended to the Board of Pardons by the Board of Parole.

The Board of Parole has recommended this applicant, as well as the others, because of his excellent record in the armed forces of the United States. By reason of his fealty to country, steadfastness in courage, and military earnestness, he helped overpower the enemies of our country in World War II.

As a token of appreciation, and feeling that his gallant conduct has atoned for the error of his past ways, it is our recommendation to your Excellency that the term of the maximum sentence of the applicant be commuted and that he be freed from further parole supervision.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Alvin Nunley, No. 9636, December Session, 1948.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Alvin Nunley convicted of felonious assault in the Court of Quarter Sessions of Allegheny County, on January 18, 1941 be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is thirty years of age and this is his first major conviction. He was sentenced to a term of imprisonment in the Allegheny County Workhouse for from one to three years for cutting the victim as a result of a fight. This applicant has been in no further trouble for a period of seven years and he has thoroughly rehabilitated himself, is now married and has a young son three years of age.

Neither the trial judge or the district attorney of Allegheny County has any objection to the granting of a pardon in this instance.

The Board of Pardons was favorably impressed by the applicant's candor and truthfulness as he appeared before the Board in person, and we believe that his outstanding reference to the crime and response that he wishes the matter cleared, indicate to the Board that he will not again become involved in the law in any matter whatsoever.

We, therefore, recommend that a pardon be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Harry Stengel, C-6270, No. 2556, December Session, 1948.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed upon Harry Stengel, convicted of burglary, attempted burglary in the Court of Oyer and Terminer of Philadelphia County on June 23, 1930 to be computed from June 23, 1940; and of burglary, receiving stolen goods in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on June 7, 1944; be commuted on Bill No. 1255 June Sessions, 1930, from a maximum term of 7 years to a maximum term of 4 years, 9 months, and 20 days, expiring on January 27, 1949; and on Bill No. 149 April Sessions, 1944, from a maximum term of 3 months to a maximum term of 1 day, expiring on January 28, 1949.

Our reasons for making this recommendation are as follows:

This applicant is forty-two years of age and he is now serving in the Eastern State Penitentiary for violation of parole. At the present time he has served four and one-half years more of his sentence. He has a good prison adjustment and complains for relief on the grounds that his sentence was improperly computed.

Upon re-examination of the records in this case, the Board is of the opinion that this sentence was improperly lumped and under the Learner and Wheeler decisions, this applicant should not have been on parole when he was sentenced in April of 1944 to a term of three months. His maximum sentence would have expired if it was correctly imposed in 1942.

Because he is improperly in prison as a result of an erroneous computation of sentence by officials in the Eastern State Penitentiary, the Board feels he should not be made to serve any longer period of time but should be granted commutation of maximum sentence under the erroneous computation, so that he be free from further parole supervision.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Mae Lillian Stoops, No. 9673, December Session, 1948.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Mae Lillian Stoops, convicted of perjury in the Court of Quarter Sessions of Adams County, on October 21, 1946 be pardoned.

Our reasons for making this recommendation are as follows:

The applicant is fifty-eight years of age and she has no prior criminal record. She was sentenced for perjury, growing out of an action which she began for non-support against her husband. The basis for the perjury action was that she had spent sometime in a hotel with another man. This she denied under oath, but the facts indicated that she had indeed been there. Under these circumstances, the applicant was tried and convicted and sentenced to serve a term of imprisonment in the Adams County Jail for from six to twelve months.

Following her release from prison, she went to live with friends in Waynesboro, Pennsylvania, and she has become active in church work. She consistently denies any complicity with the correspondent in the case and points to her long and active career in christian service as indicating that she would not be easily swayed from proper conduct.

Neither the trial judge or the district attorney actively oppose the granting of a pardon in this case leaving the matter up to the Board of Pardons or making no comment in the matter. This applicant is no longer under parole supervision and therefore no report can be made by the Board of Parole in regard to her conduct.

Since this applicant has both a prior and present good record, we feel she was influenced more or less by her companion on this trip and acted obviously at his solicitation rather than because she had any evil intent. Since she has continued her excellent christian work and is a respected member in her community, we recommend that a pardon be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.

CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of James Thomas, C-7106, No. 4402, December Session, 1948.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed upon James Thomas, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer of Philadelphia County on May 25, 1931, be commuted on Bill No. 1084 May Sessions, 1931, from a maximum term of 20 years to a maximum term of 17 years and 8 months, expiring on January 25, 1949; on Bill No. 1086 from a maximum term of 20 years to a maximum term of 1 day, expiring on January 26, 1949; on Bill 1087 from a maximum term of 20 years to a maximum term of 1 day, expiring on January 27, 1949; and on Bill No. 1089 from a maximum term of 20 years to a maximum term of 1 day, expiring on January 28, 1949.

Our reasons for making this recommendation are as follows:

This applicant is forty-four years of age and he had no prior criminal record. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from forty to eighty years on May 25, 1931, for attempting to rob a haberdashery store in Philadelphia. He has had an excellent record in the Eastern State Penitentiary and as a result of this excellent record his minimum sentence was commuted to ten years. However, this applicant was to remain on parole until 1961.

The Board of Parole has advised the Board of Pardons that this applicant has made an excellent adjustment and rehabilitation since his release in 1941. He has been employed in and about restaurants for the seven years. Both he and the wife have worked and since their marriage, they have purchased a home and the wife has done everything to assist the husband in further rehabilitation.

The Board of Parole has advised the Board of Pardons that they would have no objection to a commutation of his maximum sentence. The trial judge, Honorable Joseph L. Kun, leaves the matter of commutation up to the Board of Pardons. The district attorney has no objection.

Since there is no objection from any of the sentencing authorities; since this applicant has had an excellent adjustment on parole; and there is no objection from the Board of Parole, the Board of Pardons is of the opinion that the seven years good conduct on parole has been sufficient and that this applicant will not again offend against society, and we, therefore, recommend that his maximum sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of William Tillman, D-5970, No. 9649, December Session, 1948.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of William Tillman, convicted of larceny, receiving stolen goods in the Court of Quarter Sessions of Philadelphia County on May 17, 1948 to be computed from April 27, 1948 be commuted from 1 year to 9 months, expiring on January 27, 1949.

Our reasons for making this recommendation are as follows:

This applicant is nineteen years of age and has no prior criminal record. He was eighteen years of age when these offenses took place and he has now served eight months of his minimum sentence of one year. This applicant was, in all probability, influenced by his accomplices and we feel that further incarceration can only make this applicant a hardened criminal. We believe, from the reports of the prison authorities, that this applicant will make a fair parole risk since he has an excellent institutional record.

In view of these facts, we hardly believe that a nineteen year old boy should be kept in an institution any longer that is necessary.

Under these circumstances, the Board of Pardons feels that this applicant should be granted a commutation of sentence at this time.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Robert Welker, B-7817, No. 6810, December Session 1948.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Robert Welker, convicted of robbery, being armed with an offensive weapon, assault and battery in the Court of Oyer and Terminer of Clinton County on August 29, 1941 to be computed from August 19, 1941 be commuted from 10 years to 7 years and 5 months, expiring on January 19, 1949.

Our reasons for making this recommendation are as follows:

This applicant is twenty-seven years of age and at this time has served nearly seven and one-half years of a minimum sentence of ten years. This is his first major conviction and he has now served three-fourths of his minimum sentence. The applicant was only nineteen years of age when he committed this crime and since his incarceration in the Western State Penitentiary he has given evidence of stability.

The Board of Trustees of the Western State Penitentiary recommend him for parole because of his excellent institutional record. He is now serving as a key man in the Welfare Cannery.

There is no objection from either the trial judge or the district attorney of Clinton County and since this is his first conviction, the Board of Pardons feels that this applicant has been severely punished and should be granted a commutation of sentence.

The Board of Pardons, therefore, recommends that his minimum sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Clara Shipcuskie Yeager, No. 9665, December Session, 1948.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Clara Shipcuskie Yeager, convicted of manslaughter in the Court of Oyer & Terminer of Northumberland County on July 12, 1948, be commuted from 2 years to 6 months and 3 days, expiring on January 15, 1949.

Our reasons for making this recommendation are as follows:

This applicant is thirty-two years of age and she had no prior criminal record. She was convicted under very peculiar circumstances of the death of her boy friend. She states that when she went to the victim's apartment she found the applicant already dead on the floor. It was the testimony of the next door neighbors, Mr. and Mrs. Koveleskie, that they heard the deceased talking and scuffling around prior to the applicant's calling on the deceased, that they held this woman for action by the grand jury. Following that, this applicant was released on bail and trial held and later convicted. During this period of time, the applicant married her present husband and she has actually served twenty-one months of her sentence but is only given credit for five months which was served after the withdrawal of motion for a new trial. Unfortunately for this applicant, she became pregnant and is about to be delivered of a child.

Since there was quite a conflict in the testimony and it could have been resolved either way, we feel she is entitled to some consideration.

The trial judge, Honorable William I. Troutman, feels we should grant commutation and also the district attorney states that he has no objection to commutation of sentence at this time.

Under all of these circumstances, we believe that the applicant's sentence should be commuted, and we therefore, recommend that it be so done.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Frank Brown, D-3908, No. 7424, January Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Frank Brown, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on March 31, 1939 to be computed from February 23, 1939 be commuted from 12½ years to 10 years, expiring on February 23, 1949.

Our reasons for making this recommendation are as follows:

This applicant is twenty-seven years of age and this is his first major conviction. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from twelve and one-half to thirty-five years for his participation and commission of twelve holdups. At the present time, he has served approximately ten years of his minimum sentence. A detainer has been filed from the State of New Jersey in connection with the holdups and he will be required to return to the State of New Jersey to serve a sentence there. The six other accomplices in the commission of the thefts and robberies, all have been freed at the expiration of their minimum sentences or by commutations.

The Board of Trustees of the Eastern State Penitentiary have stated that this applicant has an excellent institutional record. The trial judge, Honorable Harry S. McDevitt, states he would be inclined to give this applicant another chance. The district attorney of Philadelphia County is not opposed to the granting of relief.

Under all of the above circumstances, we feel that this applicant is entitled to consideration and recommend that commutation be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of William Wolf Cashman, E-276, No. 9707, January Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of William Wolf Cashman, convicted of fraudulent conversion in the Court of Oyer and Terminer of Lancaster County on April 16, 1948 be commuted from 1½ years to 10 months and 4 days, expiring on February 20, 1949.

Our reasons for making this recommendation are as follows:

This applicant is forty-five years of age and this is his first major conviction. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from one and one-half to three years for a matter, that in the mind of the Board would indicate, that, this is more of a civil case than one for the criminal courts. In this case, the applicant was accused of failing to turn over certain property due his employer, but the matter was more in the nature of a dispute of what was due the employer than it was with any criminal intent to defraud the employer of this property.

The Board of Trustees state that this applicant has an excellent institutional record and from what we are able to observe from the facts as reported in this case, we are not of the opinion that this case is a true criminal case but more in the nature of a spite use of the criminal law. Even so, the applicant has now served more than one-half of his minimum sentence and we believe this to be sufficient.

Under the circumstances, the Board of Pardons, therefore, recommends to Your Excellency that this sentence be commuted because it is not shown that this applicant had any criminal intent when this alleged offense was committed.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Clarence Cooper, No. 71986, No. 8115, January Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Clarence Cooper, convicted of murder in the second degree in the Court of Oyer and Terminer of Delaware County on March 25, 1942 to be computed from February 9, 1942, be commuted from 10 years to 7 years and 10 days, expiring on February 19, 1949.

Our reasons for making this recommendation are as follows:

This applicant is fifty-three years of age and this is his first major conviction. He was sentenced to a term of imprisonment in the Delaware County Prison for from ten to twenty years on a charge of murder in the second degree.

At the present time, he has served nearly seven years of his minimum sentence. This happening was more an accident than a crime, the applicant having fired through the door which was closed in an effort to scare away the victim who had been molesting the applicant. After the gun was fired, the applicant did not even know he had shot the victim and it was not until about an hour later when the applicant went outside, he found the victim's body. He immediately gave himself up to the police.

Since he has been incarcerated in the Delaware County Prison the Warden of the Delaware County Prison states that the applicant has a good institutional record. The district attorney of Delaware County has stated he is not opposed to granting a commutation and feels this applicant has been sufficiently punished.

The Board of Trustees agrees with the position of the district attorney and in the light of his present excellent

record in the institution and the fact the sentencing authorities are not opposed to commutation, we recommend that commutation of his sentence be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of John Diegel, No. C-1044, No. 126-B, January Sessions, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of John Diegel, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on June 2, 1933, be commuted from 20 years to 15 years and 8 months, expiring on February 2, 1949.

Our reasons for making this recommendation are as follows:

The applicant is one of many parolees whose release from parole by commutation of the maximum sentence has been recommended to the Board of Pardons by the Board of Parole.

The Board of Parole has recommended this applicant, as well as the others, because of his excellent record in the armed forces of the United States. By reason of his fealty to country, steadfastness in courage, and military earnestness, he helped overpower the enemies of our country in World War II.

As a token of appreciation, and feeling that his gallant conduct has atoned for the error of his past ways, it is our recommendation to your Excellency that the term of the maximum sentence of the applicant be commuted and that he be freed from further parole supervision.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of James Gowen, B-4732, No. 7579, January Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed upon James Gowen, convicted

of robbery larceny and receiving stolen goods in the Court of Oyer and Terminer of Cambria County on October 7, 1935; be commuted on Bill No. 17 December Sessions, 1935, from a minimum term of 5 years to a minimum term of 3 years, 4 months and 13 days, expiring on February 20, 1949; and on Bill No. 21 from a minimum term of 5 years to a minimum term of 1 day, expiring on February 21, 1949. (Applicant to be returned to Florida).

Our reasons for making this recommendation are as follows:

This applicant is thirty-seven years of age and this is his third major conviction. This applicant, however, has now served thirteen years and three months of a minimum sentence of twenty years on a charge of robbery, larceny and receiving stolen goods. This applicant was involved in four holdups and robberies and one of them was a bank in which the loot amounted to \$2,050.00. All of this loot was recovered with the exception of \$100.00.

The Board of Trustees of the Western State Penitentiary state that he has made a commendable institutional adjustment over the past six years, and if this applicant were eligible to apply for parole would probably recommend for parole since he has served over thirteen years and has made such a good institutional adjustment. The sentence of the applicant's accomplice was commuted on July 7, 1943, nearly six years ago.

The applicant upon his release will be required to go to the State of Florida where he will have to serve nearly thirteen additional years for an escape from that state.

In view of the fact that the applicant is required to serve such a substantial portion of the Florida sentence and the detainer is still active, we therefore, recommend that the sentence be commuted to the time served in Pennsylvania only on the condition that he be turned over to the Florida authorities for further incarceration on his escape charge.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.

Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Frank Hummel, C-664, No. 9679, January Session, 1948.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Frank Hummel, convicted of aggravated assault and battery in the Court of Quarter Sessions of Somerset County on May 15, 1948 be sentenced from 1½ years to 9 months and 10 days, expiring on February 25, 1949.

Our reasons for making this recommendation are as follows:

This applicant is thirty-one years of age and this is his first major conviction. He was sentenced to a term of imprisonment in the Western State Penitentiary for from one and one-half to three years on a charge of aggravated assault and battery on his wife.

Following the conviction the district attorney made it appear to the court that this applicant and his wife

were estranged and that the wife was afraid of the applicant. However, she appeared at the hearing of the Board of Pardons and stated that this injury which she received was entirely an accident and as far as she was concerned, she was not afraid of her husband. Evidence was further given that the district attorney went beyond his bounds in an attempt to send this applicant to jail.

This applicant has now served over one-half of his minimum sentence and since this is his first major conviction, we feel that this applicant has been adequately punished, in view of the wife's statement that the injury was accidental and that she wants him back.

Under all of these circumstances, we recommend that commutation of sentence be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of John Jones, No. 9701, January Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that John Jones, convicted of assault and battery, aggravated assault and battery in the Court of Quarter Sessions of Philadelphia County, on July 23, 1940, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is thirty-six years of age and he had no prior criminal record. The applicant, a licensed barber, was operating a shop. The victim, who mthe applicant hit, was not a licensed barber and he came to the applicant's place of business and attempted to solicit customers. As the applicant went for the barber inspector, the victim followed the applicant with an ice pick. The applicant grabbed the first thing he saw, which happened to be an iron pipe, and struck the victim. This affair occurred nearly nine years ago and the applicant is now married and is the father of eight children. If he is granted a pardon, he will be appointed to the Philadelphia Police Force.

The trial judge, Honorable Curtis Bok, recommends that a pardon be granted. The district attorney of Philadelphia County leaves the mater up to the Board of Pardons.

The Board of Pardons feels that this applicant certainly learned his lesson and will not again take the law into his own hands, and that he will be and continue to be a good lawful and peaceful citizen. In order, therefore, to clear his record in order that he may accept the position with the Philadelphia Police Department we recommend that a pardon be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.

WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Edward Lewis, D-4756, No. 7293, January Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Edward Lewis, convicted of robbery, being armed with an offensive weapon in the Oyer and Terminer and Quarter Sessions Court of Philadelphia County on March 15, 1940 to be computed from February 27, 1940, be commuted from 10 years to 9 years, expiring on February 27, 1949.

Our reasons for making this recommendation are as follows:

The applicant is one of many parolees whose release from parole by commutation of the maximum sentence has been recommended to the Board of Pardons by the Board of Parole.

The Board of Parole has recommended this applicant, as well as the others, because of his excellent record in the armed forces of the United States. By reason of his fealty to country, steadfastness in courage, and military earnestness, he helped overpower the enemies of our country in World War II.

As a token of appreciation, and feeling that his gallant conduct has atoned for the error of his past ways, it is our recommendation to your Excellency that the term of the maximum sentence of the applicant be commuted and that he be freed from further parole supervision.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Robert Enzer Lewis, C-73, No. 9407, January Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Robert Enzer Lewis, convicted of embezzlement and fraudulent conversion in the Court of Quarter Sessions of Indiana County on March 10, 1947, be commuted from 3 years to 1 year, 11 months and 10 days, expiring on February 20, 1949.

Our reasons for making this recommendation are as follows:

This applicant is forty-five years of age and has no prior criminal record. He was sentenced to a term of imprisonment in the Western State Penitentiary for from three to six years on a charge of embezzlement and fraudulent conversion.

It was found that he had embezzled from the bank where he was employed the amount of \$25,500.00 over a period of the past ten years. The money was apparently used to further his wife's extravagancies and children at a level not commensurate with his position in the bank. He finally was discovered, pleaded guilty to a charge of embezzlement and was sentenced as above indicated. He has now served nearly two years of a minimum sentence of three years.

The Board of Pardons recommends that this applicant be granted commutation of sentence because of the fact that he has an excellent institutional record and this is his first conviction.

Honorable E. E. Creps, judge of Indiana County, wrote the Board of Pardons a letter in which he stated: "... it is my belief that no good or useful purpose will be gained by his longer confinement in prison and that his application for commutation may well be given favorable consideration."

Since this applicant has served nearly two-thirds of his minimum sentence and the sentencing authorities of Indiana County are wholeheartedly in favor of his release, the Board of Pardons recommends to Your Excellency that the commutation prayed for be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Edward J. McGuinness, D-2089, No. 6149, January Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed on Edward J. McGuinness, convicted of larceny and receiving stolen goods, in the Oyer and Terminer Court of Luzerne County, on March 29, 1937; and of robbery and larceny, in the Oyer and Terminer and Quarter Sessions Court of Wyoming County, on August 1, 1940, be commuted on Bill No. 338 April Sessions, 1937, from a maximum term of 10 years to a maximum term of 8 years and 10 months expiring on January 29, 1949; on Bill No. 338A from a maximum term of 10 years to a maximum term of 1 day, expiring on January 30, 1949; on Bill No. 339 from a maximum term of 10 years to a maximum term of 1 day, expiring on January 31, 1949; on Bill No. 340 from a maximum term of 10 years to a maximum term of 1 day, expiring on February 1, 1949; on Bill No. 329 from a maximum term of 3 years to a maximum term of 1 day, expiring on February 2, 1949; Bill No. 18 from a maximum term of 10 years to a maximum term of 1 year and 10 months expiring on January 29, 1949; bill No. 19 from a maximum term of 10 years to a maximum term of 1 day, expiring on January 30, 1949; and on Bill No. 20 from a maximum term of 3 years to a maximum term of 1 day, expiring on January 31, 1949.

Our reasons for making this recommendation are as follows:

The applicant is one of many parolees whose release from parole by commutation of the maximum sentence has been recommended to the Board of Pardons by the Board of Parole.

The Board of Parole has recommended this applicant,

as well as the others, because of his excellent record in the armed forces of the United States. By reason of his fealty to country, steadfastness in courage, and military earnestness, he helped overpower the enemies of our country in World War II.

As a token of appreciation, and feeling that his gallant conduct has atoned for the error of his past ways, it is our recommendation to your Excellency that the term of the maximum sentence of the applicant be commuted and that he be freed from further parole supervision.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of George Mullen, D-7991, No. 8430, January Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of George Mullen, convicted of robbery in the Court of Quarter Sessions of Philadelphia County on November 13, 1944 to be computed from November 6, 1944, be commuted from 10 years to 4 years 3 months and 14 days, expiring on February 20, 1949.

Our reasons for making this recommendation are as follows:

This applicant is twenty-nine years of age and had no prior criminal record. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from ten to twenty years for the holdup of two taxicab drivers. This applicant has now served nearly five years of his minimum sentence.

The Board of Trustees of the Eastern State Penitentiary state that this applicant has an excellent institutional record and the trial judge, Honorable Harry S. McDevitt, states that this boy should be given a chance, that he only intended to give him a five to ten year sentence and that he failed to make this change in the sentence before the end of the term. This leaves the Board of Pardons as the only place the correction can be made. The district attorney of Philadelphia County is not opposed to the granting of commutation.

Because of the judge's statement that he did not intend the applicant to serve more than five years and because he has an excellent institutional record, and there is no opposition by the district attorney, we recommend that commutation of sentence be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Robert N. Nutt, No. 9611, January Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Robert N. Nutt, convicted of assault and battery, aggravated assault and battery in the Court of Quarter Sessions of Philadelphia County, on March 20, 1941, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is thirty-two years of age and he has no prior criminal record. He was in an accident in which a child darted out between parked cars. The applicant struck the child. He took the child to the hospital and saw all medical care was provided for the child.

As the result of this accident, he was arrested on a charge of assault and battery by an automobile. He was placed on probation for a period of one year and subsequently was inducted into the armed forces of the United States and served overseas for a period of three years and received an honorable discharge. This applicant has now sought a position with the federal government in the City of Philadelphia and because of this conviction, cannot obtain this position unless his name is cleared of this conviction.

The Board of Pardons is of the opinion that this applicant should never have been convicted of any offense, that this was a civil matter and that it was also an unavoidable accident, being a pure darting-out case.

The trial judge, Honorable John Robert Jones, has no comment to make.

Because of this applicant's excellent record both prior to and subsequent to the happening of this accident; the fact he served in the armed forces for nearly four years; we do not feel that this conviction should stand in his way, and we therefore, recommend that a pardon be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Steve Repyneck, D-9128, No. 2425, January Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of imprisonment imposed on Steve Repyneck, convicted of burglary, in the Quarter Sessions Court of Lehigh County, on June 5, 1940, to be computed from September 20, 1946; and larceny, in the Quarter Sessions Court of Schuylkill County, on September 15, 1944, be commuted on Bills Nos. 86, 87, 88 and 89 September Sessions, 1939, from a minimum term of 8 years to a minimum term of 2 years, 4 months and 26 days, expiring on February 16, 1949; and on Bill No. 48 January Sessions, 1941, from a maximum term of 4 years to a maximum term of 1 day, expiring on February 17, 1949.

Our reasons for making this recommendation are as follows:

This applicant is thirty-six years of age and this is not his first major conviction. The applicant, together with two accomplices, broke into different places in Lehigh, Northampton and Schuylkill Counties. They also stole several automobiles in their shortlived crime wave. They were all apprehended and were finally convicted of these offenses. At the time this applicant was apprehended and convicted, he was then on parole from the Eastern State Penitentiary. As a result of this parole violation, he was returned to serve six years and three months of his unexpired minimum sentence of seven years before he began to serve his minimum sentence of eight years in this case. So that at the present time, this applicant has served over eight and one-half years, but because of the parole violation, only two years and four months apply to the eight year minimum sentence.

The Board of Trustees of the Eastern State Penitentiary state that this applicant is a model prisoner and the trial judge, the Honorable Richard W. Iobst, when this matter was placed before the Board of Pardons, stated he had no objection to the granting of this commutation. The district attorney is not opposed, and it may be stated for the record, that the applicant's accomplices have all received commutation of their sentences and that about two years ago. Since their record was no worse than the applicant's record, we certainly feel that this applicant should be given some consideration at this time.

Because of his excellent institutional record, and because the sentencing authorities are not opposed to his commutation at this time, and the fact that he has served over two years longer than his accomplices, we feel that this is the time to now grant this applicant a commutation of his sentence.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Nicholas Anthony Riccio, D-9686, No. 9698, January Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of imprisonment imposed on Nicholas Anthony Riccio, convicted of burglary, larceny and receiving stolen goods, in the Oyer & Terminer and Quarter Sessions Court of Montgomery County, on June 13, 1947 to be computed from February 27, 1947; and of burglary, larceny and receiving stolen goods, in the Oyer & Terminer and Quarter Sessions Court of Bucks County, on February 18, 1948, be commuted on Bill No. 64 February Sessions, 1947, (Montgomery County) from a minimum term of 2½ years to a minimum term of 1 year, 11 months, and 19 days, expiring on February 16, 1949; and Bills Nos. 64-1, 64-2, and 64-3 concurrent sentences to 1 day each, expiring on February 19, 1949; and on Bill No. 43 February Sessions, 1948, (Bucks County) from a minimum term of 3 years (concurrent with Montgomery County sentence) to a minimum term of 1 day, expiring on February 20, 1949.

Our reasons for making this recommendation are as follows:

This applicant is thirty-five years of age and this is his first arrest and conviction for any offense whatsoever. At the present time, he has served nearly two years of his minimum sentence of three years. This applicant, together with an accomplice, stole silk and nylon yarn which was later sold to Milton H. Kaye and Philip Karfunkle for use in their hosiery mill. The applicant and his accomplices, the receivers of the stolen goods, were ultimately arrested and convicted. Subsequently Karfunkle applied to the Board of Pardons for commutation of his sentence and it was granted. Since the applicant has been incarcerated, his wife has attempted to care for the home and to keep the children together, there being four boys ranging in age from four to eleven years.

At the time of the meeting of the Board of Pardons, his counsel, Frank X. Renninger, Esquire, of Norristown, Pennsylvania, presented to the Board a petition asking for clemency on the part of the applicant, which said petition was signed by 306 persons. This counsel also stated that he was personally acquainted with this applicant and could recommend him to the Board.

Under all of these circumstances, and since we have a letter from the trial judge, Honorable Harold Knight, stating he is not opposed to granting the application for commutation as the applicant has a good record; and the assistant district attorney, Thomas E. Waters, Esquire, states he has no objection, that the applicant has a good record; and it is shown that the applicant does have a good record, we recommend that a commutation of his sentence be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Evans Riley, D-3855, No. 125-B, January Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Evans Riley, convicted of robbery in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on March 23, 1939 to be computed from February 24, 1939, be commuted from 20 years to 10 years, expiring on February 24, 1949.

Our reasons for making this recommendation are as follows:

The applicant is one of many parolees whose release from parole by commutation of the maximum sentence has been recommended to the Board of Pardons by the Board of Parole.

The Board of Parole has recommended this applicant, as well as the others, because of his excellent record in the armed forces of the United States. By reason of his fealty to country, steadfastness in courage, and military earnestness, he helped overpower the enemies of our country in World War II.

As a token of appreciation, and feeling that his gallant conduct has atoned for the error of his past ways, it is our recommendation to your Excellency that the term of the

maximum sentence of the applicant be commuted and that he be freed from further parole supervision.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of James Scaffidi, No. 9695, January Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that James Scaffidi, convicted of setting up and maintaining an illegal lottery in the Court of Quarter Sessions of Philadelphia County, on June 2, 1932, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is forty-three years of age and this is his only Pennsylvania offense which was the setting up and maintaining an illegal lottery which occurred sixteen and one-half years ago.

He has since been connected with the construction business and at the present time is engaged in his own construction business: "The Service Contracting Company," engaged in excavating and hauling. This conviction has hurt him and since it is over sixteen and one-half years ago, the Board feels he has been sufficiently punished and should not be harassed by this old conviction.

Since he has a respectable business and is no longer connected with the "numbers" racket; the district attorney is not opposed to the granting of this pardon; the present judge, Honorable Harry S. McDevitt, has no objection, we feel that this man has shown that he is now a respectable businessman and will not again offend against society, we therefore, recommend that a pardon be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,

T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Raymond S. Schutt, C-7783, No. 3742, January Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of imprisonment imposed on Raymond C. Schutt, convicted

of breaking and entering, larceny, robbery, felonious wounding, receiving stolen goods, breaking prison, in the Oyer and Terminer and Quarter Sessions Court of Luzerne County, on February 13, 1932, be commuted on Bill No. 82 June Sessions, 1931, from a maximum term of 20 years to a maximum term of 5 years and 7 months, expiring on February 16, 1949; on Bill No. 81 June Sessions, 1931, from a maximum term of 7 years to a maximum term of 1 day, expiring on February 17, 1949; on Bill No. 52 February Sessions, 1932, from a maximum term of 10 years to a maximum term of 1 day, expiring on February 18, 1949; and on Bill No. 53 February Sessions, 1932, from a maximum term of 2 years to a maximum term of 1 day, expiring on February 19, 1949.

Our reasons for making this recommendation are as follows:

This applicant is forty years of age and this is his first major conviction. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from twenty-four and one-half to forty-nine years for what amounted to a one-man crime wave. In the crime wave, which took place over a period of one day he attempted to burglarize a store, heldup a speakeasy, escaped from prison, and stole an automobile to further effect the escape. Nevertheless, after the applicant was convicted and sentenced to the Eastern State Penitentiary, he was granted commutation of his sentence after having served eleven and a half years of his minimum sentence.

Following his release on parole, under the sponsorship of Dr. Linn Bowman and guidance of Frank P. Tucker, the applicant made an excellent adjustment and is now in the business of buying and selling automobiles. He is married and has three children and is leading an honorable life.

The Board of Pardons received a report from the Board of Parole and they have found that he has made a successful adjustment and during the five and one-half years that he has been on parole, he has shown he will not again violate criminal laws.

There is no objection from the trial judge of Luzerne County and the district attorney has no objection to granting a commutation of his maximum sentence.

This applicant has bought his own home, is happily married, and is now raising three children. He asks this commutation of maximum sentence in order to be free from the stigma of arrest and conviction and also to permit a free hand in business activity for himself.

In view of his excellent conduct on parole in the report of the Board of Parole to the Board of Pardons, we feel that this applicant is now ready for a commutation of his maximum sentence and recommend that a commutation be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Arthur Siegel, D-9815, No. 9409, January Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Arthur Siegel, convicted of burglary in the

Court of Quarter Sessions of Philadelphia County on August 4, 1947 to be computed from January 24 1946 be commuted from 3 years 4 months to 3 years and 1 month, expiring on February 24, 1949.

Our reasons for making this recommendation are as follows:

This applicant is forty years of age and this is his first conviction for any offense whatsoever. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from three years, four months to fifteen years for his part in the hi-jacking of various articles of merchandise in and around Philadelphia. This applicant's part in the gang was to help unload the merchandise. At the present time, he has served three years of his minimum sentence of three years and four months.

The Board of Trustees of the Eastern State Penitentiary state that this applicant has an excellent institutional record. The district attorney of Philadelphia County state they are not opposed to the granting of commutation.

It was developed at the argument that this applicant's wife is seriously ill and in need of an operation and that she is having a very difficult time making ends meet.

In view of the fact that this commutation will only shorten the sentence by four months and it may save his wife's life, we therefore, recommend that commutation of sentence be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Onofrio Vito Spano, C-8057, No. 6108, January Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the life sentence of Onofrio Vito Spano, convicted of murder in the first degree in the Court of Oyer and Terminer of Philadelphia County on June 8, 1932, be commuted from life imprisonment to 16 years, 8 months and 12 days, expiring on February 20, 1949.

Our reasons for making this recommendation are as follows:

This applicant is sixty-four years of age and this is his first offense against society. The applicant is now serving a life sentence in the Eastern State Penitentiary and at the present time has served nearly seventeen years of his life sentence.

The Board of Trustees of the Eastern State Penitentiary have written the Board of Pardons and stated that this applicant has an excellent habit of industry which includes a long and continuous work record in the institution. He has demonstrated the habit of thrift and has large investments in war bonds and has made generous contributions of relatives. The parole plan offered for this applicant indicates that he will be given every opportunity to attempt rehabilitation. The persons, in whose charge he will be all of the time, are familiar with the facts of the crime and his subsequent conduct in prison.

The district attorney of Philadelphia County makes no objection and the trial judge, Honorable Frank Smith, has no comment to make regarding this commutation.

Under all of the circumstances, being familiar with the

facts of the crime, the Board feels that this applicant has been adequately punished. We, therefore, recommend that the sentences of this applicant be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Walter J. Ackerman, D-9975, No. 9742, February Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Walter J. Ackerman, convicted of forgery in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on October 17, 1947 to be computed from August 6, 1947 be commuted from 2 years to 1 year, 7 months and 10 days, expiring on March 16, 1949.

Our reasons for making this recommendation are as follows:

This applicant is fifty-seven years of age and has eight prior arrests and seven convictions. There is not very much to recommend him to the mercy of this Board or Your Excellency, but there is another factor that must be considered. This applicant has two failings, pen and blank checks, and whenever he sees an opportunity to put the two of them together, someone is out some money. This applicant however is suffering from tuberculosis and has been in the tubercular ward of the Eastern State Penitentiary.

The district attorney of Philadelphia County stated he is not opposed to the commuting of this sentence on condition that the applicant goes to a Veterans' Hospital.

Since he has served all but six months of his minimum sentence, we recommend that this sentence be commuted on condition that this applicant go to a Veterans' Hospital immediately.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Raymond Cassel, D-9685, No. 9732, February Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members

of the Board of Pardons recommend that the sentences of imprisonment imposed on Raymond Cassel, convicted of burglary, larceny, in the Quarter Sessions Court of Montgomery County, on June 13, 1947 to be computed from February 27, 1947; and of burglary, larceny and receiving stolen goods, in the Quarter Sessions Court of Bucks County, on February 18, 1948, be commuted on Bill No. 64 February Sessions, 1947, (Montgomery County) from a minimum term of 2½ years to a minimum term of 2 years and 19 days, expiring on March 16, 1949; and on Bill No. 43 February Session, 1948 (Bucks County) and to run concurrent with Montgomery County sentence) from a minimum term of 3 years to a minimum term of 1 day, expiring on March 17, 1949.

Our reasons for making this recommendation are as follows:

This applicant is forty-six years of age and has no prior criminal record. He, together with another individual, planned and burglarized hosiery mills in Montgomery and Bucks Counties. The loot was then sold to two receivers, Karfunkle and Kaye. The receivers were sentenced to a term of imprisonment in the Montgomery County Prison for from six months to one year, and this applicant, as an accomplice, received a term of imprisonment in the Eastern State Penitentiary for from three to six years. All of the accomplices have been released and this applicant who did no more than drive the truck, still remains in prison.

The trial judge, Honorable Harold G. Knight, has written the Board of Pardons that he feels this applicant is morally the least guilty of the four; and if such is the case, having already commuted the sentences of those who were more culpable than this applicant, this applicant's sentence should also be commuted.

For the above reasons, the Board of Pardons recommends that the sentence of this applicant be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of James Fuller, C-3398, No. 5871, February Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the life sentence of James Fuller, convicted of murder in the first degree in the Court of Oyer & Terminer and Quarter Sessions of Philadelphia County on April 30, 1926, be commuted from life imprisonment to 22 years, 10 months and 16 days, expiring on March 16, 1949.

Our reasons for making this recommendation are as follows:

This applicant is forty-five years of age and he has now served approximately one-half of his entire life in the Eastern State Penitentiary. He did, without a doubt, premeditate and kill his wife but that was nearly twenty-three years ago. He has since had an outstanding record at the Eastern State Penitentiary and has made every effort while there to rehabilitate himself.

The trial judge, Honorable Harry S. McDevitt, has stated that he would be inclined to give this applicant another chance. The district attorney is not inclined to agree with

the trial judge, but does not strongly oppose a commutation of sentence.

Since this applicant has an outstanding institutional record and the trial judge is inclined to give him another chance and the further fact that he has served nearly twenty-three years of a life sentence, the Board of Pardons recommends that a commutation be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of John Heenan, No. 9725, February Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that John Heenan, convicted of indecent exposure and open lewdness in the Court of Municipal of Philadelphia County, on September 29, 1939, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant was sentenced to probation for a period of one year for indecent exposure and open lewdness. Subsequently, this applicant joined the armed forces of the United States and served overseas with distinction. He has been in no further difficulty for a period of approximately ten years.

He desires this pardon because of his excellent army record and in order to remove this blemish from his past so that it will not rise up to haunt him in the future.

The trial judge, Honorable Thomas Bluett, writes the Board of Pardons and recommends that pardon be granted. The district attorney of Philadelphia County is not opposed to the granting of a pardon.

Since this applicant has maintained a good reputation and army record, the Board of Pardons recommends that this pardon be granted.

Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Adam Horowicz, D-2044, No. 5427, February Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due

public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Adam Horowicz, convicted of robbery, being armed with an offensive weapon in the Court of Oyer & Terminer and Quarter Sessions of Luzerne County on March 16, 1937 be commuted from 23 years, 8 months and 25 days, to 2 years, 4 months and 15 days, expiring on March 16, 1949.

Our reasons for making this recommendation are as follows:

This applicant is thirty years of age and was sentenced in 1937 to a term of imprisonment in the Eastern State Penitentiary for from ten to twenty years on a charge of being armed with an offensive weapon and robbery. Subsequently, having served approximately six years of this sentence he was released on parole. Having been on parole for approximately three years this applicant again committed robbery, being armed with an offensive weapon and he was sentenced to a term of imprisonment for from five to ten years, sentence to begin at the expiration of his parole violation.

It was the intention of the trial judge, Honorable J. Harold Flannery, to have his sentence run concurrently with his parole violation, but because of the Lerner-Wheeler decision, it was miscarried.

This applicant is now serving for the parole violation of his first sentence. He asks that the Board of Pardons commute his maximum sentence of ten to twenty years so he can be permitted to begin serving the five to ten year sentence recently imposed.

In order to give effect to the judge's sentence, we recommend that such be done and that the sentence of ten to twenty years maximum be commuted and the applicant be permitted to start serving the five to ten year sentence.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Walter John Hubicki, No. 64224, No. 9668, February Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Walter John Hubicki, convicted of burglary in the Court of Oyer & Terminer of Allegheny County on May 27, 1948, be commuted from 1½ years to 1 year expiring on May 27, 1949.

Our reasons for making this recommendation are as follows:

This applicant is twenty-nine years of age and this is his first conviction. The applicant was sentenced to a term of imprisonment in the Allegheny County Workhouse for from one and one-half to three years for stealing purses. At the present time he has served approximately nine months of his minimum sentence of one and one-half years.

The Warden of the Allegheny County Workhouse has stated he is not opposed to the granting of commutation.

The district attorney of Allegheny County has stated he is not opposed to the granting of commutation.

The district attorney of Allegheny County has stated he is not opposed to the granting of relief.

Since this was the applicant's first conviction and since he has an excellent institutional record, the Board of Pardons feels that he should be given encouragement in the form of reduction of his sentence. We, therefore, recommend that the commutation of sentence be granted as of May 27, 1949.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of James Kiefer, No. 9736, February Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons that James Kiefer, convicted of turning in a false fire alarm in the Court of Quarter Sessions of Philadelphia County, on June 15, 1936, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is thirty-eight years of age and this is his first conviction. He was sentenced to pay a fine of \$150.00 for turning in a false fire alarm. Now having done this and seen the Philadelphia Fire Company in action, he desires to become a member of their ranks; but because of this conviction he is forbidden to do so.

This applicant has served overseas in the United States Navy as Seaman First Class for the duration of the past war. This conviction has hurt this applicant because he has been unable to keep several positions because of the need for giving surety bond.

The trial judge, Honorable Joseph L. Kun, has written that he has no objection and recommends that a pardon be granted. The district attorney of Philadelphia County has no objection.

The Board of Pardons recommends that this pardon be granted and this frustrated individual relieved.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Frank Leonard, C-7184, No. 5655, February Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due

public notice, in open session, the undersigned members of the Board of Pardons recommend that the life sentence of Frank Leonard, convicted of murder in the first degree in the Court of Oyer and Terminer and Quarter Sessions of Luzerne County on June 18, 1931, be commuted from life imprisonment to 17 years and 9 months, expiring on March 18, 1949.

Our reasons for making this recommendation are as follows:

This applicant is fifty-five years of age and this is his first major conviction. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for life for the crime of murder in the first degree. This applicant, together with three accomplices, attempted to hold-up a speakeasy, and during the robbery, one of the applicant's accomplices shot and killed a customer and wounded another.

It is a strange thing, but the accomplice who fired the fatal shot has been released from prison over seven years ago. All the other parties connected with this killing, who were as culpable as this applicant, have had their sentences commuted five and six years ago; while this applicant who was no more guilty than his accomplices, still remains in prison.

The trial judge, Honorable John S. Fine, has written the Board of Pardons that he has no objection to commutation since the three accomplices have had their sentence commuted. The district attorney of Luzerne County, likewise, is not opposed.

Since this applicant has served almost eighteen years of a life sentence, and since all the accomplices have had their sentences commuted and this applicant has an excellent institutional record, the Board of Pardons feels he has been adequately punished, and if released, will not again offend against society, we, therefore, recommend that his sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Joseph Maida, No. 9723, February Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Joseph Maida, convicted of illegal lottery in the Court of Quarter Sessions of Philadelphia County, on June 18, 1942, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is thirty-eight years of age and this was his first conviction. He was sentenced to pay a fine of \$25.00 for maintaining an illegal lottery. There is no doubt but that this applicant was engaged in the "numbers" business, but that was seven years ago. Since then he has married and his two children, a son and daughter. He is also supporting his widowed mother.

The applicant states that the reason he committed this crime was that he was unemployed and he needed the money to support the wife and family. He has been steadily employed since then and has a good position with the City of Philadelphia. He desires this pardon in order

that he may get a surety bond and rise to a better position with the City of Philadelphia.

The trial judge, Honorable Byron A. Milner, has written the Board of Pardons that he is not opposed if the Board of Pardons desires to grant a pardon. The district attorney has stated to the Board of Pardons that he has no objection to the granting of a pardon.

The Board of Pardons, therefore, recommends that the pardon be granted as prayed for.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Howard Kenneth Montgomery, B-9129, No. 9137, February Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Howard Kenneth Montgomery, convicted of arson, burglary and larceny in the Court of Quarter Sessions of Lawrence County on November 3, 1944 to be computed from October 25, 1944 be commuted from 6 years to 4 years, 4 months and 20 days, expiring on March 15, 1949.

Our reasons for making this recommendation are as follows:

This applicant is twenty-five years of age and he has no prior criminal record. He and three accomplices were arrested for burglary, larceny and arson. There were altogether nine burglaries, two larcenies and two arsons of which two were the attempted burglaries and burning of two school houses.

This applicant has an excellent institutional record and the Board of Trustees of the Western State Penitentiary recommends that his sentence be commuted because of his excellent institutional record and this is his first conviction.

The trial judge, Honorable W. Walter Braham, recommends commutation at the end of three years of his six year minimum sentence. One of his accomplices, Mike Misco, had his sentence commuted by this Board in December 1948.

Because this applicant has an excellent institutional record and the trial judge recommends it and because one of his accomplices has had his sentence commuted, the Board of Pardons recommends that the applicant's sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Francis J. O'Donnell, B-3511, No. 3312, February Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed on Francis J. O'Donnell, convicted of robbery in the Court of Oyer and Terminer of Allegheny County on December 13, 1932, be commuted on Bill No. 59 November Sessions, 1932, from a maximum term of 10 years to a maximum term of 9 years, 11 months and 9 days, expiring on April 30, 1949.

Our reasons for making this recommendation are as follows:

This applicant is forty-four years of age and he has been returned to the Western State Penitentiary as a parole violator on a charge of robbery. After having served a term of two to four months for larceny the applicant was returned to the Western State Penitentiary for violation of his parole sentence on a sentence imposed in 1932.

The Board of Trustees of the Western State Penitentiary recommend that commutation of his maximum sentence be granted to permit him to receive credit for the time spent in the Allegheny County jail prior to conviction.

The district attorney of Allegheny County is not opposed to this procedure.

Since all this applicant asks for is twenty-one day's time awaiting sentence, the Board of Pardons recommends that his maximum sentence be commuted so as to grant him credit for twenty-one days jail time.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of James R. Porter, C-9753 No. 7411, February Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of James R. Porter, convicted of assault with intent to rob; burglary, robbery in the Court of Oyer & Terminer of Philadelphia County on June 18, 1941, to be commuted from February 11, 1941 be commuted from 10 years to 8 years, 1 month and 5 days, expiring on March 16, 1949.

Our reasons for making this recommendation are as follows:

This applicant is twenty-seven years of age and this is his first major conviction. He was sentenced together with eighteen accomplices, for a long list of offenses in which he had a small share. He has now served over eight years of a ten year minimum sentence. All of the accomplices, with the exception of one, have been released from the Eastern State Penitentiary; and this applicant, who was no more guilty than the others but received one of the heaviest sentences, still remains in the Philadelphia County Prison.

The trial judge, Honorable Eugene V. Alessandrini, writes the Board of Pardons and states he believes this applicant is worthy of consideration. The assistant district attorney of Philadelphia County, James W. Tracey, Jr., Esquire, stated to the Board of Pardons that he is not opposed to the granting of commutation.

Since this applicant was not any more guilty than the other accomplices and has had an excellent institutional record and the trial judge recommends, the Board of Pardons, likewise, joins in recommending to Your Excellency that the prayer of commutation be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Philip Rezet, No. 9740, February Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Philip Rezet, convicted of attempted burglary in the Court of Quarter Sessions of Philadelphia County on June 11, 1921; and of larceny in the Quarter Sessions Court of Philadelphia County on December 8, 1921, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is forty-seven years of age and he asks for pardon for the two Philadelphia offenses that occurred approximately twenty-eight years ago. This applicant stole approximately four dozen shirts and he was almost immediately apprehended. He was sixteen years of age when this offense was committed and since that time he has an excellent reputation.

The trial judge is now deceased. The Honorable Harry S. McDevitt, has written the Board of Pardons that he has no objection although he pointed out an arrest for disorderly conduct in 1945.

The arrest in 1945 was adequately explained to the Board of Pardons and we do not believe he was culpable. He lost one position with the City Solicitor's Office in Philadelphia because of his previous criminal record. This applicant has lived an exemplary life and has two sons, age seventeen and twenty-three years of age.

The Board of Pardons feels he should not be made to pay his entire life for an affair of his youth and since he has been a good citizen for the past twenty-two years, we recommend that the pardon be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Abraham Wolk, D-4571, No. 7664, February Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Abraham Wolk, convicted of robbery in the Court of Oyer and Terminer of Philadelphia County on January 8, 1940 to be computed from December 29, 1939, be computed from 20 years to 9 years, 2 months and 17 days, expiring on March 16, 1949.

Our reasons for making this recommendation are as follows:

This applicant is thirty-one years of age and this is his first major conviction. This applicant with two accomplices committed eight robberies and the applicant was sentenced to a term of imprisonment in the Eastern State Penitentiary for from twenty to forty years for these offenses. He has now served approximately ten years of his minimum sentence of twenty years.

The Board of Trustees of the Eastern State Penitentiary has stated to the Board of Pardons that this applicant has an excellent institutional record and the trial judge, Honorable Joseph L. Kun, has written the Board of Pardons recommending that commutation be granted in view of the applicant's service. The district attorney, however, does not agree with the trial judge in this matter and is opposed to the commutation.

Since he is a virtual first offender and has served approximately one-half of his minimum sentence, the Board of Pardons recommends that commutation of his minimum sentence be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of David Brandt, D-4485, No. 9776, March Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of David Brandt, convicted of murder in the second degree in the Court of Quarter Sessions of Philadelphia County on December 12, 1939 to be computed from May 26, 1939, be commuted from 20 years to 9 years and 11 months, expiring on April 26, 1949.

Our reasons for making this recommendation are as follows:

This applicant is forty years of age and this was his only major conviction. This applicant has been charged with being "messenger boy" in the arsenic poison cases in Philadelphia. This applicant pleaded guilty to murder in the second degree and was sentenced to a term of imprisonment in the Eastern State Penitentiary for from two to twenty years.

Since his release on parole, he has become President of the Speedcraft Tool Corporation and this company now does a business of one quarter million dollars annually.

It is true that there was little evidence of probity value

that could have gone to the jury to indicate this applicant had definite knowledge of his part in the transaction. He has made an excellent adjustment since his release on parole, is well regarded and subject to no derogatory comments. The Board of Parole states that they have no information against him.

Under all of these circumstances, the Board of Pardons feels that this defendant has been severely punished and we feel that this applicant has earned his right of commutation of maximum sentence. We, therefore, recommend that commutation of his maximum sentence be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Jacob Chinnic, C-5068, No. 1525, March Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed upon Jacob Chinnic, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on January 15, 1929, be commuted on Bill No. 527 January Sessions, 1929, from a maximum term of 14 years to a maximum term of 11 years, 1 month, and 4 days, expiring on April 20, 1949.

Our reasons for making this recommendation are as follows:

This applicant is thirty-nine years of age and this was his first major conviction. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from fifteen to thirty years on a charge of robbery, being armed with an offensive weapon. This applicant, after having served eight years and two months of his minimum sentence, was granted commutation of sentence on February 25, 1938. He has been on parole for a period of ten years and eleven months. During that time he has been in no further trouble whatsoever.

The Board of Parole states that this applicant has had an excellent record while on parole and that he has made a good adjustment and is a good man living with his wife and four children.

He seeks a commutation of his maximum sentence in order to remove the possibility of embarrassment for his children and for freedom of travel which is required in his position.

Since this was the applicant's first serious offense and he has served a long period of time on parole, this applicant merits commutation of his maximum sentence which he now seeks. The Board of Pardons, therefore, recommends that commutation of his maximum sentence be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Frederick Colafrancesco, No. 9766, March Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons that Frederick Colafrancesco, convicted of contributing to delinquency of minors, unlawfully keeping alcoholic beverages, keeping a gaming and disorderly house in the Court of Quarter Sessions of Philadelphia County, on April 25, 1946, be pardoned.

Our reasons for making this recommendation are as follows:

The applicant is forty years of age and this is his only offense against society. He was bartender at a social club which did not have a liquor license and there were minors in the club.

He has been in no further trouble for over two years, and he served in the armed forces in the United States during the war. He has an excellent position with the Philadelphia Daily News and supports an aged mother and father, as well as an invalid brother.

The Board of Pardons believes that this has been a deterrent on his future and a blot on his life. We do not believe he will again commit any offense whatsoever, and we therefore, recommend that a pardon be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Lawrence Daniel Fennessy, No. 9768, March Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Lawrence Daniel Fennessy, convicted of involuntary manslaughter in the Court of Quarter Sessions of Schuylkill County on May 6, 1948 to be computed from May 5, 1948, be commuted from 1½ years to 1 year expiring on May 5, 1949.

Our reasons for making this recommendation are as follows:

This applicant is fifty-one years of age and this is his first major conviction. He was sentenced to a term of imprisonment in the Schuylkill County Prison for from 1½ to 3 years on a charge of involuntary manslaughter. This accident occurred in 1939 and this applicant would not be in prison today had he not, nearly ten years after the occurrence of the accident, came to the district attorney and stated that he believed he was the guilty party. As a result of this, the applicant was sentenced to the above term. He has now served over ten months of the eighteen months.

Since he voluntarily returned and sought to relieve his conscience by a plea of guilty to this indictment, we believe that he has been sufficiently punished when he has served a term of one year.

Both the trial judge and the district attorney have indicated they are not opposed to the granting of clemency in this matter.

Under all of these circumstances, the Board of Pardons recommends to Your Excellency that commutation of sentence be granted as of May 5, 1949, on which date this applicant will have served one year.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Daniel Archbald Francis, C-7918, C-5671, No. 7398, March Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed on Daniel Archbald Francis, convicted of robbery, being armed with an offensive weapon, in the Oyer and Terminer Court of Philadelphia County on October 15, 1929; and of murder in the second degree, in the Quarter Sessions Court of Philadelphia County on June 30, 1938, be commuted on Bill No. 110 October Sessions, 1929, from a maximum term of 20 years to a maximum term of 19 years, 6 months and 5 days, expiring on April 20, 1949; on Bill No. 111 from a minimum term of 10 years to a minimum term of 1 day, expiring on April 21, 1949; and on Bill No. 710 May Sessions, 1938, from a minimum term of 10 years to a minimum term of 1 day, expiring on April 22, 1949.

Our reasons for making this recommendation are as follows:

This applicant is forty-one years of age and although he has been arrested on six former occasions, this was his first major conviction. This applicant was sentenced to a term of imprisonment in the Eastern State Penitentiary for from thirty to sixty years on charges of robbery, being armed with an offensive weapon and murder in the second degree. The murder in the second degree was imposed for a killing which occurred at the Eastern State Penitentiary. This fight arose without any cause on the part of the applicant. At the present time, he has served nineteen years and five months of a minimum sentence of thirty years.

The trial judge, Honorable Harry S. McDevitt, has written the Board of Pardons and stated he is inclined to recommend that commutation be granted. The district attorney of Philadelphia County has stated publically to the Board that he has no objection to the granting of commutation.

Dr. F. S. Baldi, Superintendent of the Philadelphia County Prison, where this inmate is confined, has written the Board of Pardons that he feels this man has learned his lesson and states he believes he will become a decent member of society.

Because of the length of time this applicant has served in prison; his excellent record; and the recommendations of the trial judge and the district attorney, the Board of Pardons recommends that his sentence be commuted.

Respectfully submitted,
 DANIEL B. STRICKLER,
 Lieutenant-Governor.
 CHARLES M. MORRISON,
 Secretary of the Commonwealth.
 T. McKEEN CHIDSEY,
 Attorney General.
 WILLIAM S. LIVENGOD, JR.,
 Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
 Governor.

BOARD OF PARDONS

In re application of Walter Lee Johnson, 64277, No. 9782,
 March Session, 1949.

To His Excellency, the Governor of the Commonwealth of
 Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the flat sentence of Walter Lee Johnson, convicted of burglary, larceny, receiving stolen goods in the Court of Oyer and Terminer of Westmoreland County in June 8, 1948 to be computed from April 23, 1948 be commuted from 2½ years to 1 year expiring on April 23, 1949.

Our reasons for making this recommendation are as follows:

This applicant is thirty-eight years of age and has twelve prior arrests and ten convictions. This applicant was sentenced to a term of imprisonment in the Allegheny County for two and one-half years. Before this, applicant was sentenced in Westmoreland County. He was held in the Allegheny County Workhouse for a term of eleven months and sixteen days on a charge in Allegheny County. When he was brought to trial in this matter, he was acquitted, was then taken to Westmoreland County and given the sentence referred to here. He was not given any credit for the eleven months and sixteen days when he was returned to serve in the Allegheny County Workhouse. This applicant would be entitled to seven months from his minimum sentence under the Act of 1901.

He has a good record in the Allegheny County Workhouse and although the trial judge and the district attorney indicated some opposition, still we should not take one month out of this man's life without giving him something in return. He did not ask to be held in the Allegheny County Workhouse eleven months before being brought to trial.

Under all of these circumstances, we feel that he should receive the credit for this time as well as good time, which would make him eligible for parole at the present time. The Board of Pardons, therefore, recommends that his sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
 Lieutenant-Governor.
 CHARLES M. MORRISON,
 Secretary of the Commonwealth.
 T. McKEEN CHIDSEY,
 Attorney General.
 WILLIAM S. LIVENGOD, JR.,
 Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
 Governor.

BOARD OF PARDONS

In re application of Peter Katkevicius, D-4737, No. 8332,
 March Session, 1949.

To His Excellency, the Governor of the Commonwealth of
 Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Peter Katkevicius, convicted of robbery, being armed with an offensive weapon, in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on March 13, 1940 to be computed from March 2, 1940, be commuted from 15 years to 9 years, 1 month and 18 days, expiring on April 20, 1949.

Our reasons for making this recommendation are as follows:

This applicant is thirty-one years of age and this was his first conviction. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from fifteen to fifty years for his part in nine robberies. This applicant received as part of his share of the loot, the sum of \$250.00. He has now served over nine years of a fifteen year minimum sentence.

This applicant, at the time of the commission of these sentences, had four accomplices. These accomplices received sentences of like duration with the applicant. All of these accomplices have now had their sentences commuted and are released on parole; in fact, one of the accomplices has had his maximum sentence commuted in March of 1948.

The Board of Trustees of the Eastern State Penitentiary state that this applicant has an excellent institutional record. The trial judge, Honorable Harry S. McDevitt, has written the Board and stated he has no objection to the granting of commutation. He states he is cooperative and has tried to improve his education. The district attorney has stated he was not opposed to the granting of this commutation.

Under all of these circumstances, the Board of Pardons feels this applicant should be given the same treatment as his accomplices and for that reason we recommend that the commutation of his minimum sentence be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
 Lieutenant-Governor.
 CHARLES M. MORRISON,
 Secretary of the Commonwealth.
 T. McKEEN CHIDSEY,
 Attorney General.
 WILLIAM S. LIVENGOD, JR.,
 Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
 Governor.

BOARD OF PARDONS

In re application of Russell F. Krannacher, B-6982, No. 7051, March Session, 1949.

To His Excellency, the Governor of the Commonwealth of
 Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed upon Russell F. Krannacher, convicted of forgery in the Court of Quarter Sessions of Crawford County on November 29, 1939 to be computed from November 4, 1939, be commuted on Bill No. 38 November Sessions, 1939, from a minimum term of 5 years, to a minimum term of 4 years and 6 months, expiring on May 4, 1949. (Applicant granted parole on Bill No. 37).

Our reasons for making this recommendation are as follows:

This applicant is thirty-two years of age and this is his first major conviction. He was sentenced to a term of imprisonment in the Western State Penitentiary for from ten to thirty years on a charge of forgery. At this time, the applicant has served over nine years of his minimum

sentence. The total amount involved in the forgeries was \$60.00.

The Board of Pardons feels that this applicant has been very severely punished and we feel that a sentence of ten years for forgery is in the language of inmates, "a bit salty."

This applicant has an excellent institutional record and is employed in the library of the prison. We believe that this applicant has been taught a very great lesson and if granted parole will not breach this trust. The present judge, Honorable Herbert A. Mook, who was district attorney when this applicant was sentenced, has no comment to make. The present district attorney leaves the matter of commutation up to the Board.

Under all of these circumstances, the Board of Pardons feels that this applicant has been adequately punished and will not breach the faith and trust we are about to impose in him. We recommend that commutation of his sentence be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Martin Litwak, No. 9779, March Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Martin Litwak, convicted of fraudulent conversion, obtaining money under false pretense, in the Court of Municipal of Philadelphia County, on February 9, 1939, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is thirty-five years of age and he was placed on probation for a period of six months on a charge of fraudulent conversion and obtaining money under false pretense. The applicant's method of operation was to receive deposits for household products in the sum of twenty-five (25c) cents and then he would later fail to deliver the articles. This applicant has not been in any further trouble for over ten years and is actively engaged as an insurance salesman. This one offense was sufficient to teach him a lesson.

Neither the trial judge or the district attorney opposes any pardon in this matter.

The record of this applicant's conviction has caused him great hardship and he has had difficulty in securing employment. It was only through the most diligent and earnest effort on his part that he was able to secure an insurance salesman's license.

He now desires this pardon in order that this blot will not effect his wife and four children who are at an age now where this matter might easily effect their entire future.

The Board of Pardons, therefore, recommends that a pardon be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.

T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Allen Manes, No. 9780, March Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Allen Manes, convicted of receiving stolen goods, in the Court of Quarter Sessions of Allegheny County, on March 3, 1939, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is forty years of age and was sentenced to three years on probation on a charge of receiving stolen goods. The applicant conducted a second-hand and loan office and in the operation of his business, purchased some old gold and jewelry which later turned out to be stolen.

This applicant served in the armed forces of the United States and received a distinguished unit citation while serving as radio operator with his signal company in the Asiatic-Pacific Theater. He is married and has a three year old daughter.

The applicant is now serving as manager of a loan company in the Borough of Braddock in Allegheny County. The applicant desires to go into the loan business himself, but is unable to secure a license from the Department of Banking until he received a pardon for this offense.

In order that he may not be held back because of this misfortune, the Board of Pardons recommends that a pardon be granted to him.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Salvatore D. Manno, B-9519, No. 9195, March Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons, recommend that the sentences of imprisonment imposed upon Salvatore D. Manno, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer of Beaver County on February 1, 1946, to be computed from January 10, 1946; and of burglary in the Court of Oyer and Terminer of Allegheny County on November 19, 1946, be commuted on Bill No. 10 March Sessions, 1946, from a minimum term of 4 years to a minimum term of 3 years, 3 months and 9 days, expiring on April 19, 1949; and on Bill No. 98 March Sessions, 1946 (Allegheny County and to run concurrent)

from a minimum term of 4 years to a minimum term of 2 years and 5 months, expiring on April 19, 1949.

Our reasons for making this recommendation are as follows:

This applicant is twenty-six years of age. At the present time he is serving two concurrent sentences in the Western State Penitentiary for from four to eight and four to ten years from both Beaver and Allegheny Counties. The offenses for which he is serving this time, consisted of robbery in which guns were used and cars were stolen. At the present time, this applicant has served over three years this was his first offense for which he was ever arrested.

He has an excellent institutional record in the Western State Penitentiary and the Board of Trustees states that they feel if he is justifiable for parole, they would recommend.

One of the trial judges, Honorable Henry Ellenbogen, states that he has no recommendation to make and is in accordance with anything the Board of Pardons sees fit to do.

Under all of these circumstances, we feel that this applicant has been adequately punished and will not commit any offense against society, and the Board of Pardons, therefore, recommends that commutation of sentence be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Livio J. Morelli, No. 9773, March Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Livio J. Morelli, convicted of breaking and entering in the Court of Quarter Sessions of Allegheny County, on February 27, 1936, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is thirty years of age and this was his first conviction in 1937 on a charge of breaking and entering, when he was only seventeen years of age.

He has not been in any further trouble. During the last war, the applicant served in the air force. He has always been a law-abiding citizen since the happening of this offense.

Neither the trial judge or the district attorney is opposed to the granting of this pardon.

Because of his excellent record in the air force during the past war and the fact that he is married and has one son for whose sake he desires the blot on his life removed, the Board of Pardons recommends that this pardon be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.

WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Nicholas Panaia, No. 62157, No. 9439, March Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Nicholas Panaia, convicted of robbery, being armed with an offensive weapon, burglary, in the Court of Oyer and Terminer of Allegheny County on November 27, 1946 to be computed from October 16, 1946, be commuted from 4 years to 2 years, 6 months and 4 days, expiring on April 20, 1949.

Our reasons for making this recommendation are as follows:

This applicant is twenty-three years of age and at the present time has served two and one-half years of a minimum sentence of four years in the Allegheny County Workhouse on a charge of robbery, being armed with an offensive weapon and burglary. This applicant has an excellent institutional record and there is nothing against him. This applicant, prior to being involved, served in the armed forces of the United States for a period of two years and received a medical discharge because of injuries received in the service. Since this applicant has been confined, his father has become almost totally blind and if he is required to undergo an operation which is contemplated, he will be totally blind.

Under all of these circumstances, we feel this applicant has been sufficiently punished and will not again offend against society.

The district attorney of Allegheny County has stated he is not opposed to commutation although the trial judge, Honorable James L. O'Toole, has written to the Board and stated he believes this application is premature.

But for the father's condition and the almost destitute circumstances in which the family finds itself, the Board would probably require the applicant to serve a longer portion of time. However, in view of his good record with the United States Navy; the fact that the family is in destitute circumstances; the fact that he has served two and one-half years of his minimum sentence of four years, the Board recommends that this applicant's sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Raymond W. Snuffin, D-4166, No. 9182, March Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members

of the Board of Pardons recommend that the flat sentence of Raymond W. Snuffin, convicted of involuntary manslaughter; failing to stop; operating automobile while under the influence of intoxicating liquor, in the Court of Quarter Sessions of Philadelphia County on March 19, 1947, be commuted from 7 years to 2 years and 1 month, expiring on April 19, 1949.

Our reasons for making this recommendation are as follows:

This applicant is forty-eight years of age and he asks commutation of sentence for a charge on involuntary manslaughter; failing to stop and render assistance; operating an automobile while under the influence of intoxicating liquor. These charges all grew out of the same accident and the Board of Pardons feels that he was improperly sentenced on each of the bills, and that the offenses were all merged in the involuntary manslaughter and he should not have been sentenced separately. However, the defendant did have a very bad accident in which the victim's head was literally decapitated.

He has an excellent record in the Philadelphia County Prison and was a man of some means and, until the happening of this occurrence, he had a good reputation in his community. He has been very severely punished by this sentence.

At the present time, the applicant has served over two years of his flat sentence, and we feel under all the circumstances, this will be sufficient to punish the applicant in this case. We do not think he will again offend against society in any manner whatsoever.

The Board of Pardons, therefore, recommends that his sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Wilhemina Spence, No. 1842, No. 8508. March Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Wilhemina Spence, convicted of murder in the second degree, in the Court of Oyer and Terminer of Delaware County on September 30, 1941 to be computed from July 7, 1941, be commuted from 10 years to 7 years, 9 months and 13 days, expiring on April 20, 1949.

Our reasons for making this recommendation are as follows:

This applicant is forty-five years of age and she is serving a term of imprisonment in the Broadmeadows Prison Farm for from ten to twenty years on a charge of murder in the second degree. The stabbing occurred when the applicant's boy friend came at her with a knife in his hand and attempted to drag her from the taproom where she was. When she saw the applicant with a knife in his hand, she drew a knife and cut the victim.

The applicant has an excellent record in the Broadmeadows Prison Farm and since she has no prior criminal record, we feel she has served a very long portion of her sentence.

She will be able to return to the home of her former employers, who will give her both a home and a position.

Since this applicant has served almost eight years of her minimum sentence and since she never was in any other trouble before, we recommend that her sentence be commuted and the applicant be placed on parole.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Morris Tobin, C-8300, No. 1764, March Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Morris Tobin, convicted of conspiracy to publish fraudulent railroad tickets, in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County, on September 30, 1932, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant seeks a pardon on a sentence for from ten to twenty years in the Eastern State Penitentiary on a charge of conspiracy to publish fraudulent railroad tickets. The applicant served three years of his minimum sentence and his sentence was commuted and he was released on parole September 30, 1935. Since his release on parole, applicant's record has been excellent.

Applicant is now engaged in the general contracting business and is unable to apply for bonds in his business because of his prior conviction.

Both the trial judge and the district attorney from Philadelphia County recommend that a pardon be granted; and in view of his good record, the Board of Pardons joins in recommending him to Your Excellency for a pardon.

Respectfully submitted,

Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Jesse B. Andrews, D-34, No. 5697, April Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of imprisonment imposed upon the said Jesse B. Andrews, convicted of felonious entry, larceny, etc., in the Court of

Oyer and Terminer and Quarter Sessions of Lancaster County on December 12, 1934; and of burglary, larceny in the Oyer and Terminer and Quarter Sessions Court of Montgomery County on April 1, 1935, be commuted from a maximum term of 4 years on 60C Dec. Sess. 1934, (Lancaster County) to a maximum term of 2 years, 7 months and 8 days, expiring on May 20, 1949; and on Bills Nos. 60B; 60E; 60F; 60G; 60H; 60I; and 60J to a maximum term of 1 day each, expiring on May 27, 1949; and on Bill No. 60K from a minimum term of 1½ years to a minimum term of 1 day, expiring on May 28, 1949; and on Bill No. 107-L Sept. Sess. 1934 (Montgomery County and to run concurrent with all other sentences) from a minimum term of 15 years to a minimum term of 1 day, expiring on May 29, 1949. (Applicant has been granted parole on Bills Nos. 58A to 58E inclusive and also 60A, 60B and 60C).

Our reasons for making this recommendation are as follows:

This applicant is thirty-five years of age and he was sentenced in Lancaster County to imprisonment in the Eastern State Penitentiary for from twenty-four to sixty-four years, and in Montgomery County to a term of imprisonment for from fifteen to thirty years. This sentence to run concurrently with the sentence imposed in Lancaster County.

True he was alleged to have entered twenty-two places in Lancaster, Montgomery and Delaware Counties, nevertheless the Board of Pardons feels that he received a very severe sentence. At the present time, he has served over fourteen and one-half years of his minimum sentence of twenty-four years imposed in Lancaster County. During these fourteen years, he had an excellent institutional record over the entire period and he has been cooperative with the institutional authorities. It is stated to us that he uses his prison time constructively and has purchased war bonds and he has established a good institutional balance. The officer, who has him in charge and who has observed him over a number of years, states he is a model prisoner and has developed emotional and social stability.

The present judge, Honorable Oliver S. Schaeffer of Lancaster County, leaves the matter of commutation up to the Board of Pardons. The district attorney of Lancaster County offers no comment on commutation. The district attorney of Montgomery County believes he should serve his fifteen years. By the time his commutation and parole are effective he will have served his minimum sentence.

Because of his excellent institutional record as reported therefrom, the length of time he has served, and his general attitude toward parole, we feel this applicant is a worthy applicant for commutation, and we therefore, so recommend.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Felix Bocchicchio, C-8538, No. 9769, April Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Felix Bocchicchio, convicted of breaking and escaping prison in the

Court of Quarter Sessions of Northumberland County, on September 19, 1932, to be computed from October 19, 1932, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is forty-two years of age and applies for a pardon on a charge of breaking and escaping from the Northumberland County Prison which occurred in 1932. After his apprehension, he served his sentence of one year and a parole period of one additional year without further trouble.

This applicant has proved to be an outstanding example in his own community and has taken an active interest in all social and welfare organizations in his home town. He is especially interested in the rehabilitation of wounded veterans and the restoration of crippled children. He is well thought of in his home locality and has led an exemplary life there. He has gained the respect of many people in high places in his rehabilitation and ability to go straight and lead others along that path. He has been a guide and inspiration to persons, and but for his leading hand, some might have not reached the high places in which they find themselves today. It is through his guidance and faith in persons whom he has met and lead that he is able to do so much in his line of endeavor.

It is now shown that this conviction is deterring him from advancing himself and his associates and may be a decided hinderance in the next few months to him.

Because of his exemplary life in the community and the excellent reputation and outstanding ability he has as a citizen, the Board of Pardons sees no reason why he should be condemned for life by this one black mark. We, therefore, recommend that a pardon be granted this applicant.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Elmer R. Brunner, No. 64885, No. 9817, April Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Earl R. Brunner, convicted of larceny in the Court of Quarter Sessions of Butler County on October 29, 1948, be commuted from 1 year to nine months, expiring on July 29, 1949.

Our reasons for making this recommendation are as follows:

This applicant is twenty-seven years of age and he has no prior criminal record. He was sentenced to a term of imprisonment in the Allegheny County Workhouse for from one or two years for the commission of larceny of four or five pigs. Most of the pigs were recovered and restitution was made for which no recovery was had.

The warden of the Allegheny County Workhouse has advised the Board of Pardons that the applicant has an excellent institutional record. Neither the trial judge or the district attorney has made any recommendation to the Board of Pardons.

Since this applicant has served a little over six months of his minimum sentence, the Board is recommending that the applicant serve nine months and his sentence be com-

muted to expire July 29, 1949, when he shall have served nine months. We do this because of his excellent institutional record and the fact that he has no prior criminal record.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Robert Vernon DeLong, C-579, No. 9788, April Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Robert Vernon DeLong, convicted of burglary in the Court of Oyer and Terminer of Crawford County, on February 23, 1948, be commuted from 1½ years to 1 year and 3 months, expiring on May 23, 1949.

Our reasons for making this recommendation are as follows:

This applicant is twenty-two years of age and this is his first major conviction. The applicant was sentenced to a term of imprisonment in the Western State Penitentiary for from one and one-half to five years on a charge of burglary. However, it was shown to the Board of Pardons that what this applicant had done was that he intended to commit a burglary and had not gotten to the point of committing an attempt.

Under these circumstances, we feel that since this applicant failed to commit this crime, and he has now served fifteen months of his eighteen months minimum sentence that he has been severely punished, and since this is his first conviction and he merely intended to commit a crime which intent he never carried out, the Board of Pardons feels his sentence should be commuted, and we so recommend to Your Excellency.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Amos Kenneth Dennison, B-6202, No. 7304, April Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Amos Kenneth Dennison, convicted of robbery

in the Court of Oyer and Terminer of Allegheny County on May 20, 1938 to be computed from May 11, 1938, be commuted from 15 years to 11 years and 9 days, expiring on May 20, 1949.

Our reasons for making this recommendation are as follows:

This applicant is thirty-eight years of age, and although he had four times before been convicted of offenses, this is the first major conviction and sentence. At the present time, he has served nearly eleven years of a minimum sentence of fifteen years. He had two accomplices in commission of this crime, one of which was sentenced to a period of five to ten years and served the complete five year sentence, and the other who was sentenced to a term of ten to twenty years but was paroled after having served approximately four years and nine months. Neither of the accomplices have served as long a period of time as the applicant, and the applicant does not have any worse record than the accomplices.

The Board of Trustees of the Western State Penitentiary state that the applicant has an excellent institutional record and if he was eligible to apply for parole, they would recommend him. He offers a good parole plan and we feel if he is granted commutation of sentence, he would not again offend against society. The district attorney of Allegheny County leaves the matter of commutation up to the Board. The trial judge, Honorable S. H. Gardner, is deceased and no judge has written his opinion of this case.

Under all the above circumstances, we feel that this applicant has served a much longer time than any of his accomplices, and that he is a fit subject for commutation of sentence at this time. We, therefore, recommend that his sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, Jr.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Alexander Drost, C-4824, No. 3500, April Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the life sentence of Alexander Drost, convicted of murder in the first degree in the Court of Oyer and Terminer of Philadelphia County on September 25, 1928, be commuted from life imprisonment to 20 years and 8 months, expiring on May 25, 1949.

Our reasons for making this recommendation are as follows:

This applicant is fifty-four years of age and has no prior criminal record. In 1928 he committed this crime which appeared to be murder in the first degree. After pleading guilty, he was sentenced to a life term of imprisonment in the Eastern State Penitentiary. At the present time, he has served over twenty years and seven months of this sentence.

There is no doubt but what this was a crime of passion and there was also evidence that the victim enlisted the aid of two persons and beat applicant over the head with a milk bottle.

During the entire time of incarceration in the Eastern State Penitentiary, this applicant has maintained a per-

fect disciplinary record. He has demonstrated a habit of thrift and industry and has a substantial savings account. He is one of the most adjusted prisoners in the institution. He has an excellent parole plan which the Board of Parole recommends be accepted. The trial judge, Honorable Horace Stern, is now a member of the Supreme Court of Pennsylvania and does not advise of his position. The district attorney of Philadelphia County leaves the matter of commutation up to the Board of Pardons.

Since this applicant has served such a lengthy period of time and with a good institutional record and since he was never before convicted of any offense whatsoever, we feel he has earned a commutation of sentence. We, therefore, recommend commutation of sentence be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, Jr.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Harry A. Freas, C-8375, No. 127-B, April Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Harry A. Freas, convicted of burglary in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on March 13, 1940 to be computed from August 2, 1940, be commuted from 10 years to 8 years and 9 months, expiring on May 2, 1940.

Our reasons for making this recommendation are as follows:

The applicant is one of many parolees whose release from parole by commutation of the maximum sentence has been recommended to the Board of Pardons by the Board of Parole.

The Board of Parole has recommended this applicant, as well as the others, because of his excellent record in the armed forces of the United States. By reason of his fealty to country, steadfastness in courage, and military earnestness, he helped overpower the enemies of our country in World War II.

As a token of appreciation, and feeling that his gallant conduct has atoned for the error of his past ways, it is our recommendation to your Excellency that the term of the maximum sentence of the applicant be commuted and that he be freed from further parole supervision.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Melvin Harper, C-7, No. 9794, April Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Melvin Harper, convicted of voluntary manslaughter in the Court of Oyer and Terminer of Allegheny County on January 30, 1947 to be computed from November 15, 1946, be commuted from 5 years to 2 years, 6 months and 5 days, expiring on May 20, 1949.

Our reasons for making this recommendation are as follows:

This applicant is twenty-eight years of age and this is his first major conviction. He was sentenced to a term of imprisonment in the Western State Penitentiary for from five to ten years on a charge of voluntary manslaughter.

The Board of Trustees of the Western State Penitentiary in reviewing this case write that this applicant has an excellent institutional record and that this was his first imprisonment and they would recommend him for commutation if he were eligible to accept one.

In review of this crime, it is indicated the deceased deliberately provoked the applicant into firing this shot and this applicant had been beaten by the victim previously and feared he would be beaten again. Had this shooting taken place in the applicant's own home, it is quite possible that a plea of self-defense would have been recognized and the defendant acquitted.

The district attorney of Allegheny County in his appearance before the Board states that although he is technically opposed, but because the Board states that although he is technically opposed, but because he feels the applicant might have been acquitted, he therefore has no active opposition to the granting of commutation. The trial judge, Honorable James L. O'Toole, makes no comment to our inquiry. This applicant offers a parole plan to his home in South Carolina and they are willing to accept him there.

Since this applicant has an excellent institutional record and since there was provocation in the committing of this crime, and the applicant offers a good parole plan, the Board of Pardons recommends commutation be granted as prayed for.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of William Krawczak, D-3793, No. 5229, April Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of William Krawczak, convicted of robbery, larceny of an automobile in the Court of Oyer and Terminer and Quarter Sessions of Delaware County on February 24, 1939 to be computed from February 14, 1939, be commuted from 16 years to 10 years and 3 months, expiring on May 14, 1949.

Our reasons for making this recommendation are as follows:

The applicant is one of many parolees whose release from parole by commutation of the maximum sentence has been recommended to the Board of Pardons by the Board of Parole.

The Board of Parole has recommended this applicant, as well as the others, because of his excellent record in the armed forces of the United States. By reason of his fealty to country, steadfastness in courage, and military earnestness, he helped overpower the enemies of our country in World War II.

As a token of appreciation, and feeling that his gallant conduct has atoned for the error of his past ways, it is our recommendation to your Excellency that the term of the maximum sentence of the applicant be commuted and that he be freed from further parole supervision.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Marion J. Miller, D-7159, No. 8949, April Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Marion J. Miller, convicted of robbery in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on May 13, 1943 to be commuted from April 19, 1943, be commuted from 20 years to 6 years and 1 month, expiring on May 19, 1949.

Our reasons for making this recommendation are as follows:

This applicant is twenty-three years of age and has no prior criminal record. At the age of seventeen years, when he was sentenced, he was alleged to have participated in seven strong-arm robberies with eight other accomplices. He has now served over six years of a minimum sentence of twenty years.

The Board of Trustees of the Eastern State Penitentiary state that this applicant has an excellent institutional record but he is an active tubercular patient. The trial judge, Honorable Harry S. McDevitt, has stated that if his physical condition requires his release, he has no objection to having him released. The district attorney of Philadelphia County states if he is suffering from tuberculosis, he has no objection.

The Board of Pardons feels that since this applicant has been a prisoner since he was eighteen years of age and since he is an active tubercular patient, we recommend a commutation to him of his sentence on the condition that he be admitted to a tuberculosis sanatorium for treatment of his disease.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.

WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Francis O'Terry, C-3352, No. 9795, April Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed upon the said Francis O'Terry, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on April 5, 1926, be commuted on Bill No. 1296 March Sessions, 1926, from a maximum term of 20 years to a maximum term of 3 years, 1 month and 15 days, expiring on May 20, 1949; and on Bill No. 1300 from a maximum term of 10 years to a maximum term of 1 day, expiring on May 21, 1949.

Our reasons for making this recommendation are as follows:

This applicant is forty years of age and this was his first major conviction. He was sentenced twenty-three years ago this month to a term of imprisonment in the Eastern State Penitentiary for from twenty-five to fifty years. Having served five of those years, he was released on parole on December 19, 1930. He was released under the sponsorship of Dr. Lynn Bowman, Restoration Director of the Eastern State Penitentiary, and for a period of years was employed by The Philadelphia Inquirer. For four years he was an X-Ray analyst in the Research Department of the University of Pennsylvania. In 1940 he became the Chief Pyrometrist in the Research Department of the Midvale Steel Company, where has been employed continuously for the past nine years. He is married and the father of one son. He is considered by the institution to be an outstanding example of rehabilitation.

The trial judge, Honorable Harry S. McDevitt, has written the Board of Pardons and stated that he has no objection to this man's release from parole. The district attorney of Philadelphia County is not opposed, nor is the Board of Parole.

This applicant has been on parole for a period of eighteen years and four months and has shown that he is fully rehabilitated and it has been stated that he is an outstanding example of rehabilitation. For these reasons, we feel it is futile to continue further supervisory contacts, and we, therefore, recommend that the commutation or maximum sentence be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Albert Roman, B-4974, No. 9246, April Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed on Albert Roman, convicted of robbery, in the Oyer and Terminer Court of Allegheny County, on April 15, 1936 and May 6, 1936, be commuted on Bill No. 9 April Sessions, 1936, from a maximum term of 15 years to a maximum term of 3 years and 2 months, expiring on June 15, 1949; and on Bill No. 39 from a minimum term of 5 years to a minimum term of 1 day, expiring on June 16, 1949. (Applicant has been granted parole on Bill No. 8).

Our reasons for making this recommendation are as follows:

This applicant is thirty-five years of age and this was his first major conviction. He was sentenced to a term of imprisonment in the Western State Penitentiary for from twenty to forty-five years for participation in three robberies. At the present time, this applicant has served nearly thirteen years of his minimum sentence.

At the time of these offenses, the applicant was twenty-one years of age, and the Board of Trustees of the Western State Penitentiary has written the Board of Pardons that he has an excellent institutional record and if he was eligible for parole, they would recommend that he be granted parole.

The district attorney of Allegheny County, in his appearance before the Board of Pardons, stated that he would recommend that this applicant be granted a commutation of sentence. The trial judge, Honorable C. M. Culver, who was visiting judge, has not seen fit to send any recommendation to the Board of Pardons. He offers a good parole plan to the Board of Parole and the Board therefore recommends that his parole plan be adopted.

The Board of Pardons feels that after having served thirteen years of a minimum sentence of twenty years, this applicant has learned a very bitter lesson, and they recommend that commutation of his sentence be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Edward Rovner, No. 9787, April Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Edward Rovner, convicted of larceny, receiving stolen goods in the Court of Quarter Sessions of Philadelphia County, on June 15, 1939, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is forty-three years of age and prior to his conviction and plea of guilty to these offenses he had never been involved in any legal offense whatsoever and since this offense has been in no further trouble.

He is now engaged in business with his brothers and finds that his former arrest is hindering the expansion of business and credit relations. He is now a reputable member of the community and is married and we feel he will not offend against society.

The Board of Parole states he had an excellent record

on parole and that he has made a perfect adjustment since his arrest in this matter.

The board of Pardons, therefore, recommends that a pardon be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Frank Singel, No. 9808, April Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Frank Singel, convicted of sodomy, buggery, in the Court of Quarter Sessions of Cambria County, on September 12, 1932, be pardoned.

Our reasons for making this recommendation are as follows:

This application is forty-one years of age and prior to this offense, had never been in trouble before. He was sentenced to a term of imprisonment in the Cambria County Prison for from 2½ to 5 years on a charge of sodomy, buggery. This occurred back in 1932, and since that time, a total of approximately fifteen years, this applicant has demonstrated no homosexual tendencies.

The trial judge has written the Board of Pardons that he believes this man is entitled to a pardon, that he has lived an exemplary life and is highly respected in the community, and deserves special consideration. The warden of the Cambria County Prison states he believes this applicant is entitled to consideration.

Since his release from the institution, he has held many positions of trust in the locality. For five years he was secretary of the Volunteer Fire Company and for four years was borough secretary. He is working hard and raising a family of three children, two sons and a daughter, ranging in age from ten to eighteen years.

In view of the high recommendations that come from his neighbors, the judge and the people where he lives, the Board of Pardons feels that he is entitled to the pardon for which he is asking, and we therefore recommend that it be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, Jr.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of William J. Adams, No. 55889, No. 6624, May Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that William J. Adams, convicted of blackmail in the Court of Quarter Sessions of Allegheny County, on May 26, 1942, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is forty-five years of age and this is his first conviction of any offense whatsoever. This applicant was sentenced to a term of imprisonment in the Allegheny County Workhouse on a charge of blackmail. This is the first time this applicant has appeared before the Board of Pardons, although on previous occasion his wife did so. He made an excellent plea on behalf of his petition and the Board of Pardons was given facts at that time which led us to believe that the failure to grant this petition may result in serious consequences not only to this petitioner, but his wife and child who are the unwitting victims of his conviction.

He seeks this pardon to prevent his deportation to Germany, and we believe, upon a full and complete hearing and discussion of this case, that deportation in this matter would be a most serious and useless thing. We do not think this applicant will ever again become involved with the law and we find that since his release from the institution, he has been employed in private industry and presently is helping his wife run a modeling school in Baltimore, Maryland.

In order to avoid the breaking-up of this home and deportation of this applicant, we are therefore, recommending that a pardon be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, Jr.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Harry Anthony Bellosi, C-6183, No. 3290, May Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed upon Harry Anthony Bellosi, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on May 19, 1930, be commuted on Bill No. 626 May Sessions, 1930, from a maximum term of 20 years to a maximum term of 10 years and 7 months, expiring on June 21, 1949.

Our reasons for making this recommendation are as follows:

This applicant is forty-one years of age and this crime was his first major conviction. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from twenty to sixty years on a charge of robbery, being armed with an offensive weapon. After having served approximately seven and one-half years, his sentence was commuted and he was released on parole. Since his release on parole, he has an excellent record and the Board of Parole has written the Board of Pardons that he has an excellent parole status for the past ten and

one-half years. He now asks that his maximum sentence be commuted.

The trial judge, Honorable Frank Smith, has written to the board of Pardons and states that he leaves the matter of commutation of the maximum sentence up to the Board of Pardons. The district attorney of Philadelphia County has stated that he leaves the matter of commutation up to the Board of Pardons.

In view of this applicant's excellent record on parole for a period of ten and one-half years, we believe there is no need of further supervision and that his honesty has been established beyond all doubt. Because of the recommendations of the trial judge and the district attorney and the applicant's own good record while on parole, we recommend that his maximum sentence be committed.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, Jr.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Aaron Bonser, No. 6362, No. 9835, May Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Aaron Bonser, convicted of larceny in the Court of Quarter Sessions of Northampton County on June 14, 1948 to be computed from May 13, 1948 be commuted from 1½ years to 1 year, 1 month and 7 days, expiring on June 20, 1949.

Our reasons for making this recommendation are as follows:

This applicant is fifty years of age and this was his first major conviction. He was alleged to have stolen \$450.00 from a home in which he was boarding. At the present time, he has served approximately one year of his one and one-half year sentence.

At the time the argument was presented to the Board of Pardons, an affidavit was filed in which the victim stated that the applicant had been adequately punished and he should be released. We are given to understand that the applicant has an excellent record in the county prison of Northampton.

The trial judge, Honorable William G. Barthold, has written the Board of Pardons that he leaves the matter of commutation up to the Board of Pardons. The district attorney of Northampton County likewise made this recommendation to the Board. The parole agent who interviewed him stated he shows remorse for his crime and intends to make full restitution if he is released.

Under all of these circumstances, the Board of Pardons feels the applicant has been sufficiently punished, and therefore, recommends that commutation of sentence be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Edward Chinn, D-714-561, No. 9833, May Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Edward Chinn, convicted of robbery, being armed with an offensive weapon in the Court of Quarter Sessions of Philadelphia County on October 27, 1942 to be computed from October 16, 1942 be commuted from 10 years to 6 years and 8 months, expiring on June 16, 1949.

Our reasons for making this recommendation are as follows:

This applicant is twenty-one years of age and at the present time is confined in the Philadelphia County Prison and has served over six years and seven months for the crime of robbery, being armed with an offensive weapon. He was sentenced when but fifteen years of age to a term of imprisonment in the Philadelphia County Prison for from ten to twenty years. This was his first major conviction.

We feel that this applicant has been severely dealt with and should, under all circumstances, have a feeling of revulsion against society but we are given to understand that such is not the case. Society has dealt very harshly with this young man when he was placed in prison at the age of fifteen years. The proper place of confinement should have been a reformatory rather than in an institution of hardened criminals.

Both the trial judge and the district attorney feel that this applicant has been adequately punished and leave the matter of commutation up to the Board of Pardons.

Under all of these circumstances, we feel that the Board of Pardons would be only fair to commute this sentence in an effort to restore the applicant's faith in society, and we therefore, recommend that the sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of John B. DeFazio, No. 9837, May Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that John B. DeFazio, convicted of or pleaded guilty to the following offenses: (1) larceny of automobile in the Court of Quarter Sessions of Allegheny County on May 22, 1941; (2) Larceny of automobile in the Court of Quarter Sessions of Allegheny County on April 7, 1933; and (3) robbery in the Court of Oyer and Terminer of Allegheny County on January 26, 1938, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is thirty-five years of age and this was his first major conviction. He was sentenced in 1938 to a term of imprisonment in the Allegheny County Workhouse for from one to two years on a charge of robbery. He had previously been sentenced on charges of larceny of automobiles. He has had, over the past fifteen years an excellent record and gives as one of his reasons for the the commission of these offenses, that they were youthful indiscretions when he was fifteen and sixteen years of age.

During the past ten or eleven years, this applicant has been employed at the Jones and Laughlin Steel Company, the American Bridge Company, and presently connected with the Monongahela Railroad. The applicant is married and has a daughter fourteen years of age. He has made every effort to rehabilitate himself in his own community. He has shown business steadfastness to his position and his family in the past fourteen years. He has truly settled down and will not again commit the offenses we believe to be youthful indiscretions.

Therefore, in order to remove the blot from his past we are recommending that a pardon be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Daniel DeMarco, D-1343, No. 3247, May Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Daniel DeMarco, convicted of robbery in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on May 25, 1936 be commuted from 20 years to 13 years and 1 month, expiring on June 25, 1949.

Our reasons for making this recommendation are as follows:

This applicant is thirty-two years of age and this was his first major conviction. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from five to twenty years for robbery. This applicant served his minimum sentence and after that was released on parole. He has been on parole at the present time over seven years and nine months. He has made a good adjustment and the Board of Parole states his conduct has been good. He has since married and has a young daughter and is getting along well having recently purchased a home for himself and wife.

The Board of Parole has no objection to him being granted a commutation of his maximum sentence. The district attorney of Philadelphia County states that he has no objection to the granting of commutation of his maximum sentence. The trial judge, Honorable Harry S. McDevitt, makes no comment on the matter of the commutation of his maximum sentence.

The applicant hopes to go into business for himself but wishes to do so after he is released from the responsibility of parole supervision.

The Board of Pardons feels that this applicant has been completely rehabilitated and has shown he will not again commit offenses which will result in his commitment, and therefore, feels he is entitled to a commutation of his maximum sentence as prayed for.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of William R. Donalties, E-636, No. 9831, May Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of William R. Donalties, convicted of Arson, burglary in the Court of Quarter Sessions of Lancaster County on November 12, 1948 to be computed from November 2, 1948, be commuted from 5 years to 7 months and 18 days, expiring on June 20, 1949.

Our reasons for making this recommendation are as follows:

This applicant is twenty-four years of age and this was his first conviction. This applicant had been committed to a Veterans Hospital at Coatesville, Pennsylvania, as mentally incompetent and psychotic. However, he got out of the institution and committed the crime for which he has been charged. Since his arrest and conviction, he has been a patient in the hospital block for mental observation and we have no doubt but what he is definitely a mental case.

The Board of Pardons does not feel that a penitentiary is the proper place for this type of case, but feels that he should be receiving treatment in a mental institution.

We are, therefore, recommend that this applicant be commuted on condition that he goes to a Veterans Administration facility for treatment of mental patients and to be detained until he is released as recovered from his illness.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Tong Fook, No. 9716, May Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Tong Fook, convicted of possession and sale of drugs and use of drugs, in the Court of Quarter Sessions of Philadelphia County, on February 7, 1947, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is sixty-two years of age and in 1947 he

was sentenced to a term of imprisonment in the House of Correction for a period of one year for the possession and sale of drugs. As a result of this conviction, he was brought before the Immigration Authorities and slated for deportation.

The Board of Pardons has received letters not only from the district attorney but from the trial judge in which they state that this applicant should be granted a pardon. The reason that they state this is because this applicant was arrested merely for the purpose of showing that the Police Department had ways and means of checking up on his activities.

This applicant has helped the Division of the Philadelphia Police Narcotic Department considerably for a number of years by supplying the division with information as to the sale and possession of drugs among the Chinese of Philadelphia. This arrest was the way the police had of impressing upon him that he had better not attempt to double-cross the Police Department. However, it has the unfortunate effect of removing him to China by reason of deportation and thereby closing up a source of information to the police.

For this reason both the trial judge and the district attorney have recommended that a pardon be granted in this matter or deportation may be slated. We, therefore, recommend in line with the sentencing authorities that a full and complete pardon be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Matt Hodak, B-3582, No. 3953, May Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due notice, in open session, the undersigned members of the Board of Pardons recommend that the Life sentence of Matt Hodak, convicted of murder in the first degree in the Court of Oyer and Terminer of Allegheny County on February 3, 1933 be commuted from Life Imprisonment to 16 years, four months and 17 days, expiring on June 20, 1949.

Our reasons for making this recommendation are as follows:

This applicant is sixty-one years of age and this is his first conviction. He was sentenced to a life term of imprisonment in the Western State Penitentiary on a charge of murder perpetrated in the commission of robbery. This is a case in which the identification of the applicant was very, very thin. This applicant was not arrested until two years and one month following the commission of the crime and then merely because he visisted a town fifteen miles from the scene of the robbery and was there held for investigation of another matter, and while being held for investigation, was charged with this crime.

There were only three persons who could identify the perpetrator of this crime. (1) The clerk in the bank said the applicant was not the one who shot the victim. (2) The teller in the bank could not identify the applicant at all. (3) A customer in the bank testified the applicant resembled the perpetrator but his nose was different. All three of these persons who made the identification could have been mistaken because all they got of the killer was a fleeting glance.

One fact which the Board of Pardons took into consideration, which was not before brought out was that the district attorney in addressing the jury commented on the fact that the applicant wrote to his wife in Croatian and not in English. This the district attorney argued was evidence of his guilt. However, it was shown in the hearing before the Board of Pardons that the applicant was illiterate in English and until he went to the penitentiary, that Croatian was his language, and therefore, it would be natural for him to write in this language. Nevertheless, the applicant has at this time served over sixteen years of a life sentence. His accomplice, if he had one in this crime, was sentenced to a term of imprisonment for from six to twelve years on a charge of manslaughter and was paroled after serving five years.

We believe there were enough factors in this case that would lead us to apply the principle of mercy, and let us further point out to Your Excellency, that this applicant has steadfastly maintained his innocence.

Neither the trial judge or the district attorney offer any objection to clemency and the district attorney orally stated to the Board of Pardons that he leaves the matter of commutation up to the Board of Pardons. The Board of Trustees of the Western State Penitentiary state that they have no objection and that if this applicant were eligible to apply, they would recommend that he be granted a parole.

Under all of these circumstances, we therefore, recommend a commutation of sentence be granted in this case.

Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, Jr.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Anthony S. DeLuca, B-2676, No. 3369, May Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Anthony S. DeLuca, convicted of robbery, receiving stolen goods in the Court of Oyer and Terminer of Allegheny County on May 18, 1931, be commuted on Bill No. 22 April Sessions, 1931 (Bills Nos. 23, 26, 29, 30, 31, 32 and 105 concurrent) from a maximum term of 20 years to a maximum term of 18 years and 10 days, expiring on May 28, 1949.

Our reasons for making this recommendation are as follows:

The applicant is one of many parolees whose release from parole by commutation of the maximum sentence has been recommended to the Board of Pardons by the Board of Parole.

The Board of Parole has recommended this applicant, as well as the others, because of his excellent record in the armed forces of the United States. By reason of his fealty to country, steadfastness in courage, and military earnestness, he helped overpower the enemies of our country in World War II.

As a token of appreciation, and feeling that his gallant conduct has atoned for the error of his past ways, it is our recommendation to your Excellency that the term of the maximum sentence of the applicant be commuted and that he be freed from further parole supervision.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, Jr.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Julius Mang, D-5410, No. 6846, May Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of the Board of Pardons recommend the minimum sentence of Julius Mang, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on December 9, 1940 to be computed from November 19, 1940, be commuted from 25 years to 8 years and 7 months, expiring on June 19, 1949.

Our reasons for making this recommendation are as follows:

This applicant is twenty-eight years of age and this is his first conviction. At the present time he has served over eight and one-half years of a minimum sentence of twenty-five years for the crime of robbery, being armed with an offensive weapon. He was only nineteen years of age when he was committed to the Eastern State Penitentiary.

The Board of Trustees of the Eastern State Penitentiary have written the Board of Pardons that this applicant has an excellent institutional record during the past eight and one-half years, and also that he has made a very good adjustment and shown improvement in his social attitude.

The trial judge, Honorable Harr S. McDevitt, has written the Board of Pardons and stated that this applicant is a model prisoner and if the Board thinks the time he has served meets the ends of justice, he has no objection to commutation at this time. The district attorney of Philadelphia County publically stated to the Board that he leaves the matter of commutation of sentence up to the discretion of the Board of Pardons.

We feel that this applicant has been sufficiently punished and that he has paid the price, that the public will be adequately safeguarded by the length of time which he has served for his crime. Under all of these circumstances, we feel that this applicant could not be released with safety to society, and we therefore, recommend that his sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, Jr.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of John Meinhardt, No. 9859, May Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that John Meinhardt, convicted of violation of the Firearms Act in the Court of Criminal of Allegheny County, on November 6, 1938, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is thirty-three years of age and this was his first major conviction. It was more in the nature of a technical violation of the law as the applicant had the gun in his own room and no attempt was made by this applicant to use it in any manner.

Since the applicant's violation in 1938, he has served three years in the armed forces of the United States with distinction and received an honorable discharge. He has since married and is raising a family of three daughters and one son. He is employed at the Atlantic Refining Company at Pittsburgh, Pennsylvania, and evidence is shown that he is not of the type who will again become entangled with the law. He states that he wishes to take a civil service examination in order that he may be appointed to the police force in the City of Pittsburgh.

The Board of Pardons is of the opinion that since there was no attempt to use this gun, his honorable service in the armed forces of the United States, and the good record of this applicant, the applicant has been sufficiently punished; and we can recommend that a pardon be granted, and we so recommend to Your Excellency.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, Jr.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Edward Mueller, No. 9792, May Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Edward Mueller, convicted of receiving stolen goods in the Court of Quarter Sessions of Philadelphia County, on October 30, 1936, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is forty-one years of age and he was charged with the crime of receiving stolen goods. After the applicant had sold the diamond ring, which was the subject in question, he learned that the ring had been stolen. Subsequently, he was convicted of the crime of receiving stolen goods. This applicant has been in no further trouble for over twelve and one-half years.

The trial judge, Honorable Eugene V. Alessandrini, has written that he desires to stress no opinion in this matter but leaves the matter up to the Board of Pardons. The district attorney does not oppose the granting of the pardon as prayed for.

The applicant is now engaged in his own distributing

business and wishes to clear his name for himself and his wife and children.

In view of his good record over the past twelve and one-half years and the fact that he has had no other previous criminal record, we feel he has been adequately punished, and we therefore, recommend that the pardon be granted as prayed for.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, Jr.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Roy Newman, Sr., No. 9823, May Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Roy Newman, Sr., convicted of entering without breaking, larceny in the Court of Oyer & Terminer and Quarter Sessions of Delaware County, on June 25, 1937, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is sixty-two years of age and with his son was convicted of entering without breaking and larceny in connection with certain antique furniture. He was sentenced to three years probation and to make restitution in the sum of \$370.00. Restitution has been made.

He and his son, together, operate the Pennsylvania Petroleum Transportation Company for the last eleven years. They did upwards of \$50,000.00 gross business a year. He and his son desire to expand the facilities of the organization and to go into the Interstate Commerce field and feel this conviction will be a definite handicap to that expansion.

The trial judge, Honorable Thomas P. Critchton, has written the Board of Pardons and states that if the applicant has a good record, he knows of no reason why this applicant should not be granted a pardon.

The Board of Pardons is of the opinion that this applicant has been sufficiently punished and has very definitely rehabilitated himself and we do not believe he will ever again commit any offense whatsoever. For this reason, we recommend that a pardon be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, Jr.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Roy Newman, Jr., No. 9822, May Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Roy Newman, Jr., convicted of entering without breaking, larceny in the Court of Oyer & Terminer and Quarter Sessions of Delaware County, on June 25, 1937, be pardoned.

Our reasons for making this recommendation are as follows:

The applicant is thirty-six years of age and this is his first offense for which the applicant was ever arrested. He was convicted of entering without breaking and larceny in connection with the purchase of antique furniture which he and his father sold, being in the antique business at the time. As a result of this conviction, the applicant was sentenced to three years probation and to make restitution in the sum of \$370.00.

Since his conviction in 1937, he and his father have been engaged in the trucking business and operating the Pennsylvania Petroleum Transportation Company which annually amounts to over \$50,000.00 per year. The applicant and his father desire to increase the size of the business as well as to expand into the Interstate Commerce field and this conviction would be a definite handicap to that expansion. The applicant is married and has one child.

The trial judge, Honorable Thomas P. Critchton, has written the Board of Pardons and states that if the applicant has a good record, he knows of no reason why he should not be granted a pardon.

In view of the past good record on the part of the applicant and the recommendation of the trial judge, we do believe that this applicant will not again commit the same or any similar offenses and will not ever again offend against society. Under all of these circumstances, the Board of Pardons recommends that a pardon be granted as prayed for.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, Jr.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Francis Joseph Reilly, D-7160, No. 8293, May Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Francis Joseph Reilly, convicted of fraudulently making a written instrument; uttering and publishing, larceny, receiving stolen goods in the Court of Oyer & Terminer and Quarter Sessions of Philadelphia County on June 10, 1943 to be computed from May 7, 1943, be commuted from 7½ years to 6 years, 1 month and 11 days, expiring on June 18, 1949.

Our reasons for making this recommendation are as follows:

This applicant is twenty-nine years of age. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from seven and one-half to fifteen years. At the present time, he has served over six years of his minimum sentence. He has an excellent institutional record.

The trial judge, Honorable Harry S. McDevitt, has

written the Board of Pardons and stated that this applicant has matured considerably in the past six years and he would be inclined to give him another chance. The district attorney of Philadelphia County in appearing before the Board of Pardons, leaves the matter of commutation up to the Board.

Since this applicant has served over six years of his minimum sentence of seven and one-half years, and has received the recommendation of the trial judge and the Board of Trustees of the Eastern State Penitentiary, the Board of Pardons is inclined to give this applicant one more chance by recommending that his prayer for commutation be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Henry G. Riner, D-4838, No. 9242, May Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the flat sentence of Henry G. Riner, convicted of embezzlement, fraudulent conversion in the Court of Quarter Sessions of Philadelphia County on July 24, 1946 to be computed from May 10, 1946, be commuted from 8 years to 3 years, 1 month and 10 days, expiring on June 20, 1949.

Our reasons for making this recommendation are as follows:

This applicant is thirty-one years of age and he has no prior criminal record. This applicant plead guilty to the conversion of client's funds in his real estate business. Finally, after becoming a victim of his own avarice, he was unable to continue "robbing Peter to Pay Paul", and his defalcation amounting to approximately \$36,000, were uncovered. He was sentenced to a term of imprisonment in the Philadelphia County Prison for eight years. At the present time, he has served over three years.

The trial judge, Honorable John A. Mawhinney, states to the Board, "I am inclined to hink the time served has brought him to a full realization of his delinquencies and I feel the case deserves your serious consideration and if you should see fit to commute the sentence I would interpose no objection." The district attorney, likewise, states he has no objection and leaves the matter of commutation up to the Board of Pardons. The warden of the Philadelphia County Prison has advised the Board of Pardons that this applicant has made an excellent adjustment and it is stated that he has been rehabilitated and further detention will not make him a better member of society.

Because of the applicant's good record and the fact that there is no objection to his release at this time, we recommend that the sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, Jr.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

In re application of Josephine Sadita, No. 2276, No. 9731, May Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Josephine Sadita, convicted of false pretense; practicing medicine without a license in the Court of Quarter Sessions of Philadelphia County on December 10, 1945 to be computed from July 12, 1945, be commuted from 5 years to 4 years expiring on July 12, 1949.

Our reasons for making this recommendation are as follows:

This applicant is forty-six years of age and she was arrested on a charge of false pretense and practicing medicine without a license. She pled guilty to these charges and was sentenced to a term of imprisonment in the State Industrial Home for Women, at Muncy, for from one and one-half to five years. After having served her minimum sentence, she was released on parole.

This applicant now requests that her maximum sentence be commuted on the basis that she has been completely rehabilitated. She has lost several jobs because of her inability to keep these positions when it is learned that she is on parole.

Neither the trial judge or the district attorney have any objection to the granting of commutation of maximum sentence.

In this case, we believe that this applicant has been sufficiently punished and further parole supervision will neither benefit her or society. Since there is no objection to the requested action, the Board of Pardons recommends that commutation of the maximum sentence be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

In re application of Edward Stocker, C-7003, No. 5816, May Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the life sentence of Edward Stocker, convicted of murder in the first degree in the Court of Oyer & Terminer and Quarter Sessions of Northampton County on April 17, 1941 be commuted from life imprisonment to 18 years and 2 months, expiring on June 17, 1949.

Our reasons for making this recommendation are as follows:

This applicant is forty-one years of age and he is alleged to have stabbed his sweetheart with a pen knife in a fit of jealous passion, thereby causing her death. At the time he was sentenced the applicant was twenty-two years of age and he has now served over eighteen years of a life sentence. He has greatly matured since he has

gone to prison and he has an excellent institutional record. The Board of Trustees of the Eastern State Penitentiary state that his conduct in the institution has been above reproach.

There is no doubt but that the applicant loved the victim and that he has suffered great remorse and anguish as a result of the act which he committed. His plea for mercy at this time is based on complete rehabilitation, the length of time served, and the severity of mental suffering and anguish which he has endured.

We believe this applicant has been adequately punished and we find that the present judge, Honorable William G. Barthold, leaves the matter of commutation up to the Board of Pardons. The district attorney of Northampton County has informed the parole agent that he is in favor of clemency in this matter.

In view of the long period of time which the applicant has served, his excellent institutional record and the severity of the suffering endured, the Board of Pardons recommends that this sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

In re application of Edward J. Vaughn, No. 9858, May Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Edward J. Vaughn, convicted of or pleaded guilty to the following offenses: (1) pool selling and book-making, establishing a gambling place in the Court of Quarter Sessions of Allegheny County on April 16, 1940; and (2) pool selling and book-making in the Court of Quarter Sessions of Allegheny County on April 18, 1946, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant was sentenced on three different occasions on charges of pool selling, book-making and establishing a gambling place, the last sentence in 1946.

The Board of Pardons believes this applicant was not engaged in any criminal activity and prior to that time, the applicant served in the armed forces of the United States for a period of five months, when he was discharged with a dependency discharge. The discharge was honorable.

Since 1946, the applicant has been engaged in a restaurant business in the central part of Pittsburgh, is well liked by all who come in contact with him, and is offered a partnership in the business. However, since the business operates a bar in connection with their restaurant, the applicant is denied a license by the Pennsylvania Liquor Control Board.

Since it is shown that this applicant, for the past three years, has not been engaged in any illegal enterprises and is making a good living, we have no reason to believe he will again become involved with the criminal law, and we recommend that a pardon be granted to this applicant because he has for the past three years shown himself able to engage in legitimate enterprises and to give evidence of his complete rehabilitation.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of William Aleskauskas, D-5313, No. 9919, June Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of William Aleskauskas, convicted of murder in the second degree in the Court of Oyer and Terminer of Lackawanna County on October 9, 1940 to be computed from July 17, 1940 be commuted from 12 years to 9 years and 10 days, expiring on July 27, 1949.

Our reasons for making this recommendation are as follows:

This applicant is sixty-three years of age and has no previous criminal record. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from six to twelve years on a charge of murder in the second degree. After having served his minimum sentence, he was released on parole on August 3, 1946. He now asks commutation of his maximum sentence.

The Board of Parole has advised the Board of Pardons that this applicant has an excellent parole record and they have no objection to releasing him from parole supervision.

Neither the present judge, Honorable Thomas L. Hoban, or the district attorney of Lackawanna County have any objection to the granting of commutation of his maximum sentence.

Since he has an excellent record on parole, and since the Board of Parole does not object to his release from parole, the Board of Pardons is recommending that the maximum sentence of this applicant be commuted and that he be free from parole supervision.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of John Barnes, A-13582, No. 6144, June Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the life sentence of John Barnes, convicted of Murder in the first degree in the Court of Oyer and Terminer of Fayette County on

December 27, 1923 be commuted from life imprisonment to 25 years and 7 months, expiring on July 27, 1949.

Our reasons for making this recommendation are as follows:

This applicant is seventy-three years of age and this is his first conviction for any offense whatsoever. He was sentenced to death in 1923 and in June 1924 his sentence was commuted to life imprisonment in the Western State Penitentiary.

This applicant was convicted by a jury and his conviction resulted from the killing of his wife after an argument over her doing laundry for "scab" miners. He has an excellent institutional record and the Board of Trustees of the Western State Penitentiary state that if he were eligible for parole, they would recommend him because of his excellent institutional record.

The present judge, Honorable W. Russell Carr, of Fayette County, has advised the Board of Pardons through the Board of Parole, that he leaves the matter of commutation up to the Board. The district attorney, likewise, leaves the matter of commutation up to the Board. The district attorney, likewise, leaves the matter of commutation up to the Board of Pardons.

Since this applicant is seventy-three years of age and has an excellent institutional record and served approximately one-third of his life, or over twenty-five years, we believe he has atoned for his crime against society, and we therefore, recommend that his life sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, Jr.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Nick Cannella, C-6420, No. 6383, June Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the life sentence of Nick Cannella, convicted of murder in the first degree in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on September 17, 1930, be commuted from life imprisonment to 18 years, 10 months and 10 days expiring on July 27, 1949.

Our reasons for making this recommendation are as follows:

This applicant is fifty-eight years of age and has no previous criminal record. He was sentenced to a term of life imprisonment in the Eastern State Penitentiary on a charge of murder in the first degree. This grew out of a quarrel with his wife and her admitted unfaithfulness to the applicant.

This applicant has now served approximately nineteen years in the Eastern State Penitentiary and he has an excellent institutional record. The trial judge, Honorable James G. Gordon, has not seen fit to advise the Board of Pardons of his position, but states that he will advise the Board through the district attorney's office. The district attorney of Philadelphia County has stated that they have no opposition to the release as presently prayer for.

The Board of Pardons recommends that this applicant's petition be granted for the following reasons: (1) the fact he has served nearly nineteen years of a life sentence, (2) he has an excellent institutional record, and (3) there is no opposition from the sentencing authorities.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, Jr.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Xenophon Chmoures, C-455,D-5841, No. 8801, June Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Xenophon Chmoures, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on June 18, 1941 to be computed from January 13, 1941 be commuted from 10 years to 8 years, 6 months and 10 days, expiring July 23, 1949.

Our reasons for making this recommendation are as follows:

This applicant is thirty years of age and has no prior criminal record. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from ten to thirty years on a charge of robbery, being armed with an offensive weapon. This applicant together with six other accomplices, were involved in eight robberies and larceny of an automobile.

At the present time, the applicant has served approximately eight and one-half years of his minimum sentence of ten years. There is only one other accomplice who is serving time in the penitentiary, all of the other accomplices have been released.

The trial judge, Honorable E. V. Alessandrini, has stated to the Board of Pardons that he has no comment to make concerning commutation. The district attorney of Philadelphia County is not opposed to the granting of commutation. The Board of Trustees of the Eastern State Penitentiary has written the Board of Pardons of his excellent institutional record and that he is considered to be a well-adjusted and cooperative prisoner.

Since he has served considerable length of time, we are recommending that his minimum sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, Jr.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of James Fluellen, D-2979, No. 7886, June Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members

of the Board of Pardons recommend that the minimum sentence of James Fluellen, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on March 15, 1938 to be computed from March 4, 1938, be commuted from 15 years to 11 years 4 months and 20 days, expiring on July 24, 1949.

Our reasons for making this recommendation are as follows:

This applicant is thirty-five years of age and this was his first major conviction. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from fifteen to thirty years. At the present time, this applicant has served over eleven and one-fourth years of his sentence. He was sentenced for his participation in seven robberies, six of which were armed robberies.

The Board of Trustees of the Eastern State Penitentiary have written the Board of Pardons and stated that this applicant is reported to have a good institutional record and there is improvement in his attitude and adjustment since last reported. The trial judge, Honorable Frank Smith, has stated to the Board of Pardons that he leaves the matter of commutation up to the Board. The district attorney of Philadelphia County states that he has no opposition to the granting of commutation if the attitude of the applicant has changed, which we are assured it has.

The applicant's accomplice, James Bryson, who was sentenced to a term of imprisonment in the Eastern State Penitentiary for from twenty-five to fifty years, was granted commutation of his sentence in September 1948. Accomplice, Mack Evers, who was sentenced to a term of imprisonment in the Eastern State Penitentiary for from thirty to sixty years is still an inmate in the Eastern State Penitentiary.

Under all of these circumstance, the Board of Pardons feels that this applicant has been severely punished, and we therefore, recommend that commutation of his minimum sentence be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Noble Gramah, Jr., No. 9901, June Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Noble Gramah, Jr., convicted of larceny of an automobile in the Court of Quarter Session of Philadelphia County, on January 28, 1938, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is twenty-nine years of age and has no other conviction. He was placed on probation for a period of ten years on a charge of larceny of an automobile.

This applicant went for a ride in an automobile and when he asked an accomplice who was driving the car, whose care it was, he was told it was his uncle's car. The applicant later learned the automobile was stolen. An accident occurred and they were all apprehended. This

occurred approximately eleven and one-half years ago. The applicant served in the armed forces of the United States in the European Theatre for approximately four years. Further, this applicant was only eighteen years of age when this occurred.

The trial judge, Honorable Harry S. McDevitt, has stated he has no objection to the granting of this pardon. The district attorney of Philadelphia does not oppose the granting of a pardon.

In view of the fact that this applicant has an excellent military record, the fact he has been in no further trouble for over twelve years, and is apparently rehabilitated, we are recommending that a pardon be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Mike Hayden, B-2937, No. 9888, June Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Mike Hayden, convicted of robbery, receiving stolen goods in the Court of Oyer and Terminer of Allegheny County on October 27, 1931, be commuted from 20 years to 17 years and 9 months, expiring on July 27, 1949.

Our reasons for making this recommendation are as follows:

This applicant is thirty-nine years of age and this is his first major conviction. He was sentenced to a term of imprisonment in the Western State Penitentiary for from five to twenty years for robbery, receiving stolen goods. He and his accomplice were convicted of a perpetration of a series of robberies. They held up and robbed proprietors and patrons of three barbecue stands. He served his minimum sentence and was released on parole. He has been on parole for approximately thirteen years. During his time on parole, the applicant served with the armed forces of the United States and although the period of service was short, he was given an honorable discharge of medical disability.

This applicant desires to operate a tavern and restaurant and in order to secure the license, he must have a release of himself from parole. He has indicated by his past conduct over the last thirteen years that he has given up his lawless ways and we believe him to be a fit subject for release from parole supervision.

The Board of Pardons, therefore, recommends that commutation of his maximum sentence be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Harry Dittmer Immel, B-8357, No. 9894, June Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Harry Dittmer Immel, convicted of murder in the second degree in the Court of Oyer and Terminer of Allegheny County on October 13, 1942 to be computed from April 28, 1942, be commuted from 10 years to 7 years and 3 months, expiring July 28, 1949.

Our reasons for making this recommendation are as follows:

This applicant is fifty-five years of age and has no prior criminal record. He pled guilty generally to murder in the second degree and was sentenced to a term of imprisonment in the Western State Penitentiary for from ten to twenty years. The killing arose over the infatuation of applicant's wife with another. The attempt to break up the meretricious relationship between his wife and the other man.

The Board of Trustees of the Western State Penitentiary state he has an excellent institutional record and if eligible for parole, they would recommend him for release. The trial judge, Honorable Thomas M. Marshall, has advised the Board of Pardons through the Board of Parole, that he leaves the matter of commutation up to the Board of Pardons. The district attorney of Allegheny County leaves the matter of commutation up to the Board of Pardons.

The Board of Pardons feels this applicant was driven to the end of his emotions by his wife's conduct. Having served over seven years, he has amply paid his debt to society. We are, therefore, recommending that his minimum sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Vincent J. Isenberg, A-14521, No. 450, June Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Vincent J. Isenberg, convicted of robbery, aggravated assault and battery, carrying concealed deadly weapons in the Court of Oyer and Terminer of Westmoreland County, on February 20, 1926, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is fifty-three years of age and has no prior criminal record. He was sentenced to a term of imprisonment in the Western State Penitentiary for from nine to eighteen years on the charge of robbery, ag-

gravated assault and battery, carrying concealed deadly weapons. After having served approximately seven years of his minimum sentence of nine years, his minimum sentence was commuted and he was released on parole and has been on parole for an additional period of sixteen years and three months. He now desires a pardon for the eighteen years which is his maximum sentence. He has shown every indication of complete rehabilitation during the sixteen years and three months he has been on parole.

At the present time, he is Chief of Police in Belle Vernon, Pennsylvania, and we have received many letters testifying to his exemplary conduct which he has displayed. We have letters from citizens in all walks of life who have written in behalf of this applicant.

In view of his rehabilitation and the fact that he has risen to become the Chief of Police of a borough in the western part of the state, the Board of Pardons believes that this applicant has shown that he will not again offend against society, and that he should be granted the pardon which he asks for at this time. We, therefore, recommend that a pardon be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Paul Kenefsky, E-874, No. 3504, June Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of imprisonment imposed on Paul Kenefsky, convicted of burglary, in the Oyer and Terminer and Quarter Sessions Court of Montgomery County, on November 13, 1942 and to be computed from February 10, 1949; and in the Oyer and Terminer and Quarter Sessions Court of Philadelphia County, on November 27, 1942 and to run concurrent with sentence imposed in Montgomery County; be commuted on Bill No. 14 November Sessions, 1942 (Montgomery County) from a minimum term of 5 years to a minimum term of 5 months and 12 days, expiring on July 22, 1949; and on Bills Nos. 438 and 439 November Sessions, 1942 (Philadelphia County) from a maximum term of 10 years to a maximum term of 1 day, expiring on July 22, 1949.

Our reasons for making this recommendation are as follows:

This applicant is thirty-three years of age and except for the three arrests and convictions which are before the Board, this applicant has never been in any other difficulty. He was sentenced in 1942 from both Montgomery and Philadelphia Counties on concurrent sentences for his participation in eight robberies in those counties. At the present time, he has served over six years and six months in the Eastern State Penitentiary but because of his prior violation, only four months of this sentence applies to the minimum sentence of five years.

At the time of his sentence, the applicant was told that his sentence would run concurrently with his unexpired parole, but the decision of the Supreme Court in the Wheler and the decision of the Superior Court in the Lerner case states that was impossible for such a situation

to arise and that this prisoner first serve "back time" before he be permitted to begin the service of a new sentence. This violates the spirit of both Judge Knight's and Judge Carroll's sentence and in order to give effect to their sentence, we are recommending that a commutation be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Lena Fitzgerald King, 57209, No. 9931, June Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Lena Fitzgerald King, convicted of murder in the second degree, in the Court of Quarter Sessions of Allegheny County on February 16, 1943 to be computed from November 27, 1942 be commuted from 12 years to 6 years and 8 months, expiring on July 27, 1949.

Our reasons for making this recommendation are as follows:

This applicant is thirty-seven years of age and she was convicted on the charge of murder in the second degree and was sentenced to a term of imprisonment in the Allegheny County Workhouse for from five to twelve years. The applicant served her minimum sentence and has been on parole since November 27, 1947. She has no prior criminal record and the Board of Parole says she has an excellent record since being released on parole.

She now seeks a commutation of her maximum sentence on the grounds that being on parole is embarrassing to the applicant. She has been active in church work and does her own housework, having remarried and completely given up drinking.

The Board of Parole has no objection to her release from the restrictions of parole. The district attorney of Allegheny County leaves the matter of commutation of her maximum sentence up to the Board of Pardons.

In view of this applicant's excellent rehabilitation and the fact that she had no prior criminal record, the Board of Pardons believes she would be a good risk to release from parole, and therefore, recommend that her maximum sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Michael Kosteleski, No. 9872, June Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Michael Kosteleski, convicted of assault, robbery in the Court of Quarter Sessions of Philadelphia County, on April 28, 1939, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is twenty-six years of age and was charged with assault and robbery in 1939. He was placed on probation for a period of three years and for the following ten years has been in no trouble whatsoever. This was a holdup and robbery when the applicant was only sixteen years old, and at the time the offense took place, his share of the loot was twelve (.12c) cents.

He is not on parole, and therefore, there is no recommendation from the Board of Parole.

He has recently married and is purchasing his home in a fine residential section of the City of Philadelphia. He served in the armed forces of the United States in the European Theatre for fourteen months and was honorably discharged by the United States Army. He is a steady worker and has been in no difficulty these past ten years.

There is no objection from the trial judge, Honorable Joseph L. Kun, nor does the district attorney of Philadelphia oppose the granting of a pardon.

Therefore, because of this applicant's military record, his good record since being placed on probation, and since this was his only offense against society; we are recommending that the petition be granted as prayer for.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Bert Kraiger, B-3435, No. 8828, June Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed upon Bert Kraiger, convicted of robbery and rape in the Court of Quarter Sessions of Jefferson County on November 12, 1932, be commuted on Bill No. 7 January Sessions, 1933, from a maximum term of 6 years to a maximum term of 2 years, 8 months and 10 days, expiring on July 22, 1949; on Bill No. 8 from a maximum term of 10 years to a maximum term of 1 day, expiring on July 23, 1949; on Bill No. 9 from a maximum term of 6 years to a maximum term of 1 day, expiring on July 24, 1949; and on Bill No. 10 from a minimum term of 5 years, to a minimum term of 1 day, expiring on July 25, 1949. (Applicant has been granted parole on Bills Nos. 5 and 6).

Our reasons for making this recommendation are as follows:

This applicant is forty-two years of age and this was his first major conviction. He was sentenced to a term of imprisonment in the Western State Penitentiary for from

twenty-seven to fifty-four years on a charge of robbery and rape.

This applicant has now served nearly seventeen years of his minimum sentence. The psychiatrists of the Western State Penitentiary, in his report to the Board of Pardons, states that he has made an excellent moral and social adjustment and that he does not indicate a psychopathic personality.

The Board of Trustees of the Western State Penitentiary state that this applicant has an excellent institutional record for approximately the past seventeen years and that if he were eligible for parole, they would recommend him because of his excellent institutional record and long period of service.

The president judge, Honorable Jesse C. Long, is not in a position to make a recommendation to the Board of Pardons in this matter because he was not the trial judge at the time and has no knowledge of the facts and circumstances surrounding the case. The district attorney of Jefferson County has also stated the same thing to the Board of Pardons.

The trial judge, Honorable William T. Darr, is now deceased, Walter E. Morris, Esquire, the former district attorney, has not made any recommendation in this matter.

None of the present authorities have made any positive recommendation because of unfamiliarity with the subject.

We have, however, as heretofore indicated, a psychiatric report from the Western State Penitentiary, and the psychiatrist feels there would be no harm done to society if this individual was permitted his freedom.

We feel that this applicant has served a sentence almost as long as persons for first degree murder, and since he has an excellent institutional record and served such a long period of time, the Board of Pardons recommends that his sentence be commuted.

Respectfully submitted.

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Leo C. Leahy, C-8398, No. 4223, June Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed upon Leo C. Leahy, convicted of rape, satutory rape in the Court of Oyer and Terminer and Quarter Sessions of Schuylkill County on November 4, 1932, be commuted on Bill No. 1570 November Sessions, 1932, from a maximum term of 10 years to a maximum term of 6 years, 8 months and 20 days, expiring on July 24, 1949; on Bill No. 1571 from a maximum term of 10 years to a maximum term of 1 day, expiring on July 25, 1949; on Bill No. 1571-A from a maximum term of 10 years to a maximum term of 1 day, expiring on July 26, 1949; on Bill No. 1572 from a maximum term of 10 years to a maximum term of 1 day, expiring on July 27, 1949; and on Bill No. 1572-A from a minimum term of 3 years to a minimum term of 1 day, expiring on July 28, 1949.

Our reasons for making this recommendation are as follows:

This applicant is forty-two years of age and this was his first major conviction. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from

eighteen to sixty years on a charge of rape and satutory rape. Since both his father and mother have died, his brother asks that this applicant be granted an opportunity to prove his complete rehabilitation. He has now served almost seventeen years of his eighteen minimum sentence.

The present judge, Honorable Cyrus M. Palmer, has written the Board of Pardons and states that he recommends that clemency be granted. The district attorney of Schuylkill County has stated that he does not oppose commutation because of the length of time his applicant has served.

Because this applicant has an excellent record of work over the period of years which has had in the Eastern State Penitentiary and the excellent parole plan which is offered, the Board of Pardons recommends that commutation of his minimum sentence be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Edward Maloof, C-307, No. 9415, June Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Edward Maloof, convicted of robbery, being armed with an offensive weapon, conspiracy with intent to rob, assault, etc., in the Court of Quarter Sessions of Jefferson County on September 2, 1947 to be computed from May 26, 1937, be computed from 3 years to 2 years and 2 months, expiring on July 26, 1949.

Our reasons for making this recommendation are as follows:

This applicant is twenty-two years of age and this was his first conviction for any offense whatsoever. He was charged with robbery, being armed with an offensive weapon, etc., and was sentenced to a term of imprisonment in the Western State Penitentiary for from three to ten years. His accomplice was given a sentence of two to ten years and has since been released. This applicant was no worse than his accomplice, however, the judge gave him the additional year for the costs of the prosecution in Jefferson County. However, it was reported to the Board of Pardons that all costs and fines in connection with the case have been paid.

The Board of Trustees of the Western State Penitentiary state he has an excellent institutional record and if eligible for parole, they would recommend him. Neither the trial judge or the district attorney make any recommendation in this matter.

This applicant has served approximately two years and one month of his minimum sentence. Since he was no worse than his accomplice, we are recommending that a commutation of his minimum sentence be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.

WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Max Mehlman, 65439, No. 9926, June Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Max Mehlman, convicted of perjury in the Court of Quarter Sessions of Allegheny County on March 7, 1949, be commuted from 1 year to 4 months and 20 days, expiring on July 27, 1949.

Our reasons for making this recommendation are as follows:

This applicant is thirty-eight years of age and he was convicted on a charge of perjury growing out of a situation of the applicant being on a bail bond. At the time, this applicant had one-half interest in the property. Although the title held by the applicant was an equitable one, the legal title was vested in his partner. The applicant, on advice of counsel, signed the bail bond. He not only acted in good faith but did sign the security on the advice of counsel. He still owns one-half interest in the real estate. There was no intent to violate the law, and if anything, the mistake made by the applicant was relying on the advice of counsel.

We believe that a person is entitled to reply on the advice of counsel when given. The issue which was here involved was a technical legal problem, we do not see why this applicant should be incarcerated when he had no intent to violate any law. Accordingly, we feel that this applicant has been more than sufficiently punished, and therefore, we are recommending that the commutation of his sentence be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of James A. McGrorty, 4753, June Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that James A. McGrorty, convicted of larceny in the Court of Municipal of Philadelphia County, on July 28, 1928; and of indecent exposure in the Court of Quarter Sessions, of Philadelphia County, on November 27, 1935, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is forty-two years of age. In 1928, he was placed on probation for a period of five years on a charge of larceny. In 1935, he was placed on probation for a period of five years for indecent exposure. Since that

time, this applicant has been in no difficulty whatsoever for a period of approximately fourteen years. In both of these cases, the applicant was placed on probation for a length of time that was in excess of the lawful maximum.

The applicant freely admits his difficulties with the law was due to drinking.

Since the applicant has now reached the age of forty-two years and since he has had nothing to drink for the last five years, the Board of Pardons feels this applicant has indicated he will not again become a law-breaker and we feel that he has shown he is ready for a pardon.

At the present time, he desires to secure a civil service appointment and cannot do so long as he had the two convictions against him.

Under all of these circumstances, we feel this applicant has earned the right to ask for this pardon and we are, therefore, recommended that a pardon be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

In re application of Warren C. Moylan, D-1345, No. 2803, June Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Warren C. Moylan, convicted of murder in the first degree in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on April 16, 1924 to be computed from April 16, 1934 be commuted from life to 15 years, 3 months and 10 days, expiring on July 26, 1949.

Our reasons for making this recommendation are as follows:

This applicant is fifty years of age and this was his first major conviction. He was sentenced to a term of life imprisonment in the Eastern State Penitentiary on April 16, 1924, for killing his wife in a fit of rage over her infidelities. Following that, he served sixteen years in the Eastern State Penitentiary when his sentence was commuted. He has been on parole for the past eleven years.

This applicant is now seeking commutation of his maximum sentence in order to release him from parole supervision in order that he might travel. This applicant has an excellent record on parole and is presently working for the International Circulation Company who desires to send him to Georgia or Florida and to make a branch manager of him. The applicant is anxious to make the change, but he wishes to be free from parole. There is no complaint concerning his activities. He has remarried and has one son by this marriage.

The trial judge, Honorable Harry S. McDevitt, has written the Board of Pardons and slated that he leaves the matter of commutation of his sentence up to the Board of Pardons and Board of Parole. The district attorney of Philadelphia County states he has no objection to the granting of commutation.

Since the applicant is a veteran of World War I and for the past eleven years has shown that he does not again intend to offend against society, we do not believe it to be a mistake to grant the applicant commutation of his maximum sentence as prayed for, and we are there-

fore, recommending that this maximum sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

In re application of Burman Perry, D-5404, No. 8712, June Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Burman Perry, convicted of murder in the second degree in the Court of Oyer and Terminer and Quarter Sessions of Chester County on December 2, 1940 to be computed from September 4, 1940, be commuted from 10 years to 8 years, 10 months and 20 days, expiring on July 24, 1949.

Our reasons for making this recommendation are as follows:

This applicant is forty-four years of age and has no prior criminal record. He pled guilty murder in the second degree and was sentenced to a term of imprisonment in the Eastern State Penitentiary for from ten to twenty years.

The Board of Trustees of the Eastern State Penitentiary have advised the Board of Pardons that this applicant has an excellent institutional record. The trial judge, Honorable Ernest Harvey, has written the Board of Pardons that he knows of no reason why the application should not be granted. The district attorney of Chester County states he does not oppose the granting of commutation of this applicant's sentence.

Since this applicant has served nearly nine years of his minimum sentence, this is his first conviction, and since he has an excellent institutional record; the Board of Pardons recommends that his minimum sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

In re application of Dominick Raspa, C-9755, No. 3701, June Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Dominick Raspa, convicted of murder in the second degree in the Court of Quarter Sessions of Lan-

caster County on June 12, 1934, be commuted from 20 years to 15 years, 1 month and 10 days, expiring on July 22, 1949.

Our reasons for making this recommendation are as follows:

This applicant is sixty-one years of age and he was sentenced to a term of imprisonment in the Eastern State Penitentiary for from ten to twenty years on a charge of murder in the second degree. After he served his minimum sentence, he was released on parole.

He now seeks commutation of his maximum sentence in order that he may be free from parole supervision. He has an excellent record with the Board of Parole and since he is sixty-one years of age, parole supervision can be, and probably is to this applicant, a very irksome procedure. However, he has adjusted well under supervision and has been on parole for a period of five years. The reason for desiring this commutation is that he may take a position outside the state or to go on trips outside the state.

Because of the fine adjustment on parole, the Board of Pardons believes this applicant will not again offend against society, and we therefore, recommend that he be free from parole supervision and that the commutation of his maximum sentence be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Dennis E. Robinson, No. 9882, June Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Dennis E. Robinson, convicted of larceny, receiving stolen goods in the Court of Quarter Sessions of Philadelphia County, on August 14, 1941, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is twenty-nine years of age and has no prior criminal record. He was employed by the Pennsylvania Railroad when he stole sixty-four watches from a shipment of watches on this railroad. This happened nearly eight years ago and since that time he has been in no further difficulty.

He has served in the armed forces of the United States for a period of four years in the Southwest Pacific area. He has been steadily employed, is married, and we feel he has made an excellent adjustment. He is purchasing his own home and he implied the solution of his conduct is to the effect that he will not again offend against society.

The Board of Pardons, therefore recommends, in the light of his army service and his subsequent good conduct, that a pardon be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Edward Sailer, No. 9913, June Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Edward Sailer, convicted of establishing gambling place, lottery in the Court of Quarter Sessions of Delaware County, on January 17, 1941, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is fifty-six years of age and in 1941 he was convicted of establishing a gambling place and setting up a lottery; the lottery was familiarly known as "numbers." There is no doubt but that this applicant was guilty of the crime and he pled guilty to it. He served his minimum sentence and since that time has been in no further trouble.

He has been on parole over eight and one-half years and he has stayed free of any further breaches of the law.

The President Judge, Honorable Harold L. Ervin, states he was not the trial judge, the trial judge having since died, but that he has no comment to make on the applicant. However, the district attorney of Delaware County appeared before the Board of Pardons and stated he has no objection to the granting of a pardon.

This applicant has shown himself to be completely rehabilitated and is now working as night manager of a restaurant. He is married and has one daughter and desires this pardon to remove this blot from his character and from his family.

We believe that this applicant has seen the error of his ways, and if granted a pardon, he will not again offend against society. We are, therefore, recommending that a pardon be granted as prayed for.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Reuben H. Shook, C-7924, No. 3536, June Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Reuben H. Shook, convicted of robbery in the Court of Oyer and Terminer and Quarter Sessions of Montour County on April 12, 1932, be commuted from 20 years to 17 years, 3 months and 10 days, expiring on July 22, 1949.

Our reasons for making this recommendation are as follows:

This applicant is fifty-seven years of age and has one prior conviction. He was sentenced in 1932 to a term of imprisonment in the Eastern State Penitentiary for from ten to twenty years on a charge of robbery. He served

his minimum sentence and was released on parole at the expiration of his minimum sentence. He has now been on parole for a period of seven and one-half years. He has an excellent record on parole.

This applicant desires a release from parole in order to marry and move to Florida. Since he has been on parole seven and one-half years, he has given every indication of complete rehabilitation.

The Board of Pardons feels that this applicant will not again become involved in any breaches of the law, and we therefore, recommend that his maximum sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Albert L. Spiese, C-477, D-9336, No. 9393, June Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Albert L. Spiese, convicted of robbery, assault in the Court of Quarter Sessions of Lancaster County on December 9, 1946 to be computed from September 25, 1946 be commuted from 3 years to 2 years and 10 months, expiring on July 25, 1949.

Our reasons for making this recommendation are as follows:

This applicant is twenty-four years of age and this was his first conviction for any offense whatsoever. He and three accomplices heldup the victim and robbed him of \$7,650.00 of which \$650.00 was returned, and this applicant pled guilty and was sentenced to a term of imprisonment in the Eastern State Penitentiary for from three to six years.

At the present time, he has served two years and nine months of his minimum sentence. He desires commutation at this time in order that he may enter Pennsylvania State College in the fall. He has been accepted for admission and on the earnest pleas of his mother, the good conduct of the boy and the fact that he has served all but four months of his minimum sentence, we believe that commutation of his minimum sentence should be granted.

The Board of Pardons, therefore, recommends to Your Excellency that his minimum sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of George Stewart, C-1299, No. 335, June Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed upon George Stewart, convicted of burglarly, larceny in the Court of Oyer and Terminer of Chester County on February 3, 1922, be commuted on Bill No. 1 January Sessions, 1922, from a maximum term of 20 years to a maximum term of 15 years, 11 months and 4 days, expiring on July 21, 1949; and on Bill No. 2 from a maximum term of 10 years to a maximum term of 1 day, expiring on July 22, 1949.

Our reasons for making this recommendation are as follows:

This applicant is fifty-seven years of age. He was sentenced in 1922 to a term of imprisonment in the Eastern State Penitentiary for from twenty-seven to thirty-years on a charge of burglarly and larceny. After having served approximately eleven years of his sentence, his minimum sentence was commuted and he was released on parole. He has now been on parole nearly sixteen years and is asking that his maximum sentence be commuted.

The Board of Parole has stated to the Board of Pardons that during the past fifteen years, this applicant has an excellent institutional record and has not been involved with the law in any way since his release from the Eastern State Penitentiary. He has fully cooperated with the parole supervisor and the parole agent feels he is a good subject for release from supervision.

The trial judge, Honorable W. Butler Windle, states he has no objection if the Board approves of commutation. The district attorney of Chester County states he is not opposed to a commutation of his maximum sentence.

In view of this man's conduct over the past sixteen years, the Board of Pardons recommends that his maximum sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Harry Paul Weck, No. 9904, June Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Harry Paul Weck, convicted of pool selling and bookmaking in the Court of Quarter Sessions of Philadelphia County, on June 16, 1942, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is forty-five years of age and he has no prior criminal record. He was arrested and convicted of pool selling and bookmaking in 1942 and played on probation for a period of six months. Since that time he has shown himself to be completely rehabilitated.

He is engaged as a salesman for a manufacturer of church metal wares and has never again thought of

illegal pursuits. He is married and recently purchased a home in an excellent neighborhood of Philadelphia and has shown that he can become a law-abiding citizen in the community. He has done everything to impress the persons with whom he is associated of his intention to become a law-abiding citizen.

The Board of Pardons believes he can be recommended for a pardon in order to save him embarrassment in his present employment, and we so recommend.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Orvel Wright, No. 60124, No. 9421, June Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Orvel Wright, convicted of robbery, larceny in the Court of Quarter Sessions of Fayette County on July 3, 1945 to be computed from June 15, 1945, be commuted from 6 years to 4 years, 1 month and 10 days, expiring on July 25, 1949.

Our reasons for making this recommendation are as follows:

This applicant is twenty-seven years of age and he has no previous criminal record. He was sentenced to a term of imprisonment in the Allegheny County Workhouse for robbery and larceny to nineteen years on a charge of robbery and larceny.

The Warden of the Allegheny County Workhouse has advised the Board of Pardons that the applicant has an excellent institutional record. The district attorney of Fayette County has stated he has no objection to the granting of commutation as prayed for.

The applicant, if released, will be the support of an aged mother and will again be able to support his wife and three small children, six, four and three years.

It is believed that this applicant was the unwilling tool of his accomplices and that if given another opportunity, will not again violate the law.

We believe that he has served a sufficient time so that further imprisonment would act as a deterrent as we believe he is fully rehabilitated. Under all of these circumstances, and to again restore him to his family and his aged mother, we are recommending that his minimum sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of William Barry, D-6325, No. 7252, September Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of William Barry, convicted of robbery in the Court of Oyer & Terminer and Quarter Sessions of Philadelphia County on February 20, 1942 to be computed from February 10, 1942, be commuted from 10 years to 7 years, 8 months and 15 days, expiring on October 25, 1949.

Our reasons for making this recommendation are as follows:

This applicant is thirty-seven years of age and this is his first major conviction. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from ten to twenty years for robbery of his victim in which the loot of \$10.00 was received.

He has made, however, an outstanding adjustment in the Eastern State Penitentiary and the trial judge has no opposition to the commutation of his sentence. The district attorney of Philadelphia County states he leaves the matter of commutation up to the Board.

Since this applicant has now served over seven years of his minimum sentence of ten years, the Board of Pardons feels he has been adequately punished and we are, therefore, recommending that his sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, Jr.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Cloyd Bitting, D-510, No. 4691, September Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the life sentence of Cloyd Bitting, convicted of murder in the first degree in the Court of Oyer & Terminer of Perry County on April 10, 1935, be commuted from life imprisonment to 14 yrs. 6 mos. & 15 days, expiring on October 25, 1949.

Our reasons for making this recommendation are as follows:

This applicant is forty-four years of age and this was his first major conviction. He was sentenced to a term of life imprisonment in the Eastern State Penitentiary for the murder of his wife and her paramour.

This applicant was sentenced approximately fifteen years ago in Perry County by the late Judge Barnett. He was granted court appointed counsel, a young lawyer who is now the Republican nominee for judge in that district. At that time, Judge Barnett suggested that if he pled guilty to murder generally, a verdict of perhaps manslaughter or second degree murder would be imposed. However, the judge found the defendant guilty of murder in the first degree and imposed a sentence of life imprisonment. This so enraged the community that they sent a delegate to the judge to suggest that he change the sentence. The judge, however, was adamant in his refusal and the applicant was sent to the Eastern

State Penitentiary. It has been the opinion of both the bench and bar of Perry County that he should never have been convicted of murder in the first degree.

The present judge does not oppose his release. The district attorney recommends his release, and in view of the mitigating fact, that he found his wife in the arms of her paramour, becoming enraged, shot and killed both the paramour and his wife; the Board of Pardons feels he has been sufficiently punished. We, therefore, recommend that his sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor,
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Harry Carson, C-1021, No. 9951, September Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Harry Carson, convicted of larceny in the Court of Quarter Sessions of Allegheny County on February 17, 1949, be commuted from 2 years to 8 months, expiring on October 17, 1949.

Our reasons for making this recommendation are as follows:

This applicant is sixty-five years of age and this is the first offense for which he has ever been convicted. He was sentenced to a term of imprisonment in the Western State Penitentiary for from two to five years on a charge of larceny. This applicant was one of the persons who actually took the goods of the victim in his car. Complete restitution has been made to the employer.

The Board of Trustees of the Western State Penitentiary state this applicant has an excellent institutional record and in spite of the short time he has served, they recommend that consideration be given to this matter because of this applicant's physical condition. He is in very poor health at the present time, in suffering from hypertensive heart disease and bronchial asthma. The district attorney of Allegheny County states he is not opposed if his health is as stated.

Two other accomplices in this matter have had their sentences commuted, and we are, therefore, recommending that this applicant be given commutation at this time because of his present bad physical condition.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor,
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, Jr.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Walter Francis Devlin, No. 9962, September Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Walter Francis Devlin, convicted of Fornication in the Court of Morals of Allegheny County, on December 19, 1935, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is forty-one years of age and this is the only offense for which he was convicted. He was sentenced on a charge of fornication and fined \$50.00 and thirty days in the Allegheny County Workhouse. He was arrested and held for the court as a result of a raid and the finding of a girl friend in his room.

He has maintained since this offense a good reputation and served honorably with the armed forces of the United States. He has learned the trade of watch making and desires to open and extend a business in his own home in Pittsburgh, Pennsylvania. In order to get the credit required for the extension, he must be able to get further credit references and reports, and this old conviction is a hindrance to him.

The district attorney of Allegheny County does not oppose the granting of a pardon.

In view of his excellent record in the past seven years, the fact he is married, has an honorable discharge from the army; impels the Board of Pardons to recommend that a pardon be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor,
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of John J. Golden, A-5370, No. 9947, September Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that John J. Golden, convicted of larceny in the Court of Quarter Sessions of Dauphin County, on April 17, 1939, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is twenty-seven years of age and he has no prior criminal record. He was sentenced in 1939 to a term of imprisonment in the Pennsylvania Industrial School at Huntingdon, Pennsylvania. After having served approximately one year, he was released from imprisonment and has worked at various jobs in the past eight years. For a period of four years, 1944 to 1948, he served in the armed forces of the United States and claims to have received an honorable discharge.

This applicant has applied for the position as fireman with the Department of Public Safety of Philadelphia. However, he will not be appointed to this position as long as there is a criminal record against him. He is married and has four children and is presently receiving compensation.

It is believed that if he is given a pardon, he will probably realize his responsibility to a greater degree and be able to cope with the problems which heretofore hindered his advancement.

The Board of Pardons, therefore, recommends that a pardon be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, Jr.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Charles Logan Groves, D-1475, No. 7950, September Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed on Charles Logan Groves, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on July 16, 1936, be commuted on Bill No. 132 July Sessions, 1936, from a minimum term of 7½ years to a minimum term of 4 years, 9 months and 10 days, expiring on October 16, 1949. (Applicant has been granted parole on Bill No. 129).

Our reasons for making this recommendation are as follows:

This applicant is thirty-seven years of age and this is not the first time he has been in trouble with the law. He has had eight prior arrests and four convictions and a violation of probation. He was sentenced for the commission of two armed robberies, the loot being \$275.00. He has now served over thirteen years of his minimum sentence of fifteen years.

The Board of Trustees of the Eastern State Penitentiary state that this applicant has an excellent institutional record and that his one misconduct while in prison should not now be held against him. His accomplice has been released and this applicant will be required to be returned to Illinois where he must serve the balance of a ten year sentence.

Since this applicant has been so severely punished and since he must be returned to Illinois, we feel, even though the district attorney has opposed the commutation of sentence in this matter that he should be granted commutation in order that he may begin serving the Illinois sentence. The Board of Pardons, therefore, recommends that his sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Claude Harris, C-4723 (name legally changed from Claude D'Aras), No. 4021, September Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Claude Harris (name legally changed from Claude D'Aras), convicted of entering with intent to steal, larceny, conspiracy, receiving stolen goods in the Court of Oyer & Terminer and Quarter Sessions of Philadelphia County, on July 20, 1928, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is forty-seven years of age and this is his first major conviction. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from fifteen to thirty years for the breaking and entering hosiery bills where a quantity of stockings were stolen. After having served ten years of his minimum sentence of fifteen years, the applicant was released on parole and he has for the past eleven years been under the supervision of the Pennsylvania Board of Parole. He has held various jobs with different companies and performed well in all of them. At the present time, he is working for the Appliance Sales Company of Philadelphia as a salesman and his employer states he is making an excellent record in this position.

He desires to go into business for himself and feels he has learned the business with his present employer who will give him a start if he can secure a pardon.

In view of this applicant's excellent record on parole and the fact that this was his first conviction of any sort, the Board of Pardons feels he has been sufficiently punished by his ten years of incarceration and eleven successful years on parole.

The district attorney of Philadelphia does not oppose the granting of this pardon, and we are recommending that this matter be terminated by the granting of a pardon in order that this applicant may further his standing in the community and may not be hindered by this conviction.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, Jr.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Leroy Hawkins, Jr., No. 9860, September Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Leroy Hawkins, Jr., convicted of setting up and maintaining an unlawful lottery in the Court of Quarter Sessions of Philadelphia County, on December 30, 1940, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is thirty-two years of age and this was his first offense. He was placed on probation for a period of six months on a charge of setting up and maintaining an unlawful lottery. He states he did not either set up or maintain this lottery but merely went to the place for making a bet. While there, the place was raided.

The trial judge, Honorable Harry S. McDevitt, writes the Board of Pardons and states that he recommends that a pardon be granted. The district attorney of Philadelphia County states that he is not opposed to the granting of a pardon.

This applicant is presently engaged as a private watch-

man and has taken the examination for appointment to the police department in the City of Philadelphia. He also has an excellent army record and has received an honorable discharge. He is holder of the Bronze Star and the Purple Heart. He is married and has one son approximately two years of age.

In view of this good record, since the occurrence of this offense, we feel he has been sufficiently punished and that this record should not further hinder his rehabilitation nor his right to a position. The Board of Pardons, therefore, recommends that a pardon be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, Jr.,

The above recommendation is approved:
JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of James Jones, D-8746, No. 9424, September Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of James Jones, convicted of robbery, being armed with an offensive weapon, etc., in the Court of Oyer & Terminer and Quarter Sessions of Philadelphia County on February 28, 1946 to be computed from February 4, 1946, be commuted from 10 years to 3 years, 8 months and 21 days, expiring on October 25, 1949.

Our reasons for making this recommendation are as follows:

This applicant is twenty years of age and he had no prior criminal record. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from ten to twenty years for robbery, being armed with an offensive weapon and larceny. There were three accomplices with the applicant and together they committed a series of robberies. At the time these robberies were committed, this applicant was only fifteen years of age and he did not realize the seriousness of the offenses. Furthermore, this applicant has now served nearly four years of his minimum sentence. He has an excellent institutional record.

The Board of Pardons is of the opinion that this applicant was improperly sentenced when he was sentenced to the Eastern State Penitentiary. He was only fifteen and one-half years of age at that time and this matter should have been handled by the Juvenile Court, and if any sentence was entered it should have been to the reformatory instead of the penitentiary where he would associate with hardened criminals. We cannot right the wrong which put him with older and hardened criminals, but we can and do recommend that commutation of sentence be granted in this matter.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Nesbit R. Jordan, Jr., D-2793, No. 7644, September Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence imposed upon Nesbit R. Jordan, Jr., convicted of robbery, being armed with an offensive weapon, in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on January 19, 1938, to be computed from January 10, 1938, be commuted on Bill No. 740 January Sessions, 1938, from a maximum term of 15 years to a maximum term of 11 years, 9 months and 4 days, expiring on October 14, 1949; and on Bill No. 741 from a maximum term of 15 years to a maximum term of 1 day, expiring on October 15, 1949.

Our reasons for making this recommendation are as follows:

The applicant is one of many parolees whose release from parole by commutation of the maximum sentence has been recommended to the Board of Pardons by the Board of Parole.

The Board of Parole has recommended this applicant, as well as the others, because of his excellent record in the armed forces of the United States. By reason of his fealty to country, steadfastness in courage, and military earnestness, he helped overpower the enemies of our country in World War II.

As a token of appreciation, and feeling that his gallant conduct has atoned for the error of his past ways, it is our recommendation to your Excellency that the term of the maximum sentence of the applicant be commuted and that he be freed from further parole supervision.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, Jr.,
Secretary of Internal Affairs.

The above recommendation is approved:
JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Abe Liebman, B-3671, No. 5172, September Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the life sentence of Abe Liebman, convicted of murder in the first degree in the Court of Oyer and Terminer of Allegheny County on April 24, 1933, be commuted from life imprisonment to 16 years, 6 months and 4 days, expiring on October 27, 1949.

Our reasons for making this recommendation are as follows:

This applicant is thirty-four years of age and he has no prior criminal record. He was sentenced to a term of life imprisonment in the Western State Penitentiary for the crime of murder committed in the perpetration of an armed robbery.

Generally, it is not the policy of this Board to recommend to Your Excellency applicants for commutation of life imprisonment unless they have served a longer period of time than this applicant. However, we believe these extenuating circumstances to exist: This applicant was only seventeen years of age when this crime was committed. Within a few months after admission to the Western State Penitentiary, he enrolled in the high school classes and in two years completed his high school education. He was the first prisoner in the State to receive a high school certificate from the State Department of Public Instruction. He then became a teacher in the prison high school and at the present time he is principal of this school. He has, while in the institution, learned accounting and cost analysis and has become efficient in the operation of office machines, such as the typewriter and calculator. In 1938, he assumed editorship of the "Keystone" magazine, a magazine put out monthly by the inmates of the Western State Penitentiary. He is still continuing in this position. In 1938, he began the study of the clarinet and at the present time is occupying the solo chair in the prison band. In order to occupy his spare time, he learned how to crochet and has at the present time made approximately \$2000.00 worth of these articles.

The trial judge has not written the Board of Pardons in this matter, but the assistant district attorney has stated he leaves the matter of commutation up to the Board. The family of the victim, who had heretofore opposed commutation in this matter, has now stated to the district attorney's office that they are not opposed to the granting of commutation in this matter.

The Board of Pardons feels that if we are ever to take a chance on commutation of life sentences, this is one case in which we are clearly bound as this applicant seems to be fully rehabilitated. He offers an excellent parole plan which the Board of Parole states will be accepted.

Since he has a good parole plan, and since he has served over sixteen and one-half years of a life sentence, and has a record as perhaps the most outstanding prisoner in the institution today, the Board of Pardons recommends that his sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, Jr.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of James J. Malone, D-8938, No. 9391, September Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of James J. Malone, convicted of murder in the second degree in the Court of Oyer and Terminer and Quarter Sessions of Lancaster County on June 7, 1946, be commuted from 5 years to 3 years, 4 months and 20 days, expiring on October 27, 1949.

Our reasons for making this recommendation are as follows:

This applicant is twenty-two years of age and has no prior criminal record. He was sentenced to pay a fine of \$100.00 and to a term of imprisonment in the Eastern State Penitentiary for from five to ten years on a charge of murder in the second degree. This applicant comes from

an excellent family. He found about his home an old 32 revolver which he placed in his coat pocket. While he and his friend were at a nearby store, this applicant and the victim began playing a game known as Russian Poker which consists of putting a gun to the side of one's head and pulling the trigger. After the applicant had pulled the trigger the third time, fate intervened, the gun exploded and the victim, who was applicant's best friend, was killed.

This young man was approximately eighteen years of age when this occurred and he is now approximately twenty-two years of age. He has been severely punished by this vnt and it has left a mark on his character that will forever remain there so long as he can think of this incident. He has matured while in the institution, however, he does desire to complete his college course. He will be welcomed back into the family circle. His father, who is a Colonel in the United States Army, is stationed in Washington, D. C. He will be sponsored by Michael J. McNerney, City Comptroller of Lancaster, and the parole plan is acceptable to the Board of Parole.

Under all of these circumstances, we feel that this applicant has been severely punished and that if given an opportunity, he will not again offend against society. The Board of Pardons, therefore, recommends to the Governor that the minimum sentence in this case be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Joseph J. McLaughlin, D-5944, No. 4064, September Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Joseph J. McLaughlin, convicted of burglary, larceny in the Court of Oyer & Terminer and Quarter Sessions of Montgomery County on August 15, 1941 to be computed from August 15, 1943, be commuted from 10 years to 6 years, 2 months and 10 days, expiring on October 25, 1949.

Our reasons for making this recommendation are as follows:

This applicant is forty years of age and this was his first major offense. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from five to ten years for the crime of burglary and larceny. Said sentence to be computed from August 15, 1943. The value of the loot was \$250.00.

This applicant has been on parole approximately six years and has made an excellent adjustment. At the present time, this applicant is in the contracting business in Wildwood, New Jersey, and he has an opportunity of furthering his employment in that State. Now, he is unable to go there unless permission is secured from his parole agent. He feels he can certainly become successful in this field of endeavor.

The district attorney of Montgomery County leaves the matter of commutation up to the Board. The trial judge has not bothered to write the Board of Pardons his feelings in the matter.

The Board of Pardons does not want to stand in the

way of an applicant procuring a betterment in his profession and, if such is the case, feels the applicant should be given the freedom prayed for at this time. We, therefore, recommend that commutation of his maximum sentence be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of James Missino, D-6852, No. 7889, September Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of James Missino, convicted of robbery, being armed with an offensive weapon, burglary, etc., in the Court of Quarter Sessions of Philadelphia County on December 4, 1942 to be computed from November 25, 1942, be commuted from 18 years to 6 years and 11 months, expiring on October 25, 1949.

Our reasons for making this recommendation are as follows:

This applicant is twenty-seven years of age and this was the first major conviction. This applicant participated in six robberies. However, since his incarceration in the Eastern State Penitentiary, he has made a most remarkable readjustment. He has an outstanding record at the institution, having learned to read and write while there, and has learned the trade of cigar making in the penitentiary. There is no doubt that in the past six years and ten months this applicant has greatly improved his social outlook and his responsibility.

He has good sponsorship and we feel this applicant should not be given an opportunity to prove whether or not he has learned his lesson these past six years and ten months. We believe that he has, and we therefore, recommend that commutation of his minimum sentence be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, Jr.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Elmer L. Moore, C-920, No. 9758, September Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members

of the Board of Pardons recommend that the minimum sentence of Elmer L. Moore, convicted of burglary, larceny, receiving stolen goods in the Court of Oyer and Terminer of Somerset County on November 15, 1948 to be computed from November 12, 1948, be commuted from 3 years to 1 year expiring on November 12, 1949.

Our reasons for making this recommendation are as follows:

This applicant is twenty-one years of age and has no prior criminal record. He and his brother, who was his accomplice, in and about Somerset County committed four burglaries. For this they were arrested. The applicant and his brother, who is older and has a criminal record, were sentenced to a term of imprisonment in the Western State Penitentiary for from three to six years.

There is no doubt in the minds of the Board that this applicant was under the control and domination of his brother, the accomplice in this matter. There is no doubt in the minds of the Board that the trial judge confused the prior record of the accomplice with that of the applicant in imposing the sentence.

The Board of Trustees of the Western State Penitentiary state that this applicant has a excellent institutional record and at the present time is employed in the kitchen. He has now served one year of his minimum sentence of three years.

The Board of Pardons feels that for a first offender, one who acted under complete domination of his brother who is a prior offender; this applicant has been severely and sufficiently punished. The district attorney of Somerset County does not oppose commutation and the trial judge makes no comment at this time.

In view of this applicant's excellent institutional record and the fact that he has served one-third of his minimum sentence, it impels us to recommend to Your Excellency that commutation be granted as of November 12, 1949.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, Jr.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Robert E. Muldrew, D-9853, No. 9954, September Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed on Robert E. Muldrew, convicted of robbery, in the Oyer and Terminer and Quarter Sessions Court of Philadelphia County, on September 2, 1947, to be computed from August 14, 1947; and of breaking and escaping penitentiary, in the Oyer and Terminer and Quarter Sessions Court of Centre County, on December 23, 1948, be commuted on Bill No. 393 August Sessions, 1947, from a minimum term of 3 years to a minimum term of 28 years, 2 months and 10 days; and on Bill No. 6 February Sessions, 1949, from a minimum term of 3 years to a minimum term of 1 day, expiring on October 25, 1949.

Our reasons for making this recommendation are as follows:

This applicant is thirty-four years of age and has no prior criminal record. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from 3 to 10 years on a charge of robbery in Philadelphia.

While serving his sentence of 3 to 10 years and while at Rockview Prison Farm, this applicant walked away from his work as he was despondent over the fact that an explosion had occurred at his father's place of business, a filling station. He was apprehended and placed under custody and given an additional sentence of 3 to 10 years for his escape from prison. This applicant, even though he has an escape against him, still receives an excellent record from the Board of Trustees of the Eastern State Penitentiary.

Both the trial judge and district attorney are opposed to this applicant's release.

The Board of Pardons, however, feels that this applicant has served a long portion of time for the crime which he committed, and since this is his first offense, and since he has such an excellent institutional record and will go to live with his parents in West Virginia; we feel that the Board can take a chance on this individual if we are ever to take a chance on individuals in prison. We are, therefore, recommending that his sentences be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Richard Plummer, D-6138, No. 9938, September Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Richard Plummer, convicted of carrying concealed deadly weapons, accessory before the fact, assault and battery with intent to kill in the Court of Quarter Sessions of Philadelphia County on June 24, 1948, be commuted from 1½ years to 1 year and 4 months, expiring on October 24, 1949.

Our reasons for making this recommendation are as follows:

This applicant is twenty-two years of age and this is the first offense for which he has ever been convicted. He was sentenced to a term of imprisonment in the Philadelphia County Prison for from one and one-half to three years. At the present time he has served all but three months of his minimum sentence.

The Warden of the Philadelphia County Prison has stated in his report to the Board of Parole that this applicant has a good institutional record, and the district attorney states he has no objection to the granting of commutation in this matter. The sentencing judge does not comment at this time.

The Board of Pardons is of the opinion that this was a neighborhood fight and that there was no real intention to shoot to kill anyone, and that the victim was just as much at fault as the applicant. The applicant's accomplice did receive a suspended sentence.

In view of these circumstances and the fact that he has an excellent institutional record, and since there is no objection from the sentencing authorities, we recommend that his sentence be commuted.

DANIEL B. STRICKLER,
Lieutenant-Governor.

CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of William Quartucci, D-2372, No. 3681, September Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of William Quartucci, convicted of robbery, in the Court of Quarter Sessions of Philadelphia County on August 19, 1937, to be computed from August 7, 1937, be commuted from 10 years to a maximum term of 12 years, 2 months and 10 days, expiring on October 17, 1949.

Our reasons for making this recommendation are as follows:

The applicant is one of many parolees whose release from parole by commutation of the maximum sentence has been recommended to the Board of Pardons by the Board of Parole.

The Board of Parole has recommended this applicant, as well as the others, because of his excellent record in the armed forces of the United States. By reason of his fealty to country, steadfastness in courage, and military earnestness, he helped overpower the enemies of our country in World War II.

As a token of appreciation, and feeling that his gallant conduct has atoned for the error of his past ways, it is our recommendation to your Excellency that the term of the maximum sentence of the applicant be commuted and that he be freed from further parole supervision.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, Jr.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Francis E. Quinn, D-3479, No. 792, September Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Francis E. Quinn, convicted of assault, being armed with intent to rob in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on October 8, 1935, to be computed from October 8, 1938, be commuted from 20 years to 11 years, expiring on October 8, 1949.

Our reasons for making this recommendation are as follows:

The applicant is one of many parolees whose release from parole by commutation of the maximum sentence

has been recommended to the Board of Pardons by the Board of Parole.

The Board of Parole has recommended this applicant, as well as the others, because of his excellent record in the armed forces of the United States. By reason of his fealty to country, steadfastness in courage, and military earnestness, he helped overpower the enemies of our country in World War II.

As a token of appreciation, and feeling that his gallant conduct has atoned for the error of his past ways, it is our recommendation to your Excellency that the term of the maximum sentence of the applicant be commuted and that he be freed from further parole supervision.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, Jr.,
Secretary of Internal Affairs.

The above recommendation is approved:
JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of William J. Sarkis, C-1032, No. 9958, September Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of William J. Sarkis, convicted of aggravated assault and battery in the Court of Quarter Sessions of Allegheny County on June 18, 1948 to be computed from February 23, 1949, be commuted from 1½ years to 9 months, expiring on November 23, 1949.

Our reasons for making this recommendation are as follows:

This applicant is thirty-one years of age and this is his first major conviction. He was sentenced to a term of imprisonment in the Western State Penitentiary for from one and one-half to three years on a charge of aggravated assault and battery.

This seems to be a fight between two men who had made a bet, the victim having welched on the applicant and the applicant feeling frustrated attempted to recover the value of the bet from the victim. This is a very peculiar case, in that when the trial was called, the victim testified he not only struck the first blow, but he was unwilling to prosecute in this matter. Nevertheless, this applicant was prosecuted and after a vigorous trial, the applicant was convicted. One of the applicant's accomplices was found not guilty and the other one given a term of not less than two months or more than twelve months. The Board is unable to learn. The applicant certainly did no more than the other alleged accomplices.

The Board of Pardons feels that this, at most, was a case of excessive retaliation by the applicant, in view of the fact that the victim struck the first blow. Under all of these circumstances, we feel that having served nine months of eighteen months, he has served sufficient time. The Board, therefore, recommends to Your Excellency, that his sentence be commuted when he has served nine months of his minimum sentence.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.

WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Luther Schnabel, D-8518, No. 3331, September Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed on Luther Schnabel, convicted of burglary in the Oyer and Terminer Court of Lebanon County, on October 10, 1945, to be computed from September 19, 1945; and of burglary in the Quarter Sessions Court of Berks County, on December 13, 1945; be commuted on Bill No. 18 December Sessions, 1945 (Lebanon County) from a minimum term of 5 years to a minimum term of 4 years, 1 month and 10 days, expiring on October 29, 1949; and on Bill No. 149 December Sessions, 1945 (Berks County) from a minimum term of 4 years to a minimum term of 1 day, expiring on October 30, 1949.

Our reasons for making this recommendation are as follows:

This applicant is thirty-seven years of age and this was his first major conviction. He was involved with two accomplices in a series of offenses in Lebanon County. It was alleged in Berks County, the only matters presented against him in Berks County came from applicant's alleged accomplice and our investigation shows that this alleged accomplice is such a liar the police never believes anything he says.

There is no other evidence to connect this applicant, and under the circumstances, the contention of counsel for the applicant is that he should not be required to serve the sentence imposed in Berks County.

The judge in Berks County stated he leaves the matter in the hands of the Board of Pardons as does the district attorney of Berks County. The district attorney of Lebanon County, however, is opposed to commutation of sentence imposed in that county.

This applicant has an excellent institutional record with the exception of a misconduct in May of 1948. However, this is not regarded as prejudicial to his institutional record.

The Board of Pardons is of the opinion that this applicant should be granted commutation on the sentence imposed by Berks County by reason of the fact that there is not sufficient evidence to properly sustain conviction, and that we are of the opinion he has served sufficient time for the sentence imposed in Lebanon County. Therefore, under all the circumstances, we recommend that commutation of sentence be granted.

Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, Jr.,
Secretary of Internal Affairs.

The above recommendation is approved:
JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of George Shelton, D-6148, No. 9188, September Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of George Shelton, convicted of assault being armed with an offensive weapon with intent to rob in the Court of Quarter Sessions of Philadelphia County on December 9, 1941 to be computed from November 28, 1941, be commuted from 20 years to 7 years and 11 months, expiring on October 28, 1949.

Our reasons for making this recommendation are as follows:

This applicant is thirty-one years of age and has no prior criminal record. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from twenty to forty years on a charge of seven armed robberies. He has served nearly eight years of his minimum sentence.

The Board of Trustees of the Eastern State Penitentiary state that this applicant has an excellent institutional record and under these circumstances we feel that this applicant should be given consideration at this time. His accomplice, Earl Keith, was commuted by the Board of Pardons after serving four and one-half years.

The district attorney of Philadelphia County leaves the matter up to the Board, and the trial judge did not advise of his feelings in this matter.

The Board of Pardons feels this applicant has been severely punished for the seven hold-ups which he participated in and since he had no prior criminal record, we feel that he has been adequately punished by this sentence. We, therefore, recommend that his sentence be commuted to the present time which he has served.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Vere Douglas Tritch, No. 9992, September Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Vere Douglas Tritch, convicted of robbery in the Court of Oyer and Terminer of Lancaster County on September 3, 1948 to be computed from August 23, 1948, be commuted from 1½ years to 1 year and 2 months, expiring on October 23, 1949.

Our reasons for making this recommendation are as follows:

This applicant is twenty-nine years of age and has no prior criminal record. He, together with his accomplice, had been drinking heavily with the victim. As victim left to go to work, applicant and accomplice offered to drive with him to his home and place of work. When they got to victim's home, the accomplice robbed victim of his pocketbook and drove to Harrisburg. When they arrived in the City of Harrisburg, they stopped to get gas and victim got out of the car and reported he had been robbed by the accomplice. The accomplice, when he was apprehended by the police, attempted to throw away wallet of the victim. Not any time did the applicant have possession of the wallet or any of the contents thereof, the entire thing being done by the accomplice.

At the time of hearing before the Board of Pardons, the Warden of Lancaster County Prison, stated the applicant had a good prison record. The trial judge, Honorable Oliver S. Schaeffer, states he leaves the matter of commutation up to the Board. The district attorney of Lancaster County, however, opposes commutation.

This applicant is a member of the Pennsylvania National Guard and immediately prior to this offense, received an honorable discharge from the United States Army. The victim, himself, appeared before the Board of Pardons and stated he felt this applicant had received a very severe sentence and petitioned the Board of Pardons to have mercy in this matter.

Since this applicant has served thirteen months of his minimum sentence, since he has an excellent institutional record, and since the victim believes he received too severe a sentence, we are recommending that his sentence be commuted and he be released on parole.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of George N. Turner, D-1185, No. 7156, September Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of George N. Turner, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on March 16, 1936, be commuted from 20 years to 13 years and 7 months, expiring on October 16, 1949.

Our reasons for making this recommendation are as follows:

The applicant is one of many parolees whose release from parole by commutation of the maximum sentence has been recommended to the Board of Pardons by the Board of Parole.

The Board of Parole has recommended this applicant, as well as the others, because of his excellent record in the armed forces of the United States. By reason of his fealty to country, steadfastness in courage, and military earnestness, he helped overpower the enemies of our country in World War II.

As a token of appreciation, and feeling that his gallant conduct has atoned for the error of his past ways, it is our recommendation to your Excellency that the term of the maximum sentence of the applicant be commuted and that he be freed from further parole supervision.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Lawrence Twyman, C-8691, No. 9957, September Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Lawrence Twyman, convicted of murder in the second degree in the Court of Quarter Sessions of Philadelphia County on April 24, 1940 to be computed from December 26, 1939, be commuted from 12 years to 9 years and 10 months, expiring on October 26, 1949.

Our reasons for making this recommendation are as follows:

This applicant is forty-eight years of age and this is his first major conviction. He was sentenced to a term of imprisonment in the Philadelphia County Prison for from four to twelve years on a charge of murder in the second degree.

This applicant has been on parole for the past five and one-half years. He was sentenced for this crime which was committed following nearly a week of hard drinking and the killing occurred in a fight over a pitcher of wine.

Since the applicant was released on parole on December 26, 1943, he has been continuously employed and has made a good adjustment. While on parole, he has a record of savings amounting to \$3,000.00 and has generally adjusted to his surrounding element.

The trial judge, Honorable Frank Smith, makes no comment in this matter. The district attorney of Philadelphia County is not opposed to the granting of commutation of his maximum sentence.

The Board of Pardons feels that since this applicant has been on parole for over five and one-half years and has proved his adjustment to society, that we can recommend that a commutation of his maximum sentence be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of John Michael Whelan, No. 9944, September Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that John Michael Whelan, convicted of operating a motor vehicle while under the influence of intoxicating liquor in the Court of Quarter Sessions of Philadelphia County, on February 21, 1949, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is forty-six years of age. On February 21, 1949, he received a suspended sentence on a charge of operating a motor vehicle while under the influence of intoxicating liquor. This applicant freely stated he had been to a wedding and had had several drinks and he had a slight collision in which the total damage to the victim's car amounted to \$18.00. This the applicant paid and the victim attended the trial which was held on February 21, 1949, and stated in open court that he did

not feel the applicant was under the influence of intoxicating liquor.

Neither the district attorney of Philadelphia County or the trial judge oppose the granting of a pardon in this case.

The applicant requires a pardon in order that he may earn a living for his family. This seems strange. Nevertheless, but it is a fact, due to the existing laws in Pennsylvania that this applicant upon conviction loses his motor vehicle operating privilege for a period of one year by the sentence imposed by the court. This applicant's only occupation is that of a truck driver and a loss of license to him is a loss of livelihood. He is married and has one child. He will be restored to his position with the Philadelphia Evening Bulletin if his license is returned to him.

The Board of Pardons thinks he has been sufficiently punished being over seven months without a license and further suspension may cause him to lose his position. We, therefore, recommend to Your Excellency that a pardon be granted in this matter.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Carl G. Wright, D-3857, No. 129-B, September Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Carl G. Wright, convicted of robbery in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on March 23, 1939 to be computed from February 24, 1939, be commuted from 20 years to 10 years and 8 months, expiring on October 24, 1949.

Our reasons for making this recommendation are as follows:

The applicant is one of many parolees whose release from parole by commutation of the maximum sentence has been recommended to the Board of Pardons by the Board of Parole.

The Board of Parole has recommended this applicant, as well as the others, because of his excellent record in the armed forces of the United States. By reason of his fealty to country, steadfastness in courage, and military earnestness, he helped overpower the enemies of our country in World War II.

As a token of appreciation, and feeling that his gallant conduct has atoned for the error of his past ways, it is our recommendation to your Excellency that the term of the maximum sentence of the applicant be commuted and that he be freed from further parole supervision.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
CHARLES M. MORRISON,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Kepler A. Anderson, No. 65768, No. A-26, October Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Kepler A. Anderson, convicted of robbery, being armed with an offensive weapon in the Court of Quarter Sessions of Armstrong County on May 14, 1949 be commuted from 15 months to 10 months expiring on March 14, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-three years of age and has two prior arrests but no convictions. He attempted to commit a holdup because of the fact his wife was suffering from cancer. Becoming despondent and under the influence of intoxicating liquor, the applicant attempted to commit this crime. Because of his excellent previous reputation, the court sentenced the applicant to a term of imprisonment in the Allegheny County Workhouse for from fifteen to thirty months. At the present time he has served approximately five months of his minimum sentence.

The Allegheny County Workhouse has stated that this applicant has a good record while in the institution. The trial judge, Honorable J. Frank Graff, has written the Board and stated he leaves the matter of commutation up to the Board of Pardons. The district attorney of Armstrong County states he has no comment to make at this time.

Under all the circumstances, the Board of Pardons feels that this applicant has been sufficiently punished if he serves two-thirds of his minimum sentence. We are, therefore, recommend that this applicant's sentence be commuted to ten months.

DANIEL B. STRICKLER,
Lieutenant-Governor.
NOT SITTING
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of John Basciano, D-7051, No. 8447, October Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of John Basciano, convicted of murder in the second degree in the Court of Oyer & Terminer and Quarter Sessions of Delaware County on March 24, 1943 to be computed from February 22, 1943, be commuted from 10 years to 6 years and 9 months, expiring on November 22, 1949.

Our reasons for making this recommendation are as follows:

This applicant is thirty years of age and has one prior conviction for which he was placed on probation. He was

convicted of murder in the second degree and sentenced to a term of imprisonment in the Eastern State Penitentiary for from ten to twenty years. After careful examination of all the facts that were presented to the Board of Pardons at the oral argument, the Board is of the opinion that this applicant should presently be convicted of voluntary manslaughter and not murder in the second degree. There is no doubt but that the evidence indicates that the shooting, which later resulted in the fatal killing of one of the victims, was brought about by the victim himself while he was in a fight with the defendant.

The district attorney of Delaware County stated to the Board of Pardons at the time of hearing that he did not oppose granting of clemency in this matter for he felt that it might very well be a voluntary manslaughter case. The applicant has a good institutional record.

Since this applicant has served a period of time longer than the minimum sentence for voluntary manslaughter, and since it is his first major conviction, the Board of Pardons feels he has been adequately punished and we therefore, recommend that his sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
NOT SITTING
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of John Coccio, No. A-24, October Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that John Coccio, convicted of larceny; receiving stolen goods in the Court of Quarter Sessions of Philadelphia County, on June 15, 1939, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is forty-two years of age and has no prior criminal record. A little over ten years ago has was placed on probation for a period of three years involving larceny for merchandise from his employer.

He has not become involved with the law in any respect whatsoever since his release and is presently engaged with two other men in a tailoring partnership. He enjoys a good reputation and all persons who know him testify to his excellent character. The applicant is married and is the father of a daughter, now nineteen years of age. He feels that he was given every evidence of rehabilitation and this was his only fall from grace.

The Board of Pardons does not believe the applicant will again commit any other offenses and we believe he has learned his lesson and has become thoroughly rehabilitated. We are, therefore, recommending that a pardon be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
NOT SITTING
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Thomas E. Colbert, D-912, B-9546, No. 6676, October Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed on Thomas E. Colbert, convicted of burglary, in the Oyer and Terminer Court of Philadelphia County, on October 13, 1932, to be computed from October 13, 1935, be commuted on Bill No. 227 October Sessions, 1932, from a maximum term of 10 years to a maximum term of 4 years, 1 month and 10 days, expiring on November 23, 1949; and on Bill No. 228 from a minimum term of 5 years to a minimum term of 1 day, expiring on November 24, 1949. (Applicant has been granted parole on Bills Nos. 226 and 227.)

Our reasons for making this recommendation are as follows:

This applicant is forty-seven years of age and this was his first major conviction. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from fifteen to thirty years on a charge of burglary. This applicant committed approximately fifty burglaries in private homes, the loot amounted to \$2155.00.

The Board of Trustees of the Eastern State Penitentiary have written the Board of Pardons and stated that this applicant has an excellent institutional record. The trial judge, Honorable Harry S. McDevitt, writes the Board of Pardons that he leaves the matter of commutation up to the Board. The district attorney of Philadelphia County is not opposed to the granting of commutation.

This applicant has now served over fourteen years of his minimum sentence of fifteen years and while in the institution had an eye destroyed by another prisoner through no fault of his own. We feel this applicant has been severely punished. Under all of these circumstances, we feel this applicant has been severely punished, and therefore, recommend that his sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
NOT SITTING
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Stanley Dudick, C-971, No. A-4, October Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Stanley Dudick, convicted of burglary; larceny; receiving stolen goods in the Court of Quarter Sessions of Mifflin County on December 30, 1948 to be computed from December 27, 1948, be commuted from 13 months to 11 months, expiring on November 27, 1949.

Our reasons for making this recommendation are as follows:

This applicant is thirty-two years of age and this was his first major conviction. He was sentenced, together with three other accomplices, to a term of imprisonment in the Western State Penitentiary for from thirteen to twenty-six months on a charge of larceny; burglary and receiving stolen goods. All of the applicant's accomplices were sentenced to a term of ten months in the Mifflin County Jail and after they had served approximately four months of their sentences, they were granted parole by order of the court. They were equally guilty with applicant and they applicant has no more evidence against him than the accomplices.

The trial judge, Honorable William W. Uttley, makes no recommendation, but leaves the matter of commutation up to Board of Pardons. The district attorney of Mifflin County leaves the matter of commutation up to the Board of Pardons. The Board of Trustees of the Western State Penitentiary state that this applicant has an excellent institutional record but makes no positive recommendation for his release because of the relative shortness of his term of sentence.

The Board of Pardons, however, views this matter as being a long sentence in relation to the sentences imposed by the court on the equally guilty accomplices, and since the trial judge and the district attorney leave the matter of commutation up to the Board of Pardons, we feel this applicant should receive the same treatment as his accomplices did, and we therefore, recommend that his sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
NOT SITTING
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of William G. Gallagher, D-388, No. 4529, October Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of William G. Gallagher, convicted of robbery in the Court of Oyer and Terminer and Quarter Sessions of Lackawanna County on February 23, 1935, be commuted from 15 years to 14 years and 9 months, expiring on November 23, 1949.

Our reasons for making this recommendation are as follows:

The applicant is one of many parolees whose release from parole by commutation of the maximum sentence has been recommended to the Board of Pardons by the Board of Parole.

The Board of Parole has recommended this applicant, as well as the others, because of his excellent record in the armed forces of the United States. By reason of his fealty to country, steadfastness in courage, and military earnestness, he helped overpower the enemies of our country in World War II.

As a token of appreciation, and feeling that his gallant conduct has atoned for the error of his past ways, it is our recommendation to your Excellency that the term of the maximum sentence of the applicant be commuted and that he be freed from further parole supervision.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant Governor.

NOT SITTING

Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of James Gibbs, D-1337, No. 5953, October Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed on James Gibbs, convicted of robbery, burglary, entering with intent to steal, in the Oyer and Terminer Court of Philadelphia County, on May 25, 1936, be commuted on Bill No. 881 May Sessions, 1936, from a maximum term of 10 years to a maximum term of 8 years and 6 months, expiring on November 25, 1949; on Bill No. 882 from a minimum term of 5 years to a minimum term of 1 day, expiring on November 26, 1949; on Bill No. 884 from a minimum term of 5 years to a minimum term of 1 day, expiring on November 27, 1949; and on Bill No. 887 from a minimum term of 5 years to a minimum term of 1 day, expiring on November 28, 1949. (Applicant has been granted parole on Bills Nos. 880 and 881).

Our reasons for making this recommendation are as follows:

This applicant is thirty years of age and this was his first major conviction. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from twenty-five to fifty years for his participation in nine burglaries. At the present time he has served approximately thirteen and one-half years of his minimum sentence.

The Board of Trustees of the Eastern State Penitentiary advise the Board of Pardons that his institutional record is good and further that this applicant was only sixteen years of age when he was sentenced for this crime.

The court probably felt that because he had four prior arrests he should be given a lesson even though only sixteen years of age. The Board of Pardons feels that he has truly had a lesson.

The trial judge, Honorable Harry S. McDevitt, has written the Board of Pardons that he leaves the matter of commutation up to the Board. The district attorney of Philadelphia County likewise leaves the matter of commutation up to the Board of Pardons.

Under all of these circumstances, the Board of Pardons feels the applicant has been severely punished as at this time he has served over one-half of his minimum sentence with a good institutional record. We, therefore, recommend that commutation of his sentence be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant Governor.
NOT SITTING
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Edward A. Haley, No. 5466, No. 9902, October Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Edward A. Haley, convicted of voluntary manslaughter in the Court of Oyer & Terminer of Philadelphia County, on November 12, 1947, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is eighteen years of age and he is making for a pardon which resulted from a conviction on charges of voluntary manslaughter.

This applicant was being attacked by approximately twenty persons of his age or older and they were shouting "lets get him," "kill the niggers," "lynch the bastards." As this crowd crashed the door where the applicant was living, they continued their shouting. The deceased was holding aloft in his hand, a broken piece of the door with which he was attempting to hit the applicant. The applicant, being frightened and fearing for the safety of his parents, picked up a Japanese souvenir dagger and ran down to protect them. Because the deceased ran at his parents and his brother, the applicant held out the dagger to ward off the victim and the others and the victim became impaled on the dagger.

The district attorney of Philadelphia County has stated he has no objection to the granting of a pardon and feels this applicant was severely punished as a result of his action.

Our investigation indicates that the applicant had a prior excellent reputation in his neighborhood and we feel that this was more an accident than a criminal act. Because our investigation leads us to believe that this was more an accident than a criminal act, we are recommending that a pardon be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant Governor.
NOT SITTING
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Leon Hellner, D-2837, No. 9527, October Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Leon Hellner, convicted of burglary, receiving stolen goods in the Court of Quarter Sessions of Philadelphia County on February 8, 1946 to be computed from December 17, 1945 be commuted from 8 years to 4 years expiring on December 17, 1949.

Our reasons for making this recommendation are as follows:

This applicant is twenty-nine years of age and this was his first major conviction. He was sentenced to a term of imprisonment in the Philadelphia County Prison for from eight to sixteen years on a charge of burglary and receiving stolen goods from a warehouse.

This applicant took Cuban alcohol from a warehouse, as he says, at the request of a man who is alleged to be

one of the owners. The applicant hired two men besides himself and took four days to remove it. He evidently labored under the misapprehension he had the right to do what he did, for he removed the barrels of alcohol in broad daylight. He even went to the police about the parking of the truck. He thought he had been hired by a man with full authority for the removal of these goods. However, he was arrested and convicted. His sentence was appealed to the Superior Court and the court affirmed the conviction.

The warden at the Philadelphia County Prison states this applicant would probably be a good parole risk. Since the accomplices received more out of this burglarly than the applicant did and were given only nine months of imprisonment, and this applicant was given a sentence of from eight to sixteen years, we believe the punishment does not fit the crime and that the sentence meted out to this applicant was much too severe.

The Board of Pardons, therefore, recommends that this applicant's sentence be commuted as of December 17, 1949.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant Governor.
NOT SITTING
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Robert James Karl, B-9084, No. 8604, October Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Robert James Karl, convicted of burglary, carrying concealed deadly weapons in the Court of Oyer and Terminer of Blair County on September 25, 1944 to be computed from September 15, 1944 be commuted from 15 years to 5 yrs. 2 mos. & 10 days, expiring on November 25, 1949.

Our reasons for making this recommendation are as follows:

This applicant is twenty-three years of age and has no prior criminal record. He was sentenced to a term of imprisonment in the Western State Penitentiary for from fifteen to thirty years on a charge of burglary and carrying concealed deadly weapons.

He has an excellent institutional record and the Board of Trustees of the Western State Penitentiary recommend that his sentence be commuted, and if he were eligible for parole, they would recommend him for parole. The trial judge, Honorable George G. Patterson, leaves the matter entirely in the hands of the Board. The district attorney of Blair County has written the Board of Pardons and stated he has no objection to the granting of commutation.

This young man was between the ages of seventeen and eighteen when this crime was committed and he could have been sentenced to the industrial school instead of the penitentiary.

The Board feels he has been severely punished in this matter and since he has served over one-third of his minimum sentence, we feel he should be given an opportunity to show that violations of the law only lead to trouble.

The Board of Pardons feels that since this applicant was a first-offender the sentence he received was quite severe for a youth under eighteen years of age and that

he has been sufficiently punished. We, therefore, recommend that his minimum sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant Governor.
NOT SITTING
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of William Kimble, B-622, No. 163, October Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the life sentence of William Kimble, convicted of murder in the first degree in the Court of Oyer and Terminer of Allegheny County on February 10, 1928 be commuted from life imprisonment to 21 yrs. 9 mos. & 12 days, expiring on November 22, 1949.

Our reasons for making this recommendation are as follows:

This applicant is fifty-eight years of age and has no prior criminal record. He was sentenced to life imprisonment in the Western State Penitentiary for the murder of his girl friend. There is no doubt that this applicant was guilty of the crime as charged for he pled guilty generally on the advice of counsel and the court found him guilty of murder in the first degree.

However, this applicant has now been in the Western State Penitentiary for a period of approximately twenty-two years and all during that time has had an excellent institutional record. He has never committed in those twenty-two years any offense whatsoever.

The trial judge is since deceased and no recommendation can come from him. The district attorney's office, however, stated they have no objection to the granting of commutation in this case.

Since this applicant has served nearly twenty-two years of a life sentence, since he has a good record in the institution, the Board of Pardons feels he has earned the right to have another chance, and we, therefore, recommend that commutation be granted as prayed for.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant Governor.
NOT SITTING
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Albert Kulesik, alias Albert R. Grickiewicz, legally changed to Albert R. Grick, B-2340, No. 1499, October Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Albert Kulesik, alias Albert R. Grickiewicz, name legally changed to Albert R. Grick, convicted of robbery in the Court of Oyer and Terminer of Allegheny County, on November 24, 1930, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is thirty-nine years of age and this was his first major conviction. He was sentenced to a term of imprisonment in the Western State Penitentiary for from ten to twenty years on a charge of robbery and he served seven and one-half years before he was released on parole. He has now been released for approximately twelve years. Approximately seven and one-half years after his release on parole, he was granted commutation of his maximum sentence.

He shows an excellent record on parole and is employed with the Security Banknote Company in Philadelphia. He served honorably in the armed forces of the United States for a period of two years and one month and was granted an honorable discharge. He has conducted himself above reproach and he asks that this blot may now be stricken from the record.

The Board of Pardons believes this applicant has met all the tests required of one who desires to secure a pardon, and we therefore, recommend that a pardon be granted as prayed for.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant Governor.
NOT SITTING
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Santo Mangano, D-7310, No. A-44, October Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the flat sentence of Santo Mangano, convicted of aggravated assault and battery in the Court of Quarter Sessions of Philadelphia County on May 3, 1949 be commuted from 2 years to 6 years and 20 days, expiring on November 23, 1949.

Our reasons for making this recommendation are as follows:

This applicant is forty-five years of age and has no prior criminal record. He was charged with aggravated assault and battery and was sentenced to a term of two years for this offense. The crime, briefly, in this: the applicant and his victim, who was his girl friend, had been going together for some two years and they had broken off and his girl friend still kept coming after the applicant and demanded money from him. On the occasion of this assault and battery, the victim had made an arrangement to meet the applicant and demanded money of him. When the money was not forthcoming, an escort of the victim came out of the shadows and pushed the applicant in the face. He retaliated with considerable force and as a result thereof was arrested and sentenced to a term of two years.

The Board of Pardons feels that there was sufficient

provocation and the mitigating circumstances are here. It is felt that a two year sentence was extremely harsh under all of the circumstances.

He has an excellent institutional record and is a good prisoner. If released, he will be in a position to support his wife and child. He is well adjusted in prison. The trial judge, Honorable Edwin O. Lewis, has written the Board of Pardons and stated that he feels under the circumstances that the Board should recommend the release of this applicant.

Since this applicant has now served approximately six months of his minimum sentence of two years, we feel he has been adequately punished and since there was provocation in this matter, we recommend that this sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant Governor.
NOT SITTING
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of John Thomas McCormick, C-446, No. A-38, October Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed on John Thomas McCormick, convicted of burglary, in the Oyer and Terminer Court of Butler County, on January 2, 1948; and of robbery, in the Oyer and Terminer Court of Allegheny County, on January 20, 1948; be commuted on Bill No. 3 December Sessions, 1947, from a maximum term of 4 years to a minimum term of 2 years, expiring on January 2, 1950; and on Bill No. 18 January Sessions, 1948, from a minimum term of 1 year to a minimum term of 1 day, expiring on January 3, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-five years of age and this was his first conviction for any offense whatsoever. He was sentenced to a term of imprisonment in the Western State Penitentiary for from two to four years on a charge of burglary from Butler County, and at the same time he received a consecutive sentence of one to two years on a charge of robbery from Allegheny County.

His accomplices, who were equally guilty with the applicant, received a sentence of two to four years, and the applicant had no previous criminal record.

The Board of Trustees of the Western State Penitentiary state that if the applicant was eligible for parole, they would probably recommend because this was his first conviction and that he has an excellent institutional record. The district attorney of Allegheny County has stated to the Board of Pardons that he believes the applicant should serve no more than two years. The trial judge, Honorable John P. Egan, has stated to the Board of Pardons that he feels the applicant should serve no more than two years.

Since both the trial judge and district attorney feel that this applicant should not be required to serve more than the minimum sentence of two years, the Board agrees with their recommendation and also recommends to Your Excellency that this applicant's sentence be commuted at the expiration of two years.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant Governor.
NOT SITTING
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Kenneth Miller, B-8674, No. 7439, October Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Kenneth Miller, convicted of felonious assault, intent to robbery, being armed with an offensive weapon in the Court of Oyer and Terminer of Allegheny County on May 7, 1943 to be computed from January 12, 1943 be commuted from 15 years to 6 years, 10 months and 10 days, expiring on November 22, 1949.

Our reasons for making this recommendation are as follows:

This applicant is twenty-five years of age and this was his first major conviction. He was sentenced to a term of imprisonment in the Western State Penitentiary for from seven and one-half to fifteen years on a charge of felonious assault, robbery, being armed with an offensive weapon. After having been sentenced on this record he served approximately two and one-half years when he was released on parole. He has now been on parole for approximately three years.

The Board feels that this was a case of a rash youth who was led into this crime by mutual suggestions of older accomplices and the indulgence in alcoholic liquors. This applicant has adjusted well on parole and has made every opportunity to improve his reputation and his status in the community. He has worked hard, is married and in addition has become very stable in his religious duties. He realizes that "crime does not pay" and that only by sticking to the straight and narrow can he win success in life.

The district attorney of Allegheny County opposes the granting of a pardon in this matter, but leaves the matter of commutation of his maximum sentence up to the Board of Pardons.

Many people in good repute in Allegheny County have come to the aid of this applicant and have written requesting that a pardon be granted to him.

The Board of Pardons is of the opinion that it is not good policy for us to grant pardons while the applicant is still on parole unless he is blameless or that there is some doubt as to his conviction. If neither of these facts can be established, the Board feels that it is poor policy to recommend a pardon while the applicant is on parole. However, in view of this applicant's good record and his attempted rehabilitation, the letters of prominent citizens in Allegheny County, we feel he merits some consideration, and the Board therefore, recommends commutation of his maximum sentence be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant Governor.
NOT SITTING
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Walter R. Novick, No. 59083, No. 9539, October Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Walter R. Novick, convicted of burglary, false pretense in the Court of Quarter Sessions of Allegheny County on July 20, 1944 to be computed from July 12, 1944 be commuted from 6 years to 5 years, 4 months and 10 days, expiring on November 22, 1949.

Our reasons for making this recommendation are as follows:

This applicant is twenty-four years of age and this was his first major offense. He was sentenced to a term of imprisonment in the Allegheny County Workhouse for from six to twelve years for entering several homes and taking various articles, the total amount of cash taken appears to be approximately \$250.00.

The applicant has now served more than vve and one-fourth years of his minimum sentence, he has an excellent institutional record in the Allegheny County Workhouse. His immediate supervisor is of the opinion he is worthy of trial by release. His brother, who was his representative before the Board of Pardons, stated that he will give him a home and also a friend of the family will supervise his conduct. He has a good work record set for him and we believe he can adjust at this time.

Since he has served all but approximately nine months of his minimum sentence, we feel he has been sufficiently punished and if given an opportunity, will not offend against society. The Board of Pardons, therefore, recommends that he be granted commutation of his sentence.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant Governor.
NOT SITTING
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of John Pestich, D-1892, No. 6831, October Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed on John Pestich, convicted of robbery, rape, in the Oyer and Terminer and Quarter Sessions Court of Delaware County on January 6, 1937, to be computed from November 13, 1936, be commuted on Bill No. 223 December Sessions, 1936, from a maximum term of 10 years to a maximum term of 3 years and 10 days, expiring on November 23, 1949; and on Bill No. 222 from a minimum term of 7½ years to a minimum term of 1 day, expiring on November 24, 1949.

Our reasons for making this recommendation are as follows:

This applicant is thirty years of age and this was his

first major conviction. He was sentenced on charges of robbery and rape to a term of imprisonment in the Eastern State Penitentiary for from seventeen and one-half to thirty-five years. At the time this applicant was sentenced he was seventeen and one-half years of age.

There is no doubt but what the crimes in this particular case were vicious but there is no evidence of psychosis on the part of the applicant, and it is definitely established that this applicant did not commit the rape but that the rape was committed by one of the accomplices who has since had his sentence commuted by the Board. In fact, two of the accomplices received the same sentences as this applicant and have had their sentences commuted by the Board of Pardons.

The district attorney of Delaware County has no objection to the release of this applicant and leaves the matter of commutation up to the Board of Pardons. The present judge, Honorable Harold K. Ervin, expresses no opinion in this matter because he did not impose the sentence.

The Board of Pardons recommends that this applicant's sentence be commuted because he was no more guilty than his accomplices, two of whom have had their sentences commuted and because he has served approximately thirteen years of his minimum sentence with an excellent institutional record.

Respectfully submitted,

DANIEL B. STRICKLER,

NOT SITTING
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Patrick Sedlak, D-9965, No. 9804, October Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Patrick Sedlak, convicted of burglary; larceny in the Court of Oyer and Terminer and Quarter Sessions of Perry County on October 14, 1947 to be computed from September 17, 1947, be commuted from 5 years to 2 years, 2 months and 10 days, expiring on November 27, 1949.

Our reasons for making this recommendation are as follows:

This applicant is twenty-six years of age and has no prior criminal record. He was sentenced by the court of Perry County to a term of imprisonment in the Eastern State Penitentiary for from five to ten years on the charges of burglary and larceny. This applicant comes from an excellent family and none of his brothers and sisters have even been involved with the law. In fact, two of them are members of the clergy.

This young man became involved in these offenses when he accepted money for trapping supplies and did not have sufficient money to fill the orders nor to return the money. Therefore, while taking these orders he would approach the farmhouse and if no one answered the door he would enter, search the house, and steal whatever he found. He finally was arrested and found guilty.

The trial judge, however, is opposed to the granting of commutation at this time. The district attorney states he feels the sentence imposed was too severe and leaves the matter of commutation up to the Board of Pardons.

The applicant has an excellent institutional record and the Board of Pardons feels that he might be released with a satisfactory adjustment because of his excellent prior reputation and the assurance given by his brothers who are members of the clergy and intend to look after him. We, therefore, recommend that his sentence be commuted and that he be released on parole.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant Governor.
NOT SITTING
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Pasquale Stallone, C-2410, No. 1720, October Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed on Pasquale Stallone, convicted of murder in the second degree, in the Oyer and Terminer Court of Lackawanna County, on March 15, 1924, be commuted on Bill No. 17 January Sessions, 1923, from a maximum term of 20 years to a maximum term of 5 years, 8 months and 10 days, expiring on November 25, 1949; and on Bill No. 18 from a minimum term of 10 years to a minimum term of 1 day, expiring on November 26, 1949.

Our reasons for making this recommendation are as follows:

This applicant is sixty years of age and has no prior criminal record. He and three victims were drinking together at his home when an argument ensued as to who would pay for the drinks and this applicant shot and killed three men. He was convicted of murder in the second degree and later after an appeal to the Supreme Court of Pennsylvania, pled guilty in both the other cases and received second degree sentences. These sentences were to run consecutively, and therefore, the applicant received a total sentence for from thirty to sixty years in the Eastern State Penitentiary. At the present time he has served over twenty-five and one-half years of his minimum sentence.

The Board of Trustees of the Eastern State Penitentiary state that this applicant has an outstanding institutional record and if granted commutation will be released to go to live in Bucks County, Pennsylvania, far removed from judge, Honorable Michael J. Egan, has stated that this the scene of the crime in Lackawanna County. The present matter is one for the Board of Pardons to dispose of as he was not the trial judge, the trial judge having since died. The district attorney of Lackawanna County leaves the matter of commutation up to the Board of Pardons.

The Board of Pardons feels that this applicant has been sufficiently punished and since he has an outstanding record in the institution, the Board recommends that he be granted commutation at this time.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant Governor.
NOT SITTING
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
JAMES H. DUFF,
 Governor.

BOARD OF PARDONS

In re application of Samuel Tobin, C-8301, No. 2013, October Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed on Samuel Tobin, convicted of conspiracy to publish fraudulent railroad tickets, in the Quarter Sessions Court of Philadelphia County, on September 30, 1932, be commuted on Bill No. 1177 March Sessions, 1932, from a maximum term of 10 years to a maximum term of 7 years and 2 months, expiring on November 30, 1949.

Our reasons for making this recommendation are as follows:

This applicant is fifty-five years of age and this was the first offense for which he has ever been convicted. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from ten to twenty years on a charge of conspiracy to publish fraudulent railroad tickets, the amount involved was approximately \$25,000.00.

After having served a period of three years, the applicant was released on parole and in the past fourteen years has been under the jurisdiction of the Board of Parole.

The Board of Parole has written the Board of Pardons and stated that this applicant has made a good record on parole and has shown himself to be rehabilitated. He is respected in the community in which he lives and has a good reputation therein. His accomplice received a pardon from the Board of Pardons in May 1949.

The trial judge, Honorable Harry S. McDevitt, states that he has no objection to the granting of a pardon if the applicant has a good record. He has a good record. The district attorney of Philadelphia County has stated that he is opposed to a pardon but not to a commutation of his maximum sentence.

In the light of this applicant's sentence and the length of time he has served; and the opposition to a complete pardon by the district attorney; the Board of Pardons recommends that a commutation of his maximum sentence be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
 Lieutenant Governor.
NOT SITTING
 Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
 Attorney General.
WILLIAM S. LIVENGOD, JR.,
 Secretary of Internal Affairs.

The above recommendation is approved:
JAMES H. DUFF,
 Governor.

BOARD OF PARDONS

In re application of Walter Zurek, No. A-21, October Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Walter Zurek, convicted of entering with intent to steal; larceny; receiving stolen goods in the Court of Quarter Sessions of Philadelphia County on January 16, 1934, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is thirty-two years of age and has no prior criminal record. When he was sixteen years of age, he entered a vacant building taking fixtures and pipe therefrom to the total value of \$12.00 for which he was arrested.

The district attorney of Philadelphia County stated he is not opposing the granting of a pardon in this case.

The applicant has really atoned for this one offense. He served in the armed forces of the United States for a period of three years and seven months, receiving the Purple Heart and an honorable discharge. He is married and employed and realizes that this conviction is a terrific blot on his record. He asks for a pardon, as set forth above, because of his excellent record and his good army record.

The Board of Pardons is recommending that a pardon be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
 Lieutenant Governor.
NOT SITTING
 Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
 Attorney General.
WILLIAM S. LIVENGOD, JR.,
 Secretary of Internal Affairs.

The above recommendation is approved:
JAMES H. DUFF,
 Governor.

BOARD OF PARDONS

In re application of Frank Bommarito, D-1513, No. 5441, November Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Frank Bommarito, convicted of larceny, robbery, assault and battery with intent to rob in the Court of Oyer and Terminer and General Jail Delivery of Lehigh County on August 10, 1936, be commuted from 15 years to 13 years, 4 months and 10 days, expiring on December 20, 1949.

Our reasons for making this recommendation are as follows:

This applicant is forty-five years of age and this is his first conviction in Pennsylvania. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from seven and one-half to fifteen years on a charge of robbery growing out of the holdup of a bank. After his arrest, he pled guilty and was given the above sentence.

He has served over five years of this sentence when his sentence was commuted and he was released to the parole authorities. He immediately returned to his home in Detroit, Michigan, where he has reestablished himself with his wife and mother. At the present time, he is employed with the Temple Motorcar Sales Company of Detroit and is adjusting very satisfactorily.

The Board of Parole in the State of Michigan has written to the Board of Parole in Pennsylvania and stated . . . "that this applicant has been very prompt in his reports and has been available at all times and the parole officer feels that he has made a very good adjustment. It is recommended that a discharge from parole at this time be granted." The present judge, Honorable James T. Henninger, states he has no objection to the granting of commutation of his maximum sentence. The district attorney of Lehigh County has written and stated he is not opposed to the granting of commutation of his maximum sentence if his record has been good.

Because of this applicant's excellent record while on parole over the past eight years and this commutation means only one-half year from parole supervision; and since both the judge and district attorney recommends; and since the parole authorities recommends; the Board

of Pardons, likewise, recommends that the commutation of his maximum sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of David Bowser, C-437, No. 9605, November Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of David Bowser, convicted of burglary, larceny in the Court of Quarter Sessions of Huntingdon County on December 1, 1947 to be computed from October 6, 1947, be commuted from 3 years to 2 years, 2 months and 10 days, expiring on December 16, 1949.

Our reasons for making this recommendation are as follows:

This applicant is thirty-six years of age and this was his first major conviction. He was sentenced to a term of imprisonment in the Western State Penitentiary for from three to six years on a charge of burglary and larceny. At the present time, he has served two years and two months of his minimum sentence of three years.

He has an excellent institutional record and the Board of Trustees of the Western State Penitentiary state that if he was eligible for parole, they would recommend him. The trial judge, Honorable Chester D. Fetterhooft, states that he leaves the matter of commutation up to the Board, but further states that clemency might be in order on account of his wife and children. The district attorney of Huntingdon County has no objection to the release at this time and feels that the applicant might be worthy case in the light of his family.

The applicant's wife was his representative before the Board and from the attitude which she exhibited, we believe she will do all in her power to keep the applicant on the straight and narrow path. We feel that this applicant has been sufficiently punished and that his wife will take care of any further breaches of conduct that might tempt the applicant to get out of the straight and narrow path.

The Board of Pardons, therefore, recommends that the applicant's sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of John R. Burgy, D-1139, No. 3877, November Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of John R. Burgy, convicted of robbery in the Court of Oyer and Terminer of Delaware County on February 14, 1936 be commuted from 20 years to 13 years, 10 months and 4 days, expiring on December 18, 1949.

Our reasons for making this recommendation are as follows:

This applicant is thirty-nine years of age and this is his first major conviction. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from four to twenty years on a charge of robbery. This applicant served his minimum sentence and has been on parole for more than nine years of his parole period and he now seeks commutation of his maximum sentence.

The Board of Parole, under whose supervision the applicant is, states that he has made a satisfactory adjustment and he now desires to remarry and does not wish to have the stigma of parole attached to any children he may have with this new wife. The district attorney of Delaware County at the time of hearing before the Board of Pardons stated he had no objection to the granting of commutation of his maximum sentence and does not oppose the granting of same.

Since this applicant has had an excellent parole period of over nine years and since he has shown every evidence of rehabilitation, we see no good reason for continuing this applicant on parole. We are, therefore, recommending that the maximum sentence of this applicant be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Joseph Connerton, D-9265, No. 9593, November Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Joseph Connerton, convicted of prison breach in the Court of Oyer and Terminer of Philadelphia County on January 31, 1946 to be computed from June 25, 1948, be commuted from 2 years to 1 year, 5 months and 21 days, expiring on December 16, 1949.

Our reasons for making this recommendation are as follows:

This applicant is twenty-eight years of age and is now serving a sentence of two to four years in the Eastern State Penitentiary on a charge of prison breach in the Philadelphia County Prison. While this applicant was imprisoned in the Philadelphia County Prison on a charge of burglary and larceny his parole was not forthcoming on the date on which the minimum sentence expired, he, therefore, walked away from the county prison thereby taking the matter into his own hands. He was

gone approximately two months when he was apprehended and returned and made to serve the balance of his maximum sentence of from four to eight years and given the sentence of two to four years for prison breach.

At the present time, this young man has served for burglary and larceny a total of nine years and he would still have a year and four months to do. Granted, he had no right to determine the expiration of his minimum sentence, but we can well be aware of his mental feeling when he was not granted his freedom at that time. We do feel he has been severely punished by the imposition of his nearly four more years' service for his thoughtless act of walking away from the institution.

Under all of these circumstances, we feel that this applicant should be granted a commutation of the sentence for prison breach, and we, therefore, recommend that his sentence be commuted from two years to one year, five months and 21 days.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Louis Eberhardt, E-850, No. A-86, November Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Louis Eberhardt, convicted of rape in the Court of Quarter Sessions of Carbon County on January 31, 1949, be commuted from 2½ years to 1 year expiring on January 31, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-eight years of age and has no prior criminal record. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from two and one-half to five years on a charge of assault and battery, contributing to the delinquency of a minor and rape. This applicant was found guilty on all charges and sentenced only on the crime of rape. The girl with whom this person is alleged to have committed the act, had a very poor reputation in the community and this applicant comes from an excellent family as was represented to the Board of Pardons.

The Board of Trustees of the Eastern State Penitentiary state that this applicant has an excellent institutional record and they would not hesitate to recommend him for commutation as he has shown himself to be completely rehabilitated. The district attorney of Carbon County has written and states that he believes this applicant is entitled to commutation. The trial judge, Honorable James C. McCready, has not seen fit to advise the Board of Pardons as to his feeling in this matter.

Since the applicant has an excellent institutional record, and the victim has a very poor record, it is believed that this applicant has been sufficiently punished when it is further pointed out to us that this applicant did not actively have any relations with the victim. The Board of Pardons, therefore, recommends that clemency be granted after the service of one year which will be in January 1950.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Charles Godfrey, D-5975, No. 4221, November Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Charles Godfrey, convicted of burglary, receiving stolen goods in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on August 29, 1941 to be computed from March 21, 1945, be commuted from 5 years to 4 years and 9 months, expiring on December 21, 1949.

Our reasons for making this recommendation are as follows:

This applicant is thirty-six years of age and this is not the first conviction, but his fourth conviction. This, however, is his second major conviction. At the time of the crime, the trial Judge, Honorable Harry S. McDevitt, sentenced him to serve five to ten years concurrent with three and one-half years of his back parole time. This type of sentence was later shown to be incorrect with the establishment of the Lerner and Wheeler Decision, and the applicant has, therefore, been made to serve the back parole time before beginning his sentence of five to ten years. Applicant has, therefore, been imprisoned a total of over eight years and three months, but because of his back parole time, he has only been given credit for four years and seven months.

In order to give effect to the trial judge's sentence and since the district attorney of Philadelphia County leaves the matter of commutation up to the Board of Pardons, we feel that the sentence should be commuted since he has served a great deal longer period of time than the trial judge ever intended.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Harry Hartman, B-7435, No. A-70, November Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Harry Hartman, convicted of robbery, being armed with an offensive weapon, receiving stolen goods,

burglary in the Court of Oyer and Terminer of Allegheny County on November 20, 1940 to be computed from October 18, 1940 be commuted from 12 years to 9 years and 2 months, expiring on December 18, 1949.

Our reasons for making this recommendation are as follows:

This applicant is twenty-eight years of age and this is his first major conviction although he has six prior arrests and two juvenile convictions.

At the time these offenses were committed, this applicant was nineteen years of age and has now served nine years of his minimum sentence of twelve years. He has an excellent institutional record and has made a great effort to better himself while in the institution. He has extended his educational background and has made every effort to show that he regrets what he has done and that he will become a valuable member of society when released.

The Board of Trustees of the Western State Penitentiary feel that this applicant has an excellent institutional record and if given an opportunity on parole, will probably adjust to society. The trial judge, Honorable M. A. Musmanno, told the representative of the Board of Parole that he leaves the matter of commutation up to the Board of Pardons. The district attorney of Allegheny County states he leaves the matter of commutation to the Board of Pardons.

The Board of Pardons feels that this applicant has served a long period of time, has a good institutional record, and by reason of his attitude in prison, we believe he is worthy of consideration at this time. We, therefore, recommend that a commutation of sentence be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of John H. Jones, C-4694, No. 6129, November Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the life sentence of John H. Jones, convicted of murder in the first degree in the Court of Oyer and Terminer of Schuylkill County on July 2, 1928 be commuted from life imprisonment to 21 years, 5 months and 21 days, expiring on December 20, 1949.

Our reasons for making this recommendation are as follows:

This applicant is fifty years of age and this was his first major conviction. He was sentenced to life imprisonment in the Eastern State Penitentiary on a charge of murdering a policeman. This applicant, although he killed a policeman and would normally not receive any mercy at our hands, has shown he did not fire with any deliberate aim to harm this policeman, but when he felt the policeman was shooting with intent to kill him, he shot more to scare him than with any intent to kill.

He has now served twenty-one years in the Eastern State Penitentiary and he has one of the most outstanding records in the institution where he is employed as chief cook in the diet kitchen. The penitentiary authorities state that this is one case that should receive consider-

ation from a Board of Pardons and they cite his excellent record and obvious rehabilitation. The present judge, Honorable Cyrus M. Palmer, states that he has no comment to make at this time. The district attorney of Schuylkill County, who was not the district attorney at the time of the trial, states he is opposed to commutation because a policeman was killed.

The Board of Pardons feels that this applicant has atoned for this offense and we do believe there are certain mitigating circumstances which cause us to consider this applicant's plea for commutation, after having served twenty-two years of a life sentence. We are, therefore, recommending that the sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
JAMES H. DUFF,

BOARD OF PARDONS

In re application of John Louis Landenberger, Jr., No. 6269, No. A-85, November Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the indeterminate sentence of John Louis Landenberger, Jr., convicted of involuntary manslaughter, leaving scene of accident without rendering assistance in the Court of Quarter Sessions of Lehigh County on January 4, 1949 be commuted from indeterminate term to 1 year expiring on January 4, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-two years of age and he was sentenced on a charge of involuntary manslaughter and leaving the scene of an accident without rendering assistance, in which two persons were killed. This applicant was also injured in the automobile accident and although the Board does not believe there was any intention on his part to leave the scene of the accident, he was charged with that crime. The applicant was not shown to have been intoxicated although he did admit to having two glasses of beer three or four hours before having the accident. When this applicant awoke to the realization that he had been involved he immediately made arrangements through his attorney to help the estates of the deceased persons by arranging to make considerable settlements. This was done to the satisfaction of the estates of the deceased persons and it took practically the entire estate of this young applicant.

He has now been confined for a period of approximately one year. We believe this to have been more in the nature of a civil case than a criminal case insofar as gross negligence was not expressly shown. It was that type of unfortunate accident that could have happened to any one of us. We feel that this applicant has been sufficiently punished and the trial judge, Honorable James F. Henninger, leaves the matter of commutation up to the Board of Pardons. The district attorney of Lehigh County opposes the granting of a pardon, but leaves the matter of commutation up to the Board of Pardons.

The Board of Pardons believes that this young man has been sufficiently punished and it would deter his rehabilitation if further incarceration was resorted to. We are, therefore, recommending to Your Excellency, that

commutation of the indeterminate sentence at the Pennsylvania Industrial School be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of James Mason, C-8000, No. 3415, November Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed upon James Mason, convicted of burglary, breaking and entering with intent to steal in the Court of Oyer and Terminer of Lackawanna County on May 7, 1932, be commuted on Bill No. 236 May Sessions, 1932, from a maximum term of 10 years to a maximum term of 7 years, 7 months and 10 days, expiring on December 17, 1949; and on Bill No. 256 from a maximum term of 10 years to a maximum term of 1 day, expiring on December 18, 1949.

Our reasons for making this recommendation are as follows:

This applicant is forty-seven years of age and he was sentenced in 1932 to a term of imprisonment in the Eastern State Penitentiary for from fifteen to thirty years. After having served nine years of his minimum sentence, the Board of Pardons commuted the sentence and the applicant has been on parole for a period of eight years and four months. In that period of time, the applicant has been under the supervision of the Board of Parole. He has made a satisfactory adjustment on parole and the Board of Pardons feels that he will not again commit any offense against society whatsoever.

The Board of Parole has no objection to commutation of the maximum sentence. The district attorney of Lackawanna County has written the Board of Pardons and stated he has no objection to the commutation of the maximum sentence or the granting of a pardon. The trial judge is deceased and the present judge, Honorable T. L. Hoban, has stated to the representative of the Board of Parole that he is willing to leave the matter of commutation up to the Board of Pardons.

Since this applicant has been on parole for over eight years; since he has an excellent record on parole and is rehabilitated, we feel he should take his rightful place in society and that he will not again commit any offenses which will cause him to breach the faith which has been placed in him.

The Board of Pardons, therefore, recommends that commutation of his maximum sentence be granted to this applicant.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Anna Kathryn McMullen, No. 2509, No. A-58, November Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Anna Kathryn McMullen, convicted of forgery in the Court of Oyer and Terminer of Blair County on March 19, 1948, be commuted from 2½ years to 1 year and 9 months, expiring on December 19, 1949.

Our reasons for making this recommendation are as follows:

This applicant is forty-eight years of age and this is her first conviction for any offense whatsoever. She pled guilty to a charge of forgery.

This applicant was a bookkeeper and as such she acted more or less in the capacity of manager and bookkeeper. The operation and conduct of the business was done in such a loose and inefficient manner and the manager was the son-in-law of the president of the company. It was his direction and loose business methods that resulted in this applicant being charged with this offense. Her conviction was the result of the manager having her mingle his personal funds with the funds of the company.

The applicant has an excellent institutional record in the State Industrial Home for Women, at Muncy. The trial judge, Honorable Chester D. Fetterhooft, Specially Presiding, states to the Board of Pardons that he is not opposed to the granting of commutation. The district attorney of Blair County writes and recommends this applicant in the highest degree.

Under all of these circumstances and since this applicant has now served one year and nine months of her minimum sentence of two and one-half years, the Board of Pardons recommends that her sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Michael Napoliello, No. A-13, November Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Michael Napoliello, convicted of burglary in the Court of Quarter Sessions of Philadelphia County, on November 20, 1937; and of larceny in the Court of Quarter Sessions of Philadelphia County, on July 14, 1938, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is twenty-eight years of age and he was convicted of burglary and larceny. This happened at the time that the applicant was about seventeen years of age and it was more in the nature of a childish prank than with any criminal intent.

Subsequently, this applicant served in the armed forces of the United States for a period of four years and is now married and about to become a father. He realizes the seriousness of his offense against society and we do not believe this applicant will again commit any offense whatsoever. He has been in no further trouble for a period of eleven years, and under those circumstances, we feel that his continued good conduct can be assured.

Because of this applicant's excellent service with the armed forces of the United States we feel that his act was an act of an immature boy and he has shown how to behave and because of his added responsibility, we therefore, recommend that a pardon be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant Governor.
NOT SITTING
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Samuel Nowitch, B-4875, No. 298, November Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed upon Samuel Nowitch, convicted of entering a building in the Court of Quarter Sessions of Allegheny County, on December 20, 1935, be commuted on Bill No. 73 September Session, 1935, from a maximum term of 10 years to a maximum term of 3 years and 11 months, expiring on December 20, 1949; and on Bill No. 76 from a minimum term of 5 years to a minimum term of 1 day, expiring on December 21, 1949. (Applicant was granted parole on Bill No. 66.)

Our reasons for making this recommendation are as follows:

This applicant is fifty-five years of age and this was his first major conviction. He was sentenced to a term of imprisonment in the Western State Penitentiary for from fifteen to thirty years on a charge of entering a building with intent to commit a felony therein.

Although the applicant is not free from a criminal record, still he is no worse than his accomplices. He has an excellent institutional record in the Western State Penitentiary and they recommend the granting of a commutation. The trial judge, Honorable Thomas M. Marshall, has stated to the representative of the Board of Pardons that he leaves the matter of commutation up to the Board of Pardons.

This applicant has served a period of approximately thirteen years and ten months out of a minimum sentence of fifteen years. If we count the time he spent in the county prison awaiting sentence and trial, he would have served approximately fourteen years and three months.

Since he has served such a long period of time and since the Board of Trustees of the Western State Penitentiary recommend that he be granted parole, the Board of Pardons recommends that his sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.

T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Stanley J. Swatsky, No. A-83, November Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Stanley J. Swatsky, convicted of larceny in the Court of Quarter Sessions of Schuylkill County on May 16, 1949 be commuted from 2½ years to 1 year expiring on May 16, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-seven years of age and has no prior criminal record. He and two accomplices stole scrap and sold it and received approximately \$90.00 which they divided.

This applicant has an excellent institutional record in the Schuylkill County Prison and the trial judge, Honorable C. W. Staudenmeier, has no comment to make at this time nor has the district attorney.

If the applicant is released, he will be in a position to aid his wife and children who are in dire need. He has been an excellent prisoner while in prison.

Since this was his first conviction, we are recommending that his sentence be commuted at the expiration of one year or May 16, 1950.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Jonas Tarrant, B-910, No. 3159, November Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the life sentence of Jonas Tarrant, convicted of murder in the first degree in the Court of Oyer & Terminer of Westmoreland County on August 10, 1928 be commuted from life imprisonment to 21 yrs. 4 mos. and 10 days, expiring on December 20, 1949.

Our reasons for making this recommendation are as follows:

This applicant is fifty years of age and has no prior criminal record. He was insanely jealous of his wife and at the time he believed that his wife was carrying on an affair with the intruder. He alleges that he had no intent to kill his wife, however, the applicant was convicted and sentenced to life imprisonment in the Western State Penitentiary.

The applicant has an excellent institutional record in the penitentiary and the psychologist there states he does not manifest any anti-social or aggressive trends and is friendly and cooperative and they would recommend him for release on parole if he was eligible to accept it.

The Board of Pardons believes that having served nearly twenty-two years of a life sentence that this applicant should be given some credit for his excellent institutional record and rehabilitation and we are, therefore, recommend that the life sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of John Thomson, C-7885, No. 1427, November Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that John Thompson, convicted of attempted extortion in the Court of Quarter Sessions of Philadelphia County, on April 2, 1932, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is fifty-seven years of age and in 1932 he was sentenced to a term of imprisonment in the Eastern State Penitentiary for from five to twenty years on a charge of attempted extortion. He served two and one-half years of his minimum sentence when he was released on parole. He has been on parole over fifteen years. In that period of time, the applicant has set himself up in the electric welding business and he has become quite successful in the operation of this business. There has been no complaints during the entire fifteen years on parole. His maximum sentence would expire in 1952. The applicant, however, asks for a pardon at this time.

This applicant has never been in any further trouble with the exception of this affair and we feel that this offense was the result of a confused mental state at the time, due to financial and business worries. It is shown that he has brought up a fine family and that he bears an excellent reputation in the neighborhood.

Neither the trial judge or the district attorney of Philadelphia County have any objection to a pardon at this time.

The Board of Pardons feels that this applicant has earned the right to a pardon over the last fifteen years and we are recommending that a pardon be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of John Beltz, C-8399, No. 4085, December Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed upon John Beltz, convicted of rape, robbery in the Court of Oyer & Terminer and Quarter Sessions of Schuylkill County on November 4, 1932, be commuted on Bill No. 1569, November Session 1932, from a maximum term of 10 years to a maximum term of 7 years and 3 months expired on February 4, 1950; on Bill No. 1569-A from a maximum term of 10 years to a maximum term of 1 day, expired on February 5, 1950; on Bill No. 1570 from a maximum term of 10 years to a maximum term of 1 day, expired on February 6, 1950; on Bill No. 1571-A from a maximum term of 10 years to a maximum term of 1 day, expired on February 7, 1950; on Bill No. 1572 from a minimum term of 3 years to a minimum term of 1 day, expired on February 8, 1950; on Bill No. 1572-A from a minimum term of 3 years to a minimum term of 1 day, expired on February 9, 1950; on Bill No. 1573 from a minimum term of 1½ years to a minimum term of 1 day, expired on February 10, 1950; and on Bill No. 1574 from a minimum term of 1½ years to a minimum term of 1 day, expired on February 11, 1950.

Our reasons for making this recommendation are as follows:

This applicant is forty-five years of age and he has now served seventeen years of a minimum sentence of twenty-seven years for the crime of rape and robbery. This applicant admits, with two accomplices, that this offense occurred on eight different occasions, however, this was the first conviction for any offense whatsoever.

The Board of Trustees of the Eastern State Penitentiary state that this applicant has an excellent institutional record. The present judge, Honorable Cyrus M. Palmer, recommends that commutation be granted. The district attorney of Schuylkill County states he is not opposed to granting of commutation of sentence for this applicant.

This applicant's sponsor in this matter is the Chief of Police of the Borough of Shenandoah, and he stated to the Board that he is well aware of the defendant's crime and acquainted with the rules and regulations of the Board of Parole and feels that this applicant can be released to society without fear.

He has shown no psychiatric tendencies nor does he have a psychopathic barrier to his release. He has an excellent parole plan and the authorities of Schuylkill County recommend his release.

Since he has served such a long period of time, the Board of Pardons recommends that the commutation be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Frank Brown, D-7155, No. A-100, December Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Frank Brown, convicted of robbery in the Court of Oyer & Terminer and of Philadelphia County Quarter Sessions on May 13, 1943 to be computed from April 19, 1943 be commuted from 10 years to 6 years and 10 months, expiring on February 19, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-five years of age and this is his first major arrest and conviction. He and seven accomplices were convicted of a series of purse snatchings and strong-armed robberies and applicant was sentenced to a term of imprisonment in the Eastern State Penitentiary for from ten to twenty years. The applicant has also stated he was never involved in more than one robbery and we have a record from the Philadelphia County Courts which indicated this statement that he was only involved in one strong-arm robbery is true as demurrers were sustained to all the other indictments.

Since this was a first-offender, being sentenced for the first time, the Board feels that this applicant received a very severe sentence in being sentenced to a term for from ten to twenty years. At the present time, this applicant has served almost seven years of his minimum sentence and we believe that since he was only eighteen years of age when this offense took place, he has received a very heavy and severe sentence.

The trial judge, Honorable Harry S. McDevitt, does not recommend and in fact opposes commutation of sentence at this time. The district attorney of Philadelphia County has stated he leaves the matter of commutation up to the Board in view of his long period of time and he is not opposed to granting commutation.

The Board of Trustees of the Eastern State Penitentiary state that he has had an excellent institutional record over the past six years and they believe with the proper guidance he could make good.

The Board of Pardons, therefore, recommends under all of these circumstances, that commutation of his minimum sentence be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Lloyd Martin Collier, Jr., No. 64670, No. A-91, December Session, 1949.
To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Lloyd Martin Collier, Jr., convicted of larceny in the Court of Quarter Sessions of Somerset County on September 11, 1948 be commuted from 1½ years to 1 year and 5 months, expiring on February 11, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-five years of age and this is the first conviction for any offense whatsoever. This applicant and his bother took an automobile without the consent of the owner. His son, aged twenty-three months,

wandered away from his home into the forest of Somerset County and the applicant and his brother had been search for the son for several days. Being unable to find him, he became despondent over the loss of his son and took this car while on a drinking spree.

At the present time he has served one year and nearly four months of his minimum sentence of one and one-half years.

The Warden of the Allegheny County Workhouse states the applicant has an excellent institutional record and he recommends commutation be granted. The trial judge, Honorable Norman T. Boose, recommends that the applicant should receive favorable recommendation. The district attorney of Somerset County, however, is opposed to the granting of commutation.

The Board of Pardons feels that this applicant has been sufficiently punished and under all the circumstances, we, therefore, recommend that commutation be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of William W. Deck, No. 47980, No. 130-B, December Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of William W. Deck, convicted of robbery in the Court of Oyer and Terminer and Quarter Sessions of Delaware County on March 21, 1934, be commuted from 20 years to 15 years, 9 months and 10 days, expiring on December 31, 1949.

Our reasons for making this recommendation are as follows:

The applicant is one of many parolees whose release from parole by commutation of the maximum sentence has been recommended to the Board of Pardons by the Board of Parole.

The Board of Parole has recommended this applicant, as well as the others, because of his excellent record in the armed forces of the United States. By reason of his fealty to country, steadfastness in courage, and military earnestness, he helped overpower the enemies of our country in World War II.

As a token of appreciation, and feeling that his gallant conduct has atoned for the error of his past ways, it is our recommendation to your Excellency that the term of the maximum sentence of the applicant be commuted and that he be freed from further parole supervision.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Charles Ellison, D-725, No. A-129 December Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Charles Ellison, convicted of assault with intent to rob, robbery in the Court of Quarter Sessions of Philadelphia County on October 29, 1942 to be computed from October 20, 1942, be commuted from 10 years to 7 years and 4 months, expiring on February 20, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-four years of age and this was his first major conviction. He was arrested for strong-armed robbery from a victim and was sentenced to a term of imprisonment in the Philadelphia County Prison for from ten to twenty years.

This applicant, of course, alleges that this was a case of mistaken identify. The district attorney, however, has stated the identification was sufficiently complete in this matter. The applicant has now served over seven years and two months of his minimum sentence.

The trial judge, Honorable George G. Parry, has written the Board of Pardons and stated he has no objection at this time to the granting of commutation. The district attorney of Philadelphia County has stated he has no objection to the granting of commutation.

This is the first time this applicant has applied to the Board of Pardons for commutation of his sentence. He provides a satisfactory parole plan and the Board of Parole recommends that his plan be accepted.

Under all of these circumstances, the Board of Pardons feels that this applicant has been sufficiently punished and with the parole plan offered he should be able to rehabilitate himself. We, therefore, recommend that commutation of sentence be granted.

Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Louis Factor, D-9349, No. 9756, December Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Louis Factor, convicted of robbery, being armed with an offensive weapon in the Court of Quarter Sessions of Delaware County on January 2, 1947 be commuted from 7 years to 3 years and 1 month, expiring on February 2, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-eight years of age and has no prior criminal record. It is the first time he has ever been convicted and arrested for any offense whatsoever. This applicant and his accomplice hi-jacked a truck and sold the contents for \$10,000.00. He has now served over three

years of his minimum sentence of seven years. Only the applicant was ever arrested for this offense and he is the only one who is serving any time for it. The accomplice was never arrested. The applicant also faces a federal detainer for this crime.

It has been pointed out to us that this applicant is needed at home in order to remove the family from Public Assistance rolls. The trial judge, Honorable Henry G. Sweeney, has stated he has no objection to the granting of clemency if the Board feels he is entitled to it. The district attorney of Delaware County appeared before the Board of Pardons and stated that his office does not oppose the granting of commutation of sentence.

Since this applicant has served three years of his minimum sentence and since this is his first conviction and his family are in desperate circumstances and need his support; the Board of Pardons is recommending that his commutation be granted as prayed for.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Robert J. Gore, No. A-126, December Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Robert J. Gore, convicted of burglary, entering, receiving stolen goods in the Court of Quarter Sessions of Philadelphia County, on February 15, 1939, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is thirty years of age and except for this offense has never been in any trouble whatsoever. In 1939, this applicant and his accomplice were charged with breaking into four different homes and selling the loot they had stolen. He was given a sentence of not less than fifteen days or more than two years and has since been released and is not now on probation.

Shortly after his release, on the outbreak of war, this applicant was inducted into the service of the United States Army and served with the Eighty-fifth Infantry Division. He was wounded in action. He has been in the employee of the Reading Railroad Company for the past three years and before that with the Pennsylvania Railroad Company. The applicant has been in no further trouble for a period of approximately eleven years.

The trial judge, Honorable L. Stauffer Oliver, has written the Board of Pardons and states he is not opposed to the granting of a pardon in this matter. The district attorney of Philadelphia County states he has no objection to the granting of a pardon.

The Board of Pardons, therefore, for the following reasons recommends that a pardon be granted. Because this applicant has never before or since been in trouble whatsoever; because of his excellent record with the armed forces of the United States; because of his obvious rehabilitation; and because he is married, is a conscientious father and husband.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of George Hreben, D-6712, No. 6273, December Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of George Hreben, convicted of breaking and entering, larceny in the Court of Oyer and Terminer of Lackawanna County on February 21, 1939 to be computed from September 21, 1942 be commuted from 30 years to 7 years and 5 months, expiring on February 21, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-two years of age and there is nothing in his prior record that would recommend him for commutation of his minimum sentence of thirty years. This man was sentenced on February 21, 1939, by Honorable T. Linus Hoban of Lackawanna County, to a term of imprisonment in the Eastern State Penitentiary for from thirty to sixty years; sentence to begin at the expiration of the maximum sentence imposed in 1933 for burglary. He has, therefore, been continuously incarcerated for nearly eleven years but only seven years and three months apply because he was a parole violator at the time of his sentence.

Since his incarceration, this applicant has given evidence of rehabilitation and during the war was a tireless worker and was commended by the officers who had contact with him for many years. Also during the war he sent considerable money to friends who were wounded or injured while in the military service. He has a habit of thrift which is indicated by a substantial prison balance. He was greatly interested in the military career of his sentencing judge, T. Linus Hoban, and Judge Hoban has written the Board of Pardons that he recommends commutation of his sentence be granted. The trial district attorney, now the Honorable Michael J. Eagen, one of the Common Pleas' Judges of Lackawanna County, also recommends commutation. The present district attorney, Carlson M. O'Malley, states he has no objection to commutation if the Board feels the applicant has been sufficiently rehabilitated.

Other persons in the community have written to the Board of Pardons and recommend that this applicant's sentence be commuted.

Because of this applicant's very obvious attempt at rehabilitation, the recommendations of the sentencing judge, the former district attorney, and the present district attorney, the length of time this applicant has served; the Board of Pardons recommends that his sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Oscar Jasper, No. A-128, December Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Oscar Jasper, convicted of being a male bawd in the Court of Quarter Sessions of Philadelphia County, on May 29, 1928, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is forty-nine years of age and this is his first major conviction. He was sentenced when he was twenty-eight years of age for being a male bawd and given a term of two years in the House of Correction. He was released at the age of thirty and since that time has been in no further trouble.

The facts, under which this applicant was convicted without defense of counsel, are that he had no apparent trade or occupation and was without any means of subsistence and was described as a frequenter and loiterer in and about a badway house. It is doubted if this applicant could have been convicted had he been represented by counsel.

The Board of Parole of the State of Pennsylvania state that this applicant has a good reputation in the community in which he lives and that he has a position with the Federal Government in Philadelphia. Although the trial judge, Honorable Harry S. McDevitt, states he is opposed it is doubted if he is familiar with the facts in this matter. The district attorney of Philadelphia County does not oppose the granting of a pardon.

This applicant has been in no further trouble for almost twenty-one years, and therefore, impresses us as having made an excellent adjustment and the Board of Pardons is, therefore, recommending that the sentence be wiped out with a full and complete pardon.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Joseph Katz, D-2314, No. 3593, December Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Joseph Katz, convicted of receiving stolen goods in the Court of Quarter Sessions of Philadelphia County, on July 12, 1937, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is forty-one years of age and he was sentenced on a charge of receiving stolen goods, having

purchased meats and cheese from two men which should have led him to believe that the goods had been stolen. The amount involved was \$700.00 and before the applicant went to prison, he made full restitution for the full value of the goods.

The Board of Parole of the Commonwealth of Pennsylvania state that the applicant has a good reputation. The trial judge, Honorable Edward B. Farr, states he has no objection if restitution has been made, and that has been done. The district attorney of Philadelphia County has no objection to the granting of a pardon.

This applicant served honorably in the armed forces of the United States for a period of two years and received an honorable discharge. He has since married and is a good father and husband.

Because of his excellent reputation, the fact he has made full restitution, and that the sentencing authorities have no objection to a pardon, and further, that he served honorably with the armed forces of the United States; leads us to recommend that a pardon be granted in this matter.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Earl Edgar Knerr, E-1332, No. A-112, December Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Earl Edgar Knerr, convicted of robbery in the Court of Oyer and Terminer and Quarter Sessions of Northumberland County on April 25, 1949 to be computed from April 4, 1949 be commuted from 2 year to 1 year expiring on April 4, 1950.

Our reasons for making this recommendation are as follows:

This applicant is 23 years of age and has no prior criminal record. He was one of three accomplices and they committed robbery against his wishes so he says. However, the records show that the applicant went willingly with the accomplices and he knew what was going on. This is further pointed out by the fact that when he was apprehended he pled guilty and was sentenced to a term of imprisonment in the Eastern State Penitentiary for from two to four years. At the present time, this applicant has served eight months of a minimum sentence of two years. He now asks that this sentence be commuted.

He has an excellent institutional record in the Eastern State Penitentiary and they state he has a good conduct record there. The trial judge, Honorable William L. Troutman, has written to the Board of Pardons and stated that he recommends commutation because of the fact that he knows the applicant's family and they are people of excellent reputation. The judge positively states he believes he has been sufficiently punished and if the applicant is released there will be no further trouble from him. The district attorney of Northumberland County informed the Board of Parole agent that he was in favor of commutation.

Because of the strong recommendation from the sentencing judge, this Board of Pardons is moved to rec-

ommend to Your Excellency that commutation be granted as of the expiration of one year April 4, 1950. Were is not for the strong recommendation of the trial judge, the Board would not be inclined to mercy in this matter because of the sentences given the accomplices, but we did feel we cannot overlook the strong recommendation of the trial judge, and we, therefore, recommend that his sentence be commuted at the expiration of one year.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Henry John Lapinski, B-7989, No. 7291, December Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Henry John Lapinski, convicted of robbery in the Court of Oyer and Terminer of Allegheny County on January 15, 1942 to be computed from December 16, 1941 be commuted from 10 years to 8 years and 2 months, expiring on February 16, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-two years of age and this was his first major imprisonment. He was sentenced to a term of imprisonment in the Western State Penitentiary for from five to ten years and he served his entire minimum sentence. After the expiration of his minimum sentence, the applicant was released on parole and shortly thereafter married.

The applicant has been steadily employed and owns a truck and takes small contracting jobs for himself. He has been in no further trouble and has an excellent reputation in his present community. A letter of favorable recommendation has been received from the Peoples First National Bank and Trust Company of Pittsburgh, Pennsylvania, stating that their dealings with him have been favorable and they recommend that favorable consideration be granted by the Board.

The Board of Parole has stated the facts but does not make any recommendation as to termination of parole supervision. They confirm his present good record and reasons for termination of parole supervision as stated to the Board. The trial judge, Honorable James L. O'Toole, recommends that commutation of the maximum sentence be granted. The district attorney of Allegheny County recommends that the application be granted.

Since this man has been on parole over three years and has therefore been under supervision eight years of the ten year maximum and throughout this period he has maintained an excellent institutional and community record and reputation, and since further parole supervision will hinder his contracting business; the Board of Pardons is recommending that commutation of his maximum sentence be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.

T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Robert C. Love, C-67, No. A-20, December Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Robert C. Love, convicted of embezzlement, fraudulent conversion in the Court of Quarter Sessions of Lawrence County on February 26, 1947 to be computed from January 17, 1947 be commuted from 5 years to 3 years and 1 month, expiring on February 17, 1950.

Our reasons for making this recommendation are as follows:

This applicant is sixty-five years of age and has no prior criminal record. He was an officer and director of the First Securities Company and as such had in his possession the filing and call of assets of the company. He began his peculations as early as 1930 and this continued for a period of approximately seventeen years.

The Board of Trustees of the Western State Penitentiary state that this applicant has an excellent institutional record and he is employed as a clerk in the front office. We have received a report from the trial judge, Honorable Walter W. Braham, who states he has no objection to the granting of commutation. The district attorney of Lawrence County states he has no objection to the granting of this application if the Board sees fit to do so.

Many letters are included in the file recommending mercy and clemency for this applicant. They come from persons in all walks of life, all of whom have lived in the community of New Castle, Pennsylvania, where this applicant did reside. They are sufficient to indicate that community sentiment is in favor of this applicant's release from incarceration.

Because of this applicant's excellent institutional record, because the trial judge and the district attorney do not object to commutation as prayed for, and because of the great number of persons who live in that community recommended his release; the Board of Pardons is recommending that commutation of this sentence be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of John Meehan, D-4313, No. 5674, December Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members

of the Board of Pardons recommend that the sentence of imprisonment imposed upon John Meehan, convicted of robbery, being armed with an offensive weapon in the Court of Quarter Sessions of Philadelphia County on October 9, 1935 to be computed from October 9, 1939, be commuted on Bill No. 780 September Sessions, 1935, from a maximum term of 20 years to a maximum term of 10 years and 4 months, expiring on February 9, 1950; and on Bill No. 784 from a minimum term of 5 years to a minimum term of 1 day, expiring on February 10, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-six years of age and he is now serving a term of imprisonment in the Eastern State Penitentiary for from fifteen to forty years on a charge of robbery, being armed with an offensive weapon. For the fact that this applicant was returned for parole violation, he would be finished with the minimum sentence of fifteen years in October of this year. However, because of the time served for parole violation, he will have served approximately fifteen years and three months by the time he is released.

He has some prior record although most of it occurred in his youth when he was between the ages of eleven and seventeen. The offense for which the applicant is serving the parole violation occurred when he was nineteen years old. In that charge, the applicant and the accomplice helped and robbed a grocery store and later a pawn February 1946 at which time he had served eleven years.

The Board of Trustees of the Eastern State Penitentiary advises the Board of Pardon that this applicant has an excellent institutional record and if he were eligible for parole, would recommend him. The trial judge, Honorable Raymond MacNeille, has written the Board of Pardons and states that he leaves the matter of commutation up to the Board of Pardons.

Because of the applicant's good institutional record; the fact he has served almost fifteen years of his minimum sentence, which together with parole violation would amount to approximately twelve years; the Board of Pardons is recommending that his sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Daniel F. Monaghan, No. A-92, December Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Daniel F. Monaghan, convicted of larceny in the Court of Oyer & Terminer and Quarter Sessions of Schuylkill County on May 16, 1949 be commuted from 2 years to 1 year expiring on May 16, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-four years of age and has no prior criminal record. He and three accomplices dug up part of the pipes of the Borough of Shenandoah Water System and sold them for junk. They used the money to buy drinks. Each one of them received \$26.00. One of

the accomplices received a sentence of two to four years and the other two accomplices were not sentenced.

The Warden of the Schuylkill County Prison has written that this applicant has a good institutional record. The trial judge, Honorable C. A. Staudenmier, has written and stated to the Board of Pardons that he leaves the matter of commutation up to the Board. The district attorney of Schuylkill County informed the representative of the Board of Parole that he is not opposed to the granting of commutation.

This applicant, during the past war, served in the United States Army overseas and was given an honorable discharge.

The Board of Pardons recommends that this applicant's sentence, under all of the above circumstances, be reduced to one year, and we, therefore, recommend that the sentence be commuted at the end of one year, expiring on May 16, 1950.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Eugene Newman, No. 5492, No. A-109, December Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Eugene Newman, convicted of robbery in the Court of Quarter Sessions of Northumberland County on September 20, 1948 be commuted from 2½ years to 1 year and 6 months, expiring on March 20, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-eight years of age and has no prior criminal record. This applicant did become embroiled in a fight with the victim and believing the victim to be of certain homosexual tendencies, he beat him and robbed him. The victim then had the applicant and his accomplices arrested. The applicant's two accomplices received sentenced of three months each while the applicant was given a two and one-half to five years in the Northumberland County Prison.

In the Board of Parole report, it is stated that the trial judge, Honorable Robert M. Fortney, is not opposed to the granting of commutation. The district attorney of Northumberland County has stated in the parole report that he is not opposed to the granting of commutation.

This recommendation is made because of the fact that the applicant comes from an excellent family and because his accomplices, who were equally guilty, received minimum sentences in the connection with the alleged offense.

Since the applicant has served one year and three months, the Board recommends that he serve one year and six months and that he be released on parole March 20, 1950.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth
T. McKEEN CHIDSEY,
Attorney General.

WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Alan James C. Robertson, D-6484, No. 129-B, December Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Alan James C. Robertson, convicted of assault and battery with intent to rob in the Court of Oyer and Terminer and Quarter Sessions of Montgomery County on October 10, 1930, be commuted from 20 years to 19 years, 2 months and 20 days, expiring on December 30, 1949.

Our reasons for making this recommendation are as follows:

The applicant is one of many parolees whose release from parole by commutation of the maximum sentence has been recommended to the Board of Pardons by the Board of Parole.

The Board of Parole has recommended this applicant, as well as the others, because of his excellent record in the armed forces of the United States. By reason of his fealty to country, steadfastness in courage, and military earnestness, he helped overpower the enemies of our country in World War II.

As a token of appreciation, and feeling that his gallant conduct has atoned for the error of his past ways, it is our recommendation to your Excellency that the term of the maximum sentence of the applicant be commuted and that he be freed from further parole supervision.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, Jr.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Stanley Sopczynski, C-603, No. 9654, December Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence Stanley Sopczynski, convicted of burglary, larceny, receiving stolen goods in the Court of Oyer & Terminer of Erie County on February 26, 1948 to be computed from February 24, 1948 be commuted from 2½ years to 2 years expiring on February 24, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-seven years of age and this is his first major conviction. He was sentenced to a term of imprisonment in the Western State Penitentiary for from two and one-half to five years on a charge of breaking into and entering a service station. Restitution has been made in this matter.

The Board of Trustees of the Western State Penitentiary state that this applicant has never had anything but an excellent institutional record and if he were eligible to apply for parole, they would recommend him because it is his first major imprisonment, his excellent institutional record and the fact that he has served over three years in the United States Army from which he was honorably discharged. The trial judge, Honorable Elmer L. Evans of Erie County, has written the Board of Pardons and stated that if it appears rehabilitation is possible, he has no objection to a parole. The district attorney of Erie County has stated to agents of the Board of Parole that he will leave the matter of commutation up to the Board of Pardons.

This young man, if freed, will return to his parents and will be given employment in the City of Erie. The Board of Parole recommends that the man be accepted upon his receiving adequate employment.

Under all of these circumstances, the Board of Pardons recommends that commutation of sentence be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, Jr.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Heinrich E. Untch, No. 64804, No. A-35, December Session, 1949.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Heinrich E. Untch, convicted of robbery in the Court of Oyer and Terminer of Allegheny County on October 27, 1948 to be computed from October 6, 1948, be commuted from 3 years and 3 months to 1 year and 4 months, expiring on February 6, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-two years of age and this was his first major conviction. The applicant was sentenced to a term of imprisonment in the Allegheny County Workhouse for from three years and three months to ten years on charges of a robbery of a store. A gun was used but the applicant did not carry it. The total amount of loot taken was \$600.00 and the applicant received approximately \$60.00 as his share.

The Warden of the Allegheny County Workhouse has informed the Board of Pardons that he has an excellent institutional record. The trial judge, Honorable Henry Elenbogen, has not seen fit to advise the Board of Pardons of his position in this matter. However, he has advised a representative of the Board of Parole, when he was interviewed in September 1949, that he does not favor commutation at this time. The district attorney of Allegheny County appeared before the Board of Pardons and he stated he has no opposition to the granting of commutation at this time.

The applicant, at the present time, has served over half of his minimum sentence. His parole plan calls for parole to Youngstown, Ohio, in the custody of his mother. He has employment and the Bureau of Probation and Parole of the State of Ohio has given its consent to parole supervision of this applicant and they recommend that he be accepted for supervision.

We were advised by the district attorney and the applicant's counsel that this applicant was the youngest of all the participants in this crime and this applicant was led into this crime by his older accomplices.

Since this was the applicant's first major offense and conviction; since he has now served approximately one year and four months of his minimum sentence; and since he has an excellent institutional record; we, therefore, feel that this applicant's plea for commutation should be granted and we so recommend.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.

Attorney General.
WILLIAM S. LIVENGOOD, Jr.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Arthur A. Abelson, No. A-166, January Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Arthur A. Abelson, convicted of receiving stolen goods in the Court of Quarter Sessions of Allegheny County, on February 17, 1937 be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is thirty-nine years of age and has no prior criminal record. He has applied for a pardon, having been placed on probation for a period of six months on a charge of receiving stolen goods. The applicant had taken several baskets from a bread truck which had been stolen. Subsequently after being placed on probation he served in the armed forces of the United States and received an honorable discharge.

He is now a probationary employee with the post office department of the United States Government. However, he cannot be given a civil service status nor may he advance through the postal department without receiving a full pardon in this matter. At most, this applicant was the innocent victim of this affair. It is doubted if he was actually guilty of the crime although he was convicted of this matter.

Since this was the applicant's only misstep in his nearly forty years of life, and since he served in the armed forces of the United States and received an honorable discharge there, bears a good reputation in his own community; the Board of Pardons feels that this applicant should not be further hindered by this criminal record since it is almost thirteen years ago that this offense took place.

For the above reasons, we are, therefore, recommending that a pardon be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, Jr.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of George D. Adams, Jr., C-7913, No. A-168, January Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of George D. Adams, Jr., convicted of robbery, pointing fire-arms in the Court of Quarter Sessions of Northampton County on April 12, 1932, be commuted from 20 years to 17 years and 11 months, expiring on March 12, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-eight years of age and this was his first major conviction. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from ten to twenty years on a charge of robbery and pointing fire-arms. This applicant served his minimum sentence of ten years and since that time he has been a good, honest and substantial citizen. There have been no complaints or suspicions about him.

The Board of Parole has no objection to his release from parole at this time through commutation of his maximum sentence. The present judge, Honorable William G. Barthold, stated that he leaves the matter of commutation of his maximum sentence up to the Board of Pardons. The district attorney of Northampton County states he is not opposed to commutation of sentence.

The reasons advanced by this applicant for release from parole supervision is that he wishes to be married.

Under all of these circumstances, the Board of Pardons feels that the applicant has demeaned himself well while under parole supervision over the past seven and one-half years, and we feel that further supervision could have salutary effect on the applicant, and we therefore, recommend that his maximum sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Patrick J. Carney, B-2236, No. 2361, January Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Patrick J. Carney, convicted of robbery in the Court of Oyer and Terminer of Allegheny County on September 26, 1930, be commuted from 20 years to 19 years, 5 months and 5 days, expiring on March 3, 1950.

Our reasons for making this recommendation are as follows:

This applicant is fifty-one years of age and this is not the first major conviction. In fact, he has received seven-

teen arrests and six convictions in his long period of time.

He was released on parole on a ten to twenty years sentence in 1940 after he had served approximately nine years and three months of his minimum sentence. While on parole a period of approximately eight years, he became involved in August 1948 for violation of the narcotic law. He was returned to the Western State Penitentiary as a technical parole violator because he had been drinking and using drugs. There was no evidence that this applicant had sold any drugs or attempted to involve any person in this matter.

At the time this applicant was convicted and sentenced, it was not required to give consideration to the time spent in jail prior to sentencing. However, this was changed in the Act of 1937. This applicant's maximum sentence would expire September 26, 1950, and all he is asking the Board of Pardons to do is to give him credit for the six months and twenty-three days which he spent in jail in 1930 awaiting trial.

The trial judge, Honorable William A. McConnell, who heard this case is deceased and the present judge, Honorable William A. McConnell, who heard this case is deceased and the present judge, Honorable Harry Rowand, states he is opposed although he did not write any letter to that effect. The district attorney of Allegheny County states he is not opposed to granting of jail time which the applicant asks for.

Under all of these circumstances, the Board of Pardons is recommending that the applicant be given credit for the time spent in the Allegheny County Jail awaiting jury sentence, and we are, therefore, recommending that his maximum sentence be commuted as of March 3, 1950.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth
T. McKEEN CHIDSEY,
Attorney General
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Edward J. Carolan, C-981, No. A-5, January Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Edward J. Carolan, convicted of burglary in the Court of Oyer and Terminer of Somerset County on January 12, 1949 to be computed from January 11, 1949, be commuted from 5 years to 1 year and 2 months, expiring on March 11, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-three years of age and this is his second major conviction. He had, heretofore, been placed on federal probation for violation of the Dyer Act. This time he was arrested and sentenced on a charge of breaking a show window of a jewelry store and stealing watches therefrom. He claims to have been intoxicated, however, the value of the loot was \$1371.00. He was sentenced to a term of imprisonment in the Western State Penitentiary for from five to ten years.

He came under the care of Dr. Hudson, the psychiatrist at the Western State Penitentiary. His psychiatric record indicates the individual to be of the psychopathic type of personality. At the hearing in this matter it was stated

clemency should be granted so that this applicant may receive psychiatric treatment at a hospital of the Veterans' Administration.

At the time of hearing this matter was brought to the attention of the Board and a representative of the federal parole office appeared before our Board and advised us that they had received word from the Veterans Administration in Massachusetts that the applicant is acceptable for admittance to a psychiatric hospital.

The trial judge, Honorable Norman T. Boose, feels that it is a meritorious case and should receive consideration. However, the district attorney of Somerset County is opposed to consideration at this time, even though it means receiving treatment in the institution.

The Board feels that this applicant should receive treatment in a psychiatric hospital and not in a penitentiary where such treatment is limited in scope.

The Board, therefore, recommends that this applicant be commuted on condition that he be transferred from the Western State Penitentiary to a psychiatric hospital in Massachusetts.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of John Dargis, No. A-125, January Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that John Dargis, convicted of receiving stolen goods in the Court of Quarter Sessions of Allegheny County, on April 11, 1932, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is fifty-eight years of age and has no prior criminal record. He was placed on probation for a period of six months on a charge of receiving stolen goods. The charge grew out of a debt in which the debtor owed the applicant some money and he turned over a truck to the applicant in settlement of the debt; but the debtor was not sole owner of the truck. When the other part-owner demanded the truck from the applicant, he refused until he was given payment of the debt. When he refused to return possession, he was arrested and the above sentence resulted.

The Board of Parole states that this applicant has an excellent reputation in the community and he is a reliable business man and actively participates in civic and business affairs. He was sentenced by a visiting judge and the visiting judge is not available for comment. The district attorney of Allegheny County states he has no objection to the granting of a pardon in this matter.

This applicant has shown that he is not a criminal character and his reputation in the community is such that the Board of Pardons feels he can be granted this pardon without any reoccurrence of an affair of this nature. Therefore, in order to remove this blot from the applicant's record, we are recommending to your Excellency that a pardon be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, Jr.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Pasquale Donadio, D-3164, No. A-172, January Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Pasquale Donadio, convicted of entering with intent to steal, larceny in the Court of Quarter Sessions of Philadelphia County, on June 13, 1938, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is thirty-nine years of age and prior to the last war, the applicant was in conflict with the authorities on at least three different occasions for juvenile violations. However, in 1938, he became involved in breaking and entering with intent to steal and larceny. The applicant attempted to enter a taproom and the watchman spying him, shot the applicant and wounded him. He was given a term of imprisonment in the Eastern State Penitentiary for from two to six years, and after having his two year minimum sentence, was released on parole on June 10, 1940. He was under parole supervision and received his final discharge from parole on June 8, 1944.

During this period of time, he served in the United States Merchant Marine. However, while serving in the Merchant Marine, he was hospitalized in Port Said and was returned to this country where he was granted a discharge. He is now employed in the Philadelphia Public Library and requests a pardon in order that he may be eligible for permanent appointment to this job as watchman and janitor.

The trial judge, Honorable Harry S. McDevitt, states he believes that this applicant has been sufficiently punished by his suffering from the shock when he attempted to enter the taproom. The district attorney of Philadelphia County is not opposed to the granting of this pardon.

Since he has had an excellent record on parole, we do not feel he should be further penalized by this conviction and the Board of Pardons, therefore, is recommending that a pardon be granted in this matter.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, Jr.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Isadore Gendelman, D-9327, No. 9150, January Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Isadore Gendelman, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer and Quarters Sessions of Lancaster County on April 20, 1945 to be computed from December 22, 1946, be commuted from 5 years to 3 years and 2 months, expiring on February 22, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-seven years of age and this is his first major conviction for a crime in Pennsylvania. He, has, however, served a period of eight years in New Jersey in connection with this crime, so that at the present time, this applicant has served continuously for sixteen years although only three years and one month apply to his present sentence.

The Board of Trustees of the Eastern State Penitentiary have advised the Board of Pardons that the applicant has an excellent institutional record and he has established an excellent reputation there.

Even though the applicant has served approximately sixteen years of continuous confinement, the trial judge, Honorable Oliver S. Schaeffer, and the district attorney of Lancaster County have stated they are opposed to the granting of clemency. All the accomplices have since been released by reason of commutation of their minimum sentences, some having received commutation as long ago as November 1942 or over seven years.

Since this applicant has served seven years longer than his other five accomplices, we feel he has been sufficiently punished, particularly since he has been in continuous incarceration for more than sixteen years, we are, therefore, recommending that his sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Walter E. Grinnel, C-578, No. A-148, January Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Walter E. Grinnel, convicted of robbery in the Court of Oyer and Terminer of Crawford County on February 23, 1948 to be computed from December 8, 1947, be commuted from 3½ years to 2 years and 3 months, expiring on March 8, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-five years of age and this is his first major conviction. He was sentenced to a term of imprisonment in the Western State Penitentiary for from three and one-half to ten years on a charge of robbery. This applicant had two accomplices at the time of his arrest. He has now served over two years of his minimum sentence.

The Board of Trustees of the Western State Penitentiary

state that this applicant has an excellent institutional record but they did not recommend commutation because of the fact that he once served a term in the Pennsylvania Industrial School from which institution he was paroled to the United States army. The trial judge, Honorable Herbert A. Mook, does not oppose granting of commutation and the district attorney of Crawford County does not oppose the granting of commutation. Both of the accomplices were as guilty as he was and they were given five years probation, none going to jail.

Even though this applicant has been in difficulty before and served a period of time in the Pennsylvania Industrial School, we think the sentence is too severe in relation to the sentence meted out to his accomplices. Since his accomplices were placed on probation, we feel this applicant has been sufficiently punished and the fact that he has a good institutional record and has served over two years of his minimum sentence, we recommend that his minimum sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor

BOARD OF PARDONS

In re application of William P. Jacobs, No. A-174, January Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that William P. Jacobs, convicted of larceny in the Court of Quarter Sessions of Philadelphia County, on February 18, 1939 be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is thirty-three years of age and this was his only conviction. He was sentenced to a term of imprisonment in the Philadelphia County Prison for six months for larceny of some merchandise from an automobile.

Subsequent to his release, he enlisted in the United States army and served overseas for over two years. He received an honorable discharge for four years in the armed forces.

He has shown a determination to be a law-abiding citizen and because of his long army service and the fact that no objection is raised to the granting of this pardon by the authorities of Philadelphia County, the Board of Pardons feels that this stigma should be removed and that a pardon should be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.

Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Thomas Labroschiano, No. 9620, January Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Thomas Labroschiano, convicted of burglary in the Court of Quarter Sessions of Philadelphia County, on September 18, 1947, be pardoned.

Our reasons for making this recommendation are as follows:

The applicant is twenty-four years of age, and has no prior criminal record. He was placed on probation for a period of six months for committing a burglary. This happened three years ago.

At this time, he realizes he should not have attempted to enter this place but he acted in haste and without full and careful thought and at a time when he was unemployed.

The Board of Parole feels he will not again offend against society. He served with the armed forces of the United States and received an honorable discharge by reason of certificate of disability due to physical defect. He was given an excellent character rating. The trial judge, Honorable Eugene V. Alessandroni, recommends that a pardon be granted in this matter. The district attorney of Philadelphia County leaves the matter up to the Board of Pardons.

Under all of these circumstances, the Board of Pardons feels that this pardon should be granted, and we so recommend to Your Excellency.

Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of James Liggins, No. A-151, January Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that James Liggins, convicted of forcible entry, larceny in the Court of Juvenile of Philadelphia County, on March 27, 1924, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is thirty-five years of age and the offense for which this applicant was convicted occurred twenty-six years ago when he was a child of nine years. He was the unwitting dupe of a group of older boys and as such became involved in this offense.

He is now employed in the United States Post Office and they refuse to grant him a civil service rating so long as this juvenile charge of forcible entry and larceny remains against him.

The Board of Pardons feels that if this applicant has maintained a good reputation in the past twenty-six years, he should not be penalized for what occurred in 1924 when he was but an infant.

We are, therefore, recommending that he be granted a pardon in order to remove the stigma from himself and his family.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.

Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Levin Logan, C-5276, No. 5096, January Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the Life sentence of Levin Logan, convicted of murder in the first degree in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on April 3, 1929, be commuted from life imprisonment to 20 years and 11 months, expiring on March 3, 1950.

Our reasons for making this recommendation are as follows:

This applicant is forty years of age and this was his first major conviction. The applicant got into an argument over a card game and as the result, he drew a gun and shot the victim. The alleged motive in this case was robbery and the applicant pled guilty to murder generally and was found guilty of murder in the first degree and sentence to life imprisonment in the Eastern State Penitentiary.

However, the applicant now states to the Board that there was no thought of robbery, and therefore, he was improperly advised and should not have received this sentence. These facts being as they are, we must take the record as we find it, and therefore, we recognize that this applicant has an excellent institutional record and all adjustment records concerning this applicant are commendable.

The trial judge, Honorable Horace Stern, has not seen fit to advise the Board of his position. The district attorney of Philadelphia County leaves the matter of commutation up to the Board.

We find that the applicant has served almost twenty-one years of a life sentence, that he has maintained an excellent record for over a generation in the Eastern State Penitentiary, and since there is no opposition to his commutation, the Board of Pardons is recommending that his sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Ralph Main, B-6345, No. 4531, January Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Ralph Main, convicted of perjury in the Court of Quarter Sessions of Crawford County, on September 26, 1938, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is forty-three years of age and this was his first major conviction. He was sentenced to a term of imprisonment in the Western State Penitentiary for from three and one-half to seven years on a charge of perjury. He committed this crime on the advice of counsel who is disbarred from giving this advice to the applicant.

The applicant served his minimum sentence and was released on parole on March 26, 1942, and has been on parole ever since or a total period of eight years. He has been completely rehabilitated and for the past two years has been employed by the General Electric Company in Erie, Pennsylvania. He has a good reputation in Meadville and has been appointed special policeman in the Borough of Sagertown. This conviction has a serious effect upon his proper fulfillment of the office of special policeman. Because of his conviction on a charge of perjury, he is unable to testify in court against persons he has arrested.

The trial judge, Honorable O. Clare Kent, has written the Board and recommends favorably the granting of a pardon. The district attorney of Crawford County, has also written and states he believes he has become completely rehabilitated and states: . . . "he would be entitled to every consideration with respect to his request for pardon."

Because he has completely rehabilitated himself and his reputation is now excellent, we feel he has earned the pardon which he is praying for, and we therefore, recommend that a full and complete pardon be granted to the applicant.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Lester Matthews, D-4046, No. 5923, January Session, 1950

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Lester Matthews, convicted of being armed, etc., in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on May 26, 1939, be commuted from 20 years to 10 years, 8 months and 2 days, expiring on January 28, 1950.

Our reasons for making this recommendation are as follows:

The applicant is one of many parolees whose release from parole by commutation of the maximum sentence has been recommended to the Board of Pardons by the Board of Parole.

The Board of Parole has recommended this applicant, as well as the others, because of his excellent record in the armed forces of the United States. By reason of his fealty to country, steadfastness in courage, and military earnestness, he helped overpower the enemies of our country in World War II.

As a token of appreciation, and feeling that his gallant conduct has atoned for the error of his past ways, it is our recommendation to your Excellency that the term of the maximum sentence of the applicant be commuted and that he be freed from further parole supervision.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of William Henry Roberson, B-2677, No. 3660, January Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the life sentence of William Henry Roberson, convicted of murder in the first degree in the Court of Oyer and Terminer of Allegheny County on May 21, 1931, be commuted from life imprisonment to 18 years and 9 months, expiring on February 21, 1950.

Our reasons for making this recommendation are as follows:

This applicant is forty years of age and this is his first major conviction. He was sentenced to a term of life imprisonment in the Western State Penitentiary when he became involved in a struggle with the victim who had taken a revolver from the applicant's dresser drawer. During the struggle, the gun went off and the victim was killed instantly. At this time the applicant was approximately twenty-one years of age and he pled not guilty but was convicted of murder in the first degree and sentenced to life imprisonment.

He has an excellent institutional record and has been in no difficulty whatsoever in the institution, and the institution recommends if he was eligible for parole they would recommend him because of his excellent record in the institution and the length of time he has served. The trial judge, Honorable Charles W. Culver, was not Pardons his feelings in this matter. The district attorney of Allegheny County was present at the Board of Pardons and he stated he leaves the matter of commutation up to the Board, but he does not oppose commutation at this time.

Since the killing seemed to be more accidental than anything else, we feel that the service of eighteen years and approximately nine months of a life sentence is a long time. There seem to have been no motive, such as jealousy or passion, involved in the killing.

Under these circumstances, we feel that this applicant is entitled to consideration at this time, and we are, therefore, recommending that commutation be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.

T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor

BOARD OF PARDONS

In re application of Frank Rock, C-6225, No. 4628, January Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Frank Rock, convicted of robbery, being armed with an offensive weapon, larceny, in the Court of Oyer and Terminer of Philadelphia County on June 12, 1930, be commuted from 30 years to 19 years and 9 months, expiring on March 12, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-eight years of age and he has a prior criminal record which did not amount to much until he received this sentence of imprisonment in the Eastern State Penitentiary for from ten to thirty years for robbery, being armed with an offensive weapon, larceny.

The applicant served his minimum sentence and has now been on parole for a period almost equal to the time spent in prison, to-wit, ten years. However, he was given a maximum sentence of thirty years so he would have ten years and approximately four months yet to serve on parole.

The Board of Parole state he has an excellent record on parole and they have no objection to the discontinuance of supervision by commutation of his maximum sentence. However, they are objecting to the applicant's plea for a pardon. The trial judge, Honorable Harry S. McDevitt, has written the Board of Pardons that he has no objection to favorable action. The district attorney of Philadelphia County leaves the matter of commutation up to the Board.

Since he has served almost nine and one-half years on parole supervision, the Board of Pardons is recommending that further supervision be dropped and that commutation of his maximum sentence be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Ella Mae Scott, No. 1426, No. A-143, January Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the indeterminate sentence of Ella Mae Scott, convicted of voluntary manslaughter in the Court of Quarter Sessions of Philadelphia County on October 23, 1947, be commuted from an indeterminate term to 2 years and 4 months expiring on February 23, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-four years of age and she has no prior criminal record. She was sentenced to an indeterminate term of imprisonment in the State Industrial Home for Women, at Muncy, on a charge of killing her husband.

The facts, as they were presented to the Board of Pardons, indicate that her husband was of a violent nature and inflicted violence upon this applicant over a period of several years. This killing occurred after the applicant had tried to get away from the victim, but he, nevertheless, pursued her and she committed this crime as he was attempting to administer a beating to her with a chair leg.

The district attorney of Philadelphia County states there is a history of violence here and the district attorney's office is unable to understand why the applicant had not committed this crime sooner. He is not opposed to commutation at this time. The trial judge, Honorable Curtis Bok, has stated to the Board of Pardons that he leaves the matter of commutation up to the Board of Pardons.

The Board of Pardons, therefore, recommends that her sentence be commuted.

In re application of John A. Sharpe, D-4071, No. 199, January Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of John A. Sharpe, convicted of robbery, being armed with an offensive weapon, carrying concealed deadly weapons in the Court of Quarter Sessions of Philadelphia County on February 28, 1947 to be computed from November 12, 1946 be commuted from 4 years to 3 years and 4 months, expiring on March 12, 1950.

Our reasons for making this recommendation are as follows:

This applicant is forty-seven years of age and he has six prior arrests and six convictions. He was allegedly connected with a jewelry robbery occurring in Philadelphia although he was living at that time in the State of Illinois. He was thereafter returned to Philadelphia and held for a period of two years. He was then taken to New York State and sentenced for the same crime, where he served one year, and was again returned to Philadelphia and held for violation of parole by the commission of these offenses.

This applicant has made bids for his freedom to both the state and federal courts on writs of habeas corpus. In both instances, it was stated that the applicant present his difficulty to the Board of Pardons.

The Board of Pardons feels that the applicant has received a very severe sentence in connection with this

offense. All of the accomplices have long since served their sentences and been released.

This applicant has at the present time served almost eleven years for this crime and since the federal court and the state court have indicated that they feel this is a matter for the Board of Pardons, we feel he has been sufficiently punished, and we are, therefore, recommending that his maximum sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.

GENE D. SMITH, Acting
Secretary of the Commonwealth.

T. McKEEN CHIDSEY,
Attorney General.

WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of James Edward Smith, D-7340, No. 7721, January Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of James Edward Smith, convicted of burglary in the Court of Quarter Session and Oyer & Terminer of Philadelphia County on October 17, 1939 to be computed from August 11, 1943, be commuted from 10 years to 6 years and 7 months, expiring on March 11, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-five years of age and he is now serving a term of imprisonment in the Eastern State Penitentiary for from ten to thirty years on a Philadelphia County sentence which was made to run consecutively with a Montgomery County sentence of four to eight years. At the present time, he has served ten years and six months although only six years and six months apply to the ten year minimum sentence.

The Board of Trustees of the Eastern State Penitentiary state that the applicant has an excellent institutional record. The trial judge, Honorable Harry S. McDevitt, states he has no objection to the granting of commutation in this matter. The district attorney of Philadelphia County has no objection.

Because this applicant has served over ten years for a series of burglaries and larceny of an automobile, the Board of Pardons feels that he has been sufficiently punished in this matter and if given his freedom he will be in a position to reestablish his family and to support them at the present time. We are, therefore, recommending that his sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.

GENE D. SMITH, Acting
Secretary of the Commonwealth.

T. McKEEN CHIDSEY,
Attorney General.

WILLIAM S. LIVENGOOD, Jr.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Shirley Snyder, No. 2573, No. A-175, January Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Shirley Snyder, convicted of issuing worthless checks and drafts in the Court of Quarter Sessions of Delaware County on October 11, 1948 to be computed from September 9, 1948 be commuted from an indeterminate maximum of 3 years to 1 year and 6 months, expiring on March 9, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-two years of age and this was her first major conviction. She was sentenced on a charge of issuing worthless checks and drafts and sentenced to an indeterminate term of imprisonment in the State Industrial Home for Women, at Muncy, and has now served over one year and five months of her indeterminate sentence.

The trial judge, Honorable Harold L. Erwin, has written the Board of Pardons and stated he has no objection to the granting of release of the applicant in this matter. The district attorney of Delaware County, who attended the meeting of the Board of Pardons, states they are not opposed to the granting of commutation in this matter.

Since the applicant's accomplice was only required to pay the costs and make restitution in the amount of \$35.00, we believe that this applicant has been given very severe punishment and we feel that one year and five months in the institution is sufficient punishment for this type of crime.

Because she has a good record in the institution and the fact that the authorities in Delaware County are not opposed to her release, the Board of Pardons recommends that her sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.

GENE D. SMITH, Acting
Secretary of the Commonwealth.

T. McKEEN CHIDSEY,
Attorney General.

WILLIAM S. LIVENGOOD, Jr.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Henry Williams, B-3185, No. 6693, January Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed upon Henry Williams, convicted of robbery in the Court of Oyer and Terminer of Allegheny County on April 14, 1932, be commuted on Bill No. 21, April Sessions, 1932, from a maximum term of 20 years to a maximum term of 7 years 10 months and 28 days, expiring on March 12, 1950; on Bill No. 22 from a maximum term of 20 years to a maximum term of 1 day, expiring on March 13, 1950; on Bill No. 23 from a minimum term of 10 years to a minimum term of 1 day, expiring on March 14, 1950. (Applicant has been granted parole on Bill No. 20).

Our reasons for making this recommendation are as follows:

This applicant is thirty-seven years of age and this is the first major conviction. He was sentenced on four charges of robbery and given a sentence of imprisonment in the Western State Penitentiary for from forty to eighty years. At the present time, he has served almost eighteen years of his minimum sentence of forty years and he asks commutation of his sentence now in order that he may go to Alabama where he has a parole plan with relatives. It is believed that his plan should be accepted by the Board of Parole and they so recommend.

The trial judge, Honorable O. C. Kent, has written the Board of Pardons and stated he has no recommendation to make in this matter, it having occurred many years ago that he has a meager recollection of it. The district attorney of Allegheny County states he is not opposed to the granting of commutation especially since this applicant will go to Alabama to live.

This applicant's accomplice in this robbery died in prison after he had served eleven years of his minimum sentence of twenty years.

This applicant, having served almost eighteen years for this series of crimes and being only nineteen years of age when they were committed, the Board of Pardons is recommending that the sentence be commuted and the parole plan be accepted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Ralph E. Wright Jr., D-8295, No. A-163, January Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Ralph E. Wright, Jr., convicted of burglary, larceny in the Court of Oyer & Terminer and Quarter Sessions of Perry County on May 15, 1945 to be computed from March 28, 1945, be commuted from 10 years to 4 years and 11 months, expiring on February 28, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-nine years of age and he was sentenced to a term of imprisonment in the Eastern State Penitentiary for from ten to twenty years on a charge of burglary and larceny growing out of breaking into several summer cottages. The accomplices received a suspended sentence.

He has now served almost five years of his minimum sentence. He has an excellent institutional record and the Board of Trustees of the Eastern State Penitentiary describe him as trustworthy, well adjusted and cooperative.

The applicant's representative told the Board of Pardons that his sentence was given by the two associate judges of Perry County and was against the recommendation of the president judge, who is the only member of the court learned in the law.

The trial judge, Honorable Walter W. Rice, has written the Board of Pardons and stated that he believes that the sentence should be commuted. The district attorney of Perry County also states that the sentence should be commuted.

Since this applicant's accomplice, who being equally guilty with him received a suspended sentence, the Board of Pardons feels this applicant was severely punished, also because of his good institutional record and the recommendation of the sentencing authorities in Perry County, we are recommending that the sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Joseph Zimmerman, C-4352, No. 5934, January Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the life sentence of Joseph Zimmerman, convicted of murder in the first degree in the Court of Oyer & Terminer and of Quarter Sessions of Philadelphia County on February 1, 1928 be commuted from life imprisonment to 22 years and 1 month expiring on March 1, 1950.

Our reasons for making this recommendation are as follows:

The applicant is fifty-six years of age and this is his first major conviction. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for life for the killing of a man and his wife with whom he had had considerable trouble. Threats had been made by the victim against the applicant's life but the applicant did draw a gun, killing the victim. He pled guilty and was sentenced to life imprisonment.

Since that time he has maintained an excellent institutional record and the authorities of the penitentiary state that this applicant now shows maturity of judgment and stability of character. The trial judge leaves the matter of commutation up to the Board of Pardons and so does the district attorney of Philadelphia County.

Since this man has now served approximately twenty-two years of a life sentence with an excellent institutional record and with no objection from the authorities of Philadelphia County, the Board of Pardons is recommending that commutation of his life sentence be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Harry W. Bryant, Jr., D-9402, No. 9192, February Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Harry W. Bryant, Jr., convicted of burglary, larceny, receiving stolen goods in the Court of Quarter Sessions of Philadelphia County on January 24, 1947 to be computed from December 18, 1946, be commuted from 5 years to 3 years, 3 months and 10 days expiring on March 28, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-four years of age and has no prior criminal record. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from five to ten years for breaking into three homes and selling articles of furniture and clothing. The loot, in the three cases, amounted to approximately \$5,000.00.

The applicant has now served over three years and two months in the Eastern State Penitentiary where he is given a superior rating in mentality. He has an excellent institutional record. He served in the armed forces of the United States and was overseas in Germany where he received the Purple Heart on two separate occasions. He was a student at Temple University when this offense took place.

The district attorney of Philadelphia County leaves the matter of commutation up to the Board of Pardons. The trial judge, Honorable Harry S. McDevitt, states he has no objection to the granting of commutation at this time.

Because of the applicant's fine army record, his excellent institutional record, and the fact that there is no opposition in this matter; the Board of Pardons recommends that the applicant's sentence is commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of John Chaplinsky, Jr., 4793-B, No. A-187, February Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of John Chaplinsky, Jr., convicted of larceny in the Court of Quarter Sessions of Schuylkill County on May 16, 1949 be commuted from 2 years to 10 months and 10 days, expiring on March 26, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-two years of age and has no prior criminal record. He was sentenced to a term of imprisonment in the Schuylkill County Prison for from two to four years for his participation with two others in digging up pipes which belonged to the Borough of Shenandoah Water System no longer in use.

One of the accomplices of this applicant, Daniel F. Monaghan, filed a petition for commutation and it was heard at the January 1950 Session of the Board of Pardons and commutation was granted.

This applicant has a good parole plan and since he has

no prior criminal record, the Board of Pardons feels he has been sufficiently punished. The trial judge, Honorable C. A. Staudemeier, does not oppose nor does the district attorney of Schuylkill County.

Since this applicant's accomplice has already received commutation of his minimum sentence, since the applicant has no prior record, and he has an excellent institutional record; we are recommending that commutation of sentence be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Agazio Fraietta, A-14626, No. 1607, February Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Agazio Fraietta, convicted of murder in the first degree in the Court of Oyer & Terminer of Allegheny County on June 16, 1926 be commuted from life to 23 years 9 months and 10 days, expiring on March 26, 1950.

Our reasons for making this recommendation are as follows:

This applicant is sixty-one years of age and has no prior criminal record. He was sentenced in 1926 to a term of imprisonment in the Western State Penitentiary for life and after having served approximately ten years, he was released on parole.

He has been on parole for a period of over fourteen years and he now asks the Board of Pardons for commutation of his maximum sentence.

The Board of Parole states he has had an excellent record on parole and he never has been cited for any infraction of the parole rules. The trial judge, Honorable J. Frank Graff, and the district attorney of Allegheny County are not opposed and leave the matter of commutation up to the Board of Pardons.

Since this applicant has been in no further trouble for approximately twenty-four years, fourteen of which have been on parole, the Board of Pardons is recommending that his maximum sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Henton Gary, D-3361, No. 6361, February Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Henton Gary, convicted of robbery in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on September 6, 1938, be commuted from 20 years to 11 years and 6 months, expiring on March 6, 1950.

Our reasons for making this recommendation are as follows:

The applicant is one of many parolees whose release from parole by commutation of the maximum sentence has been recommended to the Board of Pardons by the Board of Parole.

The Board of Parole has recommended this applicant, as well as the others, because of his excellent record in the armed forces of the United States. By reason of his fealty to country, steadfastness in courage, and military earnestness, he helped overpower the enemies of our country in World War II.

As a token of appreciation, and feeling that his gallant conduct has atoned for the error of his past ways, it is our recommendation to your Excellency that the term of the maximum sentence of the applicant be commuted and that he be freed from further parole supervision.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Joseph Frank Halagich, No. A-202, February Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Joseph Frank Halagich, convicted of attempted statutory rape in the Court of Oyer and Terminer of Allegheny County, on October 17, 1941 to be computed from October 16, 1941, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is twenty-nine years of age and he had no prior criminal record. He was sentenced to a term of imprisonment in the Allegheny County Jail for from two to four years on a charge of statutory rape. This applicant never served one day in jail but was immediately placed on probation by the trial judge. The facts, as indicated to the Board of Pardons, do not read as an attempted statutory rape on the part of this applicant.

The Board of Parole has indicated that this applicant is not on parole, but that he served his parole period without a blemish. The applicant served in the armed forces of the United States Army during the last war and was in the Southwest Pacific Theatre. He received an honorable discharge. He has been in no further trouble for a period of eight years and three months. The district attorney of Allegheny County is not opposed to the granting of this pardon as prayed for.

The reason this applicant desires a pardon is that he is engaged to be married and desires to clear his name before taking unto himself a wife. Under all of these

circumstances, the Board of Pardons feels that the applicant has shown that he will not again offend against society and we believe we can take a chance on this applicant. We are, therefore, recommending that a pardon be granted

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Fred C. Hopton, Jr., 65624, No. A-209, February Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Fred C. Hopton, Jr., convicted of sodomy in the Court of Oyer and Terminer of Allegheny County on April 19, 1949, be commuted from 3 years to 11 months and 10 days, expiring on March 29, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-five years of age and this is his first conviction. He was sentenced to a term of imprisonment in the Allegheny County Workhouse for from three to ten years on a charge of sodomy. The applicant has an excellent institutional record and this is the only time that he has ever been in any difficulty. Many letters have been sent to the Board testifying of his prior good reputation and expressing the feeling that what this applicant needs is medical treatment rather than penal confinement.

The representative, Ralph T. Bell, Esquire, Pittsburgh, Pennsylvania, has given us a plan in which this applicant will be sent to the psychiatric department of St. Francis Hospital and will be under the care of Dr. C. C. Wholey, an eminent psychiatrist in that institution.

The trial judge, Honorable Frank P. Patterson, recommends commutation if he is turned over to a psychiatric institution. The district attorney has likewise agreed to this commutation if he is turned over to a psychiatric institution.

It may be stated on behalf of the applicant that he has served honorably in the armed forces of the United States holding the rank of First Lieutenant, and was given an honorable discharge.

The Board of Pardons, therefore, recommends that commutation be granted in this matter if the applicant is transferred from the Allegheny County Workhouse to a psychiatric institution and that he remains there until cured, and that thereafter he remains on parole until the expiration of his maximum sentence.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Howard Poindexter, D-8436, No. A-214, February Session, 1950.
To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommends that the minimum sentence of Howard Poindexter, convicted of robbery, being armed with an offensive weapon, assault and battery, aggravated assault and battery in the Court of Quarter Sessions of Philadelphia County on September 4, 1945 to be computed from August 11, 1945, be commuted from 8½ years to 4 years, 7 months and 20 days, expiring on March 31, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-seven years of age and this is his first major conviction. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from eight and one-half to seventeen years on charges of robbery, being armed with an offensive weapon, assault and battery and aggravated assault and battery.

At the time of the hearing in this matter, the applicant's representative argued to the Board of Pardons that there is no evidence to sustain a conviction of robbery or attempted robbery and there is slight evidence to sustain a charge of assault and battery. The Board of Pardons has often heard this plea, but this is the first time the district attorney of Philadelphia County, James W. Tracey, Jr., joined with the applicant's counsel and stated to this Board that he agreed there wasn't sufficient evidence of robbery or attempted robbery in this case.

Since the district attorney has agreed the most the applicant is guilty of is assault and battery and he has now served more than the maximum time for that crime we believe he has served enough time in the penitentiary. The trial judge, Honorable Vincent A. Carroll, recommends to the Board that the applicant be granted clemency. The Board of Trustees of the Eastern State Penitentiary state that this applicant has an excellent institutional record.

Under all of these circumstances, the Board of Pardons recommends that clemency be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Frederick V. Powers, A-13217, No. A-217, February Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Frederick V. Powers, convicted of counterfeiting bank checks in the Court of Quarter Sessions of Allegheny County, on January 25, 1924, be pardoned.

Our reason for making this recommendation are as follows:

This applicant is forty-eight years of age and this was the first major conviction. He was sentenced to a term of imprisonment in the Western State Penitentiary for from

three and one-half to seven years on a charge of counterfeiting bank checks.

This applicant served his minimum sentence and then was on parole a like period of time. During the time on parole he enjoyed a good reputation in the community and has been in no further trouble for almost twenty-three years.

The district attorney of Allegheny County has stated he has no opposition to the granting of a pardon as prayed for. This applicant served in the United States Army and had a good record there. He has worked steadily since his release, he is married and is faithful to his wife.

The Board of Pardons believes that this applicant has been completely rehabilitated and we believe he has demonstrated he will never again offend against society. In the light of his institutional record, his record on parole, his service with the armed forces of the United States, and his obvious rehabilitation; we are recommending that a pardon be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Walter Williams, D-4066, No. 132-B, February Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed upon Walter Williams, convicted of assault with intent to rob, being armed with an offensive weapon in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on July 6, 1932, be commuted on Bill No. 532 September Sessions, 1931, from a maximum term of 15 years to a maximum term of 3 years and 6 months, expiring on March 11, 1950.

Our reasons for making this recommendation are as follows:

The applicant is one of many parolees whose release from parole by commutation of the maximum sentence has been recommended to the Board of Pardons by the Board of Parole.

The Board of Parole has recommended this applicant, as well as the others, because of his excellent record in the armed forces of the United States. By reason of his fealty to country, steadfastness in courage, and military earnestness, he helped overpower the enemies of our country in World War II.

As a token of appreciation, and feeling that his gallant conduct has atoned for the error of his past ways, it is our recommendation to your Excellency that the term of the maximum sentence of the applicant be commuted and that he be freed from further parole supervision.

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of George A. Williamson, D-1886, No. 131-B, February Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of George A. Williamson, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on January 8, 1937, be commuted from 20 years to 13 years and 2 months, expiring on March 8, 1950.

Our reasons for making this recommendation are as follows:

The applicant is one of many parolees whose release from parole by commutation of the maximum sentence has been recommended to the Board of Pardons by the Board of Parole.

The Board of Parole has recommended this applicant, as well as the others, because of his excellent record in the armed forces of the United States. By reason of his fealty to country, steadfastness in courage, and military earnestness, he helped overpower the enemies of our country in World War II.

As a token of appreciation, and feeling that his gallant conduct has atoned for the error of his past ways, it is our recommendation to your Excellency that the term of the maximum sentence of the applicant be commuted and that he be freed from further parole supervision.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Joshua Allen, No. 64208, No. A-144, March Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Joshua Allen, convicted of voluntary manslaughter in the Court of Oyer and Terminer of Allegheny County on May 24, 1948 to be computed from March 16, 1948 be commuted from 4 years to 2 years and 1 month, expiring on April 16, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-one years of age and he has never before been in any trouble whatsoever. He was sentenced to a term of imprisonment in the Allegheny County Workhouse for from four to eight years on a charge of voluntary manslaughter. He was arrested in the City of Pittsburgh during a strike of taxi cab drivers. This applicant was driving a taxi cab and had not joined the strikers when a group of strikers threatened to kill the applicant and made some very degrading remarks about

him. As they came after the applicant, he attempted to pull away and in order to protect himself from being beaten by the mob, fired a shot back over his left shoulder as he was driving away. There was no intention to fire into the crowd or to do deliberate harm to anyone. However, one of the strikers was killed by this wild shot.

The applicant has a very good institutional record in the Allegheny County Workhouse and the trial judge, Honorable Walter P. Smart, recommends that this applicant be granted commutation. The district attorney of Allegheny County leaves the matter of commutation up to the Board of Pardons.

At the present time, the applicant has served approximately two years of a minimum sentence of four years. He is married and has two children to support.

Because of the hardship to his family and the fact that the trial judge recommends commutation be granted and the district attorney of Allegheny County is not opposed to commutation; the Board of Pardons recommends that his sentence be commuted at the present time.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Robert Joseph Allen, D-3710, No. 6256, March Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed upon Robert Joseph Allen, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on January 27, 1939 to be computed from December 17, 1938, be commuted on Bill No. 932 December Sessions, 1938, from a maximum term of 20 years to a maximum term of 11 years and 4 months, expiring on April 17, 1950; on Bill No. 933 from a minimum term of 10 years to a minimum term of 1 day, expiring on April 18, 1950; and on Bill No. 934 from a minimum term of 5 years to a minimum term of 1 day, expiring on April 19, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty years of age and has no prior criminal record. This applicant, with no prior criminal record, was sentenced to a term of imprisonment in the Eastern State Penitentiary for from twenty-five to fifty years on a charge of robbery, being armed with an offensive weapon. He and five accomplices committed, in the space of one month, a great many armed robberies. At the time he was engaged in these criminal escapades, he was only nineteen years of age. He has now spent almost twelve years of his life in prison.

The Board of Trustees of the Eastern State Penitentiary state this applicant has a good institutional record. Mr. Frank P. Tucker, Senior Parole Officer of the institution, has advised the Board of Pardons that he knows this applicant well and feels that the Board would not be taking any chance if commutation was granted. The trial judge, Honorable Gerald F. Flood, has written the Board of Pardons and stated that he has no recommendation to

make in this matter. The district attorney of Philadelphia County, who appeared before the Board states that he leaves the matter of commutation up to the Board because he feels the applicant has been severely punished.

The other accomplices of this applicant have had their sentences commuted and also, this applicant received one of the heavier sentences with no prior criminal record; and for that reason the Board of Pardons is recommending his sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Junior Leonard Brown, C-1383, No. A-222, March Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Junior Leonard Brown, convicted of burglary, larceny in the Court of Quarter Sessions of Washington County on September 9, 1949 to be computed from August 3, 1949 be commuted from 1 year to 8 months and 17 days, expiring on April 20, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-six years of age and this is his first major conviction. He was sentenced to a term of imprisonment in the Western State Penitentiary for from one to five years on a charge of burglary and larceny.

The Board, after hearing the argument in this matter was convinced this applicant did not have anything to do with the burglaries but was merely the poor "dupe" in this case. The person who was perhaps the perpetrator of this offense refused to waive extradition and the result he is still free and living in West Virginia. The applicant's other accomplice received the same sentence and he is still confined.

The Board of Pardons feels that this applicant received a very heavy sentence and that he was forced by circumstances to participate in the matter. Had he stood trial he might never have been convicted. Since he has served eight months of a minimum sentence of one year and since he plans to return to West Virginia to his family, we are recommending that his minimum sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Harry Carbaugh, D-1288, No. 6368, March Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Harry Carbaugh, convicted of robbery in the Court of Oyer and Terminer and Quarter Sessions of Adams County on May 2, 1936 to be computed from March 28, 1940, be commuted from 20 years to 10 years and 1 month, expiring on April 28, 1950.

Our reasons for making this recommendation are as follows:

The applicant is forty-three years of age and this is his first major conviction. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from ten to twenty years on a charge of robbery. After he served a period of a little over seven years, he was released on parole. Since that time, he has been reporting to the Philadelphia Office of the Board of Parole under whose supervision he has been. He has been under their supervision for practically seven years. He has approximately ten more years to serve on parole before the expiration of his maximum sentence.

Neither the trial judge, Honorable W. C. Sheeley, or the district attorney of Adams County have any recommendation to make in this matter. The Board of Parole reports to the Board of Pardons that he is making a favorable adjustment, that he lives quietly, and that there have been no complaints about his behavior.

The applicant states that he feels he has shown in the past seven years of his conduct that he has become a good citizen and he hopes the Board of Pardons will favorably consider the application for commutation of his maximum sentence.

The Board of Pardons feels that he has indicated by his past conduct he will no longer be a risk if supervision is removed, and we are, therefore, recommending that his maximum sentence be commuted and that he be released from further parole supervision.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Joseph Fanelli, C-6251, No. 6448, March Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the life sentence of Joseph Fanelli, convicted of murder in the first degree in the Court of Quarter Sessions of Philadelphia County on June 20, 1930 be commuted from life imprisonment to 19 years and 10 months, expiring on April 20, 1950.

Our reasons for making this recommendation are as follows:

This applicant is forty-nine years of age and on June 20, 1930, was sentenced to a term of life imprisonment in the Eastern State Penitentiary for his participation in a

holdup which resulted in death to the victim. The applicant has an excellent institutional record in the Eastern State Penitentiary.

The district attorney of Philadelphia County stated to the Board of Pardons that since this was a killing in the perpetration of robbery, he must oppose the granting of commutation.

Since this applicant has such an excellent institutional record, and since it is the position of the Philadelphia authorities that they must oppose every petition for commutation where there is killing in the perpetration of a robbery, the Board of Pardons is unable to see any force and effect in this opposition. Furthermore, the accomplice who fired the shot, according to the trial judge, was granted a commutation in October 1942. This means that the applicant has now served a period of time approximately seven and one-half years longer than his accomplice who was equally guilty and fired the fatal shot.

Since this is so, we feel the merit in this applicant's petition that he should be given the same treatment that was accorded his accomplice. The Board of Pardons, therefore, is recommending that commutation of this life sentence be granted, even though it is opposed by the district attorney. We feel that unless such action is taken by us, that this applicant may feel that he is being dealt with unfairly by society; and, if at some future date, he is commuted by this Board or another Board, when released from the penitentiary will react with rancor toward society in general.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Steve Ferko, A-12232, No. 538, March Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Steve Ferko, convicted of murder in the first degree in the Court of Oyer and Terminer of Allegheny County on April 26, 1922, be commuted from life to 28 years, expiring on April 26, 1950.

Our reasons for making this recommendation are as follows:

This applicant is fifty-six years of age and had no prior criminal record. He was sentenced in 1920 to be electrocuted but his sentence was commuted to life imprisonment in the Western State Penitentiary April 26, 1922. After having served approximately sixteen and one-half years of his life sentence, he was released on parole. He has been on parole approximately eleven years and four months and during that time he has made every effort to atone for the great crime which he has committed. He has been working in Cleveland, Ohio and Detroit, Michigan and has married. He is a prominent layman in the Hungarian Baptist Church.

The Michigan authorities have advised the Board of Pardons that this applicant is a model parolee and he has solved the problems of rehabilitation. He fulfills speaking engagements in Michigan and attends Evangelical meetings throughout Michigan, Ohio, and Western Pennsylvania. The parole authorities have advised the Board

of Pardons that they feel there is no need to continue the applicant on parole supervision any longer as he has made complet rehabilitation.

The Board of Pardons has received many letters from persons in high places who have written us and requested that we grant relief to this applicant.

This applicant first sought a pardon but at the time of the hearing, we were requested to change it to commutation of his maximum sentence. There was vigorous opposition to the granting of a pardon in this matter by the family of the victim. The district attorney of Allegheny County is not opposed to the granting of commutation of his maximum sentence.

We agree we do not feel a pardon should be granted in this case, but we feel that the applicant is a rehabilitated individual and further parole supervision will have no effect upon the future conduct of the applicant.

The Board of Pardons, therefore, recommends to Your Excellency, that commutation of the maximum sentence be granted at this time and that the applicant be free from further parole supervision.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of John Goga, C-562, No. 9844, March Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of John Goga, convicted of rape in the Court of Quarter Sessions of Washington County on February 18, 1948 to be computed from February 13, 1948 be commuted from 3 years to 2 years 2 months and 10 days, expiring on April 23, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-five years of age and this was his first conviction for any offense whatsoever. He was sentenced to a term of imprisonment in the Western State Penitentiary for from three to fifteen years on a charge of rape. His accomplice was Donald Dean Wolfe. After conviction, the victim gave birth to a child and the court was reluctant to sentence the defendant if arrangements could be made for expenses and support of the child born out of wedlock.

The victim has since married and has written to the Board of Pardons that her present husband married her with full knowledge of the child and that he intends to adopt this child and make the child one of his family. The applicant and his accomplice have made arrangements to pay all expenses that the victim has had in consideration with the birth of this child.

The trial judge, Honorable Roy T. Carson, states he is neither opposing nor favoring the application and that the plan referred to above was the best plan that the court could work out in this situation. The district attorney of Washington County is opposed.

At the present time, the applicant has served over two years and two months of his minimum sentence and he will have approximately twelve years or more of parole

supervision. He is not a hardened criminal since he has attempted to make financial restitution. We believe this applicant has been sufficiently punished and the Board of Pardons, therefore, recommends that commutation be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Claudy Mackey, D-9768, C-1229, No. A-178, March Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Claudy Mackey, convicted of robbery, being armed with an offensive weapon in the Court of Quarter Sessions of Philadelphia County on July 16, 1947 to be computed from July 4, 1947 be commuted from 5 years to 2 years 9 months and 20 days, expiring on April 24, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty years of age and this is the first arrest which this applicant has ever had. The applicant is alleged to have threatened two sailors at 3:00 o'clock in the morning and to have asked them for money. In connection with this, the applicant was arrested and given a sentence by the Honorable Harry S. McDevitt to a term of imprisonment in the Eastern State Penitentiary for from five to ten years.

The Board of Trustees of the Eastern State Penitentiary state this applicant has an excellent institutional record. The district attorney of Philadelphia County, stated at the time of the hearing that he feels this applicant received a very heavy sentence for his participation in this affair.

The Board of Pardons is of the same opinion, and is, therefore, recommending that since he has served one-half of his minimum sentence he be granted commutation at this time.

GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Nicola Naccarato, No. 9332, March Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members

of the Board of Pardons recommend that Nicola Naccarato, convicted of lottery in the Court of Quarter Sessions of Allegheny County, on May 8, 1941, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is fifty-seven years of age and he was charged with setting up and maintaining a lottery. He was alleged to have set up a "numbers" writing establishment. Since this offense, which occurred nearly nine years ago, the applicant has been in no further trouble.

He is now engaged to be married and he wishes to have this conviction removed so he can enter into the state of wedded bliss without any blemish on his record.

The district attorney of Allegheny County has stated to the Board of Pardons that he is not opposed to the granting of a pardon. The Board of Parole states that this applicant is a steady, dependable worker and is very much respected by his fellow citizens.

In view of the fact that he has a good reputation, that he is a dependable worker, and the fact that he desires to be married; the Board of Pardons feels that he should be granted the pardon as prayed for and we so recommend to Your Excellency.

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Augustus Norton, D-2947, No. 7853, March Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed upon Augustus Norton, convicted of robbery in the Court of Oyer and Terminer of Philadelphia County on March 2, 1938 to be computed from February 24, 1938, be commuted on Bill No. 982 February Sessions, 1938, from a maximum term of 20 years to a maximum term of 12 years and 2 months, expiring on April 24, 1950; on Bill No. 983 from a minimum term of 10 years to a minimum term of 1 day, expiring on April 25, 1950; and on Bill No. 976 from a minimum term of 10 years to a minimum term of 1 day, expiring on April 26, 1950.

Our reasons for making this recommendation are as follows:

This applicant is forty-two years of age and in 1938 was sentenced to a term of imprisonment in the Eastern State Penitentiary for from thirty to sixty years for strong-armed robbery. This is perhaps one of the longest sentences we have seen meted out by a court, however, this is a particular vicious type of crime.

The Board of Pardons has no doubt that a sentence of this kind has its effect on the community in general and will deter others from committing like offenses. This applicant has now served over twelve years of this minimum sentence.

The trial judge, Honorable Otto R. Heiligman, is deceased and the present judge has no objection to the granting of this petition, since it is reported to both him and to us that this applicant has an outstanding record in the penitentiary. The district attorney of Philadelphia County was at the hearing and stated to the Board of

Pardons that he leaves the matter of commutation up to the Board.

The Board of Pardons is of the opinion that this applicant received from the trial judge a very lengthy sentence, that he has served a major portion of it; and under these circumstances we are recommending that this applicant's sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,

GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of George O'Farrell, B-7981, No. A-250, March Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence imposed upon George O'Farrell, convicted of robbery, being armed with an offensive weapon in the Court of Quarter Sessions of Philadelphia County on March 10, 1931, be commuted on Bill No. 138 March Sessions, 1931, from a maximum term of 20 years to a maximum term of 19 years, 1 month and 10 days, expiring on April 20, 1950; and on Bill No. 139 from a maximum term of 20 years to a maximum term of 1 day, expiring on April 21, 1950.

Our reasons for making this recommendation are as follows:

This applicant is forty-four years of age and he was sentenced to a term of imprisonment in the Philadelphia County Prison for from twenty to forty years on a charge of robbery, being armed with an offensive weapon. This applicant served nearly nine years of his minimum sentence when he was released on parole. He has now served nine and one-half years on parole and the Board of Parole gives him a very excellent record under their supervision.

The trial judge, Honorable Francis Shunk Brown, Jr., has written the Board of Pardons and states he has no objection to the granting of commutation to the applicant but leaves the matter up to the discretion of the Board. The district attorney of Philadelphia County states that he has no objection to the granting of the petition as prayed for.

The reason the applicant desires commutation of his maximum sentence is that he is offered a position in California and will move there with his family but does not desire to take this position when his crime would immediately cause him to be placed under supervision of the California authorities. He believes this would be a handicap to his starting out in a new life, so he asks that we recommend the granting of this petition.

Because of the fact that he has a good record on parole for the past nine and one-half years; and he has become stable through marriage and now has a child to consider; the Board of Pardons is recommending to Your Excellency in view of the recommendations of the sentencing authorities that the maximum sentence of this applicant be commuted

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.

T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Daniel J. Orfitelli, No. 62158, No. 9438, March Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Daniel J. Orfitelli, convicted of robbery, carrying concealed deadly weapons, burglary, larceny in the Court of Oyer and Terminer and Quarter Sessions of Allegheny County on November 27, 1946 to be computed from October 16, 1946, be commuted from 4 years to 3 years, 6 months and 10 days, expiring on April 26, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-one years of age and this was his first major conviction. He was sentenced to a term of imprisonment in the Allegheny County Workhouse for from four to ten years on a charge of robbery, carrying concealed deadly weapons, burglary and larceny. The applicant, together with seven other accomplices, became involved in a series of burglaries over a period of eight months. In four of these burglaries a gun was carried. All of the accomplices, save one, have had their sentences commuted. This applicant seeks commutation because this was the first major conviction. The applicant has now served three and one-half years of his maximum sentence of four years.

The Warden of the Allegheny County Workhouse has advised the Board that the applicant has a good institutional record. The district attorney of Allegheny County leaves the matter of commutation up to the Board of Pardons.

Since all but one of the accomplices have been released, he is seeking likewise a commutation of his sentence. Nicholas Panaia, one of the accomplices, was released in May 1949.

The Board of Pardons feels that this applicant was in no worse position than his accomplices heretofore named, and we are, therefore, recommending that this applicant be given the same consideration as his accomplices and that his sentence be commuted at the present time

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Kenneth Puscavage, C-7196, No. 2837, March Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due

public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed upon Kenneth Puscavage, convicted of robbery, shooting with intent to kill, larceny, in the Court of Oyer and Terminer and Quarter Sessions of Schuylkill County on June 17, 1931, be commuted on Bill No. 469 May Sessions, 1931, from a maximum term of 20 years to a maximum term of 18 years and 10 months expiring on April 17, 1950; on Bill No. 427 from a maximum term of 3 years to a maximum term of 1 day, expiring on April 18, 1950; on Bill No. 547 from a maximum term of 20 years to a maximum term of 1 day, expiring on April 19, 1950; on Bill No. 548 from a maximum term of 20 years to a maximum term of 1 day, expiring on April 20, 1950; and on Bill No. 552 from a maximum term of 20 years to a maximum term of 1 day, expiring on April 21, 1950.

Our reasons for making this recommendation are as follows:

The applicant is one of many parolees whose release from parole by commutation of the maximum sentence has been recommended to the Board of Pardons by the Board of Parole.

The Board of Parole has recommended this applicant, as well as the others, because of his excellent record in the armed forces of the United States. By reason of his fealty to country, steadfastness in courage, and military earnestness, he helped overpower the enemies of our country in World War II.

As a token of appreciation, and feeling that his gallant conduct has atoned for the error of his past ways, it is our recommendation to your Excellency that the term of the maximum sentence of the applicant be commuted and that he be freed from further parole supervision.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Irving Sadoff, D-4702, No. 7037, March Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Irving Sadoff, convicted of burglary, receiving stolen goods in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on March 10, 1940, be commuted from 30 years to 10 years and 1 month, expiring on April 10, 1950.

Our reasons for making this recommendation are as follows:

The applicant is one of many parolees whose release from parole by commutation of the maximum sentence has been recommended to the Board of Pardons by the Board of Parole.

The Board of Parole has recommended this applicant, as well as the others, because of his excellent record in the armed forces of the United States. By reason of his fealty to country, steadfastness in courage, and military earnestness, he helped overpower the enemies of our country in World War II.

As a token of appreciation, and feeling that his gallant conduct has atoned for the error of his past ways, it is our

recommendation to your Excellency that the term of the maximum sentence of the applicant be commuted and that he be freed from further parole supervision.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Paul J. Salvatore, No. 9724, March Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Paul J. Salvatore, convicted of larceny, receiving stolen goods in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County, on March 30, 1942, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is thirty-one years of age and this is the only crime he has committed and for which he is asking a pardon. While employed in a garage at the beginning of the war in 1942, this applicant, when tires and tubes were hard to get, took from his employer a tire, tube, and wheel from an automobile.

He served his minimum sentence of nine months and upon his release in January 1943, was inducted into the armed forces of the United States. He served honorably in the overseas theatre and had his final discharge in the general demobilization at the end of the war. He is married, and it is now over seven years since his maximum sentence expired. He has been in no further trouble.

This applicant paid the debt to society and now asks a pardon on the grounds that he has learned his lesson and that it has hurt him in his attempt to secure a position. In fact, he cites one instance where, after having been given a position, he was forced to leave it because of the fact his criminal record was disclosed.

Since this applicant served his country in time of need and since he has served the maximum sentence, and for a period of over seven years has been in no further trouble, the Board of Pardons does not feel that this criminal record should follow him all the days of his life, so we are, therefore, recommending that a pardon be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Percy Washington, D-2830, No. 6312, March Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Percy Washington, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer and quarter Sessions of Philadelphia County on January 27, 1938 to be computed from January 15, 1938 be commuted from 25 years to 12 years and 3 months, expiring on April 15, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-five years of age and in 1938 he was sentenced to a term of imprisonment in the Eastern State Penitentiary for from twenty-five to fifty years on a charge of robbery, being armed with an offensive weapon. He and two accomplices were involved in twenty-four holdups over a period of two and one-half months. The crime wave in this case was violent but short-lived. This applicant has now been in the Eastern State Penitentiary for more than twelve years.

The district attorney of Philadelphia County stated to the Board of Pardons that this applicant has been severely punished and they are not opposed to the granting of commutation as prayed for. The Board of Trustees of the Eastern State Penitentiary have written the Board of Pardons that this application has a good institutional record.

Since this applicant has served almost half of his minimum sentence of twenty-five years, his good record in the institution, and the recommendation of the district attorney, the Board of Pardons believes that this applicant has been severely punished and are, therefore, recommending to Your Excellency that commutation of sentence be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Donald Dean Wolfe, C-564, No. 9843, March Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Donald Dean Wolfe, convicted of rape in the Court of Quarter Sessions of Washington County on February 18, 1948 to be computed from February 13, 1948 be commuted from 3 years to 2 years 2 months and 10 days, expiring on April 23, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-four years of age and this was his first major conviction. He was sentenced to a term of imprisonment in the Western State Penitentiary for from three to fifteen years on a charge of rape. His accomplice is John Goga. After conviction, the victim gave birth to a child and the court was reluctant to sentence the defendant if arrangements could be made for expenses and support of the child born out of wedlock.

The victim has since married and has written to the Board of Pardons that her present husband married her

with full knowledge of the child and that he intends to adopt this child and make the child one of his family. The applicant and his accomplice have made arrangements to pay all expenses that the victim has had in consideration with the birth of this child.

The trial judge, Honorable Roy T. Carson, states he is neither opposing nor favoring the application and that the plan referred to above was the best plan that the court could work out in this situation. The district attorney of Washington County is opposed.

At the present time, the applicant has served over two years and two months of his minimum sentence and he will have approximately twelve years or more on parole supervision. He is not a hardened criminal since he has attempted to make financial restitution. We believe this applicant has been sufficiently punished and the Board of Pardons, therefore, recommends that commutation be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Frank Brizzi, No. A-260, April Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Frank Brizzi, convicted of burglary, entering with intent to commit a felony, receiving stolen goods in the Court of Quarter Sessions of Philadelphia County, on December 11, 1933, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is thirty-five years of age and this was his first conviction. He was placed on probation for a period of ten years for having borrowed his girl friend's radio and when they quarreled he failed to return it. He has not been in any further trouble and this offense occurred more than seventeen years ago. He is married and is presently a constable in the City of Philadelphia, having been duly elected in the general election of 1949. He does not wish this one conviction to effect his future life and he and his wife are annoyed with the blot on his otherwise clean record and name.

Since the people in his neighborhood have shown their faith and trust in him by electing him to the office of constable, the Board of Pardons feels he should not be hindered by this blot in his name, and we are, therefore, recommending that a pardon be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Orlando Caroluzzi, D-7163, No. A-281, April Session, 1950.
To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Orlando Caroluzzi, convicted of burglary, receiving stolen goods in the Court of Quarter Sessions of Philadelphia County on May 14, 1943 to be computed from May 10, 1943, be commuted from 10 years to 7 years and 10 days, expiring on May 20, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-nine years of age and this is his first major conviction. He was sentenced on charges of burglary and receiving stolen goods and was sentenced to a term of imprisonment in the Eastern State Penitentiary for from ten to twenty years.

The applicant has a fair institutional record in the Eastern State Penitentiary and the trial judge has not given us his opinion in this matter. The district attorney of Philadelphia County has no objection to the granting of commutation of this sentence.

At the present time, the applicant has served seven years of his minimum sentence. The Board of Pardons feels that he has been sufficiently punished and if released will not again become involved with the law.

Because he has served seven years of his minimum sentence, the Board of Pardons is recommending that his minimum sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Alfred Contardi, No. 3680, No. 133-B, April Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Alfred Contardi, convicted of robbery in the Court of Oyer and Terminer of Allegheny County on October 9, 1939 to be computed from April 21, 1939, be commuted from 20 years to 11 years and 1 month, expiring on May 21, 1950.

Our reasons for making this recommendation are as follows:

The applicant is one of many parolees whose release from parole by commutation of the maximum sentence has been recommended to the Board of Pardons by the Board of Parole.

The Board of Parole has recommended this applicant, as well as the others, because of his excellent record in the armed forces of the United States. By reason of his fealty to country, steadfastness in courage, and military earnestness, he helped overpower the enemies of our country in World War II.

As a token of appreciation, and feeling that his gallant conduct has atoned for the error of his past ways, it is our recommendation to your Excellency that the term of the

maximum sentence of the applicant be committed and that he be freed from further parole supervision.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of John Duboy, B-5588, No. 555, April Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed on John Duboy, convicted of prison breach, robbery, in the Oyer and Terminer and Quarter Sessions Court of Fayette County, on June 21, 1937, from a maximum term of 20 years to a maximum term of 1 year, 10 months, and 29 days, expiring on June 5, 1950; and on Bill No. 25/202 from a minimum term of 10 years to a minimum term of 1 day, expiring on June 6, 1950. (Applicant has been granted parole on final bill of back-time, Bill No. 21/84 December Sessions, 1930, effective July 6, 1947; and on parole on Bill No. 243 June Sessions, 1937, effective July 6, 1948.)

Our reasons for making this recommendation are as follows:

This applicant is thirty-nine years of age. He was sentenced to a term of imprisonment in the Western State Penitentiary for from twenty-one to forty-two years for prison breach and robbery in 1937 from Fayette County. He was later brought before the court in Westmoreland County and sentenced to a term of imprisonment in the Western State Penitentiary for from six to twelve years for robbery. This sentence to run concurrently with the Fayette County sentence.

This applicant was on parole at the time the series of crimes were committed and he has now been confined for nearly thirteen years.

This applicant has been seen by various persons and he has convinced them of his complete rehabilitation. We feel that these persons are the type of persons who would not be led astray by false prophets of rehabilitation. We do not feel the applicant is like a professional thief who on the arrival in prison immediately takes on the air of rehabilitation and secretly awaits his release to complete further depredations against society. Those who have seen this applicant are firmly convinced that he is completely and wholly rehabilitated by his thirteen years in the institution.

The trial judge is deceased and the present judge, Honorable W. Russell Carr, asks us to cautiously consider.

The Board of Pardons has cautiously and carefully considered all the facts in this case and we have come to the conclusion that this applicant is rehabilitated and should be given consideration at this time. We are, therefore, recommending that his sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.

WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Ernest Lee Harris, No. 81760, No. 9798, April Session, 1950.
To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Ernest Lee Harris, convicted of burglary, larceny in the Court of Quarter Sessions of Delaware County on November 29, 1946 to be computed from July 7, 1946, be commuted from 5 years to 3 years and 11 months, expiring on June 7, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-two years of age and he was sentenced to a term of imprisonment in the Eastern State Penitentiary for from five to twenty years on charges of burglary and larceny. This sentence was later changed by the court to the Delaware County Prison. The applicant was the driver of the get-away car and the accomplices were the ones who committed the burglaries.

The Warden of the Delaware County Prison has advised the Board of Pardons that the applicant has a good institutional record. The trial judge is no longer on the bench and has written no opinion. The present judge, Honorable Harold L. Ervin, states he has no opinion to aid the Board of Pardons in their decision. The district attorney of Delaware County does not oppose the granting of commutation. The applicant has served over three-fourths of his minimum sentence. The accomplices are still confined.

The Board of Pardons feels that this applicant has been severely punished for the crime which he committed, and we are, therefore recommending, in light of the length of time he has served and his good institutional record, that a commutation be granted to him as prayed for.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of James J. Hughes, alias James J. Hughes, Jr., No. A-201, April Session, 1950.
To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommends that James J. Hughes, alias James J. Hughes, Jr., convicted of setting up and maintaining an illegal lottery in the Court of Quarter Sessions of Philadelphia County, on June 18, 1948, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is thirty-two years of age and this was

his first conviction. The applicant was charged with setting up and maintaining a lottery and he was found to have a number of paper slips in his possession known as "number slips." He pled guilty and was placed on probation for a period of one year. He has not been in any further trouble since that time.

The trial judge, Honorable Harry S. McDevitt, has no objection to the granting of a pardon and leaves the matter up to the Board of Pardons.

This applicant has served in the armed forces of the United States for a period of four years and eight months and received an honorable discharge. He served in the South Pacific and Okinawa theatres. Since his return to civilian life, he has maintained himself in a lawful manner, is married and has a child.

Since this applicant served in the armed forces for a period of four years and eight months, and has successfully completed probation, and has stated he has learned his less; the Board of Pardons believes he should be granted a pardon and we so recommend.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Elias F. Leonard, Jr., D-7204, No. 9600, April Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Elias F. Leonard, Jr., convicted of burglary, receiving stolen goods in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on June 7, 1943 to be computed from May 30, 1943, be commuted from 10 years to 7 years, expiring on May 30, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-seven years of age and he was sentenced to a term of imprisonment in the Eastern State Penitentiary for from ten to twenty years on charges of burglary and receiving stolen goods. This applicant's crime consisted of stealing cars, taking the tires from them and reselling them during the past war.

All the applicant's accomplices, and there were four in number, were given suspended sentences and permitted to go in the army at this time. However, the applicant, who was just nineteen years of age, was given this very stiff sentence in the penitentiary.

Since he has now served nearly seven years of his minimum sentence, and since he has an excellent institutional record; the Board of Pardons is recommending that he be granted commutation at this time. One of the reasons that we are moved to do this is because of the fact that the accomplices, who were equally guilty, received suspended sentences while the applicant was the only one who suffered confinement.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.

WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Philip Manzella, D-871, No. 6075, April Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed upon Philip Manzella convicted of robbery, larceny, assault and battery with intent, escape from prison in the Court of Oyer and Terminer and Quarter Sessions of Lehigh County on September 25, 1935, be commuted on Bill No. 96 January Sessions, 1935, from a maximum term of 20 years to a maximum term of 14 years and 8 months, expiring on May 25, 1950.

Our reasons for making this recommendation are as follows:

This applicant is sixty-one years of age and although he has had numerous arrests, this is the first conviction. The applicant was sentenced to a term of imprisonment in the Eastern State Penitentiary for from twelve to twenty-four years on charges of robbery, larceny, assault and battery, escape from prison. On March 20, 1947, he was released on parole at the expiration of his minimum sentence and returned to his home in Detroit, Michigan. The applicant operates a confectionery store in Detroit and he desires to have his maximum sentence commuted after he has been on parole over three years in order that he may return to his native land of Italy to visit relatives. If he is not granted commutation of his maximum sentence, he will not be permitted to leave the country without permission from the parole office which it is doubtful will be given in such a matter as this.

The president judge, Honorable James F. Henninger, states he has no objection to the granting of commutation of the maximum sentence. The district attorney of Lehigh County has stated that if his conduct on parole is good, it should be granted. The Board of Parole has indicated he has an excellent record on parole and there is no bar to having his maximum sentence commuted.

Since there is no objection from the authorities in Lehigh County, and since this applicant has an excellent record on parole; the Board of Pardons recommends to Your Excellency that his maximum sentence be commuted for the reasons herein set forth.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Horace Murray, No. 903, No. A-291, April Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due

public notice, in open session, the undersigned members of the Board of Pardons recommend that the flat sentence of Horace Murray, convicted of involuntary manslaughter, leaving scene of an accident in the Court of Oyer and Terminer of Beaver County on November 5, 1949 be commuted from 2 years to 6 months, expiring on May 5, 1950.

Our reasons for making this recommendation are as follows:

This applicant is forty-eight years of age and has no prior criminal record. He was sentenced to a term of imprisonment in the Beaver County Jail for a period of two years on a charge of involuntary manslaughter and failing to reveal identity at the scene of an accident. This applicant was driving a truck which went out of control and a passenger in the truck was killed. The applicant also was injured and spent several weeks in the hospital. Later when the case was tried in court, he was not present. This probably accounts for the fact that he received such a stiff sentence.

The trial judge, Honorable Morgan H. Sohn, has written the Board of Pardons and stated that he is opposed to granting a pardon but recommends parole could be granted. The Warden of the Beaver County Jail has advised the Board of Pardons that the applicant has an excellent institutional record.

The Board of Pardons feels that this applicant has been severely punished and that this was an accident in which he was injured as well, and his failure to appear in court was due to ignorance rather than intentional default. We are, therefore, recommending that commutation of his sentence be granted at the expiration of six months.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Clements J. Musial, D-9044, No. A-278, April Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Clements J. Musial, convicted of burglary, larceny in the Court of Quarter Sessions of Luzerne County on July 27, 1946 to be computed from May 13, 1946 be commuted from 5 years to 4 years expiring on May 13, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-six years of age. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from five to ten years for burglary and larceny of a restaurant in the City of Nanticoke, Pennsylvania, where he took money and whiskey to the value of \$900.00. This applicant has been in prison almost four years of his minimum sentence of five years. His minimum sentence is due to expire on May 13, 1951.

The Board of Pardons is of the opinion that this applicant has been severely punished. He has an excellent institutional record over the past three years or more.

The Board has been asked to commute the applicant's maximum sentence but we are not in accord with this suggestion. However, because there is no objection from

the trial judge or the district attorney of Luzerne County in this case, and since he has served over four-fifths of his minimum sentence; we are recommending that the minimum sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, Jr.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Francis Prendergast, D-4779, No. 8154, April Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Francis Prendergast, convicted of robbery in the Court of Oyer and Terminer and Quarter Sessions of Lackawanna County on March 11, 1940 to be computed from September 30, 1939, be commuted from 12 years to 10 years and 8 months, expiring on May 30, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-three years of age and this is his first major conviction. He was sentenced to a term of imprisonment in the Eastern State Penitentiary on charges of robbery for from twelve to twenty-four years. There were seven robberies but this applicant only pled guilty to two of them. At the present time he has served over ten and one-half years of his minimum sentence of twelve years. All the accomplices have been released or are now in Farview.

The Board of Trustees of the Eastern State Penitentiary state that this applicant has an excellent institutional record. The present judge, Honorable Michael J. Eagen, leaves the matter of commutation up to the Board of Pardons. The district attorney of Lackawanna has made no comment.

The Board of Pardons feels that since this was the first major conviction, since he has served over ten and one-half years of his minimum sentence, since he has an excellent institutional record, and since there is no objection from the Lackawanna County authorities; we recommend that commutation be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of William Soldridge, D-9576, 5033, No. A-272, April Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of William Soldridge, convicted of murder in the second degree in the Court of Quarter Sessions of Lehigh County on June 10, 1946 to be computed from April 15, 1947, be commuted from 5 years to 3 years and 1 month, expiring on May 15, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty years of age and this is his first conviction for any offense whatsoever. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from five to ten years on a charge of murder in the second degree. He has now served three years of this sentence.

At the time this affair occurred, the applicant was slightly over sixteen years of age. From his record before us, the Board has been able to learn that this applicant was under the control and domination of the accomplice who not only had the revolver but fired the fatal shot.

The Board has had the matter argued to them that this applicant was the unwitting dupe of this older individual and whose criminal influence actually caused the imprisonment of this youth.

The trial judge, Honorable James F. Henninger, leaves the matter of commutation up to the Board of Pardons. The district attorney of Lehigh County has stated he is not opposed to granting of commutation in this matter.

The Board of Pardons, therefore, recommends that commutation be granted in this case.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, Jr.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Ember Raymond Sprow, D-3978, No. 5987, April Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Ember Raymond Sprow, convicted of burglary, larceny in the Court of Oyer and Terminer and Quarter Sessions of Franklin County on April 29, 1939, be commuted from 15 years to 11 years and 1 month, expiring on May 29, 1950.

Our reasons for making this recommendation are as follows:

The applicant is one of many parolees whose release from parole by commutation of the maximum sentence has been recommended to the Board of Pardons by the Board of Parole.

The Board of Parole has recommended this applicant, as well as the others, because of his excellent record in the armed forces of the United States. By reason of his fealty to country, steadfastness in courage, and military earnestness, he helped overpower the enemies of our country in World War II.

As a token of appreciation, and feeling that his gallant conduct has atoned for the error of his past ways, it is our recommendation to your Excellency that the term of the maximum sentence of the applicant be commuted and that he be freed from further parole supervision.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Bertha M. Wells, No. 557, No. 2667,
April Session, 1950.

To His Excellency, the Governor of the Commonwealth of
Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Bertha M. Wells, convicted of murder in the first degree in the Court of Oyer and Terminer of Lawrence County on July 28, 1930 be commuted from life to 19 years and 10 months, expiring on May 28, 1950.

Our reasons for making this recommendation are as follows:

This applicant is forty-five years of age and this was her single conviction. She was sentenced to a term of life imprisonment in the State Industrial Home for Women, at Muncy, on July 28, 1930. After she had served approximately nine years of this sentence, the applicant's sentence was commuted by the Board of Pardons and she was released on parole approximately eleven years ago. She has an excellent record while on parole and her conduct has been observed by many persons in the City of New Castle where she resides.

She asks that a commutation of maximum sentence be granted because of her excellent record since her release from the institution. Many citizens of New Castle have written the Board of Pardons requesting that the Board exercise clemency in this matter and grant the applicant a commutation of her maximum sentence that she prays for.

The Board of Pardons is impressed with the number of letters submitted by the citizens of New Castle and also by the fact that neither the trial judge or the district attorney have any objection to the granting of commutation of her maximum sentence. We are, therefore, recommending to Your Excellency that her maximum sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, Jr.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

In re application of John Michael Zeltusky, No. A-290,
April Session, 1950.

To His Excellency, the Governor of the Commonwealth of
Pennsylvania:

Sir: The above application having been heard, upon due

public notice, in open session, the undersigned members of the Board of Pardons recommend that John Michael Zeltusky, convicted of violation of the election law under the Act of 1919 in the Court of Quarter Sessions of Schuylkill County, on September 16, 1935, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is forty years of age and he had no prior criminal record. He was convicted of detaching ballots from their stubs when he was not a member of the election board, but was serving in the capacity of deputy constable at the election booth. The applicant in his zeal to assist the voters, committed a violation of the election laws. He has now become a member of the police force in the City of Pottsville and he has not been in any further trouble for a period of almost fifteen years.

Since he has an excellent reputation in his own home town, and since he has been appointed to the police force; we feel that he has shown that he will not again offend against society and that we can grant a pardon without fear of his violating the trust and confidence which will be imposed in him.

The Board of Pardons, therefore, is recommending that a pardon be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH, Acting
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Joseph Branch, D-9848, No. 9840,
May Session, 1950.

To His Excellency, the Governor of the Commonwealth of
Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Joseph Branch, convicted of robbery, assault in the Court of Oyer and Terminer and Quarter Sessions of Delaware County on August 27, 1947 to be computed from August 5, 1947, be commuted from 5 years to 3 years, expiring on August 5, 1950.

This applicant is thirty-two years of age and he has no prior criminal record. This applicant and an accomplice committed robbery and assault. The accomplice was never arrested or tried but the applicant, who hit the victim on the head in an attempt to affect robbery, was arrested and sentenced to a term of imprisonment in the Eastern State Penitentiary for from five to ten years.

The Board of Trustees of the Eastern State Penitentiary state that the applicant has an excellent institutional record and since April of this year he has been an inmate of the Delaware County Prison by security of a transfer. The President Judge, Honorable Harold L. Erwin, states he has no opinion since Judge MacDade passed in this case. The district attorney of Delaware County states he has no objection to the granting of commutation in this matter.

Since the applicant has served almost three years of his minimum sentence of five years, and since he has a good institutional record, and since there is no objection from the sentencing authorities of Delaware County, and the further fact that this man has been in no other trouble prior to the commission of this crime, the Board of Pardons recommends that commutation of sentence be

granted as of August 5, 1950, when his three years' time will have been served.

Our reasons for making this recommendation are as follows:

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, Jr.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of James Milton Claybaugh, C-546, No. A-316, May Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of James Milton Claybaugh, convicted of burglary in the Court of Oyer and Terminer of Juniata County on February 3, 1948 to be computed from January 25, 1948, be commuted from 5 years to 2 years and 5 months, expiring on June 25, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-three years of age and this was the first arrest for any offense whatsoever. The applicant and his wife, who was an accomplice, broke into two places, one of which was a school house. The total amount of loot involved was approximately \$1000.00 and restitution was made.

The Board of Trustees of the Western State Penitentiary state that this applicant has an excellent institutional record. The trial judge, Honorable Walter W. Rice, who is no longer a member of the bench in Juniata County, has written the Board of Pardons and leaves the matter of commutation up to the Board. The district attorney of Juniata County states he favors commutation of sentence in this matter.

The applicant served in the armed forces of the United States during the past conflict and has an honorable discharge.

Since this applicant has an excellent institutional record, and the sentencing authorities of Juniata County are not opposed to his release, and the fact the district attorney favors commutation, the Board of Pardons recommends that the sentence of the applicant be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Carl Cody, Jr., D-7104, No. 8014, May Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Carl Cody, Jr., convicted of burglary in the Court of Oyer and Terminer of Philadelphia County on April 26, 1943 to be computed from April 17, 1943 be commuted from 10 years to 7 years, 2 months and 10 days, expiring on June 27, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-four years of age and this was the first conviction for any offense on a serious matter. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from ten to twenty years on a charge of burglary of a house or houses and securing jewelry to the value of \$500.00. This applicant was just eighteen years of age when the offenses complained of were committed. He pled guilty to these offenses and even though this was the first conviction and he was only eighteen years of age, nevertheless, he was remanded to the Eastern State Penitentiary for this long period of time.

He has now served over seven years of this minimum sentence and the Board of Pardons feels that he has learned his lesson in this matter.

The Board of Trustees of the Eastern State Penitentiary report to the Board of Pardons that he has a good institutional record there for the past six years. The trial judge, Honorable Joseph Sloane, has written the Board of Pardons that he leaves the matter of commutation up to the Board of Pardons. The district attorney of Philadelphia County leaves the matter of commutation up to the Board of Pardons.

Because of the fact that this applicant has served such a long period of time of his minimum sentence; has a good institutional record; and since there is no opposition from the sentencing authorities; the Board of Pardons is recommending that his minimum sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, Jr.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Nicholas Colaianne, No. A-298, May Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Nicholas Colaianne, convicted of receiving stolen goods in the Court of Quarter Sessions of Philadelphia County, on October 30, 1934, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is thirty-nine years of age, and although he has two prior arrests, he was sentenced to a term of three years probation for receiving stolen electric light bulbs. The applicant states he was unaware that the bulbs were stolen, and although light bulbs valued at \$160.00, and was indicted for selling a large shipment of electric light bulbs valued at \$1510.00.

Whether or not the shipment of electric light bulbs

was as the applicant alleges or as the indictment alleges, at this time it seems to be of little merit. The Board is more interested in knowing what this applicant has done in the past sixteen years and how he has conducted himself.

Our investigation shows that for the last sixteen years he has engaged in the salvage and scrap business, that he is married and has three children; that he has established his own home and has risen to the position of office manager of the Colonial Salvage and Scrap Company and his present income is approximately \$7500.00 annually. If ever there was any business in which a person of criminal tendencies could take advantage of the law, it is the salvage and scrap business and if after a period of sixteen years this is his first brush with the law, it speaks well of his complete rehabilitation. The fact that he is married and has a wife and three children indicates to us that this man is settled in temperament and disposition.

In order to avoid further embarrassment to him and his family, and because of his good conduct over the past sixteen years, the Board of Pardons is recommending that the pardon be granted as prayed for.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Stanley Czajka, D-9386, No. A-145, May Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Stanley Czajka, convicted of burglary, larceny, receiving stolen goods in the Court of Quarter Sessions of Philadelphia County on January 22, 1947 to be computed from January 16, 1947 be commuted from 5 years to 3 years 5 months and 10 days, expiring on June 26, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-six years of age and this was the first major conviction. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from five to ten years on a charge of burglary, larceny and receiving stolen goods in connection with the rifling of a tap room. The applicant and his accomplices were apprehended by the police before they had any chance to remove the loot.

At the present time, this applicant has served over three and one-half years of his minimum sentence. He has an excellent institutional record in the Eastern State Penitentiary.

The trial judge, Honorable Edwin O. Lewis, has made no recommendation to the Board of Pardons in regard to the disposition of this application.

All of the accomplices in this matter were placed on probation and the applicant was the only person who received a jail sentence at the time of the hearing in this matter. There is nothing in the record which discloses why this applicant should have received treatment so different from his accomplices.

Since all the accomplices were placed on probation, the

Board of Pardons feels that this applicant has been severely dealt with. Also the fact he has served over three and one-half years of his minimum sentence, that he has an excellent institutional record, and because he is the only one of the group who received a prison sentence, we feel this applicant has earned the right to commutation, and we are, therefore, recommending that his sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Mack Evers, D-2978, No. 8821, May Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Mack Evers, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer of Philadelphia County on March 15, 1938 to be computed from March 4, 1938 be commuted from 30 years to 12 years, 3 months and 20 days, expiring on June 24, 1950.

Our reasons for making this recommendation are as follows:

This applicant is forty-one years of age and this is the fourth time he has been convicted of offenses. He was sentenced following a plea of guilty to robbery, being armed with an offensive weapon to a term of imprisonment in the Eastern State Penitentiary for from thirty to sixty years. At the present time, he has served over twelve and one-third years of his minimum sentence. His two accomplices, who received sentences of from twenty-five to fifty years and fifteen to thirty years, have had their sentences commuted and have been released on parole.

The Board of Trustees of the Eastern State Penitentiary state to the Board of Pardons that this applicant has an excellent institutional record. The trial judge, Honorable Frank Smith, has written the Board of Pardons he is opposed to commutation unless the Board of Pardons is definitely satisfied that this applicant has been rehabilitated and leave the matter up to the Board of Pardons.

Since the reports from the Trustees of the Eastern State Penitentiary are favorable and the judge and district attorney leave the matter of commutation up to the Board of Pardons, we are of the opinion that this applicant has been rehabilitated to the point that further incarceration would be of no effect and the only thing left to do is to give the applicant a chance to prove himself in society. Should he fail to prove his rehabilitation, he will be returned to the Eastern State Penitentiary for a period equivalent to the balance of his natural life. If the applicant has learned his lesson, and as we believe he has, he will not again become involved in further difficulties and he will make a successful parole adjustment. That is the chance we must take with this applicant, and we are, therefore, recommending that his sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.

GENE D. SMITH,
Secretary of the Commonwealth.

Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Carl Fowler, Jr., No. A-304, May Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Carl Fowler, Jr., convicted of larceny in the Court of Quarter Sessions of Allegheny County, on March 23, 1938, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is twenty-nine years of age and this was his first conviction for any offense whatsoever. He and an accomplice were involved in the stealing of a case of butter. At the time this offense occurred, the applicant was only seventeen years of age. This series of crimes occurred in the wild exuberation of the applicant's youth and at a time when he was unemployed. The offense was committed for the purpose of obtaining money to carry on his recreational activities. Since the applicant has grown older, his impetuosity has been checked and he has not been in any further difficulty.

We feel that this applicant has learned his lesson and that he will not again be a menace to society.

Since he has been in no further trouble for over twelve years, the Board of Pardons believes he has shown he is completely rehabilitated, and under all the circumstances, we are recommending that the applicant be granted a pardon as prayed for.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Peter J. Gallas, B-9309, No. 8991, May Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Peter J. Gallas, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer of Allegheny County on June 8, 1945 to be computed from April 30, 1945, be commuted from 8 years to 5 years and 2 months, expiring on June 30, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-seven years of age and this was the first major conviction. He was sentenced to a

term of imprisonment in the Western State Penitentiary for from eight to sixteen years for robbery, being armed with an offensive weapon.

The Board of Trustees of the Western State Penitentiary have advised the Board of Pardons that this applicant has an excellent institutional record and has improved his occupational standing by acquiring a barber's license. If commutation is granted in this matter, the applicant will be released to a parole plan in the City of Chicago, State of Illinois, where he will reside with his mother.

The trial judge in this case is deceased and the present judge, Honorable Frank P. Patterson, has written the Board of Pardons and stated he has no knowledge of this matter and no recommendation. The district attorney of Allegheny County is not opposed to the granting of commutation.

Therefore, since this applicant has served over five years of his minimum sentence and has an excellent institutional record, and there is no opposition from the sentencing authorities of Allegheny County, the Board of Pardons is recommending that the sentence of the applicant be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Donald Irvin Graves, No. 35-45, No. A-340, May Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Donald Irvin Graves, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer and Quarter Sessions of Berks County on April 24, 1947, to be computed from April 3, 1947, be commuted from 4 years to 3 years and 3 months, expiring on July 3, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-eight years of age and this was his first major conviction. He was sentenced to a term of imprisonment in the Berks County Prison for from four to eight years and his accomplice received a sentence for from five to ten years in the Eastern State Penitentiary for commission of four robberies in which cash and pistols were taken. The total loot amounted to approximately \$500.00. Guns were used in the commission of these robberies.

At the present time, the applicant has served over three years of a minimum sentence of four years. The Warden of the Berks County Prison recommends that this applicant be granted commutation of sentence. The trial judge, Honorable Warren K. Hess, has written the Board of Pardons and stated he does not oppose if the Board, in its discretion, is of the opinion that the applicant is a good parole risk. The district attorney of Berks County has written the Board of Pardons and recommends that commutation be granted.

Since this applicant has such an excellent institutional record and has served over three-fourths of his minimum sentence, and the further fact that the sentencing author-

ities in Berks County recommend that he be given another chance, we are recommending that his sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Charles Goldfine, No. A-327, May Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Charles Goldfine, convicted of carrying concealed deadly weapons; aggravated assault and battery in the Court of Municipal of Philadelphia County, on November 25, 1935, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is forty-five years of age and this was his first conviction for any offense whatsoever. He was sentenced to a term of imprisonment in the Philadelphia County Prison for from six months to three years on November 25, 1935, on a charge of carrying concealed deadly weapons and aggravated assault and battery. Sentence reconsidered on November 25, 1935, and placed on probation for a period of one year.

This applicant admits he was carrying a blackjack and the victim had threatened the applicant and the applicant thought the victim had a gun. For this reason, he pulled the blackjack. However, the applicant did not use his backjab on the victim.

The Board of Parole, in its investigation, states that this applicant has an excellent institutional record and that he served almost two years in the United States Army. He was given an honorable discharge upon his release.

The applicant states in his behalf that he was carrying this blackjack because he was the owner of a theater and had most of his day's receipts in his pocket when the victim made his attack on the applicant. There is nothing in the record to contradict this statement.

The trial judge has not seen fit to advise his reaction in this matter, but has stated to the Board of Parole that he leaves the matter up to the discretion of the Board. The district attorney of Philadelphia County leaves the matter of pardon up to the Board.

Since this applicant has led an exemplary life for the past fifteen years and since he has an honorable discharge from the armed forces of the United States, the Board of Pardons feels he should be granted the pardon he now seeks.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of John Hershman, E-853, No. A-353, May Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of John Hershman, convicted of rape in the Court of Oyer and Terminer and Quarter Sessions of Carbon County on January 31, 1949, be commuted from two and one-half years to one year four months and twenty-six days, expiring on June 27, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-nine years of age and has no prior criminal record. This applicant and a group of five other accomplices took a young girl, aged sixteen years for a ride and thereafter committed the crime of rape upon her.

This applicant has an excellent institutional record and has a good reputation in the community in which he lived. He has no previous criminal record.

The trial judge, Honorable James C. McCready, stated that he leaves the matter of commutation up to the Board of Pardons. The district attorney of Carbon County states he has no objection to the granting of clemency.

Because this young man has no previous criminal record and a prior good reputation, and further, because this is no objection from the sentencing authorities from Carbon County, the Board of Pardons is recommending that commutation of sentence be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Charles E. Kuhn, D-1872, No. 6586, May Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed upon Charles E. Kuhn, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer of Philadelphia County on January 7, 1937, be commuted on Bill No. 865 December Sessions, 1936, from a maximum term of 20 years to a maximum term of 13 years, 5 months and 20 days, expiring on June 27, 1950; and on Bill No. 866 from a minimum term of 10 years to a minimum term of 1 day, expiring on June 28, 1950. (Applicant has been granted parole on Bill No. 865).

Our reasons for making this recommendation are as follows:

This applicant is thirty-four years of age and this is the first major conviction. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from twenty to forty years.

This applicant, without any accomplices, committed eleven armed robberies of taxicab drivers in a period of one month's time. A gun was used and the loot amounted

to \$150.00. Although sentenced to the Eastern State Penitentiary, he has been serving time in Philadelphia County Prison and he receives from that institution a report that his conduct there has been above reproach.

Since he has served over thirteen and one-half years of his minimum sentence; and since this was his first major conviction; and further, since the district attorney is not opposed to the granting of this commutation; the Board of Pardons is recommending to Your Excellency that this applicant's sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, Jr.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Anthony Licwinko, No. 3322, No. A-263, May Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Anthony Licwinko, convicted of burglary in the Court of Oyer and Terminer of Montgomery County on April 30, 1943, be commuted from 20 years to 7 years and 2 months, expiring on June 30, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-five years of age and he was sentenced to an indefinite term of imprisonment in the Pennsylvania Industrial School for Boys, at Huntingdon, for the commission of burglary. After having served approximately two years of his minimum sentence, he was released on parole. On or about October 25, 1945, this applicant disappeared and no further reports were made to his parole officer until March 1946, when he was picked up by a parole officer and lodged in the Montgomery County Prison. He was reparaoled on June 25, 1947. Subsequently, in September 1948, he again became a technical parole violator by failing to report and approximately a year later, or on August 7, 1949, he was re-arrested as a technical violator and returned to the Pennsylvania Industrial School, at White Hill.

The trial judge, Honorable Harold G. Knight, states that he is willing to give the applicant another chance, however, he doubts he will keep out of trouble. The district attorney of Montgomery County states he has no objection to commutation and leaves the matter up to the Board of Pardons.

The Board of Pardons does not recommend a pardon in this matter but does recommend that the xamium sentence of this applicant be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of William Marshall, No. A-302, May Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that William Marshall, convicted of burglary in the Court of Oyer and Terminer of Allegheny County, on May 12, 1943, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is twenty-five years of age and has no prior criminal record. He was sentenced on May 12, 1943, to an indeterminate term of imprisonment to the Pennsylvania Industrial School for boys, at White Hill, on a charge of burglary. After his release from that institution, he enlisted in the armed forces of the United States and became a combat infantryman in the European Theater.

The applicant has made a fine rehabilitation record since his release and is now a free-lance photographer, having learned this occupation in the United States Army. He has many recommendations in his file and the Board of Parole states that his present reputation is good.

The trial judge, Honorable Heber W. Dithrich, has written the Board of Pardons and recommends that a pardon be granted. The district attorney of Allegheny County is not opposed to the granting of a pardon.

Since this applicant was only eighteen years of age when this offense occurred, and since he has served honorably in the armed forces of the United States, and since there is no objection to the granting of a pardon from the sentencing authorities of Allegheny County, the Board of Pardons is recommending to Your Excellency that this applicant be granted a pardon.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of William Payne, No. 39433, No. 8172, May Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed upon William Payne, convicted of sodomy in the Court of Oyer and Terminer of Allegheny County on April 4, 1935, be commuted on Bill No. 8, April Sessions, 1935, from a minimum term of 5 years to a minimum term of 1 day, expiring on April 10, 1950.

Our reasons for making this recommendation are as follows:

The applicant is one of many prisoners whose release on parole has been affected by the opinion of the Supreme Court in the case of Commonwealth of Pennsylvania ex rel. Thomas Lynch v. Stanley P. Ashe, Warden of the Western State Penitentiary, 320 Pa. 341. In this opinion it was held that unless a prisoner, who was serving sentences imposed to run consecutively, was recommended and approved for parole at the expiration of the first

minimum sentence, he would be serving the maximum of that sentence, and if no recommendation for parole was made at the expiration of the second and subsequent minimum of sentences imposed to run consecutively, the prisoner would be serving the maximum of the second and subsequent sentences. In other words, a prisoner serving an indeterminate sentence is not automatically paroled at the expiration of the minimum term but is merely eligible for parole at that time, and if not favorably considered by the Prison Board at any time thereafter, the prisoner is required to serve the full sentence.

It was the custom for a long period of time for the officials of both the Eastern and Western State Penitentiaries to lump consecutive sentences and the Boards of Trustees would only make recommendations for release on parole at the expiration of the period of time equal to the total of the minimum sentences.

Since the Supreme Court held this procedure improper, the applicant and others, whose cases were not considered for parole at the expiration of their minimum sentences, through no fault of their own, will have to serve a much longer period of time than contemplated by the sentencing judge and the prison officials.

The failure of the Board of Trustees to make the necessary recommendations for parole at the expiration of the minimum sentences was an honest mistake, as most, if not all, sentencing judges shared the same view as the prison officials in deeming it to be unnecessary to make recommendations for parole at the expiration of the minimum of every consecutive sentence. Sentencing judges throughout the state have uniformly believed and taken into consideration in passing sentences the Prison Board practice that consecutive sentences would be lumped making a total minimum and a total maximum.

We believe that a great injustice would be done and that it would be most unfair to keep the applicant incarcerated for a longer period of time than recommended by the Board of Trustees of the institution in which the applicant is confined.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Lawrence Powers, No. 64053, No. 9845, May Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Lawrence Powers, convicted of burglary in the Court of Oyer and Terminer of Allegheny County on April 30, 1948 to be computed from April 26, 1948 be commuted from 3 years to 2 years and 2 months, expiring on June 26, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-nine years of age and this is the first conviction for any offense whatsoever. The applicant, with five accomplices, committed a series of five burglaries. This applicant received \$60.00 for his share of the loot.

The Warden of Allegheny County Workhouse has advised the Board of Pardons that he has an excellent institutional record, is diligent about his work and worthy of a trial by release on parole.

The trial judge, Honorable Henry X. O'Brien, has stated that he leaves the matter of commutation up to the discretion of the Board of Pardons. The district attorney of Allegheny County states his office is not opposed to the granting of commutation as prayed for.

Since this applicant has served over two years of his minimum sentence of three years on a first offense basis, and because he has an excellent institutional record, the Board of Pardons recommends that his sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Clara Grace Prophet, C-7165, No. 6235, May Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the life sentence of Clara Grace Prophet, convicted of murder in the first degree in the Court of Oyer and Terminer of Philadelphia County on June 13, 1931, be commuted from life imprisonment to 19 years and 10 days, expiring on June 23, 1950.

Our reasons for making this recommendation are as follows:

This applicant is fifty-one years of age and this is her first conviction for any offense whatsoever. She was sentenced on June 13, 1931, to a term of life imprisonment in the Eastern State Penitentiary for the murder of her husband. Her brother, who was alleged to have been her accomplice, was given life imprisonment but was freed in 1941 following commutation of sentence in which the applicant alleged that her brother did not participate in the killing of her husband.

Prior to the killing of her husband, the applicant bore an excellent reputation in the neighborhood in which she lived and character witnesses stated she was a devoted mother, an ardent church worker and industrious housekeeper. It was alleged at the time of trial that the motive of killing was abnormal sexual practices of her husband to which the applicant objected. At this time the applicant has served over nineteen years of a life sentence.

The Board of Trustees of the Eastern State Penitentiary have stated that this applicant has an excellent institutional record. The trial judge, Honorable Frank Smith, has advised the Board of Pardons he is not opposed to the granting of commutation at this time. The district attorney of Philadelphia County has stated that he leaves the matter of commutation up to the Board of Pardons.

The Board of Pardons feels that this applicant has been severely punished and that she has now served almost two decades for the killing of her husband.

The Board also feels that there is merit to her application at this time in view of the length of time she has served prior to her sentence and the fact that the sentencing authorities have no objection to the granting of commutation as prayed for. We are, therefore, recommending for the above reasons that the sentence of the applicant be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.

GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Anthony Rodia, No. A-296, May Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Anthony Rodia, convicted of using slugs in telephone box in the Court of Quarter Sessions of Philadelphia County, on June 8, 1934, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is thirty-five years of age and he has no prior criminal record. He was arrested for making a telephone call on a public telephone and using a slug to pay for the call. This occurred sixteen years ago. Since that time, the applicant has served in the armed forces of the United States and has an excellent record there. He received an honorable discharge and is now employed at the Philadelphia Navy Yard.

This applicant enjoys a good reputation in the community in which he lives, and therefore, asks that a pardon be granted for this slight offense.

This applicant has remained free from difficulties for a period of approximately sixteen years, he has a good reputation where he lives, is a good worker, and for the sake of himself and his wife the Board of Pardons recommends that a pardon be granted because of his past good conduct over the last sixteen years.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,

WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Michael F. Romano, B-9520, No. 9004, May Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of imprisonment imposed upon Michael F. Romano, convicted of robbery, being armed with an offensive weapon, larceny in the Court of Oyer and Terminer of Bever County on February 1, 1946, to be computed from January 10, 1946; and of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer of Allegheny County on November 19, 1946, be commuted on Bill No. 10 March Sessions, 1946 (Beaver County), from a maximum term of 10 years to a maximum term of 4 years, 5 months, and 18 days, expiring on June 28, 1950; and

on Bill No. 88 March Sessions, 1946 (Allegheny County and to run concurrent and to be computed from November 19, 1946), from a minimum term of 5 years to a minimum term of 3 years, 7 months, and 10, expiring on June 29, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-five years of age and this is the first major conviction. He and two accomplices stole an automobile and then committed a series of robberies. He served in the armed forces of the United States during the war and was given an honorable discharge. These offenses occurred after the applicant was released from the service.

He has an excellent institutional record in the Western State Penitentiary for the past three years. He has now served almost four years and six months of his minimum sentence of five years.

An accomplice who was sentenced to a term of imprisonment in the Western State Penitentiary for from four to eight years already has had his sentence commuted. The other accomplice, who had a prior criminal record is still incarcerated.

The trial judge, Honorable Robert E. McCreary of Beaver County, has written the Board of Pardons and stated he has no objection to the granting of commutation. The district attorney of Beaver County leaves the matter of commutation is up to the Board of Pardons, while the district attorney of Allegheny County is opposed to granting of commutation.

Because of the fact that this applicant has only six months more of his minimum sentence to serve, and since he has an excellent institutional record, and the Beaver County authorities are not opposed, although the Allegheny County District Attorney's office is opposed, the Board of Pardons feels that this applicant merits a trial on parole, and we are, therefore, recommending that the sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Walter Skoski, B-7273, No. 3110, May Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Walter Skoski, convicted of assault with intent to commit robbery, being armed with an offensive weapon in the Court of Oyer and Terminer of Allegheny County on June 19, 1940, to be computed from July 6, 1943, be commuted from 10 years to 7 years, expiring on July 6, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-five years of age and this is not the first time he has been convicted of any offense. The fact is, that this applicant has twice before been granted parole which he violated upon his release. In the light of the present just statement, it may well be stated then, "why is the Board of Pardons recommending this commutation?" The reason that moves us to recommend is that Stanley P. Ashe, Warden of the Western State

Penitentiary, who has had this man under custody for almost ten years, has stated to the Board that he has an excellent institutional record and that he believes that the institution has done all for this applicant that it possibly can and that he also strongly recommends that we grant him commutation at this time. The Warden has gone out of his way to help the applicant to secure and set up his parole plans. The Board of Parole has approved his plans of rehabilitation.

The trial judge, Honorable William H. McNaugher, states he does not believe this applicant should be granted a commutation except under special conditions, and that is his usual recommendation, therefore, he is opposed. The district attorney of Allegheny County has advised the Board of Pardons that because of the applicant's long period of incarceration and his excellent record in the institution that they are not opposed to the granting of commutation at this time.

Because of Warden Stanley P. Ashe's personal interest and his belief in this applicant, and our faith and confidence in Warden Ashe's intentions, plus the long period of time the applicant has served, leads us to recommend to Your Excellency that the sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Mary Stochen, No. 4316-B, No. A-29, May Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Mary Stochen, convicted of abortion in the Court of Quarter Sessions of Luzerne County on February 24, 1949 be commuted from 2½ years to 1 year and 4 months, expiring on June 24, 1950.

Our reasons for making this recommendation are as follows:

This applicant is fifty-eight years of age and she is now serving a term of imprisonment in the Luzerne County Prison for from two and one-half to five years on a charge of abortion. At the present time she has served one year and three months of the two and one-half minimum sentence. She has asked the Board of Pardons to grant the commutation on the basis of her physical condition.

The trial judge, Honorable William A. Valentine, caused an examination to be made of this applicant and Dr. H. Gordon Guyler and Dr. Robert H. Stroh, made an examination of this inmate in the Luzerne County Prison. Their opinion was that this applicant was too ill to remain the Luzerne County Prison because of the following findings:

1. Advanced hypertension with a circulatory insufficiency as indicated by the edema of both feet and ankles.

2. Cardiac or heart deficiency as indicated by a valvular lesion with radiating pain to the left shoulder and arm. These symptoms are suggestive of Angina Pectoris.

3. There is an underlying syndrome of soreness and pain in the stomach area with occasional attacks of vomiting. This fact in combination with her history of a gall bladder attack three years ago, which required mor-

phine for sedation would indicate an underlying condition of gall stones or cholelithiasis.

The trial judge, Honorable William A. Valentine, receiving the above recommendations from the examining physicians, wrote the Board of Pardons and stated that in his opinion clemency should be extended this applicant for the following reasons:

1. That the defendant has now been imprisoned for over one year.

2. That the medical examiners have reported that further confinement will have an adverse affect on her health.

3. If released, she plans to live with her daughter in Philadelphia.

The district attorney of Luzerne County stated he recommends that commutation in this matter be granted for the same reasons that Judge Valentine does.

Under all the above circumstances, the Board of Pardons is of the opinion that further confinement will adversely affect the health of this applicant and for the reasons set forth above, we recommend that her sentence be commuted.

Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of William H. Archer, D-170, No. 5196, June Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed upon William H. Archer, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on December 4, 1934, be commuted on Bill No. 1229 December Sessions, 1934, from a maximum term of 20 years to a maximum term of 15 years and 8 months, expiring on August 4, 1950; and on Bill No. 1230 from a maximum term of 20 years to a maximum term of 1 day, expiring on August 5, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-nine years of age and this was his first major conviction. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from twenty to forty years on a charge of robbery, being armed with an offensive weapon. After having served approximately eight and one-half years of his minimum sentence, his sentence was commuted and he was released on parole July 16, 1943. He has been on parole approximately seven years.

The Board of Parole state this applicant has an excellent record on parole and that he has given evidence of rehabilitation. The Board is of the opinion that he need not be supervised any longer. The trial judge, Honorable Harry S. McDevitt, is deceased, and therefore, we have no recommendation from him. The district attorney of Philadelphia County has no objection to the granting of commutation in this case.

Under all the circumstances, we feel that this applicant has been completely rehabilitated and will not again commit any offenses against society by his past record over the last seven years. Since the district attorney of

Philadelphia County has no objection to the granting of a commutation of his maximum sentence, we are recommending that the sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Andrew Leonard Bannon, No. A-373, June Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Andrew Leonard Bannon, convicted of statutory rape in the Court of Municipal-Juvenile Division of Philadelphia County, on September 20, 1937, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is twenty-nine years of age and has no prior criminal record. He was placed on probation for a period of one year for statutory rape when this applicant was sixteen years of age. The girls involved were fifteen years of age at the time and although the girls had agreed to sexual relations with the applicant and his accomplice, they were apprehended before anything took place. Following the conviction, the applicant was placed on probation. He successfully completed his probation period and when war broke out, he enlisted in the United States Navy where he served in the submarine corps for three and one-half years. He was granted an honorable discharge from the Navy.

He has been in no further trouble for approximately thirteen years. The trial judge, Honorable Harry S. McDevitt, is since deceased and the present judge did not given any opinion in this matter. The district attorney of Philadelphia County states he is not opposed to the granting of a pardon.

In view of this applicant's good record over the past thirteen years, his excellent war record and the fact the district attorney of Philadelphia County is not opposed; the Board of Pardons is recommending that a pardon be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Nicholas Bell, No. A-367, June Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Nicholas Bell, convicted of larceny in the Court of Quarter Sessions of Schuylkill County on February 13, 1950 be commuted from 2 years to 6 months expiring on August 13, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-eight years of age and has no prior criminal record. He and two accomplices stole scrap and sold it and received approximately \$140.00 which they divided.

This applicant has an excellent institutional record in the Schuylkill County Prison and the trial judge, Honorable C. A. Staudenmeier, is not opposed to commutation at this time. The district attorney of Schuylkill County advised that he is opposed to any commutation until at least half of the minimum sentence has been served.

If the applicant is released, he will be in a position to aid his wife and children who are in dire need. He has been an excellent prisoner while in prison.

Since this is his first conviction, we are recommending that his sentence be commuted as of August 13, 1950.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Andrew J. Beruck, No. A-386, June Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Andrew J. Beruck, convicted of larceny in the Court of Quarter Sessions of Schuylkill County on March 6, 1950 be commuted from 2½ years to 6 months expiring on September 6, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-five years of age and has no prior criminal record. He and two accomplices stole scrap and sold it and received approximately \$140.00 which they divided.

This applicant has an excellent institutional record in the Schuylkill County Prison and the trial judge, Honorable C. A. Staudenmeier, is not opposed to commutation at this time. The district attorney of Schuylkill County advised that he is opposed to any commutation until at least half of the minimum sentence has been served.

If the applicant is released, he will be in a position to aid his wife and children who are in dire need. He has been an excellent prisoner while in prison.

Since this is his first conviction, we are recommending that his sentence be commuted as of September 6, 1950.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.

WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Charles Floyd Brown, D-8178, No. 8954, June Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Charles Floyd Brown, convicted of robbery, burglary, in the Court of Oyer and Terminer and Quarter Session of Dauphin County on March 19, 1945 to be computed from February 16, 1945, be commuted from 8 year to 5 years and 6 months, expiring on August 16, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-three years of age and he had no prior criminal record. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from eight to thirty-four year on charges of robbery and burglary by the late Honorable William M. Hargest. The facts are that this applicant and accomplices broke into Cotterel's on Market Street in Harrisburg and Loew's Regent Theatre, following which they took an automobile, drove to York where they abandoned it. The applicant was only seventeen years of age when these offenses occurred and he was under the influence and direction of older accomplices who had a prior criminal record. This applicant received a severe sentence for not having been in any trouble before.

The trial judge is deceased and the present judge makes no recommendation in this matter. The district attorney of Dauphin County leaves the matter of commutation up to the Board of Pardons.

Since this applicant has an excellent institutional record and there is no objection to the granting of a commutation as prayed for by the authorities in Dauphin County, the Board of Pardons recommends that his sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Margie Butler, No. 4021, No. A-323, June Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Margie Butler, convicted of murder in the second degree in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on October 26, 1942 to be computed from August 21, 1942, be commuted from 10 years to 8 years expiring on August 21, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-seven years of age and this is her first major conviction. She was sentenced to a term of imprisonment in the Philadelphia County Prison for from ten to twenty years on a charge of murder in the second degree. This applicant was in such a state of intoxication that after the crime was committed, she walked into the police station and turned over the gun stating she did not remember what happened. It was stated to the Board that this applicant was so intoxicated at the time she gave herself up that the police were unable to question her for several hours.

At the present time, the applicant is an inmate of the Philadelphia County Prison and has an excellent institutional record there. The trial judge, Honorable George G. Parry, is unable to give a recommendation, however, the Honorable Joseph L. Kun, the president judge of Judge Parry's court, has written and stated he has no comment to make. The district attorney of Philadelphia County leaves the matter of commutation up to the Board of Pardons.

This applicant submits an excellent parole plan and it is believed that she has become completely rehabilitated and will not return to dissolute ways of life if she is released on parole.

Since this applicant has now served almost eight years of her minimum sentence, and this is her first major conviction; the Board of Pardons is of the opinion that this applicant has been sufficiently punished and since she has a good parole plan, the Board is recommending to the Governor that the balance of her minimum sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Michael Conco, C-9284, No. 3239, June Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Michael Conco, convicted of robbery in the Court of Oyer and Terminer of Lackawanna County on October 14, 1933, be commuted from 7 years to 5 years and 18 days, expiring on August 20, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-nine years of age. In 1933 he was arrested and sentenced to a term of imprisonment in the Eastern State Penitentiary for from seven to fourteen years for the crime of robbery. After having served approximately four months in the Eastern State Penitentiary he was transferred to the Lackawanna County Prison. There followed a series of three applications to the Board of Pardons for commutation of his minimum sentence. When he was advised his application for commutation in April 1938 had been refused, he walked away from the Lackawanna County Prison and then fled to Baltimore, Maryland. He established himself in the produce business in Baltimore and for the next twelve years lived a life of a respectable citizen of that community.

In March of this year, he felt it was necessary for him to clear his record and so having set his affairs in order he gave himself up and was returned to Pennsylvania to serve the balance of his sentence of fourteen years.

If released, he plans to go to live in Baltimore where his business is now located. Many hundreds of petitions were filed by the attorney for the applicant from people in Baltimore asking for his release.

The trial judge, Honorable Will Leach, who is no longer a member of the bench, and the president judge, Honorable Thomas Hoban, have not given an opinion in this matter. The district attorney of Lackawanna County has stated to us that he is not opposed to the granting of commutation in this matter.

The Board of Pardons feels that this applicant has some merit in his petition by reason of the fact that for a period of twelve years in Baltimore he did not become involved with the law in any manner whatsoever. The fact that he has not become involved in any offense since 1935, a period of more than seventeen years, shows that this man must have lived many deaths to have lived for the past twelve years with the threat of prison hanging over him if he made one misstep. It speaks well for him that not one mistake was made. But for the fact that he wishes to clear up his record, he would still be free and running his business in Baltimore. That he has many friends is not denied as the petitions will show.

The Board feels that this further fact should be taken into consideration, that in the original crime when he held up a speakeasy, the applicant was the only one who served time for the offense. One accomplice died before he could be tried, and for some unknown reason, the other accomplice who was equally guilty with the applicant was never brought to trial.

Under all of these circumstances, we feel that this applicant has been severely punished and that he has shown himself to be truly rehabilitated and will never again commit any offense whatsoever. We are, therefore, recommending that his minimum sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Patsy Corso, No. 54092, No. 6531, June Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of imprisonment imposed upon Patsy Corso, convicted of burglary in the Court of Oyer and Terminer of Allegheny County on June 9, 1941; and of burglary in the Court of Oyer and Terminer of Butler County on June 21, 1944, be commuted from a maximum term of imprisonment imposed at March Sessions, 1941 (Allegheny County) from a maximum term of 16 years to a maximum term of 9 years and 2 months, expiring on August 9, 1950; and on sentence imposed at March 1942 Sessions (Butler County and to run concurrent) for a maximum term of 8 years to a maximum term of 6 years, 1 month and 21 days, expiring on August 10, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-five years of age and this is the first major conviction. He was sentenced in Allegheny County to a term of imprisonment in the Allegheny County Workhouse for from five to fifteen years and in Butler County to a term of imprisonment for from two to eight years. The sentence in Butler County was to run concurrently with sentence imposed in Allegheny County. Since he was sentenced in 1941, this sentence has expired and there is but two years left on his maximum sentence. The applicant had his sentence commuted in 1946 after he had served four and one-half years of his minimum sentence.

Following the applicant's release from the Allegheny County Workhouse he became ill and his ailment was diagnosed was anemia. He then secured a position with his brother-in-law as a truck driver for a beverage company. Because of the applicant's physical condition, he is unable to engage in heavy physical labor, however, he feels he can carry on his own beverage business and desires to secure a license as a beer distributor. However, he does not desire to do this while he is on parole.

The Board of Parole makes no comment about his release at this time. The trial judge, Honorable Heber Dithrich, a member of the Superior Court, has written the Board of Pardons and states he leaves the matter of commutation up to the Board. The district attorney of Allegheny County leaves the matter of commutation up to the Board.

Under all the circumstances, and since this applicant has been on parole over four and one-half years, the Board of Pardons feel he has been sufficiently punished and that he has shown excellent adjustment in society. We do not feel he should be required to suffer any longer for this one offense for the past four and one-half years that he can conduct himself properly, we are recommending that commutation of his maximum sentence be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of James Creta, C-8397, No. 5644, June Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of imprisonment imposed upon James Creta, convicted of rape, statutory rape, robbery in the Court of Quarter Sessions of Schuylkill County on November 4, 1932, be commuted on Bill No. 1569 November Session 1932, from a maximum term of 10 years to a maximum term of 7 years and 9 months expiring on August 4, 1950; on Bill No. 1569-A from a maximum term of 10 years to a maximum term of 1 day, expiring on August 5, 1950; on Bill No. 1571 from a maximum term of 10 years to a maximum term of 1 day, expiring on August 6, 1950; on Bill No. 1571 from a maximum term of 10 years to a maximum term of 1 day, expiring on August 7, 1950; on Bill No. 1571-A from a minimum term of 3 years to a minimum term of 1 day, expiring on August 8, 1950; on Bill No. 1572 from a minimum term of 3 years to a minimum term of 1 day, expiring on August 9, 1950; on Bill No. 1572-A from

a minimum term of 3 years to a minimum term of 1 day, expiring on August 10, 1950; on Bill No. 1573 from a minimum term of 1½ years to a minimum term of 1 day, expiring on August 11, 1950; and on Bill No. 1574 from a minimum term of 1½ years to a minimum term of 1 day, expiring on August 12, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-six years of age and he had no prior conviction. In 1932 he was sentenced to a term of imprisonment in the Eastern State Penitentiary for from twenty-seven to eighty-six years on charges of rape, statutory rape and robbery. He was the accomplice of John Beltz and Leo Leahy both of whom have had their sentence commuted by the Board of Pardons and by Your Excellency, the Governor.

This young man was nineteen years of age when the offenses took place. He has now served over one-half of his entire life behind walls of the Eastern State Penitentiary. Before he went to prison, however, he was married and of the other two accomplices, this young man is the only one whose wife has stood by him during his imprisonment. He has learned a trade in prison and has religiously sent money to the wife to aid her and their child. He has mastered the trade of barber and if released will operate a barber shop either in the vicinity of Shenandoah or with his brothers in New York State where he will become a usefull member of society. This was a terrible crime but the applicant has paid a terrible price.

The present judge, Honorable Cyrus M. Palmer, has written the Board and states he favors commutation of this applicant's sentence. The district attorney of Schuylkill has stated to the Board that he favors commutation.

Since the applicant has an excellent institutional record and is a model prisoner and since the authorities of Schuylkill County favor commutation, the Board of Pardons feels he has been sufficiently punished for this offense and that commutation should be granted as prayed for.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Everett H. Day, D-2078, No. 7638, June Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of imprisonment imposed upon Everett H. Day, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on March 25, 1937, be commuted on Bill No. 918 March Sessions, 1937, from a maximum term of 15 years to a maximum term of 13 years and 4 months, expiring on July 25, 1950; on Bill No. 919 from a maximum term of 15 years to a maximum term of 1 day, expiring on July 26, 1950; and on Bill No. 920 from a minimum term of 5 years to a minimum term of 1 day, expiring on July 27, 1950. (Applicant has been granted parole on Bills Nos. 918 and 919).

Our reasons for making this recommendation are as follows:

This applicant is thirty-three years of age and at the present time has served over thirteen years of a minimum sentence of fifteen years. He has served an extremely long portion of his sentence but this is because he is a parole violator by the commission of this offense. All five accomplices with whom this applicant committed the offenses have had their sentences commuted or served their minimum sentences. This applicant has served over three years and three months longer than any other accomplice for this crime. We believe that to be sufficient for the parole violation which he committed by these separate offenses.

The applicant was sentenced by the late Honorable Harry S. McDevitt, and the present judge, Honorable Joseph L. Kun, has no comment to make. The district attorney of Philadelphia County has stated to the Board of Pardons that he is not opposed to the granting of commutation in this matter.

Because of the fact that this applicant has served a very long period of time, and the fact that all of his accomplices have had their sentences commuted or served their minimum sentences, and the further fact that this applicant has had a good institutional record for the past thirteen years; the Board of Pardons is recommending that his sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of John Dougherty, No. 65587, No. A-103, June Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the flat sentence of John Dougherty, convicted of assault and battery in the Court of Quarter Sessions of Erie County on April 25, 1949 be commuted from 3 years to 1 year and 4 months, expiring on August 25, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-two years of age and this is his first major conviction. He and two accomplices, after drinking a great deal, returned to the City of Erie where they became boisterous and pugnacious. Their ramblings took them around the City of Erie where they deliberately started fights with several people, and it was the results of these fights that the applicant and his accomplices were sentenced to this long term of imprisonment. The applicant received a three year sentence in the Allegheny County Workhouse.

We feel that this applicant received a severe sentence in this matter and that it is out of proportion with other cases in which similar events took place.

Both the trial judge and the district attorney of Erie County are opposed, but at this time, the applicant has served almost one-half of his minimum sentence.

Under all the circumstances, the Board of Pardons believes that this applicant has been severely punished, and therefore, recommend that his minimum sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.

GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of George Faber, B-3415, No. 5754, June Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the life sentence of George Faber, convicted of being a habitual criminal in the Court of Oyer and Terminer of Erie County on October 11, 1932, be commuted from life imprisonment to 17 years and 10 months, expiring on August 11, 1950.

Our reasons for making this recommendation are as follows:

This applicant is seventy-four years of age and he is the only person who was ever convicted on the Fourth Offender Law of the Commonwealth of Pennsylvania and sentenced under that law to life imprisonment. It is conceded the applicant has a bad prior record consisting of nineteen arrests, twelve convictions and one parole violation. The offense for which he is serving a life sentence is for the breaking and entering a store where rugs were stolen. At this time the applicant has served over twenty years of this life sentence. He has only made application to the Board of Pardons three times in that period, the last being in February 1945.

The trial judge, Honorable William E. Hirt, is now on the Superior Court of Pennsylvania, and has not given his opinion in this matter. The Honorable Elmer L. Evans, President Judge, has written the Board of Pardons and stated he has no objection to the granting of commutation.

In this man's age and his physical condition, it is doubted if he would ever be able to again offend against society. However, this applicant is beginning to show signs of senility and is eager not to die in prison.

The Board of Pardons feels he is no longer a deterrent to society, and because of his age, his excellent institutional record, and since the district attorney and the president judge are not opposed to the granting of commutation; we are, therefore, recommending that commutation be granted as prayed for.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re applicant of Edward G. Fadule, A-366, June Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due

public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Edward G. Fadule, convicted of larceny in the Court of Quarter Sessions of Schuylkill County on February 13, 1950 be commuted from 2 years to 6 months, expiring on August 13, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-eight years of age and has no prior criminal record. He and two accomplices stole scrap and sold it and received approximately \$140.00 which they divided.

This applicant has an excellent institutional record in the Schuylkill County Prison and the trial judge, Honorable C. A. Staudenmeier, is not opposed to commutation at this time. The district attorney of Schuylkill County advised that he is opposed to any commutation until at least half of the minimum sentence has been served.

If the applicant is released, he will be in a position to aid his wife and children who are in dire need. He has been an excellent prisoner while in prison.

Since this is his first conviction, we are recommending that his sentence be commuted as of August 13, 1950.

Respectfully submitted,

T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Albert Few, D-6063, No. 6934, June Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Albert Few, convicted of burglary in the Court of Oyer and Terminer and Quarter Sessions of Delaware County on June 19, 1939, to be computed from October 22, 1941, be commuted from 15 years to 8 years and 10 months, expiring on August 22, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-two years of age and this was his first major conviction. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from fifteen to thirty years for a series of burglaries which involved private dwellings where the applicant would take case and jewelry. It was not shown that the applicant was involved in more than one or two of the alleged housebreakings. At the present time he has served almost nine years of his minimum sentence. During his stay in the Eastern State Penitentiary he is described by the Board of Trustees as a proficient worker and has demonstrated habits of industry. He has a disciplinary record that is unblemished and staff members have commented about the outstanding rehabilitative effort which this prisoner has put forth.

This man was sentenced by Honorable A. D. MacDade and the present judge has no opinion to express in this matter. The district attorney of Delaware County leaves the matter of commutation up to the Board of Pardons.

Because of this applicant's outstanding institutional record and the fact that he has served almost nine years of his minimum sentence, the Board of Pardons is recommending that his sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Robert J. Hewitt,, D-5718, No. 7069, June Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Robert J. Hewitt, convicted of forgery, fraudulent conversion in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County, on January 15, 1941, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is fifty-six years of age and was sentenced to a term of imprisonment in the Eastern State Penitentiary for from five to ten years on charges of forgery and fraudulent conversion. He served his minimum sentence of five years and since that has been on parole for a period of approximately four and one-half years. This applicant is now employed with the Philadelphia Title Insurance Company and they wish to advance him in the company but do not feel they are justified in so doing while he is still on parole.

This applicant has made an honest effort to make restitution for the amount of money involved which was approximately \$40,000.00.

The trial judge, Honorable Joseph Sloane, has stated to the Board that he has no objection to the granting of a pardon. The district attorney of Philadelphia County has stated to the Board that he has no objection to the granting of a pardon.

This applicant has shown he has rehabilitated himself and rather than prevent him from furthering the rehabilitation, we are, with the approval of the trial judge and district attorney, recommending that this applicant be granted a pardon.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of John Lawrence Honchell, 60979, No. 6696, June Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum

sentence of John Lawrence Honchell, convicted of blackmail by accusation in the Court of Quarter Sessions of Allegheny County on October 9, 1942 be commuted from 8 years to 7 years, expiring on August 31, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-four years of age and he was sentenced to a term of imprisonment in the Allegheny County Workhouse for from four to eight years on a charge of blackmail by accusation. After having served his minimum sentence he was released on parole August 31, 1948. The applicant is now living in the State of Indiana and at the present time has established a used car business in the vicinity of the City of Elkhart. Since he has made a new start in life and gone to a different state in an attempt to rehabilitate himself, we feel him to be deserving of serious consideration.

The parole officer in the State of Indiana states: . . . "It is the opinion of our office that the Board of Pardons would do well to look favorably upon this applicant's petition for commutation of his maximum sentence." They also believe that the granting of this petition will give the applicant a greater incentive to stay on the straight and narrow path.

Since he has been in no further trouble for a period of approximately two years and since his maximum sentence will expire in August 1951, the Board of Pardons recommends that the maximum sentence be commuted at this time.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Charles P. Kelly, No. A-360, June Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Charles P. Kelly, convicted of lottery in the Court of Quarter Sessions of Philadelphia County, on February 5, 1941, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is thirty years of age and except for the offense for which he seeks a pardon has never been convicted of any offense whatsoever. In 1941, over nine years ago, this applicant had received numbers slip from a young acquaintance and also received money for the play. Before he had time to turn over the slips, he was arrested by the police.

The Board of Parole has investigated this applicant's character and find it does not contain any blemishes.

During this time, the applicant served in the armed forces of the United States for a period of three and one-half years. He is now up for an appointment as police officer but cannot be appointed until he has his record cleared.

Since this applicant has never before or since been involved with the law for any offense and this offense occurred approximately nine years ago, the Board of Pardons is recommending to Your Excellency that a pardon be granted because of his army record and the fact he has been in no further trouble.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Angelo J. Lado, D-438, No. 2427, June Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Angelo J. Lado, convicted of robbery, being armed with an offensive weapon in the Court of Quarter Sessions of Philadelphia County, on March 20, 1935, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is thirty-six years of age and this is the only offense for which he has ever been convicted. He has been in no further trouble since the time he was released on parole, approximately fourteen years ago. This applicant, together with an accomplice, while under the influence of intoxicating liquor, held up a victim whom they were friendup with and took one (\$1.00) dollar from him for the purpose of continuing their drinking. Because of the fact that a gun was used, we have no doubt that this was the cause of the applicant's sentence. He served one year and three months of his minimum sentence and was released on parole.

Following his release on parole, the applicant served in the armed forces of the United States for a period of approximately four years, much of it in combat.

The trial judge, Honorable Edwin O. Lewis, leaves the matter of pardon up to the Board of Pardons. The district attorney of Philadelphia County states he is not opposed as he believes the likelihood of returning to criminal ways of life very remote.

Because of the applicant's service in the armed forces of the United States and the fact he has been in no further trouble for upwards of fourteen years, the Board of Pardons believes he has demonstrated he is completely rehabilitated and for that reason we are recommending to Your Excellency that a pardon be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Abram Lewis, No. A-225, June Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due

public notice, in open session, the undersigned members of the Board of Pardons recommend that Abram Lewis, convicted of pool selling, bookmaking and conspiracy in the Court of Quarter Sessions of Philadelphia County, on November 20, 1939, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is forty years of age and this is the first conviction for any offense whatsoever. He was sentenced to a term of imprisonment in the Philadelphia County Prison for six months on November 20, 1939, on charges of pool selling, bookmaking and conspiracy. There is no doubt about the fact that the applicant was guilty of this offense. However, for the past eleven years he has been in no difficulty whatsoever. He is now married and the father of two children.

He desires this pardon to clear his record because of his children and the effect it may have upon them in their later life. He has a good record with his employer, having been with them approximately five years and earning approximately \$100.00 a week. He is believed to be honest and trustworthy by his employer.

The trial judge, Honorable Frank Smith, is not opposed to the granting of a pardon. The district attorney of Philadelphia County is not opposed to the granting of a pardon.

Since this applicant has been in no further trouble for a period of approximately eleven years and is presently engaged in raising a family, we believe this applicant will not again offend against society.

Therefore, the Board of Pardons recommends that a pardon be granted this applicant.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of George Marzolf, B-5439, No. 5139, June Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed upon George Marzolf, convicted of robbery in the Court of Oyer and Terminer of Allegheny County on March 22, 1937, on Bill No. 12 February Sessions, 1937, from a maximum term of 10 years to a maximum term of 1 year and 5 months, expiring on August 22, 1950; on Bill No. 13 from a maximum term of 10 years to a maximum term of 1 day, expiring on August 23, 1950; and on Bill No. 14 from a minimum term of 3 years to a minimum term of 1 day, expiring on August 24, 1950. (Applicant has been granted parole on Bills Nos. 8, 9, 10 and 11).

Our reasons for making this recommendation are as follows:

This applicant is fifty-two years of age and this is not the first conviction. He has been arrested on prior occasions and has four times been convicted of other offenses. He was arraigned on eight charges of robbery and pled guilty. As a result of this plea of guilty, he was sentenced to a term of imprisonment in the Western State Penitentiary for from twenty-one to seventy years. At this time the applicant has served over thirteen years and three months of this minimum sentence.

The Board of Trustees of the Western State Penitentiary have advised the Board of Pardons that they would recommend because of the applicant's outstanding institutional record and his excellent parole plan. The trial judge, Honorable Joseph A. Richardson, is deceased and the present judge, Honorable Joseph A. Richardson, is deceased and the present judge, Honorable Frank T. Patterson, states he has no comment to make at this time. The district attorney of Allegheny County is not opposed to the granting of commutation.

Because of the fact that this applicant has served such a long portion of his minimum sentence and has had during this time an excellent institutional record and the fact the district attorney of Allegheny County is not opposed to the granting of commutation; the Board of Pardons feels this applicant has been severely and sufficiently punished for these offenses. We are therefore, recommending to Your Excellency that his minimum sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Paul Matthews, D-8184, No. 8775, June Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Paul Matthews, convicted of robbery, conspiracy, etc., in the Court of Quarter Sessions of Delaware County on March 20, 1945 to be computed from December 23, 1944 be commuted from 7½ years to 5 years and 8 months, expiring on August 23, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-six years of age and this was his first major conviction. He was arrested on charges of robbery although there is nothing to show that this applicant was a part of the gang which committed the vigorously asserted that the applicant had nothing to do with the robbery and was not connected in the offense, although he was guilty of coming into the State of Pennsylvania in a stolen car.

The trial judge was Honorable Albert D. MacDade and since he is no longer a member of the court, he present judge has no opinion to offer in this matter. The district attorney of Delaware County, however, states he is opposed to the granting of commutation in this matter.

The Board of Pardons feels that this applicant has been severely punished for this offense which was his first major conviction, and since he has now served more than five and one-half years of his minimum sentence and will still have to serve a term in Maryland in regards to the stolen automobile; we feel he has been sufficiently punished and that his sentence should be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.

T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of William Curtis McCoy, B-1886, No. 6242, June Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the life sentence of William Curtis McCoy, convicted of murder in the first degree in the Court of Oyer and Terminer of Washington County on February 21, 1930 be commuted from life imprisonment to 20 years and 6 months, expiring on August 21, 1950.

Our reasons for making this recommendation are as follows:

This applicant is fifty-two years of age and this was his first major conviction. He was sentenced to a term of imprisonment for life in the Western State Penitentiary on a charge of murder in the first degree. This was a crime of passion rather than one growing out of commission of a robbery or other violent felony. It was the usual lovers' quarrel that ended up in a shooting. Following the killing, the applicant is very contrite.

The applicant's representative stated to us that the district attorney of Washington County, at the time of the trial of this case, was willing to accept the plea of second degree murder, by the applicant's belief in his rights, refused to plead guilty. Consequently he was convicted of murder of the first degree. He has an excellent institution record.

The president judge, Honorable Carl E. Gibson, leaves the matter of commutation up to the Board of Pardons. The district attorney of Washington County does not make any recommendation in this matter.

Therefore, since the applicant has served over twenty years, has an excellent institutional record, and now has reached the age of fifty-two years, we believe he has been severely punished and will not again offend against society; we are recommending that the applicant's sentence be commuted.

GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Samuel W. Mims, D-9439, No. 9265, June Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Samuel W. Mims, convicted of robbery in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on January 31, 1947 to be com-

puted from January 24, 1937, be commuted from 5 years to 3 years and 11 months, expiring on December 4, 1950. Our reasons for making this recommendation are as follows:

This applicant is thirty-six years of age and this is his first major conviction. He was sentenced for the snatching of purses from several women. This occurred approximately during a period of two weeks while the applicant was engaged in fairly heavy drinking. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from five to ten years and has now served over three and one-half years of his minimum sentence of five years.

The Board of Trustees of the Eastern State Penitentiary state the applicant has an excellent institutional record. The trial judge, Honorable Harry S. McDevitt, is deceased, and therefore, we have no recommendation from him. The present judge, Honorable Joseph L. Kun, has advised the Board that he has no knowledge of the case and leaves the matter up to the Board. The district attorney of Philadelphia County is not opposed to the granting of commutation here sought.

It is felt that this applicant would not have been involved in this offense if he had not been under the influence of intoxicating liquor. This applicant has an excellent parole plan and it is believed he has now learned his lesson and if released will show some stability in life.

The Board of Pardons believes that this applicant has been sufficiently punished and under all the circumstances, we are, therefore, recommending that his sentence be commuted as of December 24, 1950, at which time he will have served three years and eleven months of his minimum sentence.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Ernest P. Pace, D-9864, No. A-400, June Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Ernest P. Pace, convicted of burglary in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on September 4, 1947 to be computed from July 17, 1947, be commuted from 5 years to 3 years and 5 months, expiring on December 17, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-two years of age and has no prior criminal record. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from five to thirty years on a charge of burglary, which included the breaking into stores and breaking open safes.

The Board of Trustees of the Eastern State Penitentiary state that this applicant has an excellent institutional record and they believe he would be a good risk on parole. The trial judge, Honorable Harry S. McDevitt, is deceased, therefore, we have no recommendation from him. Honorable Joseph L. Kun, the present judge, has no knowledge of the facts of the case and thus no opinion. The district

attorney of Philadelphia County does not offer any objection to the commutation but leaves the matter up to the Board of Pardons.

Since this applicant was only seventeen years of age when he committed this crime, and since he has now served approximately three years of his minimum sentence, has a good institutional record; the Board of Pardons recommends that the applicant's sentence be commuted because of his good institutional record and his youth when the offenses were committed. We are also taking into consideration that he had no prior criminal record.

Under all of these circumstances, the Board of Pardons recommends that commutation be granted after he has served three years and five months, and that he be released on parole December 17, 1950.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Tony Palumbo, B-2246, No. 7907, June Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the life sentence of Tony Palumbo, convicted of murder in the first degree in the Court of Oyer and Terminer of Cambria County on October 6, 1930 be commuted from life imprisonment to 19 years and 10 months, expiring on August 6, 1950.

Our reasons for making this recommendation are as follows:

This applicant is sixty-eight years of age and he was involved in murder of the first degree. The applicant was the driver of the car that was used to take the actual killers to the place where this offense occurred. All of the applicant's four accomplices were electrocuted for this offense. At the present time the applicant has served over nineteen years for this offense and is over sixty-eight years of age. He is a hospital patient and is suffering from chronic asthma. He desires to have his release in order that he may be with the members of his family who will take him to the State of Illinois where he will live out the remaining days of his life.

The trial judge, Honorable John E. Evans, has not written the Board of Pardons or made any comment. The district attorney of Cambria County leaves the matter of commutation up to Board of Pardons.

Since this applicant has served almost twenty years of a life sentence and is in poor physical condition, and will spend the rest of his days with his family, the Board of Pardons believes there is no further point in keeping this applicant confined and that he should go to live with his family in Illinois. We, therefore, recommend that commutation be granted.

Respectfully submitted,

DANIEL B. STRICKLER, (Dissents)
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.

T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Charles J. Percival, No. A-204, June Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Charles J. Percival, convicted of operating a motor vehicle while under the influence of intoxicating liquor in the Court of Quarter Sessions of Montgomery County, on May 6, 1949, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is thirty-eight years of age and he was sentenced to pay a fine of \$350.00 and costs for operating a motor vehicle while under the influence of intoxicating liquor. This applicant had gone from his home at Sixty-third and Walnut Streets in Philadelphia to get a friend and fellow officer of the United States Army. This applicant had a slight accident, hitting a telephone pole in Haverford. As a result, he was taken to a hospital where he was pronounced under the influence of intoxicating liquor by the hospital physicians. The only damage that was done was to the applicant's automobile and the telephone pole. From the description of the matter, as it appeared to us, he must have not been under the influence of liquor to a great extent.

This applicant is employed as supervisor for the Howard Johnson Restaurant Company, supervising forty-one of their restaurants along the Atlantic Seaboard. He has an honorable discharge from the United States Army and had an excellent reputation prior to this offense. In his capacity as manager of the Howard Johnson Restaurants, he is required to travel a great deal and not only will this conviction hinder him in his employment but will be a blot on himself and his family for the rest of his life.

We feel that since more than one year has expired since the happening of the offense, we can recommend to Your Excellency that a pardon be granted to this applicant.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Melvin B. Pike, No. 67363, No. A-384, June Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Melvin B. Pike, convicted of assault and

battery, aggravated assault and battery in the Court of Quarter Sessions of Fayette County on December 15, 1949 be commuted from 27 months to 1 year expiring on December 15, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-five years of age and he was sentenced to a term of imprisonment in the Allegheny County Workhouse for from twenty-seven months to three years for slapping an officer while he was under the influence of intoxicating liquor. This applicant, although he is thirty-five years of age, acted like a spoiled brat and we feel that the judge who sentenced him exhibited the feeling of abhorrence in the applicant for his conduct.

At the present time he has served approximately seven months of this sentence.

We feel that an applicant applying for commutation who deliberately flouted the law should not be granted any relief, but in this case the court placed too heavy a sentence upon the applicant for what he did.

The Board of Pardons is, therefore, recommending under all the circumstances, that this applicant serve one year of his minimum sentence which expired on December 15, 1950.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Delbert L. Quick, B-8908, No. 7675, June Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed on Delbert L. Quick, convicted of burglary and larceny, in the Oyer and Terminer and Quarter Sessions Court of Clinton County, on December 22, 1943 to be computed from December 20, 1943; and of robbery in the Oyer and Terminer and Quarter Sessions Court of Lycoming County, on June 7, 1944; be commuted on Bills Nos. 3 and 12 January Sessions, 1944 (Clinton County) from a minimum term of 8½ years to a minimum term of 6 years and 8 months, expiring on August 20, 1950; and on Bill No. 38 December Sessions, 1943 (Lycoming County) from a maximum term of 2 years to a maximum term of 1 day, expiring on August 21, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty years of age and this was his first major conviction. He was sentenced to a term of imprisonment in the Western State Penitentiary from Clinton County for from eight and one-half to seventeen years on charges of burglary and larceny. He was also sentenced to a term of imprisonment in the Western State Penitentiary for from one to two years on a charge of robbery from Lycoming County. This sentence to begin at the expiration of original sentence. This applicant broke into two places of business, threatening the manager, and also stealing a car. The loot amounted to approximately \$1,000.00. This applicant has an excellent institutional record in the Western State Penitentiary and the Board of Trustees of that institution state that if he were eligible for parole, they would recommend him because this is his first major conviction.

The trial judge, Honorable Henry Hipple, has written the Board of Pardons and recommends that this applicant receive commutation. The district attorney of Clinton County does not oppose commutation and states he has no objection to the granting of commutation at this time.

Since this applicant has served over six and one-half years of his minimum sentence, the Board of Pardons recommends that this applicant's sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Leon E. Rush, No. 65223, No. A-79, June Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the flat sentence of Leon E. Rush, convicted of fraudulent conversion in the Court of Quarter Sessions of Allegheny County on January 17, 1949 to be computed from December 20, 1948 be commuted from 4 years to 1 year and 8 months, expiring on August 20, 1950.

Our reasons for making this recommendation are as follows:

This applicant is forty-three years of age and this was his first offense for which he was convicted. This applicant was caught "short" in the gray market in steel and had accepted money for iron and steel which he failed to deliver. When he was unable to get the steel for shipment, he converted to his own use large sums of money which he had received in payment of steel. He was sentenced to a term of imprisonment in the Allegheny County Workhouse for four years. At the present time he has served approximately one and one-half years of his minimum sentence.

The district attorney of Allegheny County has advised the Board of Pardons that they are not opposed to the granting of this commutation at this time.

Under all the circumstances, we feel that this applicant has been sufficiently punished and will not commit any similar to this, and we are, therefore, recommending that commutation be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Joseph Edward Santella, B-9861, No. A-67, June Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Joseph Edward Santella, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer and Quarter Sessions of Westmoreland County on September 3, 1946 be commuted from 9 years to 4 years expiring on September 3, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-nine years of age and this was his first major conviction. He and two accomplices held up a gambling establishment where he lost all his money, and robbed the proprietor of approximately \$1,000.00. Restitution of this sum has been made at the present time. At the present time, the applicant has served almost four years of his minimum sentence. Prior to being involved in this offense, the applicant served over eight years and nine months in the United States Army with an excellent record.

The trial judge, Honorable Richard D. Laird, has written the Board of Pardons and recommends that the applicant's sentence be commuted. One of the other judges, Honorable Edward G. Bauer, who was the district attorney at the time this applicant was convicted, recommends that clemency be granted. The district attorney of Westmoreland County recommends that clemency be granted.

Under all of these circumstances, the Board of Pardons feels that this applicant received too heavy a sentence for what he did, and we are, therefore, recommending that his sentence be commuted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of William Tabor, D-8207, No. A-30, June Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of William Tabor, convicted of burglary in the Court of Oyer and Terminer of Bucks County on September 23, 1943 to be computed from March 24, 1945, be commuted from 7½ years to 5 years and 5 months, expiring on August 24, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-six years of age and he does not have a very good past criminal record, having been arrested seven different times and convicted four times and now is serving this sentence, and this sentence was a parole violation. For that reason he did not get credit for the first eighteen months of his service so that although he has now served over five years and three months, he has in reality been confined for approximately seven years. This applicant has an outstanding institutional record in the Eastern State Penitentiary and during the past war made ship models for the United States Navy Department. A model was also made by the ap-

plicant which graces the Governor's Office in the State Capitol in Harrisburg.

The trial judge, Honorable Hiram H. Keller, and the district attorney of Bucks County, both favor the granting of commutation in this matter.

Because the Board of Trustees of the Eastern State Penitentiary state this applicant has an outstanding institutional record and because the trial judge and district attorney are not opposed, but favor the granting of commutation, and since he has served almost all of his minimum sentence of seven and one-half years; the Board of Pardons is recommending that commutation be granted in this case.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Samuel Thompson, D-5850, No. 6798, June Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Samuel Thompson, convicted of robbery, being armed with an offensive weapon in the Court of Quarter Sessions of Philadelphia County on June 18, 1941 to be computed from February 11, 1941, be commuted from 15 years to 9 years and 6 months, expiring on August 11, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-eight years of age and this was his first major conviction. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from seven and one-half to fifteen years on a charge of robbery, being armed with an offensive weapon. After having served six years and one month of his minimum sentence, he was released on parole by commutation of his minimum sentence. At the present time, he has been on parole for nearly three years and now asks that his maximum sentence be commuted.

This applicant, while in the institution, was private secretary to Mr. Frank P. Tucker, Senior Parole Officer at the Eastern State Penitentiary, and performed services for him. Following his release, he went to work for Herbert L. Maris, a member of the Philadelphia Bar, and at the present time is private secretary for Mr. Maris. He has since married and now asks commutation of his maximum sentence in order that he may be free from further supervision in the exercise of his position as private secretary with Mr. Maris. Mr. Maris speaks very highly of the applicant and so does Mr. Tucker, and both recommend that the applicant's sentence be commuted.

The trial judge, Honorable Eugene V. Allesandrone, states this applicant has merit but leaves the matter of commutation up to the Board of Pardons. The district attorney of Philadelphia County also leaves the matter up to the Board. The Board of Pardons is of the opinion that this applicant has been completely rehabilitated. The fact that he is private secretary to a prominent member of the Bar and faithfully performed this office over the past two years, leads us to believe he has forsaken his criminal way of life.

Under all of these circumstances, we can do no more than restore him to his freedom without further supervision. The Board, therefore, wholeheartedly recommends to Your Excellency that this applicant be granted commutation of his maximum sentence.

Respectfully submitted,

DANIEL B. STRICKLER,

GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of George J. Waddy, Jr., No. A-387, June Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that George J. Waddy, Jr., convicted of the following offenses: (1) aggravated assault and battery, violation of the Witkin Firearms Act in the Municipal Court of Philadelphia County on November 14, 1939; and (2) burglary in the Quarter Sessions Court of Philadelphia County on November 24, 1940, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is twenty-seven years of age and he seeks a pardon for offenses committed in 1939 and 1940. The first offense occurring in 1939 when he was approximately sixteen years of age and became involved in a street fight. He was hit by a blackjack whereupon he pulled out a gun and shot. The second offense occurred approximately a year later when the applicant stole a coat from a car. He was caught and sentenced to a term of imprisonment in the Philadelphia County Prison for from one and one-half to three years. Following his release in May of 1941, this applicant was inducted into the armed forces of the United States where he served a period of thirty-three months and received an honorable discharge from there. He took part in the invasion of Siapan and other Asiatic campaigns.

He now has an opportunity to secure a position with the United States Post Office Department. However, he would not be considered for the position unless his criminal record is cleared.

Because of the fact that he has an excellent army record and has established a home for himself and wife and three year old son, and desires to better his condition in life through employment in the Post Office Department, the Board of Pardons feels this criminal record, occurring in his youth, should not be a detriment to his complete rehabilitation. Since he has not become involved in any criminal offense for a period of eleven years, is presently well-established, we feel he is entitled to consideration at this time, and we are recommending that a pardon be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Jack Willard, C-7322, No. 5969, June Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the life sentence of Jack Willard, convicted of murder in the first degree in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on October 13, 1931 be commuted from life imprisonment to 19 years expiring on October 13, 1950.

Our reasons for making this recommendation are as follows:

This applicant is fifty-three years of age and this is his first major conviction. He has now served over eighteen years of a life sentence for murder in the first degree. This fight, which resulted in the killing, began over money which the applicant sought to get from his wife whom he had been separated.

He has a good institutional record and the Board of Trustees of the Eastern State Penitentiary state that he has a habit of thrift and a good work record. The trial judge, Honorable Eugene V. Alessandrini, makes no comment in this matter but leaves it up to the well exercised discretion of the Board of Pardons. The district attorney of Philadelphia County leaves the matter of commutation up to the Board of Pardons.

The Board of Pardons is of the opinion that since this applicant has an excellent institutional record, and the trial judge and the district attorney of Philadelphia County have no objection to commutation at this time, and the applicant has an excellent parole plan which the Board of Parole recommends be accepted; we feel the applicant has been sufficiently punished and recommend that his sentence be commuted on October 13, 1950, on which date he will have served nineteen years of his life sentence.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Joseph Ziff, No. A-377, June Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Joseph Ziff, convicted of assault and battery, aggravated assault and battery, assault and battery with intent to ravish, attempted rape, sodomy, in the Court of Municipal of Philadelphia County, on August 27, 1937, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is thirty-two years of age and approximately thirteen years ago, when this applicant was nine-

teen years of age, he fell in with some bad companions and committed sodomy with a girl his own age. He did not have any thing to do with the charge of attempted rape and robbery on the other girl, but one of his accomplices was guilty. However, acting under the advice of counsel, he pled guilty to both charges. This applicant has paid dearly for this affair, for during the past war the applicant was repeatedly refused service in the armed forces because of this one conviction.

He would now like to enlist and join his brother in the Naval Reserve but is unable to do so because of this offense. He is married and the father of four children. He is steady and has a good reputation. According to the parole investigator who makes this comment in the parole record, "the applicant has a nice home and family, he works steadily, purchased an apartment house, and is getting along well with his family.

This is not a case of a moral degenerate who time after time commits the same offense, but it is a case where the applicant, in his youth, committed a serious moral offense which has haunted him constantly for the past thirteen years. Certainly a moral degenerate would not under the circumstances marry and raise a family, and certainly in the past thirteen years he would have committed some other offense of a like nature, but nothing has occurred like that, and the Board is of the opinion nothing ever will.

The trial judge, Honorable Joseph G. Tumolillo, leaves the matter of pardon up to the Board of Pardons. The district attorney of Philadelphia County has made a thorough investigation of this applicant and has no objection to the granting of a pardon.

Under all the circumstances, the Board of Pardons feels that this applicant has been sufficiently punished and will not again commit this offense, and therefore, we are recommending that a pardon be granted.

Respectfully submitted,

DANIEL B. STRICKLER,
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
T. McKEEN CHIDSEY,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Angelo Agostino, D-1073, No. 4660, September Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Angelo Agostino, convicted of murder in the second degree in the Court of Oyer and Terminer of Lackawanna County on December 19, 1935, be commuted from 18 years to 15 years and 11 months expiring on November 19, 1950.

Our reasons for making this recommendation are as follows:

This applicant is fifty-eight years of age and this was the only offense for which he was ever convicted. The offense occurred when the victim and the applicant got into an argument over a game of cards, and the victim struck the applicant and broke his nose. When he approached the second time to strike the applicant, he pulled a knife and stabbed him, and his death thereupon occurred.

The applicant served his minimum sentence of nine

years in the Eastern State Penitentiary and has been on parole almost six years. During the time he has been on parole, he has worked steadily and supported his family who are still living in Italy. He has attempted on previous occasions to move his family to the United States but permission was denied him because of the son's previous service in the Italian Army. He has been faithful to the family and sent them all the money he could afford.

He is asking for commutation of his maximum sentence in order that he may return to Italy and see his family whom he has not seen in more than twenty-four years. The children are now twenty-four and twenty-six years of age and he has not seen them since they were two years old.

The trial judge in this matter has not written the Board of Pardons since he has been called into federal service with the United States Army. The district attorney of Lackawanna County has written the Board and stated he leaves the matter up to the Board of Pardons.

The Board of Pardons feels that since this applicant has an excellent record on parole and there is no objection to commutation by the sentencing authorities, and in order to permit him to visit his family whom he has not seen in nearly a quarter century, we recommend that commutation of his maximum sentence be granted.

Respectfully submitted,

NOT SITTING

Lieutenant-Governor.

GENE D. SMITH,

Secretary of the Commonwealth.

CHARLES J. MARGIOTTI,

Attorney General.

WILLIAM S. LIVENGOOD, JR.,

Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

In re application of Abe J. Breman, A-468, September Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Abe J. Breman, convicted of operating a motor vehicle while under the influence of intoxicating liquor in the Court of Quarter Sessions of Allegheny County on June 21, 1937, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is fifty-two years of age and he has no prior criminal record. Approximately thirteen years ago, the applicant was arrested on a charge of operating a motor vehicle while under the influence of intoxicating liquor and received a suspended sentence and ordered to pay the costs. This was the only occasion the applicant has had to face a court during his lifetime. At the present time, the applicant is fifty-two years of age.

This applicant has been able to keep the fact of his arrest from most everyone and has been a good law-abiding citizen for the past thirteen years. In 1940, the applicant joined the Pittsburgh Police Force as a member of the Detective Bureau and has an excellent record with that department.

Because of his work as a law enforcement officer and the fact he has been an honest and law-abiding citizen for the past ten years, the Board of Pardons feels he will not again offend against society, and therefore, the Board recommends that his petition for a pardon be granted and that a pardon be issued in this case.

NOT SITTING

Lieutenant-Governor.

GENE D. SMITH,

Secretary of the Commonwealth.

CHARLES J. MARGIOTTI,

Attorney General.

WILLIAM S. LIVENGOOD, JR.,

Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

In re application of George Kirkland Campbell, D-1885, No. 7443, September Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed upon George Kirkland Campbell, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County, on January 8, 1937, be commuted on Bill No. 772 December Sessions, 1936, from a maximum term of 20 years to a maximum term of 13 years and 10 months, expiring on November 8, 1950; and on Bill No. 777 from a minimum term of 10 years to a minimum term of 1 day, expiring on November 9, 1950. (Applicant has been granted parole on Bill No. 772.)

Our reasons for making this recommendation are as follows:

This applicant is thirty-six years of age and this is the first major conviction. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from twenty to forty years on a charge of robbery, being armed with an offensive weapon. Guns were used and there were two holdups. The two holdups occurred during the months of November and December 1936.

This applicant has a fair institutional record in the past year and at the present time has served nearly fourteen years of his minimum sentence. All of the accomplices have either had their sentences commuted or served their minimum sentences.

The trial judge is deceased and there is no recommendation from the present judge. The district attorney of Philadelphia County leaves the matter of commutation up to the Board of Pardons.

Since this applicant has served almost fourteen years of his minimum sentence of twenty years, since all of the accomplices have had their sentence commuted or served their minimum sentence; the Board of Pardons feels this applicant has paid severely for his violation of the law, and since he was equally guilty with the accomplices who had their sentences commuted or served the minimum, we are, therefore, recommending that commutation be granted.

Respectfully submitted,

NOT SITTING

Lieutenant-Governor.

GENE D. SMITH,

Secretary of the Commonwealth.

CHARLES J. MARGIOTTI,

Attorney General.

WILLIAM S. LIVENGOOD, JR.,

Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

In re application of Arthur E. Carson, A-14466, No. 1635, September Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the life sentence of Arthur E. Carson, convicted of murder in the first degree in the Court of Oyer and Terminer of Allegheny County on January 19, 1926 be commuted from life imprisonment to 24 years and 10 months expiring on November 19, 1950.

Our reasons for making this recommendation are as follows:

This applicant is fifty-two years of age and he is now serving a life sentence for murder in the first degree. This murder occurred in 1926 when the applicant got into a fight in a speakeasy over being short-changed and the victim was killed in the ensuing struggle.

The Board of Pardons has received recommendations from the Board of Trustees of the Western State Penitentiary to the effect that this applicant has a satisfactory prison record and if he were eligible for parole, they would recommend him. The trial judge is no longer on the bench and could not be contacted so no recommendation is made by him. The assistant district attorney of Allegheny County stated he has no objection if this applicant is returned to the State of New York where he will be required to serve an additional period of time for a parole violation.

At the present time he has served over twenty-four years of a life sentence in the Western State Penitentiary. The detainer from the State of New York is still active.

Because this applicant has served almost twenty-five years of a life sentence and because he will be required to serve an additional period of time in the State of New York if granted a release, the Board of Pardons accepts the recommendation of the district attorney of Allegheny County and recommends that this applicant's sentence be commuted on the condition that he be returned to the State of New York to serve an additional period of time for his parole violation.

Respectfully submitted,

NOT SITTING

Lieutenant-Governor.

GENE D. SMITH,

Secretary of the Commonwealth.

CHARLES J. MARGIOTTI,

Attorney General.

WILLIAM S. LIVENGOOD, JR.,

Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

In re application of Michael Chatary, E-1624, No. A-475, September Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Michael Chatary, convicted of burglary in the Court of Quarter Sessions of Montgomery County on March 12, 1948 to be computed from April 4, 1950, be commuted from 1½ years to 7 months expiring on November 4, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-eight years of age and this was his first major conviction. He was sentenced to a term of

imprisonment in the Eastern State Penitentiary for from one and one-half to three years on a charge of burglary. The applicant, in this series of crimes, also received sentences from Philadelphia and Delaware Counties, so that he has been continuously imprisoned since March 1948, all of the sentences were made to run consecutively. Although this seems a very short period of time served by the applicant, he has been in prison over two and one-half years.

This applicant has an excellent institutional record and he holds a position of trust in Graterford Institution and all records are favorable. The trial judge, Honorable George Corson, has written the Board and stated he has no objection to the granting of commutation. The district attorney of Montgomery County is opposed because he feels the applicant received a very lenient sentence.

The one reason the applicant is applying for commutation at this time, is that he feels the Delaware County sentence was improperly recorded and should have been recorded as a concurrent sentence with Philadelphia County sentence, thereby requiring him to serve one and one-half years more than was originally intended. In order to give effect to this applicant's intention, he having served at the present time over two and one-half years, we are recommending that his sentence be commuted.

Respectfully submitted,

NOT SITTING

Lieutenant-Governor.

GENE D. SMITH,

Secretary of the Commonwealth.

CHARLES J. MARGIOTTI,

Attorney General.

WILLIAM S. LIVENGOOD, JR.,

Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

In re application of Ernest Cianchetti, D-516, No. 4827, September Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed upon Ernest Cianchetti, convicted of murder in the second degree in the Court of Oyer and Terminer and Quarter Sessions of Lackawanna County on April 9, 1935, be commuted on Bill No. 2 April Sessions, 1935, from a maximum term of 20 years to a maximum term of 15 years and 7 months, expiring on November 9, 1950; and on Bill No. 3 from a maximum term of 20 years to a maximum term of 1 day, expiring on November 10, 1950.

Our reasons for making this recommendation are as follows:

This applicant is sixty-seven years of age and has no prior criminal record. He was sentenced in 1935 to a term of imprisonment in the Eastern State Penitentiary for from twenty to forty years on a charge of murder in the second degree, which resulted in the killing of two persons.

This applicant was released on parole by commutation of sentence after having served approximately twelve years of his minimum sentence. The applicant has now been on parole approximately four years. He is now living in White Plains, New York, and has been engaged in business with his son.

The New York Parole authorities have written the Board of Parole in Pennsylvania and stated that they recommend that favorable consideration be given to the applicant's case. The Board of Parole of Pennsylvania joins in this petition. The Board of Parole of Pennsylvania, however, recommends that he be granted commutation of his maximum sentence rather than a pardon. The trial judge

in this case is deceased and the present judge is not familiar with the case. The district attorney of Lackawanna County has written the Board of Pardons and stated he is not opposed to any action by the Board of Pardons.

Since this applicant is sixty-seven years of age and has served almost twelve years in the Eastern State Penitentiary and has now adjusted satisfactorily for a period of four years, and the sentencing authorities are not opposed to commutation; the Board of Pardons recommends that commutation of his maximum sentence be granted.

Respectfully submitted,

NOT SITTING

Lieutenant-Governor.

GENE D. SMITH,

Secretary of the Commonwealth.

CHARLES J. MARGIOTTI,

Attorney General.

WILLIAM S. LIVENGOOD, JR.,

Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

In re application of Lester Dean Clapper, No. 9963, September Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Lester Dean Clapper, convicted of burglary, larceny, receiving stolen goods in the Court of Oyer and Terminer of Blair County on March 3, 1949 be commuted from 4 years to 1 year and 8 months, expiring on November 3, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-seven years of age and this was his first major conviction. He was sentenced to a term of imprisonment in the Blair County Prison for from four to eight years for committing three burglaries and stealing various articles of merchandise. After the articles were stolen, the applicant either repaired them or changed their character so as to render them more difficult for identification. However, when he was apprehended, all the loot was recovered and the articles were returned to the proper owners in better condition than when they were stolen.

The trial judge, Honorable George G. Patterson, has stated to the Board of Pardons that he has no objection to the granting of commutation. The district attorney of Blair County states he has no comment to make at this time. At the present time, the applicant has served over one and one-half years of his minimum sentence and his accomplice, his brother, who was sent to the Pennsylvania Industrial School has been released.

Since this was the applicant's first major conviction and since he has a wife and four children to support, we feel that this applicant has been sufficiently punished to deter others from this course of conduct. We also feel that he has learned his lesson and will not again offend against society. Furthermore, he will be on parole approximately six and one-half years.

We, therefore, recommend that commutation be granted in order that he may properly care for his family who are now being supported by the Department of Public Assistance.

Respectfully submitted,

NOT SITTING

Lieutenant-Governor.

GENE D. SMITH,

Secretary of the Commonwealth.

CHARLES J. MARGIOTTI,

Attorney General.

WILLIAM S. LIVENGOOD, JR.,

Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

In re application of Harold J. Cleaver, Jr., No. 66714, No. A-410, September Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Harold J. Cleaver, Jr., convicted of burglary in the Court of Quarter Sessions of Lawrence County on September 14, 1949 to be computed from September 7, 1949, be commuted from 1½ years to 1 year and 2 months, expiring on November 7, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-four years of age and this is his first major conviction. He was sentenced to a term of imprisonment in the Allegheny County Workhouse for from one and one-half to three years for the commission of six burglaries over a period of nine months. At the present time, he has served one year of his minimum sentence. Three of the accomplices have already served their minimum sentence and have been released on parole.

The Superintendent of the Allegheny County Workhouse states that the applicant has an excellent institutional record. The trial judge, Honorable W. Walter Braham, has no objection to commutation if the commutation is recommended by the superintendent. The district attorney of Lawrence County leaves the matter of commutation up to the Board of Pardons.

This applicant, while serving in the armed forces of the United States, received the purple heart and has an excellent military record. He got into this difficulty while the father was in military service with the United Nations in Korea. His mother, who was also in Korea and has since returned to Lawrence County, has promised to supervise the applicant. Persons in Lawrence County are at a loss to understand his this applicant became involved in these offenses and attribute it to his inability to adjust after very strenuous service with the armed forces.

Since this applicant has served over one year of his minimum sentence and offers a good parole plan, the Board of Pardons feels that this applicant has been sufficiently punished, and we therefore, recommend that his minimum sentence be commuted.

Respectfully submitted,

NOT SITTING

Lieutenant-Governor.

GENE D. SMITH,

Secretary of the Commonwealth.

CHARLES J. MARGIOTTI,

Attorney General.

WILLIAM S. LIVENGOOD, JR.,

Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

In re application of Domenick Collozzi, No. A-422, September Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Domenick Collozzi, convicted of rape, taking a female child for purpose of sexual intercourse in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on December 30, 1936, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is thirty-seven years of age and has no prior criminal record. He was alleged to have committed this offense when he was twenty-three years of age. The girls involved were fifteen and sixteen years of age at the time.

The applicant and a friend had dates with these two girls and the occasion was New Year's Eve celebration in 1935. The girls appeared much older than their ages and the applicant and his accomplice had sexual relations with them. There seems to have been no charge of force and when the applicant was arrested, he married one of the victims. He was also charged with rape on the other girl although he had no sexual relations with her.

After several years, he was divorced from this girl and married his present wife, and they have two children. He has an excellent reputation and he gets along well with his wife and children.

The trial judge is no longer presiding judge and the present judge leaves the matter of pardon up to the Board. The district attorney of Philadelphia County states he has no objection to the granting of a pardon.

This case does not present to us one of true statutory rape but seems to be one of consensual intercourse, and therefore, since this applicant is re-married and has a nice family, this crime should not stand against his record. It has already cost him his position on one prior occasion.

Therefore, the Board of Pardons, recommends under all of these circumstances, that a pardon be granted in this matter.

Respectfully submitted,

NOT SITTING

Lieutenant-Governor.

GENE D. SMITH,

Secretary of the Commonwealth.

CHARLES J. MARGIOTTI,

Attorney General.

WILLIAM S. LIVENGOOD, JR.,

Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

In re application of John H. Connell, C-1022, No. 9988, September Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of John H. Connell, convicted of larceny in the Court of Quarter Sessions of Allegheny County on February 17, 1949 be commuted from 2 years to 1 year and 9 months, expiring on November 17, 1950.

Our reasons for making this recommendation are as follows:

This application is sixty years of age and has no prior criminal record. This was the first offense against society. He, together with his son-in-law was another friend who worked with him, began taking quantities of merchandise from their employer who was a wholesale hardware dealer. The applicant had been the trusted employee of the company for over twenty-three years.

The Board of Trustees of the Western State Penitentiary, where the applicant is confined, state that the applicant has an excellent institutional record and that they would

recommend him for commutation since all of the applicant's accomplices have now been released. The trial judge, Honorable A. Marshall Thompson, states he is satisfied with the action of the Board of Pardons. The district attorney of Allegheny County is not opposed to the granting of commutation.

Since the applicant's accomplices, who are equally guilty, have had their sentences commuted by the Board almost a year ago, the Board of Pardons feels that this applicant has been adequately punished and also that this applicant's age deserves some consideration.

Since the sentencing authorities of Allegheny County have no objection to the granting of commutation and since all the accomplices have been released, we feel this applicant should be placed in the same position as the accomplices, and therefore, recommend that the applicant's sentence be commuted.

Respectfully submitted,

NOT SITTING

Lieutenant-Governor.

GENE D. SMITH,

Secretary of the Commonwealth.

CHARLES J. MARGIOTTI,

Attorney General.

WILLIAM S. LIVENGOOD, JR.,

Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

In re application of William J. Crager, D-1927, No. 7869, September Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of William J. Crager, convicted of rape in the Court of Oyer and Terminer of Philadelphia County on November 28, 1944 be commuted from 10 years to 6 years expiring on November 28, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-five years of age and this was his first major conviction. He was sentenced to a term of imprisonment in the Philadelphia County Prison for from five to ten years on a conviction charge of rape.

The victim first told her family that the applicant committed the act of sexual relations by force and that she had not consented to it. Later, after the applicant was sentenced to the Philadelphia County Prison, the victim again changed her story and told the Board of Pardons the act of sexual intercourse had been committed with her full consent, whereby the Board of Pardons commuted the sentence of the applicant. This applicant has been on parole nearly six years.

The trial judge, Honorable Frank Smith, stated he is opposed to a full pardon, but not opposed to commutation of the maximum sentence. The district attorney of Philadelphia County is not opposed to the granting of commutation of the maximum sentence.

If this applicant was not guilty of the offense he should not, under the circumstances, be on parole. It is this plea that the applicant makes to us.

In the light of the statement of the trial judge and the district attorney of Philadelphia County and the fact that this applicant was released on the basis of the victim's statement, that no force was used, we believe that this applicant has been on parole for the sufficient length of time, and therefore, recommend that the maximum sentence be commuted.

Respectfully submitted,

NOT SITTING
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Joseph L. Evans, No. A-232, September Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Joseph L. Evans, convicted of operating a motor vehicle while under the influence of intoxicating liquor in the Court of Quarter Sessions of Lackawanna County, on December 3, 1949, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is thirty-eight years of age and has no prior criminal record. He was sentenced on December 3, 1949, to a term of imprisonment in the Lackawanna County Jail for a period of thirty days for operating a motor vehicle while under the influence of intoxicating liquor. This applicant served his sentence and since has been leading an exemplary life. The persons who best know the applicant and his family state that they believe the applicant has learned his lesson. As a result of this offense, the applicant who was a truck driver with Richards Motor Line, 231 Cliff Street, Scranton, Pennsylvania, lost his right to drive as well as his employment. He is married and has four children, three sons and one daughter, ranging in age from fifteen years to one year. As a result of this conviction and loss of earnings, the Department of Public Assistance has been required to aid the family.

The applicant asks for a pardon in order that under certain circumstances, the license may be restored to him upon the expiration of his year's revocation. We understand that the revocation will be up within a very short time.

The trial judge, Honorable T. Linus Hoban, has written the Board of Pardons and recommends that executive clemency be granted in this case. The district attorney of Lackawanna County, likewise, has recommended that clemency be granted.

The judge, in his letter to the Board, states, . . . "I believe this penalty, not within court control, works a drastic and unnecessary hardship in this case, and therefore, recommend clemency." He further stated to the Board that because of this applicant's prior excellent reputation and good character, that security is justified.

Many persons of good reputation have written the Board of Pardons in behalf of this applicant, and we believe that this applicant, in view of these letters of recommendation, and the recommendation of the trial judge, and district attorney, is entitled to some clemency in this matter in order that his ability to again earn his own livelihood be restored to him.

Under all of these circumstances, the Board of Pardons, therefore, recommends that a pardon be granted.

Respectfully submitted,

NOT SITTING
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.

WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Nathan Goodman, No. A-409, September Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Nathan Goodman, convicted of conspiracy to do an unlawful act in the Court of Oyer and Terminer and Quarter Sessions of Delaware County, on January 12, 1940, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is fifty-three years of age and has no prior criminal record. He was sentenced to a term of imprisonment in the Delaware County Prison for a period of four months on a charge of conspiracy to do an unlawful act. This charge occurred in 1940, and for the past ten years and nine months he has been in no further trouble. He is now a resident of Atlantic City and has a good reputation in that town. The applicant was formerly employed by the Atlantic City Race Track but when the conviction was reported to the Racing Commission, he was discharged. He is well regarded by his associates in the community as a law-abiding, industrious, and good living family man and the report from New Jersey is that he is deserving of consideration and a safe risk for the general welfare of the family unit.

The district attorney of Delaware County stated he is not opposed to the granting of a pardon since this applicant has had a good record for over ten years and has been in no further trouble.

The Board of Pardons is of the opinion that he has had a good reputation for almost eleven years together with the fact he has been in no further trouble, entitles him to have this conviction wiped from the record because it is causing distress and preventing him from securing employment.

We are, therefore, recommending that a pardon be granted.

Respectfully submitted,

NOT SITTING
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Charles Daniel Heath, No. 79452, No. 9720, September Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Charles Daniel Heath, convicted of voluntary manslaughter in the Court of Quarter Sessions of Delaware County on January 9, 1946 to be computed from November 1, 1945, be commuted from 6 years to 5 years, expiring on November 1, 1950.

Our reasons for making this recommendation are as follows:

This applicant is fifty-four years of age and he has no prior criminal record. He was convicted of the charge of voluntary manslaughter and sentenced to a term of imprisonment in the Delaware County Prison for from six to twelve years. At the present time, the applicant has served approximately five years of his minimum sentence.

The trial judge, Honorable Henry C. Sweney, has written the Board of Pardons and stated that if the applicant has made a good adjustment in prison and if he can be trusted to abstain from liquor, he would be favorable to commutation of this applicant as of November 1950. The district attorney of Delaware County has advised the Board of Pardons that he is not opposed to commutation of his sentence at the expiration of five years.

Since the sentencing authorities feel that this applicant's sentence should be reduced to five years and since he has an excellent record in the Delaware County Prison, we feel that he has been sufficiently punished, and in line with the sentencing authorities, we are recommending that the sentence be commuted as of November 1, 1950.

Respectfully submitted,

NOT SITTING

Lieutenant-Governor.

GENE D. SMITH,

Secretary of the Commonwealth.

CHARLES J. MARGIOTTI,

Attorney General.

WILLIAM S. LIVENGOOD, JR.,

Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

In re application of David Joseph, D-9819, No. A-31, September Session 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of David Joseph, convicted of burglary, larceny, receiving stolen goods, conspiracy in the Court of Quarter Sessions of Philadelphia County on August 4, 1947 to be computed from January 17, 1946, be commuted from 10 years and 4 months to 4 years and 10 months, expiring on November 17, 1950.

Our reasons for making this recommendation are as follows:

This applicant is fifty years of age and this was his first conviction for any offense whatsoever. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from ten years and four months to twenty-five years on charges of burglary, larceny, receiving stolen goods and conspiracy. He has now served nearly five years of his minimum sentence.

The applicant, when arrested, pled guilty and after being sentenced by the Court, cooperated fully with the Bureau of Police in the City of Philadelphia. He gave valuable information and it was through this information that the police of Philadelphia were able to arrest a group of men, thirty-two in number, who had committed two hundred and thirty-nine serious crimes. For this reason, the police of Philadelphia have recommended to the Board of Pardons that consideration be given the applicant at this time.

The trial judge, Honorable Eugene V. Alessandrini, has no comment to make at this time. The district attorney of Philadelphia County is opposed to the granting of commutation.

We feel that this applicant received a very severe sen-

tence, in fact the longest sentence of the group with whom he was convicted. Nevertheless, he has aided the police to such an extent in the solving of these crimes, we feel he is entitled to consideration by the Board at this time.

Therefore, because of the long period of time which he has served, and the aid and assistance which he gave to the police, and the fact that he has a good parole plan, which is recommended for acceptance, we recommend that his sentence be commuted.

Respectfully submitted,

NOT SITTING

Lieutenant-Governor.

GENE D. SMITH,

Secretary of the Commonwealth.

CHARLES J. MARGIOTTI,

Attorney General.

WILLIAM S. LIVENGOOD, JR.,

Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

In re application of Martin Lohman, B-8382, No. 9225, September Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Martin Lohman, convicted of burglary, robbery, larceny in the Court of Oyer and Terminer and Quarter Sessions, of Franklin County on November 16, 1940 to be computed from October 31, 1940 be commuted from 12 years to 10 years expiring on October 31, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty years of age and this was the first major conviction. He was convicted in 1940 on the charges of burglary, robbery, and larceny and the series of crimes in which he was engaged took place over a period of approximately six months. At the present time, the applicant has served nearly ten years of his minimum sentence. All of the accomplices have long since been released.

The Board of Trustees of the Western State Penitentiary, where the applicant is now confined, state that the applicant has an excellent institutional record and if eligible to be paroled, they would recommend. At the present time he has served approximately five-sixths of his minimum sentence.

Both the trial judge and present judge state they feel that this applicant has been sufficiently punished and the district attorney of Franklin County recommends that the sentence be commuted.

It may be further stated for the record, that this applicant was only nineteen years of age when these offenses took place.

The Board of Pardons believes that this applicant has matured by his ten years of prison, and therefore, since there is no objection to his release and the district attorney of Franklin County recommends his release, we join in this plea of the applicant and recommend to Your Excellency that his sentence be commuted.

Respectfully submitted,

NOT SITTING

Lieutenant-Governor.

GENE D. SMITH,

Secretary of the Commonwealth.

CHARLES J. MARGIOTTI,

Attorney General.

WILLIAM S. LIVENGOOD, JR.,

The above recommendation is approved:
 JAMES H. DUFF,
 Governor.

BOARD OF PARDONS

In re application of Silvio Lovuolo, D-2033, No. 3767, September Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Silvio Lovuolo, convicted of robbery, being armed with an offensive weapon in the Court of Quarter Sessions of Philadelphia County on March 12, 1937 to be computed from March 5, 1937, be commuted from 20 years to 13 years and 8 months, expiring on November 5, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-six years of age and this was his only offense against the law. He has no prior criminal record. The applicant was the driver of the get-away car in an assault to rob, but claims he had no active part in the commission of the robbery. However, it was testified that the applicant was an active participant.

After having served approximately six years of his minimum sentence, he was released on parole and since that time he has an excellent record for rehabilitation, having married and begun to raise a family. He asks for commutation of his maximum sentence on the basis of his excellent record on parole.

The Board of Parole agrees with the applicant's contention that he has an excellent record while on parole and that he recently purchased a new home and that he gets along well with his wife and young daughter, aged two and one-half years. The Board of Parole, therefore, recommends that since his attitude on parole having been good and there has never been any occasion to reprimand him, that the commutation of his maximum sentence be granted. The district attorney of Philadelphia County has no objection to the granting of commutation of his maximum sentence.

Since this applicant has made an honest effort of rehabilitation, has an excellent record on parole, and since he has been on parole almost eight years; the Board of Pardons is recommending that his maximum sentence be commuted.

Respectfully submitted,

NOT SITTING

Lieutenant-Governor.

GENE D. SMITH,

Secretary of the Commonwealth.

CHARLES J. MARGIOTTI,

Attorney General.

WILLIAM S. LIVENGOOD, JR.,

Secretary of Internal Affairs.

The above recommendation is approved:
 JAMES H. DUFF,
 Governor.

BOARD OF PARDONS

In re application of David Luxner, No. A-462, September Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of David Luxner, convicted of public indecency in the Court of Quarter Sessions of Lancaster County on June 9, 1950 be commuted from 6 months to 5 months expiring on November 9, 1950.

Our reasons for making this recommendation are as follows:

The applicant is twenty-three years of age and has no prior criminal record. He was sentenced to a term of imprisonment in the Lancaster County Prison for from six months to one year on a charge of public indecency. The applicant is a resident of Newark, New Jersey, and was attending Franklin and Marshall College at the time of the offense.

There seems to be a psychiatric background for the anti-social act and that if he could receive psychiatric treatment, he would not be a menace to society. Dr. O. Spurgeon English, who treated the applicant, stated in the report to the Board of Pardons that . . . "I feel sure he is not a dangerous person to society in any way and that to keep him in jail would do no good whatever to any of his symptoms or behavior and in fact can only do him harm. I feel it would be perfectly safe and most beneficial medically to have enter into active psychiatric therapy in New York City."

The trial judge, Honorable Oliver S. Schaeffer, is opposed to the granting of commutation. The district attorney of Lancaster County leaves the matter of commutation up to the Board of Pardons. The applicant has an excellent record in the Lancaster County Prison.

The Board of Pardons is of the opinion that this applicant is a psychiatric and mental case and further detention could serve no useful purpose, and therefore, we are recommending that commutation of his sentence be granted for the purpose of securing psychiatric treatment.

Respectfully submitted,

NOT SITTING

Lieutenant-Governor.

GENE D. SMITH,

Secretary of the Commonwealth.

CHARLES J. MARGIOTTI,

Attorney General.

WILLIAM S. LIVENGOOD, JR.,

Secretary of Internal Affairs.

The above recommendation is approved:
 JAMES H. DUFF,
 Governor.

BOARD OF PARDONS

In re application of Joseph Maninna, B-1632, No. 480, September Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed upon Joseph Maninna, convicted of burning with intent to defraud, arson in the Court of Oyer and Terminer and Quarter Sessions of Cambria County on October 7, 1929, be commuted on Bill No. 11 June Sessions, 1929, from a maximum term of 20 years to a maximum term of 9 years and 1 month, expiring on November 7, 1950.

Our reasons for making this recommendation are as follows:

This applicant is fifty-five years of age and he had no prior criminal record. The applicant was convicted of burning with intent to defraud and arson in that he is alleged to have aided his accomplice in burning his property with intent to defraud the insurance company. There seems to be some doubt as to the propriety of the applicant's conviction as there seems to have been no reason or motive for the commission of this crime by the applicant. Furthermore, he was out of town when the fire occurred and it is the finding of the trial judge that if he had sought a separate trial from the accomplice whose property was burned, it is doubtful if a conviction would have been received.

This applicant served approximately five and one-half years of his minimum sentence of sixteen years and has been on parole for over fifteen years and seven months.

All of his accomplices have been released and have served their sentence on parole.

This applicant is an active participant in an Italian organization and has been very active in civic matters in the Borough of Dunlevy, Washington County. His fellow townspeople state he is honest, industrious and social, and that since he has served such a long period of time on parole, we feel he has paid his debt to society. Under all of these circumstances, the Board of Pardons feel that the applicant has been sufficiently punished, and further, he would like to make a trip to Italy in the future to see his son, and he is unable to do so while on parole.

Because of the fact that he has an excellent record on parole of almost sixteen years and is now an upright citizen in the community, and since this was the first offense against society, we feel he has been sufficiently punished and recommend that his maximum sentence be commuted.

Respectfully submitted,

NOT SITTING

Lieutenant-Governor.

GENE D. SMITH,

Secretary of the Commonwealth.

CHARLES J. MARGIOTTI,

Attorney General.

WILLIAM S. LIVENGOD, JR.,

Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

In re application of Joseph Douglass Matthews, Jr., D-4231, No. 9567, September Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Joseph Douglass Matthews, Jr., convicted of burglary, larceny, receiving stolen goods in the Court of Oyer and Terminer of Philadelphia County on March 21, 1947 to be computed from January 30, 1947, be commuted from 5 years to 3 years and 9 months, expiring on October 30, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-three years of age and this was his first major conviction for any offense whatsoever. He and three accomplices broke into two places and in one place stole twelve cases of liquor, and in the other place stole a typewriter and radio.

The applicant has an excellent institutional record in the Philadelphia County Prison and the trial judge is since deceased. The district attorney of Philadelphia County states he has no objection to the granting of commutation at this time since the applicant has served nearly four years of his minimum sentence of five years. The three accomplices are still confined in the Eastern State Penitentiary, they having had prior records which would warrant their receiving greater sentences.

The Board of Pardons is of the opinion that since this is the applicant's first major conviction, and he has an excellent institutional record, and the district attorney of Philadelphia County has no objection to the granting of commutation, and since this applicant has served nearly four years of his minimum sentence of five years; that commutation should be granted at this time.

Respectfully submitted,

NOT SITTING

Lieutenant-Governor.

GENE D. SMITH,

Secretary of the Commonwealth.

CHARLES J. MARGIOTTI,

Attorney General.

WILLIAM S. LIVENGOD, JR.,

Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

In re application of George McNemar, C-9669, No. 4203, September Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of George McNemar, convicted of murder in the second degree in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on May 4, 1934 to be computed from September 18, 1933, be commuted from 20 years to 17 years and 2 months, expiring on November 18, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-seven years of age and this is his first major conviction. The applicant and two accomplices were charged with murder in the second degree. The applicant served his minimum sentence of ten years and was released on parole September 27, 1943.

The Board of Parole states that this applicant has an excellent record on parole and he has a good position with a furniture company in Philadelphia. However, it was required that he be bonded and he was refused because of his previous criminal record. The trial judge, Honorable Harry S. McDevitt, is deceased. The district attorney of Philadelphia County states he has no objection to the granting of commutation of his maximum sentence. The parole period would normally expire on September 19, 1953.

Since this applicant has an excellent record on parole and there is no objection from the sentencing authorities, and because this applicant has made an obvious attempt to rehabilitate himself, the Board of Pardons is recommending that his maximum sentence be commuted.

Respectfully submitted,

NOT SITTING

Lieutenant-Governor.

GENE D. SMITH,

Secretary of the Commonwealth.

CHARLES J. MARGIOTTI,

Attorney General.

WILLIAM S. LIVENGOD, JR.,

Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

In re application of Shaw Nicholson, A-10117, No. 177, September Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed upon Shaw Nicholson, convicted of burglary, entering a building, in the Oyer and Terminer and Quarter Sessions of Allegheny County on September 13, 1918, be commuted on Bill No. 481 September Sessions, 1918, from a maximum term of 4 years to a maximum term of 5 months and 29 days, expiring on November 12, 1950; and on Bill No. 482 from a maximum

term of 4 years to a maximum term of 1 day, expiring on November 13, 1950. (Applicant has been granted parole on Bills Nos. 53, 54 and 480.)

Our reasons for making this recommendation are as follows:

This applicant is sixty-six years of age and he has served over twenty years and nine months of a maximum sentence of thirty-six years. He has now served five years and nine months after being returned to the Western State Penitentiary as a parole violator, having been convicted of burglary in New York State.

The Board of Trustees of the Western State Penitentiary recommend that he be released because of the great length of time he has served. The present judge, Honorable Harry Rowand, makes no comment in the matter. The district attorney of Allegheny County does not oppose commutation of his maximum sentence.

Since this applicant has served nearly twenty-one years of a maximum sentence of thirty-six years and because of his advanced years, we do not believe that this applicant will again become a problem to society, and therefore, the Board of Pardons recommends that his maximum sentence be commuted.

Respectfully submitted,

NOT SITTING

Lieutenant-Governor.

GENE D. SMITH,

Secretary of the Commonwealth.

CHARLES J. MARGIOTTI,

Attorney General.

WILLIAM S. LIVENGOD, JR.,

Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

In re application of Martin L. Noggle, E-1404, No. A-436, September Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Martin L. Noggle, convicted of assault and battery, aggravated assault and battery in the Court of Oyer and Terminer and Quarter Sessions of Cumberland County on December 9, 1949 to be computed from December 5, 1949, be commuted from 1½ years to 1 year, expiring on December 5, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-six years of age and was sentenced to a term of imprisonment in the Eastern State Penitentiary for from one and one-half to three years on a charge of assault and battery, aggravated assault and battery. The facts briefly are this: the applicant got into a fight with a bartender who was trying to eject him from a restaurant. The applicant, therefore, beat up the bartender and he was arrested.

The Board of Trustees of the Eastern State Penitentiary state that the applicant has an excellent institutional record and that he has made a good adjustment in the institution. The trial judge, Honorable Dale J. Shughart, states he feels that clemency should resolve completely upon whatever rehabilitation has occurred since his commitment. The district attorney of Cumberland County is opposed to the granting of any clemency and stated that he feels that the applicant should serve the maximum sentence.

This was the applicant's first major conviction and we feel that he received an exceedingly heavy sentence for this crime.

The Board of Pardon feels that this applicant has been severely punished for what he did and that the best in-

terests of society will be served if he is made to serve one year. We further believe that the record of the institution shows that this applicant has been rehabilitated, therefore, in line with the judge's suggestion, we are recommending that the sentence be commuted as of December 5, 1950, when he will have served one year.

Respectfully submitted,

NOT SITTING

Lieutenant-Governor.

GENE D. SMITH,

Secretary of the Commonwealth.

CHARLES J. MARGIOTTI,

Attorney General.

WILLIAM S. LIVENGOD, JR.,

Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Glenn Rearic, Jr., convicted of burglary, larceny in the Court of Oyer and Terminer of Erie County on October 27, 1949 to be computed from October 11, 1949, be commuted from 2 years to 1 year and 2 months, expiring on December 11, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-seven years of age and this was his first major conviction. The applicant broke into the home of the victim and there stole money and jewelry. He was apprehended and part of the loot was recovered.

The Warden of the Allegheny County Workhouse states that this applicant has an excellent institutional record and that if released, he will probably not again commit any offense. Both the trial judge and the district attorney have notified the Board of Pardons that they are opposed to the granting of commutation at this time.

An excellent parole plan has been submitted and the sponsor is a well known minister in the applicant's neighborhood. It is believed that if this applicant is granted commutation at this time, that his sponsor will help him to adjust to society and further incarceration would serve no further purpose.

The Board of Pardons is of the opinion that the applicant should serve one year and two months of his minimum sentence of two years, and we therefore, recommend that the sentence of the applicant be commuted as of December 11, 1950, when he will have served one year and two months.

Respectfully submitted,

NOT SITTING

Lieutenant-Governor.

GENE D. SMITH,

Secretary of the Commonwealth.

CHARLES J. MARGIOTTI,

Attorney General.

WILLIAM S. LIVENGOD, JR.,

Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

In re application of Ralph George Schimborski, No. 64083, No. 9818, September Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Ralph George Schimborski, convicted of burglary in the Court of Oyer and Terminer of Allegheny County on May 4, 1948 be commuted from 3 years to 2 years and 6 months, expiring on November 4, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-six years of age and he was sentenced to a term of imprisonment in the Allegheny County Workhouse for from three to six years on a charge of burglary. This applicant and two accomplices broke into five different places, taking cash and merchandise to the extent of approximately \$3300.00. He has now served over two years and four months of his minimum sentence.

The Superintendent of the Allegheny County Workhouse has advised the Board of Pardons that the applicant has an excellent institutional record and they would have no objection to his parole. The trial judge has not advised the Board of Pardons of his position in the matter, but the district attorney of Allegheny County stated he is not opposed to the granting of commutation. It may be stated that this applicant had a good navy record and received an honorable discharge from the service.

Because of the applicant's excellent institutional record and the fact that this is the first major conviction and the sentencing authorities are not opposed to the granting of clemency, the Board of Pardons recommend that the applicant's sentence be commuted.

Respectfully submitted,

NOT SITTING

Lieutenant-Governor.

GENE D. SMITH,

Secretary of the Commonwealth.

CHARLES J. MARGIOTTI,

Attorney General.

WILLIAM S. LIVENGOD, JR.,

Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

In re application of Melvin Kenneth Sikes, B-7519, No. 2671, September Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Melvin Kenneth Sikes, convicted of burglary, larceny, receiving stolen goods in the Court of Oyer and Terminer and Quarter Sessions of McKean County on February 3, 1941 to be computed from January 23, 1943, be commuted from 10 years to 8 years expiring on January 23, 1951.

Our reasons for making this recommendation are as follows:

This applicant is thirty-six years of age and he committed a series of burglaries and larcenies and was sentenced to a term of imprisonment in the Western State Penitentiary for from ten to twenty years. At the present time, the applicant has served over seven years and eight months of his minimum sentence. The defendant, when originally returned to the institution, was to have had his sentence run from January 23, 1941, so that of January 23, 1951, the applicant would have served a minimum sentence of ten years. However, this sentence was imposed before the decision in the case of Commonwealth ex rel. Lerner vs. Smith, 151 Pennsylvania Superior Court 265, and since this applicant was a parole violator, his sentence was recomputed by the Board of Trustees of the

Western State Penitentiary, and therefore, he did not begin to serve his minimum sentence until January 23, 1943.

The trial judge, Honorable Charles G. Hubbard, has written the Board of Pardons and recommend that commutation be granted. In his letter Judge Hubbard states that the applicant has served two years longer than the court had in mind when the sentence was imposed, and if the court had understood the law as interpreted in the Lerner Decision, the court would have reduced the sentence sufficiently so he would not have had to serve more than ten years. Since it was the court's intention that the applicant only serve the ten years, he now recommends that the sentence be commuted by the Board of Pardons to meet his intention. The district attorney of McKean County has no objection to the granting of commutation.

In order to give effect to the court's sentence that this applicant need not serve more than ten years as intended by the trial judge and the sentencing authorities, we are recommending that the sentence be commuted to expire January 23, 1951, when the applicant will have served ten years.

Respectfully submitted,

NOT SITTING

Lieutenant-Governor.

GENE D. SMITH,

The above recommendation is approved:

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

In re application of Clarence Smith, D-4011, No. 6822, September Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Clarence Smith, convicted of being armed, etc., in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on May 11, 1939, be commuted from 40 years to 11 years and 5 months, expiring on October 11, 1950.

Our reasons for making this recommendation are as follows:

The applicant is one of many parolees whose release from parole by commutation of the maximum sentence has been recommended to the Board of Pardons by the Board of Parole.

The Board of Parole has recommended this applicant, as well as the others, because of his excellent record in the armed forces of the United States. By reason of his fealty to country, steadfastness in courage, and military earnestness, he helped overpower the enemies of our country in World War II.

As a token of appreciation, and feeling that his gallant conduct has atoned for the error of his past ways, it is our recommendation to your Excellency that the term of the maximum sentence of the applicant be commuted and that he be freed from further parole supervision.

Respectfully submitted,

NOT SITTING

Lieutenant-Governor.

GENE D. SMITH,

Secretary of the Commonwealth.

CHARLES J. MARGIOTTI,

Attorney General.

WILLIAM S. LIVENGOD, JR.,

Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

In re application of Maria Tillotta, C-6013, No. 9832, September Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the life sentence of Maria Tillotta, convicted of murder in the first degree in the Court of Oyer and Terminer and Quarter Sessions of Bucks County on February 24, 1930 be commuted from life imprisonment to 20 years and 9 months, expiring on November 24, 1950.

Our reasons for making this recommendation are as follows:

This applicant is fifty-seven years of age and this was the first conviction for any offense whatsoever, she is alleged with two accomplices to have plotted her husband's death. One accomplice was electrocuted for murder and the applicant and the other accomplice were given life sentences of imprisonment. The accomplice who was given a life sentence had his sentence commuted and released on parole over seven and one-half years ago. At the present time, the applicant has served more than twenty years of a life sentence.

The Board of Trustees of the Eastern State Penitentiary state that this applicant has an excellent institutional record and if given the opportunity, they would recommend her for parole. The present judge, who was not the trial judge, makes no recommendation in this case because of the fact that he did not take part in the trial of the case. The district attorney of Bucks County leaves the matter of commutation up to the Board of Pardons.

Since this applicant has served over twenty years of a life sentence with an excellent record, since her accomplice has been paroled, and since she is now over fifty-seven years of age, the Board of Pardons feels that this applicant merits some consideration at this time. We are, therefore, because of her excellent institutional record and the fact that there is no opposition to the granting of commutation as prayed for by her, and the further fact that she has served over twenty years of a life sentence, we feel she has been adequately punished and recommend that her sentence be commuted.

Respectfully submitted,

NOT SITTING

Lieutenant-Governor.

GENE D. SMITH,

The above recommendation is approved:

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

In re application of Eugene Walker, D-8297, No. A-473, September Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the flat sentence of Eugene Walker, convicted of carrying firearms without a license in the Court of Quarter Sessions of Philadelphia County on January 24, 1950, to be computed from De-

cember 25, 1949, be commuted from 2 years to 11 months, expiring on November 25, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty years of age and he has no prior criminal record. He was sentenced to a term of imprisonment in the Philadelphia County Prison for a period of two years on a charge of carrying firearms without a license. The reason the applicant had the gun was because he had given it for security for a loan and had repaid the loan when the officer stopped the car in which the applicant was riding. No attempt had been made to use the gun in an illegal manner, but the applicant did not have a license to carry the gun. He, therefore, was taken before the court and given the sentence.

The trial judge, Honorable Raymond MacNeille, states that if the applicant's prison record is good he should receive credit for good behavior. The district attorney of Philadelphia County has no objection and feels this was a very severe sentence and recommends that the sentence be commuted.

The Board of Pardons, likewise, feels that it has been a very severe sentence and since the applicant has served over nine months of his minimum sentence of nineteen, which would be the flat sentence with time off for good behavior, that he is entitled to consideration at this time. We, therefore, recommend that commutation be granted.

Respectfully submitted,

NOT SITTING

Lieutenant-Governor.

GENE D. SMITH,

Secretary of the Commonwealth.

CHARLES J. MARGIOTTI,

Attorney General.

The above recommendation is approved:

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

In re application of Vincent Edward Watsloff, E-1084, C-1667, No. A-408, September Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Vincent Edward Watsloff, convicted of robbery in the Court of Oyer and Terminer and Quarter Sessions of Northumberland County on April 25, 1946 to be computed from April 4, 1946 be commuted from 4 years to 2 years expiring on April 4, 1951.

Our reasons for making this recommendation are as follows:

This applicant is twenty-four years of age and has no prior criminal record. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from four to eight years on a charge of robbery. The applicant has no prior criminal record and this is the first offense against the law.

He has an excellent institutional record in the Eastern State Penitentiary and he has a position of trust in Rockview Farm Prison. The applicant was the driver of the car which was used to commit this offense and one of the accomplices threatened the applicant when he would not participate in this crime. His participation was forced by a gun which accomplice had.

The trial judge, Honorable William I. Troutman, has written the Board of Pardons and stated he has no objection and stated he believes that favorable action can now be taken on this applicant. The district attorney of Northumberland County stated he has no comment to make and leaves the matter of commutation up to the Board of Pardons.

Since this applicant was probably the least culpable of the group of three accomplices who committed these robberies and since one of the accomplices has already had his sentence commuted, the Board of Pardons is recommending that this applicant's sentence be commuted as of April 4, 1951, when he has served one-half of his minimum sentence.

Respectfully submitted,

NOT SITTING

Lieutenant-Governor.

GENE D. SMITH,

Secretary of the Commonwealth.

CHARLES J. MARGIOTTI,

Attorney General.

WILLIAM S. LIVENGOD, JR.,

Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

In re application of Joseph Wisneski, C-9509, No. 5706, September Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed upon Joseph Wisneski, convicted of murder, in the second degree, breaking and entering, larceny, and arson in the Court of Oyer and Terminer and Quarter Sessions of Luzerne County on February 1, 1934, be commuted on Bill No. 118 April Sessions, 1933, from a maximum term of 20 years to a maximum term of 16 years and 9 months, expiring on November 1, 1950; on Bill No. 92 from a maximum term of 8 years to a maximum term of 1 day, expiring on November 2, 1950; and on Bill No. 204 June Sessions, 1933, from a minimum term of 8 years to a minimum term of 1 day, expiring on November 3, 1950. (Applicant has been granted parole on Bill No. 118.)

Our reasons for making this recommendation are as follows:

This applicant is forty-five years of age and this was his first major conviction. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from twenty-two to forty-four years on charges of murder, in the second degree, breaking and entering, larceny, and arson. At the present time, the applicant has served over sixteen and one-half years of his minimum sentence.

The Board of Trustees of the Eastern State Penitentiary state that this applicant has an excellent institutional record and they would favorably recommend. One trial judge, Honorable John S. Fine, has recommended that commutation be granted, and the other trial judge, Honorable William A. Valentine, favors commutation if he does not return to Luzerne County. The district attorney of Luzerne County recommends commutation if the applicant does not return to Luzerne County.

Dr. Linn Bowman, Restoration Director of the Eastern State Penitentiary, has made arrangements for a parole plan for the applicant in Philadelphia, so he will not return to Luzerne County. Dr. Bowman has interested himself in this case and recommends that the applicant be released and he feels that he has been rehabilitated and will not again commit any offense against society and the law.

The applicant has learned the trade of cabinet maker and he has made every effort to rehabilitate himself during more than sixteen years of confinement.

The Board is willing to place a great deal of faith in Dr. Bowman, and if he recommends, we likewise join in this recommendation. Since the sentencing authorities in Luzerne County recommend commutation, since Dr. Bowman recommends commutation, the Board of Pardons

recommends to Your Excellency that the sentence be commuted.

Respectfully submitted,

NOT SITTING

Lieutenant-Governor.

GENE D. SMITH,

Secretary of the Commonwealth.

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

In re application of Matthew Wojciak, C-780, E-119, No. 9906, September Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Matthew Wojciak, convicted of being armed with an offensive weapon in the Court of Quarter Sessions of Philadelphia County on January 21, 1948 to be computed from January 9, 1948, be commuted from 3 years to 2 years and 10 months, expiring on November 9, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-three years of age and this was his first major conviction. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from three to six years on a charge of burglary, robbery, being armed with an offensive weapon together with three accomplices. This applicant has now served two years and nine months of his minimum sentence.

The Board of Trustees of the Eastern State Penitentiary have reported to the Board of Pardons that he has a good institutional record and is presently stationed at Rockview Farm Prison. The trial judge, Honorable Thomas Bluett, has advised the Board of Pardons that he feels the sentence was justified, but further states it will be satisfactory to him whatever action the Board of Pardons takes in its good judgment.

The accomplice of the applicant, who was equally guilty, received a sentence of not less than two or more than four years and has served his sentence. The other accomplice is a fugitive and has never been apprehended.

In view of the fact that the applicant has served nearly ten months longer than his accomplice, we feel this applicant has been sufficiently punished and we are recommending that his sentence be commuted.

Respectfully submitted,

NOT SITTING

Lieutenant-Governor.

GENE D. SMITH,

Secretary of the Commonwealth.

CHARLES J. MARGIOTTI,

Attorney General.

WILLIAM S. LIVENGOD, JR.,

Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

In re application of Walter J. Wright, D-4679, No. 4934, September Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Walter J. Wright, convicted of aggravated assault and battery in the Court of Quarter Sessions of Philadelphia County, on February 20, 1940, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is forty-one years of age and has no prior criminal record. He was sentenced in 1940 to a term of imprisonment in the Eastern State Penitentiary for from one to two years on a charge of aggravated assault and battery. At that time the applicant was approximately thirty years of age and he and his accomplice got into a fight with the owner of a store over the rattling of candy jars. As a result of this, the applicant and his accomplice beat up the victim who was the owner of the store.

The applicant, since his release, has been in no further trouble and has been a physical director with the Harlem Boys' Club in New York City, and has been playing professional basketball with the Renaissance Basketball Club of that city.

Because of the fact that he now is working with young people and attempting to bring them to the full appreciation of the obligations and responsibilities of citizens and since he has proved to us his understanding of these opportunities by his own conduct over the past ten years, we are recommending that a pardon be granted in this case for the reasons that he has been in further trouble over a period of ten years and that the district attorney of Philadelphia County is not opposed because of his good record and fine rehabilitation.

NOT SITTING

Lieutenant-Governor.

GENE D. SMITH,

Secretary of the Commonwealth.

CHARLES J. MARGIOTTI,

Attorney General.

WILLIAM S. LIVENGOD, JR.,

Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

In re application of Joseph Francis Zalonka, No. 9549, September Session 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Joseph Francis Zalonka, convicted of burglary, larceny in the Court of Quarter Sessions of Schuylkill County on December 16, 1946 to be computed from December 9, 1946, be commuted from 5 years to 4 years, expiring on December 9, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-two years of age and this is his first major conviction. These crimes were petty burglaries and larcenies, and the applicant received a very severe sentence for the small amount of articles which were of little value that were taken. The applicant was aged eighteen years at the time these offenses took place. He has now served almost four years for this offense.

He has an excellent institutional record in the Schuylkill County Prison and the Warden would recommend him for commutation. The trial judge, Honorable Cyrus Palmer, however, stated he was opposed to the commutation because of his previous bad record. The district attorney of Schuylkill County is not opposed to granting of commutation of sentence.

The Board of Pardons does not agree with the trial

judge that his previous record was bad. He had been arrested three times previously, one for stealing coal from coal cars and carrying it home, one for taking a bicycle, and once for vagrancy in Philadelphia at a bus terminal. We cannot consider these matters to be as bad as the trial judge would have us believe.

Since this young man was only eighteen years of age when this offense took place and the amount taken were small trifles, we are recommending that the sentence be commuted as of December 9, 1950, when the applicant will have served four years.

Respectfully submitted,

NOT SITTING

Lieutenant-Governor.

GENE D. SMITH,

Secretary of the Commonwealth.

CHARLES J. MARGIOTTI,

Attorney General.

WILLIAM S. LIVENGOD, JR.,

Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

In re application of James Callahan, C-7262, No. 3949, October Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed upon James Callahan, convicted of robbery in the Court of Quarter Sessions of Philadelphia County on July 31, 1931, be commuted on Bill No. 416 July Sessions, 1931, from a maximum term of 20 years to a maximum term of 19 years, 3 months and 29 days, expiring on November 30, 1950; on Bill No. 417 from a maximum term of 20 years to a maximum term of 1 day, expiring on December 1, 1950; and on Bill No. 418 from a maximum term of 20 years to a maximum term of 1 day, expiring on December 2, 1950.

Our reasons for making this recommendation are as follows:

This applicant is forty-four years of age and this was his first major conviction. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from fifteen to sixty years on a charge of robbery. After having served ten years, eight months and twenty-nine days of his minimum sentence, his sentence was commuted and he was released on parole April 30, 1942. He now seeks commutation of his maximum sentence, having been on parole a period of eight and one-half years.

The Board of Parole state that this applicant has a good parole record and has shown no tendency to criminal activities while on parole and under these circumstances have no objection to the termination of his maximum sentence in order to relieve the applicant of further supervision. The trial judge, Honorable James M. Barnett, is deceased and there is no comment forthcoming from the court. The district attorney of Philadelphia County stated he is not opposed to commutation at this time.

Under all of the circumstances, we feel that this applicant has been adequately punished and no further supervision is necessary; and therefore, recommend that commutation of his maximum sentence be granted.

Respectfully submitted,

NOT SITTING

Lieutenant-Governor.

GENE D. SMITH,

Secretary of the Commonwealth.

CHARLES J. MARGIOTTI,

Attorney General.

WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of John T. Caruso, D-9592, No. 9935, October Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of John T. Caruso, convicted of murder in the second degree in the Court of Quarter Sessions of Philadelphia County on April 25, 1947 to be computed from December 5, 1946, be commuted from 6 years to 4 years, expiring on December 5, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-eight years of age and this was his first major conviction. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from six to twelve years for running down a young girl who was with his wife on a sidewalk of a very narrow street. This applicant pled guilty to the crime of murder jointly and the court found him guilty of murder in the second degree. Residents testified to the effect that the applicant had trouble with his wife and deliberately had driven the automobile on the sidewalk in an attempt to frighten the wife, but instead, he misjudged his position and pinned the victim to the wall of the house. Subsequently she died.

This applicant has an excellent institutional record and the Board of Trustees of the Eastern State Penitentiary state that his adjustment in prison has been excellent. The trial judge, Honorable Harry S. McDevitt, is deceased and we have no comment from the court in Philadelphia County. The district attorney of Philadelphia County is opposed to the granting of commutation although this was the applicant's first conviction and he has served nearly four years of his minimum sentence.

Under all of the circumstances, we believe this applicant has been adequately punished and that further incarceration will not serve any useful purpose. We, therefore, recommend that the applicant be granted commutation of his minimum sentence at this time.

Respectfully submitted,

NOT SITTING

Lieutenant-Governor.

GENE D. SMITH,

Secretary of the Commonwealth.

CHARLES J. MARGIOTTI,

Attorney General.

WILLIAM S. LIVENGOOD, JR.,

Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Finley M. Cruthers, B-3179, No. A-500, October Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Finley M. Cruthers, convicted of breaking and escaping penitentiary in the Court of Quarter Sessions of Centre County on April 6, 1932 to be computed from No-

vember 20, 1942, be commuted from 10 years to 8 years expiring on November 20, 1950.

Our reasons for making this recommendation are as follows:

This applicant is sixty years of age and this is not his first brush with the law. He was sentenced to a term of imprisonment in the Western State Penitentiary for from five to ten years on a charge of breaking and escaping penitentiary. After having served approximately ten years in the Western State Penitentiary, this applicant had his sentence commuted by virtue of the decision of the Pennsylvania Supreme Court and he was released on parole February 1, 1943, and has made a good parole adjustment for nearly eight years.

The applicant is a holder of an air-brake patent on truck trailers and he feels that parole has hindered his complete exploitation of this patent which he feels could be done if he were free to make business contacts.

The Board of Parole has no objection to the commutation of his maximum sentence. The Honorable F. P. Patterson, makes no recommendation and the district attorney of Allegheny County leaves the matter up to the Board of Pardons.

Under these circumstances, we feel that this applicant will not again offend against society and he has shown he will be able to keep his present good standing. We, therefore, recommend that his maximum sentence be commuted.

Respectfully submitted,

NOT SITTING

Lieutenant-Governor.

GENE D. SMITH,

Secretary of the Commonwealth.

CHARLES J. MARGIOTTI,

Attorney General.

WILLIAM S. LIVENGOOD, JR.,

Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Harry D'Antonio, D-5208, No. A-493, October Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Harry D'Antonio, convicted of rape, sodomy in the Court of Oyer and Terminer of Montgomery County on September 13, 1940 to be computed from July 10, 1940, be commuted from 15 years to 10 years 5 months and 10 days, expiring on December 20, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-two years of age and he had no prior criminal record. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from five to fifteen years on a charge of rape and sodomy. He served his minimum sentence on these charges and has been on parole for five years and four months.

He has become a very successful business man in Norristown, Pennsylvania, the same place where these offenses took place. This is to the applicant's great credit.

The trial judge, Honorable Harold G. Knight, has written the Board of Pardons and stated he recommends commutation of the maximum sentence.

The Board is impressed by the applicant's effort of rehabilitation and believe that he has been successful in it. We do believe this applicant has been completely rehabilitated and will not commit offenses of this or any other nature again, and we, therefore, recommend that his maximum sentence be commuted.

Respectfully submitted,

M. HARVEY TAYLOR, Acting
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Adam Harowicz, E-949, No. 5427, October Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Adam Harowicz, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer of Luzerne County on June 7, 1947 to be computed from March 16, 1949 be commuted from 5 years to 2 years expiring on March 16, 1951.

Our reasons for making this recommendation are as follows:

This applicant is thirty-two years of age and this is his major conviction. It occurred while he was on parole from his first major conviction. The trial judge attempted to make the two sentences run concurrently with the back parole time he was returned to serve, but this type of sentence was held illegal by the Lerner Decision. Consequently, this applicant has now served over three and one-half years, but because of the fact he was returned to serve his back parole time first, he was only given credit for one year and seven months of this sentence.

The Board of Trustees of the Eastern State Penitentiary state that this applicant has an excellent institutional record and that he should be given consideration for this good record which he has established. The trial judge, Honorable J. Harold Flannery, has written the Board and stated he should be required to serve no more than the minimum sentence or from June 7, 1947. The district attorney of Luzerne County has advised the Board of Pardons that he has been sufficiently punished, and therefore, recommends that commutation be granted.

Because of the fact that this applicant has now served over three and one-half years of the intended minimum sentence of five years, has an excellent institutional record; we are recommending that the opinion of the district attorney be followed in this matter and his minimum sentence be commuted.

Respectfully submitted,

M. HARVEY TAYLOR, Acting
Lieutenant-Governor
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Willard Hartill, No. 7070, October Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members

of the Board of Pardons recommend that Willard Hartill, convicted of or pleaded guilty to the following offenses: (1) receiving stolen goods in the Court of Quarter Sessions of Allegheny County on April 7, 1938; (2) lottery in the Court of Quarter Sessions of Allegheny County on November 26, 1940; and (3) lottery in the Court of Quarter Sessions of Allegheny County on March 25, 1941, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is thirty-six years of age and he has no other criminal record than the ones for which he is requesting a pardon. He requests a pardon on the charges of receiving stolen goods and lottery. The first offense occurred during the year 1938 which involved in the purchase of a radio from a truck in the neighborhood of his home. There seems to have been no element of conspiring to commit the crime of larceny nor to commit the crime of receiving stolen goods. He was merely a victim of the real thieves. Thereafter, in 1940 and 1941, the applicant was arrested on a charge of setting up and maintaining an illegal lottery. This last offense occurred in 1941.

The applicant has done everything possible to rehabilitate himself and is presently employed by the Elks Lodge. He has been in no further trouble for a period of ten years.

We have received many letters recommending that he be given assistance and a pardon be granted, and the Board feels that since he has been in no further trouble for a period of approximately ten years, he will not again commit any offense whatsoever. The people who know the applicant state he has a good reputation.

We feel that he can be trusted to be given another chance at this time, and we are recommending that a pardon be granted.

Respectfully submitted,

NOT SITTING
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of David Roy Himes, B-9058, No. 8073, October Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of David Roy Himes, convicted of murder in the second degree in the Court of Oyer and Terminer of Armstrong County on February 25, 1944 to be computed from July 4, 1944 be commuted from 7 years to 6 years five months and 20 days, expiring on December 24, 1950.

Our reasons for making this recommendation are as follows:

This applicant is sixty-three years of age and this was his first major conviction. He was sentenced to a term of imprisonment in the Western State Penitentiary for from seven to fourteen years on a charge of murder in the second degree which arose out of the shooting of the victim who is alleged to have made an attack upon the applicant's wife when the applicant was absent from his home.

The Board of Trustees of the Western State Penitentiary state this applicant has an excellent institutional record but he has a poor physical condition, suffering from a marked deformity of the spine. At the present time, the

applicant has served all but nine months of his minimum sentence. The trial judge, Honorable J. Frank Graff, has written the Board of Pardons and stated he has no objection to the granting of commutation. The district attorney of Armstrong County has no comment to make although he does state that some of the statements are untrue.

Since this applicant has served all but nine months of his minimum sentence, we feel that this applicant has been drastically punished, in light of the fact that this applicant is sixty-three years of age and in poor physical condition.

Under all the circumstances, we feel that this applicant has been sufficiently punished, and we, therefore, recommend that the sentence be commuted.

Respectfully submitted,

M. HARVEY TAYLOR, Acting
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of John Bernard Hovis, C-35, No. 9593, October Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of John Bernard Hovis, convicted of forgery in the Court of Oyer and Terminer of Crawford County on February 24, 1947 to be computed from November 14, 1946 be commuted from 5 years to 4 years 1 month and 10 days, expiring on December 24, 1950.

Our reasons for making this recommendation are as follows:

This applicant is forty years of age and this is not the first time he has been arrested or convicted of violation of the law. He has a previous record for the very same offense for which he was convicted. He was sentenced to a term of imprisonment in the Western State Penitentiary for from five to ten years on charges of forgery in which he forged four checks totaling \$95.00. The checks were all forged on his father's account. At the present time, he has served over four years of his minimum sentence of five years.

The applicant's father, who was the victim of this case, was his representative and he has forgiven his son and feels that his son received a very severe sentence. He asks that the sentence be commuted. The present judge, Honorable Herbert A. Mook, has written the Board of Pardons and stated as follows: "... I strongly favor a commutation of Mr. Hovis' sentence."

The Board of Pardons is of the opinion that further incarceration will not have any further effect on this applicant and if he has not learned his lesson after four years, an additional year will not be any benefit, and since the present judge strongly urges commutation in this matter, we therefore, recommend that commutation of his minimum sentence be granted.

Respectfully submitted,

M. HARVEY TAYLOR, Acting
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.

WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of James Lambert, B-4553, No. 6729, October Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed upon James Lambert, convicted of murder in the second degree and robbery in the Court of Oyer and Terminer of Allegheny County on May 24, 1935, be commuted on Bill No. 13 May Sessions, 1935, from a maximum term of 10 years to a maximum term of 2 years and 8 months, expiring on November 25, 1950.

Our reasons for making this recommendation are as follows:

This applicant is forty-nine years of age and this was his first major conviction. He was sentenced to a term of imprisonment in the Western State Penitentiary for from fifteen to thirty years on a charge of murder in the second degree and robbery. After having served thirteen years of his minimum sentence, his sentence was commuted and he was released on parole on May 6, 1948. He has now been on parole over two and one-half years.

He has learned the trade of interior decorator and desires to go into business for himself, although he feels he would not be able to do this if he was on parole. He has a good record on parole and he has less than four and one-half years yet to serve before his maximum sentence would expire. This applicant has been in no further trouble, has remarried and he is well-established socially.

We feel that he will not again offend against society and since there is no opposition from the sentencing authorities in Allegheny County, the Board of Pardons is recommending that his maximum sentence be commuted.

Respectfully submitted,

NOT SITTING
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of William Major, D-9059, No. 9569, October Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of William Major, convicted of robbery in the Court of Oyer and Terminer of Philadelphia County on August 9, 1946, to be computed from July 18, 1946, be commuted from 5 years to 4 years, 4 months and 10 days, expiring on November 28, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-eight years of age and this was his first major conviction. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for

from five to ten years on a charge of robbery. There is no doubt but that the applicant participated in the robbery. The only question here is should this sentence be commuted because the applicant is blind. He has an excellent institutional record and because of his affliction it is necessary to have another prisoner assigned to look after him. He is, of course, the butt of many practical jokes because of his affliction. He, nevertheless, has borne the kidding with good nature. He is a recipient of a blind pension.

He has now served nearly four and one-half years of his minimum sentence of five years, has an excellent institutional record. The trial judge deems the application premature, and the district attorney of Philadelphia County leaves the matter of commutation up to the Board of Pardons. The Board of Pardons feels that this application is not premature as this applicant has served a goodly portion of his minimum sentence, and we are, therefore, recommend to Your Excellency that the sentence of the applicant be commuted.

Respectfully submitted,

NOT SITTING

Lieutenant-Governor.

GENE D. SMITH,

Secretary of the Commonwealth.

CHARLES J. MARGIOTTI,

Attorney General.

WILLIAM S. LIVENGOD, JR.,

The above recommendation is approved:

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

In re application of Walter Molin, C-2159, No. 6429, October Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the life sentence of Walter Molin, convicted of murder in the first degree in the Court of Quarter Sessions of Northampton County on June 14, 1923 be commuted from life imprisonment to 27 years, 6 months and 17 days, expiring on December 21, 1950.

Our reasons for making this recommendation are as follows:

This applicant is forty-nine years of age and this was his first major conviction. He received a life sentence and at the present time has spent over one-half of his natural life in an institution.

He has an outstanding record in the Eastern State Penitentiary. At the present time he has served over twenty-seven and one-half years of a life sentence.

The trial judge who tried this case is deceased, but the present judge, Honorable William T. Barthold, states he is opposed to the granting of mercy.

The Board of Pardons is of the opinion that this applicant is entitled to some consideration because of the length of time he has served and the excellent record he has maintained in the Eastern State Penitentiary. Because of these facts, we recommend that commutation be granted.

Respectfully submitted,

M. HARVEY TAYLOR, Acting

Lieutenant-Governor.

GENE D. SMITH,

Secretary of the Commonwealth.

CHARLES J. MARGIOTTI,

Attorney General.

WILLIAM S. LIVENGOD, JR.,

Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Charles Monk, convicted of assault, being armed with an offensive weapon with intent to rob in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on October 27, 1941 to be computed from October 14, 1941, be commuted from 10 years to 9 years, 1 month and 10 days, expiring on November 24, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-three years of age and this was his first major conviction. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from ten to twenty years on a charge of assault, being armed with an offensive weapon with intent to rob. His accomplice was sentenced to a term of imprisonment in the Eastern State Penitentiary for from three to nine years. After having served approximately three years and nine months, the accomplice's sentence was commuted and he was released on parole. This applicant has now served over nine years of his minimum sentence of ten years.

The Board of Trustees of the Eastern State Penitentiary state that this applicant has an excellent institutional record although he is sometimes regarded temperamental and impulsive. The trial judge, Honorable Harry S. McDevitt, is now deceased and we have no opinion from the present judge as to whether or not this applicant should be released. The district attorney of Philadelphia County leaves the matter up to the Board of Pardons.

Since this applicant has served nine-tenths of his minimum sentence and has an excellent institutional record and the district attorney of Philadelphia County has no objection to the granting of commutation; the Board of Pardons recommends that commutation be granted.

Respectfully submitted,

NOT SITTING

Lieutenant-Governor.

GENE D. SMITH,

Secretary of the Commonwealth.

CHARLES J. MARGIOTTI,

Attorney General.

WILLIAM S. LIVENGOD, JR.,

Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

In re application of Paul Francis Perry, No. A-454, October Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the death sentence of Paul Francis Perry, convicted of murder in the First Degree in the Court of Oyer and Terminer and General Jail Delivery of Bradford County on October 10, 1949, be commuted from death to life imprisonment.

Our reasons for making this recommendation are as follows:

This applicant is thirty-nine years of age and is presently under sentence of death for the murder of his wife. The theory of his case and defense was on the basis of accidental killing. The private prosecutors, W. G. Schrier and Maurice L. Epstein, appeared before the Board of Pardons and stated there was sufficient cause for mitigation of the death sentence and the defense of intoxication been raised. However, this was not done and the applicant was convicted.

When the Board of Pardons first heard this case, they refused recommendation of clemency and it was after this refusal to recommend clemency, there appeared in the newspapers of Bradford County certain articles wherein it was stated that the private prosecutors were of the opinion that the Board of Pardons should have granted clemency in this matter.

The Board of Pardons thereupon requested that a reargument be had and that the private prosecutors appear before the Board. This was done and at that meeting Maurice Epstein, one of the private prosecutors, stated to the Board that there was sufficient doubt in this matter to be resolved in favor of the defendant, and the defendant should have his sentence commuted to life imprisonment. W. G. Schrier, also counsel for the prosecution, stated privately that had he been counsel for the defendant, he would have pled the defense of intoxication with more vigor than was displayed in the applicant's case and he believes that the jury, under these circumstances, would have recommended life imprisonment. However, both the judge and district attorney feel that this applicant should receive no further clemency.

The Board, having heard from the private prosecutors, feels that there are a great deal of matters in this case which deserve our deep consideration and the Board of Pardons gave very serious thought to all aspects of the matters before us, and, after having considered it from all aspects, we are of the opinion that the ends of justice would be served in this case by commuting the sentence to life imprisonment. It is the unanimous recommendation of the members of the Board who sat and heard this case, that this applicant is entitled to a recommendation of commutation of sentence to life imprisonment. We do this, having fully considered both the trial judge and the district attorney's attitude in the matter.

Therefore, under all of the circumstances, we recommend to Your Excellency that the sentence of Paul Francis Perry be commuted to life imprisonment.

Respectfully submitted,

NOT SITTING

Lieutenant-Governor.

GENE D. SMITH,

Secretary of the Commonwealth.

CHARLES J. MARGIOTTI,

Attorney General.

WILLIAM S. LIVENGOD, JR.,

Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

In re application of Floyd T. Rager, B-8654, No. 8945, October Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Floyd T. Rager, convicted of burglary in the Court of Oyer and Terminer of Allegheny County, on April 26, 1943, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is thirty years of age and this was his first major conviction. He was sentenced to a term of imprisonment in the Western State Penitentiary for from

ten to twenty years on a charge of burglary. After having served approximately four and one-half years of his minimum sentence, he was released on parole. At the present time he has served approximately three years on parole.

This is not a true case of burglary. The applicant pawned his uncle's clothing at the request of his aunt and received \$16.00 for them. After he was placed in prison, the aunt then came to jail and promised to secure legal assistance for him, and at her request he gave her money to secure legal counsel which she failed to do. She counseled applicant to plead guilty.

Since this is not a true case of burglary, this applicant should not be on parole nor should he have been sentenced for this case, even though the Board of Parole is reluctant to recommend a pardon. We feel that this applicant should not have plead guilty to the original crime and he should receive a pardon. This applicant was not aware of his rights and did not know what he was doing when he pled guilty to this offense.

The trial judge, Honorable William G. McDonald, wrote the Board of Pardons in 1947 and recommended clemency. He is since deceased and the Honorable Frank T. Patterson, has written us a letter in which he states he has no recommendation to make not being familiar with the facts. The district attorney of Allegheny County stated to the Board of Pardons that he leaves the matter up to the Board.

Since this applicant had no counsel at the time he pled guilty and since he was not legally guilty of the crime of burglary, we feel he should not be serving a sentence either on parole or in prison for a thing that was not a crime.

Under those circumstances, no crime having been committed, the Board of Pardons recommends that the record thereof be wiped out and a complete pardon be granted the applicant.

Respectfully submitted,

NOT SITTING

Lieutenant-Governor.

GENE D. SMITH,

Secretary of the Commonwealth.

CHARLES J. MARGIOTTI,

Attorney General.

WILLIAM S. LIVENGOD, JR.,

Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

In re application of William J. Ramsbottom, No. A-415, October Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that William J. Ramsbottom, convicted of rape, adultery in the Court of Quarter Sessions of Philadelphia County, on March 17, 1943, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is forty-two years of age and this was his first conviction. He was sentenced on a charge of statutory rape for having intercourse with a girl sixteen years of age; the Board has been advised of her mature appearance. She willingly consented to the act of intercourse. However, her parents, learning of her actions with the applicant, immediately brought criminal action against him.

The applicant served the sentence and for the past seven years has been in no further difficulty. The applicant is now in the roofing business for himself and his son and has a good reputation in the community in which he lives. For the benefit of his family and his business, he has asked that he be granted this pardon.

In view of the fact that for the past seven years the applicant has been in no difficulty whatsoever, and has maintained a good reputation in his community, the Board of Pardons is recommending that a pardon be granted.

Respectfully submitted,

NOT SITTING
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of John Henry Reed, B-8452, No. 7765, October Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of John Henry Reed, convicted of burglary, robbery, being armed with an offensive weapon in the Court of Oyer and Terminer of Allegheny County on January 13, 1943 to be computed from November 28, 1942 be commuted from 10 years to 8 years expiring on November 28, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty years of age and has no prior criminal record. He was sentenced to a term of imprisonment in the Western State Penitentiary for from ten to twenty years on a charge of burglary, robbery, being armed with an offensive weapon. What this applicant actually did was to rent his car to the other individuals and they committed the crimes of burglary and robbery. When the accomplices were apprehended, the applicant was likewise apprehended. He cooperated with the police to the fullest extent. The applicant pled guilty to this offense. At the present time he has served approximately eight years of a minimum sentence of ten years. He is a first offender.

The trial judge, Honorable John P. Egan, is ill and has not written the Board of Pardons his opinion in the matter. The district attorney of Allegheny County said to the Board that his office is not opposed to the granting of commutation in this matter. The Board of Trustees of the Western State Penitentiary have informed the Board of Pardons that this applicant has an excellent institutional record and if he were eligible for parole, they would recommend.

In view of the fact that this applicant has served over four-fifths of his minimum sentence, the Board of Pardons is recommending that he be granted commutation of his minimum sentence.

Respectfully submitted,

NOT SITTING
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of William Rullo, D-9800, No. A-488, October Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of William Rullo, convicted of robbery, being armed with an offensive weapon in the Court of Quarter Sessions of Philadelphia County on July 30, 1947 to be computed from July 21, 1947, be commuted from 10 years to 3 years and 4 months, expiring on November 21, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-nine years of age and this was his first major conviction. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from ten to twenty years on a charge of robbery, being armed with an offensive weapon. At the present time he has served three years and four months of his minimum sentence.

This applicant did not participate in the robbery whatsoever, but had merely mentioned to the accomplices, who later robbed the office, that the payroll was usually brought to the office where he was employed on a particular day in the week. Several weeks later the accomplices came to the place where the defendant was employed and held up nine employees. They, however, missed the payroll, but secured \$75.00.

The Board of Trustees of the Eastern State Penitentiary have written the Board of Pardons and stated that they have no objection to his release on parole at this time. The trial judge is deceased and no comment has been made by the court whether or not the applicant has served sufficient time. The district attorney of Philadelphia County states that he believes this applicant has been sufficiently punished and has served enough time and recommends that his sentence be commuted.

Because of the applicant's excellent institutional record and the fact he has served nearly one-half of his minimum sentence, and the further fact that the district attorney of Philadelphia County recommends that the sentence be commuted; we are recommending that the applicant's sentence be commuted at this time.

Respectfully submitted,

NOT SITTING
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Frank Sansone, No. A-430, October Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Frank Sansone, convicted of assault with intent to rob, robbery, and breaking and entering in the Court of Quarter Sessions of Philadelphia County on November 26, 1928, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is forty-one years of age and this charge of assault with intent to rob, robbery, and breaking and entering is the only conviction that this applicant has

ever had. This occurred in 1928 and the applicant was in no further difficulty.

The Board of Parole has made an investigation and determined this applicant is a good family man, sober, industrious and a good worker. At the present time he has a parking concession at Palumbo's Restaurant in Philadelphia. He is maintaining a wife and step-son.

We believe that this applicant has learned his lesson and in view of the many recommendations which we have received, both orally and written, we are recommending that a pardon be granted.

Respectfully submitted,

NOT SITTING

Lieutenant-Governor.

GENE D. SMITH,

Secretary of the Commonwealth.

CHARLES J. MARGIOTTI,

Attorney General.

WILLIAM S. LIVENGOOD, JR.,

Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

In re application of Joseph Scheuren, C- 7825, No. 3680, October Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed upon Joseph Scheuren, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on March 7, 1932, be commuted on Bill No. 1622 February Sessions, 1932, from a maximum term of 20 years to a maximum term of 11 years and 4 months, expiring on December 9, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-nine years of age and this was his first major conviction. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from twenty to sixty years on a charge of robbery, being armed with an offensive weapon together with three accomplices. Although this was the applicant's first major conviction he served a major portion of his sentence before receiving commutation. He has been on parole for more than eleven years and has been in no further difficulty.

The Board of Parole has written the Board of Pardons and stated that this applicant has been on parole for eleven years during which time his conduct has been entirely satisfactory. The Board of Parole would have no objection to the termination of his parole. The trial judge is deceased and there is no comment prior to his death. The court has no comment to make in this matter. The district attorney of Philadelphia County states he has no objection to commutation of the maximum sentence.

The applicant is gainfully employed and in the light of the recommendation of the Board of Parole, we are recommending that the maximum sentence of the applicant be commuted.

Respectfully submitted,

NOT SITTING

Lieutenant-Governor.

GENE D. SMITH,

Secretary of the Commonwealth.

CHARLES J. MARGIOTTI,

Attorney General.

WILLIAM S. LIVENGOOD, JR.,

Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

In re application of James J. Sweeney, D-7279, No. 9420, October Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of James J. Sweeney, convicted of robbery, being armed with an offensive weapon, burglary in the Court of Quarter Sessions of Philadelphia County on July 1, 1943 to be computed from June 21, 1943, be commuted from 11 years to 7 years and 5 months, expiring on November 21, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-eight years of age and this was his first offense for any crime whatsoever. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from eleven to twenty-two years. He and his accomplices committed the crime of robbery, being armed and burglary, although the total amount of loot involved did not exceed \$35,000. At the present time the applicant has served seven years and five months of his minimum record in the Eastern State Penitentiary.

The trial judge, Honorable Vincent Carroll, although originally recommending that he was opposed to commutation, later he is alleged to have changed his opinion and to have advised the applicant's attorney that he left the matter of commutation up to the Board of Pardons. The district attorney of Philadelphia County states he leaves the matter of commutation up to the Board of Pardons.

Since the applicant has no prior criminal record and has now served seven years and five months of his minimum sentence and there is no opposition to the commutation of sentence at this time, the Board recommends that commutation of his minimum sentence be granted.

Respectfully submitted,

NOT SITTING

Lieutenant-Governor.

GENE D. SMITH,

Secretary of the Commonwealth.

CHARLES J. MARGIOTTI,

Attorney General.

WILLIAM S. LIVENGOOD, JR.,

Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,

Governor.

BOARD OF PARDONS

In re application of Milan P. Vukovich, D-9005, No. 9064, October Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Milan P. Vukovich, convicted of manslaughter, in the Court of Quarter Sessions of Luzerne County on April 29, 1946 to be computed from February 15, 1946, be commuted from 10 years to 4 years 10 months and 10 days, expiring on December 25, 1950.

Our reasons for making this recommendation are as follows:

This applicant is forty-one years of age and this is the only offense for which he has ever been convicted. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from five to ten years on a charge of

manslaughter. After having served approximately two and three-fourths years of his minimum sentence, he was released on parole. He now asks commutation of his maximum sentence.

This applicant served in the armed forces of the United States during the last war, serving in the Aleutian Islands. As a result, of said service he received a service connected back injury and now receives a pension. He desires to visit his mother in Yugoslavia, who is quite old, and in order to return to this country at a later date he will have to be relieved of parole supervision. For this reason he asks commutation of his maximum sentence.

The Board of Parole states he has a good record and they are not opposed to the commutation of his maximum sentence.

The Board of Pardons, therefore recommends that commutation of his maximum sentence be granted.

Respectfully submitted,

M. HARVEY TAYLOR, Acting
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Roy Calvin Wigfield, B-9272, No. 9514, October Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Roy Calvin Wigfield, convicted of burglary, in the Court of Quarter Sessions of Bedford County on April 16, 1945, to be computed from March 9, 1945 be commuted from 10 years to 5 years, 9 months and 11 days, expiring on December 20, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-five years of age and has no prior conviction for any offense. He and an accomplice broke into summer cottages, fifteen in number, looting them and selling the loot for their profits.

At the present time, the applicant has served five years and eight months of his minimum sentence of ten years. His accomplice, who was equally guilty, was only sentenced to a term of three to six years and has been out of prison for almost two years.

The trial judge, Honorable J. Calvin Wright, has written the Board of Pardons and stated he leaves the matter of commutation up to the Board of Pardons. The district attorney of Bedford County has no comment to make.

This applicant received a very substantial sentence, more than his accomplice did, and for that reason we feel he is entitled to some consideration at this time, having served almost six years of a minimum sentence of ten years; and since all the accomplices are free, we feel this applicant should be given some consideration, and we, therefore, recommend that his minimum sentence be commuted.

Respectfully submitted,

M. HARVEY TAYLOR, Acting
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Charles Carmel Arnone, No. 8241, November Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Charles Carmel Arnone, convicted of burglary, in the Court of Quarter Sessions of Luzerne County on October 8, 1947, to be computed from December 23, 1949, be commuted from 3 years to 1 year, expiring on December 23, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty years of age and this was his first major conviction although he had heretofore been sentenced to shorter terms in the county prison. He was sentenced to a term of imprisonment in the Luzerne County Prison for from three to six years on a charge of burglary. At the time he was sentenced, he was on parole on another charge and the judge gave him this sentence to run concurrently with the back parole time, not being familiar with the Wheeler and Lerner case which said sentence was illegal. It was his determination that the applicant should serve three years including his back parole time. At the present time, he has served but one year by reason of the Lerner case.

Under all the circumstances, the trial judge recommended commutation after having served three years. This has expired. The Warden of Luzerne County Prison states he has an excellent institutional record and the district attorney does not oppose the granting of commutation.

If it is in the opinion of the authorities that this applicant should not serve more than three years and the Warden has expressed himself that he believes this applicant is rehabilitated, we concur in their recommendation, and therefore, suggest that the sentence be commuted.

Respectfully submitted,

M. HARVEY TAYLOR, Acting
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Thomas J. Bethea, D-8195, B-9638, No. 9563, November Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Thomas J. Bethea, convicted of robbery, larceny, burglary in the Court of Oyer & Terminer and Quarter Sessions of Dauphin County on March 19, 1945 to be computed from February 16, 1945 be commuted from 7 years to 5 years and 10 months, expiring on December 16, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-four years of age and he has no prior criminal record. He was sentenced to a term of

imprisonment in the Eastern State Penitentiary for from seven to twenty-nine years on charges of robbery, larceny and burglary, after a plea of guilty. At the present time, he has served approximately six year of his minimum sentence of seven years.

The district attorney of Dauphin County leaves the matter of commutation up to the Board of Pardons.

Since this applicant has no prior criminal record and there is no opposition to his release by any of the sentencing authorities of Dauphin County and he has an excellent institutional record; the Board of Pardons recommends that the minimum sentence of the applicant be commuted.

Respectfully submitted,

M. HARVEY TAYLOR,
Acting Lieutenant Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Gerald Bracey, No. A-535, November Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Gerald Bracey, convicted of obtaining money under false pretense in the Court of Quarter Sessions of Schuylkill County on January 23, 1950 to be computed from January 18, 1950, be commuted from 2½ years to 1 year and 3 months, expiring on April 18, 1951.

Our reasons for making this recommendation are as follows:

This applicant is twenty-eight years of age and this was his first conviction. He was sentenced to a term of imprisonment in the Schuylkill County Prison for from two and one-half to five years on a charge of obtaining money under false pretense. The false pretense amounted to obtaining \$20.00 on the pretense that the money was to be used for 'equipping a veterans' basketball team which did not exist. The applicant has now served nearly one year of this minimum sentence.

The Board of Pardons feels that the sentence of two and one-half years is a very stiff sentence under all the circumstances and we feel that the sentence of fifteen months more in keeping with the severity of the crime. We are, therefore, recommending to Your Excellency that this applicant's sentence be commuted to fifteen months, expiring on April 18, 1951.

Respectfully submitted,

M. HARVEY TAYLOR,
Acting Lieutenant Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Henry Johnson Brooks, B-1685, No. 4027, November Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the life sentence of Henry Johnson Brooks, convicted of murder in the first degree in the Court of Oyer and Terminer of Allegheny County on November 12, 1929, be commuted from life imprisonment to 21 years, 1 month and 10 days, expiring on December 22, 1950.

Our reasons for making this recommendation are as follows:

This applicant is fifty-two years of age and this is his first major conviction. At the present time, he has served over twenty-one years of a life sentence. The record shows that this applicant pled guilty to a crime of murder generally and that the court fixed the sentence to life imprisonment.

The trial judge is no longer on the bench, and the present judge, Honorable Frank P. Patterson, makes no objection but leaves it up to the discretion of the Board. The district attorney of Allegheny County, at the session of the Board stated that his office is no opposed to granting of commutation in this matter. The Board of Trustees of the Western State Penitentiary state that this applicant has an excellent institutional record and if he was eligible for parole, they would recommend.

The parole plan which is offered is satisfactory, therefore, under all the circumstances, we feel that this applicant has been sufficiently punished through the service of over twenty-one years in the institution on this charge. We are, therefore, recommending that this applicant's sentence be commuted.

Respectfully submitted,

M. HARVEY TAYLOR,
Acting Lieutenant Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Robert C. Buckley, D-8557, No. 9586, November Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Robert C. Buckley, convicted of burglary, larceny, attempted robbery, larceny of automobile, in the Court of Oyer and Terminer of Northampton County, on December 13, 1943 to be computed from January 5, 1944 be commuted from 9 years to 6 years, 11 months and 15 days, expiring on December 20, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-seven years of age and he was sentenced for a spree of crimes in the counties of Northampton, Lehigh and Bucks, which involved the theft of automobiles, burglaries and larcenies. The crime wave lasted for a period of approximately one month. The applicant does not have a good prior criminal record, but he did receive a very stiff sentence, in all, totaling eleven to twenty-two years. At the present time, he has served approximately seven years of those eleven years.

The Board of Trustees of the Eastern State Penitentiary state that the applicant has an excellent institutional record. All of the district attorney of the counties involved leave the matter of commutation up to the Board

of Pardons as to whether commutation should be granted. Trial Judges Henninger and Keller have written the Board of Pardons and stated they are not opposed to the granting of commutation. The only person who is opposed is Honorable William G. Barthold, of Northampton County and he was not the sentencing judge in that county. All the accomplices in all of these crimes have served their sentence and have been on parole.

Under all the circumstances, we feel that this applicant has had a pretty heavy sentence and we are recommending that the sentence which he is not serving be commuted and that he be released on parole.

Respectfully submitted,

M. HARVEY TAYLOR, Acting
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Thomas J. Burke, D-3711, No. 6366, November Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Thomas J. Burke, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on January 27, 1939 to be computed from December 17, 1938 be commuted from 25 years to 12 years, expiring on December 17, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-two years of age and this was his first major conviction. He was sentenced along with five accomplices for a series of armed robberies. There were forty-seven armed robberies in all. At the present time, he has served approximately twelve years of his minimum sentence of twenty-five years.

The Board of Trustees of the Eastern State Penitentiary, in reporting to us, state his disciplinary record and prison adjustment are reported excellent. The trial judge, Honorable Gerald F. Flood, states he is no longer familiar with this applicant's case and has no helpful information to give the Board of Pardons. The district attorney of Philadelphia County, in his appearance before the Board, stated he leaves the matter of commutation up to the Board of Pardons. Two of the applicant's accomplices who had no worse criminal record than he did, received commutation of their sentences and are presently on parole.

Since the sentencing authorities have no objection to his release and has a very good parole plan and has served over one-half of his minimum sentence; the Board of Pardons is recommending that his minimum sentence of twenty-five years be commuted and he be placed on parole.

Respectfully submitted,

M. HARVEY TAYLOR, Acting
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of William Charlton, D-9677, No. 9584, November Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of William Charlton, convicted of burglary, assault and battery with intent to kill, violation of the Firearms Act, in the Court of Quarter Sessions of Delaware County on June 9, 1947, be commuted from 10 years to 3 years, 6 months and 10 days, expiring on December 19, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-five years of age and he was sentenced for the first time in this case to a term of imprisonment in the Eastern State Penitentiary for from ten to twenty years on a charge of burglary, assault and battery with intent to kill and violation of the Firearms Act.

The Board of Trustees of the Eastern State Penitentiary states that this applicant has a good disciplinary record and the work supervisor gives a favorable report. The trial judge is no longer on the bench and the present judge refuse to give information in this matter. The district attorney of Delaware County states he is not opposed to the granting of commutation as prayed for.

Since this applicant had no prior criminal record and was just twenty-one years of age when these offenses occurred, we feel the applicant has been severely punished and since he has a good institutional record and there is no opposition from the sentencing authorities; we are recommending that his sentence be commuted.

Respectfully submitted,

M. HARVEY TAYLOR, Acting
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Charles Daisy, B-4733, No. 4523, November Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Charles Daisy, convicted of robbery in the Court of Oyer and Terminer of Cambria County on October 7, 1935 be commuted from 20 years to 15 years, 2 months and 20 days, expiring on December 27, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-seven years of age and this was his first conviction for any offense whatsoever. He was sentenced to a term of imprisonment in the Western State Penitentiary for from ten to twenty years on a charge of robbery.

After having served approximately eight years of his minimum sentence he was released on parole. He was

suffering from tuberculous and was confined to light work. He has since had his tuberculous arrested. He married in 1946 and he and his wife are living together in New York City. In the past years his health has improved and he has continued to adjust satisfactorily.

We have no report from either the trial judge of district attorney in this matter.

Since the applicant has served both in prison and on parole a term equal to three-fourths of his maximum sentence with a nexcellent record, the Board of Pardons is recommending that the commutation of his maximum sentence be granted.

Respectfully submitted,

M. HARVEY TAYLOR, Acting
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Bernard J. Delporto, No. 66742, No A-411, November Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the flat sentence of Bernard J. Delporto, convicted of false pretense in the Court of Quarter Sessions of Erie County on September 14, 1949, be commuted from 2½ years to 1 year, 3 months and 20 days, expiring on December 24, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-four years of age and this was his first arrest for any offense whatsoever. He got into this difficulty through poor management in business and heavy involvement in debt. He borrowed money on cars which he had in his used car business and then when he sold cars, he was unable to give good title or return the money. He became involved with drink and gambling and this brought him to his present difficulties. At the present time, this applicant has served one year and two months of his sentence.

The Warden of the Allegheny County Workhouse states the applicant has an excellent institution record. The trial judge, Honorable Burton R. Laub, has written and stated he is not opposed to the granting of clemency in this matter. The district attorney of Erie County is not opposed.

Under all the circumstances, we feel that this applicant has been severely punished, and we, therefore, recommend that his sentence be commuted.

Respectfully submitted,

M. HARVEY TAYLOR, Acting
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Joseph Dendall, D-3024, No. A-548, November Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Joseph Dendall, convicted of robbery, being armed with an offensive weapon in the Court of Quarter Sessions of Philadelphia County on April 12, 1938 to be computed from April 7, 1938, be commuted from 40 years to 12 years, 8 months and 10 days, expiring on December 17, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-eight years of age and he pled guilty to twenty-six charges of robbery, being armed with an offensive weapon and was thereupon sentenced to a term of imprisonment in the Eastern State Penitentiary for from forty to eighty years. At the present time, he has served approximately thirteen years of his minimum sentence.

The Board of Trustees of the Eastern State Penitentiary stated that this applicant has an outstanding institutional record. He is now working in he print shop and, if granted commutation, will be employed and under the supervision of the very same men who have him in charge in the Eastern State Penitentiary. The trial judge, Honorable Burtis Bok, has written a letter to the Board of Pardons in which he recommends that comutation be granted. The district attorney of Philadelphia County, who appeared before the Board, leaves the matter of commutation up to the Board of Pardons. This applicant's accomplice has been released by reason of the expiration of his minimum sentence.

Under all of the circumstances, the Board of Pardons feels that this applicant has been sufficiently punished and should be given another opportunity to adjust to society. We are, therefore, recomemding that this applicant's minimum sentence be commuted.

Respectfully submitted,

M. HARVEY TAYLOR, Acting
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Louis H. Enke, C-5450, No. 5200 November Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Louis H. Enke, convicted of murder in the first degree in the Court of Oyer and Terminer of Luzerne County on June 10, 1929, be commuted from life to 21 years, 6 months and 20 days, expiring on December 30, 1950.

Our reasons for making this recommendation are as follows:

This applicant is forty-eight years of age and this is not the first time he has been convicted of offenses. In fact, he had five previous arrests and five convictions and one parole violation. However, most of the offenses oc-

curred between his sixteen and twenty-six years. The fact that he has spent nearly sixteen years of his life in prison for murder has been a sobering influence on this applicant.

He has also been living in Washington, D. C., with his sister and brother-in-law since his release from the Eastern State Penitentiary. At the present time, this applicant's physical condition is poor and he desires this release from commutation of his maximum sentence because of the long period of years he has been under supervision.

The District of Columbia Parole Supervision office reports an excellent record and recommends that commutation be granted. The trial judge, Honorable John S. Fine, has written the Board of Pardons and stated he is not opposed to the commutation as prayed for.

Under all these circumstances, we feel he has been under sufficient supervision to prove he is rehabilitated, and we, therefore, recommend that his sentence be commuted.

Respectfully submitted,

M. HARVEY TAYLOR, Acting
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Matthew J. Fekete, No. 63911, No. A-255, November Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Matthew J. Fekete, convicted of assault and battery with intent to commit robbery in the Court of Oyer and Terminer of Fayette County on April 1, 1948 to be computed from March 6, 1948 be commuted from 5 years to 2 years, 9 months and 17 days, expiring on December 23, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-five years of age and he was sentenced to a term of imprisonment in the Allegheny County Workhouse for from five to ten years on a charge of assault and battery with intent to commit robbery. This is the applicant's first major conviction and he has now served one-half of his minimum sentence.

If released, this applicant intends to return to his home in New Jersey and plans to enter Rutgers University to complete a higher education. The State of New Jersey has indicated that his parole is acceptable and they are willing to accept him. Since this applicant has now served two and three-fourths years of his minimum sentence, we feel that he should be given an opportunity to rehabilitate himself.

Since this was his first major conviction and he has served more than half of his sentence, we feel he has been adequately punished and further incarceration will have no useful effect.

Therefore, under all the circumstances, we feel that we can release this applicant at this time, and therefore, recommend to Your Excellency that his minimum sentence be commuted.

Respectfully submitted,

M. HARVEY TAYLOR, Acting
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.

CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of George J. Gallagher, D-8187, No. A-453, November Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the flat sentence of George J. Gallagher, convicted of extortion in the Court of Quarter Sessions of Philadelphia County on June 15, 1949 to be computed from January 12, 1950, be commuted from 3 years to 11 months and 8 days, expiring on December 20, 1950.

Our reasons for making this recommendation are as follows:

This applicant is fifty-eight years of age and this is the first time he was convicted of any offense whatsoever. He was sentenced to a term of imprisonment in the Philadelphia County Prison for three years on a charge of extortion. This applicant also received a fine of \$4,000. This has been paid in full.

This applicant was very severely punished by reason of this conviction and if granted commutation will be able to re-establish himself with his family. His daughter, to whom he is deeply attached, has suffered incalculable distress because of the trial and imprisonment of the applicant and her illness has been aggravated by this conviction.

We do not condone the applicant's acts in this matter, however, we do not feel that further incarceration should only cause this defendant further shame and embarrassment as that which occurred upon his entry behind prison walls.

The Board of Pardons believes that this applicant has been adequately punished, and we are, therefore, recommending at this time that the sentence of the applicant be commuted as of December 20, 1950, at which time he will have served approximately one year of his sentence.

Respectfully submitted,

M. HARVEY TAYLOR, Acting
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of William J. Gatto, D-9633, No. A-525, November Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of William J. Gatto, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer and Quarter Sessions of Lackawanna County on May 14, 1947 to be computed from February 25, 1947, be commuted from 5 years to 3 years and 10 months, expiring on December 25, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-three years of age and this was his first major conviction. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from five to ten years on a charge of robbery, being armed with an offensive weapon. At the present time he has served approximately four years of his minimum sentence.

The Board of Trustees of the Eastern State Penitentiary report that this applicant has an excellent institutional record and they would have no objection to his release at this time. The trial judge, Honorable Michael Eagen, made no comment to our request for his opinion. The district attorney of Lackawanna County state he has no objection to granting of the petition as prayed for.

The applicant's accomplice was only given a sentence of twenty-three months. He was released nearly two years ago.

We feel that this applicant should be given the same consideration, and we are, therefore, recommending that his minimum sentence be commuted.

Respectfully submitted,

M. HARVEY TAYLOR, Acting
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Floyd Bruce Goodwin, B-9992, No. 5778, November Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Floyd Bruce Goodwin, convicted of breaking and escaping penitentiary, larceny in the Court of Quarter Sessions of Centre County on August 9, 1944 to be computed from January 19, 1947, be commuted from 6 years to 3 years, 11 months and 2 days, expiring on December 21, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-nine years of age and this is his first major conviction. However, heretofore he served time in the county jail and in the Pennsylvania Industrial School. He was sentenced on a charge of breaking and escaping penitentiary and was apprehended a few days after his escape in the State of Maryland. Since this applicant originally received a sentence for from seven to twenty-five years, and he is now serving time for his escape this applicant has been continuously confined for more than ten years but for the few days he was an escapee.

The Board of Trustees of the Western State Penitentiary have written the Board of Pardons and stated that this applicant has an excellent institutional record and they would recommend even though he was an escapee. The district attorney states he has no objection to the commutation if he realizes his guilt and admits the error of his ways.

Since this applicant has served nearly four years of a minimum sentence of six years, we realize that he has been severely punished and that after ten years in prison deserves some consideration. We, therefore, recommend that his minimum sentence be commuted.

Respectfully submitted,

M. HARVEY TAYLOR, Acting
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Rufus Henderson, D-6147, No. 9116, November Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Rufus Henderson, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer of Philadelphia County on December 9, 1941 to be computed from November 28, 1941, be commuted from 20 years to 9 years and 20 days, expiring on December 18, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-two years of age and this was his first major conviction. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from twenty to forty years for eight armed robberies. At the present time, the applicant has served approximately nine years of his minimum sentence.

He has a very satisfactory attitude in the Eastern State Penitentiary and they recommend that he be given an opportunity on parole. He has an excellent parole plan which the Board of Parole recommends be accepted with employment offered. Lieutenant Patrick H. Taylor, of the Bureau of Police, Detective Division, of the City of Harrisburg, Pennsylvania, has offered himself as sponsor and since he is known to the members of the Board, we feel he will be able to guide this applicant along the proper path.

No opposition is made to the prayer of the petition by the sentencing authorities.

Under all of these circumstances, the Board of Pardons is recommending to Your Excellency that the applicant's minimum sentence be commuted.

Respectfully submitted,

M. HARVEY TAYLOR, Acting
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Karrell Alexander Heyman, B-8013, No. 8906, November Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum

sentence of Karrell Alexander Heyman, convicted of murder in the second degree in the Court of Oyer and Terminer of Allegheny County on February 5, 1942 to be computed from October 31, 1941 be commuted from 10 years to 9 years, 1 month and 30 days, expiring on December 21, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-two years of age and he has had no prior criminal record. He was sentenced to a term of imprisonment in the Western State Penitentiary for from ten to twenty years on a plea of guilty to murder generally. At the present time, he has served over nine years of his minimum sentence of ten years.

The evidence in this case indicates that this applicant is a dwarf and the victim was rather a large negress who was about forty pounds heavier and taller than the applicant. She had previously beat the applicant so that he feared her.

Under the circumstances, we feel that since this was the applicant's first conviction for any offense whatsoever, and that he has an excellent institutional record, that he is cooperative and trustworthy, he should be given an opportunity at this time to prove his rehabilitation. We would also like to call to Your Excellency's attention the fact that the district attorney of Allegheny County is not opposed to the granting of commutation as prayed for.

Under all of the circumstances, the Board of Pardons is of the opinion that this applicant has been sufficiently punished and in all probability will not again commit this offense or any other violation of the law; and we are, therefore, recommending that commutation of his minimum sentence be granted.

Respectfully submitted,

M. HARVEY TAYLOR, Acting
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
JAMES H. DUFF, Governor.

BOARD OF PARDONS

In re application of George Paul Hudak, C-984, No. A-406, November Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of George Paul Hudak, convicted of robbery, larceny, receiving stolen goods in the Court of Quarter Sessions of Westmoreland County on January 7, 1949 to be computed from December 8, 1948 be commuted from 3 years to 2 years and 12 days, expiring on December 20, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-two years of age and he was sentenced to a term of imprisonment in the Western State Penitentiary for from three to six years on a charge of robbery, larceny and receiving stolen goods. This applicant was sentenced on these charges after he held up and robbed the victim who he alleges made improper advances and had unnatural sexual relations with him.

The trial judge, Honorable Richard D. Laird, has written the Board of Pardons and stated that the victim was a shady character and had he and the applicant been tried together the applicant might not have been convicted and he leaves the matter of commutation up to the Board of Pardons. The district attorney of Westmoreland County

has no objection to the granting of commutation. The Board of Trustees of the Western State Penitentiary has advised that the applicant has an excellent institutional record but they do not recommend commutation of the sentence by nature of the crime committed.

We, however, feel that the applicant has served over two-thirds of his minimum sentence and that he should have his sentence commuted at this time and we so recommend.

Respectfully submitted,

M. HARVEY TAYLOR, Acting
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF, Governor.

BOARD OF PARDONS

In re application of Howard Walter Hutton, C-8701, No. 6455, November Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommended that the life sentence of Howard Walter Hutton, convicted of murder in the first degree in the Court of Oyer and Terminer and Quarter Sessions of Lycoming County on February 25, 1933, be commuted from life imprisonment to 17 years and 10 months, expiring on December 25, 1950.

Our reasons for making this recommendation are as follows:

This applicant is forty-two years of age and he had no prior criminal record. He was convicted of murder in the first degree and sentenced to life imprisonment in the Eastern State Penitentiary. At the present time, he has served nearly eighteen years of his life sentence. The crime occurred in the perpetration of a robbery on taxicab drivers in the City of Williamsport, Pennsylvania.

The Board of Trustees of the Eastern State Penitentiary state that this applicant has an excellent institutional record and he is regarded as a well-adjusted prisoner. The trial judge is deceased and the present judge, Honorable D. M. Larrabee, is opposed to the granting of commutation. The district attorney of Lycoming County also is opposed to the granting of commutation, although he was the trial district attorney. This applicant has learned the trade of barber and if released will follow in that occupation. He will reside with an aunt in New York City.

We feel that this applicant has been severely punished and since he had no prior criminal record, we do not feel he will again become involved with any criminal character. We, therefore, recommend clemency even though the authorities in Lycoming County do not agree.

Respectfully submitted,

M. HARVEY TAYLOR, Acting
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF, Governor.

BOARD OF PARDONS

In re application of Floy C. Jones, Jr., No. 68174, No. A-449, November Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Floy C. Jones, Jr., convicted of involuntary manslaughter in the Court of Quarter Sessions of Elk County on April 19, 1950, be commuted from 1 year to 8 months, expiring on December 19, 1950.

Our reasons for making this recommendation are as follows:

This applicant is forty-six years of age and this was his first arrest for any offense whatsoever. He was sentenced to a term of imprisonment in the Allegheny County Workhouse for whom one to three years on a charge of involuntary manslaughter growing out of an accident which occurred while the applicant was driving under the influence of intoxicating liquor.

This applicant has been severally punished for this offense. He had, just prior to this conviction for this offense, been elected district attorney of Armstrong County and had a very bright future before him as one of the younger members of the bar. This accident has caused a great deal of shame and sorrow to himself and his family. The victim's family will be well taken care of because the applicant was adequately protected by insurance for such an accident. The first day this applicant entered prison was the equivalent of his complete sentence being served.

We have no doubt that this applicant has completely rehabilitated himself and further incarceration will serve no useful purpose. We feel that this applicant will be adequately punished if he serves two-thirds of his minimum sentence of one year. We are, therefore, recommending that his sentence be commuted as of December 19, 1950, when he will have served eight months.

Respectfully submitted,

M. HARVEY TAYLOR, Acting
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Winfield Jones, D-6260, No. 8346, November Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Winfield Jones, convicted of murder in the second degree in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on January 22, 1942 to be computed from December 18, 1941, be commuted from 10 years to 9 years, expiring on December 18, 1950.

Our reasons for making this recommendation are as follows:

This applicant is fifty-three years of age and this is his first offense for which he has ever been sentenced. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from ten to twenty years on a charge of murder in the second degree after a plea of

guilty to murder generally. At the present time, he has served nine years of his minimum sentence of ten years.

The Board of Trustees of the Eastern State Penitentiary state that this applicant has an excellent institutional record and they would recommend him for parole. The trial judge, Honorable Joseph L. Kun, states that it probably would be helpful to give him benefit of commutation. The district attorney of Philadelphia County leaves the matter of commutation up to the Board of Pardons.

Since this applicant has served all but one year of his minimum sentence with an excellent institutional record and the definite recommendation from the trial judge, the Board of Pardons, is recommending commutation of his minimum sentence be granted.

Respectfully submitted,

M. HARVEY TAYLOR, Acting
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Edwin J. Kelley, 532-49, No. A-494, November Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Edwin J. Kelley, convicted of robbery, burglary, larceny, receiving stolen goods in the Court of Oyer and Terminer of Montgomery County on October 7, 1949 to be computed from May 31, 1949, be commuted from 3 years to 1 year and 7 months, expiring on December 31, 1950.

Our reasons for making this recommendation are as follows:

This applicant is forty-two years of age and this is his first major conviction. He has now served over one-half of his minimum sentence of three years.

The Warden of the Montgomery County Prison states that the applicant has a good institutional record and the trial judge, Honorable William J. Dannehower, has written the Board of Pardons and stated he recommends that the sentence be commuted. The district attorney of Montgomery County has not seen fit to advise us of his position. We have received petitions from many persons recommending this applicant for our consideration.

Since this was his first major conviction and the trial judge recommends it so vigorously and he has a satisfactory parole plan; we feel he has been sufficiently punished, and we, therefore, recommend that his minimum sentence be commuted.

Respectfully submitted,

M. HARVEY TAYLOR, Acting
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of William Kennedy, D-6270, No. 8175, November Sessions, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of William Kennedy, convicted of burglary with intent to rob, receiving stolen goods in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on January 26, 1942 to be computed from January 20, 1942 be commuted from 13 years to 8 years and 11 months, expiring on December 20, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty years of age and this was the first time he has been convicted of any offense whatever. He and two accomplices committed three burglaries and two holdups. For this, the applicant was sentenced to a term of imprisonment in the Eastern State Penitentiary for from thirteen to thirty years. At the present time, he has served almost nine years of his minimum sentence.

The Board of Trustees of the Eastern State Penitentiary state that this applicant has an excellent disciplinary record and the work supervisor cites an excellent attitude and adjustment. The trial judge, Honorable Joseph L. Kun, states that it seems that the defendant might be given the benefit of commutation. The district attorney of Philadelphia County appeared before the Board of Pardons and stated he leaves the matter of commutation up to the Board. We have no disposition of the applicant's accomplices.

Under all of the circumstances, the Board of Pardons feels that this applicant has been very severely punished and since the sentencing authorities recommend, and in the other instance, leave the matter of commutation up to the Board of Pardons; we feel that this applicant has been sufficiently punished, and therefore, recommend that this minimum sentence be commuted.

Respectfully submitted,

M. HARVEY TAYLOR, Acting
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Joseph Libonati, B-8294, No. 9714, November Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the life sentence of Joseph Libonati, convicted of murder in the first degree in the Court of Oyer and Terminer of Allegheny County on July 30, 1942 be commuted from life imprisonment to 8 years and 5 months, expiring on December 30, 1952.

Our reasons for making this recommendation are as follows:

This applicant is sixty-seven years of age and he was convicted of the crime of murder in the first degree and was sentenced to life imprisonment in the Western State Penitentiary on the commendation of the jury. This

applicant has now served nearly nine years of this sentence.

This was a very difficult case and it should be noted that the jury deliberated eighteen hours in this case. The entire build-up of evidence was circumstantial, but there were motives in that the victim had borrowed money from the applicant and had not repaid it. The applicant had been heard to say he would get the victim if she did not pay.

At the time of prior hearing it was announced to the Board of Pardons that the applicant had been systematically extorting money from an older man with whom she had been keeping company and there was a little black book in which some names of prominent persons appeared, but this book conveniently disappeared.

This applicant, prior to his conviction, had been employed by one company for a period of thirty-seven years. One of the strange facts about this case is that after the applicant was arrested the coroner's jury released him and then when he was arrested for the death of this victim, he was released on \$10,000.00 bail and remained at liberty until the jury found him guilty of murder in the first degree with life imprisonment, a period of eighteen months later.

The district attorney of Allegheny County stated he is not opposed to the granting of clemency in this matter because of the age of the applicant. The trial judge, Honorable J. Grank Graff, has written to the Board of Pardons and stated he leaves the matter of commutation up to the Board. The Board of Trustees of the Western State Penitentiary state that the applicant has an excellent institutional record.

Under all the circumstances, we feel that the applicant has been sufficiently punished and we do not feel he will again offend against society, and we are, therefore, recommending that his sentence be commuted.

Respectfully submitted,

M. HARVEY TAYLOR, Acting
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Steve Lozer, B-9521, No. 9093, November Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of imprisonment imposed upon the said Steve Lozer, convicted of robbery, being armed with an offensive weapon, larceny in the Court of Oyer and Terminer of Beaver County on February 1, 1946, to be computed from January 30, 1946; and convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer of Allegheny County on November 19, 1946; be commuted from a maximum term (Beaver County sentences) of 10 years to a maximum term of 4 years, 10 months and 19 days, expiring on December 19, 1950; and on Bill No. 88 (Allegheny County) from a minimum term of 5 years to a minimum term of 1 day, expiring on December 20, 1950. (Applicant has been granted parole on Beaver County sentences).

Our reasons for making this recommendation are as follows:

This applicant is twenty-seven years of age and he had

no prior criminal record. He was sentenced in both Beaver and Allegheny Counties on charges of larceny of automobiles, robbery of homes and taxicab drivers. This applicant had two accomplices and they were both granted commutation of their sentences, one in April of 1949 and the other in June of 1950. Neither of them had any worse record than this applicant. He has now served over four years and nine months of a minimum sentence of five years.

The Board of Trustees of the Western State Penitentiary state that this applicant has an excellent institutional record and they would recommend him for parole in this matter. The trial judges, Honorable Henry Ellenbogen and Robert McCreary, have no objection to the granting of commutation. The district attorney of Allegheny County, likewise, has no objection.

Because of the fact that this applicant has served all but three months of his minimum sentence and since it was his first offense, we believe he is entitled to another chance, and we are, therefore, recommending that his sentence be commuted.

Respectfully submitted,

M. HARVEY TAYLOR, Acting
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Edward Lucy, C-4490, No. 3825, November Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the life sentence of Edward Lucy, convicted of murder in the first degree in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on April 9, 1928 be commuted from life imprisonment to 22 years, 8 months and 20 days, expiring on December 19, 1950.

Our reasons for making this recommendation are as follows:

This applicant is fifty-one years of age and this incarceration was brought about by a plea of guilty to murder generally which fixed the penalty of life imprisonment.

He has an excellent record in the Eastern State Penitentiary and is a linotype operator. He has now been incarcerated for more than twenty-two years in this institution. If granted commutation, he will be returned to his family in New York City.

Under all the circumstances, the Board of Pardons feels that this applicant has met the test for rehabilitation and penalty and that his long service in the penitentiary will deter others from committing the same offense. We, therefore, feel that this applicant will not again offend against society and by reason of his long sentence is entitled to commutation at this time.

Respectfully submitted,

M. HARVEY TAYLOR, Acting
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Leonard Marotta, D-5430, No. 5578, November Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Leonard Marotta, convicted of voluntary manslaughter in the Court of Oyer and Terminer of Lehigh County on December 10, 1940 to be computed from November 8, 1940, be commuted from 12 years to 10 years, 1 month and 20 days, expiring on December 28, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-six years of age and this was the first offense for which the applicant was ever convicted. After the applicant served nearly all of his minimum sentence of six years, his sentence was commuted and he was released on parole.

He has since returned to his home in Brooklyn, New York, where he has re-established his family and is now engaged in the operation of his father's fish market.

The New York Parole Authorities state that he has an excellent record on parole and they recommend that his petition for clemency be granted. The present judge, Honorable James F. Henninger, has no objection to the granting of clemency as prayed for. The district attorney of Lehigh County has no objection if he has shown progress.

The applicant has been in no further difficulty for a period of nearly four and one-half years and since he has shown he has rehabilitated himself, we are recommending that the maximum sentence be commuted.

Respectfully submitted,

M. HARVEY TAYLOR, Acting
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Blaine Walter Scott McLaughlin, B-6928, No. 5654, November Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of imprisonment imposed upon Blaine Walter Scott McLaughlin, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer of Allegheny County on October 2, 1939, to be computed from July 27, 1939; and of robbery, being armed with an offensive weapon in the Court of Quarter Sessions of Westmoreland County, on September 5, 1940; be commuted from a minimum term of 25 years to a minimum term of 11 years, 4 months and 22 days, expiring on December 19, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-eight years of age and the sen-

tencing herein imposed were the first major conviction for this applicant. He has now been imprisoned over eleven years of total sentence of twenty-five years. This applicant and his accomplices committed a series of armed robberies in Allegheny and Westmoreland Counties. The total number of crimes were sixty-seven in which the applicant participated in forty-nine.

The Board of Trustees of the Western State Penitentiary state that this applicant has an excellent institutional record and because of the length of time he has served, they recommend that he be given a parole. The trial judge is no longer on the bench and the present judge, Honorable Frank T. Patterson, makes no recommendation. The district attorney of Allegheny County appeared before the Board and stated that his office does not oppose granting of commutation in this matter. The applicant has an acceptable parole plan.

Under all of the circumstances, the Board of Pardons feels that this applicant has received a very severe sentence and has an excellent institutional record. Because of the fact he has served over eleven years of his minimum sentence with an excellent institutional record, we are recommending that commutation of his minimum sentence be granted.

Respectfully submitted,

M. HARVEY TAYLOR, Acting
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Frank J. Nedeau, B-3890, No. 1293, November Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons, recommend that the sentences of imprisonment imposed upon Frank J. Nedeau convicted of burglary, breaking and entering, larceny, in the Oyer and Terminer Court of Allegheny County on December 8, 1931; and of breaking and escaping penitentiary, entering, larceny, and larceny of automobile in the Quarter Sessions Court of Centre County on November 14, 1933, be commuted on Bill No. 166 September Sessions, 1933, from a maximum term of 10 years to a maximum term of 8 years, 5 months and 20 days, expiring on December 23, 1950.

Our reasons for making this recommendation are as follows:

This applicant is fifty-six years of age and he has been on parole for a period of eight years. The charge that he is serving parole for is breaking and escaping penitentiary from Rockview Farm Prison. Since his release on parole over eight years ago, this applicant has been employed as a structural iron worker and has traveled from state to state in the operation of his job. Several times he has been refused entry into a particular state because the parole authorities would not accept him, which caused him a great deal of embarrassment and also hardship in his employment. We have confirmed this matter which he speaks of and the Board of Parole has no objection to the granting of commutation of his maximum sentence. There are no recommendations from the trial judge or the district attorney of Allegheny County.

This applicant is employed by the American Bridge Company and we have investigated and found the facts he set forth to be true.

We, therefore, see no reason for causing a person to lose their employment by reason of parole supervision and since the Board of Parole states that he has a good parole record over the past eight years, we are recommending that his maximum sentence be commuted.

Respectfully submitted,

M. HARVEY TAYLOR, Acting
Lieutenant-Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Lewis A. Nyman, C-144, No. 9509, November Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Lewis A. Nyman, convicted of burglary, breaking and entering, larceny in the Court of Oyer and Terminer and Quarter Sessions of Clinton County on May 2, 1947 to be computed from April 20, 1947, be commuted from 4 years to 3 years and 8 months, expiring on December 20, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-three years of age and this was his first conviction for any offense whatsoever. He was sentenced to a term of imprisonment in the Western State Penitentiary for from four to ten years on a charge of burglary, breaking and entering, and larceny. At the present time, the applicant has served all but five months of his minimum sentence.

The Board of Trustees of the Western State Penitentiary have written the Board of Pardons and stated that this applicant has an excellent institutional record and if he was eligible for a petition for parole, they would grant it because of his excellent record and the fact that the Board of Pardons commuted the sentence of his accomplice. The trial judge, Honorable Henry Hipple, has written the Board and stated that commutation of sentence be granted. The district attorney of Clinton County also recommends that commutation be granted.

Because of the above facts, the Board of Pardons recommends that the sentence of this applicant be commuted.

Respectfully submitted,

M. HARVEY TAYLOR, Acting
Lieutenant Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Charles Ruckert, C-6348, No. 3535, November Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed upon Charles Ruckert, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer of Philadelphia County on August 20, 1930, be commuted on Bill No. 411 August Sessions, 1930, from a maximum term of 20 years to a maximum term of 4 months, expiring on December 20, 1950. (Maximum sentence on Bill No. 245 expired on August 20, 1950).

Our reasons for making this recommendation are as follows:

This applicant is forty-five years of age and he was sentenced to a term of imprisonment in the Eastern State Penitentiary for from twenty to forty years on a charge of robbery, being armed with an offensive weapon. After having served this sentence, he was granted commutation having served approximately eight years of his minimum sentence. He has now been on parole for a period of over twelve years and has with the approval of the Board of Parole married, being the father of one child.

He desires a commutation of his maximum sentence in this matter to relieve him from further parole supervision and the ability to raise the child without the stigma of this arrest.

The Board of Parole has no objection to the granting of commutation of the maximum sentence in this matter.

Since the applicant has shown complete rehabilitation by his good conduct over the past twelve years and two months, we believe he has become thoroughly rehabilitated and he will not again offend against society.

Under all the circumstances, the Board of Pardons feels that this applicant has shown complete rehabilitation and since there is no objection from any of the sentencing authorities, we are recommending that commutation of his maximum sentence be granted.

Respectfully submitted,

M. HARVEY TAYLOR, Acting
Lieutenant Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of John Joseph Shea, No. A-509, November Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that John Joseph Shea, convicted of burglary, larceny in the Court of Quarter Sessions of Delaware County, on March 28, 1940, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is twenty-seven years of age and has no prior criminal record. Ten years ago, when he was seventeen years of age, he committed three burglaries and larcenies in the area around his home. He has now been on parole for a period of more than ten years. He received a suspended sentence and has been in no further trouble since this one offense.

He was a member of the armed forces of the United States and served three years; eighteen months of which

was overseas. He is a graduate of college and is now studying accounting and expects to take his C.A.P., examination in the near future. This record stands in his way and since he very obviously has rehabilitated himself, we feel that this record should be eradicated.

Because of his army service and the fact he has been in no further trouble has shown he is completely rehabilitated and should, therefore, receive a pardon which he prays for; and we so recommend.

Respectfully submitted,

M. HARVEY TAYLOR, Acting
Lieutenant Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Depaul Smith, No. 57079, No. 9202, November Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Depaul Smith, convicted of robbery, receiving stolen goods in the Court of Oyer and Terminer of Allegheny County on January 12, 1943 to be computed from July 6, 1943, be commuted from 10 years to 7 years, 5 months and 14 days, expiring on December 20, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty years of age and this is not the first time this applicant has been in difficulty with the law. He was sentenced, with two accomplices, to a term of imprisonment in the Allegheny County Workhouse for from ten to twenty years on charges of robbery and receiving stolen goods. He is the only remaining one of a trio who committed a series of robberies who is still in prison.

The Warden of the Allegheny County Workhouse, where this inmate is living, states that he has an excellent institutional record and they commend both the applicant's attitude and work. The district attorney of Allegheny County states he has no objection to make to the Board in this case and is willing to leave the matter up to the Board of Pardons.

Since this applicant's accomplices have all been released and he has served approximately seven and one-half years of his minimum sentence with an excellent institutional record; we are willing to recommend that commutation be granted, and we do so recommend.

Respectfully submitted,

M. HARVEY TAYLOR, Acting
Lieutenant Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Sydney Lorraine Smith, D-5791, No. 5825, November Session, 1950.
To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Sydney Lorraine Smith, convicted of robbery in the Court of Oyer and Terminer and Quarter Sessions of Delaware County on May 23, 1941 to be computed from April 7, 1941, be commuted from 20 years to 9 years, 8 months and 20 days, expiring on December 27, 1950.
Our reasons for making this recommendation are as follows:

This applicant is thirty-six years of age and this was his first major conviction. He served approximately six years of his minimum sentence of ten years when he was released from the Eastern State Penitentiary. He has now been on parole for a period of three and one-half years.

He is in the business of tree surgery and landscape artists. He now finds that parole is a hinderance to him, preventing him from going to neighboring states and taking business, and asks that we commute his sentence.

The Board of Parole states that this applicant has an excellent record on parole and they have no objection to his release from parole. The district attorney of Delaware County appeared before the Board of Pardons and stated he has no objection and leaves the matter up to the Board of Pardons.

The Board of Pardons is of the opinion that this applicant has been sufficiently rehabilitated and has again re-established his family and it is not the desire of this Board to deter any man from his rehabilitation. We believe this applicant has given evidence of complete rehabilitation, and we, therefore, recommend that his maximum sentence be commuted.

Respectfully submitted,

M. HARVEY TAYLOR, Acting
Lieutenant Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of John J. Stinger, No. A-335, November Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that John J. Stinger, convicted of aggravated assault and battery in the Court of Quarter Sessions of Philadelphia County, on May 29, 1913, be pardoned.

Our reasons for making this recommendation are as follows:

This applicant is fifty-six years of age and approximately thirty-seven and one-half years ago he was sentenced to the Pennsylvania Industrial School for Boys, at Huntingdon, on a charge of aggravated assault and battery. After having served approximately one year he was released and has been an assistant deputy sheriff of Philadelphia County for the past fifteen years.

He has an excellent reputation in the community in which he lives and the district attorney's office of Philadelphia County has written the Board of Pardons and

stated that they will not oppose the application for a pardon. The trial judge is deceased and Judge Kun has not made any recommendation to the Board of Pardons. The applicant has an excellent reputation and he is well thought off in his community.

Under all the circumstances, we feel that this applicant has been sufficiently rehabilitated to show he will not again offend against society, and under the circumstances, we are recommending that the pardon be granted as prayed for.

Respectfully submitted,

M. HARVEY TAYLOR, Acting
Lieutenant Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of William Tregaskis, D-8498, No. A-527, November Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of William Tregaskis, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer and Quarter Sessions of Luzerne County on September 22, 1945 be commuted from 7½ years to 5 years and 3 months, expiring on December 22, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-nine years of age and this was his first offense. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from seven and one-half to fifteen years on a charge of robbery, being armed with an offensive weapon. At the present time, he has served over five years of his minimum sentence.

The Board of Trustees of the Eastern State Penitentiary state that the applicant has an excellent institutional record and they have no objection to his release on parole. The trial judge, Honorable William A. Valentine, leaves the matter entirely up to the discretion of the Board of Pardons. The district attorney of Luzerne County has written the Board and recommends that commutation be granted.

One of the applicant's accomplices died in Farview and two of his accomplices, at the present time, still remain in the Eastern State Penitentiary on similar sentences to the applicant.

We feel, though, that this applicant is entitled to consideration at this time because he had no prior criminal record. Under all of the circumstances, we feel that this applicant has been sufficiently punished, and we, therefore, recommend that his minimum sentence be commuted.

Respectfully submitted,

M. HARVEY TAYLOR, Acting
Lieutenant Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Clarence Trowbridge, C-983, No. A-529, November Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Clarence Trowbridge, convicted of breaking and escaping penitentiary in the Court of Quarter Sessions of Centre County on November 7, 1946 to be computed from January 17, 1949, be commuted from 5 years to 1 year and 11 months, expiring on December 17, 1950.

Our reasons for making this recommendation are as follows:

This applicant is twenty-six years of age and while serving a like sentence on a charge of robbery, escaped from Rockview Farm Prison. He was at large approximately one month when he was apprehended and given this sentence for from five to ten years.

At the present time, he has served approximately two years of his minimum sentence on escape and all of his minimum sentence on the robbery charge. This means he has been continuously confined for approximately seven years.

Since this is his first conviction for any offense whatsoever and he has an excellent institutional record, we agree with the Board of Trustees of the Western State Penitentiary that he has been sufficiently punished.

The Board of Pardons, therefore, recommends that the balance of his sentence for escape be commuted.

Respectfully submitted,

M. HARVEY TAYLOR, Acting
Lieutenant Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

BOARD OF PARDONS

In re application of Harry D. Weaver, E-1397, No. A-572, November Session, 1950.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Harry D. Weaver, convicted of arson in the Court of Oyer and Terminer of Lebanon County on December 13, 1949, be commuted from 1½ years to 1 year and 10 days, expiring on December 23, 1950.

Our reasons for making this recommendation are as follows:

This applicant is thirty-nine years of age and this is his first major conviction. He was sentenced to a term of imprisonment in the Eastern State Penitentiary for from one and one-half to five years on a charge of arson. The evidence was entirely circumstantial, however, the district attorney got this applicant to make a confession which was recorded, and we believe for the first time in Pennsylvania on a wire recorder. He now alleges that this confession was made under a threat to advise his

mother of this offense. This was done in any event and he was subsequently convicted of this crime.

The district attorney of Lebanon County stated he feels that this defendant is not a criminal but he believes that this defendant will never again commit any criminal act and he recommends that he be returned to civilian life for the sake of his wife and children. The Board of Trustees of the Eastern State Penitentiary state that this applicant has an outstanding institutional record, and the district attorney of Lebanon County, as has been stated heretofore, recommends that the sentence be commuted.

The Board of Pardons, therefore, recommends that the minimum sentence be commuted.

Respectfully submitted,

M. HARVEY TAYLOR, Acting
Lieutenant Governor.
GENE D. SMITH,
Secretary of the Commonwealth.
CHARLES J. MARGIOTTI,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

JAMES H. DUFF,
Governor.

ANNUAL REPORT OF THE DELAWARE RIVER JOINT COMMISSION OF PENNSYLVANIA AND NEW JERSEY, 1949

To the Honorable: The Legislatures of the Commonwealth of Pennsylvania and the State of New Jersey.

During the year 21,085,868 vehicles crossed the Delaware River Bridge, the greatest annual traffic volume in the twenty-three years of operation. This was an increase of 1,858,622 over 1948 which, in turn, had set a new record. Weekday traffic averaged 56,959 against 51,983 last year, a gain of 9.57 per cent. The Sunday and holiday average was 62,058 compared with 55,456, a rise of 11.90 per cent, while daily traffic averaged 57,770 against 52,533, a 9.96 per cent increase.

Both gross and net toll receipts eclipsed previous returns. Gross operating income in 1949 was \$5,265,306.50 representing a substantial increase over the 1948 total of \$4,856,157.84. Net income, after providing for bond maturities of \$1,700,000, interest and sinking fund reserve requirements, was \$1,951,536.59 compared with \$1,334,450.24 in 1948. Daily operating receipts were \$14,425.49, an increase of 8.72 per cent over the 1948 average. By the end of 1949 a total of 299,835,480 had crossed the bridge since the opening, July 1, 1926.

All-time traffic highs were registered during the year. In the twenty-four hours of Sunday, July 24, 86,844 vehicles passed through the toll lanes, exceeding the previous record of 83,014 set in 1941. A weekday mark of

71,441 was established on Monday, August 15 and a monthly peak of 2,056,354 was reached in August. Most of the 1949 increase was shown in the passenger car and light truck division, the gain being 1,709,752 or 11.28 per cent. Buses numbered 1,022,148 against 1,016,572 in 1948 while the bridge rail transit line showed a decrease. Passengers numbered 9,275,196 in 1949, a daily average of 25,412 from which the Commission derived revenue of \$231,879.92. In 1948 total patronage was 10,209,502; the daily average, 27,895 and the return to the Commission, \$255,237.56. The rate of loss was 9.15 per cent.

Two factors contributed to the high-speed line passenger decrease. In February a strike of Philadelphia Transportation Company employees suspended operation for nine days resulting in a reduction for the month of 37.71 per cent and, on October 18, the operating company withdraw the privilege of free transfer from the line to the Market Street Subway at Eighth Street, Philadelphia. As a result passengers were thereafter compelled to pay a fare of 15 5/6 cents to ride between the centers of Philadelphia and Camden. The bus fare for the same trip remained at ten cents. In November and December which registered decreases of 11.81 and 15.45 per cent respectively, it became evident that a considerable number of former passengers of the rail transit line were using private cars for transportation with inevitably increased congestion in the streets of the two cities.

LOCUST STREET SUBWAY COMPLETION

This situation is likely to be continued and aggravated until the unused Locust Street Subway in Philadelphia is put into operation. The bridge line was built with the understanding that an uninterrupted journey could be made from Camden to the end of the Locust Street Subway at Eighteenth Street. If the City of Philadelphia, which owns the Locust Street Subway would install tracks, electric equipment and put the stations already built into use, bridge line passengers would be spared the necessity of transferring at Eighth and Market Streets and the cost of the trip would be but 12½ cents. The future of the rail transit line hinges largely upon completion of the Locust Street Subway. In view of the justifiable public demand, the Commission earnestly hopes this will be accomplished in 1950.

For the fiscal year ending June 30, 1949 the Philadelphia Transportation Company reported gross operating revenue from the line of \$916,019.56 and a net profit of \$18,025.48. Under the terms of the lease the Company is entitled to make up any operating loss by withholding the requisite amount from the rental paid the Commission at the rate of 2½ cents a passenger.

Expenses of bridge operation in 1949 were \$1,051,918.51 against \$1,051,900.18 the previous year. However, in 1948 the Commission expended an additional \$190,233.12 for port purposes including cost of an extensive survey and the salary of a Port Survey Engineer. The port promotion outlay in 1949 was \$5,360.38. Following is a tabulation of bridge traffic, receipts and expenses since date of opening, July 1, 1926:

	Traffic	Gross Receipts	Expenses	Net Receipts
1949	21,085,868	\$5,265,306.50	\$1,057,278.89	\$4,208,027.61

Commission revenues were augmented by the policy put into effect October 1 of charging the United States Government toll for passage of its vehicles. Sales of pre-paid toll tickets to the Federal Government amounted to \$10,232.50 by the end of the year.

BRIDGE WIDENING PROJECT ADVANCED

In an endeavor to cope with mounting traffic, the Commission in the previous year authorized the widening of the bridge roadway from six to eight lanes and satisfactory progress was made on the project during 1949. Contracts for the installation of eight traffic light bridges to indicate the directional movement on each of the eight lanes were awarded by the Commission in the total amount of \$344,595. The system will become effective in 1950. By the end of the year the Commission had expended \$1,928,415.64 on the widening program, an expense met entirely from current revenue. None of the \$4,850,000 United States Treasury obligations in the bridge improvement fund were sold during the year although, in 1950, it will probably become necessary to do so to meet Commission commitments.

The Commission paid \$50,000 in 1949 to the Commonwealth of Pennsylvania as the first instalment on the Commission's share of the cost of improving the Vine Street approach in Philadelphia. The first section of the boulevard from the bridge plaza to Ninth Street was opened to traffic on October 5. The Commission will pay the balance of \$150,000 upon completion of the project in 1950. The Commission has set aside \$250,000 to defray part of the cost of removing the freight railroad tracks which hamper traffic at the Camden plaza. The Public Utility Commission of New Jersey on October 17 ordered the relocation of the tracks so that this obstacle to the orderly flow of bridge traffic might be removed. The railroad has been given until April, 1950 to submit detailed plans to the Public Utility Commission.

To meet demands of traffic in the morning and evening rush hours, the Commission directed its engineers to prepare plans and specifications for enlargement of the toll house area to provide twenty lanes instead of the present twelve which are admittedly inadequate. The Commission also approved construction of a tunnel whereby traffic on Sixth Street, Camden, will be carried under the bridge flow at the plaza. The present intersection at grade is hazardous, inconvenient and a constant source of delay.

Construction of a building to house its Police Bureau and equipment at the Camden plaza was also approved by the Commission. At the November meeting the Commission adopted a resolution covering acquisition of forty-one properties to provide sites for the needed improvements. On the ground that this would necessitate demolition of property in Camden with resultant loss of ratables, the Board of Commissioners of the City of Camden adopted a resolution protesting this action. On December 28 a public hearing was held by this Commission at which the views of interested citizens were expressed. The speakers differed upon the tunnel question but several dwelt upon the loss of taxable property to the City of Camden. Following consideration of all factors involved, the Commission defined its position in the following statement:

"The Commission has carefully considered the resolution of the Board of Commissioners of the City of

Camden dated December 8, 1949 and the opinions expressed here today regarding the improvements contemplated at the Camden plaza.

Before reaching a decision, it was necessary for the Commission to balance the natural reluctance of the City of Camden to lose ratables against the requirements that this Commission operate and maintain the Delaware River Bridge in the best interests of the public. Let it be said that The Delaware River Joint Commission is most sympathetic with the view held by the Board of Commissioners of the City of Camden. Probably the easiest way out of this dilemma would be for the Commission to shelve the improvement program but we, as commissioners, must face the facts and realities of the situation.

We admit that the growing resentment of the traveling public against the congestion at the toll houses during rush hours is well founded. The amazing increase in bridge traffic which, this year, will total more than 21,000,000 vehicles, has proved our toll-collecting facilities inadequate at the busiest times. This year reflects an increase of 1,800,000 vehicles over the record-breaking total of 1948 and it is practically certain that this rate of increase will continue at least for some years.

We can not pass cars expeditiously through the toll houses with the present equipment of but twelve booths. The toll house area must be expanded to provide twenty toll lanes. It has been argued that relief might be found by installing toll booths on the Philadelphia plaza. This proposal was considered in 1926 prior to opening of the bridge and again gone into carefully but six months ago. Unfortunately, the Philadelphia plaza has a grade from Sixth to Fifth Streets slightly steeper than that of the bridge itself. It is not possible to collect tolls upon a grade as sharp as the one with which we are confronted on the Philadelphia plaza. Motorists stopping to pay tolls would be bound, in many cases, to release their brakes causing the car to roll backward into the vehicle immediately behind. Setting up toll houses on a sharp grade would mean the building of a trap that would cause danger, confusion and delay. Tolls must always be collected on a level plateau. Our only recourse is to expand the present toll-collecting facilities at the Camden plaza.

A new building must be constructed for the use of our Police Bureau. The present quarters in the Administration Building are most inadequate. Our police are now located in the basement of the Administration Building where, in one small room, are concentrated the sergeants' desks, as many lockers as can be crowded in and a lunchroom. It is into this congested quarter that persons arrested on the bridge are brought for examination. Inasmuch as this room must serve for many activities, it is particularly unsuitable as a charge room. The police garage under the Administration Building is not large enough to accommodate the number and type of vehicles required for daily use. The present police quarters, taken in conjunction with the planned Administration Building Annex, will be used by our Toll Bureau for locker space, lunchroom and lavatory requirements.

Building of the Sixth Street Tunnel will be a decided asset to the City of Camden as is the companion Fifth Street Tunnel on the Philadelphia side to the City of Philadelphia. It will provide a means of uninterrupted communication between the north and central parts of the City. At present it is necessary to interrupt the flow of bridge traffic continually to permit Sixth Street traffic to cross at grade.

The Sixth Street Tunnel should have been built at the time the Commission opened the bridge but funds were not available. Motorists unfamiliar with the bridge rarely realize that, before reaching the toll houses, they are faced with the hazard of right-angle collisions at Sixth Street. Utmost vigilance on the part of the police is required lest such accidents occur. The motorist sees the green lights at the toll

houses designating the open lanes and often fails to see the traffic light at Sixth Street. This is a dangerous and awkward intersection which should be treated in the modern manner by construction of a tunnel.

The total taxable loss to the City of Camden by the taking of all property required is set at \$13,000 annually. It should be recalled that this Commission paid \$136,000 for the repaving and improved lighting of Penn and Linden Streets, Camden and appropriated \$250,000 toward the cost of relocating the freight railroad tracks in North Camden. These two contributions would balance the loss to the City of Camden for the next thirty years.

The Commission is of the opinion that construction of the Sixth Street Tunnel, enlargement of the toll house area and erection of a police building are imperative. In the interest of the public, the Commission must proceed with the improvement program."

In response to a request from representatives of business interests in Philadelphia and Camden, the Commission directed its engineers to cooperate in a study of the possibilities of improving transportation facilities at the Broadway Station in Camden to provide a more attractive interchange by passengers on the railroad, bus and bridge lines. Associated in the study will be engineers of all the utilities involved and of the City and County of Camden.

PORT PROMOTION DEPARTMENT CREATED

In accordance with the 1947 directives of the Legislatures of Pennsylvania and New Jersey, the Commission submitted a report on February 1 embodying a survey of the Delaware River Port in this vicinity. This study was made by the Knappen Tippetts Abbett Engineering Company of New York and was one of the most comprehensive ever made of any port. Included in the report were the results of an investigation of present facilities and recommendations for improvement as well as the inauguration of additional projects deemed necessary. Suggestions were made for promotion of commerce on the river and for granting of additional powers by the Legislatures to this Commission enabling it to function efficiently as The Delaware River Joint Commission Port Authority. A number of enterprises in which the Authority might engage were discussed in detail including the leasing of piers owned by the City of Philadelphia and the South Jersey Port Commission, development of the Belt Line Railroad in Philadelphia, construction of motor truck terminals and an additional bridge across the Delaware River. In its report accompanying the Knappen Company survey, this Commission recommended:

"That the Commonwealth of Pennsylvania and the State of New Jersey modify the Interstate Compact of July 1, 1931, approved by the 72nd Congress June 14, 1932, appointing The Delaware River Joint Commission so as: (1) to change the name of the Commission to that of The Delaware River Joint Commission Port Authority; (2) to create a Port District to embrace the territorial limits of the five Pennsylvania Counties of Bucks, Philadelphia, Montgomery, Delaware and Chester; and the nine New Jersey Counties of Mercer, Burlington, Camden, Gloucester, Salem, Cumberland, Cape May, Ocean and Atlantic; (3) to give The Delaware River Joint Commission Port Authority jurisdiction over the district and to

endow it with the powers to administer and coordinate its Port District activities, (4) to bestow on the Authority broad and extensive powers to engage in activities directly or indirectly connected with the Port which further the interests of the States."

Bills to activate this plan were introduced in the Legislatures of Pennsylvania and New Jersey. However, they were amended before passage to such a degree as to cause Governors Duff and Driscoll to veto them. No effective action for the creation of a port authority was therefore taken in 1949. This Commission appropriated \$100,000 during the year from bridge revenues for the establishment of a Port Promotion Department and engaged Messrs. J. Alex. Crothers, formerly Director of the Port of Boston Authority, and Charles R. Boogher who was actively engaged in the import and export business to serve as Executive and Assistant Executive of the department. They assumed their duties December 1 to concentrate their efforts upon promotion of this port.

On February 7 the Pennsylvania Senate confirmed the following appointments to The Delaware River Joint Commission: Messrs. Edwin R. Cox, Alvin A. Swenson, Clarence Tolan, Jr. and Jay Cooke for a five-year period beginning July 8, 1947. On May 2 Messrs. Weldon B. Heyburn and Charles R. Barber succeeded Messrs. G. Harold Wagner and Ramsey S. Black as Auditor-General and State Treasurer of Pennsylvania and thereby became ex officio members of the Commission. On June 15 the New Jersey Senate confirmed the appointment, for five-year terms beginning July 1, 1949, of Messrs. Arthur C. King, I. Norwood Griscom, Hugh L. Mehorter, Edward C. McAuliffe, Clarence B. McCormick, Erwin S. Cunard, Allen S. Hatcher and James P. Johnson. Mr. Johnson succeeded Mr. Alfred Cooper who retired after twenty years of loyal and invaluable service.

Insurance upon the bridge was renewed for a three-year term in the amount of \$10,000,000 covering all risks with an additional \$250,000 debris removal coverage. Use and occupancy insurance in the estimated amount of \$4,800,000 was likewise renewed for a similar term.

One contractor's employee was killed by a fall from the bridge during the year, 98 arrests were made, 3,302 disabled cars removed and 47 fires extinguished.

A cordial invitation is extended to members of the Legislatures of the Commonwealth of Pennsylvania and the State of New Jersey to inspect the Delaware River Bridge at any time.

Respectfully submitted,

THE DELAWARE RIVER JOINT COMMISSION

James H. Duff, Chairman	Arthur C. King, Vice-Chairman

The Delaware River Bridge connecting Philadelphia, Pa., and Camden, N. J., opened July 1, 1926. Construction was begun January 6, 1922. The cost of the Bridge including Real Estate was \$37,085,100.71.

Principal Dimensions and Quantities

Total length of bridge and approaches	9,570 feet
Length of main span	1,750 feet
Width of bridge	128 feet
Width of roadway between curbs	57 feet
Heights of towers above mean high water	380 feet
Clearance above mean high water	135 feet
Weight of main span per linear foot	26,000 lbs.
Live load capacity per linear foot	12,000 lbs.
Deepest foundation below mean high water ..	105 feet
Total weight of bridge	720,000 tons

Masonry (Cubic Yards)

	Granite	Concrete	Totals
Main Piers	6,600	52,400	59,000
Anchorage	14,000	202,000	216,000
Approaches	4,600	35,400	40,000
Totals	<u>25,200</u>	<u>289,800</u>	<u>315,000</u>

Paving

Roadway	50,000 sq. yds.
Footwalks	20,000 sq. yds.

Cables	
Number of cables	2
Diameter of cables	30 inches
Number of wires in each cable	18,666
Number of strands in each cable	61
Number of wires in each strand	306
Size of wire (No. 6) diameter	0.195 inch
Total length of wire used	25,100 miles
Distance center to center of cables	89 feet
Weight of cables	7,000 tons
Diameter of suspender ropes	2¼ inches

Structural Steel	
Main towers	10,000 tons
Suspended structure	18,600 tons
Anchorage	7,300 tons
Approaches	25,800 tons
Total	61,700 tons

Towers	
Towers above mean high water	380 feet
Depth Phila. tower pier below M.H.W.	58 feet
Depth Camden tower pier below M.H.W.	82 feet
Weight of steel in two main towers	10,000 tons
Load on each tower from cables	35,000 tons
Field driven rivets in each tower	145,000
Roadway expansion joints at each tower provide for 24 inches of motion due to temperature changes.	

Anchorages	
Each anchorage occupies ¾ acre.	
Anchorage foundation depths below M.H.W.:	
Philadelphia	63 feet
Camden	105 feet
Weight of each anchorage	2000,000 tons

Rail Transit Line	
Constructed at a cost of	\$10,985,383.53
Construction begun	February 23, 1934
Started operation	June 6, 1936

The line is operated by the Philadelphia Transportation Company under a lease, the Bridge Commission receiving 2½ cents from each 10 cent fare.

Trains run from 8th and Market Streets, Philadelphia, to Broadway Station, Camden.

Schedule of Toll Rates	
Passenger Automobile20
Motor Truck—7,000 pounds gross weight (pneumatic tires)20
(Commutation toll books containing 40 tickets for the passage of passenger automobiles and trucks of 7,000 pounds gross weight are sold for \$6.00 for use within 30 days after purchase. Unused tickets will not be redeemed. Use of tickets will be limited to the vehicle identified by the license number recorded on the book cover.)	
Motor Truck:	
7,000 pounds gross weight (solid rubber tires)35
7,001 to 18,000 pounds (pneumatic tires)40
(solid rubber tires)50
18,001 to 26,000 pounds (pneumatic tires)65
(solid rubber tires)75

26,001 to 28,000 pounds gross weight (pneumatic tires)90
(Solid rubber-tired vehicles in excess of 26,000 pounds by special permit only.)	
28,001 to 36,000 pounds gross weight (pneumatic tires)	1.00

Passenger Bus	
(single-deck)50
(double-deck)75

Horse-drawn vehicles	
(1 or 2 horses)30
(3 or more horses)40
Horse and Rider15
Led horse, mule, cow, hog or sheep20
Motorcycle10
One-wheel trailer10

Tractors and Trailers (Combined):	
26,001 pounds to 36,000 pounds (Pneumatic Tires)80
36,001 pounds to 48,000 pounds (Pneumatic Tires)	1.05
48,001 pounds to 60,000 pounds (Pneumatic Tires)	1.30

For gross weights in excess of 60,000 pounds a special inspection fee of \$10.00 is charged, in addition to the charge of .25 for each 2,000 pounds above 60,000 pounds.

"Gross Weight" is the combined weight of the vehicle and its maximum allowable load. Loads in excess of 26,000 pounds (gross weight) on solid tires and 36,000 pounds on pneumatic tires when permitted, shall be charged .25 per 2,000 pounds, or portion thereof, of such load in excess of 26,000 pounds or 36,000 pounds, respectively, in addition to the above tolls.

No vehicle and load of a combined weight exceeding 80,000 pounds on solid tires or 150,000 pounds on pneumatic tires permitted to cross the bridge.

No motor or truck or tractor with metal tires allowed on the bridge.

ANNUAL REPORT OF THE DELAWARE RIVER JOINT
COMMISSION OF PENNSYLVANIA AND
NEW JERSEY

1950

To the Honorable: The Legislatures of the Commonwealth
of Pennsylvania and the State of New Jersey.

Traffic over the Delaware River Bridge in 1950 was the heaviest in the history of the structure with the passage of 23,348,550 vehicles. This was an increase of 2,262,682 over the record total of 1949. The rising traffic tide caused the Commission to take the necessary engineering steps preliminary to requesting the Legislatures of Pennsylvania and New Jersey to authorize this body to construct a new vehicular crossing of the Delaware River south of the present bridge.

The major factor in the extraordinary bridge business of 1950 was the private-passenger car. More were available than in any previous year as the public absorbed the output of the automobile plants. In ever-increasing numbers they were used for essential transportation and business as well as for pleasure-riding. The gain in passenger cars and light trucks was 2,139,612. Mass-transportation facilities registered a reduction, buses decreasing from 1,022,150 in 1949 to 986,665 while patronage on the rail transit line dropped from 9,275,196 to 8,877,115.

Throughout the year the daily vehicular average was 63,968 against 57,770 in 1949; the weekday average, 63,067 against 56,959 and the Sunday and holiday average, 68,646 compared with 62,058. On Sunday, July 30 an all-time traffic high for twenty-four hours was reached when 93,010 vehicles crossed. The weekday high was 79,795 on Tuesday, September 5 and August was the record month with 2,304,104.

To cope with traffic demands the Commission had directed in 1948 that the bridge roadway be widened from six to eight lanes. This project was completed in 1950 at a total cost of \$3,403,202 including expense of erecting aluminum traffic light bridges at intervals above the structure to denote the directional flow in each lane. The new lanes, opened July 13, were of great benefit in moving the mass of vehicles but, to attain the utmost efficiency from them, it is necessary that the toll-collecting area be widened from the present 13 lanes to 20. This improvement has been authorized and the preparation of contract plans is near completion. Negotiations for the

purchase of 33 properties in Camden for the toll houses as well as to provide a site for a badly-needed Police Building were carried on during the closing months of the year. As soon as the properties are acquired, building contracts will be let during 1951. The Commission engaged architects to design a two-story addition to the present Administration Building to provide necessary quarters for increasing Commission activities including the Port Promotion Department. In the interests of economy and efficiency the management of both the new crossing and the present bridge will be centralized at the Administration Building.

All improvements to the present bridge completed or now contemplated are being paid from current revenue. It has not been necessary to sell any of the United States Government bonds held in Commission reserve funds. Gross income in 1950 was \$5,845,856.47, an increase of \$580,549.97 over the 1949 figure. Net receipts, after meeting all expenses of operation and service on outstanding indebtedness, were \$2,663,433.10 compared with \$1,951,536.59 in the preceding year.

Every month of 1950 showed a decided increase over the corresponding period of the previous year. From May to October inclusive, monthly traffic totals exceeded 2,000,000. Between July 23 and August 27, the Sunday volume surpassed on five occasions the 86,844 all-time peak of 1949. Barring a declaration of war with resultant restrictions on automobile production and gasoline, Delaware River Bridge traffic may be expected to reach totals dwarfing those of 1950. With eight roadway lanes and twenty toll houses this increase can be accommodated on the bridge but the problem of the admittedly-inadequate approaches to the bridge plazas will remain.

PROGRESS ON PHILADELPHIA APPROACH

On the Philadelphia side the improvement of Vine Street as the principal approach has been under way for a long time but it is hoped that the widening will be completed in 1951 to provide a broad boulevard between the bridge and the Parkway. In the interests of bridge traffic this Commission has obligated itself to contribute \$150,000 toward the cost of the section between Ninth Street and the Parkway. The Commonwealth of Pennsylvania and the City of Philadelphia have agreed upon a further vast improvement program including carrying Vine Street beneath the Parkway to connect by way of a new bridge over the Schuylkill River with the Expressway, tying in with the Pennsylvania Turnpike at King-of-Prussia. This will be a most important feeder to the Delaware River Bridge. On the New Jersey side the narrow streets are a bottleneck which will become progressively worse as bridge traffic increases. Valiant efforts are, being made by the City of Camden to expedite the flow of traffic to and from the bridge plaza but the limitations of Penn and Linden Streets are still existent. At certain rush hours vehicles have been backed up through the plaza and onto the bridge in the attempt to funnel into Penn Street. Only an improvement project of major proportions will remove this impasse.

Commercial vehicles using the bridge are steadily increasing in size. In 1950 large trucks and trailers contributed 18.72 per cent of toll receipts; passengers automobiles and light trucks, 72.42 per cent; buses, 8.82 per cent and motorcycle, .04 per cent. Tractors and trailers numbered 453,124 against 278,473 in 1949, a gain of 62.71 per cent. The presence of these huge vehicles is manifest on the approaches. Delaware River Bridge traffic, receipts and expenses since date of opening, July 1, 1926 are below tabulated:

	Traffic	Gross Receipts	Expenses	Net Receipts
1950	23,348,550	\$5,845,856.47	\$1,226,993.82	\$4,618,862.65
1949	21,085,868	5,265,306.50	1,057,278.89	4,208,027.61
1948	19,227,246	4,856,157.84	1,242,133.30	3,614,024.54
1947	18,107,133	4,557,968.63	958,476.09	3,599,492.54

Horse and rider	2	2		
TOTAL	32,348,550	21,085,868	2,262,682	10.73

BRIDGE TO GET FERRY PATRONAGE

The reduction in patronage of the high-speed rail transit line was disappointing, the 1950 total of 8,877,115 being the lowest since the 1945 figure of 8,538,517. Hope for a reversal of the downward trend was renewed, however, when the City of Philadelphia awarded contracts during 1950 for completion of the Locust Street Subway into which bridge trains will run. This will enable riders to proceed uninterruptedly from the Broadway Station of the Pennsylvania-Reading Seashore Lines in Camden to Sixteenth and Locust Streets, Philadelphia. At present they are compelled to transfer from the bridge trains at Eighth and Market Streets, Philadelphia and pay an extra fare for transportation to the city center. The bridge line will carry additional passengers when the ferry between Federal Street, Camden and Market Street, Philadelphia is discontinued. Application for abandonment of this service was made during the year by the owners on the ground that it was running up large annual deficits. The Interstate Commerce Commission directed that a hearing upon the application be held January 26, 1951. With the thought of facilitating interchange of passengers between the railroad and the bridge line, the Commission, on July 26, 1950, agreed to act jointly with The Pennsylvania Railroad in a project for the modernization and improvement of the Broadway Station. The Philadelphia Transportation Company plans to re-open the Franklin Square Station of the rail transit line and institute bus service from that point to traverse the Philadelphia waterfront. The following estimate of approximate cost of the Broadway Station project was submitted by the Railroad Company:

	Total Cost	DRJC Share
Extending rapid transit concourse for ticket office, toilets, et cetera	\$ 50,000	
Altering fence and stairways to subway	5,000	\$ 5,000
Subway under P.R.R. tracks	140,000	140,000
Stairway and moving-stairway to platform	240,000	140,000
Widening and extending platform	67,000	
Shelter sheds and enclosures	200,000	
Track work	10,000	
Maintaining railroad traffic	15,000	
Signal and interlocking changes	18,000	
TOTAL	\$745,000	\$285,000

Of the \$745,000 total, the estimated cost to this Commission is \$285,000. This would provide a pedestrian underpass at the ground floor level of the bridge rail line extending southward under the elevated railroad property with stairways and an escalator to deliver passengers to the railroad platform. This, in effect, would be an enlargement of the bridge line station with the Commission's obtaining an easement from the Railroad Company for extension of its present facilities. The balance of the project cost, amounting to \$460,000, would be borne by the Company. If the entire 2,900,000 passengers now

carried by the ferry become patrons of the bridge line, the increment could easily be absorbed without the purchase of additional cars by the Commission. As a matter of fact, the Commission now owns twenty-six cars of which ten are operated on the Ridge Avenue-Eighth Street Line. When the Locust Street Subway is completed, the entire twenty-six cars will be available.

Under the terms of the lease of the bridge rail transit line to the Philadelphia Transportation Company, the Commission receives 2½ cents for each passenger. The transfer of passengers from the ferry to the bridge line would result in a substantial increase in revenue to which should be added the tolls collected from the ferry vehicles. This year the vehicular business of the ferry has continued to diminish to 409,541 from 610,196 in the preceding year. It may be conservatively calculated that the combined additional revenue to the bridge would be approximately \$150,000.

WIDENING PROJECT CONCLUDED

During 1950 the following contracts of the bridge roadway widening program were completed:

Contract	For	Date	Amount
2-A	Lighting	May 1	\$ 197,500.00
4	Roadway Widening	August 6	2,013,376.73
6	Expansion Dams	June 5	43,574.73
7	Expansion Dams and Resurfacing	July 13	221,317.87
8	Electrical Work for Traffic Marker Structures	November 1	217,840.00
9	Traffic Marker Structures	August 15	126,755.00
TOTAL			\$2,820,364.58

Of the \$250,000 the Commission has set aside to help defray part of the cost of removing the freight railroad tracks which hamper traffic at the Camden Plaza, none was spent during 1950. The Pennsylvania-Reading Seashore Lines have been directed by the New Jersey Board of Public Utility Commissioners to begin work on removal of the rails when the project is approved by the Interstate Commerce Commission.

To relieve a dangerous traffic intersection at the Camden Plaza, the Commission, in 1949, approved construction of a vehicular tunnel in Sixth Street, Camden. Work upon this was delayed while hearings were held on protests against the consequent loss of ratables by the City of Camden. A Committee of Engineers was appointed by Mayor Brunner of Camden to examine other possible sites. This Committee recommended that a vehicular tunnel be built beginning in the vicinity of Broadway and Cooper Street and extending northwardly beneath the plaza to Pearl Street, having a circular approach to the plaza for bridge traffic and an entrance at Sixth and Pearl Streets for cross-city travel. Other objectors proposed a tunnel from Haddon Avenue via Seventh Street to the bridge plaza. Inasmuch as all parties interested could not agree on a tunnel site and removal of the freight line had not been authorized by the Interstate Commerce Commission, this Commission postponed construction of a tunnel and directed that all other work proceed.

A dry standpipe fire-protection system for the bridge roadway was installed by our Maintenance Bureau. On August 8 a test was conducted with the Fire Departments of Philadelphia and Camden and the Middle Department Association of Fire Underwriters participating. The test was successful in all its phases.

That a new crossing of the Delaware River would be needed in 1955 was made evident by the increasing bridge traffic. On September 13 the Commission held a public hearing in the Bellevue-Stratford Hotel, Philadelphia which was attended by representatives of the Highway Departments of Pennsylvania and New Jersey, Cities of Philadelphia, Camden and Gloucester, City Planning Commission of Philadelphia and other official and civic bodies. There was general accord on the necessity of another crossing despite a difference of opinion as to whether it should be a bridge or a tunnel. Emphasized at the meeting was the conviction that the new crossing should be located where it would best serve the needs of the public.

Carrying out this thought, the Commission retained Coverdale and Colpitts, traffic analysts, in October to study the Origin and Destination survey made in 1947 by the Highway Departments of Pennsylvania and New Jersey, City of Philadelphia and the Bureau of Public Roads, Department of Commerce, Washington, D. C., which covered in minute detail the motoring habits in the metropolitan area. Also retained was a Board of Engineers composed of Frank M. Masters, Othmar H. Ammann and Ralph Smillie to advise the Commission as to the location, type and cost of the crossing. Mr. Masters has designed many of the great bridges of this country; Mr. Ammann was Chief Engineer of The Port of New York Authority and the Triborough Bridge and Tunnel Authority and Mr. Smillie was Engineer of Design of the Holland and Lincoln Tunnels between New York and New Jersey and Chief Engineer of the Triborough Bridge and Tunnel Authority during construction of the Brooklyn-Battery vehicular tunnel completed in 1950. The Board entered upon its duties at once and by the end of the year, along with Coverdale and Colpitts, was able to make an ad interim report. The Board reported that its investigation, together with an analysis of traffic demands made by Coverdale and Colpitts, reveals the preferred site for a bridge would be from the vicinity of Oregon Avenue, Philadelphia to a point in South Camden traversing land on the north side of the New York Shipbuilding Corporation property and that the preferred site of a tunnel would be from approximately the same point in Philadelphia through land immediately south of the Shipbuilding Corporation yards terminating in the outskirts of Gloucester City.

NEW CROSSING TO PROVIDE RELIEF

The traffic analysts calculate that 8,400,000 vehicles will be diverted from the existing structure in the first year of operation plus 2,605,000 from The Pennsylvania Railroad and Chester ferries and from stimulated traffic at the natural rate of increase. The engineers declare that a location farther south would not attract traffic away from the present bridge in any such proportion.

Both Oregon and Packer Avenues which would feed either a bridge or a tunnel from the Philadelphia side are wide thoroughfares with particular advantageous connection to the highways of West Philadelphia, South Philadelphia and Delaware County. A direct connection would be afforded to the projected Schuylkill Expressway so that traffic from the north and from the terminus of the Pennsylvania Turnpike at King-of-Prussia could pass swiftly and uninterruptedly into New Jersey obviating the necessity of going through Central Philadelphia. On the New Jersey side, extremely desirable connections could be made to tap all main routes of travel. By taking the new crossing built on the lines suggested by the engineers, the motorist would avoid the delays and crowded streets of central Camden.

The engineers emphasize that both locations have the feature of reducing property damage on both sides of the river. Particular pains were taken by the Board to find locations where a major part of the approaches would be built on open ground. Numerous other sites were investigated but none, other than those proposed, combine the advantages of attracting a large volume of traffic and low property losses.

In connection with the engineering study, the Commission has considered the legal and financial aspects of the crossing problem.

The Legislature of New Jersey, on July 18, enacted a measure constituting this Commission as The Delaware River Port Authority which was signed by Governor Driscoll, July 28. This, however, does not become effective until a substantially similar act is approved in Pennsylvania. The text of the New Jersey act appears as an appendix to this report.

This Commission, in addition to its other duties, is charged with the responsibility of "the promotion of the Delaware River as a highway of commerce." In order to carry out this function, the Port Promotion Department

was created on December 1, 1949 and a Statistical and Research Section of the Department activated, May 1, 1950. The Department has cooperated and maintained close contact with all Federal, State and Municipal Agencies as well as the various civic and trade groups interested in or concerned with promotion, development or use of the Delaware River as an artery of commerce. The Department has also worked closely with the railroads, highway carriers, port terminal operators, steamship companies and other private industries who play an important part in Port activities. Members of the staff have been called on to give talks on the Port to traffic and transportation groups and other civic organizations in the Port area. The Department's advertising began to appear in publications in May and June. Seven journals in English and Spanish were used to drive home the advantages of this port to foreign businessmen as well as five magazines and two commercial newspapers to reach foreign traders, traffickers and businessmen in the United States. One magazine was selected for its specialized coverage of military traffic and transportation personnel. Four leading newspapers, two annuals and the Philadelphia Chamber of Commerce monthly were used to create more interest and understanding of the port among business people in the metropolitan Philadelphia and Camden area. A special booklet issued by the Department in April was presented to representatives of the Department of Defense and Department of State setting forth the advantages of utilizing the Delaware River ports for the movement of materiel under the military re-armament program. This contained photographic illustrations of the principal facilities of the port. A port map folder entitled, A GUIDE TO HARBOR FACILITIES OF THE DELAWARE RIVER PORT was prepared and first distribution made on the occasion of the Delaware River Port Cruise, May 22. A total of 25,000 copies of this guide was printed of which approximately 19,500 have been distributed to date in this country and abroad.

A brochure of thirty-two pages is now being prepared depicting the facilities and activities of the port. It contains photographs of the principal piers and marine terminals and their equipment showing direct rail-to-ship loading and discharging of cargoes, special equipment for transfer of bulk cargoes, materials-handling equipment and other important aspects of interest to shippers. Also included in the brochure are directories of steamship lines and agents, foreign freight forwarders and Customs House brokers, stevedoring and towboat companies, foreign consuls, Federal, State and Municipal agencies serving the port. This brochure will be published in February, 1951.

MOVIE DEPICTS PORT ACTIVITIES

The Commission had a 20-minute, 16-millimeter Kodachrome, sound motion-picture of Delaware River Port activities made and given wide distribution. There has been much favorable comment on the manner in which the motion-picture depicts the varied activities and facilities of the port. Requests for showings of the film have been received from a large number of organizations.

The Statistical and Research Section has made studies and prepared tables on such subjects as (a) comparisons of export and import traffic through principal United States ports during 1949 and the first half of 1950; (b) exports and imports of the Delaware River area by port; (c) movements of cargoes controlled by the United States Department of Defense; (d) direct entrances and clearances of vessels in foreign trade by principal United States ports; (e) vessel arrivals and clearances at the ports of the Delaware River; (f) monthly customs receipts of the Philadelphia Customs District; (g) total waterborne commerce of the Delaware River ports for the years, 1948 and 1949. Statistics compiled covering the first eight months of 1950 show a substantial gain in foreign trade for the Delaware River Port area compared with the same period of 1949. Total foreign commerce for this period was 16,087,551 net tons compared with 13,210,950 net tons for the eight-month period of 1949. This increase was due to a very large growth in import commerce.

One of the greatest needs of the Port area is a Traffic Bureau adequately staffed with traffic analysts, rate experts and competent legal counsel to insure the maintenance and establishment of reasonable competitive rail, highway and water rates. Competition between ports for foreign and domestic commerce is greater today than at any time in history. A slight rate advantage by a competing port may mean diversion of a substantial volume of commerce to the detriment of waterfront interests and other business enterprises. An active campaign should be initiated to improve our position ratewise in comparison with other ports.

Selection of the Delaware River port area for two large integrated steel plants was recently announced. Construction of the new Fairless plant of the United States Steel Corporation at an estimated cost of \$400,000,000 near Morrisville, Pennsylvania, will be begun in 1951. The National Steel Corporation plant at Paulsboro, New Jersey, will be built in the near future. According to reliable reports, other steel companies and industries have purchased properties or are interested in locating in the area. Oil industries located on the Delaware and Schuylkill Rivers are rapidly and greatly expanding their plant facilities. These developments indicate that the port area will experience the greatest growth of commerce and industry in its entire history during the next few years. In order to serve these industries and accommodate a substantial anticipated increase in waterborne commerce, steps should be taken immediately, and plans made, to provide the required port facilities and necessary channel and harbor improvements.

One change occurred in Commission membership in

1950. Mr. Hugh L. Mehorter of Woodbury, New Jersey, resigned to become Chairman of the New Jersey Racing Commission and, appointed May 18 to succeed him, was Mr. Ralph Cornell, Woodbury, New Jersey.

Arrests totaling 132 were made in 1950 by bridge police who also extinguished 53 fires and removed 3,227 disabled vehicles from the structure. Two contractor's employees were killed by falling from the bridge, one woman committed suicide on the Camden bridge plaza and one man died of injuries received in an automobile accident.

The Legislatures of the Commonwealth of Pennsylvania and the State of New Jersey are cordially invited to inspect the Delaware River Bridge at any time.

Respectfully submitted,

THE DELAWARE RIVER JOINT COMMISSION

Pennsylvania:

James H. Duff, Chairman
Bernard Samuel
Charles R. Barber
Weldon B. Heyburn
Edwin R. Cox
Alvin A. Swenson

APPENDICES

NEW JERSEY PORT AUTHORITY ACT OF 1950

An Act authorizing the Governor on behalf of the State of New Jersey to enter into a supplemental compact or agreement with the Commonwealth of Pennsylvania, amending Article I, II, IV and XII of, and adding a new article to be known as Article XIII to, the compact and agreement between the State of New Jersey and the Commonwealth of Pennsylvania authorized by and made pursuant to an act entitled "An act providing for joint action by Pennsylvania and New Jersey in the development of the ports on the lower Delaware River and the improvement of the facilities for transportation across the said river; authorizing the New Jersey Interstate Bridge Commission on behalf of the State of New Jersey for these purposes to enter into an agreement with the Commonwealth of Pennsylvania creating the Delaware River Joint Commission and specifying the powers and duties thereof, including the power to finance projects by the issuance of revenue bonds; transferring to the new commission all the powers of the Delaware River Bridge Joint Commission and making an appropriation," approved June thirtieth, one thousand nine hundred and thirty-one (P. L. 1931, c.391), by changing the name of the Delaware River Joint Commission to the Delaware River Port Authority, by changing the method of appointment of the commissioners, by extending the jurisdiction, powers and duties of said the Delaware River Port Authority and defining such additional jurisdiction, powers and duties, to take effect upon the enactment of substantially similar legislation by the Commonwealth of Pennsylvania embodying the supplemental agreement between the two States in this act set forth, and authorizing the Governor to apply, on behalf of the State of New Jersey, to the Congress of the United States for its consent thereto, and repealing chapter three hundred thirty-six of the laws of one thousand nine hundred and forty-one, approved August fourth, one thousand nine hundred and forty-one (P. L. 1941, c.336), and chapter four hundred forty-three of the laws of one thousand nine hundred and forty-eight, approved October twentieth, one thousand nine hundred and forty-eight (P. L. 1948, c.443).

Be it enacted by the Senate and General Assembly of the State of New Jersey:

1. The Governor is hereby authorized to enter into a supplemental compact or agreement, on behalf of the State of New Jersey, with the Commonwealth of Pennsylvania, amending and supplementing the compact or agreement between the Commonwealth of Pennsylvania and the State of New Jersey entitled "Agreement between the Commonwealth of Pennsylvania and the State of New Jersey creating the Delaware River Joint Commission as a body corporate and politic and defining its powers and duties," which was executed on behalf of the Commonwealth of Pennsylvania by its Governor on July first, one thousand nine hundred and thirty-one, and on behalf of the State of New Jersey by the New Jersey Interstate Bridge Commission by its members on July first, one thousand nine hundred and thirty-one, and was consented to by the Congress of the United States by Public Resolution No. 26, being chapter 258 of the Public Laws, 72nd Congress, approved June fourteenth, one thousand nine hundred and thirty-two, which supplemental compact and agreement shall be in substantially the following form:

Supplemental agreement between the Commonwealth of Pennsylvania and the State of New Jersey amending and supplementing the agreement entitled "Agreement between the Commonwealth of Pennsylvania and the State of New Jersey creating the Delaware River Joint Commission as a body corporate and politic and defining its powers and duties," by changing the name of the Delaware River Joint Commission to the Delaware River Port Authority, by changing the method of appointment of the Commissioners, by extending the jurisdiction, powers and duties of said the Delaware River Port Authority, and defining such additional jurisdiction, powers and duties.

The Commonwealth of Pennsylvania and the State of New Jersey do hereby solemnly covenant and agree each with the other as follows:

(1) Article I of the said agreement between the Commonwealth of Pennsylvania and the State of New Jersey creating the Delaware River Joint Commission as a body corporate and politic and defining its powers and duties, which was executed on behalf of the Commonwealth of Pennsylvania by the Governor on July first, one thousand nine hundred and thirty-one, and on behalf of the State of New Jersey by the New Jersey Interstate Bridge Commission by its members on July first, one thousand nine hundred and thirty-one, and which was consented to by the Congress of the United States by Public Resolution No. 26, being chapter 258 of the Public Laws, 72nd Congress, approved June fourteenth, one thousand nine hundred and thirty-two, is amended to read as follows:

ARTICLE I

The body corporate and politic, heretofore known as the Delaware River Joint Commission hereby is continued under the name of the Delaware River Port Authority (hereinafter in this agreement called the "commission," which shall constitute the public corporate instrumentality of the Commonwealth of Pennsylvania and the State of New Jersey when exercising any of the following public purposes and which shall be deemed to be exercising an essential governmental junction in effectuating such purposes, to wit:

(a) The operation and maintenance of the bridge, owned jointly by the two States across the Delaware River between the City of Philadelphia in the Commonwealth of Pennsylvania and the City of Camden in the State of New Jersey, including its approaches, and the making of additions, extensions and improvements thereto.

(b) The effectuation, establishment, construction, operation and maintenance of railroad or other facilities for the transportation of passengers across the said bridge, including extensions of such railroad or other facilities within the Port District and within a thirty-five-mile radius of Camden, New Jersey, and points within the City of Philadelphia.

The improvement and development of the Port District by or through the acquisition, construction, maintenance, operation, in whole or in part, of any and all projects for the improvement and development of the Port District or incidental thereto, either directly by purchase, lease or contract, or by lease or agreement with any other public or private body or corporation.

(d) Cooperation with all other bodies interested or concerned with, or affected by the promotion, development or use of the Delaware River and the Port District.

(e) The procurement from the Government of the United States of any consents which may be requisite to enable any project within its powers to be carried forward.

(f) The promotion as a highway of commerce of the Delaware River.

(g) The promotion of increased passenger and freight commerce on the Delaware River and for such purpose the publication of literature and the adoption of any other means as may be deemed appropriate.

(h) To study and make recommendations to the proper authorities for the improvement of terminal, lighterage, wharfage, warehouse and other facilities necessary for the promotion of commerce on the Delaware River.

(i) Institution through its counsel, or such other counsel as it shall designate, or intervention in, any litigation involving rates, preferences, rebates, or other matters vital to the interest of the Port District; provided, that notice of any such intervention or litigation shall be given promptly to the Attorney-General of the Commonwealth of Pennsylvania and to the Attorney-General of the State of New Jersey. Provision for such notices shall be made in a resolution authorizing any such intervention or litigation and shall be incorporated in the minutes of the commission.

(j) The establishment, maintenance, rehabilitation, construction and operation of a rapid transit system for the

transportation of passengers, express, mail, and baggage between New Jersey communities within the Port District and within a thirty-five-mile radius of Camden, New Jersey, and points within the City of Philadelphia. Such system may be established by either utilizing the existing rapid transit systems, railroad facilities, highways and bridges within the territory involved or by the construction, maintenance and improvement of new facilities where deemed necessary.

(k) The performance of such other functions which may be of mutual benefit to the Commonwealth of Pennsylvania and the State of New Jersey insofar as concerns the promotion and development of the Port District and the use of its facilities by commercial vessels.

(2) Article II of said agreement is amended to read as follows:

ARTICLE II

The commission shall consist of sixteen commissioners, eight resident voters of the Commonwealth of Pennsylvania and eight resident voters of the State of New Jersey, who shall serve without compensation.

The present members of the commission, including ex-officio members, shall continue to serve, respectively, as commissioners until the expiration of their terms or the terms of office by virtue of the holding of which they are members of the commission and until succeeding commissioners shall be appointed and qualify.

The commissioners for the State of New Jersey shall be appointed by the Governor, with the advice and consent of the Senate, for terms of five years; and in case of a vacancy occurring in the office of commissioner during a recess of the Legislature, it may be filled by the Governor by an ad interim appointment which shall expire at the end of the next regular session of the Senate unless a successor shall be sooner appointed and qualify and, after the end of the session, no ad interim appointment to the same vacancy shall be made unless the Governor shall have submitted to the Senate a nomination to the office during the session and the Senate shall have adjourned without confirming or rejecting it, and no person nominated for any such vacancy shall be eligible for an ad interim appointment to such office if the nomination shall have failed of confirmation by the Senate.

The eight commissioners for the Commonwealth of Pennsylvania shall be appointed by the Governor of Pennsylvania for terms of five years.

All commissioners shall continue to hold office after the expiration of the terms for which they are appointed unless and until their respective successors are appointed and qualify, but no period during which any commissioner shall hold over shall be deemed to be an extension of his term of office for the purpose of computing the date on which his successor's term expires.

(3) Article IV of said agreement is amended to read as follows:

ARTICLE IV

For the effectuation of its authorized purposes the commission is hereby granted the following powers:

- (a) To have perpetual succession.
- (b) To sue and be sued.
- (c) To adopt and use an official seal.
- (d) To elect a chairman, vice-chairman, secretary and treasurer, and to adopt suitable by-laws for the management of its affairs. The secretary and treasurer need not be members of the commission.
- (e) To appoint, hire, or employ counsel and such other officers and such agents and employees as it may require for the performance of its duties, by contract or otherwise, and fix and determine their qualifications, duties and compensation.
- (f) To enter into contracts.
- (g) To acquire, own, hire, use, operate and dispose of personal property.
- (h) To acquire, own, use, lease, operate, mortgage and dispose of real property and interests in real property and to make improvements thereon.
- (i) To grant by franchise, lease or otherwise, the use

of any property or facility owned or controlled by the commission and to make charges therefor.

(j) To borrow money upon its bonds or other obligations, either with or without security.

(k) To exercise the power of eminent domain within the Port District.

(l) To determine the exact location, system and character of and all other matters in connection with any and all improvements or facilities which it may be authorized to own, construct, establish, effectuate, operate or control.

(m) In addition to the foregoing, to exercise the powers, duties, authority and jurisdiction heretofore conferred and imposed upon the aforesaid the Delaware River Joint Commission by the Commonwealth of Pennsylvania or the State of New Jersey, or both of the said two States; and

(n) To exercise all other powers not inconsistent with the Constitutions of the two States or of the United States, which may be reasonably necessary or incidental to the effectuation of its authorized purposes or to the exercise of any of the foregoing powers, except the power to levy taxes or assessments, and generally to exercise in connection with its property and affairs, and in connection with property within its control, any and all powers which might be exercised by a natural person or a private corporation in connection with similar property and affairs.

The Commission shall have full power and authority to acquire, purchase, construct, lease, operate, maintain and undertake any project, including terminal, terminal facility, transportation facility, or any other facility of commerce and to make charges for the use thereof.

The commission is authorized to make expenditures anywhere in the United States and foreign countries, to pay commission, and hire or contract with experts and consultants, and otherwise to do indirectly anything which the commission may do directly. The commission shall have such additional powers and duties as may hereafter be delegated to or imposed upon it from time to time by the action of either State concurred in by legislation of the other.

(4) Article XI of said agreement is amended to read as follows:

ARTICLE XI

The effectuation of its authorized purposes by the commission is and will be in all respects for the benefits of the people of the Commonwealth of Pennsylvania and the State of New Jersey, for the increase of their commerce and prosperity and for the improvement of their health and living conditions; and since the commission will be performing essential governmental functions in effectuating said purposes, the commission shall not be required to pay any taxes or assessments upon any property acquired or used by it for such purposes, and the bonds or other securities or obligations issued by the commission, their transfer and the income therefrom (including any profits made on the sale thereof) shall at all times be free from taxation within the Commonwealth of Pennsylvania and the State of New Jersey.

To the end that counties and municipalities may not suffer undue loss of tax revenue by reason of the acquisition and ownership of property therein by the commission, the commission is hereby authorized and empowered, in its discretion, to enter into a voluntary agreement or agreements with any county or municipality, whereby it will undertake to pay a fair and reasonable sum or sums to compensate the said counties and municipalities for said loss of tax revenue in connection with any property hereafter acquired or used by the commission. Any such payment or payments which the commission is hereby authorized and empowered to make may be paid on an annual basis, in which case the payment or payments shall not be in excess of the amount of the taxes upon such property when last assessed prior to the time of its acquisition by the commission, or such payment or payments may be made in a lump sum or sums, or over a stated period of years, as shall be agreed upon by and between the commission and such counties or mu-

nicipalities. Every county or municipality wherein property shall be acquired by the commission, is authorized and empowered to enter into such agreement or agreements with the commission to accept the payment or payments which the commission is herein authorized and empowered to make.

(5) Article XII of said agreement is amended to read as follows:

ARTICLE XII

The commission shall make annual reports to the Governors and Legislatures of the Commonwealth of Pennsylvania and the State of New Jersey, setting forth in detail its operations and transactions, and may make such additional reports from time to time to the Governors and Legislatures as it may deem desirable.

Whenever the commission after investigation and study shall have concluded plans with estimates of cost and means of financing any new project, other than those described in Article I, subdivision (b) hereof, for transportation across or under the Delaware River within the Port District any new project for the improvement of the Delaware River's port facilities, or any other project for the mutual advantage of Pennsylvania and New Jersey and coming within the purposes for which it is created the commission shall make to the Legislatures of each State a detailed report dealing only with the contemplated project and shall request of said Legislatures authority to proceed with the project described, and it shall not be within the power of the commission to construct, erect or otherwise acquire any facility or project, except those described in Article I, subdivision (b) hereof, unless and until the Legislatures of both States shall have authorized the commission to proceed with the project outlined in its special report thereon.

(6): Add to said agreement a new article to be entitled, and to read, as follows:

ARTICLE XIII

The following words as herein used shall have the following meanings:

1. "Port District" shall include the counties of Chester, Delaware, Montgomery, Philadelphia and that portion of Bucks County, south of the boundary line between Mercer County and Burlington County in the State of New Jersey as extended across the Delaware River to the Pennsylvania shore of said river in Pennsylvania and the counties of Atlantic, Burlington, Camden, Cape May, Cumberland, Gloucester, Ocean and Salem in New Jersey.

"Commission" shall mean the governing body of the Delaware River Port Authority.

"Commissioner" shall mean a member of the governing body of the Delaware River Port Authority.

"Terminals" shall include marine, motor truck, railroad and air terminals, also coal, grain and lumber terminals and union freight and all terminals used in connection with the transportation of passengers and freight.

"Transportation facility and facilities for transportation of passengers" shall include railroads operated by steam, electricity, or other power, rapid transit lines, motor trucks, tunnels, bridges, airports, boats, ferries, carfloats, lighter, tugs, floating elevators, barges, scows, or harbor craft of any kind, and aircraft.

"Terminal facility" shall include wharves, piers, slips, ferries, docks, drydocks, ship repair yards, bulkheads, dock walls, basins, carfloats, float-bridges, dredging equipment, radio receiving and sending stations, grain or other storage elevators, warehouses, cold storage, tracks, yards, sheds, switches, connections, overhead appliances, bunker coal, oil and fresh water stations, markets, and every kind of terminal, storage or supply facility now in use, or hereafter designed for use to facilitate passenger transportation and for the handling, storage, loading or unloading of freight at terminals.

"Transportation of passengers" and "passenger transportation" shall mean the transportation of passengers by railroad or other facilities.

"Rapid transit system" shall mean a transit system for

the transportation of passengers, express, mail and baggage by railroad or other facilities.

"Projects" shall mean the establishment, maintenance, rehabilitation, construction and operation of such undertakings as are authorized in this act.

"Railroads" shall include railways, extensions thereof, tunnels, subways, bridges, elevated structures, tracks, poles, wires, conduits, power-houses, substations, lines for the transmission of power, carbarns, shops, yards, sidings, turnouts, switches, stations and approaches thereto, cars and motive equipment.

"Facility" shall include all works, buildings, structures, appliances and appurtenances necessary and convenient for the proper construction, equipment, maintenance and operation of a facility or facilities or any one or more of them.

"Real property" shall include land under water, as well as uplands, and all property either now commonly, or legally, defined as real property, or which may hereafter be so defined.

"Personal property" shall include choses in action and all other property now commonly, or legally, defined as personal property, or which may hereafter be so defined.

"To lease" shall include to rent or to hire.

"Rule or regulation," until and unless otherwise determined by the Legislatures of both States, shall mean any rule or regulation not inconsistent with the Constitution of the United States or of either State, and subject to the exercise of the power of Congress, and shall include charges, rates, rentals or tolls fixed or established by the commission within its jurisdiction.

"Municipality" shall include a county, city, borough, village, township, town, public agency, public authority or political division.

"Plural or singular." The singular wherever used herein shall include the plural.

Wherever action by the legislation of either State is herein referred to, it shall mean an act of the Legislature duly adopted in accordance with the provisions of the Constitution of the State.

2. Upon its signature, on behalf of the State of New Jersey and the Commonwealth of Pennsylvania, such supplemental compact or agreement and the compact or agreement so amended and supplemented shall become binding and shall have the force and effect of a statute of the State of New Jersey, and the Delaware River Port Authority shall thereupon become vested with all the powers, rights and privileges, and be subject to the duties and obligations contained therein, as though the same were specifically authorized and imposed by statute and the State of New Jersey shall be bound by all of the obligations assumed by it under such supplemental compact or agreement and under such compact or agreement so amended and supplemented; and the Governor shall transmit an original signed copy thereof to the Secretary of State for filing in his office.

3. The Governor is hereby authorized to apply, on behalf of the State of New Jersey, to the Congress of the United States for its consent and approval of such supplemental compact or agreement.

4. Nothing contained in this act, nor in the said supplemental compact or agreement, shall be deemed to effect any contract, agreement or obligation heretofore entered into or created nor any appointment heretofore made, by the commission, and any and all agreements, contracts or obligations, or appointments, of the commission shall be assumed, performed and recognized by, and shall be binding upon, the Delaware River Port Authority, as fully and to the same extent as required by terms thereof to be performed and recognized by the commission.

5. The powers vested in the commission by this act shall be construed as being in addition to and not in diminution of the powers heretofore or hereafter vested by law in the commission.

6. Any and all statutes or parts of statutes inconsistent with the provisions of this act and of the said supplemental compact or agreement are repealed.

7. Chapter three hundred thirty-six of the laws of one thousand nine hundred and forty-one and chapter four

hundred forty-three of the laws of one thousand nine hundred and forty-eight are repealed.

8. Except where specifically amended or repealed by this act the provisions of the agreement, authorized by chapter three hundred ninety-one of the laws of New Jersey, approved June thirtieth, one thousand nine hundred and thirty-one, are maintained in full force and effect.

9. If any part or parts of this act shall be held unconstitutional, such unconstitutionality shall not affect the validity of the remaining parts of this act. The Legisla-

ture hereby declares that it would have passed the remaining parts of this act if it had known that such part or parts thereof would be declared unconstitutional.

10. This act shall become effective immediately upon its approval by the Governor and the passage by the Commonwealth of Pennsylvania of a substantially similar act embodying the supplemental compact or agreement between the two States hereinabove set forth.

Approved July 28, 1950

-------------------------------------	-----------

TOTAL \$863,867.62

The Delaware River Bridge connecting Philadelphia, Pa., and Camden, N. J., opened July 1, 1926
Construction was begun January 6, 1922.

The cost of the Bridge including Real Estate was \$37,085,100.71.

PRINCIPAL DIMENSIONS AND QUANTITIES

Total length of bridge and approaches	9,570 feet
Length of main span	1,750 feet
Width of bridge	128 feet
Width of roadway between curbs	78 feet
Height of towers above mean high water	380 feet
Clearance above mean high water	135 feet
Weight of main span per linear foot	26,000 lbs.
Live load capacity per linear foot	12,000 lbs.
Deepest foundation below mean high water ..	105 feet
Total weight of bridge	720,000 tons

MASONRY (Cubic Yards)

	Granite	Concrete	Totals
Main Piers	6,600	52,400	59,000
Anchorage	14,000	202,000	216,000
Approaches	4,600	35,400	40,000
Totals	25,200	289,800	315,000

PAVING

Roadway	72,000 sq. yds.
Footwalks	19,000 sq. yds.

CABLES

Number of cables	2
Diameter of cables	30 inches
Number of wires in each cable	18,666
Number of strands in each cable	61
Number of wires in each strand	306
Size of wire (No. 6) diameter	0.195 inch
Total length of wire used	25,100 miles
Distance center to center of cables	89 feet
Weight of cables	7,000 tons
Diameter of suspender ropes	2 1/4 inches

STRUCTURAL STEEL

Main towers	10,000 tons
Suspended structure	18,600 tons
Anchorage	7,300 tons
Approaches	27,000 tons
Due to Alterations	3,100 tons

Total 66,000 tons

TOWERS

Towers above mean high water	380 feet
Depth Phila. tower pier below M.H.W.	58 feet
Depth Camden tower pier below M.H.W.	82 feet
Weight of steel in two main towers	10,000 tons
Load on each tower from cables	35,000 tons
Field driven rivets in each tower	145,000
Roadway expansion joints at each tower provide for 24 inches of motion due to temperature changes.	

ANCHORAGES

Each anchorage occupies 3/4 acre	
Anchorage foundation depths below M.H.W.:	
Philadelphia	63 feet
Camden	105 feet
Weight of each anchorage	200,000 tons

RAIL TRANSIT LINE

Constructed at a cost of	\$10,985,383.53
Construction begun	February 23, 1934
Started operation	June 6, 1936
The line is operated by the Philadelphia Transportation Company under a lease, the Bridge Commission receiving 2 1/2 cents from each fare.	
Trains run from 8th and Market Streets, Philadelphia, to Broadway Station, Camden.	

SCHEDULE OF TOLL RATES

Passenger Automobile20
Motor Truck—7,000 pounds gross weight (pneumatic tires)20
(Commutation toll books containing 40 tickets for the passage of passenger automobiles and trucks of 7,000 pounds gross weight are sold for \$6.00 for use within 30 days after purchase. Unused tickets will not be redeemed. Use of tickets will be limited to the vehicle identified by the license number re-recorded on the book cover.)	
Motor Truck:	
7,000 pounds gross weight (solid rubber tires) ..	.35
7,001 to 18,000 pounds (pneumatic tires)40
(solid rubber tires)50
18,001 to 26,000 pounds (pneumatic tires)65
(solid rubber tires)75
26,001 to 28,000 pounds gross weight (pneumatic tires)90

(Solid rubber-tired vehicles in excess of 26,000 pounds by special permit only.)
28,001 to 36,000 pounds gross weight
(pneumatic tires) 1.00

Passenger Bus
(single-deck)50
(double-deck)75

Horse-drawn vehicles

To the Honorable: The Legislatures of the Commonwealth of Pennsylvania and the State of New Jersey.

The Delaware River Joint Commission of Pennsylvania and New Jersey, acting in accordance with the laws of both states enacted in 1931 creating and governing the Commission, herewith respectfully requests the Legislatures to authorize the construction by this Commission of a new six-lane suspension bridge for vehicular traffic over the Delaware River.

The Commission, upon the advice of its Board of Engineers and traffic analysts, recommends that the bridge be built from Oregon and Packer Avenues in South Philadelphia to the outskirts of Camden, New Jersey. Adequate connections would be made by the Commission to the highways on both sides of the river. The estimated cost of the project at today's prevailing prices is \$69,418,000

plus \$14,000,000 for additional approach highways in Pennsylvania and New Jersey.

The final details of connections to roads and streets in Pennsylvania and New Jersey can only be determined after agreement with the highway officials of the states and the various municipalities. The Commission is aware that the problems of minimizing traffic congestion on both sides of the river will require further extensive planning and cooperation. These problems cannot be resolved at once but it should be emphasized that the Commission will give sympathetic consideration to all in the areas affected by the new crossing.

To protect communities in the vicinity of the bridge heads against damage caused by traffic congestion, the Commission has increased the estimated project cost to \$83,418,000 including the expense of constructing access highways in Pennsylvania and New Jersey.

The agreement between the Commonwealth of Pennsylvania and the State of New Jersey of July 1, 1931 set forth in Pennsylvania, P. L. 575 (36 P. S. 3503), and New Jersey S. A. 32:3-1 to 32:3-18 and approved by joint resolution of the Congress of the United States June 14, 1932 charges this body with the following public purpose:

Article 1—Subdivision (c):

"the investigation of the necessity of additional means of communication between the Commonwealth of Pennsylvania in the vicinity of Philadelphia and the State of New Jersey opposite thereto and between the ports of Philadelphia and Camden and the sea; and making of such studies, surveys and estimates as may be necessary to determine the feasibility and and cost of any such additional means of communication, whether the same be by bridge, tunnel, canal or otherwise."

In Article XII of the same Acts the following requirement is set forth:

"Whenever the Commission after investigation and study shall have concluded plans with estimates of costs and means of financing any new project, other than those described in Article one, subdivision (b) hereof, for transportation across or under the Delaware River within the area hereinbefore described, any new project for the improvement of the Delaware River's port facilities, or any other project for the mutual advantage of Pennsylvania and New Jersey and coming within the purpose for which it is created, the Commission shall make to the Legislatures of each State a detailed report dealing only with the contemplated project and shall request of said Legislature authority to proceed with the project described and it shall not be within the power of the Commission to construct, erect or otherwise acquire any facility or project, except those described in Article one, subdivision (b) hereof, unless and until the Legislatures of both States shall have authorized the Commission to proceed with the project outlined in its special report thereon."

In accordance with this provision the Commission now submits a detailed report dealing with the proposed bridge between South Philadelphia and Camden, New Jersey. The Commission is thoroughly aware of the magnitude of the responsibility it asks the Legislatures to delegate. It believes that the welfare of the citizens of Pennsylvania and New Jersey, their material prosperity and the development of the Delaware River Port will be enhanced by construction of the bridge and that the expenditure of even the vast sum quoted is amply justified in view of the benefits to be obtained thereby.

Linking the two States by another bridge will have a re-vitalizing effect upon the whole area. The convenience of the structure and the easing of traffic congestion will be immediately apparent. In peaceful times its value will be daily evident while, if war clouds gather, this additional means of communication will have a worth beyond all calculation for military forces and civilian defense requirements. The latter consideration prompts this Com-

mission to believe that the urgency will be recognized at Washington in the allocation of steel and other vital materials required.

Revenue Bond Financing Proposed

The Commission is of the opinion that the cost of the structure can be met by the sale of revenue bonds. Our traffic analysts forecast that the new bridge will be crossed by 11,005,000 vehicles in the opening year. The return thus to be derived at a toll of twenty-five cents for passenger automobiles with higher rates for trucks and buses will, with the surplus earnings of the present Delaware River Bridge, cover operation and maintenance expenses, interest and amortization of the bonds in a thirty-year period. There is every indication that a revenue bond, thus secured, could be safely sold to the investing public. The twenty-cent toll now charged upon the present bridge would be increased to twenty-five cents to provide sufficient funds to protect the bond issue and to put the two structures upon a comparable basis. It would not be possible to charge a twenty-five cent toll upon the new bridge and retain the twenty-cent tariff on the present structure. Such a disparity would result in the overcrowding of one bridge and lack of patronage upon the other thereby defeating one of the essential objectives in undertaking the new project. It should be emphasized that the twenty-five cent rate compares favorably with the toll fixed for the other great bridges or tunnels in this country.

While it is impossible to predict exactly the interest rate at which an issue of approximately \$84,000,000 bonds can be sold several months hence, a two and one-half per cent figure has been assumed. On this basis the interest would be \$2,100,000 and our engineers forecast an operation expense of \$830,000 totaling \$2,930,000 annually before provision is made for maturing bonds or payments into a Sinking Fund for this purpose.

Our traffic analysts estimate that 8,400,000 vehicles will be diverted from the present bridge to the new structure when it is opened in 1955. If the present rate of increase continues traffic on the present Delaware River Bridge should total 31,000,000 in 1954. Assuming the diversion of 8,400,000 to the new crossing, the traffic in the following year on the old structure should substantially the same as it was in 1950. In that year net receipts of the Commission, in excess of bond service requirements amounted to \$2,663,433.10 based on a twenty-cent toll. By increasing this to twenty-five cents the net receipts would approximate \$3,500,000 annually. This will supply funds required to amortize the bonds sold to build the new crossing and be a most important factor in insuring the financial stability of the enterprise.

Commission Is States Agency

Inasmuch as this Commission is now requesting authorization to undertake a new project it seems appropriate that we submit to the Legislatures a concise account of our stewardship of the bridge put in our charge in 1931. Annually the Commission submits a detailed report covering its activities to every member of the Legislatures of Pennsylvania and New Jersey. Additional copies are furnished to colleges, libraries, state and municipal officials, banking houses and all others interested in the Commission's affairs.

The Delaware River Joint Commission, as the public corporate instrumentality of the two States, operates and maintains the Delaware River bridge between Philadelphia and Camden, collects tolls thereon for the passage of vehicles and a charge for passengers using the high-speed rail transit line on the structure which provides a connection with the subway system in Philadelphia. Revenues thus obtained are used to maintain the structure, pay interest and semi-annual maturities of bonds and defray the cost of needed improvements. The bonds are secured only by the revenues, the laws of Pennsylvania and New Jersey explicitly setting forth that the credit of neither state is pledged.

The Delaware River Bridge which was opened to traffic in 1926, was built through appropriations made by Pennsylvania, New Jersey and the City of Philadelphia by the Delaware River Bridge Joint Commission, predecessor of the present Commission. In 1931, when this Commission was created, it was empowered to borrow money and from the proceeds thus obtained to repay the States and the City in full with interest from the dates of appropriation. This transaction was carried out in 1933 when the Commission issued its own bonds backed, as has been recited, solely by the revenues to be obtained from users of the bridge. The total issue was \$38,120,000 bearing a coupon of 4¼ percent. To Pennsylvania was repaid \$9,208,000; New Jersey, \$12,199,000 and Philadelphia, \$9,555,000 while the remainder was devoted to defraying the cost of the highspeed line including the construction of short sections of subway in Philadelphia and Camden.

Interest Rates Reduced

The bonds were called in 1943 and refinanced in the amount of \$37,000,000 at 2.7 per cent. The issue was refunded in 1946 in the amount of \$30,000,000. Favorable market conditions and the Commission's record in the management of the bridge combined to secure an extraordinarily low interest rate. Outstanding bonds as of February 28, 1951 amounted to \$22,300,000 of which this Commission owns through repurchase at a substantial discount, \$1,813,000. The interest rate is one per cent, the lowest ever established upon a bridge revenue bond in this country.

Growth of traffic upon the bridge has been steady and since the war spectacular. Originally the structure was built with six roadway lanes but, with the expenditure of approximately three million dollars derived from bridge receipts, two additional lanes were provided by utilizing spaces that had been intended for a trolley-car line. The new lanes were opened to traffic last year, providing a much needed relief for the mounting traffic. This totalled in 1950, 23,348,550 vehicles, an increase of 2,262,682 over the 1949 figure.

As it was evident that a continued annual increase of two million vehicles would jam the capacity of even an 8-lane highway, the Commission in 1950 decided that a new vehicular crossing of the Delaware River would be imperatively needed within a very few years. Where this should be located and whether it should be a bridge or a tunnel were matters upon which the Commission had no preconceived ideas but it knew that the most expert engineering advice obtainable was required. Fortunately, the Commission was able to secure the services of three outstanding engineers to form a Board, men distinguished in their profession with long records of successful accomplishment in the design and construction of vehicular bridges and tunnels.

Mr. Frank M. Masters, Chairman of the Board, is the senior member of the firm of Modjeski and Masters. His partner, the late Doctor Ralph Modjeski, was Chief Engineer in the design and construction of the Delaware River Bridge. Mr. Masters has been in charge of the building of many of the great bridges of the country including the Mississippi River bridges at New Orleans, Memphis, Tennessee, Davenport, Iowa and the Ohio River bridges at Evansville, Indiana; Maysville, and Owensboro, Kentucky. He was responsible for the design and construction of the high-speed rail transit line over the Delaware River Bridge and the recently completed widening of the bridge roadway from six to eight lanes. He designed the Penrose Avenue Bridge, Philadelphia and built the North Bridge at Harrisburg. He is now designing the Vine Street Bridge over the Schuylkill River as part of the Schuylkill Expressway.

Mr. Othmar H. Ammann is a partner of Ammann and Whitney with offices in New York City. He was, for a number of years, Chief Engineer of The Port of New York Authority and the Triborough Bridge and Tunnel Authority. He was in general charge of the building of the Lincoln Tunnel and the George Washington Bridge

respectively under and over the Hudson River, New York; the Triborough Bridge connecting the Boroughs of Manhattan, Bronx and Queens across the East and Harlem Rivers and Bronx Kill, and the Bronx-Whitestone Bridge across the East River, New York. He is Consulting Engineer for the Delaware Memorial suspension bridge below Wilmington, Delaware now in course of construction. He is designing and supervising construction of a number of bridges for the New Jersey Turnpike Authority and acting as consultant for the proposed Narrows Bridge between Brooklyn and Staten Island, the largest structure ever planned.

Mr. Ralph Smillie is a member of the firm of Smillie and Griffin, New York City and has a national reputation as a tunnel expert. He was Engineer of Design of the Holland and Lincoln Tunnels between New York and New Jersey and Chief Engineer of the Triborough Bridge and Tunnel Authority during construction of the Brooklyn-Battery vehicular tunnel under New York Harbor which was opened to traffic, May 25, 1950. He served as consulting engineer for the Summer vehicular tunnel under Boston Harbor; Bankhead Tunnel under Mobile River, Alabama; Washburn Tunnel under Ship Canal, Houston, Texas; San Francisco Bay Toll Crossing Tunnel and a number of others.

Traffic Analysis Retained

To aid the engineers in their studies the Commission retained the firm of Coverdale and Colpitts, New York traffic analysts, to determine the approximate location of a bridge and a tunnel. This firm has long specialized in similar studies and in the preparation of financial estimates for revenue-based projects.

In pursuing this policy of retaining highly-qualified men as its advisers the Commission was acting in accordance with the opinions expressed by representatives of the Highway Departments of Pennsylvania, New Jersey and Philadelphia at a public hearing held by this body in Philadelphia, September 13, 1950. They stated that the location and type of crossing should be based upon engineering studies to determine how the public interest could best be served.

The Board of Engineers and Coverdale and Colpitts were retained on October 11, 1950 after the Commission had satisfied itself of their capabilities. The traffic analysts based their study upon the Origin and Destination Survey of 1947 made in this area by Pennsylvania, New Jersey, Philadelphia and the Federal Government which was probably the most intensive and detailed study of motorists' habits and desires ever undertaken in this country.

The traffic analysts found that a crossing in the location now recommended by the Commission would be most desirable. It would have the advantage of diverting a considerable portion of the load on the Delaware River Bridge and thereby relieve the congestion on the crowded streets of Philadelphia and Camden. Another advantage would be the easy access to the Schuylkill Expressway serving North and West Philadelphia and to the growing populous area of Delaware County. In New Jersey connection could be made with the North-South Freeway, the Black Horse Pike and other arteries to travel.

Bridge and Tunnel Studied

The Board of Engineers submitted to the Commission a site for a bridge and one for a tunnel. Starting from the same general locations at Oregon and Packer Avenues, Philadelphia the bridge site would be just north of the New York Shipbuilding Corporation's yard in New Jersey while the tunnel location would be immediately south of the shipyard, terminating in Gloucester City. The Commission directed the Board of Engineers to prepare preliminary plans and cost estimates for a bridge at the northern location and a tunnel at the southern site. Test borings at both sites revealed satisfactory sub-soil conditions. The Board reported to the Commission that a six-lane suspension bridge would cost \$69,418,000 while

the corresponding figure for a six-lane tunnel would be \$93,540,000. Cost of annual operation of a bridge was set at \$830,000 and for a tunnel at \$1,220,000. The engineers advised that, if construction can be begun in the fall of 1951, a bridge can be completed by the spring of 1955. An additional year would be required for the building of a tunnel.

By unanimous decision the members of the Board submitted the following recommendation to the Commission:

"In view of the economic advantage of the bridge, in shorter construction time and lower operation and construction cost, we recommend the construction of the bridge."

The Commission accepts and approves this recommendation of its Board of Engineers. The detailed report of the Board which is appended to and made part of this report to the Legislatures describes both the bridge and the tunnel. Briefly, the bridge which the Commission requests authorization to build would have a central span of 2,050 feet which is 300 feet longer than the middle span of the present bridge, two side spans 765 feet each and an overall length of 11,251 feet. The six-lane roadway would be 68 feet wide with over head traffic lane markers so that at rush hours four lanes can be given to the direction of greatest flow.

The clearance over the river provided at the bridge center will be 150 feet which is eight and one-half feet greater than at the present bridge. The Commission has been advised by port and shipping men that this would be accepted as satisfactory.

Alternate Plan More Costly

Consideration was given by the Board of Engineers and by members of the Commission to suggestions of the officials of Camden County and of a number of local New Jersey communities that studies be made for a crossing a mile or two downstream from the recommended site.

Our Board of Engineers was unable to find a site for a tunnel at any location in the reach of the river designated with approaches the economic feasibility of the tunnel crossing site covered in detail by its report. The estimated cost of the tunnel in the alternate location most strongly suggested and sponsored amounts to more than \$133,000,000, not including the cost of approximately five miles of highway development in Camden County which was urged as a part of the alternate project.

It has been determined that the suggested alternate location would require a tunnel at a cost vastly exceeding that of the recommended bridge and, (as) the alternate location is outside the area recommended by Coverdale and Colpitts and would not produce the desired immediate traffic relief or the income necessary to finance on a self-liquidating basis, members of the Commission are of the opinion that the alternate location is definitely not a feasible one as a project for The Delaware River Joint Commission.

The Commission submits as evidence of the need for another Delaware River Bridge the following table showing the increase of traffic on the present structure:

Year	Traffic
1950	23,348,550
1949	21,085,868
1948	19,227,246
1947	18,107,133
1946	16,886,413
1945	12,639,611
1944	11,360,550
1943	9,639,333
1942	12,463,283
1941	15,638,687
1940	14,185,835
1939	13,378,235
1938	12,820,338
1937	12,293,129
1936	10,614,475

1935	10,156,929
1934	9,981,615
1933	9,886,705
1932	10,804,557
1931	12,308,225
1930	12,285,359
1929	11,615,609
1928	9,725,470
1927	8,593,201
1926 (½ yr.)	4,137,674

As this record shows bridge traffic is subject to fluctuations. The depression abruptly reversed the upward curve in 1932 and it was not until 1938 that Delaware River Bridge figures exceeded those of 1931. A peak of 15,638,687 was reached in 1941 but war and gasoline rationing then markedly reduced travel. After 1945 traffic spurred sharply, making new records each year.

This Commission realizes that these ups and downs may recur and it is not safe to assume that revenues will continue to increase without interruption.

A prudent course in financing is imperative and this will be followed in pooling receipts from the new bridge and surplus earnings of the present structure.

In the appended report of our Board of Engineers will be found a discussion of the bridge and the tunnel with maps of the locations, plans of properties that will be affected and other details to support the Commission's request for authorization to proceed.

Respectfully submitted,

THE DELAWARE RIVER JOINT COMMISSION OF PENNSYLVANIA AND NEW JERSEY

BOARD OF ENGINEERS

REPORT ON NEW DELAWARE RIVER CROSSING BETWEEN PHILADELPHIA AND CAMDEN TO THE DELAWARE RIVER JOINT COMMISSION OF PENNSYLVANIA AND NEW JERSEY

By

Frank M. Masters,
Othmar H. Ammann,
Ralph Smillie,

February, 1951.

BOARD OF ENGINEERS OF THE DELAWARE RIVER JOINT COMMISSION

OF

PENNSYLVANIA AND NEW JERSEY FOR NEW DELAWARE RIVER CROSSING

BRIDGE PLAZA, CAMDEN, N. J.

February 7, 1951.

The Delaware River Joint Commission
Administration Building
Camden, New Jersey

Gentlemen:

When your Transportation Committee at its meeting on October 11, 1950 retained the services of this Board of Engineers, it advised us that you would make available for our use a traffic analysis to be made by Coverdale and Colpitts, based on the Philadelphia-Camden Area Traffic Survey Report, and that Coverdale and Colpitts would recommend the area within which another crossing of

the Delaware River could be so located as to divert the maximum amount of traffic from your existing bridge, relieve congestion in the two communities presently served by your bridge and be the most convenient for use by the motorists.

You also furnished us with copies of the numerous reports that have been made from time to time on the subject of another crossing of the Delaware and with a verbatim transcript of the proceedings of a public hearing held in the Bellevue Stratford Hotel in Philadelphia on September 13, 1950.

You impressed upon the Board the necessity for having our work finished in time for the Commission to reach a decision and prepare a report to the 1951 sessions of the two state legislative bodies, and it was decided, on account of the limited time, that we need not make detailed topographic surveys of the sites if available maps and information were adequate; or secure final permits from approving agencies of the structure reported upon. We were however instructed to select the best and most economic site for another crossing meeting the requirements of the traffic analysis of Coverdale and Colpitts, and appraise the property damages, and report upon the time of construction and the estimated cost after making suitable foundation investigations.

Selection of Site

Promptly after the appointment, the Board of Engineers assembled all available maps and plans from the City of Philadelphia, the local communities and political subdivisions, the Corps of Engineers, the Coast and Geodetic Surveys, U. S. Geological Surveys and other agencies who have prepared detailed technical data and maps of the navigation conditions and local street and planning work. We also secured from the two State Highway Departments data relative to present and proposed future construction and from the railroad companies, the public utility companies, the Philadelphia Department of Wharves, Docks and Ferries, the New York Shipbuilding Corporation and others, the general plans of their properties. All public and private agencies have been very co-operative and have furnished us with such information as they have available.

It was found that there was no accurate map tying together the two sides of the river with relation to the highway systems. There was however available for our use a large aerial mosaic on which all of the various sites heretofore studied had been indicated. It was found that this was not a recent picture, and not of sufficient accuracy and scale for use in selecting exact locations.

Upon receipt of advance advices from Coverdale and Colpitts to the effect that their analysis of the traffic report indicated that any new crossing should be so located as to connect Oregon and Packer Avenues in Philadelphia with the highway systems and streets in New Jersey, it was determined to have Aero Service Incorporated prepare an accurate and more detailed mosaic of this particular area.

In the meantime, examinations had been made of the two communities extending from your present bridge as far south as Hog Island in Philadelphia, and general information assembled relative to all of the various crossings heretofore reported upon or commented upon by various agencies. This study together with a study of the aerial mosaic maps clearly indicated that there were two sites where a new crossing would adequately connect Oregon and Packer Avenues in Philadelphia with the highways in New Jersey with a minimum damage to the industrial areas along the river and requiring the acquisition of the minimum properties in each community.

One of the sites is just north of the New York Shipbuilding Corporation's plant in New Jersey. At this site, referred to as the north location, the crossing would occupy the south half of Pier 82-S in Philadelphia, which has no building, but is used for shipside loading direct from the railway cars. This location is north of Oregon Avenue and the Philadelphia approach would curve southward and westward to connect with Oregon and

Packer Avenues. The New Jersey approach would lie along the south side of the property occupied by the yards of the Pennsylvania-Reading Seashore Lines car ferry operation adjacent to the north property line of the New York Shipbuilding Corporation. The approach extends eastward alongside the P.R.S.L. Railroad tracks in Bulson Street to the vacant tidal swamp south of the Camden Forge Company's plant.

The other possible site, referred to as the south location, is just south of the New York Shipbuilding Corporation's plant. It extends westward across the river to vacant property just south of the Publicker Plant, south of Packer Avenue and about midway of the new sewage disposal plant, from which point the approaches would curve northward and westward to connections with Packer and Oregon Avenues. The New Jersey approach would pass through the property of RCA-Victor along the south side of the New York Shipbuilding Corporation's property crossing Broadway to the tidal swamp lands to the east.

At both of these sites it is proposed to locate the toll plaza in New Jersey where there is ample vacant property for this facility and the necessary approach roads to connect with the through highways and local streets.

At both the north and south sites grade separated connections without left-hand turns can be made to the existing streets, the North-South Freeway and to State Route No. 42 (Black Horse Pike) and No. 45 (Crescent Boulevard).

At the north site existing streets paralleling the P.R.S.L. railway can be connected between the two communities of W. Collingswood and Oaklyn and an underpass on Clinton Street in Oaklyn can be used to give direct connection for the traffic coming from the south on U. S. Route 30 (White Horse Pike).

At the southern site White Horse Pike rapidly diverges eastward and the traffic from the south will of necessity be required to find its way to this new crossing over existing streets.

At a conference with Mr. E. W. Kilpatrick, Chief Engineer of the State Highway Department of New Jersey and his technical assistants, the fact was developed that plans are being completed for the North-South Freeway and it will be put under contract for grading and drainage from a connection with Crescent Boulevard south up to Morgan Street during the coming construction season of 1951, and it was Mr. Kilpatrick's opinion that this construction would be paved and ready for traffic prior to the completion of the proposed new river crossing.

Accordingly adequate connections for either a bridge or a tunnel to this proposed Freeway are indicated on the plans, and the cost included as a part of the cost of the project, it being Coverdale and Colpitt's opinion that this will be a most important connection to the crossing.

These two possible sites were referred to Coverdale and Colpitts for their comment traffic-wise. They advised that either site would be satisfactory. They estimate that only 12% of the traffic which will use this new crossing will come from southwest Philadelphia, and 88% will come from the north and west, crossing the Schuylkill on the University and Greys Ferry Bridges, or come from the north over city streets.

A map of these two sites was plotted from the aerial survey. On this map there were located tentative sites for both a bridge and a tunnel which would meet the traffic requirements. Elevations of the bridge were developed using a single long suspended span cross the navigation portion of the river. In this range of the river, the width between pierhead lines is about 2000'. South of this location this width is greater and there is no development of bulkhead lines in the river, making it more expensive and difficult to construct any crossing. At any other site farther north, the approaches would lie in built up areas and would have to pass through important industries or wharves along the river. More southerly sites do not meet the traffic survey requirements and are far more expensive to build.

With the development of these preliminary plans for

either a bridge or a tunnel at these two sites, conferences were held with various agencies, highway departments, local planning boards, the Corps of Engineers, the Navy Departments and others relative to the suitability of the types of construction.

Early conferences developed the fact that a bridge at the south site with its high towers would come within the glide angles and the flight ranges of Mustin Airfield at League Island Navy Yard, and the International Airport in Philadelphia, and the high towers and navigation clearances required for the bridge structure itself precluded any possibility of building a bridge at the southernmost site.

As the study progressed and data were made available relative to the construction of a tunnel at the northernmost site, it developed that on account of the wharves, docks and railroad yards at the northern site the land section could not be built by the open trench method, except at excessive cost. Hence the Board determined that it was not necessary to proceed further with a study of a tunnel at this northern site, but that it was feasible and more economical to build a tunnel at the southern site.

It was then determined to concentrate our studies and develop our report for a bridge at the northern site which is the most economical and suitable traffic-wise for this type of crossing, and for a tunnel at the southern site. Preliminary plans for these two structures were then developed and submitted to the two highway departments, City and other authorities in New Jersey, the City Planning Commission in Philadelphia, the Corps of Engineers, the Navy Department, the Joint Executive Committee for the Improvement and Development of the Philadelphia Port Area, and Civil Aeronautics Administration of the Federal government and other interested agencies.

The originals of the communications received from various agencies giving general approval to the sites selected, are submitted with this report.

Traffic Capacities of the Structures

The traffic volumes estimated by Coverdale and Colpitts for 1955 have been extended for twenty years by applying the 35% increase in traffic over the next twenty years presently used by highway departments in estimating anticipated future traffic volumes. This estimated twenty year volume will require at least six lanes for this crossing. In order to handle the peak volume of traffic the six lanes are so arranged that two lanes can be reversed. This arrangement obviates the necessity for a divisor or median strip midway between the lanes on the bridge; likewise the two center lanes of the three tube six lane tunnel may be reversed.

The bridge will have overhead traffic lights spaced to direct the traffic in the operating lanes similar to those recently erected and successfully operated on the existing bridge. The tunnel will have similar lights from the portal entrances to the approach ramps.

A long highway bridge or tunnel on which traffic is not impeded by intersecting streets or parked cars has a traffic capacity far in excess of city streets of the same width. Hence in the selection of the sites for a bridge or a tunnel it was essential to find wide streets such as Oregon and Packer Avenues in Philadelphia, and the vacant areas in New Jersey, which would accommodate the increased traffic from the crossing.

The highway development in south Philadelphia is such that it is ideally suited to absorb the large volume of traffic that will be transferred from the existing bridge to this area, having undeveloped areas together with highly developed through boulevards and highways which will give distribution over a large area of the City streets.

The traffic estimate of Coverdale and Colpitts shows a total of 11,005,000 vehicles using the new crossing in 1955. Of these 11,005,000 vehicles only 1,000,000 or 9% are new or generated traffic, the remaining 10,005,000 being vehicles which are presently using other crossings and traveling on the highways and streets in New Jersey.

The new crossing is so located that it will be connected with the existing streets and the through highways such as Black Horse Pike, Crescent Boulevard and White Horse Pike in New Jersey, and in addition an adequate connection has been made to the North-South Freeway leading the northbound traffic from the Freeway directly to the plaza. This Freeway when completed will relieve Crescent Boulevard and Black Horse Pike of a large portion of the Philadelphia bound traffic now using these routes to reach the existing bridge.

The general plans 2B and 2T contain the traffic data condensed from the report of Coverdale and Colpitts and expanded from the projected 1955 volumes to the 1975 average daily volumes and the corresponding peak hour volumes. This detailed analysis clearly indicates that the six lane capacity being provided for the new crossing is adequate for many years to come.

At its meeting of December 7, 1950, your Transportation Committee approved the northern site selected for a bridge, and the southern site for a tunnel, and also approved Coverdale and Colpitts traffic analysis applying to this new crossing. It instructed us to proceed with plans and cost estimates for a six lane crossing of each type.

Navigation Clearances

Time was not available to make a formal application to the Department of Wharves, Docks and Ferries in Philadelphia or to the Corps of Engineers of the Department of the Army for the holding of public hearings relative to the required navigation clearances.

Early conferences with the Corps of Engineers relative to clearances for a tunnel crossing of the river developed the fact that there is a proposed future navigation channel of 45' in depth through the Philadelphia Harbor and that any channel to be constructed would of necessity be required to have the top of the construction 10' below this depth, measured below zero elevation of the Delaware River datum of the Corps of Engineers, and extending at this depth from pierhead line to pierhead line. The profile of the tunnel shown on Drawing 3T indicates these required clearances and if a tunnel is selected for the crossing, it is recommended that the application be made to the Corps of Engineers and the Philadelphia Department of Wharves, Docks and Ferries for a permit for construction showing these clearances.

Conferences were held, with Mr. Thomas C. Brown, Chief Engineer of the Department of Wharves, Docks and Ferries in Philadelphia relative to the bridge plans which indicate an arrangement of the structure over the southern half of Pier 82-S which it is believed will be satisfactory to this Department.

In order to determine the most suitable vertical clearance for the structure, the Port Development Bureau of The Delaware River Joint Commission circularized the various shipping interests using the Port of Philadelphia with a questionnaire relative to the type, size and kind of vessels which they presently operate into the Port. The detailed tabulation of these vessels reported by the shippers is submitted as an exhibit in this report.

Mr. Eads Johnson, well known marine architect and authority on vessel sizes and clearances, was retained for consultation and advice relative to required vertical clearances.

It was found that the only shipping coming into the Port which could not pass under the existing structure at all conditions of tide and loading were twelve boats of the Moore McCormack Lines who use the northern half of Pier 82-S.

In a letter from Commodore R. C. Lee, Executive Vice President of the Moore McCormack Lines Incorporated, he stated that a clearance of 5' in excess of the clearance on the existing bridge would adequately meet their shipping requirements. He also requested that Pier 82-S be extended eastward to provide a horizontal clearance between the proposed tower pier of the bridge and the string piece of not less than 6'.

At a later conference with the Philadelphia District Engineer of the Corps of Engineers it was requested that

an additional 2' of vertical clearance be provided over and above that requested by Commodore Lee of the Moore McCormack Lines.

At its meeting on January 24, 1951, the Commission approved the Board's recommendations, that the application plans for the permits for construction of a bridge be made to the Corps of Engineers showing the clearances indicated on the clearance diagram drawing 3B, which diagram under probably severest actual combinations of loading, temperature and tide shows a clear height at the center of the span of 150' or 8½' more than under the existing bridge.

General Description of the Bridge Project

As shown on the General Plan Drawing 2B the Bridge Project starts in the City of Philadelphia with connections to Oregon and Packer Avenues and with grade separation structures leading to the bridge approach at about Front Street. The approach structure starting at the abutment at Front Street will have a curved alignment and pass over vacant property, the produce shipping area of the Baltimore and Ohio and Reading Railroads, and the yards of the Belt Line Railroad to the Philadelphia anchorage of the main river crossing located in the west end of the south side of Pier 82-S.

From the Philadelphia anchorage, the main bridge will cross the Delaware River on tangent alignment to its Camden Anchorage located in properties of the Pennsylvania Reading and Seashore Lines. It is to be of the suspension type similar to that of the existing bridge.

The Camden approach parallels the tracks of these railroad lines until it curves southward at the Camden toll plaza to highway connections with city streets, the North-South Freeway, Black Horse Pike, Crescent Boulevard and White Horse Pike. Most of this approach is over undeveloped property.

The toll plaza in Camden is shown on Drawing 7B. It will provide for two and one-half toll collection lanes for each bridge traffic lane. Driver side collection is proposed to expedite and facilitate the paying of tolls. The center lanes are so arranged that the direction of traffic can be reversed during peak periods.

The cost estimates for the approaches beyond the end of the bridge structure in Philadelphia, and beyond the plaza in New Jersey, are based on the general type of construction indicated on the plans with allowances for such changes as may be required to meet the traffic conditions which may exist at the time the construction plans and specifications are prepared and final approvals and permits have been obtained.

There was not sufficient time available for all of the various agencies in New Jersey and Philadelphia to study the proposed connections of the crossings to the streets and highway systems. The connections provided meet the requirements of the traffic survey and are of ample capacity and design to deliver the estimated volumes of traffic without congestion.

The final detail of these approach connections can be developed to meet the requirements when the crossing is built.

The General Plan and Elevation of the bridge and approaches together with typical cross sections and tower and anchorage design, are shown on Drawings 3B, 4B and 5B.

Bridge Structures

With respect to the planning of a bridge crossing it was realized from the beginning that any piers in the waterway must be placed back of the pierhead lines, leaving the waterway between these lines entirely free from obstruction. At the proposed site this called for a central span of 2,050 feet between centers of the supporting piers or bridge towers. This span is 300 feet longer than the central span of 1750 feet of the existing Delaware River Bridge at Philadelphia and, when built, will rank as the seventh longest existing bridge span.

Since the planning of the existing Delaware River Bridge of Philadelphia, and as a result of more recent studies made in connection with other bridges of this

span magnitude, there is no doubt that for highway traffic the suspension bridge is the most economical type of bridge, beside possessing the advantage of light and graceful appearance. The adoption of this type was therefore a foregone conclusion.

The length of the two side spans of 765 feet was governed to some extent by existing structures on shore, but largely by economic considerations. They are about 49 feet longer than the side spans of the existing bridge.

The cost of a bridge crossing is governed largely by the clearances which have to be provided over the waterway to accommodate shipping, and by the maximum gradients which can be allowed for the roadways on the bridge approaches. Any excess over requirements may involve useless expenditure of large sums. The tendency in recent years has been to limit gradients over important bridges to three percent and this conservative limit was therefore adopted on both approach ramps and on the side spans of the main crossing. On the central span the roadway follows a parabolic curve.

These grades and the clearances mentioned hereinbefore result in a total length of bridge structure between end abutments of 11,251 feet. Of this length the suspension structure, including its anchorages, will occupy a length of 3,830 feet, the Philadelphia approach ramp 4,125 feet and the Camden approach ramp 3,296 feet.

The design of the proposed bridge crossing is based upon specifications for materials, loads and permissible unit stresses which are in accord with general practice for modern structures of this type and magnitude.

The current specifications of the American Association of State Highway Officials have been used in the design of the floor structure and the approach viaducts, with the basic loading of H20-S16-44 as generally applied to the design of bridges on major highways.

The design of the cables, towers, anchorages and stiffening trusses of the suspension bridge was based on special load and stress specifications in accordance with best modern practice for structures of such magnitude.

A live load of 3,250 lbs. per lin. ft. of bridge was assumed for the design of the six lane bridge. This represents a continuous line of heavy trucks about 50 feet apart on each of the six lanes, a condition which will probably never actually occur.

A wind pressure of 40 lbs. per sq. ft. of exposed area of structure was assumed for the suspension spans and 50 lbs. for the approaches. These values correspond to wind velocities of about 96 and 120 miles per hour respectively.

For the six lane bridge a width of roadway of 68 feet between curbs was assumed, without any central dividing curb or mall. This will permit division of the roadway by means of well marked traffic lines into two 12 ft. outer lanes, which will be used mainly by trucks, and four 11 ft. inner lanes. Omission of a dividing mall will make it possible to shift the direction of the traffic on the two inner lanes and thus permit traffic to flow in four lanes in any one direction during peak hours for that direction.

An emergency and service walk, mostly 4 ft. wide, is provided for on each side of the roadway, separated from the latter by substantial curbs. A strong railing on the outside of the walk on the approach ramps and the upper chords of the stiffening trusses on the suspension bridge will form an additional protection in case vehicles should accidentally jump the curb.

The flooring on the suspension bridge is to consist of 4¼ inch I-Beam Lok steel grating filled with lightweight concrete, topped with a two inch bituminous concrete pavement. On the approach spans the same type of pavement is to rest on a 6½ inch reinforced concrete slab.

Each of the two main carrying cables of the suspension bridge will be composed of 37 strands, each strand containing 288 wires of 0.192 inch diameter. The completed cables will be 21¾ inches in diameter. In the condition of no load and mean temperature the cables will have a sag of 200 ft. or slightly less than 1/10 of the center span of 2,050 feet.

The slender flexible steel towers are fixed at the base

to the piers and reach a height of about 379 feet above mean high water. The tower shafts, rectangular in section, are of cellular construction permitting access for the cleaning and painting of all interior surfaces. Service elevators are to be provided in the towers for convenient access to all parts.

Transversely the two tower shafts, together with substantial struts at the top and at the floor level, form a rigid frame designed to transmit the lateral wind forces to the piers.

The bridge floor is suspended from the cables by the customary wire suspenders. Each suspender is to be composed of four ropes of 2½ inch diameter.

The bridge is stiffened vertically by two stiffening trusses along the floor, one in the plane of each cable. The trusses are given a depth of 18 feet between centers of chords and a substantial lateral system is provided near the plane of each chord. These proportions and arrangements give the structure an ample degree of rigidity against objectionable motions from moving loads and dynamic wind forces.

A service and maintenance walkway is provided under the floor for the full length of the bridge and on the higher parts of the approach viaducts.

The anchorages are conceived as massive concrete blocks to resist the pull of the cables and transmit the forces to the foundations. Actually, however, the blocks are hollow as far as possible so as to reduce their mass and the load on the foundations to a minimum.

The two tower piers and the anchorages are to be granite faced within the tidal range as protection against the corrosive action of the Delaware River water. The granite facing will extend to a height sufficient to protect the structure from collision damage.

The Philadelphia anchorage located in the shore end of the south side of Pier 82-S will require a depth of caisson founded at approximately 125' below the zero of the datum, making a deep and expensive foundation. Similar depth is required for the Philadelphia tower pier located at the river end of Pier 82-S. The borings made at the sites of these foundations indicate that firm supporting materials required to carry the heavy loads of the anchorage and tower piers can not be found at higher elevations.

On the New Jersey side the borings made at the site of the tower pier located just west of the southernmost car ferry slip and at the bridge anchorage, indicate the existence of excellent firm sand and gravel on which the tower pier can be founded at about El.-100, and the anchorage at about El.-50. Thus the main bridge foundations on the Camden side will be much less expensive than those on the Philadelphia side.

Both approach structures will consist of short beam spans over the lower portions, plate girder spans over the central portions and deck truss spans over the higher portions crossing railroad yards. All spans will be supported on concrete piers similar to those of the Penrose Avenue Bridge.

The approach piers on the Philadelphia side are to be founded on concrete filled steel shell piles driven to firm underlying materials as indicated by the borings. On the Camden side the approach piers for the deck truss construction over the railroad tracks and yards can be founded on concrete piers supported on spread footings without piles. The girder approach spans paralleling the railroad line leading to the toll plaza can be similarly supported. Because of the excellent foundation conditions continuous spans can be used.

Description of the Tunnel Project

In Philadelphia the approach roadways lying west of the tunnel portal are so planned that the traffic from Packer and Oregon Avenues will be free flowing without traffic light interruption or left turns and will be adequate to feed the 6 lane tunnel to its maximum capacity for directional traffic.

Similarly on the New Jersey end a toll plaza has been located east of the tunnel portal, and east of this plaza,

highway connections have been provided to the North-South Freeway, to local streets and to Black Horse Pike and Crescent Boulevard. Traffic from the south from White Horse Pike must find its way to the tunnel over existing streets.

In Philadelphia the foundation conditions for the approach roads are reasonably satisfactory; but the grade separation structures in the approach roads must of necessity be pile supported.

The Camden approach to the tunnel, as well as the portal itself, lies in the swamp area the materials of which are very unsatisfactory for the support of any highways or structures; but the excavation from the trench across the river for the construction of the tunnel tubes requires large disposal areas. It is assumed that on the Philadelphia side some of this good material can be disposed in the existing dump area south of Oregon Avenue. Likewise the unsatisfactory muck materials in the swamp areas on the New Jersey side can be dragged aside for the required width of construction and stored for future topsoil uses, and the materials excavated from the river can be disposed of in the areas required to support the approach highways using hydraulic methods. This method of construction is taken into consideration in compiling the cost estimates for the tunnel.

The tunnel crossing between grade points is shown on Drawings 3T, 4T and 5T.

The traffic estimates by Coverdale and Colpitts show that a four lane tunnel would reach capacity at peak hours within a few years following completion. It was therefore decided to plan for a six lane tunnel at this time.

Although no six lane open trench type of vehicular tunnel has been built to date, it is entirely feasible from an engineering standpoint to construct a tunnel with any number of lanes. Each tube is designed to carry two lanes, and the addition of more tubes simply involves a duplication of the operation. Three tubes carrying six lanes have great operating advantages over four lanes. Peak hour traffic is always predominantly in one direction. Three tubes with two lanes each permit reversing traffic on the center tube, resulting in four lanes being available for traffic in the direction of maximum demand and leaving two lanes for the lesser volume of traffic in the opposite direction.

The tunnel proposed consists of three independent two lane tubes placed side by side and connected only at the portals and at the ventilation buildings. The clear roadway width between curbs is 22'0" or somewhat wider than the most recent tunnels built in New York. The headroom is 14'0", also more than New York tunnels provide. The side walls and ceiling would be covered with vitreous glazed ceramic tile, not only to give a satisfactory appearance but to facilitate cleaning and to reflect light from the lighting system over the roadway.

The roadway would be paved with de-aired paving brick which has been found to be a highly satisfactory paving material and especially suitable for tunnel roadways.

Grades on both approaches would be 3%, a somewhat flatter grade than has been used in the New York under river tunnels. The depth under the channel to the top of the tunnel structure will be 55 feet below zero elevation of the Delaware River datum of the Corps of Engineers, thus providing for a 45' dredging plane with 10 feet remaining for cover over the tunnels.

Ventilation will be by the so-called transverse distributive method. In this system fresh air is blown into an air duct underneath the roadway and passes to the driving space through closely spaced air flues. After mixing with automobile exhaust gases the air is exhausted through air ports in the ceiling, and is drawn through an exhaust duct by means of fans located in ventilation buildings.

Two ventilation buildings are provided, one near each portal. Each building takes care of the ventilation for one half of the length of the tunnels. Three ventilating fans are provided on each duct section, or a total of

eighteen in each building or thirty-six in all. Two of the three fans are capable of taking the full ventilating load, so that the third fan constitutes a spare which may be out of operation at any time for maintenance or repair. Operating economy demands that the volume of air blown in and exhausted from the tunnels be regulated to correspond with the volume of traffic carried. For this reason fans must be capable of operating at variable speed.

Because of their ruggedness and high efficiency only squirrel cage induction motors have been used. Speed variation is obtained by having one 2 speed motor for one-third and two-thirds speed and a third motor for high speed. Fan speeds are such that in general the large motor can be directly connected through a flexible coupling to the fan shaft. The small motor for one-third and two-thirds speed drives the large motor through a reduction gear and an overrunning clutch so that the small motor can go out of operation when the large motor is running.

Fans are of the conventional centrifugal type with backwardly curved blades so that they have characteristics permitting them to operate in parallel. Bearings on both fans and motors are of the ball or spherical roller type.

Electrical energy for driving the fans, lighting, and auxiliary use will be obtained from both sides of the river. Tie cables in the tunnel will make it possible to use either source in both ventilation buildings, so that power failure of either source will in no way affect tunnel operation.

Carbon monoxide, the poisonous constituent of automobile exhaust gases, is measured continuously by means of samples taken from each exhaust air duct by carbon monoxide recorders. A graphic record of the analysis of air in each section of the tunnel is continuously before the operator. A central control board located in the service building permits full remote control of all fans by means of push buttons. On this board is also located remote indication of all carbon monoxide recorders and indications showing the position of tunnel signals as well as other control equipment.

The tunnels will be the lighted with two continuous lines of cold cathode fluorescent lamps enclosed in glass carriers similar to the system now in use in the Brooklyn Battery Tunnel in New York. In the entrance sections the intensity is increased to lessen the sudden transition between daylight and artificial light in the tunnels.

Borings indicate that soil conditions are suitable for tunnel construction by the trench method. This method is much cheaper and faster than the shield method using cast iron lining, but can be used only in cases where soil conditions and shore installations make it practical. Under this method a steel shell in length of about 385 feet is built on shipways. After temporary end bulkheads to keep out the water have been placed the shell is launched and towed to a fitting up dock where both interior and exterior concrete is placed. When nearly all concrete has been placed the tubes still float and can be towed to final position and sunk on previously prepared supports on the river bottom. Here they are joined by divers to sections previously sunk. Final exterior concreting is done by tremie after which backfilling follows. Later the temporary bulkheads are removed and the interior tile and roadway finish installed.

Property Acquisition and Property Damage

At Pier 82-S in Philadelphia one tower pier of the long river span is to be located in the east end of the pier west of the pierhead line. This pier 82-S does not extend to the pierhead line. The construction of the bridge tower pier will require the removal of a large portion of the east end of Pier 82-S. Likewise the large bridge anchorage to be located in the west end of Pier 82-S will project about 29' southward into the slip for a length of about 200 feet.

The construction of this large anchorage will require the removal and replacement of a large portion of the

south side of the pier and the west end of the slip. To protect navigation and reduce to a minimum the damages to this Pier 82-S it is proposed to extend the pier eastward to the pierhead line, thus enclosing the bridge tower pier, and to extend it southward into the slip to be flush with the southeast corner of the bridge anchorage. Pile clusters are to be placed alongside the south side of the anchorage in the slip.

Since this work involves largely the restoration of portions of Pier 82-S its cost is included in the estimated construction cost of the bridge.

The south side of Pier 82-S will have to be used for not less than two and possibly two and one-half years' time for the construction of the bridge. An equivalent rental sum has been included in the item of property damages for this period.

The railway storage and classification yards just west of Pier 82-S belong to the City of Philadelphia, Department of Wharves, Docks and Ferries, and are leased to the Belt Line R. R. An approach pier must be located about midway in this yard. Mr. M. G. Preston, the Belt Line Manager, states that satisfactory arrangements can be made for this construction without excessive damages. There is included in the item of property for damages this item as well as an amount estimated for damages to the Baltimore and Ohio and Reading Railroad produce yards and minor properties. All properties taken or encroached upon are shown on the appended property plans. Damages were appraised after viewing the site and considering the assessed values.

For the tunnel crossing the property damages are largely due to the open trench construction across property and to damages due to non-use of property during the construction time. All open trenches will be backfilled and all surfaces and damaged properties restored. Except for passing through and removing one vacant building in the R. C. A. Victor plant on the New Jersey side of the river, the tunnel site is located largely on undeveloped property.

Subsurface Investigations

In order to make an accurate estimate of the units of material and work required to construct any of the projects considered, subsurface investigations were made. These investigations consisted of 18 preliminary borings with a hole 200 feet in depth at the site of each main river pier and anchorage and 100 feet in depth at various points on the approaches and at the site of the ventilation buildings for the tunnel.

These borings were made with the most modern equipment obtaining undisturbed samples in cohesive materials, which samples were sent to a recognized laboratory for test to determine the carrying capacity of these materials. In addition to the borings in the swamp areas of the New Jersey approach, special auger holes were made through the overlying muck to good sand in order to compute the quantities of materials and work and determine the best and most economical method to be used in the construction of the approach roadways.

In addition to the borings which were made, the Department of Public Works in Philadelphia furnished all the borings they made in connection with the construction of the Southeast Sewage Treatment Works. All of the borings and the results of the soil analyses are plotted and furnished on drawings Nos. 8B, 9B, 6T and 7T.

Estimated Cost of Projects

The following cost estimates are based upon carefully worked out design plans from which quantities of the various classes of work were calculated.

On account of the uncertain economic conditions existing at this time we have based the cost estimates on unit prices which prevailed in the more stable period between late 1948 and through 1949.

These estimates will therefore have to be revised to reflect the price level which will exist at the time of financing. This may be done by applying appropriate published price index ratios. There is furnished as Ex-

hibit A the Engineering News Record 1926 Base Construction Cost Index. According to this index the price level as of this date is about 10% higher than that of the above mentioned period. This approximate increase is included in the summary cost estimates presented herewith.

Different percentages for contingencies have been added varying with the completeness and accuracy of the estimates, namely 5% for structural steel items, 5% for bridge foundations and tunnel structure, 15% for bridge approaches, and equal dollar value for the tunnel approaches. To this estimate of cost of construction 7½% is added for the six lane bridge and 8½% for the six lane tunnel to cover the cost of administration, legal, engineering design, research, consultants supervision of construction and inspection of materials. To the cost of construction has been added the estimated cost of real estate and property damages, with allowance of 15% for contingencies.

At this time the cost of financing and the interest rates of the bond issue cannot be accurately determined. In financing projects of this type underwriters have recently required a bond reserve, the amount of which must be added to the cost to arrive at the total amount of the bond issue. This reserve, as well as the interest rate, will depend upon conditions which will prevail at the time of financing. For the purpose of arriving at a tentative total amount of bond issue we have assumed that the reserve may amount to 4% of the estimated cost and the interest rate to 2½%. For the duration of construction this interest has been added to the construction cost.

CONCLUSIONS AND RECOMMENDATIONS

As a result of the afore described preliminary studies and plans we submit the following conclusions and recommendation:

1. The construction of either bridge or a tunnel with adequate approaches and highway connections on both sides of the river is entirely feasible.

2. The locations selected for the bridge and the tunnel are the most advantageous with respect to both traffic and economy of construction.

3. The traffic studies made by Coverdale and Colpitts indicate that, whatever facility is built, it should have a six-lane capacity to avoid peak hour congestion shortly after the crossing is opened to traffic.

4. If construction can be started in the fall of 1951, the bridge can be completed ready for traffic in the spring of 1955. The tunnel would require about one year longer to construct.

5. The estimated amount required to finance and build a six-lane bridge is \$69,418,000.00 as of the date of this Report. The corresponding cost for a six-lane tunnel is \$93,540,000.00.

6. The average annual cost of operation, based on full capacity use, is estimated to be \$830,000.00 for the bridge and \$1,220,000.00 for the tunnel.

7. In view of the economic advantages of the bridge, in shorter construction time and lower operation and construction cost, we recommend the construction of the bridge.

Respectfully submitted,

BOARD OF ENGINEERS,
NEW DELAWARE RIVER CROSSING
F. M. Masters, Chairman
Othmar H. Ammann
Ralph Smillie

COMMONWEALTH OF PENNSYLVANIA GOVERNOR'S OFFICE—BUDGET SECRETARY HARRISBURG

November 30, 1950.

Dear Governor Duff:

This Administration, from 1947 to 1951, has had to conduct the State Government during a postwar period with a tremendous backlog of projects deferred from the war period and during a period of great inflation. At the present time wholesale prices are 113 percent above 1940 prices. The cost of living is 74 percent above 1940. The State is paying double the amount now for its purchases that was paid in 1940. Construction projects now cost three times what they did ten years ago.

During the war years large surplus funds accumulated due to enhanced revenues and decreased expenditures. These surplus funds were all appropriated before this Administration began. It was necessary, therefore, to find additional revenue at the beginning of the Administration to meet accumulated demands under inflated conditions.

This Administration has been conducted along sound financial lines and well within its income. At the end of the first biennium, 1947-1949, there was a General Fund surplus of \$63,235,000. This surplus was added to estimated revenues for the second biennium to meet appropriations for this second two-year period. The first year of this present biennium resulted in revenues meeting the estimate. It is practically certain that the estimate will be considerably exceeded during this second year, and that there will be a substantial surplus at the end of the biennium, May 31st.

There are three broad functions which consume most of the State's funds—Education, Health and Welfare, and Highways. The first two are supported from the General Fund, and the latter from the Motor Fund.

General Fund

During the four years General Fund appropriations were in the amount of \$1,342,000,000, of which amount \$1,090,000,000 was appropriated for Education and Health and Welfare functions, 81 percent of the total. All other General Fund functions were supported from the remaining 19 percent. A more detailed breakdown of General Fund appropriations for the four-year period, 1947-1951, is as follows:

Public Education	\$ 533,494,826
Public Assistance	307,590,000
Public Welfare	205,238,746
Public Health	44,063,500
Conservation of Natural Resources	35,513,500
Construction and Land Purchase ..	26,020,100
Housing	15,000,000
Interest and Sinking Fund Requirements	33,230,385
Operation of Departments	122,578,077
Legislature	6,718,635
Judiciary	12,624,682

Total	\$1,342,072,451
-------------	-----------------

Motor Fund

During the four years \$608,000,000 was allotted for Highways. More was allotted for this function than for any other single function of State Government.

Public Works

The public works program to be undertaken was so great that it was decided that it should be financed over a number of years rather than to finance the program from current revenues. Accordingly, \$50 million was borrowed during this Administration under authority of a Constitutional amendment adopted by the voters in 1946, and the General State Authority was established to finance and undertake the larger part of this work, and the Highway and Bridge Authority established to undertake a limited number of projects in that area.

However, it should be noted that a great amount of public works is being financed from current revenues. In the previous Administration \$76,000,000 of appropriations from the General Fund were made for public works. In this Administration, for the same purpose, \$68,000,000 of appropriations were made from the General Fund. In this Administration \$400,000,000 of construction is being financed from current Motor Funds, and only \$40,000,000 authorized from borrowed funds.

General State Authority

The General State Authority was authorized to borrow up to \$175,000,000. To date \$95,000,000 has been borrowed. This borrowing was done at an exceptionally good rate of interest—the first issue of \$30,000,000 at a net interest rate of 1.74 percent, and the second issue of \$65,000,000 at a net interest rate of 1.84 percent. The General State Authority had set up construction projects in the amount of \$155,284,389, as of October 31, 1950.

Highway and Bridge Authority

The State Highway and Bridge Authority was authorized to borrow up to \$40,000,000, and to date has borrowed \$15,000,000. This was done at a net interest cost of 1.25 percent. The Highway and Bridge Authority had set up \$39,382,117 in projects, as of October 31, 1950.

Authority to borrow up to \$10,000,000 for purchasing the toll bridges in the State had been standing on the books for many years. This administration has gone ahead and exercised that authority, borrowing \$8.5 million at a net interest cost of 1.09 percent, and has purchased all of them—ten in number. Final settlement terms have not been completed for one of the bridges. The indebtedness which has been incurred for this purpose will be retired from tolls and present prospects are that the indebtedness will be discharged in about eight years. When the indebtedness will have been discharged, the bridges then become free bridges.

Public School Building Authority

A State Public School Building Authority was established in order to provide aid to school districts in constructing school buildings. The School Building Authority is authorized to borrow funds and construct school buildings which they then lease to the school districts for a sufficient term to retire indebtedness incurred for such building—the school districts paying yearly rentals to accomplish that purpose. As of December 1, 1950, the Public School Building Authority has borrowed \$1,286,000, all such borrowing having been done from the School Employees' Retirement Fund, at a net interest cost of 3 percent. As of December 1, 1950, projects in the amount of \$37,400,000 have been set up by the School Authority.

Veterans Bonus

The last two sessions of the Legislature adopted a Constitutional amendment for a bonus for veterans, and the amendment was approved by the voters at the November Election in 1949. The amendment authorized borrowing up to \$500,000,000 for payment of the bonus. To date

\$440,000,000 has been borrowed—the first issue of \$375,000,000 at a net interest cost of 1.48 percent, and the second issue of \$65,000,000 at a net interest cost of 1.42 percent. There is general agreement that this huge financial undertaking for the payment of the veterans bonus was done most successfully. As of October 31, 1950, \$365,532,090 had been paid out to the veterans. It is estimated that the amount borrowed—\$440,000,000—will be sufficient to pay all bonus claims.

Debt Retirement

Due to the great amount which had to be borrowed for the soldiers bonus, and due to the borrowing that has been done under the Public Buildings Constitutional amendment and the General State Authority, the State will be carrying heavy Sinking Fund charges and State Authority rentals for a number of years. Most of the indebtedness (\$375,000,000) for the veterans bonus will be retired in fifteen years—the smaller amount (\$65,000,000) will be retired in sixteen and seventeen years. The General State Authority indebtedness will be retired over a period of 25 and 27 years. The \$50,000,000 Public Buildings Construction issue will be retired by 1976.

At the beginning of this Administration total indebtedness was \$43,939,143. That indebtedness has been reduced to \$19,611,198. But, the addition of the veterans bonus and Public Buildings Construction indebtedness results in an indebtedness of \$510,097,278 at the present time. Sinking Fund charges for the current biennium, outside of the bonus indebtedness, amounts to \$19,734,522. In the next two-year period, with the veterans bonus Sinking Fund charges added, the amount required will be \$80,234,000.

Balanced Budget

The prospects are that the budget will be in balance at the end of this biennial period, May 31, 1951, and that there will be a sizable surplus. Determination of the size of the surplus must await the collection of corporation taxes during March, April and May.

Respectfully submitted,

EDWARD B. LOGAN,
Budget Secretary.

COMMONWEALTH OF PENNSYLVANIA
SECRETARY OF THE COMMONWEALTH
HARRISBURG

November 30, 1950.

Dear Governor Duff:

We note particularly the following activities of the Department of State between January 1947 and December 1950.

In contrast to the war years immediately preceding the aforementioned period, the work of the entire Department is current in all phases.

The outstanding accomplishment was this Department's participation in the preparation of the 1949 amendments to the corporation laws of Pennsylvania which were approved by the General Assembly and your Excellency and which have resulted in Pennsylvania having, in the opinion of many, one of the finest corporation laws in the country.

For the first time in the recent history of the Commonwealth the pamphlet laws of the 1949 Session of the General Assembly were punctuated, edited and printed in the same year in which said laws were enacted. This action caused the Department to receive favorable comment from the members of the Bar, Bench and industry throughout the Commonwealth.

In addition to the above, this Department was able to supply to the general public periodic bulletins containing the recent enacted laws, thus enabling the public to function in the light of the laws which became effective immediately upon their passage.

In the Commission Bureau of this Department, a com-

plete revision of the methods of filing and preserving records has been undertaken during this Administration. The purpose of these changes is to improve the quality and speed of the service rendered to the Governor's Office and to the general public. The revision was accomplished by the purchase of new equipment and the hiring of experts in that field. The results have fully justified the action taken. Data can be obtained and supplied with the minimum of information and a maximum of speed.

As a result of the recent military crisis, this Department immediately reactivated volunteer police and with the cooperation of your Office and the State Police are daily commissioning same, thereby affording additional protection against sabotage to Pennsylvania industry and the general public.

In this Administration the use of microfilming in this Department, which incidentally was the pioneer Department of State in the country in the use of microfilming as a method of recordation, has been accelerated and in the very near future all of the millions of records now reposing in this Department will be on film thus insuring their preservation as well as facilitating their inspection and making available much needed floor space.

Approximately 160 volumes of priceless old records have been microfilmed and the originals turned over to the State Archivist for preservation.

State Employees' Retirement Fund

In the period covered by this report, a total of 13,151 individuals have, by act of Legislature, been admitted to the State Employees' Retirement Fund. These individuals were employees of various boards, commissions, authorities and the General Assembly and were persons paid on a per diem or hourly basis.

The State Employees' Retirement Fund, as of November 28, 1950, possessed securities of a par value of \$86,019,600, and had a cash balance in excess of \$1,000,000. This fund had 49,930 contributors and 2,011 persons receiving annuities as of November 29, 1950. The Fund has reached the status of "big business" and it is proudly stated that it is in a sound and excellent condition.

On March 9, 1950, the Municipal Employees' Retirement System was activated as a result of sufficient individuals seeking membership. On June 28, 1950, the Board was set up and 103 actuarial valuations have been made to date which have resulted in 13 municipalities filing resolutions requesting membership in said System.

The Commonwealth now presents a State-wide retirement system available to individuals employed by political sub-divisions in Pennsylvania.

Many phases of this Department have not been included in this report for the reason that the only accomplishment that can be credited thereto is the fact that the work was done promptly and efficiently in accordance with the laws relating thereto.

Throughout the period covered by this report, this Department has steadily effected the modernization of its physical plant always with the aim of affording better service to the public.

In conclusion, the foregoing would not have been possible without the complete cooperation of a staff and employees who have in all matters fully cooperated and have, to a great measure, remained intact throughout the period covered.

Respectfully submitted,

GENE D. SMITH,

Secretary of the Commonwealth.

COMMONWEALTH OF PENNSYLVANIA

DEPARTMENT OF JUSTICE

HARRISBURG

November 30, 1950.

Dear Governor Duff:

I have the honor to submit to you a report of the activities of the Department of Justice from your inauguration January 21, 1947, to November 29, 1950.

The Department has been successful in winning in the Supreme Court of the United States, the Circuit Court of the United States for the Third Circuit, the Supreme Court of Pennsylvania, the Superior Court of Pennsylvania, and the Interstate Commerce Commission, 688 out of 804 cases.

At your direction, we have created a special section to direct and control anticommunist and antisubversive activities throughout the Commonwealth. We have established a legal library on communism, which is available to the public, and we are keeping in touch with the activities of all other States, the Federal government, and the various municipalities. We are cooperating with the district attorney and all law enforcement officers.

Philadelphia Investigation

The June 1948 Grand Jury requested the Attorney General to assist in its special investigation of certain Philadelphia City offices to determine the extent of alleged illegal activities therein on the part of employees amounting to conspiracy, embezzlement, extortion and related crimes. Thereafter, for a period of one year, a vigorous and intensive probe was conducted of these offices. This resulted in the indictment of twenty-one City officials and employees, six of whom pleaded guilty. One of those was the Director of the Department of Supplies and Purchases. Three others were tried and convicted, including the Fire Marshal and his first Assistant. All others are now awaiting trial.

In addition to arrests, a sum in excess of one quarter of a million dollars was recovered and numerous improvements were made in the offices probed, resulting in the elimination of abuses which will in time save the City even greater sums of money. During the course of the probe, certain evidence was disclosed indicating serious misconduct in the management of City offices other than those the Grand Jury was specifically charged to examine. Therefore, following its discharge, the Attorney General's Office commenced an investigation of those matters which were extraneous to this investigation, and with the aid of the Pennsylvania State Police, obtained conclusive evidence of the commission of extortion and related crimes in the Bureau of Water and certain of the City's licensing agencies.

As a result, on petition of this office, another Grand Jury was convened and specially charged to examine the evidence uncovered. This new Grand Jury commenced its investigation on April 3, 1950, and is currently in session. The Jury has subpoenaed hundreds of witnesses and examined numerous documents resulting in the arrest of seven City employees. It is anticipated that other arrests will be made in the near future.

In addition to revealing extensive practices of extortion on the part of City employees, this Grand Jury, in a recent Presentment, brought to light the existence of similar but even more vicious practices of extortion on the part of certain Labor Union officials. As an investigation of these lawless practices on the part of Labor Union officials is not within the scope of this Jury's work, the matter was referred to the Department of Justice and I immediately ordered an extensive investigation.

Pittsburgh Investigation

On July 7, 1950, the Attorney General served on the District Attorney of Allegheny County an Order dated July 6, 1950, superseding him in connection with all matters relating to the criminal acts of any and all public officials and public employees within the jurisdiction of the court, including the investigation of charges, the proceedings before the Grand Jury, the trial or trials, and any and all matters relating thereto. To this petition the District Attorney filed an Answer. The Attorney General filed a Replication; the District Attorney a Rejoinder; and the Attorney General a Sur Rejoinder.

The Court of Quarter Sessions of Allegheny County, after a hearing and taking of testimony, entered an Order holding that the Attorney General has abused his discretion in superseding the District Attorney.

Under date of August 31, 1950, the Supreme Court of Pennsylvania sustained the appeal of the Attorney General and the investigation is now proceeding with vigor. a staff of investigators and attorneys having been established in the City of Pittsburgh.

Gas and Oil Leases

This department was in full charge of all negotiations relative to drilling for gas by various independent companies starting in 1948, and drew all leases to successful bidders on this property. The 1950 revenue from the wells already drilled credited to the Commonwealth has been in excess of \$300,000. The last bids were let in October of 1950 and average approximately \$.08 per thousand cubic feet, which is practically double the normal royalty paid in the industry. The Commonwealth may expect over the next several years to realize from this operation on State forest lands alone an amount exceeding \$5,000,000 annually.

This department has just completed the draft for leases on lands in Sullivan and Lycoming Counties for exploratory operations which will drill to the depth of approximately 11,000 feet. This is an oil operation and if successful will be of benefit to the Commonwealth in the future.

General Functions

As the chief law officer of the Commonwealth, the Attorney General is the legal adviser of all officials, departments, bureaus, boards and commissions of the Commonwealth. Advice is rendered as any other lawyer advises his client and takes the form of oral opinions, and written informal and formal opinions.

Up to November 29, 1950 the Department delivered 42 Informal and 60 Formal Opinions. Formal Opinions are open to the public and are published. Informal Opinions are not published and are not open to the public, constituting confidential communications to the person or department to whom or which they are addressed.

The Department of Justice passes upon all extradition proceedings in behalf of the Governor. We approved 862 requisitions of Governors of other States for the return of fugitives to those States; held 22 hearings on protests against honoring such requisitions.

In brief, the Department of Justice is the largest law office in the Commonwealth and has the most varied legal practice.

Litigation

The Department of Justice is constantly engaged in litigation before the lower and appellate State and Federal Courts. It is our function to defend the constitutionality, when attacked, of all acts of the General Assembly; to intervene in the interests of the citizenry and the corporate body politic in all litigation affected with a general interest, and to enforce generally, at the request of the proper officials, the laws of the Commonwealth, although the general enforcement of criminal laws rests in the hands of the District Attorneys of the several counties. Synopses of important cases concluded in the appellate courts follow:

Garrett Estate. A definite written agreement has been entered into by the Attorney General of Pennsylvania with the Attorney General of the United States, which has vested the interest of an enemy alien first cousin, and with the representatives of two other first cousins, by which the Commonwealth of Pennsylvania will receive \$4,000,000 in the event that the master and the courts approve a finding that the three persons mentioned are the nearest heirs to Henrietta E. Garrett.

English v. Robinson Township School District, 358 Pa. 45 (November 26, 1947) sustained the constitutionality of Act No. 481, approved on July 25, 1947, P. L. 1145, which authorized local political subdivisions to levy a tax on subjects not taxed by the Commonwealth.

Dufour v. Maize, 358 Pa. 309 (1948) sustained statute regulating strip mining.

Borough of Wilkinsburg v. School District of the Borough of Wilkinsburg, 365 Pa. 254 (1950) in which it was

decided a borough cannot compel a school district to collect a tax imposed by the borough on admissions to entertainments, including athletic events, conducted by the school district.

Howarth et ux., Appellants, v. Gilman et al. 365 Pa. 50 (1950). It was decided that the Professional Engineers Registration Law was constitutional and that an unlicensed person cannot recover for services performed where the law requires that the practitioner have a license.

(Drexel) National Optical School v. Haas, 61 Dauph. 232 (1950). It was decided that the Private Trade School licensing Law requiring the payment of an annual license fee is constitutional.

Commonwealth v. Bey, 166 Pa. Superior Ct. 136 (1949). It was held that a parent is not exempt from sending his child to school because of his religious and conscientious beliefs.

Belovsky v. Redevelopment Authority of Philadelphia et al. 357 Pa. 329 (1947)—Constitutionality of Redevelopment Law. (Upheld).

Mc Sorley v. Fitzgerald et al. 359 Pa. 264 (1948)—Constitutionality of the Parking Authorities Law. (Upheld).

Commonwealth v. Flickinger, 165 Pa. Superior Ct. 95 (1949); 365 Pa. 59 (1950)—Constitutionality of penalty for Cigarette Tax violation. (Upheld).

Commonwealth v. L. Sonneborn Sons Inc., 164 Pa. Superior Ct. 493 (1949). This was the first criminal case under the Pure Streams Law to reach the appellate courts. It involved a major fish killing in the Allegheny River as a result of an oil pollution caused by the Daugherty Refinery at Petrolia, Pennsylvania. The Quarter Sessions Court of Butler County sustained a demurrer to the evidence by the defendants. The Superior Court reversed and ordered a new trial. It refused to hear reargument and the Supreme Court refused to entertain an appeal from the Superior Court. Disposition of the case was made by the entry of pleas of "guilty" on behalf of the corporation and its indicted officers and employees, the payment of \$1,000.00 fine and costs of prosecution, which costs approximated \$2,000.00, and restitution to the Pennsylvania Fish Commission in the amount of \$10,000.00 in settlement of a proposed civil action for damages. This was the largest settlement of its kind in the history of the Sanitary Water Board.

Commonwealth ex rel. Chidsey v. Black et al., 363 Pa. 231 (1949). This was the first civil case for injunctive relief under the Pure Streams Laws which went up to the Supreme Court of Pennsylvania. It resulted in the reversal of the Court of Common Pleas of Dauphin County which refused to restrain the conduct of a coal stripping operation in Westmoreland County until a permit had been secured from the Sanitary Water Board. It established an all important legal proposition, viz.: that a lower court, notwithstanding that it held a hearing on the merits, has no jurisdiction to permit the continuance of a coal strip mining operation unless and until the operator obtains a permit therefor from the Sanitary Water Board in conformity with the Pure Streams Law. This case has been a very valuable precedent for the Commonwealth in securing restraining orders against coal stripping operators who have commenced their operations without making application to the board for a permit.

C. L. Palmer et al. v. S. M. R. O'Hara, Secretary of Welfare et al. 359 Pa. 213 (1947). This was a suit in equity, brought in the Dauphin County Court of Common Pleas, to enjoin the Secretary of Welfare and certain osteopathic physicians from permitting or participating in the commitment by osteopathic physicians of mental patients in mental institutions under The Mental Health Act of 1923. The court below decided the case in favor of the Commonwealth and dismissed the bill. On appeal to the Supreme Court, the court in a divided opinion reversed the court below and granted the injunction.

Leahy v. Farrell, 362 Pa. 52 (1949). In this case the Court of Common Pleas of Cambria County held unconstitutional the County Salary Board Act of 1947, P. L. 1308. The Commonwealth appealed and the Supreme

Court reversed the court below holding the said act constitutional.

Department of Public Assistance, Appellant v. Reustle, 358 Pa. 111 (1948). Judgment by the Commonwealth, the Court holding that defendants were bound by the notice furnished by the record even though it had been entered in the name of Rosie Reustle without a middle initial which appeared in the deed of the property to her and her husband.

Commonwealth, Department of Public Assistance v. Schuylkill County et al. 361 Pa. 126 (1949). held that property in the name of the Commonwealth of Pennsylvania, Department of Public Assistance, was not liable for local taxes.

Commonwealth, Department of Public Assistance v. Hicks, 365 Pa. 153 (1950). \$5,000.00 allowance of property is limited to real property and a blind recipient may own personal property to any amount providing income does not exceed \$1,596.00.

Handled questions of appointment of panels for adjustment of grievances of Department of Public Assistance employes and employees of institutions under the Welfare and Health Departments under the Non-Strike Act for Public Employes (Act No. 492 of 1947).

Pittsburgh Railways Company Substation Operators and Maintenance Employees Case, 357 Pa. 379 (1947), wherein it was held that Congress by the enactment of the National Labor Relations Act (the Wagner Act) had to the extent provided therein, preempted the field of employer-employee relationships affecting interstate commerce. Before this decision, the Pennsylvania Labor Relations Board had, since the 1943 amendment, asserted and successfully maintained concurrent jurisdiction with the National Labor Relations Board.

Pennsylvania Labor Relations Board v. Martha Company, 539 Pa. 347 (1948). (Interference and dominance—cease and desist—did not disestablish company union. Board had discretion in making order).

Pennsylvania Labor Relations Board v. Lester F. Frank, trading and doing business as Frank Delivery Service, 362 Pa. 537 (1949), in which the Court went further than the Pittsburgh Railways Case and held that the State Labor Relations Board did not have jurisdiction even in charge cases if the concern involved was engaged in interstate commerce.

Pennsylvania Labor Relations Board v. Chester and Delaware Counties Bartenders, Hotel and Restaurant Employes Union, 361 Pa. 246 (1949). Stranger picketing and part secondary boycott provision declared unconstitutional.

Commonwealth v. Lombardo, 356 Pa. 597, which held that the Unemployment Compensation Act did not authorize attachment of personal property in the hands of a transferee.

Department of Labor and Industry v. Unemployment Compensation Board of Review (Mills Case), 362 Pa. 342 (1949), which held that the Department of Labor and Industry, Bureau of Employment and Unemployment Compensation, had no right to appeal with respect to benefit rights.

State Civil Service Commission v. Swann et al. 362 Pa. 412 (1949). Involved status of employee appointed by Federal government. No status.

Legislative Work

The Department drafted or assisted in the drafting of many Acts of Assembly prior to and during the Sessions of the General Assembly of 1947 and 1949.

According to the policy of this Department, we prepared only Administration bills. However, we examined and made recommendations to the Governor upon all bills which passed the General Assembly. During these Sessions, we examined and advised the Governor on 1553 bills. Of these, 1445 were approved, and 108 were vetoed.

Some of the important legislation passed was that relating to the General State Authority, the State Public School Building Authority, the Anthracite Strip Mining Law, the State Tax Equalization Board, the Certified Public Accountants Law, the Licensing and Regulation of Private Business Schools and Private Correspondence Schools, the State Highway and Bridge Authority, the Eastern Pennsylvania Psychiatric Institute, the Western State Psychiatric Institute and Clinic, and laws relating to the State Retirement Systems.

We prepared the necessary legislation for the acquisition of toll bridges within the State of Pennsylvania, and guided transactions whereby the outstanding capital stock of 9 toll bridge companies was acquired by the Secretary of Highways, and the bridge property transferred to the Commonwealth. The tenth toll bridge was acquired by condemnation proceedings, and the proceedings are now pending in Dauphin County to determine the condemnation price.

Contracts

All contracts to which the Commonwealth or any department, board, commission or officer thereof is a party, must be approved by this Department; and all bonds for the faithful performance of their duties by Commonwealth officials must be similarly approved.

During this administration 56,862 such bonds were approved.

To date, the Department has examined, passed upon and approved 845 municipal bond proceedings, totalling \$157,909,900.00, for which the Commonwealth received \$87,706.45 in fees.

Collections (Including Escheats)

The Department of Justice has made collection of \$16,954,402.03 up to November 1, 1950. Public Assistance claims were collected totalling \$12,332,701.09. Some of the other collections were as follows:

	Claims Collected	Amount
Corporate Tax	613	\$ 472,960.92
Liquid Fuels Tax	32	37,411.64
Highway Department	81	34,169.89
Escheats	448	945,005.61
Insane Maintenance	2008	2,468,489.33
Forest Fires	591	18,524.95
Personal Property Tax	43	20,820.75
Bond and Coupon Defaults	25	282,887.28
Domestic Bonus	221	13,219.87
Soft Drink Tax	68	64,588.45
Miscellaneous	1501	72,034.91
Total	5631	\$4,430,113.60

RECORD OF THE BOARD OF PARDONS

From February 1, 1947 to and including November 1950

Year	Application	Pardons Recommended	Percentage	Commutations Recommended	Percentage	Electrocutions	Commutations to Life
1947	1,157	87	7.4	134	11.26	10	
1948	1,135	90	4.6	163	14.7	3	2*
1949	1,016	44	4.1	137	13.9	3**

* Commonwealth vs. Aaron Turner—a new trial was ordered by the U. S. Supreme Court.

** Commonwealth vs. James Smith—case pending in U. S. Court of Appeals.

*** Commonwealth vs. David Almeida—case pending in the U. S. District Court for the Eastern Court of Pennsylvania.

Conclusion

In conclusion, may I say that it has been a great pleasure and privilege to have served under you as your Attorney General during the past months.

Respectfully submitted

CHARLES J. MARGIOTTI,
Attorney General.

COMMONWEALTH OF PENNSYLVANIA
DEPARTMENT OF PUBLIC INSTRUCTION
HARRISBURG

December 1, 1950.

Dear Governor Duff:

The Administration Period 1947-1950 has included the greatest number of important gains for public education of any four-year period during the past one hundred years.

Since in education as with most commodities and services we get what we pay for, the cooperation of the Governor and the General Assemblies of 1947 and 1949 has resulted in an increase in expenditures for educational services which has meant that Pennsylvania education has made substantial progress in spite of rising costs and shortages. This is shown in the following comparison of Department appropriations for the four-year periods 1947-1951 and 1943-47.

Purposes	1947-51	1943-47	Per Cent Increase
Governmental Operations			
Other Than Subsidies .. \$	6,621,440	\$ 3,694,013	79.0
Institutional	20,315,306	11,464,246	77.2
Total Governmental Operations Other Than Subsidies	\$ 26,936,746	\$ 15,158,259	77.7
Subsidies			
Public Schools	\$417,604,800	\$260,057,700	60.6
Education of Deaf and Blind	5,227,500	2,948,305	77.3
Retirement of School Employees	40,126,400	15,082,000	166.1
Universities and Colleges	42,015,380	22,216,200	89.1
Other Educational Institutions	1,499,000	837,900	78.9
Aid to Free Public Libraries	210,000	134,000	56.7
Total Subsidies	\$506,683,080	\$301,276,105	68.2
Grand Total	\$533,619,826	\$316,434,364	68.6

A building program through the General State Authority is now under way, the cost of which will amount to approximately \$14,000,000 for the State Teachers Colleges and approximately \$6,000,000 for the State-owned Schools. The equipping of these schools will add another \$1,000,000 to the above expenditure.

Legislative Acts—1947-49

1. Tax Equalization—Of unusual importance was the adoption of a more equitable plan of distributing state assistance through the creation of the State Tax Equalization Board by Act 447 of 1947 and the revised formula for the distribution of State aid as provided in Act 536 of 1949 using market values of real estate as a measure of the ability of local districts to support public education.

2. Teachers' Salary Increases—More adequate teachers'

salaries were provided through Act 515 of 1947 and Act 542 of 1949. Our present mandated salary schedule compares favorable with those in effect in the other more progressive states and should serve to attract and retain more competent teacher personnel.

3. School Facilities—Progress toward providing better school plant facilities in many school districts has been accomplished through the creation of the State Public School Building Authority by Act 498 of 1947.

Further progress toward the financing of school buildings was achieved through Act 557 of 1949 under which the state reimburses school districts for a portion of the cost of buildings erected through the State Public School Building Authority.

Stimulated by Act 498 in 1947, many school building projects. Each of these projects has been reviewed by the Bureau of School Administration to determine whether it conforms to county and state plans on a long-range basis.

4. Administrative Units—Considerable progress has been made in the field of reorganization of administrative units and attendance areas. Several hundred school districts have formed larger and more efficient units of administration by the creation of union school districts or by the formation of joint boards. Also, many small schools have been closed and consolidated into larger units.

This reorganization, which has improved educational services and facilities for large numbers of children, was greatly stimulated by Act 361 in 1947 requiring county-wide plans for reorganization and was further accelerated by Act 536, 1949, which provides for a more liberal plan of reimbursing school districts operating high schools jointly, and Act 67, 1949, which increases the powers which may be delegated to a joint school committee.

5. Safe Transportation—As a result of Act 443 in 1947, free transportation service has been extended for the first time to all public school pupils in rural areas residing two miles or more from school. This Act made transportation facilities available for hundreds of pupils who otherwise might have been denied this privilege.

Notable progress has been made in the field of promoting greater safety in school transportation. As a result of the passage of Act 559 in 1949, school bus drivers are now required to pass physical and competency tests for the first time and traffic is required to stop while school buses are loading or discharging pupils. In collaboration with the Public Service Institute and the Division of Highways Safety Education, a training program for school bus drivers has been instituted. This includes the preparation and distribution of a manual for school bus drivers.

6. College Certificates and Masters' Degrees—As authorized by Act 515, 1947, the State Council of Education adopted equivalents for college certificates and masters' degrees for the purpose of enabling certain groups of teachers to qualify for salary increases.

7. Public School Nurses—Higher standards for the certification of public school nurses were adopted by the State Council of Education as a result of Act 522, 1947. This places the public school nurse on the same level professionally as all other members of the Instructional service.

8. Curriculum Revision—During the past four years combined appropriations amounting to \$250,000 for curriculum revision made possible by Act 551, 1947 and Act 88A, 1949, have provided a continuing program of research and study in the improvement of elementary and secondary school offerings. Grassroots cooperation and participation of 26,700 teachers, supervisors and administrators are the cornerstones of the state-wide courses of study which have been and are being developed.

9. Cerebral Palsied Children—Act 545, 1947 has made possible the use of two schools for the education of cerebral palsied children, thus providing educational service to a group of home-bound handicapped children formerly unserved by public education.

10. Area College Centers—The Area College Center Program through appropriations of the 1947 General Assembly made possible higher education opportunities for

veterans and others whose enrollment in Pennsylvania institutions of higher education was impossible because the facilities and staffs of the colleges could not accommodate the peak enrollments. At the conclusion of the program receipts amounted to \$2,090,792.90 and expenditures of \$2,139,031.08. The excess expenditure over receipts was more than offset by equipment and supplies in excess of \$100,000 which were distributed to the State Teachers Colleges when the program was discontinued.

11. Private Schools—In order that the citizens of Pennsylvania may be better served by its private schools, acts were passed in the 1947 General Assembly providing for the licensing and regulation of private schools. Acts 552 and 89A related to private business schools and their agents; Acts 553 and 88A to correspondence schools; and Acts 401 and 87A to academic schools. Act 291, 1949, created four boards,—three to administer the activities of the three types of private schools provided for above and a fourth board for private trade schools.

12. School Code—Act 14, 1949, recodified the Pennsylvania School Laws in the interest of accuracy, conciseness, and clearness. The Pennsylvania School Laws of 1949 which came off the press in the spring of 1950 contains this recodification.

Employes' Retirement System

During the Administration under review more liberal retirement benefits were provided for members of the Public School Employes' Retirement System through enactments of the General Assemblies.

The 1947 and 1949 sessions of the General Assembly appropriated funds to supplement the interest earnings of the Retirement Fund. These appropriations were made in accordance with the provisions of the Retirement Act which stipulate that the regular interest charges payable, the creation and maintenance of reserves in the Fund, and the payment of all retirement allowances granted by the Retirement Board are obligations of the Commonwealth of Pennsylvania.

Act 535, 1949, provides a minimum retirement allowance of \$1200 per year for all members on retirement as of September 1, 1949, with 40 years or more of service. A proportionate amount is provided for retired members with less than 40 years of service and for those who elected an option when application was made for retirement.

Act 541, 1949, provides an additional State Annuity to produce a regular superannuation retirement allowance of at least \$1200 per year for employes in the 1/160 class with 40 years or more of Pennsylvania school service retiring prior to September 1, 1950, or in the 1/140 class retiring after July 1, 1950; if the service is less than 40 years, the additional annuity to produce such a total regular retirement allowance is in proportion to \$1200 as the years of service are to 40.

Act 185, 1949, further amends the Public School Employes' Retirement Law by increasing retirement allowances from the 1/160 basis to the 1/140 basis, permits retirement while under the age of 62 years on full retirement allowance after 35 years of service or on actuarial equivalent reduced withdrawal allowance after 25 years of service.

Act 275, 1949, extends to July 1, 1951, the time in which Present Employes as defined may elect to join the Retirement System and by granting retirement rights to school employes who have withdrawn from and returned to school service.

Act 55, 1949, requires the Retirement Board to submit to contributors, at four-year intervals, statements indicating the amount credited to such contributors in the Retirement Fund.

Qualified Teachers

As far as the facts indicate, not a single school has been closed because of the inability of the district to secure teachers. While it was necessary to adopt certain temporary measures to make available supplies of teachers

in certain fields for teaching service where deficiencies existed, these special emergency regulations did not undo the gains that have been made in the professional status of teachers. Fifty-five per cent of the emergency certificated teachers were college graduates.

Special Emergency Wartime certificates were issued at the request of local school boards and superintendents when suitable, qualified teachers could not be found. The facts show that most of the teachers to whom such certificates were issued had had previous experience or held some form of teaching certificate other than in the field for which they were employed. Such certificates made available a supply of teachers that helped to keep schools open in the postwar period.

Teacher Education

Safety Education.—Programs for the training of teachers in this field were held in more than 18 institutions of higher learning. The program was initiated through an intensive one-week college seminar held in Harrisburg. Twenty-one colleges participated by sending instructors to the seminar. Various Departments of the State Government offered instructional service.

Aviation Education.—Three Flying Classroom trips for teachers-in-service during this period have encouraged the development of the relationship of the air age to the instructional program in the public schools. Lectures were given in flight by qualified instructors. The terrain was studied in relation to geographical and social situations. Geological formations were emphasized.

A five-day seminar in Aviation Education was held at the Department for representatives of 24 Pennsylvania colleges. Teacher Education in Aviation will be improved and extended as a result of the seminar.

Conservation Education.—A Conservation Education Laboratory for Teachers was established by a state-wide sponsoring group at The Pennsylvania State College, under the leadership of the Department of Public Instruction. Two sessions were conducted during each summer. More than 300 teachers were given the opportunity to prepare themselves for leadership in this field.

Curriculum Revision

The Elementary School Revision.—In the case of the elementary schools, Bulletin 233-A, Local Participation in State-wide Revision of the Elementary School Curriculum, and Bulletin 233-B, The Elementary Course of Study, reflect the cooperative efforts of more than 25,000 school teachers, supervisors, and administrators from 75 per cent of the school districts of the Commonwealth of Pennsylvania. Members of college faculties and of the staff of the Department of Public Instruction shared in this work.

The Secondary School Revision.—The secondary school curriculum study engaged approximately 1700 participants. These persons have been designated by every county and district superintendent. They are organized according to school subject groups in each of nine state areas. They represent school administrators, supervisors, and classroom teachers.

Public Education

Safety Education.—The impetus given to highway safety education and driver training in 1947 increased 200 per cent the number of public secondary schools which offer driver training courses. Certificated driver training teachers now number 600.

Farm and Home Safety Education.—This was inaugurated in 1947 on an expanding scale and has worked toward integrating farm and home safety and promoting accident prevention through safety committees in all rural organizations. Motion pictures, demonstrations, and talks were presented to 350 audiences with a total attendance of 46,211 in 59 counties and in five state meetings.

Audio-Visual Education.—In the field of Audio-Visual Education, Regional Film Libraries have been established in thirteen State Teachers Colleges in order to serve the private and public educational institutions in each regional area. To implement these film libraries, audio-visual edu-

cation equipment, including opaque, film strip, and slide projectors; sound film, and a screen for each projector, valued at approximately \$227,000, has been distributed to 474 public secondary schools having a day vocational program and enrolling nearly 100,000 pupils.

New Vocational Schools and Departments—Eighty-four new vocational education departments have been approved in the public schools.

School Health

The physical health of the school children of the Commonwealth received an increased amount of attention as the result of greater financial support accorded the public school health examinations and the school nursing program. An expanded program of school health examinations and the school nursing program. An expanded program of school health examinations and a remedial follow-up on these examinations has given Pennsylvania's schools an outstanding reputation in school health work.

Costs for school nursing services to the extent of \$4,-250,000 were underwritten by the Commonwealth during the four-year period ending in 1950. This subsidy made possible an increase from approximately 600 to 1,000 school nurses.

In the same period the Department of Health and the Department of Public Instruction, with the assistance and cooperation of medical and dental examiners and school administrators, supervisors, teachers, and nurses, administered nearly 3,500,000 medical and dental examinations to school children. This extensive program was implemented by an in-service training program provided by 65 County Health Institutes attended by more than 5,000 conferees, representing the medical, dental, nursing, and teaching professions, and lay organizations.

In addition the School Lunch served 35 per cent of all school children in the Commonwealth during the school year 1949-50. The biennium 1948-50 was marked by 48 percent increase in public school pupil participation in the School Lunch Program. A total of nearly \$3,700,000 worth of food commodities has been distributed to schools and institutions and to needy or welfare families in the Commonwealth through the Surplus Foods Program.

Veterans' Services

There are 34 Veterans' Testing Centers covering the different areas of the State. These examination centers are established in college and university veteran guidance and counseling units and in public school systems. The results from the Veterans' Testing Service of the American Council on Education have greatly facilitated the process of placing veterans in colleges and on jobs.

The Department evaluates approved evening courses, work completed through the United States Armed Forces Institute, Coast Guard Institute, Marine Corps Institute, the Maritime Service, and all secondary education. This assignment led to the evaluation of approximately 7,800 military records for the four-year period.

Professional Licensing

The Department evaluated 70,059 records in professional fields from candidates requesting enrollment in colleges and professional schools. These records were evaluated for the purpose of granting High School Equivalent Diplomas and meeting requirements for pre-professional certification.

The 1949 General Assembly enacted legislation authorizing the Department of Justice, upon the request of a professional examining board, to institute equity proceedings to restrain unlicensed persons from practicing an occupation, profession or trade requiring licensure. Equity proceedings in these cases have resulted in more prompt law enforcement.

Licensing service has been provided for more than 225,000 persons depending upon the professional examining boards and the Bureau for their authorization to practice the professions or engage in a business lawfully.

Respectfully submitted,

FRANCIS B. HAAS,
Superintendent of Public Instruction

COMMONWEALTH OF PENNSYLVANIA
DEPARTMENT OF MILITARY AFFAIRS

HARRISBURG

December 1, 1950.

Dear Governor Duff:

Military

In this Administration the Pennsylvania National Guard was built up to the mightiest military force in its long history of more than 200 years—in numerical strength, status of equipment and caliber of leadership among its officers and enlisted men.

Beginning with 1200 troops comprising approximately 60 units in the postwar reorganization that began with the inception of this Administration, the Guard was developed into a force of 23,850 officers and enlisted men organized in 278 Army (ground) units and 34 Air units. In 1950 it was the second largest of all the States.

The Department of the Army recognized the advanced status of the Pennsylvania National Guard when it inducted into the active Federal military service, as a result of the Korean war crisis, a total of 13,383 officers and enlisted men representing 168 ground organizations during the period August 15 to October 31, 1950. Among the organizations inducted was the 28th Infantry Division, one of four National Guard Divisions activated in the country.

The present strength of the Pennsylvania Army and Air National Guard is a total of 8,500 officers and enlisted men—which, even after the heavy Federal inductions—is still greater than many of the other States whose troops were not called up.

In addition to State appropriations totaling approximately \$11,161,556 to the Department of Military Affairs for the past four years, the Department has obtained Federal support totaling \$19,562,356 for employment of 1,100 clerks, air technicians and maintenance personnel, for Service contracts, construction, and expenses incidental to armory drill and field training.

The estimated valuation of Federal property allocated to Pennsylvania during this Administration for operation of its National Guard is a total of \$305,000,000, of which \$240,000,000 is ground unit property, and the remaining \$65,000,000, Air.

Armory drill and field training pay earned by the Guardsmen from Federal funds amounted to approximately \$17,000,000 annually.

At the Philadelphia and Pittsburgh airports of the Pennsylvania Air National Guard there are federally-supported projects under way totaling \$2,233,000 for construction of hangars, and administration buildings, which will give those two cities the finest Air National Guard installations of their kind in the country.

The State Armory Board in this Department operates 99 Commonwealth-owned and 11 rented armories which quarter the units of the Pennsylvania National Guard. Estimated valuation of these armories is \$11,000,000. During the past year the Board purchased 12,000 new steel lockers for the use of Guardsmen and constructed 38 motor vehicle sheds, two Air hangars, and one ordnance maintenance shop.

Indiantown Gap Military Reservation

An outstanding accomplishment in October 1947 was the removal and consolidation of the various major headquarters activities of the Pennsylvania National Guard into one headquarters building at Indiantown Gap Military Reservation. Placed under one roof for economy and efficiency of operations, were the Adjutant General's Department, 28th Division Headquarters, the offices of the U. S. Property and Disbursing Officer for Pennsylvania, Reservation maintenance offices, the Senior Army Instructor and the Senior Air Instructor, and headquarters of the 103d Ordnance Medium Maintenance Company. The

December 1, 1950.

consolidation has been widely referred to as a model of military operation for other State National Guards. It serves as the operating center for the administration and supply of the Pennsylvania National Guard.

Also, concentrated in the warehouses at Indiantown Gap are reserves supplies of all types of military equipment that could meet the needs of more than 20,000 persons in event of a disastrous emergency at home. During the Thanksgiving holiday week-end of 1950 some 2,000 Pennsylvania National Guardsmen were dispatched with all types of emergency equipment to assist in rescue work during the record snowfall in western Pennsylvania and the floods in the Susquehanna and Juniata river valleys. In all instances of disaster-relief work, the Pennsylvania National Guard is self-sustaining and provides no drain on the limited resources of the stricken community.

In mid-September, when a troop train of the 28th Infantry Division was wrecked at Coshocton, Ohio, killing 33 Guardsmen of the 109th Field Artillery Battalion and injuring scores of others, emergency headquarters of the Department of Military Affairs were opened immediately at the Kingston armory, home base of the victims. The Adjutant General and his staff handled all arrangements for the return home of the soldier dead, and assisted the bereaved families in every way they desired. Some 1200 Guardsmen were called out to serve as Honor Guards, pallbearers, firing squads, etc.

The training grounds at Indiantown Gap have been developed also into an outstanding recreational area, refuge for fish and wild game, and tree and plant propagation. Several hundred thousand persons avail themselves annually of the outdoor facilities, including a modern swim lake and picnic grounds, as well as service organizations, such as the Commonwealth's Camp Penn for underprivileged children, the American Legion's Keystone Boys Camp, and the Red Cross which conducts its life guard tests there. Numerous sportsmen's organizations find the grounds ideal for field trials. All areas are kept in maintenance and repair throughout the year.

Veterans

The Administration kept its pledge to pay the veterans of World War II a fair and liberal bonus. At the end of its first 10 months of operation on November 30, 1950, the World War II Veterans Compensation Bureau had completed 90 percent of its assignment. Of a total of 1,154,943 eligible for payment the Bureau had paid 1,062,593 claims representing \$382,540,607.50.

The Bureau itself took on the added work of establishing claims for foreign duty among several hundred thousand applicants whose discharge papers did not give this information. Despite this added activity the rate of payment was the fastest of any other bonus-paying State and the lowest in cost of operation. Approximately 553 employees were hired to process the claims and make the payments. Preference in employment was given to veterans themselves, to widows, fathers, and children, and other immediate members of families of veterans who did not come back.

The State Veterans Commission extended assistance to 35,673 families, representing a total of 125,869 persons, from the period January, 1947, to October 31, 1950. This is the largest number ever assisted since the inception of Commission. The dependents of World War II veterans were included in the Act and now surpass the number of World War I veterans and/or dependents receiving aid. The Act appropriating \$200 a year for education of war orphans was broadened to include the children of totally disabled veterans whose disabilities were service connected.

Respectfully submitted,

FRANK A. WEBER,
The Adjutant General.

COMMONWEALTH OF PENNSYLVANIA
INSURANCE DEPARTMENT

HARRISBURG

Dear Governor Duff:

The Supreme Court decision of June 5, 1944 in the South Eastern Underwriters case which reversed all its previous decisions and declared insurance to be commerce and hence subject to all Federal laws effecting interstate commerce, greatly increased the responsibilities faced by the Insurance Department in making effective and adequate the supervision of insurance at the state level in order to satisfy Congress that there would develop no need for substitution of Federal supervision by Congress or its agencies.

A major step toward this end was accomplished during the 1947 Session of our Legislature, when as a result of utmost cooperation between the fire and the casualty insurance industry and this Department there were enacted Acts 247 and 246, providing for rate regulation of fire and marine rates under Act 247, and of the casualty and surety rates under Act 246.

These statutes required the Insurance Department to establish a Bureau of Rate Regulation in order to meet the requirements of that statute as regards the acceptance for filing and the approval of rates for all such fire and casualty business. With your encouragement as Governor we were able to establish this Bureau. We have kept abreast of our responsibilities in this respect but we realize and record the need for a steady increase in personnel and in the work to be done by this Bureau.

The next major piece of legislation applicable to this Department which was also passed as a result of very effective cooperation between this Department and the domestic insurance companies of the Commonwealth, was the so-called Multiple Line Bill—Act No. 132—of April 20, 1949, permitting domestic stock and mutual insurance companies to transact any and all kinds of insurance—as included in Sections 202(b) and (c), Act of May 17, 1921, P. L. 682. This Act developed many new problems and the need for ever increased activity in several Divisions of our Department.

In the Bureau of Rate Regulation during the year 1949, it became possible to inaugurate a program giving new filings received more detailed attention than had been possible when the initial regulatory program was getting under way, and many important new filings were drastically altered before becoming effective. Primarily, this was due to the availability of statistics for the first year of company operations under the rate regulatory acts. The statistical plans adopted for all lines of coverage have become an increasingly important part of the Bureau's functions and are closely developed for all future operations of the Bureau.

The Bureau has completed three full years of operation, during which period 5303 filings have been reviewed, broken down in the following manner:

Casualty Companies	2802
Casualty Rating Organizations	607
Casualty Special Filings Company and Bureau	1350
Fire and Inland Marine Companies and Rating Organizations	514
Title Companies	30

This period has been one of the most remarkable periods in the history of the Insurance Industry. Premium volumes have been high and profitable in nearly all lines, which has resulted in the Bureau obtaining a steady flow of revisions of a downward nature amounting to a minimum reduction of \$12,000,000 per year in premiums to policyholders for both the Fire and Casualty fields. The year 1949 and the first nine months of 1950 have been outstanding experience-wise, and will no doubt eventually act to bring about further reductions in rates when these results properly take their place in the statistical plan.

The Insurance Department cooperated in the preparation and adoption of the following insurance legislation which was of major importance to the insurance industry and the public.

The Act of May 9, 1947, P. L. 201, which revised and enlarged the kinds of investments that may be made by

life insurance companies and similar organizations. Pursuant thereto investments may be made in real estate other than that requisite for the companies' own business, including housing projects.

The Act of May 9, 1949, P. L. 1025, which requires insurers, subject to Rate Regulations, to maintain uniform classifications of accounts and records and to make uniform reports as prescribed by the Insurance Commissioner. Representatives of this Department cooperated with representatives of the insurance departments of other states in the adoption of the Regulation for uniform classifications of expenses and reporting forms including the annual statement and insurance expense exhibit for use by insurers on a nation-wide basis.

There were 1019 authorized insurers under our supervision as of November 20, 1950. During the three years from January 1, 1947 to December 31, 1949, the admitted assets of Pennsylvania insurers increased \$700,000,000 to \$3,719,117,000. During that period the amounts paid by residents of Pennsylvania to all classes of authorized insurers—domestic and foreign—totalled \$2,957,492,000, an average of \$985,800,000 per year as compared with \$744,400,000 for the year 1946.

During the past four years the Bureau of Examinations has examined each of the 413 domestic Companies, Associations and Exchanges, participated in the examination of 176 companies of other states and foreign countries with United States branches and has made field checks of company compliance with rates as filed with the Bureau of Rate Regulation.

In recent years examinations have disclosed the need of strengthening reserves of certain classes of companies. Accordingly we have succeeded in having statutes adopted raising the standards for required reserves for accident and health business written by the various segments of the insurance industry. This will better protect the policyholders especially those purchasing non-cancellable accident and health insurance.

Many companies and societies writing business with life contingencies have voluntarily increased the standard for reserves on this business. This is of great advantage to policyholders in guaranteeing payments which will not be for the most part payable for an extended future period.

There were 38,327 applicants given examinations for licenses as agents, brokers, public adjusters and public adjuster solicitors during this administration. The number of licenses issued to agents, brokers, public adjusters and public adjuster solicitors amounted to 660,445.

In conclusion, it is to be noted that during the four years from 1947 to 1950 the Insurance Department, through its Complaint Section with offices at Harrisburg, Philadelphia and Pittsburgh, has received from Pennsylvania policyholders and claimants only 13,334 complaints and inquiries. When considered against a background of one billion dollars of premium payments per year this is a comparatively small number of complaints and the insurance industry deserves credit for its record in this respect.

Respectfully submitted,

ARTEMUS C. LESLIE,
Insurance Commissioner.

COMMONWEALTH OF PENNSYLVANIA
DEPARTMENT OF BANKING

HARRISBURG

December 1, 1950.

Dear Governor Duff:

The most pressing problem facing the banking system today is the danger of run-away inflation. The Department has consistently urged all financial institutions under its supervision to curtail unnecessary credit extension. We have pursued policies during the past four years designed to place the right degree of restraint on credit granted by our banks and we have urged the banking profession to carefully screen all loan applications so that only those credits would be granted which would increase the sound-

ness of our economy and add to the productive capacity of the Commonwealth.

To maintain the State banking system on a safe and sound basis, we have consistently urged our banking institutions to strengthen their capital structures so that they are prepared for the hazards which seem to lie ahead. We have successfully completed many capital programs the effect of which has been to eliminate from our banks preferred stock owned by the Reconstruction Finance Corporation (a reminder of the depression years of the early 1930's) and place, through the sale of common stock, the ownership of our banks in the hands of local people where it rightfully belongs.

Our experience in the matter of defalcations on the part of officers and employees of State banking institutions in the past four years has been very good. Only 13 prosecutions were necessary and the total amount involved in these defalcations was only \$89,000.

The Department sponsored and secured passage of legislation in 1947 which prohibited the merger of a State bank with a National bank until such time as National banking law would be amended to provide fair and equal reciprocity in bank mergers. The passage of this Act prevented further weakening of the State banking system which had lost practically one billion dollars in resources in 1946. We aided in drafting and presenting in 1948 a bill in the United States Congress which places the merger, consolidation and conversion of State and National banks on a reciprocal and completely equitable basis. The bill was approved by both the House and Senate of the United States and it became law on August 17, 1950.

In the past several years, there has been a startling increase in the number of sales of independent banking units to expanding branch banking systems. Until 1949, the holders of only 50% of the total outstanding shares could decide to sell a banking business and vote the independent bank into liquidation. Believing that voluntary liquidation of independent banks through their sale to branch banking systems is damaging to the dual banking system in our Commonwealth and the spirit of individual enterprise, the Department sponsored and secured passage of legislation in 1949 which now requires a vote of two-thirds of the shareholders to place a State banking institution into voluntary liquidation.

Our Department has worked actively to defeat many Federal legislative proposals designed to break down States' rights by extending Federal controls over our State banking and financial institutions. The defeat of these proposals has encouraged the advocates of States' rights and State bankers and as result, the first new State bank since 1934 was chartered in October 1949 and several applications for new bank charters are now pending.

During this Administration the resources and deposits of State banking institutions have increased steadily. The figures covering this period are as follows:

	No. of Institutions	Resources	Deposits
December 31, 1946	367	\$4,815,732,720	\$4,348,971,643
December 31, 1947	356	\$4,913,657,201	\$4,441,118,039
December 31, 1948	356	\$4,969,229,583	\$4,483,241,194
December 31, 1949	353	\$5,129,559,507	\$4,624,260,290
October 4, 1950 ..	352	\$5,290,208,615	\$4,743,756,356

The Department supervises the affairs of 2,332 financial institutions in its two bureaus and two divisions. In addition, 613 finance companies and 5,068 automobile dealers are subject to supervision. Through increased efficiency, the supervision, regulation and licensing functions of the Department of Banking are performed today by a total of 136 employees in contrast to 152 persons on our payrolls at the end of 1946.

The total expenses of operation of this Department for the years from June 1, 1946 to May 31, 1950 were \$2,613,404.98; income from examination fees, assessment of institutions under supervision and license fees for the same period was \$3,099,589.09; or a net profit during this Administration of \$486,184.11.

Building and Loan Associations

In the face of a decrease in the number of building and loan associations from 802 on December 31, 1946 to a present figure of 784, aggregate resources have increased from \$390,698,946.42 as of December 31, 1946 to \$531,447,-774.56 in the Spring of 1950.

At the beginning of 1947 there were 381 associations in voluntary liquidation under liquidating trustees elected by the shareholders. During the past four years, 13 additional associations went into liquidation voluntarily. However liquidation of 316 associations was completed during this Administration, leaving only 78 associations remaining in voluntary liquidation.

The Building and Loan Bureau has aided in the passage of legislation designed to modernize the Building and Loan Code so that State chartered institutions have an equal opportunity in the field of thrift with Federal savings and loan associations. In this connection, it is recommended that legislation be sought to amend the Building and Loan Code to abolish the so-called "share sinking fund" type of mortgage contract. This type of contract is not fair to the borrowing public and it is antiquated and used infrequently today.

Consumer Credit Division

The number of lending agencies under the supervision of this Division at the beginning of this Administration and at the present time are reflected in the following figures:

	December 31, 1946	October 1, 1950
Small Loan Companies	439	618
Consumer Discount Companies	289	388
Credit Unions	77	88
Pawnbrokers	96	101

In 1947, the Consumer Discount Company Act was entirely rewritten in a new law designed to better serve small borrowers, increasing the amount the small business man or consumer can borrow from \$1,000 to \$2,000 with maturities lengthened from 24 to 36 months.

To protect the "small borrower," pawnbrokers, by amendment of the law in 1949, are for the first time in history required to issue to pledgers, receipts covering all payments. In addition, a complicated rate schedule was changed to a simplified basis.

Until this Administration, it had been the policy of the Department of Banking to restrict the issuance of licenses under the Small Loan Act and under the Consumer Discount Company Act on the basis of the competitive situation in the locality for which application was filed. This policy was considered to be an unwarranted restraint of free enterprise. Accordingly, a new policy has been adopted assuring licenses to all applicants of good character and adequate financial standing, thus removing the former unwarranted restraint against free enterprise.

Motor Vehicle Sales Finance Division

In June, 1947 the Motor Vehicle Sales Finance Act was enacted to protect the public from excessive charges and certain improper practices in financing and purchases of automobiles. The new law provided for the licensing of all persons and corporations connected with the installment sale of motor vehicles, including automobile dealers, banks, finance companies and collector-repossessors. The latest figures show the following number of licenses:

Installment Sellers	5,068
Sales Finance Companies	613
Collector-Repossessors	17

The motor vehicle finance industry gave the Department excellent cooperation in its acceptance of this progressive legislation. There were certain errors and overcharges made as a result of misinterpretation of the new statute and from the effective date of the new law until the present time, our Examiners uncovered a total of 3,725 overcharges. Refunds were made to the buying public at the direction of the Department aggregating \$54,725.22.

In approximately three years of operation under the new law, the Banking Department has found it necessary to suspend only 9 licensees for willful violation of the new Act. It is a fine tribute to the entire motor vehicle financing industry that its wholehearted acceptance of this constructive legislation has proved of such great benefit to the people of our Commonwealth.

Liquidation Division

In January 1947, the Closed Bank and Building and Loan Division operated from offices in Philadelphia and Uniontown. In April 1947, the separate offices were closed and the affairs concerning Closed Banks and Building and Loan Associations, excepting the receivership of Integrity Trust Company, Philadelphia, were transferred to Harrisburg. By concentrating the great volume of records at Harrisburg, the Department has been able to bring about considerable economy through the elimination of rents, salaries and other costs of operating the Division.

We have set up in Harrisburg a new office to handle large numbers of inquiries received from former depositors of Closed Banks and former shareholders of Closed Building and Loan Associations. The new office has been very helpful in obtaining for former depositors the return of funds in excess of \$50,000 previously unclaimed and escheated to the Commonwealth. In addition, titles to a great number of real properties have been cleared where the new office upon investigation found that old encumbrances remaining on the record had been extinguished and should have been satisfied many years ago.

In 1948 a joint investigation was launched by the Banking Department and the Department of Justice into gross fraud on the part of certain former employees of the Closed Building and Loan Division in the bulk sales of assets in liquidation. The September Grand Jury indicted some of the culprits although convicts could not be obtained due to the Statute of Limitations. In May 1949, legislation was adopted to forever prevent gouging of the public in future liquidations of both Building and Loan Associations and Banks by prohibiting the bulk sales of assets to unscrupulous speculators.

In January 1947, the Closed Division consisted of 13 employees. At the present time, there remain only three full-time employees, one part-time employee and legal counsel. The unliquidated assets of Integrity Trust Company, Philadelphia, did not come into the possession of the Department of Banking until July 30, 1948 and at that time, such assets had a book value of approximately \$10,000,000. The liquidation of these assets is almost completed and it is anticipated that the liquidation of Integrity Trust Company will be completed within ninety days.

Pennsylvania Securities Commission

As of November 29, 1950, the records show that there are registered with the Commission 481 dealers, 2,626 salesmen, 73 investment advisers and 60 solicitors.

During this Administration, warrants for the arrest of violators of the Pennsylvania Securities Act were issued against 15 individuals. Eleven convictions were secured, one defendant died before trial, one was found not guilty but paid costs and two cases pending. One permanent injunction was also secured.

One hundred and thirty-three Cease and Desist Orders were issued to out-of-State violators, of which 90 were issued against securities dealers and companies domiciled in Canada, which continues to be the principal source of illegal offerings of securities. Continued publicity against all illegal offerings is shown to be the most effective method of combating such sales.

Receipts for the first biennium of this Administration were \$143,861.25, expenditures were \$111,285.06 against an appropriation of \$118,000.00. For the second biennium, June 1, 1949, to date, receipts were \$84,192.75 and expenditures to October 31, 1950, \$94,194.18 against an appropriation for the biennium of \$135,000.00. Receipts for renewal of registrations for the calendar year 1951, of course, are not included in this and it is expected these will bring the total receipts above anticipated expenditures.

Respectfully submitted,
D. EMMERT BRUMBAUGH,
Secretary of Banking.

COMMONWEALTH OF PENNSYLVANIA
DEPARTMENT OF AGRICULTURE

HARRISBURG

December 1, 1950.

Dear Governor Duff:

Farmers and food consumers of Pennsylvania have profited greatly through Commonwealth services during the past four years. More beneficial legislation was provided than for many years. Rigid enforcement of food laws by the Department of Agriculture provided protection from fraud and deception.

Farmers have many problems which they cannot solve by themselves alone. The Commonwealth therefore lends a hand. From livestock and poultry alone our farmers obtain three-fourths of their cash income. I am proud to report that in these two highly important agricultural industries we have assisted our farmers in reaching top recognition in the United States during this administration.

1. Pennsylvania leads all states in the number of herds certified as Bangs disease-free. There was an increase of nearly 1,300 herds in four years. A revised State program of control, including free vaccination of calves, made possible by \$550,000 in additional State livestock disease control funds, went into effect in January 1950.

2. Assisted by increased services in marketing, disease control and a breeding improvement program, our farmers in 1948 put Pennsylvania ahead of all states in cash income from poultry and eggs. We lead all states in supplying graded, quality eggs.

The fight against tuberculosis in cattle has been continued as a public health measure. The incidence is now at a record low of only 17/100 of 1 per cent. A laboratory for study of artificial breeding of livestock was established at the Pennsylvania State College and funds provided for building foundation herds there. Great progress has been made in reduction of all livestock and poultry diseases. Consumers are assured of getting clean, wholesome meats from inspected plants. The occurrence of rabies in 1949 reached the lowest point in 50 years.

Through concentrated effort in the past four years the dreaded gypsy moth caterpillar has been completely eradicated from the State. For years the State had operated a tedious campaign against a plant disease known as potato wart. We hurried it up with more men and some power machines and that pest soon will be wiped out. With additional funds the Department has cut the prevalence of bee diseases in half.

All-time records have been established in production of State certified seed. Our farmers no longer need look to out-of-State sources for high quality seeds. Rust disease of small grains has been reduced. A revealing report on a special nut tree survey and study will be made to the 1951 General Assembly. The first infestation of oak wilt was isolated and promptly eradicated last Fall.

For protection of public health our food supplies must be kept clean and wholesome. Food agents have been alert, collecting 40 per cent more samples in 1950 than in 1947; ice cream activities increased 50 per cent, feeds 80 per cent, fertilizers and limes 33 per cent. Prosecutions increased about 40 per cent since 1947. Food inspections total approximately 50,000 a year. New laws and regulations have aided this program of protection for consumers. Great progress has been made in the standardization of products moving from farms into consumer channels.

Pennsylvania is now a leading state in the canning and freezing of fruits and vegetables, advancing from 7th to 4th. State inspection service in this industry has been maintained at over 200,000 tons per year. Marketing service to farmers has made substantial gains. Four years ago

less than 500,000 birds were entered in the poultry improvement plan, but now there are more than three times that many.

Eighteen county-wide soil conservation districts have been organized since January 1947, a total of 26 since 1945. One out of every ten farms is now participating in some form of conservation work, a great effort to conserve our soil resources.

In each of the past four years the Pennsylvania Farm Show has exceeded all previous years in size and scope.

Respectfully submitted,

MILES HORST,
Secretary of Agriculture.

COMMONWEALTH OF PENNSYLVANIA
DEPARTMENT OF PROPERTY AND SUPPLIES

HARRISBURG

December 1, 1950.

Dear Governor Duff:

This period covered post-war recovery of markets wherein it became possible for the first time since 1941 to procure construction and operating equipment and supplies freely in the market. Consequently, the Department has been unusually active on behalf of all agencies of the government in the construction and repair of buildings, in replacing worn-out and obsolete equipment, and in restoring war-depleted supply stocks to the normal level required for smooth and uninterrupted operation.

It will be remembered, also, that the ten year depression of the 30's, during which funds for construction and orderly replacement of equipment were limited, merged into the restrictions of the war period with little opportunity afforded to the State to recover, in its construction and purchasing, from the depression handicaps. This influence intensified that of the war in throwing onto this Administration the burden of recovery in physical plant and equipment.

Construction

This Administration will have spent \$63,000,000 for constructing new institutional buildings and reconstructing outworn institutional structures; \$33,000,000 of this was in borrowed funds (from the \$50,000,000 bond issue of 1947). Construction now going on as of the date of this report amounts to \$7,700,000. This will be nearly all completed by May 31, 1951. 1200 separate projects including new construction and reconstruction have been begun in the four years. This is a far larger number than has been required of any previous Administration and is indicative of the "catching-up" which has fallen to this Administration to do.

To staff the General State Authority, which, in 1949, undertook a \$175,000,000 building program extending and enlarging the construction and reconstruction program which this Department had been carrying on, the Department reduced its staff so that experienced personnel could be provided the General State Authority around which its organization could be built. This resulted in a more rapid acceleration of the Authority program than would have been possible if an entirely new staff, unfamiliar with the State institutions and construction requirements, had been recruited.

State Capitol Buildings and Grounds

A major start toward completing war-arrested maintenance problems has been made. Roof and terrace repairs requiring copper and lead materials have been completed. Steam, water, and sewer lines have been put in shape. A project looking to the complete rewiring of the 50-year-old main capitol building has been under development for six months and is now about to be undertaken. Legislative halls have been refurbished. Extensive painting, plastering, and partition remodeling have been carried on not only with maintenance forces but with contract help where speed-up was essential.

New parking rules were formulated and put into force to relieve the congestion on capitol grounds handicapping the citizens in visiting the seat of government. For the first time, the Capitol Police were given the right to tag and fine parking violators. A firm policy impartially administered has greatly improved the distressing congestion which had developed.

The Department has participated with the General State Authority in planning the development of the Capitol Park Extension. Plans are virtually complete and, as soon as public housing or other low-cost facilities are available in the City of Harrisburg for accommodation of more than 250 households now in the Extension area, acquisition of the remaining properties in the Extension can be speeded up and demolition begun. This will provide temporary parking for State Capitol employes and visitors and citizens of Harrisburg until the State can construct an office building to pave the way for eliminating the temporary buildings and completing the development of the Court at the rear of the Capitol.

In harmony with the plans for the Capitol Park Extension, the Department has assisted in the acquisition of 2½ acres to the north of the Extension for the construction of a building to house the whole Department of Labor and Industry which is now scattered in eighteen buildings throughout the City. Work can start as soon as a method of financing the building is determined.

Warehouse and Garage

In April, 1949, an \$8,000,000 former war plant of 330,000 square feet and twenty-three acres in the City of Harrisburg was acquired for \$515,000. \$300,000 has been spent to put it into shape for the State's use. This acquisition gave the State 28,000 square feet of office space to house the School Building Authority and the Department's Bureau of Construction and, more importantly, it provided adequate warehouse and garage space for the first time.

The State had for many years suffered from a woeful lack of space to store its day-to-day required supplies and the available garage space for rent in the City was completely insufficient to house the 400 car motor fleet which the operations require. By the use of this plant the services this Department can supply others are vastly improved in quantity and speed and the whole central government will benefit through availability of storage space for dead files, bulk equipment, and supplies of many kinds.

Purchasing

The Department has inaugurated a policy, coincident with the acquisition of the warehouse, of buying certain commodities in bulk. This insures quality and saves money and also enables reasonable planning to be done to insure supplies being on hand when needed. By buying carbon paper, stencils, machine ribbons, paper, envelopes and other heavily consumed supplies in bulk quantities greater satisfaction has been secured and tens of thousands of dollars saved.

Publications

The activities in this function have returned to normal as man power and paper supply once more became available to the printing contractors. The Division has recently begun a survey of fifty year accumulations of documents with a view to discarding all but a token quantity of those for which there is no longer any demand. This will free space needed for other governmental operations.

Standards and Specifications

Much activity has been demanded of the Bureau of Standards. The new policy of bulk buying has required additional and improved specifications and much testing which has had greater importance since it has covered larger bulk purchases. The Department has instituted a policy of competitive specification buying of equipment instead of restricted trade-name buying as before.

Surplus Food Commodities

In 1948, the U. S. Government began offering to the

States the surplus foods which had been acquired as part of price control programs. The Government insisted upon the State's establishing a single agency through which all transactions would be handled. This Department undertook the assignment and, with the full cooperation of the Departments of Public Instruction and Welfare, has been able to distribute \$7,000,000 worth of such foods to 2138 public schools and other agencies. The Department's organization was flexible enough to arrange a special distribution of potatoes during February, 1950, to welfare supported families in Western Counties on twenty-four hour notice.

Respectfully submitted,

C. M. WOOLWORTH,
Secretary of Property & Supplies.

COMMONWEALTH OF PENNSYLVANIA
DEPARTMENT OF FORESTS AND WATERS
HARRISBURG

December 1, 1950.

Dear Governor Duff:

During these past four years this Department carried forward the greatest overall program ever undertaken for improvement, conservation and the wise use of the Commonwealth's national resources. This program involved a concerted direction of efforts to provide for the future welfare of all citizens of Pennsylvania.

The ensuing report of accomplishments succinctly indicates that goals set at the beginning of the current Administration in reforestation, in stream clearance, in flood control, and in increasing recreational facilities, have been attained and, in many respects, surpassed.

Forests

Two forest tree nurseries were added to the Departmental set-up increasing the number of such nurseries to six with a potential production capacity of 75,000,000 forest tree seedlings annually—more than double the previous yearly capacity.

The Department distributed approximately 45,000,000 tree seedlings since January 1947. Calculated at approximately 1,000 trees per acre, this means that 45,000 acres of otherwise non-productive and sub-marginal lands in the State have been reforested and will eventually produce timber for the wide variety of products necessary in our economy.

Under the Department's Tree Farm System, inaugurated in October, 1947, to encourage better forest tree practices on privately owned woodlands, 112,738 acres of Tree Farms were officially certified. This places Pennsylvania second among eastern states participating in the National Tree Farm System.

A monthly Timber Marketing Service Bulletin was initiated which provides consumers of timber and other forest products with reliable and detailed information concerning markets and sources of supply.

Negotiations were completed for the acquisition of 111,750 acres of additional State Forest lands. This boosts the acreage under Departmental jurisdiction to almost 1,800,000 acres.

More than 5,000 acres of Pre-Act spoil piles in 26 counties were reforested with 6,437,000 trees with funds obtained from the Bituminous Coal Open Pit Mining Reclamation Fund.

Under Departmental supervision, Bituminous coal operators planted approximately 2500 acres of spoil piles with 3,014,000 trees in accordance with provisions of the Bituminous Coal Open Pit Mining Conservation Act of 1945.

In the Anthracite mining area, under the Anthracite Strip Mining Law of 1947, the Department planted approximately 153,000 trees on 128 acres of strip mine areas.

The Department concluded agreements for the sale of natural gas from State Forest lands through lease agreements on 35,812 acres. Revenues to the State Treasury

from this source should exceed \$700,000 during the 1951-1953 biennium.

Forest fire fighting and operating equipment and vehicles were improved and brought up to the highest peak of operating efficiency since the Department's protection organization has been in operation. More fire fighting equipment is in the hands of fire wardens and in reserve than ever before.

Installation of modern short wave radio equipment was completed on the Department's 150 forest fire towers.

The average in forest fire damage during the past five years has been the best five year low average of the Department in number of fires and in area burned.

The Division of Research in the Bureau of Forests was reactivated and is playing an important part in meeting the increased demand for information on preventing tree diseases to improve timber stands in the State.

Reorganization of the Bureau of Forests field organization was completed and five regional offices were established to improve field operations and expedite service to the public.

Waters

Conservation of the Commonwealth's water resources has been one of the Department's primary activities during this Administration. The Departmental record of the past four years with respect to stream clearance and flood control reflects a concerted effort to provide benefits to all citizens of Pennsylvania in the field of water conservation and in obviating inestimable flood damages in the future.

The scope of Departmental activities with respect to stream clearance is evidenced by the 114 stream clearance projects completed during this Administration in 24 of the 67 counties in the Commonwealth. By stream channel rectification and by removal of stream channel encroachments which retard stream flow, the Department has saved millions of dollars in future flood damages on the streams involved in this stream clearance program.

Recreation—Flood Control Dams

During this Administration, the Department also undertook development of the following State Flood Control detention basins and recreational areas:

1. Little Pine Creek Dam, Lycoming County. This is a dual purpose project forming a flood control reservoir and recreational pool. It is located on a tributary of the West Branch of the Susquehanna River near Waterville. The project was started in February 1949 and completed November 1, 1950 and three weeks later—during the flood of November 25 and 26—contributed materially to lessening flood damages in the Williamsport area on the West Branch of the Susquehanna River.

2. Shawnee Dam, Bedford County. This project too is a combination recreational and flood control dam. It is located on the Shawnee Branch of the Raystown Branch of the Juniata River near Schellsburg. Work on this project was started in April 1949 and completed in May 1950.

3. Rowena Dam, Cambria County. This project, located on a branch of Roaring Run at Ebensburg, was started in May 1950 and completed in November 1950.

4. Chapman Dam, Warren County. This recreation dam was started in April 1949 and completed in November 1950. It is located on Tionesta Creek in Pleasant Township.

5. Raccoon Creek Dam, Raccoon Creek State Park, Beaver County. Solely a recreational project, this dam is located on Travis Creek and forms a pool area of 102 acres. Started in July 1948 it was completed in May 1949.

6. Lake Jean Dam, Ricketts Glen State Park, Luzerne County, is a flood control and recreational project located on a tributary of Kitchen Creek in the Park. The project was started in July 1949 and completed October 15, 1950.

7. French Creek Dam, French Creek State Park, Berks-Chester Counties. Construction of a recreation dam located on Scott's Run in the Park area was started in February, 1950 and the completion date is set for 1951.

8. Lyman Run Dam, Potter County. This recreational project located on Lyman Run near Galeton was started

in July 1950. The estimated completion date is December 15, 1950.

9. Barree Dam, Huntingdon County. Reconstruction and repair work on this recreational dam located on McClain Run near Barree was started in June 1949 and completed in November 1949.

10. Big Pond Furnace Dam, Cumberland County. This recreational dam also underwent reconstruction and repair which began August 1949 and was completed September 1949. The dam impounds the waters of Hairy Spring Run near Shippensburg.

11. Hickory Run Dam, Carbon County. Located on Sand Spring Run in Hickory Run State Park, this project, was started in July 1950 and will be completed December 15, 1950.

12. Hills Creek Dam, Tioga County. This project, located northeast of Wellsboro, is a recreational dam which was started November 1950 and is scheduled for completion in 1951.

Flood Protection

Further accomplishments in the field of flood protection during the current Administration are shown in the following State Flood Protection projects:

The Sayre Flood Protection Works—In 1949, a system of flood protection works was constructed in the Borough of Sayre, Bradford County. These works consist of 3500 feet of levees and 4000 feet of channel improvement in Shephard's Creek. The works were completed in November 1949.

Athens Flood Protection Works—Also in 1949 the Commonwealth constructed a system of flood protection works in the Borough of Athens below Sayre. These works were designed to protect the borough from a recurrence of the May, 1946, flood on the Chemung River which resulted in losses and damages totalling \$468,000 in the Athens Borough. This project was begun in June 1949 and completed in November 1949.

Patton Flood Protection Works—In the fall of 1949 work was begun on a system of flood protection works northwest of Altoona in the Borough of Patton, Cambria County. These works were designed to protect the community from a recurrence of the March 1936 flood which is the maximum flood of record and which caused damages and losses totalling \$465,000. This project was completed in October, 1950.

Cheltenham Township Protection Works—During this Administration studies were undertaken for a flood protection works on Tookany Creek in Cheltenham Township, Montgomery County. The works will provide flood protection for the Glenside area. The project was started in September, 1950, and will be completed December 30, 1950.

Federal Aid

In cooperation with the Federal Government and local municipalities, the Department also undertook the development of the following flood protection works:

1. The largest flood protection works completed in 1950 is located in the Wyoming Valley along the North Branch of the Susquehanna River and embraces Wilkes-Barre, the Boroughs of Kingston, Edwardsville, Pringle and Plymouth, all in Luzerne County.

2. Two levees have been completed at Williamsport and a third is about 96 per cent completed. The Commonwealth has supplied the full number of easements and rights-of-way, and completion of the entire project will be determined by allotment of Federal appropriations for construction costs.

3. The Sunbury project was completed in 1950.

4. The rectification works on Mahoning Creek at Punxsutawney, Jefferson County was completed in 1950.

Flood Warning System

In the Susquehanna River Watershed, which comprises over 53 per cent of the total State area, the Department completed a major program designed to give timely warning of impending flood disasters. This accomplishment involved installation of an ultra-high frequency radio communication system which ties in the flood forecasting

center at Harrisburg with 52 observation stations strategically located throughout the 27,500 square miles of the Susquehanna Basin.

On more than 2000 acres of worthless scrub oak land in Monroe County, the Department established an experimental research center to determine how barren lands may be converted into productive forest lands that will protect watershed values and support valuable timber growth. The findings of this project will prove invaluable during future administrations by contributing to the economic well being of the Commonwealth.

Delaware River Basin

Of prime importance to the people of Greater Philadelphia are Departmental surveys and investigations conducted to determine advisability of an integrated water project in the Delaware River Basin. The Department has acted as the coordinating agency for Pennsylvania, New York, and New Jersey in the collection of basic quality and quantity water data. These surveys and investigations have the ultimate goal of determining a feasible plan for meeting the prospective water supply requirements of the large metropolitan areas in the three states, especially Philadelphia, New York City and Northern New Jersey.

Schuylkill River Desilting Project

The progress achieved on the \$35,000,000 Schuylkill River Desilting Project during this administration has been so favorable that the Commonwealth's part of the cleanup of Pennsylvania's dirtiest river is well ahead of schedule.

The Commonwealth, through the Water and Power Resources Board of the Department of Forests and Waters, has practically completed its part of the agreement with the Federal Government in the reclamation of the Schuylkill River along a seventy-five mile stretch from Hamburg to Norristown. Desilting dams at Kernsville on the main Schuylkill, Auburn on the west branch and at Tamaqua on the east branch or Little Schuylkill have been constructed and dredging of the river from Norristown to Hamburg has been substantially completed.

Federal participation was provided for when the Commonwealth had effectively controlled the pollution of the river by mine wastes at the source; had completed 50% of its dredging program; constructed permanent desilting works; and provided the necessary lands, easements and rights-of-way essential to the Federal portion of the project. This schedule has been met.

The Federal Government through the U. S. Army Corps of Engineers has already begun its operations on the portion of the Schuylkill River below Norristown to the tide-waters at Philadelphia by the construction of impounding basins on land provided by the Commonwealth. Further participation by the U. S. Engineers has been deferred, pending funds being made available from the Federal Government.

Fifty contracts for the construction of dams, impounding and desilting basins; the purchase and operation of dredges, materials and appurtenant work, have been awarded by the Department of Forests and Waters since May 1948. Of these contracts, forty have been entirely completed. The progress achieved is an assurance that the Commonwealth's task will be finished prior to mid-1951, and completed at an estimated saving of \$3,000,000 below the original project estimate.

The first actual dredging operation was begun in September 1948, and since that time, six dredges, four of them Commonwealth built and owned, have removed over 16,400,000 cubic yards of silt and culm from the stretch of River extending 75 miles between Kernsville and Norristown.

Under the direction of the Sanitary Water Board of the Department of Health, the further influx of mine wastes has been progressively reduced. The vast flow of new mine wastes has been reduced to a standard of discharge which is acceptable to the Sanitary Water Board and the Water and Power Resources Board.

Since the completion of the New Kernsville Desilting

Dam in September, 1949, no culm has passed down stream over that dam. At the Schuylkill Haven laboratory technicians have compiled data on the sediment load carried by the River under varying conditions of flow. Here work carried on jointly by the U. S. Geological Survey, the Department of Health, and the Department of Forests and Waters has been of inestimable value in determining the degree of compliance with orders to abate river pollution as well as stream flow and sedimentation studies that have been the basis of desilting dam design.

The effectiveness of the accomplishment on the Schuylkill is evidenced by the practical test of the carrying capacity of the completed channel through the city of Reading during the flood of November 25, 1950. This flood approached within a fraction of a foot of the 1942 flood stage. As a result of channel rectification flood heights in Reading were reduced by 8 feet and an estimated \$4,000,000 in property damage was saved.

Recreation

During this Administration, the Department engaged in a park-recreational development program designed to provide citizens of Pennsylvania, particularly in the heavily populated, metropolitan areas, with essential recreation facilities commensurate with the Commonwealth's vast natural outdoor resources. Under this program, the almost 75,000 acres in Pennsylvania's 32 State Parks have been undergoing large scale improvements designed to form a vast natural playground where the State's millions of citizens—and its many out-of-State visitors—may enjoy at little expense the finest in recreational activities.

Throughout the State Parks, the Department has developed day-use areas where facilities for picknicking, swimming, boating and fishing are available to the public; Tent and Trailer Camps which provide individual sites for camping with necessary and readily accessible sanitary facilities; and Organized Camps which represent Pennsylvania's outstanding service to youth and the development of better citizenship. At these organized camps, the State provides buildings and other recreational facilities which are utilized, at a nominal fee, by Scouts, Crippled Children, and various religious and charitable organizations.

The Bureau of Parks was reorganized and four (4) regional park offices were established to more closely control individual park operations and provide on-the-spot, efficient service to the public.

Independence Mall

Important strides have been made in carrying out the Commonwealth's responsibility concerning development of the Independence Mall in Philadelphia. All of the properties in the block bounded by Market and Chestnut Streets and Fifth and Sixth Streets, Philadelphia have been acquired. Demolition of buildings in the block encompassed by Chestnut Street to Market Street between Fifth and Sixth Streets is scheduled to begin January 1951.

When completed, the Philadelphia Mall Project will provide a landscaped plaza at Independence Hall, which has been called the greatest historical shrine in the Western Hemisphere, and will be administered as another unit of the Pennsylvania State Park System.

Point Park, Pittsburgh

Plans for the construction of the 30 acre Point Park at the junction of the Monongahela and Allegheny Rivers in the Golden Triangle area of downtown Pittsburgh developed during the Administration to the point where actual demolition of buildings now located on the proposed park area is underway.

The first purchase of 35 properties for the Park was made by the Commonwealth on July 15, 1946; the last, November 6, 1949.

Demolition of structures at the Park site began May 18, 1950. Construction and improvements by the Commonwealth at the Point State Park are scheduled for completion by 1953.

Park Commissions

The various Park Commissions operating within jurisdiction of the Department also undertook notable development and improvements during the current Administration in providing recreational opportunities to the public.

Valley Forge Park witnessed the greatest single stride in historical restoration and park development ever undertaken during the history of the Park. At the invitation of the Commonwealth, some 47,000 Boy Scouts from all over the world used the historic site of Valley Forge for the Second National Jamboree of Boy Scouts during July 1950.

At Washington Crossing Park, the park area was doubled in size and facilities increased to provide greater recreational opportunities at this Park.

Fort Washington Park was increased in size and buildings, picnic shelters and other facilities were added to the Park set-up.

At Bushy Run Battlefield, a museum and other buildings were constructed and the recreation area was improved.

In Presque Isle State Park, under supervision of the State Park and Harbor Commission of Erie, continuous efforts were made to prevent beach erosion, and a new road and bridge were constructed and recreational facilities improved to serve the many millions of people who visit this Park each year.

Respectfully submitted,

MILO F. DRAEMEL,
Secretary of Forests and Waters.

COMMONWEALTH OF PENNSYLVANIA
DEPARTMENT OF MINES

HARRISBURG

December 1, 1950.

Dear Governor Duff:

I respectfully submit a brief outline of the activities and achievements of the Department of Mines during the period of your administration.

Accident Prevention

Perhaps the most outstanding achievement of the Department during this period has been that of accident prevention. Comparing the four years of your administration, from a fatality point of view, with the best preceding four years, it is found that the period of your administration shows a 23% reduction in the number of fatal injuries.

In plain language, this means that there are living today somewhere in the coal regions of Pennsylvania three hundred mine workers who would be dead had this feat not been accomplished. It can also be said that during your administration, fewer workmen were fatally injured per million man hours of exposure in the mines of Pennsylvania than in the mines of any of the coal-producing states of the nation.

Mine Inspection

To accomplish the task of elevating Pennsylvania to the proud position of leadership in the safety movement, fifty-four mine inspectors, three electrical inspectors and other officers and employees of the Department did a tremendous job.

During the period covered by this report, the inspectors made 37,000 mine inspections covering thousands of miles of underground passageways. Because of the hazards discovered during these inspections, the inspectors stopped the operation of 7,068 mines and parts of mines. During this same period, prosecutions were instituted by them on 466 occasions because of violations of the mining laws.

First-Aid To The Injured

Three first-aid trucks, manned by capable instructors in the work of mine rescue and first-aid to the injured, are constantly engaged in this work in the mining fields of the Commonwealth. The trucks are equipped with the necessary breathing apparatus, gas masks, first-aid supplies, analytical instruments and such other chemical and scientific equipment as is commonly used in the work of first-aid and mine rescue.

During the four-year period covered by this report, the six employees of this Department in charge of the trucks trained 525 mine employees in the work of mine rescue and an additional 4,128 workers were trained in the science of first-aid, all of whom have been granted certificates of competency. In the event of a public emergency arising from any cause, these trained men could be used to supplement the work of the Red Cross and other such agencies.

Mine Sealing Activities

The mine sealing project was established by law during your administration.

The purpose of the law is to stop or minimize the formation of acid in the water as it flows through abandoned coal mines, and thus protect the streams of the Commonwealth from acid mine drainage. This is accomplished by sealing all openings leading from abandoned mines to the surface through which water may flow and through which appreciable quantities of air may enter the mine.

During the period for which this report is made, 989 seals have been erected in the Bituminous coal mines of Pennsylvania. The placing of these seals, and thus the prevention of oxygen from entering the mines, has stopped materially the formation of acid water. It is estimated that because of this work, thirty-five tons of acid per day are being kept out of the streams of the Commonwealth.

Many of the acid streams of the Commonwealth have already been rendered alkaline and are now being used for domestic and recreational purposes as a result.

Strip Mining

The Anthracite Strip Mining Law was enacted in 1947, the first year of your administration. A similar law had been in force in the Bituminous Coal Region since 1945. The purpose of these Acts is to conserve and improve the lands affected by strip mining by the backfilling, leveling and planting of such affected lands.

In the Bituminous Coal Region of Pennsylvania, about 5,000 acres of land that have been affected by strip mining have been restored during your administration. As a result of the completion work of restoration on the part of the operators, bonds to the extent of \$1,061,289.60 have been released by this Department.

In the Anthracite Region, there are 192 registered strip-mining operations. These operations are covered by bonds in the total amount of approximately \$800,000.00. The fees paid the Department by these operators, which fees are used to defray the expense of administering the Act, amount to \$99,000.00.

In the restoration and planting of land after completion of strip mining, the Department has had excellent co-operation from nearly all the strip mine operators, and in many cases, the operators have gone beyond the requirement of the law in restoring the land to its original contour. In only two cases was it found necessary to forfeit bonds.

Respectfully submitted,

RICHARD RAIZE,
Secretary of Mines.

COMMONWEALTH OF PENNSYLVANIA
DEPARTMENT OF HIGHWAYS

HARRISBURG

November 29, 1950.

Dear Governor Duff:

In accordance with the request contained in your letter of November 21, we are attaching the following report of the activities of the Department of Highways during your Administration:

Mileage Improved

Through efficient expenditures, economical operations and capable administration approximately 660 miles of the Pennsylvania State Highway System have been constructed, reconstructed or resurfaced during the current four years. Of this mileage approximately 50 per cent represents new construction, 19 per cent reconstruction and 31 per cent resurfacing.

These improvements include reconstruction of the principal arteries on the Primary State Highway System, reconstruction of the more important routes on the Secondary State Highway System, resurfacing of hundreds of miles on both systems where this type of work will preserve and prolong the usefulness of the facility for many years, reconstruction and resurfacing of existing streets in boroughs and cities, construction of new roads to provide all weather surfaces for farm-to-market roads on the State rural system and definite progress in the construction of controlled access express highways in and adjacent to the metropolitan and urban areas of the Commonwealth.

Expenditures

The Department of Highways will expend from the Motor License Fund during this period approximately \$613,161,000 for the construction and maintenance of highways and other incidental operations of the Department, divided as follows:

Items of Expense	Amount Expended	Per cent of Total	
		4 Years 1947-51	16 Years 1931-47
Construction, Reconstruction and Resurfacing State Highway System	\$400,050,000.00	65.3	47.0
Maintenance of State Highway System	106,852,000.00	17.4	31.5
Administration, Engineering, Overhead	48,934,000.00	8.0	10.7
Special Work	5,191,000.00	0.8	1.2
Land, Buildings, Equipment	13,059,000.00	2.1	2.6
Aid to Local Roads and Streets	39,075,000.00	6.4	7.0
TOTAL	\$613,161,000.00*	100.0	100.0

* Expenditures estimated for the final six months.

Leadership

Pennsylvania is leading the Nation in dollar volume of its State highway construction program with more than nine per cent of the entire United States total. With an average expenditure of more than 100 millions of dollars per year for the four-year period our State has established a new record for the Nation and the world.

In addition to the construction expenditures by the Department from the Motor License Fund, approximately 15 millions of dollars will be expended from the 40 millions of dollars authorized to the State Highway and Bridge Authority by the 1949 Session of the Legislature. All projects covering the full amount authorized by the Legislature will be under contract before the end of the current fiscal year.

Balanced Construction Program

The State highway program has the most extensive and the best balanced in the history of Pennsylvania or any

other state as evidenced by the following tabulation on construction, reconstruction and resurfacing expenditures:

Classification	Per Cent
Main State Highway System	47
Secondary State Highway System	22
Cities and Boroughs State Highway System	23
Additional Right-of-Way	8
TOTAL	100

It is interesting to note that sixty-five and three-tenths cents of each dollar available to the Department of Highways from the Motor License Fund is being expended for construction accounts. This compares with a 47 cent average over the previous sixteen years.

Administration, engineering and overhead costs of the Department of Highways have dropped to 8.0 per cent of the total expended as compared with the 10.7 per cent average for the previous sixteen years.

Maintenance of State Highway System

Maintenance ratings given Pennsylvania by the Federal Bureau of Public Roads are among the highest in the Nation.

During the current four years, maintenance costs have remained at a constant annual average as compared with a National trend which is sharply upward. Wage increases granted in 1950 and heavy expenditures for snow removal and storm damage may cause an increase in these costs during the current year.

Each man employed by the Department of Highways on maintenance activities performs all maintenance work on more than three miles of State highways.

Modern equipment, better production methods of operation, and increased efficiency of management have enabled Pennsylvania to establish this record.

Approximately 135 millions of dollars from the Motor License Fund will have been expended on the construction and maintenance of the secondary rural State Highway System. The previous high for any previous Administration was 87 millions of dollars.

Federal Aid

Federal Aid for highways in Pennsylvania amounts to approximately 21 per cent of the construction, reconstruction and resurfacing expenditures of the Department of Highways. It represents 13.5 per cent of the total expenditures.

The Federal Government has been collecting more than 82 millions of dollars per year in excise taxes from the motorists of Pennsylvania which is several times larger than the \$23,000,000 per year now being received in our State.

Financial Aid to Local Governments

The Pennsylvania Legislature for many years have appropriated revenues from a ½ cent gas tax each year to the counties of the State. This now amounts to more than \$10,000,000 per year.

The Legislature has appropriated \$5,000,000 annually to the townships of the second class and \$5,000,000 annually to the cities, boroughs and townships of the first class.

The Department of Highways has allocated \$1,500,000 from Federal Air funds available to Pennsylvania to the townships of the State which when matched on a 50-50 basis by the township authorities will be expended for construction of township roads which qualify for inclusion on the Federal Aid Secondary System.

During the current four years approximately sixty per cent as much money has been appropriated to the cities, boroughs and townships of Pennsylvania as was appropriated during the preceding sixteen years.

Toll Bridges

After 20 years of argument and bickering the ten intra-State toll bridges have been acquired by the Commonwealth under legislation enacted during 1949. On the basis

of current receipts these bridges will be free of tolls in approximately eight years.

Demand for Highway Improvements

Due to the prosperity of our economy with the resultant demands for improved transportation facilities, the cry for more and better improved roads and streets continues unabated and is definitely on the increase. This demand is many times greater than the funds available for construction purposes. Therefore, the recommendations contained in the report of the State Highway Planning Commission for relieving the traffic conditions and supplying the necessary funds merit the careful study, analysis and consideration of all groups and individuals interested in the highway development of our Commonwealth.

Respectfully submitted,

RAY F. SMOCK,
Secretary of Highways.

COMMONWEALTH OF PENNSYLVANIA DEPARTMENT OF HEALTH

HARRISBURG

December 8, 1950.

Dear Governor Duff:

Pennsylvania's tax-supported public health facilities today are stronger and better fitted for meeting current problems and combatting new ones than they have been for many years.

Much has been accomplished during the past four years in the way of progressive achievements for protecting and improving the health and life of the Commonwealth's citizens.

There was expansion of established services and the initiation of essential new ones by the Pennsylvania Department of Health, which is a vital link in our civilian defense should war-time disaster strike, as well as the Commonwealth's foremost guardian of the public health in peace-time.

Highlights of the State Health Department's program during the past Administration include the following:

Cancer Control

The attack on Cancer, second and most dreaded cause of death in Pennsylvania and the nation, was intensified on a state-wide front. Prevention, early diagnosis, and the prompt and adequate treatment of cancer were first objectives of the program.

The organization of tumor clinics in Pennsylvania hospitals was promoted and assisted financially by the State. These clinics provide diagnosis treatment and follow-up of cancer cases. There are 82 such clinics in Pennsylvania.

To further stimulate clinic and laboratory research on the cause and possible cure of cancer, the State Division of Cancer Control has made available financial grants to various hospitals and educational institutions. A State-wide survey of so-called "occupational or industrial cancer" was undertaken by the State Bureau of Industrial Hygiene.

A special bi-monthly cancer bulletin was issued without cost to over 10,000 physicians in the Commonwealth.

A standard tumor record system was instituted in our hospitals and tumor clinics by the Cancer Division in order to obtain and correlate more needed facts. This register is expected to be of great value in providing an over-all analysis of our cancer problem in Pennsylvania.

Research into the cause of cancer was spurred by the Commonwealth with a Legislative appropriation of \$200,000 to the Institute for Cancer Research in Philadelphia. This great center today is one of the largest and most modern laboratories of its kind in the world.

Rheumatic Fever

Rheumatic fever and the resulting rheumatic heart dis-

eases constitute the leading fatal disease among people from five to 19 years of age. The State Department of Health has established a rheumatic fever program to provide community facilities for accurate diagnosis, better care, treatment and more adequate preventive measures.

Clinics for diagnosis and consultation on rheumatic fever were increased by the State from five to 16. During the past four years 4,990 new patients have been examined.

School Health Program

Pennsylvania's School Health Program is more comprehensive than that of any other State in the Union.

A total of 3,258,703 pupils, 87,354 teachers and 33,500 other school employees were given complete physical examinations during the past four school terms. Medical corrections of individuals with physical defects were carried out under the program.

Child Care

Eighty-one new Maternal and Child Health Centers where parents are educated in child care, and health of children is supervised from birth to school age were established in rural communities of the State.

Cleft Palate Program

A program for covering complete care of children with cleft lip and palate up to 16 years of age was started in 1949. Five diagnostic clinics for children with this handicap have been established by the Department of Health in the following places: Lancaster, Philipsburg, Pittsburgh, Allentown and Philadelphia.

A survey is being made to establish definite figures as to the frequency of cleft lip and palate in the newborn in Pennsylvania, with classification as to sex and type, immediate mortality, etc.

Nutrition

Research in nutrition featured a three year study to determine the most effective ways to improve nutritional status of 100 elementary school children in Lower Yoder Township schools, Cambria County, and a project to improve nutritional status with 187 adolescent girls in 8 schools in Union and Snyder counties.

Tuberculosis Control

Construction of new buildings was completed at the State's three tuberculosis sanatoria providing needed accommodation for additional patients and personnel. A program for immunization against tuberculosis was initiated and new equipment installed in the State Clinics. A new home for nurses was opened at Cresson Sanatorium.

Mass chest X-ray surveys to find unsuspected cases of tuberculosis in the population were conducted on a record scale. A total of 643,267 chest X-rays were taken during the past four years.

Air Pollution Control

By act of the 1949 Pennsylvania General Assembly, Pennsylvania became the first State to establish a division in the Department of Health to investigate the problem of air pollution. A specially built mobile field laboratory was purchased and has been checking on air pollution throughout the State and determining its effects on public health.

Tests are being made at the request of industrial plants, civic groups and municipal officials. This service will play an important part in the State's effort to keep the atmosphere of industrial communities free from hazardous or annoying fumes, dusts and gasses. Up to the present time 78 investigations have been made where air pollution was a problem.

Alcoholism

Recognition of alcoholism as a public health problem, and the creation of a section on alcoholism in the Department of Health was another important accomplishment of the past administration. This new function has

collected pertinent data on which to base constructive legislation for coping with alcoholism in Pennsylvania.

New Laboratory

A new laboratory for the study of virus and rickettsial diseases was established in Philadelphia with State financial support. It is one of the few such laboratories in the Nation.

Polio Plan

A comprehensive state-wide plan was set up to fight the spread of poliomyelitis. The plan, fostered by the State Department of Health, has meant better care and treatment for scores of polio stricken patients.

State Nurses

The Health Department's staff of public health nurses, who render assistance to the needy sick of the State, was doubled and today numbers 250 nurses. More opportunities for education of the nurses were provided.

Dental Health

The new Sodium Fluoride treatment to reduce the prevalence of tooth decay was demonstrated in Pennsylvania for the first time. A total of 8,863 school children were given this treatment by State dental health educators.

Boy's Camp

The Department contributed medical service and advice incident to the development and maintenance of the camp for underprivileged boys—"Camp Penn"—established at the Indiantown Gap Military Reservation during the summer of 1949. This service included arrangements for pre-camp physical examinations, physical examinations while at camp and medical care through an ambulant patient clinic and camp hospital. Slightly in excess of two thousand boys were enrolled. No serious accidents nor illnesses occurred. The great majority of the boys returned home showing gain in weight.

Venereal Disease Control

Control of the Venereal Diseases, long a public health problem, showed marked improvement. The 1947 Session of the Legislature enacted a law which gave access to County Jails for quarantine of infected males who were dangerous to the public health. Free treatment was given persons so quarantined.

Narcotic Drugs

Enforcement of regulations controlling the sale to the public of sleeping pills and dangerous drugs was tightened by the Narcotic Drug Division of the Health Department.

Public eating and drinking places are being policed as never before by State Health officers to insure the cleanliness and sanitary safety of such establishments.

Crippled Children's Hospital

Extensive improvements were made on facilities of the State's Hospital for Crippled Children at Elizabethtown. An additional ward was opened last year and a new laundry installed at the Hospital.

Stream Clearance

Pennsylvania's stream clearance program, foremost of its kind in the nation, is now bearing fruit in the form of pure clean water for both drinking and recreational purposes.

More than \$50 million is being spent on sewerage systems by municipalities, industries and institutions throughout the State. This includes the expenditure by Philadelphia of \$32 million which places that city above the half way mark in its clean-up job which is listed for completion in 1953.

The Allegheny County Sanitary Authority is now acting, under agreements, to provide sewage treatment for 58 municipalities, including Pittsburgh. The other com-

munities in the Pittsburgh District are completing plans for sewage treatment works. The projects in that district are estimated to cost \$80 million. Similar plans have been completed by practically all of the municipalities on the other watersheds of the State.

Industry has and is continuing to do an equally outstanding job under the clean-up program and instead of hardships which were feared in some quarters there are many instances in which this program has brought out methods of reclaiming valuable materials which formerly went to the streams as waste. In many other cases planning for waste treatment brought the development of methods to materially decrease the amount of waste which in turn resulted in savings in operation costs.

Extensive research has been instituted including the trail-blazing, biological survey of the entire Conestoga Stream Basin; the pollution survey of the Clarion River where great progress is being made to bring that stream back from its devastated condition; experiments which found the answer to practical disposal of wastes from the hundreds of slaughter houses; the pioneer studies of acid coal mine drainage being conducted at Mellon Institute, Pittsburgh; studies of effects of toxicants upon fish, and various other laboratory and pilot plant investigations.

Close relationship has been maintained with neighboring states, through the medium of Inter-State Compacts, to three of which Pennsylvania is signatory. These comprise the Inter-State Commission on the Delaware River Basin, Inter-State Commission on the Potomac River Basin, and the Ohio River Valley Water Sanitation Commission.

Health Education

Health Education is the motivating force of all public health progress. Some aspect of education regarding health touches every individual before birth and until his death.

In order that the citizens of Pennsylvania may become more aware of the resources available for the protection and improvement of their health, the Division of Health Education was greatly expanded. Additional thousands of Pennsylvanians were reached by the Division's message carried by the press, radio and motion picture films.

Respectfully submitted

NORRIS W. VAUX, M.D.
Secretary of Health.

COMMONWEALTH OF PENNSYLVANIA
PENNSYLVANIA STATE POLICE

HARRISBURG

November 30, 1950.

Dear Governor Duff:

The following is a report of the accomplishments of the Pennsylvania State Police covering the period 1947-1950, inclusive:

General

The period covered by this report is unusual in that it has seen an emergence from the material and manpower shortages of World War II, resulting in a steady build-up in both until it now appears that we shall be again confronted by the same problems. A few men already have been recalled to military service.

The post-war conditions brought about unprecedented travel which added to our problems of maintaining safety on the highway. Pennsylvania has been outstanding in this, as is evidenced by national honors being bestowed upon us in 1948 and 1949.

Housing conditions for the Force have been improved by the erection of new barracks at several locations, with others under construction.

The following sections deal in slightly greater detail with various important phases of State Police achievements during this administration:

Traffic Control and Safety

For the first nine months of this year, Pennsylvania is

one of seven states listed by the National Safety Council as having fewer traffic fatalities than last year.

For 1949, the International Association of Chiefs of Police adjudged Pennsylvania as foremost in traffic law enforcement among comparable states. For 1948, under a different scoring system, the International Association of Chiefs of Police awarded Pennsylvania first prize in traffic law enforcement in the Eastern Division. These awards were based upon statistics of the National Safety Council. The State Police played a major part in establishing this position for Pennsylvania.

In addition to enforcing the law and regulating traffic in the rural areas, the State Police cooperate with the Department of Revenue in examining applicants for drivers' licenses, supervising official inspection stations, conducting special examinations for repeaters and others, operating three (3) driver clinics, and performing such other duties as are requested.

Operations

Following are operations of the Pennsylvania State Police including the activities of the Bureau of Fire Protection, Bureau of Criminal Identification, Quartermaster, Communications and Clerical Divisions.

With an average operating strength of 1579 men, the Force made 1,711,104 patrols covering 74,520,693 miles of highway; responded to 399,955 requests for assistance; conducted 383,523 investigations; and made 51,743 criminal arrests resulting in 85.5 per cent convictions, the fines amounting to \$914,301.19; also 349,867 motor vehicle arrests resulting in 97.7 per cent convictions.

During the period, 1,148,983 applicants for operators' licenses were examined. There were 3,714 stolen automobiles recovered, valued at \$3,505,698.87. Other stolen property recovered had a value of \$854,704.91.

The Bureau of Criminal Identification classified and filed 171,772 sets of fingerprints of which 65,753 were found to show previous criminal records. Through the use of such prints, 120 parole violators, 98 wanted criminals, 69 escaped prisoners, 16 unknown dead, and 3 amnesia victims were identified.

The Bureau of Fire Protection conducted 2,182 fire investigations and 14,500 fire hazard investigations, and issued approvals for 16,343 installations for inflammable liquid storage.

The Communications Division, including both radio and teletype service, handled 1,000,000 messages. Police teletype maintained contact with similar systems in the states of New Jersey, New York, Connecticut, Massachusetts, Rhode Island, Delaware, Ohio, Virginia, Maryland, New Hampshire, North Carolina, Vermont, and the District of Columbia.

Quarters

New barracks have been completed at Lancaster, Washington and Butler. Others are under construction at Hollidaysburg and Reading. Plans are made for others at Bethlehem, Punxsutawney, Montoursville and Philadelphia.

Extensive renovation and alteration programs have been completed at Greensburg and Wyoming where buildings occupied by State Police on a rental basis were purchased by the Commonwealth.

A new substation is being erected at Gettysburg.

In addition, the best available equipment has been obtained to meet current needs and replace that which deteriorated during the years of World War II storages.

Communications

Communication is an important element in law enforcement. This branch of the Pennsylvania State Police is administered by the Communications Division. The system now in use utilizes both commercial and private facilities.

Commercial telephone, telegraph and teletypewriter service is augmented by a private police teletypewriter system connecting 117 points in Pennsylvania with some 380 points in 13 other eastern states and the District of

Columbia. Approximately 250,000 police messages are handled over the Pennsylvania System each year.

By means of private police teletypewriter relay, the Pennsylvania State Police has communications access to 23 states and the Dominion of Canada connected with the National Radio-telegraph Police Network.

State-wide, three-way radio-telephone service to Pennsylvania State Police cars consists of 75 land stations and 308 mobile units. This aid to law enforcement providing communication with the mobile units operating on the public highways has been of considerable help in combating highway traffic fatalities and controlling crime.

Crime Detection

In the apprehension of criminals, meritorious service was performed by personnel assigned to the Detective Division as well as members of the field force not only in direct investigation but also in investigations conducted in cooperation with municipal and county authorities.

During the period covered by this report, 51,743 arrests were made for crime with 85.5 convictions in those criminal cases which have been disposed of finally by the courts.

Driver Testing Fields

New off-the-street driver testing fields have been built at each completed barracks, and will be provided at each barracks now under construction as well as at those to be erected in the future.

A testing field was constructed also at Harrisburg, and the one at Philadelphia was improved.

Personnel

During this administration, the Legislature raised the authorized strength of the Force from 1600 to 1800 men. Recruitment and training were continued as rapidly as possible.

As of November 1, 1950, the Force consisted of 1789 policemen, including 34 on military leave.

Respectfully submitted

C. M. WILHELM,
Commissioner, State Police.

COMMONWEALTH OF PENNSYLVANIA

DEPARTMENT OF REVENUE

HARRISBURG

November 30, 1950.

Dear Governor Duff:

The following is a report covering the activities of the Department of Revenue during your Administration:

Corporation Tax Bureau

A detailed survey was made of this Bureau and new procedures put into effect, which resulted in—

(1) The taxing of reports immediately upon receipt thereof instead of under the old procedure, waiting until after June 1st. This enabled us to complete the taxing of the corporation tax reports within the current year.

(2) Petitions for Resettlement are now kept on a current basis.

(3) Presettlement Conferences are arranged in every possible case, thus eliminating resettlement petitions.

(4) The Department has kept in close touch with the Department of Commerce with the view of encouraging new business to come into Pennsylvania.

Under the Administration's equitable and forward looking tax program, the number of Domestic Corporations registered with the Department of Revenue has increased 13% and the number of Foreign Corporations registered with the Department has increased 10%.

This increase in number of corporations doing business in this Commonwealth, along with equitable and efficient taxing of corporate tax returns, has resulted in an overall increase in tax collections.

Bureau of County Collections

During this Administration, the Department has converted the records of resident decedents' estates from an out-moded docket record to individual accounts for each estate. This was accomplished by the installation of electrically operated accounting machines. The system provides a mathematical audit of estates and sets forth all entries in connection with the appraisal, payment of the tax, recording of life estate and the estate tax. In addition, steps have been taken to standardize the form of inventory required in accordance with the provisions of the Inheritance Tax Law in all estates, whether large or small.

The issuance of hunting, fishing, motorboat, eel chute and dog licenses have shown a marked increase. At the present time, in addition to the sixty-seven County Treasurers, the Department has more than 1400 private agents throughout the Commonwealth who issue hunting and fishing licenses.

Bureau of Institutional Collections

Through a greatly increased effort and the building up of personnel in some Institutions, this Bureau has nearly doubled its collections from Mental, Medical and Surgical, Penal and Correctional Institutions and Teachers Colleges. We lay particular stress on the settlement of many old County Accounts with the various Institutions.

During this Administration we have emphatically instructed our Revenue Agents to secure detailed Credit Reports in every case, so that they are in a position to fully determine to what extent patients, or those liable for their care and maintenance, are able to pay. With this information, collections can be made more efficiently and have approximately been increased 75% during this Administration.

Bureau of Investigations and Collections

This Bureau handles the enforcement of the Malt Beverage Tax, Soft Drink Tax and Cigarette Tax Acts and it is interesting to note that the Soft Drink Bottlers under this supervision have increased from 469 in 1947 to 695 in 1950, while the Soft Drink Retailers have increased from 79,128 in 1947 to 90,363 in 1950. The licensed Wholesale Cigarette Dealers have increased from 860 in 1947 to 929 in 1950, while the licensed Retail Cigarette Dealers have increased from 96,300 in 1947 to 109,049 in 1950.

In the Malt Beverage Tax Enforcement Division, however, we find that the Distributors licensed by the Liquor Control Board in 1947 were 2,087 and in 1950 there were 2,176, while the number of breweries under our supervision have decreased from 63 in 1947 to 55 in 1950.

Bureau of Motor Vehicles

Many improvements were made in this Bureau during the present Administration and increased activities included the administration of the new School Bus Law, the new act covering refinancing of automobiles, the elimination of engine number requirements on certificate of title and the installation of a trained driver program.

Some idea of the growth of the Bureau's activities can be noted when we observe that for the year ended April 1, 1947, the total number of registrations of motor vehicles in the Bureau amounted to 2,387,542 and for the year ended April 1, 1950 the registrations numbered 2,999,903, with the registrations so far this year going above the three million mark. At the same time, the number of operator's licenses issued for the year ended February 1, 1947 was 3,297,937, while the number issued for the year ended February 1, 1950 was 3,670,911 and there is no doubt that that figure will go beyond the 3,800,000 mark next year.

Bureau of Liquid Fuels Tax

During the past four years, Pennsylvania has increased its collections of liquid fuels over the previous year as follows:

1947 over 1946	8.817%
1948 over 1947	8.505%
1949 over 1948	4.645%
1950 to 8/31/50 over the same period last year	8.711%

These percentages are based not on actual dollars collected but on accrued gallonage and, with the exception of one year, show greater increases than the national average

Bureau of Highway Safety

During the four years of the Duff Administration, tremendous strides were made in highway traffic accident reduction in the Commonwealth of Pennsylvania. The best proof of this statement is in the figures herewith.

When the Duff Administration took office, the death rate per hundred million miles in Pennsylvania was 8.1. Now it is 5.0, a decline of nearly 40% yet this decrease was brought about in spite of a tremendous increase in traffic between 1946, the first year after World War II, and the present. The figures follow:

Death Rates Per One Hundred Million Miles

Year	Pennsylvania Percentage	National Average	Pennsylvania Total Deaths
1946	8.1	9.9	1794
1947	6.9	8.6	1678
1948	6.9	8.0	1671
1949	6.4	7.4	1607
1950*	5.0	6.9	1223

*—First ten months only.

At the present time, the highway death rate in Pennsylvania is the lowest in our history and the lowest of any of the large states.

During the present Administration, great strides have been made in the improvement of our examination points and driver clinics. New driver training fields were built at Harrisburg, Erie and Lancaster. In addition, similar fields were constructed at Washington and Butler. Construction is almost completed at Greensburg and Hollidaysburg and these examination points should be open shortly.

Our motor vehicle inspection system has been materially improved. Through the cooperation of the trade, county safety committees have been set up in nearly every corner of the State. Those who question the efficiency of our inspection program are amazed to learn that at times from fifty to one hundred thousand motor vehicles are junked in one single campaign because of their inability to pass inspection. The percentage of accidents contributed to faulty mechanical equipment has steadily decreased, dropping to 2.4% in 1949, where fatal accidents were involved. This compares with 17% nationally.

On February 1, 1950, the Department began the operation of the Safety Responsibility Unit put in effect by the recent Safety Responsibility Act. It is now conservatively estimated that more than three fourths of our Pennsylvania operators are covered by insurance.

Highway Safety Advisory Committee

In September of 1948, you organized the Governor's Highway Safety Advisory Committee. Two years' experience have already shown the value and wisdom of this move. In March of 1950, for the first time in its history, the Commonwealth, after having received many minor awards from the National Safety Council and other organizations, received first place for the best over-all traffic safety activities in its own group, and in competition with such States as New York, Michigan, Ohio, Indiana, Illinois, California and Texas. At the same time, additional awards for outstanding achievement in driver licensing, law enforcement and inspection were announced by the Governor.

The chief function of the Committee is to plan programs that will reach to all corners of the Commonwealth. For instance, the kit of traffic safety program materials, distributed during the present year, reached no less than 1700 safety-minded persons who have promised to de-

velop traffic safety programs locally. The Service and Veterans groups have been particularly helpful in this respect and many other organizations too numerous to mention have taken part in the program. One of the by-products, and certainly an important one, has been the tremendous decrease in pedestrian deaths during the present year. The Commonwealth has awarded a considerable number of certificates to communities which have gone three or four consecutive years without a traffic death.

Pennsylvania Athletic Commission

The Pennsylvania Athletic Commission supervised 2,618 boxing and wrestling shows during Governor Duff's Administration, including eight World Championship fights.

The rules and regulations of the Commission have been copied by the Commissions of many other States.

Respectfully submitted

OTTO F. MESSNER,
Secretary of Revenue.

COMMONWEALTH OF PENNSYLVANIA
DEPARTMENT OF PUBLIC ASSISTANCE

HARRISBURG

December 1, 1950.

Dear Governor Duff:

For your report to the Legislature I submit the following, as requested in your letter of November 21:

During the last four years the major objective of the Department has been to improve the quality and effectiveness of its administration. Our principal accomplishments have been:

The objectives and scope of the work and the responsibility of the Department have been more clearly defined.

Regulations and procedure have been reviewed and rewritten to make them as simple, clear and precise as possible.

Contacts with the County Boards of Assistance have been much more frequent than formerly in order to secure a better understanding of State policies, and also, of local conditions between the State Office and the local lay Boards.

The responsibility of relatives for the care of their needy kin and the necessity of assistance applicants actively seeking and holding employment have been emphasized particularly during the last year.

Auditors from the State accounting office of the Department have made frequent checks in the county offices on the eligibility of assistance recipients in addition to the check made by the Auditor General's Department.

Legal prosecutions have been instituted wherever fraud was discovered.

Frequent meetings of the County Executive Directors have been held to promote uniformity and application of regulations and practices.

The staff has been stabilized throughout by appointments from civil service lists and examinations have been given, thus replacing temporary war-time and emergency appointments.

A State-wide training course for Visitors and other personnel has been developed and a start has been made toward putting it into effect.

The level of assistance grants has been changed several times during the four years as changes occurred in the various factors entering into the cost of living.

The number of persons receiving assistance over the four years show that 1947 and 1948 were reasonably close to each other. During 1949 and the first three months of 1950 there was a fairly steady increase due to decreasing employment. This was partly from general economic conditions, partly from the strike in the steel industry and partly from the unsettled conditions which prevailed for many months in the coal mining areas. Since March 1950 there has been a gratifying decrease which is still continuing.

The tabulation below shows the cost per capita of total population on assistance in all the states of the Union together with source of funds. This shows that Pennsylvania is in a conservative midposition.

Biennial Total Net Expenditures* For Public Assistance

	Total	State Funds	Federal Funds	State Appropriations
1943-45	\$124,804,152	\$ 82,862,428	\$ 41,941,724	\$ 89,232,000
1945-47	163,466,763	110,425,323	53,041,440	111,620,000
1947-49	227,036,433	148,107,722**	78,928,711	146,475,000
to Date				
1949-51	217,500,000	146,300,000	71,200,000

(17 Mos.) to 10-31-50

Est. for

full

bienn-

ium ..

300,560,000 198,200,000 102,360,00 186,100,000

* Gross Expenditures Minus Restitution and Reimbursement Collections.

** Includes approximately \$1,600,000 committed for medical care and burials prior to June 1949 but paid out of 1949-51 appropriation.

During the last two years the Joint State Government Commission has made an intensive review of Pennsylvania's public assistance program. This outside investigation of the Department by the body that writes the laws under which the Department operates should be most valuable in planning the future of the program.

Respectfully submitted,

FRANK A. ROBBINS, JR.,
Secretary.

COMMONWEALTH OF PENNSYLVANIA
STATE TAX EQUALIZATION BOARD

HARRISBURG

November 30, 1950.

Dear Governor Duff:

I have the pleasure of submitting a report of the activities of the State Tax Equalization Board during your Administration.

In addition to the Report of Activities, we have attached a supplement Report of Advisory activities, as provided in Section 16 of Act No. 447 of 1947.

Board Members Kress and Kaestner join me in the highest commendation to you for your courage in sponsoring an Equalization Program in Pennsylvania. It has been a step long needed, and we have every assurance that the ultimate results will reflect credit to you and to the Commonwealth.

Creation and Purpose of Board

The creation of the State Tax Equalization Board represents the culmination of a quarter of century of effort to establish an equitable and economical system from the distribution of Commonwealth subsidies in support of public schools.

To ensure the equitable distribution of these subsidies, the General Assembly passed a bill in 1947 which created the State Tax Equalization Board. Act No. 447 of 1947 directs the State Tax Equalization Board to determine annually the market value of the assessed taxable real property in each of the 2531 school districts of the Commonwealth.

On or before July 1, each year, the market values determined by the Board are certified to the Superintendent of Public Instruction, who is now required to use market values instead of assessed valuations in the allocation of school subsidies. The subsidy appropriation for the biennium 1949-1951 is approximately \$220,000,000.

Prior to the passage of Act No. 447 assessed valuation were used as a measure of local taxing capacity to support local public school programs. However, by virtue of

the wide variety of assessment practices, assessed valuations are not adequate measures of local financial capacity. The use of assessed valuations as a factor in the determination of Commonwealth school subsidies benefited districts with low assessed valuations at the expense of districts with more realistic assessed valuations.

Determination of Market Value

Under the provisions of Section 8 of Act 447, the Board has accumulated and compiled data showing the prices at which more than 500,000 parcels of real property in the Commonwealth have been sold between July 1947 and July 1950.

Analysis of the characteristics of properties by types in each school district is prerequisite to the determination of aggregate market values. To obtain this information and keep it current requires the continual processing and analyzing of local assessment records covering approximately 3,500,000 parcels of real property.

The analysis of the number of parcels of real property, the wide diversification of types of property, and the variation in assessment records and procedures requires the services of technical personnel. In many cases the analysis cannot be completed without personal inspection of properties.

In connection with the determination of the market values by the Board, a trained and experienced staff of approximately 50 has been utilized in the accumulation and analysis of the data.

Market Value Certifications

The total market value of all assessed taxable real property in Pennsylvania, as certified to the Superintendent of Public Instruction, June 1, 1949, was \$22,381,745,325. The total local assessed valuation of the same property was \$8,711,100,068.

The second annual certification made by the Board, June 30, 1950, showed a total market value of \$22,925,531,078. The total local assessed valuation was \$9,128,917,561, or an average assessment ratio of 39.82 per cent. While the State average is 39.82 per cent, among the school districts assessment ratios range from 13 per cent to 70 per cent of market value.

Accomplishments

In addition to the determination of market values which ensure equitable distributions of Commonwealth school subsidies, the findings of the Board are invaluable in the solution of other governmental problems—both State and local.

1. The findings of the Board make possible a realistic comparison of tax burdens of groups and in the subdivisions within the Commonwealth.
2. For the first time in the history of Pennsylvania a reliable yardstick has been made available to measure the local taxpaying capacity. This measure provides the General Assembly and the Governor with a tool for rearranging all State and local fiscal relations, if they elect to do so.

Report of Advisory Activities 1947-1950

In addition to operating activities, the Board also acts in an advisory capacity to the Superintendent of Public Instruction in connection with requests for Special Aid to so-called distressed school districts. However, the advice of the Board is not binding upon the Superintendent of Public Instruction, whose Department has control over the appropriation for this purpose, and therefore makes the grants.

During the period, 1947-1950, the Board has investigated requests for Special Aid from more than 300 districts. In each case the Board has made recommendations to the Superintendent of Public Instruction. The investigations of the Board have disclosed the following:

1. Inadequacy of real property assessments.

2. Inefficient collection of taxes.
3. Failure to utilize permissive sources of revenue.

Respectfully submitted,

STATE TAX EQUALIZATION BOARD
PAUL C. KAESTNER,
WALTER J. KRESS,
JOHN N. O'NEIL,
Chairman.

COMMONWEALTH OF PENNSYLVANIA
STATE CIVIL SERVICE COMMISSION

HARRISBURG

December 7, 1950.

Dear Governor Duff:

The following is a report of activities of the State Civil Service Commission for the period January 1947 to December 1950:

Up to June, 1947, the State Civil Service Commission operated under war-time laws and conducted a continuous recruitment program to fill jobs on a war-duration basis.

In June, 1947, the General Assembly repealed the war-time legislation and opened the way for the appointment of employees on a permanent basis through competitive examinations.

This transition period presented many problems for the Commission including recruitment, classification, and the inauguration of a vast postwar testing program which is now 60 per cent completed.

In January, 1947, approximately 14,000 employees were under Civil Service. During the subsequent four years, three agencies, the Board of Parole, the Division of Homes and Hospitals and the Division of Mental Health Services of the Welfare Department came under Civil Service, but the total number of employees has not materially changed.

Approximately 70,727 Pennsylvanians submitted a total of 167,000 applications for 172 job classifications tested for during this period. Actually, 102,378 written tests were administered by the State Civil Service Commission to those who filed applications in 30 separate examination programs. A total of 8,742 oral interview ratings and 25,290 performance tests were given to qualified candidates.

In order to facilitate State Civil Service Commission activities an Executive Director was appointed by the Commission in September, 1950. He is now formulating plans for the acceleration of the Commission's future testing programs.

Respectfully submitted,

HOWELL M. BECHT,
Executive Director, Civil Service Commission.

COMMONWEALTH OF PENNSYLVANIA
MILITARY AND CIVIL DEFENSE COMMISSION

HARRISBURG

November 30, 1950.

Dear Governor Duff:

The Military and Civil Defense Commission for Pennsylvania was established by Executive Order on 12 August 1950. This action was taken in view of the importance to a national war effort of the industries in Pennsylvania and the coastal vulnerability of the State, with the implications of the war in Korea as the immediate precipitating factor. Named as Chairman of the Commission, and simultaneously recommended for promotion to the rank of Major General, with immediate approval of the Department of the Army, was Brigadier General Richard K. Mellon, who served as Director of the Commonwealth's Selective Service system during World War II.

Prior planning had begun with the Pennsylvania Committee for Civilian Defense, appointed by the Governor in December 1949. This Committee, in cooperation with

the Eastern Defense Command, U. S. Air Force, undertook the organization of a system of Air Ground Observers posts throughout the State. At its recommendation, an eight-divisional plan for the organization of Civil Defense at the County and Local level was adopted.

In order to implement the plan, the Governor, acting on the Committee's recommendation, on 4 May 1950, issued invitations to the President Judges of the 67 Counties in the State, requesting them to accept appointment as County Coordinators of Civil Defense. The response was prompt and spirited. Today, the President Judge of 45 Counties are serving as Coordinators in addition to their judicial duties. A general conference of the County Coordinators and members of the respective defense councils was held in mid-July at the Indiantown Gap Military Reservation. Preliminary plans for organization of Civil Defense at the County and local levels were discussed by the Honorable Vincent A. Carroll of Philadelphia, Chairman of the Pennsylvania Committee for Civilian Defense, together with members of the committee and staff representatives.

This was the background against which the Military and Civil Defense Commission assumed its duties.

Defense Program

Very shortly after accepting the chairmanship, General Mellon conferred with Judge Carroll and submitted his concept of its mission, which the Committee approved. Following, in brief summary, are the essentials of that mission:

1. To provide guidance and aid in planning local Civil Defense operations through the medium of the County Coordinators.
2. To plan and carry out Civil Defense activities involving areas larger than those coming under County jurisdiction.
3. To provide interstate liaison and coordination, including the submission of recommendations to the Governor, Attorney General, and the legislature on the framing and enactment of legislation authorizing agreements with neighboring states.
4. To maintain a constant liaison with such agencies as the National Security Resources Board and the Department of Defense, in order that State procedure may follow Federal policy at all points in the program.
5. To keep County and municipal defense officials continuously and authoritatively informed on all aspects of military and civil defense activity.
6. To issue bulletins, manuals, pamphlets, and other materials as means of fulfilling the information function.
7. To provide training for defense workers as the need arises.

Defense Director

Following conferences in Harrisburg, Pittsburgh, and Washington, organization of the Commission was initiated with the appointment as Director of Alton C. Miller, Colonel, U. S. A. (Res.), a native of Allentown, Pennsylvania, and a graduate of Pennsylvania State College in the class of 1926. As background for State planning, Colonel Miller has participated in every official study of the problem during the past six years. He collaborated on the writing of UNITED STATES CIVIL DEFENSE, published in September 1950 by the National Security Resources Board, and worked with representatives of NSRB in helping Chicago defense officials to set up the Chicago civil defense test exercise, which was one of the pioneer demonstrations of its kind.

Immediately upon assuming his duties, Colonel Miller secured offices in Harrisburg, Pittsburgh, and Philadelphia, and arrangements were made for operating funds pending action by the 1951 legislature. A tentative organizational chart was drawn up in accordance with the suggested model State organization recommended in UNITED STATES CIVIL DEFENSE. As of 1 December 1950, 12 full-time and 8 part-time employees had been recruited.

Primary Objectives

Colonel Miller, after accepting the Directorship of the Commission, defined its mission thus: "To assist in bringing a war to a successful conclusion with a minimum of impact upon our population, our economy, and our industries." The initial emphasis was upon three major objectives.

1. Public Affairs—a program to keep the public of the Commonwealth continuously and fully informed on:
 - a. What Civil Defense can do to minimize the effects of enemy attack;
 - b. What is being done at every stage of the developing program;
 - c. What each individual citizen can do to further the objective.
2. Plant Protection—a program comprising all the steps necessary to protect the operating plant (that is, the productive facilities of the Commonwealth and their vital supporting auxiliaries and services) from the effects of enemy action, whether internal by means of sabotage, or external by means of armed attack.
3. Air-Raid Warning—a system of communications and signals to permit the rapid and orderly mobilization of Civil Defense forces in anticipation of enemy action, and to alert the general public.

All three of these initial objectives are being vigorously pursued. A plant protection manual in draft form is being printed and will be released shortly; an active public affairs program is taking shape; and an air-raid warning system is under intensive study and will be publicized in the form of a manual after coordination with the United States Air Force and the office of the Secretary of Defense.

Planning For The Future

Paralleling these primary objectives, active planning programs either have been or are about to be undertaken in the important fields of emergency welfare services, medical and health services, and training of service personnel. A working committee of leading medical authorities of the Commonwealth will shortly undertake the preparation of a plan to be recommended to the Commission for utilization of medical manpower and resources.

Welfare services are being organized by a coordinator serving on the Commission, with the County as the key operating unit and the State acting as the integrating agency for the work of the various government departments and private organizations concerned. The most significant effort in this field is the program for training of nurses in medical treatment of casualties resulting from atomic warfare, which began in mid-November with the attendance of five Pennsylvania nurses at the first regional training course held under NSRB auspices at Rochester, New York. Early in 1951, these five nurses will begin instruction of one hundred additional trainees, as the second step in recruiting a full corps of specially trained nurses for emergency atomic duty.

The Military and Civil Defense Commission is fully cognizant that, although the State is charged with grave responsibilities in providing guidance and advice to Counties, municipalities, and other governmental subdivisions, the success of Civil Defense both in organization and operation depends upon the initiative, the energy, and the hard work of the men and women of the Commonwealth. For this reason, a continuous and mutually helpful interchange of ideas and information between the Commission and the Counties is of vital importance.

To this end, a conference of County Coordinators and other Civil Defense officials was held in Harrisburg on 16 November 1950, with the general objective of clarifying and unifying policy during the current organization phase. Federal, State, and local Civil Defense plans were outlined by representatives of each level, and problems common to all levels were discussed by authorities in the respective fields. Distributed to all who attended the meeting were copies of a leaflet prepared by the Commission, entitled CIVIL DEFENSE PLANNING FOR YOUR SUR-

VIVIAL, an NSRB pamphlet, SURVIVAL UNDER ATOMIC ATTACK, and the Bantam book by Dr. Richard Gerstell, HOW TO SURVIVE AN ATOMIC BOMB. Additional material, originated both by the Commission and by other sources, will be supplied in a steadily increasing volume.

The presence of more than seven hundred persons at the November conference and the large number of thoughtful questions submitted by them to the Commission both before and since the meeting testify to the seriousness with which local responsibility has been assumed throughout the Commonwealth. Further action in cementing this liaison between State and Counties was the appointment as Philadelphia Area Deputy of Colonel Baldwin B. Smith, who will serve as coordinator for the area in assisting municipal and County officials with the Civil Defense test exercise scheduled for February 1951.

This demonstration is the result of informal conferences between General Mellon, Colonel Miller, and representatives of the Philadelphia Civil Defense Council following the exercise in Chicago last September. It was agreed that a similar test should be arranged for Philadelphia, transportation and nerve centre of the huge Delaware Basin industrial area. Accordingly, a hypothetical "paper" attack, written by Colonel Irl Brent of the National Security Resources Board, will be delivered to Mayor Bernard Samuel on 13 February 1951, and a three-day critique will follow, beginning 5 March. This will be the first such exercise planned exclusively by a municipality with State assistance. It will undoubtedly be of value in organizing realistic Civil Defense plans for other areas of the State, notably the great Western Pennsylvania industrial area centered in Pittsburgh.

Defense Budget

The Military and Civil Defense Commission has prepared a working budget for the 1951-53 biennium, as a basis for estimates which will be submitted to the legislature in January. This includes a fund for planning and preparation during the next two years, and an additional sum for supplies and operations in the event of war before the end of the biennium.

In preparing recommendations for enabling legislation, the guiding principle has been that Civil Defense is now an organic function of government, rather than a responsibility assumed only under pressure of emergency and relinquished as soon as the threat appears to be withdrawn. The aim therefore is to provide a firm base for long-range Civil Defense planning over a period of indefinite duration.

Conclusion

A sound, orderly, and well-matured beginning has been made. In the opinion of the Commission, an effective program for Civil Defense demands the most solidly constructed organization that can possibly be assembled within the limits imposed by urgency. Failure to meet this initial requirement would inevitably lead to duplication of effort, overlapping authority, and irrevocable waste both of material equipment and of human energies.

The task ahead is enormous. To minimize the amount of organization, recruitment, and training lying almost wholly in the future would be worse than folly, particularly in view of the fact that fifty-one separate Civil Defense services and activities, of which, for example, Plant Protection is only one, must be considered. Only by full use of all available resources can it be successfully completed, nor will this be possible without the closest cooperation between government agencies at all levels, the active support of every man, woman, and child in the Commonwealth, and the general acceptance of education for survival as a function of citizenship.

Respectfully submitted,

MAJOR GENERAL RICHARD K. MELLON,
Commanding, Military and Civil Defense.

COMMONWEALTH OF PENNSYLVANIA HISTORICAL AND MUSEUM COMMISSION

HARRISBURG

November 27, 1950.

Dear Governor Duff:

During the four years of this administration, the activities of the Pennsylvania Historical and Museum Commission in conserving Pennsylvania's historical heritage and in promoting an appreciation and understanding of this heritage were greatly expanded. You who had previously been chairman of the Commission, re-appointed your former colleagues, naming Charles J. Biddle as chairman, and appointed Dr. John W. Oliver, of Pittsburg, to fill the vacancy caused by your own elevation to the governorship.

The twelve historic properties administered by the Commission were increased to fourteen during the period, with the acquisition of Warrior's Run Church at Watsontown, Northumberland County, and of Fort Le Boeuf Memorial at Waterford, Erie County. The Commission has conducted a program to make all the properties more attractive and authentic. Competent architects were engaged to plan and direct the restoration and development of several properties, and suitable interior furnishings and decorations have been provided, wherever possible. That people are interested in these historic shrines is demonstrated by the fact that more than 300,000 people visited them in 1949.

Historical Markers

The new roadside historic markers, placed along the highways of the Commonwealth during the past four years, point out to the travelers through historic Pennsylvania the spots which are significant to its history. More than 900 of these eye-catching blue and gold markers are now in place, to make history vivid and real to the people of the State and to her visitors.

In the selection of events and places to be marked, the suggestions of individuals and societies versed in local history have been welcomed. The choice of site and the placing of the markers has benefited by the cooperation of the Department of Highways. To aid interested motorists, the Commission prepared and published a Guide to the Historical Markers, which locates the markers by counties and highway routes and reproduces their texts. Recently, a beginning has been made in the marking of historic sites within cities and towns, for which a new type of marker has been designed.

State Museum

During the same period, the Pennsylvania State Museum has been transformed into a new and modern institution. The task of revitalizing the Museum has involved the installation of modern lighting, the replacing of old-style display cases with the best obtainable, and an emphasis on dioramas and displays that "tell a story."

Collections accumulated indiscriminately in previous years have been carefully sifted, storerooms have been cleaned and made usable, and waste space has been utilized. A well-equipped photographic darkroom is a recent addition.

Among other valuable exhibits, Pennsylvania's most important documents, including William Penn's charter from King Charles II, the frames of government and the constitutions, have been sealed in plexiglass and installed in specially-built cases. In the Hall of Trophies the battle flags carried by Pennsylvania units stand unfurled in hermetically sealed cases, and paintings and dioramas picture outstanding military and naval engagements. Other rooms feature transportation, folk history and culture, and the ways of Indian life.

Division of Public Records

The Commission's Division of Public Records, a repository indispensable to any person doing research in Pennsylvania history, has been developing a program designed to make it a true public records agency, servicing the

State offices now being crowded by their non-current files, and assisting them in classifying and disposing of records no longer needed for the transaction of current business.

A set of standards is being evolved for selecting records of permanent or historical value from those to be destroyed. Materials now in the custody of the Division have been classified and catalogued to make them more accessible and useful. As an additional service, the Public Records Division in 1949 issued a Guide to the Published Archives of Pennsylvania, in order to provide a key to the treasures in the 138 volumes of the printed Colonial Records and Pennsylvania Archives.

Historical Research

A broad program of historical research was launched in the Commission's Historical Division, to develop more fully and make available the materials for Pennsylvania history. Many of the records and sources which are essential to a complete history of the State were gathered by microfilm and photostat; more than a million pages of source material, manuscript documents and early newspapers, were thus reproduced from depositories as far afield as New York, Ann Arbor, Michigan, Chicago, Illinois, and Quebec, Canada, as well as from individuals and organizations within the State.

Photostats of more than 500 maps relating to Pennsylvania were gathered from an equally wide area. The result has been the creation of a storehouse of historical information in such great volume that it will undoubtedly require many years for it to be assimilated and worked into the historical literature of Pennsylvania. The Commission's research collections are now recognized as a leading depository of an extensive range of sources by an increasing number of students of Pennsylvania history.

These materials have, in part, already been utilized in the preparation of popular and scholarly studies under Commission auspices. The Commission has sponsored studies on Indian paths, early exploration, agriculture, canals, politics, art and architecture, land policy, and literature, as well as a revision of the famous report on the Frontier Forts of Pennsylvania, all based to some extent on the new research collections.

In publishing historical material, the Commission has followed the two-fold policy of issuing popular accounts of Pennsylvania history for the schools and the general public, and at the same time, of making available the most recent products of serious research in specialized fields of study. The basic facts of State history have been provided for the classroom and the general reader in a series of pamphlets, folders and mimeographed releases. The most popular of the pamphlets were Pennsylvania History in Outline and Conserving Pennsylvania's Historical Heritage. Such topics as the canals, Stephen Foster, Anthony Wayne, and the fight for free schools are discussed in brief articles in the new Historic Pennsylvania Leaflet Series.

Research Publications

A number of important research publications were also issued during this administration. Invaluable aid to research is to be found in Writings on Pennsylvania History, a comprehensive bibliography, and in County Government and Archives in Pennsylvania, a guide to the records and functioning of county offices, which has proved useful to county officials, as well as to historians.

Studies on various aspects of State history included Pennsylvania Petroleum: A Documentary History, Philadelphia-Baltimore Trade Rivalry, The Nanticoke Indians, Republicans and Federalists in Pennsylvania, Pennsylvania Agriculture and Country Life, and The Building of Perry's Fleet.

A volume of The Papers of Henry Bouquet covering the Forbes expedition of 1758 will soon appear, as well as a work on the early economic development of Pittsburgh. With these publications, together with the numerous pamphlets and folders, the Commission has made available to teachers, scholars and the interested public a tremendous quantity of significant literature on Penn-

sylvania history. Each year about 75,000 books, pamphlets and folders have been sent out.

Archaeological Program

The archaeological program, to gather information regarding Pennsylvania's first inhabitants, made progress with the excavation of a number of sites in central Pennsylvania, and with the sorting and classification of the Indian specimens in the Museum collections. A new folklore program was also instituted, to gather the oral or legendary sources of history embraced in tradition and folklore.

Organizational Changes

At the same time its activities expanded, the Commission made changes and improvements in the organization of its offices and staff, functionalizing its work by the creation of definite divisions—Executive, Properties, Historical, Public Records, Museum, and Folklore; establishing a reference library for its staff; improving and modernizing its offices; and eliminating activities not closely related to its principal interests.

The 1947 session of the General Assembly broadly defined the nature of the Pennsylvania Historical and Museum Commission as "the official agency of the Commonwealth for the conservation of Pennsylvania's historical heritage," thus giving a coherent meaning to all its previously granted powers and duties. By its accomplishments in improving the historic properties and the State Museum, in modernizing the Public Records program, in creating a rich storehouse of sources for Pennsylvania history, and in publicizing history with modern historical markers and with worthwhile publications, the Commission has indeed met the challenge of this new designation.

Respectfully submitted,

DONALD A. CADZOW,

Executive Director,

Pennsylvania Historical and Museum Commission.

COMMONWEALTH OF PENNSYLVANIA PENNSYLVANIA FISH COMMISSION

HARRISBURG

November 28, 1950.

Dear Governor Duff:

During your administration much important work was completed at the various hatcheries, which will greatly increase production; the warden service was greatly strengthened by the appointment of a Chief Enforcement Officer; several amendments to the Fish Laws were enacted which will mean much to the future fishing in Pennsylvania, and you also approved a re-classification of all Fish Commission employes, which has resulted in keeping the operations of the Commission on a high level.

The following is a brief summary of the outstanding accomplishments having to do with the various activities of the Commission:

Fish Distribution

Distribution of sizeable fish has been on the increase during the last few years; the following distribution of large fish was made in 1949:

Brook, Brown and Rainbow Trout	2,150,023
Black Bass	599,497
Catfish	373,531
Bream	584,306

This shows an increase over 1947 of 100,000 large trout, and the output of sunfish, catfish, etc., has been doubled which means that the fishing for the masses has been greatly increased. The program adopted by the Commission will mean a large distribution of these species for the waters which are available to public fishing. The overall picture shows that in 1947 over 169,000,000 fish of all

species were distributed compared with 330,000,000 in 1949, an increase of over 160,000,000.

Hatchery expansion has been extended, and the Pymatuning Hatchery in northwestern Pennsylvania, which has been in the process of construction, is practically completed, and will be the largest source of supply of warm water species under the control of the Commission. This is one of the largest warm water fish hatcheries in the United States.

Fish Management

The fish management program, which was inaugurated in 1947, is showing real progress and the results are most promising. The first assignments have been on lake and pond areas in northwestern and northeastern Pennsylvania. As road equipment, the management unit has a 28-foot mobile laboratory, a one-ton panel truck and a passenger car. Reports on the results accomplished have been made available to fishermen through the medium of the PENNSYLVANIA ANGLER.

The protection service has been headed by a Chief Enforcement Officer. This has shown definite improvement in the work of the men, and it is expected Division Supervisors will be appointed by the first of the year, which will be an added control on operation.

The survey of fishing water has been stepped up by taking this function from the protection service, and transferring it to the various hatchery units. This will mean that prompt service can be given requests for surveys, which will be made by well trained men appointed from the hatcheries and field service. We believe this a change which will be welcomed by the fishermen and by the sportsmen's clubs.

Under the provisions of Act Number 180, which became effective April 25, 1949, the former Board of Fish Commissioners is now known as the Pennsylvania Fish Commission consisting of eight competent citizens of the State, and an Executive Director.

The members of the Commission are persons well informed on the subject of conservation and restoration, and, except in the case of the original members, hold office for terms of eight years each, receiving no compensation for their service. Prior to the expiration of the terms of office of the various original members, appointments shall be insofar as practicable, from the various geographic districts of the Commonwealth. This legislation has the approval of the sportsmen's clubs, and the fishermen as a whole.

License Fees

The fishing license was increased from \$1.50 to \$2.00, twenty-five cents (25c) of which is to be used for:

- (a) the acquisition of land and fishing waters;
- (b) the rebuilding of torn out dams;
- (c) the study of problems related to better fishing.

The accumulation in the fund at the present time is approximately \$250,000.

Location for a lake has been purchased in southwestern Pennsylvania and work should be well under way next year. Orders have been issued for the reconstruction of the dams at Newville, Cumberland County, Reinings Pond, Wayne County, and Duman's Dam, Cambria County, all of which will be owned by the fishermen. These improvements will not only increase the fishing, but also the area of the dams.

The stream acquisition program is definitely under way and at the present time several employees are working on ten of the better known streams located throughout the Commonwealth. It is hoped it will be possible to secure sufficient mileage on these streams to make it worthwhile to secure easements and turn over to the fishermen as permanent fishing grounds. Most of these areas will be under what is known as perpetual easements and will include sufficient land on each side of the stream for the fishermen and locations of ingress and egress at points which will be designated by the land owner.

Other Improvements

The Fish Law was amended prohibiting fishing between the fourteenth (14) day of March and five o'clock antemeridian on the fifteenth (15) day of April in any year. This amendment will mean much to future fishing. It is one of the first real conservation measures passed affecting the Fish Commission.

The Commission has cooperated with the various Soil Conservation Districts. We believe this program should have every assistance. In some counties, considerable improvement has been found in streams which have definitely cleared up under this program.

The Clean Stream Program, which is so vital to the fishermen of the Commonwealth, has shown more real progress than at any time in its history. The Fish Commission's Field Force was given instructions to cooperate in every way possible, and our men have made hundreds of investigations of pollutions, covering both industrial wastes and mine stripping operations.

Sweeping orders have been issued by the Sanitary Water Board demanding that the various industries and municipalities polluting our waters do something about it. The Fish Commission is pleased to report that many cases of pollution of great interest to the fishermen have been satisfactorily adjusted or completely corrected.

Respectfully submitted,

C. A. FRENCH,
Executive Director, Fish Commission.

COMMONWEALTH OF PENNSYLVANIA PENNSYLVANIA TURNPIKE COMMISSION

HARRISBURG

November 29, 1950.

Dear Governor Duff:

I am pleased to submit herewith a brief report of the Pennsylvania Turnpike Commission emphasizing the outstanding accomplishments during the period of your Administration as requested in your general bulletin dated November 21, 1950.

Original Turnpike

Operation of the original 160 mile Turnpike between Irwin and Middlesex was carried on throughout your Administration with continuing success. The total number of fare paying vehicles of all classes using the facility during the last fiscal year period ending May 31, 1950, increased 10% over that of the preceding year 1949, and 26% over the same period in 1948. Total Revenue from fares for the period ending May 31, 1950, showed an increase of \$1,215,363.58, an increase of approximately 20% over 1949 and 48% over the Fare Revenue for 1948. By following a complete program of repairs and replacements it has been possible to maintain the physical elements of the facility in excellent condition showing very little effect of ten years of usage.

During the ten year period of operation 23,919,668 vehicles of all classes used the Turnpike. Of this total 78.1% were Passenger Cars, while Trucks and Combinations contributed 20.8% of the total traffic. The remainder or 1.1% represents Bus Traffic. Total Fare Revenue of all vehicles using the Turnpike during this period was approximately \$39,674,095.27 representing 2,255,353,168 miles of vehicle travel.

Philadelphia Extension

One of the most outstanding contributions during the period of your Administration was the completion of the Philadelphia Extension of the Pennsylvania Turnpike. This Extension of 100 miles of express-type highway was authorized by Legislature Act No. 11 of May 16, 1940. It was your direction, however, which made it possible to begin the construction of this extension September 28, 1948. In a record breaking construction program, which overcame serious obstacles of unfavorable weather con-

ditions and scarcity of some materials, in slightly more than two years the highway was opened to traffic at 7:00 A. M. November 20, 1950.

The opening, in spite of a severe rainstorm, was greeted by the use of 3,837 vehicles with a fare revenue of \$5,-910.08 in a seventeen hour period which represented the first day of use, as compared with 4,327 vehicles and a revenue of \$2,969.00 for the original Turnpike in a twenty-four hour period in its first day of operation.

With weather clearance the second day's total for the Philadelphia Extension was 4,392 vehicles with a revenue of \$8,058.37. The second day totals of the original roadway was 4,906 vehicles using the facility with a fare revenue of \$4,800.05. The foregoing indicates the popularity of this new unit and gives reason to anticipate a remarkable response from the public to its use.

The completion of the Philadelphia Extension makes possible to the traveling public 260 miles of highway free of traffic lights and intersecting traffic beginning at Irwin, 15 miles east of the Pittsburgh City Line, extending to King of Prussia, 7 miles west of the City limits of Philadelphia. By it the traveling time between these two great metropolitan centers of our Commonwealth will be reduced from three to seven hours depending on the type of vehicle used.

This new addition to the Pennsylvania Turnpike System was built at a cost of approximately \$87,000,000. Not one cent of tax money was used in the building of this new highway. It was financed by Revenue Bonds which will be redeemed from income derived from its use. It is estimated that this extension will be used by two and one half million vehicles the first year of operation.

Western Extension

Simultaneously with the construction of the Philadelphia Extension work has gone forward toward the completion of the Western Extension of the Pennsylvania Turnpike. This project when completed will give to the Commonwealth a Turnpike System which will extend from border to border across the state a distance of 327 miles, slightly more than one-eighth the distance from New York City to San Francisco. By this addition it is felt that the foundation will be laid for a system of super-highways which eventually will span the entire country.

The western extension consisting of 67 miles of roadway from Irwin, the present terminus of the Turnpike, to the Ohio Line immediately east of Petersburg, Ohio, approximately 18 miles south of Youngstown was authorized by Legislative Act No. 10, dated April 15, 1941. Work commenced on this project October 24, 1949. To date all contracts numbering twenty-eight, including two bridges and three viaducts, have been awarded. It can be proudly reported that at this time construction of this project is 40% completed. The final completion is anticipated the latter part of September 1951, barring unforeseen delays which may arise beyond the control of the Commission.

Again, attention is directed to the fact that not a single cent of tax money is involved in the financing of this project. The estimated cost of \$77,500,000 is financed by Revenue Bonds which will be redeemed from income derived from its use.

It is only fitting to pause at this moment to call attention to the tremendous value of the Turnpike System which your Administration has made a reality. It is an efficient arterial medium for serving Pennsylvania's industries and rich agriculture. It is a gateway to our Commonwealth's great treasure of historic sites and shrines. It is an avenue which leads to a wealth of scenic beauties and pleasures afforded by mountains, valleys, streams and lakes. It stands as a proven transportation artery in case of national emergency.

So great has the influence of the Pennsylvania Turnpike System become and so well recognized has its advantages been realized that it is now a model which is being used by other states throughout the nation. This is proven by the many projects in Turnpike Construction which are now under way or being considered by other state governments.

You may be assured that this Commission is greatly appreciative of the tremendous help you were in the realization of their attainments of these past four years. Your interest in its activities has been helpful and inspirational to us.

Respectfully submitted,

T. J. EVANS,
Chairman, Pennsylvania Turnpike Commission.

COMMONWEALTH OF PENNSYLVANIA BOARD OF PAROLE

HARRISBURG

November 30, 1950.

Dear Governor Duff:

We are submitting the following report of the activities of the Pennsylvania Board of Parole during the four years of your Administration.

Last year the Pennsylvania Board of Parole had the honor to be recommended by the National Probation and Parole Association as having one of the best parole systems in the United States, as a result of which PARADE magazine (national circulation 11,000,000 through 800 Sunday newspapers) carried a feature story about our work in its issue of March 13, 1949.

The prestige of this Board was further recognized (1) by the appointment of its Chairman to the Board of Trustees of the National Probation and Parole Association; (2) by the many calls made upon staff members to participate in the programs of State and National conferences and in-service training institutes both at home and in other States and to contribute articles to professional publications, most notably the 1949 ENCYCLOPEDIA OF CRIMINOLOGY, for which our Superintendent of Parole Supervision wrote the chapter on Parole; and (3) numerous requests received from other States for our PAROLE AGENT'S MANUAL just being completed by our Superintendent.

A better public understanding of parole and a helpful interest in behalf of parolees on the part of service clubs and responsible citizens and employers have been developed, as well as a more cordial and cooperative relationship with the local law-enforcement agencies of the State through the Pennsylvania Chiefs of Police Association. Increasing confidence of the courts, also, has been noted in their growing cooperation and in their tendency to certify more probation cases to us for supervision.

These advancements in public relations have been accomplished by a record of achievement reflected in the successful adjustment of approximately 85% of Pennsylvania parolees under our supervision, and by a plan of public education through the media of the personal approach of staff members to individuals and organizations, sponsored radio programs, and the press. A constructive contribution was made by THE PHILADELPHIA INQUIRER in 1947 by its publication and reprinting of a series of articles written about our parole system after intensive study by one of the INQUIRER'S prominent staff reporters.

During the past four years, the Board considered a total of more than 12,000 applications for parole and reparole, or an average of approximately 254 per month, in addition to many hundreds of cases presented for consideration of such special matters as parole violation, final discharge, parole plans, etc.

Nearly 3000 parolees have served in the armed forces of the United States during the seven-year-life of the present parole system as a result of an arrangement consummated by this Board with the military authorities. Of this number, only 4% have received dishonorable discharges, making them subject to return as parole violators.

The economy of our parole system is reflected in the fact that the average total cost of maintaining an individual on parole for a year is approximately \$100 compared with an average annual cost of nearly \$900, exclusive of plant investments, for the institutional care of

State prisoners. Also, the yearly earnings of over \$6,000,000 by our parolees has relieved the taxpayers of the Commonwealth of the support of a large number of families who, with their breadwinners incarcerated, would be dependent upon public assistance.

In short, it may be said that the record of the Pennsylvania Board of Parole during the past four years has been one of general progress, and that under its administration parole in Pennsylvania has "come of age" as an instrument of human salvage and governmental thrift and effectively woven itself into the social and economic fabric of the Commonwealth.

Respectfully submitted,

H. C. HILL,
Chairman, Board of Parole.

COMMONWEALTH OF PENNSYLVANIA
PENNSYLVANIA PUBLIC UTILITY COMMISSION

HARRISBURG

November 30, 1950.

Dear Governor Duff:

Following the general economic pattern, the four years of your administration of the affairs of the Commonwealth reflected the transition of public utilities from war to post-war status. During these four years public utilities experienced their largest plant expansion in history to meet unprecedented demands of the public for their services. In many cases, public utilities more than doubled plant and facilities existing at the end of World War II. The only exception was that of transportation companies, whose revenues steadily declined, largely, it is believed, by the lifting of war-time restrictions on private automobiles and automotive supplies.

The tremendous construction programs of public utilities had added significance in that material and labor prices were the highest in history. Thus, although revenues of public utilities increased, the costs of furnishing service advanced at a more rapid pace culminating, in many cases, in increased rates filed with the Commission.

All these things had a marked effect upon almost every phase of Commission activities during the four years. To obtain funds for plant costs, public utilities issued more than one-half billion dollars of their securities. An additional \$275 million of securities were also issued by the utilities, principally for refinancing purposes to take advantage of low money costs. These financial transactions resulted in the filing with the Commission of 518 securities certificates, each of which was made the subject of study and review by the Commission.

A total of 7,924 informal complaints against utilities other than transportation were filed with and investigated by the Commission during the four years. The majority of these complaints concerned the failure of the public to obtain desired service. Commission investigations, however, disclosed that most public utilities made every possible effort to meet service demands, as rapidly as the necessary facilities became available or could be installed. An additional 9,027 informal complaints against transportation service were lodged with the Commission and investigated by it.

Increased rates filed by public utilities resulted in 360 formal complaints lodged by the public with the Commission. An additional 78 complaints against the rates of public utilities were instituted by the Commission on its own motion. Without question rate proceedings are the most complex phase of Commission activities, requiring the highest degree of technical skill on the part of the staff. Yet the Commission was unable to augment its technical staff to any appreciable degree during the four years, thus placing the burden of prosecuting the many and involved rate proceedings on a staff which is seriously undermanned.

It is believed that many more rate increases would have been filed by utilities during the four years, resulting in additional formal proceedings, if the Commission had not issued its statement of policy on June 7, 1943,

whereby the Commission stated it would refrain from attacking war-time earnings of utilities if they husbanded those earnings for possible post-war contingencies. The utilities generally complied with this directive, with a consequent strengthened financial condition after the war. And it was only when increasing prices and wages had steadily reduced post-war earnings that utilities sought relief by increasing their rates, many of which had been in effect before the war.

On matters other than rates, a total of 345 formal complaints were filed by the public during the four years, and the Commission instituted an additional 132 complaints and investigations on its own motion.

During the four years, the Commission issued 7,110, and cancelled 4,602, certificates of public conveyance and permits for motor carriers, resulting in a net increase of 2,508 certificates and permits issued. An additional 2,412 certificates of public convenience and other approvals were granted to utilities other than transportation during the period. At the end of the period, there were 21,851 motor carrier certificates and permits in force.

A total of 13,612 applications were filed with the Commission by carriers and other utilities during the four-year period, of which 11,129 pertained to carriers. In addition, 345 contracts between public utilities and municipalities were filed with the Commission.

In connection with the alteration, construction or elimination of highway-railroad crossings, the Commission reviewed 1,250 formal cases during the four years. Included in this total were many important grade separations incident to the construction of the eastern extension of the Pennsylvania Turnpike.

The Commission's staff reviewed 41,641 accidents reported by utilities during the period. All of the serious accidents were made the subject of investigation, followed by recommendation to the utilities as to steps necessary to prevent recurrence of the accident.

All tariff changes filed by utilities during your administration were reviewed by the staff of the Commission, and where appropriate, were reported to the Commission. These included 96,242 changes filed by carriers and 9,585 by other utilities.

Field audits of the records of 40 electric, gas and telephone companies, involving total plant accounts of more than \$650 million, were completed by the staff during the period in connection with the accounting requirements of the Commission.

The enlarged scope of Commission activities during the four years of your administration is further evidenced by the fact that 15,409 hearings were held throughout the Commonwealth on formal cases before the Commission. The Commission held 337 regular executive sessions and two special sessions during the four years, and heard oral argument on 30 cases.

Expenditures incurred by the Commission during the two biennia ended May 31, 1950, aggregated \$4,941,153, of which approximately 95% will be reimbursed to the Commonwealth through fees and assessments collected from public utilities by the Commission.

Respectfully submitted,

JOHN SIGGINS, JR.
Chairman, Public Utilities Commission.

COMMONWEALTH OF PENNSYLVANIA
PENNSYLVANIA LIQUOR CONTROL BOARD

HARRISBURG

November 30, 1950.

Dear Governor Duff:

Herewith, we submit a report of the operation of the Pennsylvania Liquor Control Board during your administration.

This period reflects chiefly a return to normalcy, from the restrictions imposed by war in most of our program of activities.

The Board's principal functions are:

1. Licensing qualified individuals, firms and corporations to manufacture, transport and sell liquors and malt or brewed beverages. It issues, controls and supervises 46,300 licenses and permits of all kinds. Of these, 21,500 are retail licenses.

2. Enforcing the Liquor Control Act, the Beverage License Law and the other laws and regulations governing the entire traffic in alcoholic beverages in Pennsylvania.

3. Operating a State-wide system of stores, now 588, selling distilled spirits and wines to the public at retail and to the licensees at wholesale. The latter get a discount of 16 2/3 per cent.

State Stores

The demand for State Store merchandise outran the supply during the first year of your administration. Wartime rationing was lifted in January, 1947. For some time there has been a wide choice in the selection of brands, the market having become practically normal. The Board's inventory of merchandise at the present time is deemed adequate to meet present and foreseeable needs. Through the cooperation of the personnel, the general public, the vendors and the licensees, we feel that the wartime rationing functioned in a generally acceptable manner.

The loosening of controls in the postwar period has permitted the Board to install much needed equipment in many of the stores. A number of new stores have been built primarily for use by the Board, and efforts are being made for further improvement along this line.

Revenue

Dollar sales volumes by calendar years, including the 10 per cent. State tax, were:

1947	\$208,390,184.41
1948	208,172,473.02
1949	198,317,824.07
1950 (Jan. to Oct. actual) \$160,137,548.07	
(Nov. and Dec. est.) 51,516,416.85	211,653,964.92

Profits from the State-store system by calendar years were:

1947	\$ 37,366,107.67
1948	38,481,663.10
1949	35,209,647.01
1950 (Jan. to Oct. actual) \$28,138,372.43	
(Nov. and Dec. est.) 10,525,794.35	38,664,166.78

Yields of the 10 per cent. State tax by calendar years were:

1947	\$ 18,698,371.67
1948	18,908,397.19
1949	18,013,263.42
1950 (Jan. to Oct. actual) \$14,545,639.51	
(Nov. and Dec. est.) 4,679,917.95	19,225,557.56

During the present administration license fees amounting to \$31,685,813.51 have been received by the Board. \$22,762,754.19 of this amount has been returned to the local municipalities.

Enforcement

The cost of enforcement is met entirely by the Pennsylvania Liquor Control Board. The Board has employed an average of 189 Enforcement Officers whose principal duties were the suppression of illicit traffic in alcoholic beverages, the investigation of persons and places to be licensed and the policing of licensed establishments.

Emphasis has been placed on preventive enforcement, and to a large extent this has been successful. Officers of clubs charged with violations in many cases have been requested to appear before the Board to impress upon them their responsibilities for proper law observance. This has, we believe, been a profitable experiment.

Positive enforcement has also been necessary. During your administration 3,350 arrests have been made, 117 stills capable of producing 17,550 gallons of illicit liquor each day were seized, 22,989 gallons of moonshine, liquor, wine and beer were confiscated, and 110 cars used in the illicit liquor traffic were forfeited to the Board.

Citation proceedings against licensees for violations were instituted in 3,865 cases, a ratio of one citation to approximately every six licenses in effect. As a result of the citations, 177 licenses were revoked and 2,971 suspended for an average of 28 days.

Local Option

During 1947 and 1949 local option elections were held in 334 municipalities. A total net decrease of 85 licenses resulted.

Personnel

As of June 30, 1950 the Board's Civil Service employees totaled 3,950. There were 200 persons employed on a provisional basis in classifications where Civil Service lists were not in existence or had been exhausted. It is expected there will soon be replacements for this latter group, and that the Enforcement Division will be brought up to its full strength of 225. Of the Board's personnel more than 1,800 have veterans' status.

There has been a continuous study of personnel problems. Every effort has been made toward proper adjustment of positions, grades and salaries to conform with duties and responsibilities as required by the Administrative Code. In line with this general aim, after full discussion and agreement between representatives of the Board and the State Store employees, a new classification plan for Liquor Store employees was adopted and approved by the Executive Board, effective July 1, 1950.

Licensing

Adhering to an opinion of the Attorney General's office the Board has consistently held that club licenses were subject to the restrictions provided by the Quota Law, and refused to issue such licenses in district where the quota was filled or exceeded.

The courts in 26 counties held that such licenses were not subject to quota restrictions and in 562 cases directed that new club licenses be issued.

Legislation

In 1949 the General Assembly amended the Liquor Control Act and the Beverage License Law by permitting appeals to the Superior Court from decisions of the Courts of Quarter Sessions. As a result the Superior Court has upheld the position taken by the Board that new club liquor or malt beverage licenses cannot be issued in political sub-divisions wherein the number of licenses in effect is equal to or exceeds the ratio of one license for each 1,000 inhabitants or fraction thereof.

Another amendment of the Quota Law by the Legislature in 1949 raised the requirements to be complied with in the case of hotels of the type excluded from the quota regulations. This has discouraged applications for a hotel license where the manifest intention was to bypass the Quota Law.

As suggested in our report of two years ago some form of limitation on transfer of licenses, especially where it involves a new licensee and a new location, would undoubtedly tend to bring the number of licenses in force closer to the quota prescribed by law.

It might also be pointed out that the present system of hearing cases on appeal de novo, instead of on the record, often results in a different set of facts being presented to the court than were presented to the Board when penalties were imposed.

Respectfully submitted,

FREDERICK T. GELDER,
Chairman, State Liquor Control Board.

COMMONWEALTH OF PENNSYLVANIA
MILK CONTROL COMMISSION
HARRISBURG

November 28, 1950.

Dear Governor Duff:

I am pleased to submit herewith a summary of the various activities which have been performed by the Milk Control Commission during your four year tenure as Governor of the Commonwealth of Pennsylvania.

The Milk Control Law requires members of the Milk Control Commission to fix minimum prices which dealers shall pay to producers and minimum prices which dealers shall charge consumers for fluid milk and various other dairy products. In order that all parties at interest may have a voice in the fixing of prices as outlined above, the Commission has conducted public price hearings several times during the course of each calendar year in the fourteen milk marketing areas which cover all sections of the Commonwealth. Likewise, it becomes necessary to conduct citation hearings on dealers who wilfully violate provisions of the Milk Control Law and price orders which have been legally established. Minor violations of orders are corrected by hearings held before aldermen and justices of the peace in the areas where the violation occurred.

Enforcement Activities

In order that you may have a clear and concise picture of the various enforcement activities during the period 1947-1950, inclusive, I am including a statistical report which develops some rather interesting figures. Please note that the Commission has received a total of \$449,129.75 in license fees collected from dealers and a total of \$52,487.00 in fees collected from persons engaged in weighing and testing milk for dealers. Please note especially the fact that the Commission has collected a total of \$207,398.61 from dealers who maliciously, or otherwise, attempted to pay their producers at lower rates than were established in price orders written by the Commission. Also please note that the Commission has forced the payment of \$1,228,547.77 on the part of milk dalers who became delinquent in their payments to shippers of milk. These two items alone represent a total of \$1,435,946.38 which Pennsylvania dairy farmers would not have received for their milk were it not for the fact that Commission personnel, through audits of dealer records, required additional payments on the part of the dealers affected. Total expenses incurred by the Commission during this four-year period approximated the amount shown above which was recovered for producers.

Total Monthly audits complete	41,795
Investigation of reported price violations ...	37,139
Criminal Prosecutions	447
Hearings before Aldermen	426
Fines Collected	\$10,600.00
Licensing & Bonding Contacts made	2,401
Testers & Weighers examinations held	1,565
Milk Plant Inspections made	4,205
Samples of Milk tested for Butterfat content .	101,223
Milk Producers interviewed	12,420
Milk Dealers interviewed	26,224
Field Conferences held	3,609
Settlements made on account of Field	
Conferences	1,363
Amounts collected from Milk Dealers and paid	
to Producers on account of Underpayment .	\$207,398.61
Amounts collected from Milk Dealers for Pro-	
ducers on account of Delinquency	\$1,228,547.77
Cases opened on Complaint of Violation	578
Cases Closed and successfully concluded	463
Citation Proceedings on account of violations ..	261
Milk Dealer's Licenses issued 1947-1950	8,521
License Fees received 1947-1950	\$449,129.75
Weighing and Testing Fees received 1947-1950	\$52,487.00
Public Hearings held	163

Public Price Hearings

During the period 1947-1950, inclusive, a total of 163 public price hearings were conducted by the Commission. In some instances it was necessary to spend four days and nights in order that all parties interested in the fixing of minimum prices to producers and consumers might have ample time to present sworn testimony before the Commission. As a result of these price hearings, 163 general price orders have been written by the Commission and promulgated after due course of presenting the order in tentative form before interested parties at conferences held in Harrisburg.

The Commission has also cooperated with the United States Department of Agriculture in conducting five concurrent hearings in the Philadelphia Milk Marketing Area. In some instances these concurrent hearings have resulted in identical price orders being written by the Milk Control Commission and the U. S. Department of Agriculture. In other cases the Commission wrote orders which contained a producer price higher than the one established by the Department of Agriculture. At no time during the period shown, did the federal order price to producers exceed the price established under orders of the Milk Control Commission.

Inasmuch as between nine and ten thousand Pennsylvania producers ship milk to New York City under Federal Order No. 27, it may be interesting to compare the returns which these shippers have received with prices received by Pennsylvania producers shipping to Pennsylvania dealers under orders of the Milk Control Commission. During the three-year period, Pennsylvania consumers paid a total of \$50,059,296.40 less for their milk than did New York City consumers for a similar amount purchased. Pennsylvania producers received a total of \$38,088,224.60 more for their milk than did the producers shipping to the New York City market. The total saving to Pennsylvania consumers and the additional returns to Pennsylvania producers aggregated \$88,147,521.00 during the three-year period. From the figures shown above it can readily be deduced that Pennsylvania dealers, while enjoying a fair degree of prosperity, have operated on a much narrower margin than have dealers in surrounding states.

One of the reasons Pennsylvania consumers pay less for milk and Pennsylvania producers receive more for their product, may be found in the fact that an active committee of producers and dealers from all sections of the State is cooperating with the Commission in the development of major policies. This committee is composed of leaders in their respective fields who are willing to discuss milk problems on the basis of what may be best for the industry in general, rather than what may be of temporary advantage to a few producers or dealers. While this committee has no power to develop any particular project, we are certain that their deliberations and advice have been most helpful to the Commission on numerous occasions.

A great many interesting details might be developed as the result of activity of the Milk Control Commission during the past four years, but we are inclined to believe that the items, as submitted above, will give a general over-all picture which we trust will be useful.

Respectfully submitted,

H. N. COBB,
Chairman, Milk Control Commission.

COMMONWEALTH OF PENNSYLVANIA
THE GENERAL STATE AUTHORITY
HARRISBURG

December 1, 1950.

Dear Governor Duff:

The following is a report of The General State Authority since its organization on May 3, 1949:

The General State Authority is a public corporation created by The General Assembly in 1949 with broad

powers to construct, improve, equip, furnish, maintain, repair and operate a whole range of facilities for the Commonwealth.

It also was authorized by law to borrow money, make and issue Bonds and to secure the payment of these obligations by the pledge or deed of trust of all of its revenues, including the rentals it collects from the Commonwealth on the projects it builds, improves or acquires at the request of the Commonwealth.

The General Assembly limited its borrowing power to \$175,000,000, and advanced \$2,000,000 from state revenues to launch the program until the Authority's first bonds could be marketed.

The law creating the building agency also set up a 12-member policy making Board to operate the agency and provided that its members should be the Governor of the Commonwealth, the State Treasurer, the Auditor General, the Secretary of Internal Affairs, the Secretary of Property and Supplies, the Speaker of the House of Representatives, the President pro tempore of the Senate, the Minority Leader of Senate and the Minority Leader of the House and three public members, one to be appointed by the Governor, one by the Speaker of the House, and one by the President pro tempore of the Senate.

The Board organized on May 3, 1949, with these members:

Governor James H. Duff, State Treasurer Charles R. Barber, Auditor General Weldon B. Heyburn, William S. Livengood, Jr., Secretary of Internal Affairs, Chester N. Woolworth, Secretary of Property and Supplies, Herbert P. Sorg, Speaker of the House of Representatives, M. Harvey Taylor, President pro tempore of the Senate, John H. Dent, Minority Leader of the Senate, Hiram G. Andrews, Minority Leader of the House of Representatives, Fred P. Hare, appointed by the Governor, Charles H. Brunner, Jr., appointed by the Speaker of the House, and John M. Walker, appointed by the President pro tempore of the Senate.

Governor James H. Duff was elected President of the Authority, Weldon B. Heyburn, Vice President, M. Harvey Taylor, Treasurer, and William S. Livengood, Jr., Secretary. Subsequently Hiram G. Andrews was named assistant secretary and Darlington A. Brown was named assistant treasurer.

First Projects

Following its organization and adoption of by-laws, the Board of the Authority began assembling a technical staff and approved its first construction projects. These original projects numbered 25 and the amount allocated by the Board for their completion was \$19,818,171.

These 25 projects included thirteen undertaken as the Authority's share of the Schuylkill River Clean-up program with an initial allocation of \$8,430,000, construction of flood control and recreation dams on Little Pine Creek in Lycoming County and on the Shawnee Branch of the Raystown Branch of the Juniata River in Bedford County, for a total of \$3,817,000. All these projects were requested by the Department of Forests and Waters and all have been completed and leased to the Commonwealth at rentals totaling \$817,819 annually.

Of the initial 10 projects, approved at institutions under the jurisdiction of the Department of Welfare, six provided for new facilities at mental hospitals, two at the Commonwealth's medical and surgical hospitals, one at the Eastern State Penitentiary and the 10th at the Polk State School.

Three of these projects—a new boiler plant at the Philipsburg State Hospital and an addition to the nurses home at the Hazleton State Hospital and two new patients buildings at the Polk State School—have since been completed and leased to the Commonwealth at annual rentals totaling \$44,219. All of the other projects are under construction with the exception of a proposed new auditorium at the Eastern State Penitentiary in Philadelphia.

For May 24, 1949, to December 1, 1950, the Board of the Authority made allocations totaling \$163,093,533 for

273 construction projects. The projects and the allocations were divided among the following categories:

Mental hospitals and mental institutions, 104 projects, \$89,587,863.

Medical and surgical hospitals, 15 projects, \$5,883,673.

Penal and correctional institutions, 5 projects, \$2,462,579.

Educational institutions, 82 projects, \$30,041,535.

Health institutions, 13 projects, \$2,996,390.

State Police Barracks, 7 projects, \$2,772,368.

Brandywine Battlefield Park Restoration, \$71,257.

Capitol Park Extension Survey, \$109,726.

Schuylkill River Clean-Up, recreational and flood control dams and park buildings, 45 projects, \$23,118,613.

In addition, the Board allocated \$4,942,579 to purchase equipment and furnishings for the construction projects undertaken at the request of the Department of Welfare and \$1,106,950 for equipping those projects approved at the request of the Department of Public Instruction.

After the allocations totaling \$163,093,533 were made by the Board, \$8,688,791 of this amount was released for reallocation for other projects. These savings resulted from contract awards, lower than estimates and the completion of projects at a cost below the original allocation amounts.

In making its allocations for individual projects, the Board of the Authority followed a procedure set up in the Bond Resolution which it adopted on June 27, 1949, as the basis for the public financing of its program.

This Resolution provided that the cost of any project should include the cost of construction, the cost of land, the costs of surveys and designs, the administrative overhead of the Authority, a reserve for contingencies during construction of at least 10 per cent of the total cost, and interest on borrowed funds.

These allocations were calculated by applying stated percentages for design, contingency, overhead and interest charges to the estimated cost of construction of a particular project at the time of the original approval by the Board.

The Resolution also provided that prior to the start of each project, the Authority would enter into a contract with the Commonwealth providing for the lease by the Commonwealth of the project immediately upon its completion at a rental sufficient to amortize the estimated cost of the work. These contracts to lease were subsequently assigned to the Mellon National Bank and Trust Company, of Pittsburgh, the Authority's Fiscal Agent, as security for the Authority's bonds.

Marketing of Bonds

The General State Authority, although authorized by law to borrow up to \$175,000,000 has only marketed \$95,000,000 in serial bonds thus far. This was done in two separate issues; the first series, serial bonds of \$30,000,000 in July of 1949 and a second series, serial bonds of \$65,000,000 in July of 1950. Reflecting the remarkably good financial standing of the Commonwealth, the net average interest cost of the first series, serial bonds was 1.74 per cent and of the second series, serial bonds, 1.84 per cent. Both issues were purchased by a syndicate headed by Halsey, Stuart and Co., of New York, in competitive bidding.

The proceeds of two bond issues were deposited in the Project Fund, provided for by the Bond Resolution. These proceeds totaled \$29,534,044.69 from the first series, serial bonds and \$63,917,517.98 from the second series, serial bonds. In view of the fact that greater portions of the proceeds from the sale of Bonds would be needed only as construction of the Authority's many projects advances, these funds were re-invested by the Authority's fiscal agent in interest bearing investments. On October 31, 1950, these investments totaled \$70,567,496.

Contract Obligations

Up to October 31, 1950, the General State Authority had assumed contract obligations on its projects totaling \$66,851,969, on which other departments of the Commonwealth had paid \$3,922,425 prior to the time the contracts were assigned to the Authority. The amount paid by the

Authority on these contracts totaled \$21,210,954.59, leaving balances totaling \$41,718,588.94 on uncompleted contracts at the end of October.

These contracts included both professional agreements with architects and engineers for the design of new facilities, and the actual construction of the new buildings.

On October 31, 1950, eighty projects approved by the Authority were in the design stage, 160 were under construction and 25 had been completed. The remainder had not reached the design stage.

The estimated financial cost of these under construction was \$90,173,116 and of those under design \$47,604,094.

Rentals Collected

Subsequently, the Authority completed three additional projects and by mid-November, the Authority had billed the Commonwealth for annual rentals totaling \$695,227.23 on 28 completed projects. They were:

The new Kernsville Dam on the Schuylkill River near Hamburg, Berks County, 10 coal silt impounding basins and the Tamaqua Impounding Basin and the Tamaqua Desilting Basin, all part of the Schuylkill River clean-up program.

The Shawnee Dam in Bedford County and new recreation buildings at the Raccoon Creek State Park, both for the Department of Forests and Waters.

A new infirmary at the Edinboro State Teachers College and electrical and other repairs to a number of buildings at the West Chester State Teachers College for the Department of Public Instruction.

A new water reservoir at the Allentown State Hospital, a new laundry and a new warehouse at the Embreeville State Hospital and a food preparation and cafeteria building at the Mayview State Hospital, all mental institutions under the jurisdiction of the Department of Welfare.

Elimination of electrical hazards at the Blossburg State Hospital, an addition to the nurses home at the Hazleton State Hospital, and relocation of the boiler plant at the Philipsburg State Hospital, all medical and surgical hospitals of the Commonwealth.

Completion of two one-story patients buildings, each housing 75 patients, at the Polk State School, an institution for the feeble-minded.

Other Projects Completed

In addition the Authority completed a new flood control dam on Little Pine Creek in Lycoming County, a new hospital building for 350 male patients and new boiler plant at the Embreeville State Hospital, the Auburn desilting basin on the Schuylkill River, a recreation dam and lake in Ricketts Glen State Park in Luzerne County, a new boiler plant at the Clarks Summit State Hospital in Lackawanna County, fireproof stairways on a patients building and new fire hydrants and a high pressure water main at the Retreat State Hospital in Luzerne County, three residences for physicians at the Polk State School, renovation of Stroud Hall at East Stroudsburg State Teachers College and construction of fireproof stairways and floors in North Hall at Mansfield State Teachers College.

Also nearing completion at the year's end were a new female ward building to house 350 patients at the Embreeville State Hospital, an addition at the Kutztown State Teachers College for the storage of chemicals and similar supplies, new barracks for the Pennsylvania State Police at Hollidaysburg and Gettysburg, new recreation dams and lakes at Hickory Run State Park in Carbon County and Lyman Run near Galeton, Potter County, a new fireproof stairway in Horton Hall, a women's dormitory at the Shippensburg State Teachers College and a root cellar for the storage of fruits and vegetables at the Polk State School.

Mental Hospitals

The largest and most important group of projects undertaken by the Authority since its organization in May of 1949 was a vast building program at the Commonwealth's mental hospitals and institutions. Requested

by the Department of Welfare, this unprecedented building program was planned to eliminate overcrowding at mental hospitals and to provide the mentally ill, rich and poor alike, with the opportunity for the best medical treatment available.

At the year's end, a little more than 18 months following the founding of the Authority, construction had been started on projects at mental institutions for which \$56,589,645 had been earmarked. This represented projects at mental hospitals with financial allocations totaling \$52,736,334 and at institutions for the feeble-minded and epileptic with financial allocations totaling \$3,853,311.

In addition to this impressive building program there was still on the drawing boards of architects and engineers other vital projects for which millions more had been allotted, including the most impressive project of all those undertaken by the Authority—the construction from the ground up of the new Eastern Pennsylvania Psychiatric Institute in Philadelphia, designed to become a world center for research into the causes of and the treatment of mental illness.

The allocation for this project totaled \$9,817,208, while in addition another \$1,033,623 was allocated for the needed expansion of the facilities of the Western Psychiatric Institute and Clinic in Pittsburgh, another key institution in the ever increasing attack on mental illness.

The Eastern Pennsylvania Psychiatric Institute, whose completion has been set for March of 1953, if labor and material shortages do not prevent, will be operated under a Board of Trustees representing the five medical colleges of Philadelphia. This Board has taken the lead in the planning of the new Institute in cooperation with the Department of Welfare. Likewise the Western Psychiatric Institute, where the Authority is freeing additional space for patients by providing new quarters for nurses, is operated by the Medical School of the University of Pittsburgh.

Elsewhere in the mental hospital program, the Authority is building or planning new buildings to house 5,500 patients in humane surroundings, is expanding the food preparation or serving facilities for 12,000 patients, in providing modern quarters for nurses at institutions caring for 18,000 patients, is expanding or building new heating plants at institutions with 10,000 patients, is constructing new laundries or additions to laundries for 15,000 patients, and is providing recreation facilities at institutions with 5,000 patients.

The Authority program also includes a host of other vital facilities at mental hospitals which are essential to their operation, such as new steam, sewer, electric and water lines, better fire protection, roadways and ground lighting, warehouses and repairs to existing patient buildings.

The projects at the institutions for the feeble-minded and the epileptic also will provide increased facilities for the care of mentally deficient persons, one of the most vexing problems facing the state. New buildings are being erected for the care of children at the Selinsgrove State Colony for Epileptics, new facilities for patients at Polk and Pennhurst State Schools and at the Laurelton State Village, the other Commonwealth institutions in this field.

State Teachers' Colleges

The Authority, at the request of the Department of Public Instruction, approved a program for major and long overdue improvements at the Commonwealth's teacher training institutions. Ten new dormitories will be built at California, Cheyney, Clarion, East Stroudsburg, Edinboro, Indiana, Lock Haven, Mansfield and Millersville State Teachers Colleges; heating plants will be modernized at Bloomsburg, Cheyney, Clarion, Lock Haven, Shippensburg and Slippery Rock; new auditoriums constructed at California, Millersville and Shippensburg; an addition to the gymnasium at West Chester; repairs to existing dormitories at California, Clarion, East Stroudsburg, Edinboro, Indiana, Kutztown, Mansfield, Shippensburg and West Chester; new food preparation facilities at Indiana, Mansfield and Millersville;

and new classroom buildings at Mansfield and Lock Haven.

The program at the teachers colleges, half of which is now under construction, was designed primarily to eliminate fire and health hazards to the students enrolled in the teachers colleges and the projects undertaken were those which it was believed would eliminate the most conspicuous hazards at these institutions.

Other Educational Institutions

Similarly the Authority adopted \$4,645,000 program at Pennsylvania Soldiers' Orphan School at Scotland and at the Pennsylvania Oral School for the Deaf at Scranton. In addition the building program at Scotland will vastly increase the opportunities for an education for the children of Pennsylvania's war veterans. The Authority also has approved an improvement program at the Thaddeus Stevens Trade School in Lancaster and the construction of an entirely new Training School for Firemen at Lewistown, the later project being undertaken at the request of the General Assembly.

Another important segment of the Authority's program is the proposed expansion of the educational facilities at the Pennsylvania State College. The Authority has earmarked \$9,714,673 of its funds for this building program, which will include the construction of a new Chemistry Laboratory Building, a new laboratory and greenhouses for agricultural research, a new food processing laboratory, new dairy barns for research, completion of the Buckhout (Biological) Laboratory, the Burrows Building, the Main Library, the Mechanical Engineering Building, and the Main Engineering Building.

Recreational Facilities

The Authority's share in the world renowned Schuylkill River clean-up program has been previously mentioned. In addition, the Authority, at the request of the Department of Forests and Waters, has undertaken the construction of 12 dams for flood control or recreation or both. Three of these dams have been completed. They were built on Little Pine Creek in Lycoming County; Shawnee Branch in Bedford County and at Lake Jean in Ricketts Glen State Park. Two others at Lyman Run in Potter County and at Hickory Run State Park in Carbon County are nearing completion and construction is under way in Tobyhanna State Park, French Creek State Park and on Hills Creek, Tioga County. Others are planned in Laurel Hill State Park, a second dam in Ricketts Glen, and in Bendigo Park, Elk County, and at White Oak, Lancaster County.

Also planned to expand healthful, outdoor facilities are a number of projects for new boathouses, bathhouses, picnic shelters and similar structures at state parks if a current Federal ban on construction for recreational purposes does not prevent.

Miscellaneous Projects

For the Pennsylvania State Police, new barracks and driver examining fields are being constructed. New barracks at Hollidaysburg, Gettysburg and Reading will be completed early in 1951 and others will be built at Montoursville, Punxsutawney, Allentown and Philadelphia.

Nine projects at the Commonwealth's tuberculosis sanatoria have been approved and three of these are under construction at the South Mountain and Hamburg institutions. Four projects for the expansion of the State Hospital for Crippled Children at Elizabethtown also are under way.

Financial Status

Up to October 31, 1950, the Authority had made cash outlays of \$22,979,728 on its projects of which \$4,665,885 went into completed projects and \$18,304,293 into projects in the course of design or construction. The remaining \$9,550 represented expenditures on abandoned projects. In addition, the Authority had repaid to the Commonwealth the \$2,000,000 granted it by the General Assembly to launch its program.

Operating costs of the Authority from its organization to October 31, 1950, totaled \$1,285,907 and the item for Bond interest in the same period was \$482,681.

Technical Staff

The Authority assembled a technical staff headed by Oscar N. Lindahl, of Pittsburgh, as Executive Director, to direct its day-to-day operations. Others on this staff included Allen F. Jones, Directing Engineer; David W. Wallace, Comptroller; Warren W. Holmes, General Counsel; and J. B. Fry, Administration Coordinator and Procurement Officer.

Respectfully Submitted

OSCAR N. LINDAHL
Executive Director, General State Authority.

COMMONWEALTH OF PENNSYLVANIA STATE PUBLIC SCHOOL BUILDING AUTHORITY

HARRISBURG

December 1, 1950.

Dear Governor Duff:

I have the honor respectfully to submit herewith the report covering the commencement, development and achievements of the State Public School Building Authority during your administration.

This report, I believe, constitutes an important record of accomplishment on behalf of all the citizens, particularly the children of the public school system of Pennsylvania, which has been brought about by your administration.

The State Public School Building Authority was activated three years ago and has, as of now, contracts with 136 school districts to lease a total of 82 public school projects at a total estimated cost of approximately \$37,-400,000.

Twenty projects estimated to cost about \$10,000,000 are now under actual construction by the Authority and several will be completed within the next three months. We estimate that an additional 57 projects, which will cost approximately \$23,000,000, will be under actual construction prior to June 1, 1951.

The projects which are now under way and those contemplated are located in various counties throughout the Commonwealth. The cost for each has varied from \$80,000, for a relatively small school, to \$2,500,000 for a project on behalf of 8 school districts which joined to enable each district to obtain better educational facilities under this program. The first bid was opened on May 25, 1950, and actual construction on the first project started on June 13, 1950.

General Purpose

The Authority was created by Act No. 498, passed by the 1947 session of the General Assembly and approved by the Governor on July 5, 1947, P. L. 1217.

The Governor recommended and the Legislature created the Authority for the purpose of constructing, improving, maintaining and operating public school buildings and furnishing and equipping them for use as public schools within the public school system under the jurisdiction of the Department of Public Instruction of the Commonwealth of Pennsylvania.

The Authority is a body corporate and politic, constituting a public corporation and governmental instrumentality. The Authority is authorized to issue and sell its bonds for the purpose of raising money with which to pay for school projects requested by individual or joint school boards and approved and undertaken by the Authority. The facility is leased by the Authority to the school district or districts at an annual rental for a term not exceeding forty years.

The Authority operates on a non-profit basis. Its services, including direct cost of administration, are provided, upon application and without charge, to any school district in the Commonwealth. The annual rental chargeable to a school district for a school provided by the

Authority is based upon the total amount of the bonds issued by the Authority to finance the school.

There is no provision under existing law which requires a school district to apply to the Authority. Districts which have the financial means are always encouraged to undertake projects on their own responsibility. However, the services of the Authority are available to the school districts should the districts need its services.

History

The Authority was activated on February 5, 1948, and four initial steps were taken immediately. They were: (1) To determine the need for the services of the Authority; (2) to develop a form of application for use by school districts in requesting services; (3) to determine the feasibility of financing the program through the sale of Authority bonds as authorized by law; (4) to determine the adequacy of existing law and any additional legislation necessary in order to fulfill the Authority's responsibilities.

The outcome of the consideration of these questions was as follows:

The Need For Services. Reports from approximately 75 percent of county and school district superintendents stated that over a period of three years these districts would require 519 projects estimated to cost in excess of \$146,000,000 and that none of the districts concerned could finance the cost of these projects within their own constitutional borrowing limitations. The report also disclosed that 80 additional projects, estimated to cost about \$20,000,000 were required in districts which could finance the cost.

The Application Form. A standard application form and detailed instructions for its use in requesting services were prepared. The forms and instructions were distributed to all of the more than 2500 local school districts in Pennsylvania.

The Constitutional Question. Extended conferences were held with various banks, brokerage firms and individuals qualified in marketing municipal bonds to determine the feasibility of selling the Authority's bonds to finance the cost of the projects. The net result was the decision that the constitutionality of the act creating the Authority would have to be passed upon by the Supreme Court of Pennsylvania before the bonds could be given a favorable legal opinion and sold to the general public. It further determined that these bonds could not be sold to either the School Employees' Retirement Fund or to the State Employees' Retirement Fund until additional legislation was enacted authorizing such procedure.

The Test. A test case was developed in order to determine the constitutionality of the Authority, together with certain other related questions. An opinion upholding the constitutionality was handed down by the Court of Common Pleas, Allegheny County, in November, 1948. This case was appealed and argued before the Supreme Court in January, 1949. The question was finally decided on March 21, 1949, when the Supreme Court confirmed the decree of the Court of Common Pleas and upheld the constitutionality of the Act and the related questions introduced in the test case of *Greenhalgh vs. Woolworth*, et al, 361 Pa. 543.

Thus it was that a period of fourteen months had elapsed from the time the Authority was activated before it had been finally determined that the act of the General Assembly creating the Authority was constitutional. Obviously, it was not feasible prior to that time to either issue or attempt to sell Authority bonds.

However, during this period the many organizational, administrative and policy questions with reference to the Authority had been carefully considered and resolved. Detailed procedure was adopted. Hundreds of conferences were held between representatives of the Authority and representatives of the more than 2500 school districts regarding their need for the Authority's services. During this same period the discussion and conferences developed the fact that the act which created the Authority was, in some respects, inadequate for the purpose intended and that in order to properly implement the necessary procedure and to make it practical and workable, additional

legislation pertaining to other existing laws of the Commonwealth, particularly the School Code, would be necessary.

Proposals for this additional legislation were presented to the 1949 session of the General Assembly. The General Assembly agreed with and passed most of the bills during the course of consideration. Some bills were not passed. In view of the fact that most of the bills were enacted and approved as of July 1, 1949, it was as of this date that the Authority was finally in a position to issue its bonds and get the school building program under way.

Organization and Administration

The Authority Board is the governing body of the Authority and is responsible for the determination of broad outlines of policy. The members of the Board serve without compensation but are entitled to reimbursement for expenses actually incurred in the discharge of their duties in connection with the Authority. The Board is composed of the following:

- The Governor
- The State Treasurer
- The Auditor General
- The Superintendent of Public Instruction
- The Secretary of Property and Supplies
- The President pro tempore of the Senate
- The Speaker of the House of Representatives
- The minority leader of the Senate
- The minority leader of the House of Representatives

When the Authority was first activated, neither personnel nor equipment was available and the initial step was to set up the necessary organization from the ground up. The act creating the Authority provided an appropriation of \$100,000 for the payment of costs and expenses incurred in establishing the Authority. Throughout the first fifteen months, the employment of personnel and purchase of equipment was held to an absolute minimum, for the reasons already set forth, in order to avoid unnecessary expenditures. As a result of this policy the Authority had an unexpended balance on May 31, 1949 of \$37,201.89.

The administrative functions of the Authority include the following, under the office of the Executive Director:

(1) **Technical Staff:** For review of plans and specifications for school projects and inspection should insure quality workmanship at less cost to the school districts.

(2) **Administrative Assistant.** For review and processing of applications for services and for general administration of the Authority.

(3) **Administrative Assistant for Finances:** For review and analysis of the financial structure of school district applicants and determination of ability to fulfill financial obligations to the Authority.

(4) **Legal Bureau:** Responsible for preparation and execution of all contracts, transfer of real estate and all legal matters with the exception of those assumed by the bond attorneys. In this regard attention is invited to the fact that under this program, as distinct from other State-wide authority programs, each project requires conferences and discussions with a local school board. Also required is a review of all documents involved, transfer of title to the site on which the project is to be constructed, and a considerable amount of re-negotiation due to the continuing change of personnel on school boards or their representatives with whom negotiations must be made prior to finally starting a project.

(5) **Comptroller:** Responsible for fiscal affairs including funds for construction and administrative purposes.

The Authority currently maintains its administration offices at 1400 North Cameron Street, Harrisburg, to which it moved on July 1, 1949. Prior to this date but subsequent to the date of its activation on February 5, 1948, the offices of the Authority were temporarily located at 18th and Herr Streets.

Responsibility for the details of administration rests with the Executive Director. The Authority at present has 63 salaried employees.

Financing

Exhaustive study was given to the best procedure in the issuance and sale of Authority bonds. It was the consensus of those participating in the study and in the ultimate discussions, that setting up an issue of School Authority bonds for sale to the general public would assuredly require the most expert professional advice obtainable in order to protect the interest of the Authority and the school district and obtain the most advantageous interest rates. After full consideration by the Board of the Authority, it was decided that the selection of a financial advisor would be deferred until such time as a determination is made that bonds will be sold at public sale.

The question of coordination between the School, Highway and Bridge and General State Authorities, in the timing of bond issues, was introduced immediately after July 1, 1949, due to an urgency for the sale of G.S.A. bonds to start that Authority's program. It was determined that in order for the General State Authority to obtain the most favorable market for its bonds, the School Authority would agree not to issue any of its bonds for public sale prior to February 15, 1950.

As a result, it was apparent that the principal, if not the only remaining means of selling School Authority bonds, was to the School Employees' Retirement Fund and/or the State Employees' Retirement Fund. Under an act of the 1949 General Assembly, a negotiated sale of the Authority bonds to these funds was authorized. An agreement in writing was approved by the School Employees' Retirement Board on November 15, 1949, with an effective date set as of October 1, 1949, providing for the purchase of \$25,000,000 of School Authority bonds at an interest rate of 3 percent per annum. The trust indenture for this bond issue was approved on January 30, 1950, after which the Authority was in a position, for the first time, to issue bonds.

Simultaneous with the proceedings, but pending final determination, negotiations were conducted with school districts, which had approved applications on file, in order to eliminate any time loss. The first contracts with school districts and professional agreements with architects were signed on February 21, 1950.

Since that time, the additional contracts have been signed from time to time as the applications have been received and the projects approved. After contracts have been executed, the date on which a project can be undertaken depends entirely upon the architect and the time required by him to prepare the necessary plans and specifications, to which is added approximately one month, as required by law, to advertise for bids prior to the awarding of contracts.

In most instances, the plans and specifications for present projects were started and developed subsequent to the actual signing of contracts. The progress made by the local architect in this regard is almost entirely beyond the control of this Authority, since during this period of plan development the architect is acting as agent of the school district. Frequent delays in the submission of plans beyond the schedule set forth in the professional agreement have been encountered. This necessarily has resulted in some delay.

The Philadelphia law firm of Townsend, Elliott and Munson has been retained as bond counsel and the Provident Trust Company of Philadelphia has been appointed trustee for Authority bond issues.

Present Financing

The first bond issue, in the total amount of \$25,000,000 will be sold to the School Employees' Retirement Fund. Under the procedure set up in the agreement and in the indenture, bonds will be issued and the money drawn from time to time in such amounts as are necessary to pay the bills for the actual construction of projects.

It is estimated that this procedure will reduce by approximately 50 percent the amount chargeable to the cost of the project because of "interest during construction," which saving will accrue in its entirety to the benefits

of the school districts. It is now estimated that from 65 to 70 projects can be undertaken and financed from this bond issue.

The second bond issue in the total amount of \$15,000,000 will be sold to the State Employees' Retirement Fund under an agreement executed between the Authority and the fund. The interest rate on these bonds will be 3 percent, and the procedure for issuance will be similar to the issue to the School Employees' Retirement Fund.

Future Plans

As pointed out, the Authority has already entered into eighty-two separate contracts with school districts to lease projects to be constructed at a total estimated cost of approximately \$37,400,000. The same number of tripartite agreements have been executed between the Authority, the respective school districts and the architects selected by the districts to prepare plans and specifications for these approved projects. Twenty of these projects, estimated to cost about \$10,000,000, are under actual construction.

Looking into the future it is even more evident that the work of the Authority is now in its initial phase and that further expansion is indicated. The Authority has, as of December 1, 1950, received 305 applications from school districts for projects estimated to cost \$120,842,157. In accordance with requirements of the law, the Authority has forwarded to the Department of Public Instruction for consideration applications involving 176 projects which will cost about \$110,869,983. To date, the Department has approved projects estimated to cost approximately \$80,000,000. Individually, these projects will vary in cost from \$50,000 to \$2,500,000. Based on these figures, it is quite apparent that additional financing must be undertaken in the very near future.

A total of 112 of these applications have actually been approved by the Board of the Authority, involving \$44,508,308, but final contracts with the school districts have been signed on only the 82 contracts mentioned above. The remaining 30 Authority approved contracts are now in the hands of the school districts for final determination and approval.

The contribution by the Authority to the vital cause of equalization of educational opportunity has been great and will be greater, limited only by the final determination of the citizens and the ever present factors of time and space and the availability of labor and material. Only with the closest cooperation and deep interest of the Administration has this record been made possible.

Respectfully submitted,

R. C. BARTMAN,
Executive Director, Public School Building Authority.

COMMONWEALTH OF PENNSYLVANIA
DEPARTMENT OF COMMERCE

HARRISBURG

December 4, 1950.

Dear Governor Duff:

The following is the report of the Department of Commerce for the years 1947-50, inclusive:

Industrial Development

U. S. Census reports show that Pennsylvania has led all other states in expenditure by industries for new plants and equipment. Pennsylvania industries, in a questionnaire-survey which this Department addressed to larger companies only, reported capital spending of more than \$2½ billion during the Duff Administration. In 1947, 1948 and 1949, Pennsylvania gained more than 3,000 new manufacturers, more than 2,000 new wholesalers, and more than 13,000 new retailers.

At the present time, this Department has active inquiries from 54 companies which are considering industrial locations in Pennsylvania. Of these, 41 desire build-

ings totaling 5,159,000 square feet of floor space, and 13 require acreage upon which to erect buildings of unspecified floor space. Thirty-two prospects estimate their labor requirements will total 10,775 persons, and 22 have not informed us of labor requirements. Forty of the 54 prospects have developed within the past four months.

This Department has sought to stimulate local action by communities in behalf of their own economic welfare. During the past four years, the Department intensified this effort. Today, more than 100 Pennsylvania communities have local industrial development organizations of varying degrees of activity and effectiveness. Of these, approximately 60 have industrial funds to aid establishment of new industries or assist in expansion of existing industry.

Since the outbreak of hostilities in Korea, the Department has undertaken to reactivate a limited number of "production pools" similar to pools which the Department organized throughout Pennsylvania early in World War II to speed defense production. The purpose is to provide pools of up-to-the-minute regional information regarding the unused capacity of machinery and machine tools, in order to find quickly any plant with partly idle capacity available for specific subcontracting operations.

Pennsylvania's industrial progress has been achieved in the face of steadily growing competition among the states for industrial expansion. This competition, which began a score of years ago, has been greatly intensified since World War II. In 1933, seven states engaged in State-financed promotion; at the end of 1939, thirty-two states were advertising to attract industry; today, 46 of the 48 states are competing in an intensive interstate struggle for new industries.

Industrial Publicity

The Department conducts a National advertising campaign to impress upon industrial executives the advantages which Pennsylvania offers as a location for new manufacturing plants of their companies.

Promotional literature, special bulletins, pre-prints of this Department's national advertisements, and automatically-typed letters of identical text are mailed periodically to selected industrial executives and other key individuals or organizations. Mailing lists of business and professional executives, institutions, and associations have been completely revised during this administration; more than 6,000 names were placed on addressograph plates; and a method devised for a continuing revision to keep the lists current. The Department's direct mail division has been completely reorganized, its staff retrained, and modern equipment installed.

Through news releases, the Department has publicized expansions of established Pennsylvania industries, the formation of new industries, and the location in Pennsylvania of plants of companies from other states. New products and developments through research also have been included in such releases. Special articles have been prepared for a large number of magazines and for regular and special editions and business review sections of newspapers. Speeches have been delivered to industrial and commercial groups, service clubs, and other organizations, and excerpts from such speeches have been released to the press.

Tourist and Recreation

Exceptional progress has been made in the past four years in promoting Pennsylvania as a vacationland. Records of this Department, indicating that more persons have been coming into Pennsylvania for vacation travel than in previous years, are substantiated by gasoline sales, traffic counts, and reports from hotels and resort areas.

Tourists and recreational travel is a major economic factor in Pennsylvania, and the promotional program of this Department during the past four years has been a substantial force in bringing to Pennsylvania during this period its greatest volume of income from that source. The value of recreational travel and vacation business in Pennsylvania for the four years of the Duff Administration is estimated at \$2,510,775,000, ranging from \$550,400,000 in 1947 upward to \$710,000,000 in 1950.

New parks and recreational areas have provided additional facilities in accessible spots, and are expected to be a factor in maintaining Pennsylvania's increased popularity as a vacationland. This Department consistently has encouraged resort areas to improve and expand their recreational facilities, and has record of \$10,000,000 spent by resort interests for such improvement in the past four years.

In promotion, information and planning, the Department cooperates with resorts and other groups catering to the traveling public in Pennsylvania. To supplement the State's promotion program, the Department has assisted in the organization of a number of community associations planning the promotion of their local areas. The Department, in turn, aids in the national distribution of literature which such association produce to advertise the recreational advantages of their localities.

To stimulate tourist and recreational travel, the Department conducts an advertising campaign featuring Pennsylvania's recreational areas, vacation facilities, historic shrines, scenic beauties, and resorts. This campaign is conducted nationally in magazines and regionally in newspapers, with the heaviest schedule in the months of February through September. The number of direct mail inquiries for literature about Pennsylvania's vacation attractions has exceeded 380,000 from the beginning of 1947 to the date of this report.

More than 1,800,000 booklets, published by this Department and depicting Pennsylvania as a vacationland, were distributed during the past four years. In addition, approximately 500,000 folders and brochures published by community associations, chambers of commerce and individual resorts, also were distributed through this Department in that period.

The Department prepares news releases and feature stories on a regular schedule to call public attention to forthcoming events of tourist interest. As another in its own series of motion pictures depicting Pennsylvania, the Department in 1947 produced "Pennsylvania Pleasureland," a 24-minute 16mm film, in color and sound. This and companion films of the Department in the past four years have been shown to more than 1,000,000 persons throughout United States and some foreign countries.

The Department's display cases of kodachrome transparencies have been widely used during the past four years. They have formed the center of the Department's exhibits at the Nation's major travel shows. They have been displayed at sportsmen's shows and conventions from the Gulf of Mexico to the Canadian border. In Pennsylvania, they have been on exhibition in many hotel lobbies, at industrial shows, and the State Farm Show.

Pennsylvania Week

Pennsylvania Week, annually planned and executed by the Commerce Department, has grown spectacularly from 1947 to 1950. Today it is the most unique statewide celebration in the Nation. Primarily a program of and for the communities, it gains countless new adherents and new forms of participation each year. This is illustrated by the fact that approximately 500 people were active in the Pennsylvania Week organization in 1947 and, in the celebration just completed, nearly 10,000 Pennsylvania men and women served on Pennsylvania Week regional, county or functional committees.

There are several "yard sticks" available to measure the effectiveness of the program:

Publicity. During the past four celebrations, it is conservatively estimated, the Department received more than one million dollars, annually, in free newspaper and radio publicity.

Organizational Personnel. It has been noted each succeeding year, that it has become increasingly easy to recruit volunteer personnel necessary to man the many Pennsylvania Week committees. Wide acceptance of the program is indicated by the increasingly significant contributions to the program by individual businesses, trade associations and community Chambers of Commerce.

Special Contributions. Particularly impressive during

the past four years, have been the contributions made to the program in time, money and personnel leadership by the Pennsylvania State Chamber of Commerce, Pennsylvania Electric Association, Pennsylvania Retailers' Association, the railroads of Pennsylvania, and the motion picture, radio and newspaper industries.

State Planning Board

Housing Program. The General Assembly at Governor Duff's request in 1949 appropriated \$15,000,000 from which capital grants could be made by the State as aid in production of additional rental dwellings for families of limited income. At the same time the State Board of Housing was merged into the State Planning Board and the Planning Board was charged with administration of the Housing and Redevelopment Act under which allocations could be made from the \$15,000,000 fund.

The Planning Board has approved 34 housing projects in 39 locations, covering a total of 3,060 dwelling units. The sum of \$9,193,634 has been allocated to these projects. Additional housing projects anticipated will require \$990,740. The first housing unit resulting from this program was completed and ready for occupancy in October, 1950. Housing construction under projects thus far approved will have a total value of \$29,640,494.87. The average rental for all dwelling units constructed or contracted for under this program is \$55.73. A total of \$4,410,241 has been allocated for redevelopment projects, which will lead to housing construction in 13 additional areas.

War Contracts Data. As was done in the Second World War, all information regarding defense contracts awarded to Pennsylvania companies is being tabulated and cross-filed both as to location and type of industry. The purpose is to have readily available and properly classified, the information necessary to facilitate sub-contracting on war orders. Forms also have been developed to assist local industrial pools to maintain an inventory of companies able to execute specific parts of military procurement contracts.

Water Analysis. A survey of the chemical character of the State's surface waters, and their suitability for industrial use, is continuing. This State-wide, long-term investigation is being carried on in cooperation with the Department of Forests and Waters and the United States Geologic Survey. Results of these analyses are published periodically by the State Planning Board. This field of research has proved of particular importance during the Second World War and in the following years. The information has demonstrated its usefulness to the Department of Commerce in its efforts to obtain new manufacturing plants for Pennsylvania, and has proved of importance to local development agencies, to the United States Army and Navy.

Air Photographs. The State Planning Board is custodian of the air photographs of Pennsylvania, which have been obtained by a cooperative program financed by the Planning Board, the Department of Highways, the Department of Forests and Waters, the Department of Mines, and the United States Department of Agriculture. Improved techniques developed during the war have made the new series of air photographs of Pennsylvania more useful and capable of greater enlargement than the original series completed in 1940. The current program contemplates the rerephotographing of 31,000 square miles of Pennsylvania in 57 counties. Twenty-four counties have been completed; 17,000 square miles have been rephotographed.

Local Planning Activities. Believing the eastern extension of the Pennsylvania Turnpike and the proposed building of an integrated steel plant in Bucks County would create problems in the Philadelphia suburban area necessitating both county and regional planning for satisfactory solution, the Planning Board in February, 1950, urged action by the four suburban counties. As a result of this meeting, a Montgomery County Planning Commission was appointed and is now operating; the Delaware County Planning Commission has been appointed; the Chester County Planning Commission is in the organization stage, and there are indications that Bucks County shortly also

will have an official planning commission. A similar meeting was held in Uniontown in July, 1950, in cooperation with representatives of the state and local governments of Maryland, looking toward the protection of scenic and recreational values in the land surrounding the new Youghiogheny Reservoir.

Recreation. Two recreation consultants have been added to the staff. They are providing assistance to communities in improving recreation facilities and establishing local programs and since September, 1948, the number of Pennsylvania communities providing recreational advantages has increased from 275 to 437. A "Recreation Manual" was published by the Board, outlining the State laws under which recreation activities can be organized and discussing types of recreation which may be best adapted for local programs.

Interstate Cooperation. The Executive Director of the Board at present is chairman of the Interstate Commission on the Delaware River Basin and is a member of technical committees of the Interstate Commission on the Potomac River Basin. He has been a member of the National Association of State Planning and Development Agencies since its inception, and served as its president in 1949-50. He and the Assistant Director of the Board have taken an active part in programs of the Northeastern States Industrial Development Conference.

Scenic Area Improvement. Elimination of a large number of billboards from designated "scenic areas" along Pennsylvania highways, has resulted from this activity. Since the original "scenic areas" were established in 1940 at the suggestion of the first Secretary of Commerce, Richard P. Brown, the number of such areas has increased to 22; and cooperation has been obtained from outdoor advertising companies and commercial interests along the highways. Since 1940, the number of advertising signs in these areas has been reduced from 2,079 to 368.

Pennsylvania Aeronautics Commission

Licensed Airports. A marked growth of aviation activities in Pennsylvania has been made during the present State Administration. In Pennsylvania there are now 373 licensed airports. This represents an increase of 108 since January 3, 1947. Expenditures of \$2,839,777.85 of these State funds, in conjunction with funds of the Federal and local governments, have made possible a program of airport construction and improvement at 23 locations.

Authority in Act No. 3 of the 1949 Legislature has enabled the Commission to use aviation gasoline revenues to improve those parts of the airport that are open to the public. Although this program has been initiated within the year, the Commission has approved 51 projects at a State share of \$93,000.

Plans for an across-the-State system of auxiliary airports parallel to the Turnpike and its extensions, have been prepared by the Commission. The completed study reveals that five new airports will be needed to complete a chain of airports across Pennsylvania with an average spacing of 15 miles. Plans for the construction of these airports have been prepared and steps are being taken to acquire the land necessary to complete the project.

The only airport now operated by the Commonwealth is the Harrisburg State Airport. A master plan for future development of this airport was prepared early in this Administration. Several recommendations of this plan have been achieved, including construction of a complete taxiway system. Two surplus barracks buildings have been converted into offices for public service facilities of the Weather Bureau, Communications Station, Airport Safety Branch and Airport Section of CAA. An airport maintenance building has been built and additional hangar space has been provided for use of the public.

Plans have been prepared and contracts let to install high intensity lighting and, with procurement of 41 additional acres of land, work is now underway to extend the facilities from a Class III to a Class IV airport. These latter improvements are prerequisite to the installation of an instrument landing system and radar navigational equipment. To improve the operating financial status of

Harrisburg State Airport, all leases with the airlines and the operators have been renegotiated with the result that the airport's operating deficit has been greatly reduced and should shortly be eliminated.

Facilitating Aerial Navigation. During the period of this report, 550 standard air markers have been established in Pennsylvania by the Commission and, in addition, 143 forest towers have been marked with identifying numbers. Private industry has cooperated with the Commission and supplemented the air marking program by placing 28 at private expense. With the cooperation of the Department of Highways, 2,000 highway airport directional signs have been placed throughout the State.

Pennsylvania's aeronautical chart, the first edition of which was published in 1947, was the first such chart in the United States. Included on the opposite side of this chart is a directory of the commercial airports in Pennsylvania with pertinent information regarding the facilities that are available at all the airports. This chart has been revised annually and is available to the public at a nominal cost.

To assist further in aerial navigation, the Commission recently adopted a policy of paying half of the cost of the purchase and installation of radio homing beacons at Pennsylvania airports. To date such beacons have been installed at Lock Haven, Franklin, and Connellsville-Uniontown.

Enforcement. Utilizing State Police aviation investigators, the Commission has conducted an enforcement program which has won commendation of the Civil Aeronautics Administration.

All aircraft accidents in Pennsylvania are investigated and reported; 758 such investigations and reports were made during the period covered by this report. Photographs of the accident and special reports are prepared and furnished to interested Federal agencies and, when applicable, to the Crash Injury Research conducted at Cornell University Medical College. As a result of the findings of the Commission's investigators and the cooperation of the aforementioned agencies, it has been possible at times to incorporate new safety features in the design of new aircraft.

Special attention has been paid to low and reckless flying and the investigators are equipped with radio cars and radio equipment for use from aircraft. In the past four years, 662 complaints of safety regulation violations have been investigated and reported.

To assure that airport facilities in Pennsylvania are in safe condition, the commission makes periodic inspections of all airport facilities at licensed airports. The Commission's aeronautical inspectors made 3,717 such periodic inspections during the period of this report.

Promoting Air Travel. The Commission's staff supervised and regulated such activities as "Air Shows" and assisted aeronautical associations such as "The Flying Farmers" and "The Pennsylvania Aviation Trades Association." It also participated in affairs of the "National Association of State Aviation Officials" and the "National Aviation Trades Association."

Education. In cooperation with the Department of Public Instruction, the Commission pursued an active program of Aviation Education. This program includes radio and television broadcasts, addresses on aviation subjects to school and college assemblies, and publication of the "Pennsylvania Aviation News Letter." Actual flight experience in the form of flying classes have been conducted in some schools. Aviation Education Workshops have been arranged in some colleges and a seminar in aviation education for college instructors was conducted last year. The Commission has made available promotional film and equipment to aviation interests in the State.

In an effort to stimulate interest in non-scheduled flying, the Commission sponsored seven air cruises during the period of this report and has been active in promoting special aviation activities in conjunction with Pennsylvania Week.

To assist in providing adequate air transportation service, a survey of air transport needs was made on a State-

wide basis, and periodic meetings were held with representatives of airlines to study new route proposals. At the beginning of 1947, Pennsylvania was served by seven certificated airlines at seven airports; today ten certificated airlines are serving the State at seventeen airports. The outstanding characteristic of this additional air service has been the introduction of local air carrier service which functions between smaller centers of population, previously without air service, and which links these smaller communities with terminal points located in populous cities on air trunk-lines.

Civil Defense. The Commission is actively engaged in Pennsylvania's Civil Defense organization. The Commission's executive director serves as Chief of Aeronautics for the Civil Defense of Pennsylvania. The Commission has joined agencies of other states and national aviation organizations in formulating the Civil Air Mobilization Plan which contemplates the maximum utilization of civil pilots and civil aircraft for Civil Defense purposes.

National Recognition. The Commission received national recognition for two navigational aids—air markers and the Pennsylvania Aeronautical Chart—tending to increase use of the airplane in both business and recreation. The activity of the Commission in the promotion of this type of flying was recognized nationally also in 1947, when the Commission's executive director was awarded the Haire Trophy for outstanding achievement in developing airports for private and commercial non-scheduled flying. Activity in enforcing air safety regulations attracted national attention several times; the Civil Aeronautics Administration commended the Commission for noteworthy accomplishment in accident investigation and law enforcement, and this year the Commission was chosen as the recipient of the Aviation Safety Award for 1950.

Respectfully submitted

THEODORE ROOSEVELT III,
Secretary of Commerce.

COMMONWEALTH OF PENNSYLVANIA
DEPARTMENT OF WELFARE

HARRISBURG

November 30, 1950.

Dear Governor Duff:

I am forwarding herewith the following report of activities of the Department of Welfare during the four years of your administration.

The Department of Welfare during the period from January 1947 to January 1951 has moved forward in a greater degree than ever before in the history of the Commonwealth of Pennsylvania.

Funds and services have been vastly expanded and improved to a point never before reached and the activities and the organization of the Department itself has been progressively revamped to meet requirements and demands.

Fundamental changes within the structure of the Department of Welfare itself include the abolishment of the obsolete and top-heavy Bureau of Community Work and the creation in its place two streamlined Bureaus, a Bureau of Children's Services and a Bureau of Homes and Hospitals. Additionally the out-moded Bureau of Corrections was eliminated and in its place was created the Bureau of Penal Affairs, with this Bureau set up to function under the proposed new penal system which would involve the establishment of a classification center. Other existing Bureaus, namely, the Bureau of Mental Health and the Bureau of Institutional Management were modified in slight degree.

Construction Program

Possibly the outstanding physical accomplishment during the four year period within the realm of the Department of Welfare was the gigantic institutional construction program which totaled approximately \$170,-

000,000. This includes the activation of funds unused both available from the preceding administration plus those funds made available during the current four year period. The immensity of this program can be partly grasped from the fact that it exceeds the total of any four previous administrations.

In addition to adding sorely needed facilities the funds assisted in the modernization and repair of existing plant facilities. Mental institutional capacity has been boosted by approximately 7100 beds as a result of this huge construction program. Other highlights of the construction program include the following:

Value of buildings replaced or rehabilitated—\$12,000,000; Value of boiler plants and steam lines—\$13,000,000; Value of other utilities, electricity, water, sewage, laundry—\$14,000,000; Value of dietary services—\$12,000,000; Diagnosis and treatment facilities provided for 12 institutions; Sewage disposal facilities in whole or in part provided for 12 institutions; Mental hospitals at Embreeville, Hollidaysburg and Somerset—vastly expanded to relieve greatly over-crowded conditions in mental hospitals in the Philadelphia and Pittsburgh areas; Eastern Psychiatric Institute initiated to provide research and teaching facilities in Eastern Pennsylvania; Provisions for reconstruction of Mercy Douglass Hospital in Philadelphia; Residences for 27 physicians and other key institutional employees procured; Site procurement authorized for a Third Institution for the Mentally Defective, designed to relieve extreme pressure for admission at the Penhurst and Polk State Schools respectively.

Fire Prevention

Special attention has marked fire prevention throughout institutional administration. Currently in the final stages is a complete survey of Pennsylvania's mental institutions by the National Board of Fire Underwriters, the first time such a survey has been instituted in the history of the Commonwealth of Pennsylvania. It is hoped this survey will provide an impartial basis for assessing fire prevention needs in institutions. Engineers are presently at work bringing into form plans and specifications to place in operation fire alarm systems at 14 institutions which at the beginning of the administration were inoperable.

Mental Health

In the Bureau of Mental Health a sharp increase has been made in its personnel and its services in order that this unit may more capably execute its responsibilities of administering the mental health laws of the Commonwealth, of coordinating mental facilities, and of promoting the prevention, care, and treatment of mental illness and defect.

Professional leadership of the Commonwealth's mental health program has been strengthened and further developed by the creation of the position of Commissioner of Mental Health which brings the Bureau in closer integration with the several other units of the Department that are involved in the over-all program.

Bureau personnel has more than doubled in number to the present force of twenty of which eleven are professional and technical employees. A full complement of 24 is anticipated. Significant additions have been made in the fields of psychology, psychiatric social work, occupational therapy, and inspections.

For the first time, a new Division of Community Service has been organized for mental hygiene work outside of institutions. Education of lay and professional persons and agencies at the local level is being carried on. Educational institutes are in the planning in addition to the usual resources of selected literature, radio transcriptions, motion picture films, and a circulating library. Grants in aid are being given community mental health clinics to expand area of local services. This Division will increase in importance as we attack the roots of mental illness in order to avert the tendency to build more and more hospital beds. Concurrent with this emphasis on prevention and early treatment is the development of plans to promote psychiatric wards in general hospitals.

Of broad implications is the Bureau's participation in the reorganization of the Western Psychiatric Institute in Pittsburgh and the planning of the Eastern Pennsylvania Psychiatric Institute in Philadelphia.

With a full complement of field representatives the Bureau has made a complete survey of all private licensed facilities to promote more competent and more adequate standards of service and accommodations.

With a full staff of psychologists the Bureau now offers three new clinics in communities where this type of service is not readily available and also consultations in five new counties. In-service training in clinical psychology has been expanded for the profession. By increased case-work and with the cooperation of the State training schools the waiting list for admission to our institutions for mental defectives has been reduced from over 3,000 to under 1,000, notwithstanding increase of applications.

For the first time in about twenty years a state level organized program in occupational therapy for rehabilitation of institutional patients is being developed.

With the creation of a Departmental Committee on Institutional Nursing Services, personnel policies and practices, staff organization, procedures, and matters relating to direct contact with the patient are being reviewed and standardized for the first time. From this comes improved methods of care and treatment.

Deportation of mental patients has been expedited with better coverage by establishing a separate fund within the Department instead of having the individual institution bear the entire cost.

It is important to point out that the ratio of patients to trained personnel at our mental institutions has shown consistent improvement. A shortage still exists in most categories but the frightening shortage noted at the beginning of the administration has been overcome in great degree. In March of 1946 the ratio of nurses to patients was 1 to 116 while by mid-1950 this ratio had decreased to 1 nurse to 61 patients. In 1946 the ratio of attendants to patients, was 1 to 18 while in 1950 the ratio was 1 attendant to 10 patients. During the past four years 202 more nurses and 818 more attendants were employed in mental hospitals alone.

Most important, the rate of paroles or discharges of mental patients has increased from 10% to 58%.

Children's Services

One of the outstanding accomplishments during the present four year period was the creation of a Bureau of Children's Services. Although this Bureau has only been in existence as such, since July 1, 1950, its establishment marks the most forward step in State responsibility for care of children, that has taken place for many years.

Another major step forward in child care has been the appointment by the Governor of a permanent committee known as the "Interdepartmental Committee on Children's Services." This committee, composed of one member from each of the five State Departments having specific responsibility for services to children plus one from the Justice Department, is charged with responsibility for survey, study an correlation of all services to children and to more adequately and economically improve same.

This committee was also designated by the Governor as the official State Agency for Pennsylvania's participation in the "Mid-Century White House Conference on Children and Youth," to be held in Washington, D. C., December 3-7, 1950, and the first duty assigned the committee was to plan for that participation. The Governor also appointed a Citizen's Advisory Committee comprising 142 members, to act in an advisory capacity to the Governor and the Interdepartmental Committee. The Interdepartmental Committee meets monthly throughout the year.

Prior to July 1, 1950, this Bureau of Children's Services, comprising two Divisions, i.e., the Division of SUPERVISION & LICENSING and the Division of RURAL CHILD WELFARE, were part of the Bureau of Community Work. As such, the following highlights have been accomplished during the past four years.

Division of Supervision & Licensing: (1) Field Staff increased from five to fifteen members, thus allowing more adequate supervision and leadership to the approximate 500 institutions and agencies which are the responsibility of this Division. (2) Development of five special services to provide consultative leadership in these five specialty fields, i. e., Day care; Importation of children from other States; Foster home licensing; In-service training for children's institutions; and adoption. Standards, rules and regulations, and proposed legislation, have been developed for these services.

Division of Rural Child Welfare: (1) The establishment as a Division was on July 16, 1947. Previously it had been a Unit of the Family and Child Welfare Division. This Division is Federal aided and operates in sixteen counties. (2) Added one County to their program and increased by 930, the number of individual children cared for in these Counties. (3) Establishment of "educational leave" for County Workers to continue graduate professional study.

Homes and Hospitals

Like the Bureau of Children's Services, the Bureau of Homes and Hospitals has only been established since July 1, 1950, and marks a great forward step in unified hospital supervisory responsibility.

This Bureau comprises four Divisions and was formerly part of the Bureau of Community Work. As a part of that Bureau the following highlights have been accomplished during the past four years.

Division of Survey and Construction: Established July 1, 1948 for the purpose of administering Act No. 527 of the General Assembly, enacted to carry out the provisions of Federal P. L. 725 granting Federal aid for hospital construction. For the fiscal years 1948-49-50 forty-five non-profit hospitals have been assisted with their construction programs in the total sum of \$18,480,792 federal money. Sixty percent of the hospital's construction costs must be supplied by the hospital.

Division of Licensing and Supervision: This is an old established Division having responsibility for the supervision and inspection of all voluntary general hospitals, and the licensing of profit hospitals, nursing and convalescent homes. (1) During 1950 administrative responsibility of the ten State-owned general hospitals was added to this Division. (2) The staff of this Division consisting entirely of registered nurses, was increased by two during this period.

Division for the Aged: (1) Publishing of a directory of "Pennsylvania Homes for the Aged," and preparation of a pamphlet on "History of County Homes in Pennsylvania." (2) Organization of a State Association of County Home Superintendents. (3) Concerted drive on elimination of the old "poor-house" stigma by working with the Counties in the substitution of a personal name in the place of "Almshouse."

Division of Incorporation and Solicitation: (1) Establishment of periodic news releases to acquaint the public with the provisions of the Solicitation Act. (2) Set up a definite pattern by which organizations claiming exemption under this Act can be measured. (3) By a circular letter, offered aid to all State-aided institutions, (they are exempt under the act) contemplating entering into contract with professional funds raising agencies to determine that the contract complies with the law. (4) Approved 51 Articles of Incorporated, 22 Articles of Amendment, 2 Articles of Merger and 1 Articles of Consolidation. Refused 7 Articles of Incorporation and 52 Certificates for solicitation and revoked one certificate for solicitation. At the close of this period there are 609 Certificates of Solicitation in effect.

The State Council for the Blind was very active during the past four year period. A total of 431 blind Pennsylvanians enjoyed restored useful vision through Council services.

Territories served by home teachers was increased from 23 to 40 counties; 231 blind children of preschool age and their families were given tangible services by our counselling service for blind children of preschool age which

program was initiated only 3½ years ago. These services were in 46 counties.

The active rehabilitation caseload numbered 150 as of December 31, 1946, whereas this number was increased to 935 as of August 31, 1950. On June 30, 1946, the Rehabilitation Section of the Council stood 34th among the States of the Nation on a basis of total number of industrially blind clients rehabilitated for the year, whereas for the year ending June 30, 1950, the Council stood first among the States of the Nation on a basis of total number of industrially blind clients rehabilitated.

Accounting Division

The Accounting Division of the Department of Welfare has initiated several new functions. It has established an "Average" system of monthly billings at all Penal, Correctional, and Mental Institutions whereby the billings at each institution are based on the average costs of the preceding twelve months instead of actual costs each month.

In addition there has been established, with the approval of the Department of Property and Supplies and the General State Authority, a system for the procurement of equipment for newly constructed buildings at state-owned Welfare institutions whereby, if available, these buildings may be equipped in a prudent and expeditious manner ready for occupancy.

In accepting Federal funds for aid to general hospitals for construction, and for establishment and aid to Mental Health Clinics, a system for the prompt and orderly receipt and disbursement of such funds has been set up.

The Division has established rules, regulations, and an accounting system covering quarterly payments to state-aided general hospitals conducting Nurses Training Schools under Act 86A, Session of 1949, whereby each such hospital is entitled to \$75 per annum for each such student nurse in training.

Approval has been requested and secured of increased maintenance allowances for employees at state Welfare institutions to be placed into effect where and when the Department, with approval of the Governor, feels such increase is necessary.

Penal Institutions

Commendable progress has been made during the past four years in matters pertaining to penal affairs in Pennsylvania. The old Bureau of Corrections was abolished and in its place was created the Bureau of Penal Affairs. This new Bureau has been designed to increase the efficiency of Pennsylvania's penal system. This includes the supervision and inspection of more than 400 borough lock-ups and jails, 68 county prisons and 8 penal and correctional institutions. Within the four year period a completely new system of inspection of borough lock-ups and county prisons has been instituted, closing many of the loopholes which previously existed. It is the general consensus that today Pennsylvania's supervision and inspection system is superior to that of any other state.

Great strides have been made in Pennsylvania's rehabilitation program within its institutions, including vocational, educational, and religious training. The Prison Industries Division of the Department of Welfare reports that during the past four years an average of 1200 inmates per year had been taught one or more trades prior to release or parole.

The fifteen Prison Industries now being operated at six different Penal and Correctional Institutions have had modern equipment installed, have all been enlarged and have patterned after similar industries on the outside so that the inmate when paroled or released can take his place in outside industry. Special emphasis has been placed on the elimination of accident and fire hazards.

Prison Industries

Prison Industries are now in the best economic and financial condition in their history as the result of emphasizing efficient and business-like operation. Assets have been built up to over one million dollars worth of mod-

ern equipment and over a million dollars worth of raw materials, semi-finished and finished goods.

Other accomplishments include: Installation of better sales force and better selling procedures, coordination of production by Prison Industries and sales to State-use markets, improvement of raw material procurement procedures, complete reorganization of rehabilitation program, advance planning for new industries and new products to expedite installation when needed, installation of latest safety devices on all equipment, revision of cost accounting and general accounting and improved Public Relations Program.

To compare first some of the salient statistics, sales of Prison Industries products, which are restricted by law to tax-supported agencies and on which all other phases of the program are dependent, amounted to \$1,260,640.00 in 1946 and in 1950 will total \$2,500,000.00. Likewise profits in 1946 were \$250,000.00, in 1950 they will amount to approximately \$500,000,000. The average monthly number of State Prison inmates given trade training, rehabilitative work in Prison Industries during 1946 was 1050. For 1950 there will be an average monthly employment of over 1300 in Prison Industries.

Accomplishments and improvements were high-lighted by the following: Completion of industrial building group at Pennsylvania Industrial School, Camp Hill; Erection of modern industrial building at the State Industrial Home for Women, Muncy; completion of new industrial building at New Eastern State Penitentiary, Graterford completely rebuilt four large industrial buildings at Western State Penitentiary, Pittsburgh; enlarged industrial buildings at New Western State Penitentiary, Rockview. All of these industrial buildings were erected and paid for by Prison Industries.

Bureau of Penal Affairs

In the past four years the Bureau of Penal Affairs conducted 2,363 inspections and when objectionable conditions were found to exist, recommendations were submitted to the officials in charge.

A uniform classification summary was formulated and put into operation in our State Penitentiaries and Correctional Institutions. This classification summary has been an aid to the various Institutional Classification Clinics to evaluate all inmates more accurately so they can be assigned to the proper institution where a rehabilitation program, to meet their individual problems and abilities, is available.

Rules and Regulations for City, Borough and Township Lockups were revised.

The Bureau was instrumental in amending the Act which created the Pennsylvania Institution for Defective Delinquents. New forms for the admittance and release of inmates from that institution were formulated to comply with the amendment.

Respectfully submitted,

WILLIAM C. BROWN,
Secretary of Welfare

COMMONWEALTH OF PENNSYLVANIA HEADQUARTERS FOR SELECTIVE SERVICE

HARRISBURG

November 30, 1950

Dear Governor Duff:

I am pleased to submit this report of operations of the Selective Service System of Pennsylvania for the years 1947 through 1950, inclusive.

Liquidation of Selective Service

Early in the year 1947, it became apparent that the Selective Service System was about to terminate its activities in Pennsylvania and all other states. I, as State Director, was ordered to close our Local Boards, 422 in number, as of May 31, and upon the expiration of the Selective Training and Service Act of 1940, Congress

passed an Act authorizing the setting up of the Office of Selective Service Records, under which a central records depot would be set up at one point in each state, in which all the records of all the Local Boards, Appeal Boards, and State Headquarters of Selective Service would be gathered together under one roof and rearranged to provide the utmost in service.

Through the help of Rear Admiral Charles W. Fox, Supply Officer in Command of the Naval Supply Depot at Mechanicsburg, we obtained the use of half of Warehouse 308, approximately 60,000 square feet of space, rent free, and with light and heat provided without charge. This location is still in use by us, under most satisfactory conditions, with the permission of the Navy Department and Admiral Antrim who is now in command. All records and such equipment as was required at the central depot were moved into this building, and all other surplus equipment and furniture were turned over to Adjutant General Weber of Pennsylvania.

At the beginning of 1947, there were on the Local Boards, a clerical force of 471 compensated personnel, 1262 Board Members, 443 Government Appeal Agents, and 5417 other uncompensated personnel. At State Headquarters, there were 10 officers and a clerical force of 119. State Headquarters was ordered closed by August 31, at which time the last members of our force were separated, National Headquarters under Major General Lewis B. Hershey, Director, continuing, however.

Organization of Selective Service Records

The Office of Selective Service Records was set up as described above in Building 308, Naval Supply Depot, Mechanicsburg, with an authorized strength of 42 personnel, including a Director, an Assistant Director, 3 Supervisors, and 37 other employees. All of these individuals had had previous experience as Local Board Clerks or in State Headquarters, and although the scale of compensation of the OSSR was considerably below that of the Selective Service System, many came over to the new organization at reduced pay, but again under Federal government service.

Department of Military Affairs

In May, 1947, a conference was held between representatives of this headquarters and the Adjutant General of Pennsylvania at which the organization of the Selective Service Section was discussed, names for membership were submitted, and plans were made for the future. From that time to the present this Section has been continuously organized and trained as a part of the State Staff of the Pennsylvania National Guard, under the direction of the Adjutant General with drill training provided by Selective Service Headquarters personnel.

Selective Service Reserves

During the winter 1947-48, efforts were put forth to secure the consent of former Local Board Members, Government Appeal Agents, and Appeal Board Members to serve again if necessary in an emergency with their former Boards and in their former Board areas and locations. This work was carried on continuously with a considerable amount of success—888 former Members agreed to serve, 302 Government Appeal Agents were also willing to become members of the reserve, and 28 Appeal Board Members were willing to undertake their former task again, if necessary.

In March, 1948, it became apparent that our relations with Russia were worsening, and President Truman suggested the possibility of again resorting to the draft to fill up the armed forces, the strength of which had reached a low ebb. Efforts were put forth from that time to anticipate the reactivation of Selective Service in Pennsylvania by getting in touch with key personnel, locating a State Headquarters, and such other actions which could be begun in advance of direct orders.

On June 24, 1948, the Selective Service Act of 1948, having been passed by both Senate and House, was signed

by the President, and shortly thereafter, on July 22, 1948; you named me for the position of Director of Selective Service in Pennsylvania.

State Headquarters were established in a portion of the former space which we occupied previously in the Northwest Office Building, with the consent of Senator Gelder, the Chairman of the Liquor Control Board, who provided us with adequate space. I am very appreciative of his courtesy in inconveniencing his organization and disarranging his plans to some extent in supplying us with quarters.

Under directives from General Hershey who had been appointed Director of Selective Service, we set up 175 Local Boards in 100 locations throughout Pennsylvania. Staffed by 170 clerks. Our State Headquarters, to which the Records Depot was joined as the Records Section, had a total authorized strength of 61 of all grades, the staff being set at seven, including the Director and Deputy Director.

Registration period was set to begin August 30 and to extend through September 18, at which time were registered all men 18 through 25 years of age. The areas of the Local Boards were made up of multiples of the former old Board areas, under new designations numbering from 1 to 175. Some difficulty was experienced in obtaining Members, Government Appeal Agents, and Clerks because of the change in location of the Boards, the increased distances over which individuals were compelled to travel, and because of the fact that persons who had previously consented to serve did so on the basis of the original 422 Board set up. In combining Board areas, the new Boards were set up with representatives from each of the areas included, so far as possible.

Adjutant General Frank A. Weber was of the greatest assistance in the setting up of the Boards by lending back to us such of the equipment of the former Selective Service System as we required from such stores as had previously been turned over to him from the liquidation of the Selective Service System in the State.

Dr. Haas, Superintendent of Public Instruction, requested state-wide cooperation of the public schools in assisting in registration, both as to location and personnel. His efforts were most successful and were greatly appreciated.

New Selective Service Operation

Under the Selective Service Act of 1948, we registered a total of 724,577 registrants 18 through 25 and were immediately called upon to deliver men under the following induction schedule for Pennsylvania:

November, 1948	630
December, 1948	998
January, 1949	658

Pennsylvania met its Calls. For preinduction physical examinations seven times the number of men called were sent up for examination in order to obtain the number required. This high percentage was due to selection being made beginning with age 25 and downward and dealing with those who had not served in World War II, hence containing a high percentage of men physically unfit for service.

Inductions were discontinued upon the induction of the January, 1949, Call, since it appeared that our international relations had somewhat improved, and for the remainder of the year 1949 our appropriations and activities were constantly being reduced and limited, personnel were laid off, and our clerical Local Board force was reduced to one-quarter time.

The year 1950 began with the continuing reduction in activities, with some doubt as to the continuation of the Selective Service System and whether or not the Act would be continued beyond its expiration date in June 1950. On June 28 North Korean forces invaded South Korea, and the United States and other United Nations forces entered the conflict. On June 30, 1950, the Selective Service Act of 1948 was extended to July 9, 1951, and the entire System was called back to full duty. Pennsylvania has thus far received the following Induction Calls:

September	3503
October	3493
November	4763
December	2630
January, 1951	2718

The Pennsylvania Selective Service System has met all Calls to date placed upon it by the Director of Selective Service in Washington.

In August and September, 1950, more than 40,000 men were moved from the Local Boards to Induction Stations throughout the State, more than 18,000 of which were moved to Induction Stations for preinduction physical examinations and returned to their homes, and 3500 of which were inducted—a total of 40,000 man trips. This was necessary again because of the high rejection rate for the September Call.

At the present time, men 22 years and under are being inducted, and since these men are not in the veteran age group, the normal proportion of physically fit prevails, and the acceptance rate is running very high.

The Selective Service organization within Pennsylvania as of this date consists of State Headquarters, one Appeal Board, and 175 Local Boards. The staff of this Headquarters includes a State Director, Deputy State Director and 8 other staff members making a total of 10, of whom 8 are commissioned officers. The State Headquarters personnel totals 51 clerical employees, while the Local Boards have 308 compensated personnel and 2227 uncompensated personnel throughout the State.

During your administration we have terminated one Selective Service Act, set up a Records Depot, have begun operations under another Act, and have continued operations, as at present, under an extension of that Act. These have been very vital periods in the life of the Selective Service System in Pennsylvania. We have tried to meet changing conditions and to conform to changing laws. At all times the Selective Service System in Pennsylvania has fulfilled its obligations fully and completely and has endeavored to do its duty with the least disturbance to individuals and to the State.

Our Records Division, with the files of approximately 4,000,000 Pennsylvanians, has been of constant assistance to the Bonus Bureau set up under the Department of Military Affairs to pay approximately \$400,000,000 to the servicemen and women of this State.

A total of approximately 1,250,000 persons from Pennsylvania served during World War II. Of this number 70,000 cases have been referred to our Records Division for the completion or correction of lacking or inaccurate data pertinent to the service of these citizens. We have been most happy to cooperate in this work.

Any accomplishment of the System during your administration has been in a very large part due to the unflinching support and assistance which you have rendered to me as State Director. Your backing and assistance have made it possible to establish and continue on a firm foundation a nonpartisan, non-political, fair organization, carrying on an unpleasant duty with the utmost information to the public who are most concerned. Because of your confidence and support, it has been possible to obtain and maintain the great loyalty and morale which have existed in this State within the System from top to bottom.

All-Out Mobilization—Decentralization

The future looks dark. We are faced with a second and greater war in Korea and China and the world at large. Should all-out mobilization be required of this Country and of this State, we have, under the direction of National Headquarters, prepared a plan for the further decentralization of the System by expanding from 175 Local Boards, as at present, to 846 Boards covering the State. This would be necessary should women be required to register and because of the greater burden of registration of manpower alone. All plans have been completed for the physical allocation and setting up of Local Board areas geographically.

In the plans which we have carried out at General

Hershey's direction, there have been included no provisions for personnel such as Local Board Members, Government Appeal Agents, or Clerks. With General Hershey's permission, I have set up again in this State a Reserve of Local Board Members, Government Appeal Agents, and Clerks who could, by the end of this year, man all the 846 contemplated Boards, and who could begin operations within two weeks. Please be assured that all possible steps are being taken to safeguard the State and to carry out all foreseeable needs in the expansion of the System.

Respectfully submitted

HENRY M. GROSS,
State Director, Selective Service.

COMMONWEALTH OF PENNSYLVANIA
DEPARTMENT OF LABOR AND INDUSTRY

HARRISBURG

December 4, 1950.

Dear Governor Duff:

I have the honor to submit the following report of the Department of Labor and Industry from 1947-1950:

Workmen's Compensation Bureau

The following activities and accomplishments of the Bureau of Workmen's Compensation demonstrate the progressive attitude of the Administration for the past four years:

In the year 1947 there were 124,883 accident reports handled: 1948—117,742; 1949—94,514, or a total of 337,139. In the year 1947 the Bureau approved 71,832 agreements; 1948—66,943; 1949—57,023, or a total of 195,798. In the year 1947 the Bureau handled 7,187 petitions and sent out 6,152 decisions; 1948—6,372 petitions and sent out 6,223 decisions; 1949—6,504 petitions and sent out 6,629 decisions. The total amount of compensation payable to claimants or their dependents is as follows: 1947—\$15,361,849; 1948—\$14,933,833; 1949—\$15,793,849 or a total of \$46,089,531. The first ten months of the year 1950, there were 79,649 accident reports handled, 48,592 agreements approved, 4,723 petitions handled, 5,052 decisions sent out and the total amount of compensation payable to claimants or their dependents was \$14,399,679.

Bureau of Inspection

During the Administration the frequency rate of accidents decreased from 15.08 to 11.09 or 26.5% and the severity rate from 0.951 to 0.765 or 19.5%. This was brought about by the fine cooperation between employers and employees, and also by the excellent work accomplished by our inspectors.

During the past four years the Division of Bedding and Upholstery has made 36,321 inspections, 3,167 visits, issued 929 orders, entered 39 prosecutions and 35 prosecutions were closed. This division's laboratory analyzed 3,279 samples procured by our inspectors and from other sources. The amount of gross income for this period totaled \$365,855.00, the expenditures amounted to \$180,101.29 and the profit amounted to \$172,906.71.

The Boiler Division reports the following recapitulation:

Internal Boiler Inspections	148,429
External Boiler Inspections	47,614
Unfired Pressure Vessel Inspections	202,970
Manufacturer's Data Reports for New Equipment	26,948
Invoices Issued	\$699,561.55
Fees Collected	\$699,282.56

The Buildings Division reports the following in recapitulation:

Total Plans Approved	225,702
Total Revenue for Plan Approval	\$169,122.00
Motion Picture Licenses Issued	41,566

Total Revenue for Motion Picture

Licenses 71,027.00

Total Revenues \$240,149.00

In addition, the Elevator Division made 61,989 inspections, 9,011 visits, and issued 12,376 orders. The division received \$386,856.50 in fees and \$981.50 in fines during the period for a total of \$387,838.00. Expenditures for the period totalled \$404,979.22.

Bureau of Mediation

For the last four years, the work of the Bureau of Mediation increased considerably, partly due to the Federal Labor-Management Act of 1947, better known as the Taft-Hartley Act. From January, 1947 to October, 1950, inclusive, the Bureau of Mediation handled 4,678 cases, involving 1,089,477 employees; 676 strikes involving 270,787 employees; 3,997 controversies involving 818,591 employees; and 5 lockouts involving 99 employees.

Bureau of Research and Information

The Bureau of Research and Information is responsible for gathering statistics and collecting information of all kinds relating to labor and industry. Its publications include monthly releases on employment, building and industrial injuries, a quarterly release on changes in cost of living and annual reports on building and industrial injuries. All releases are free to the public.

Since January, 1947 the Bureau streamlined and simplified the preparation of its releases so that they not only contain more data, but also are published one to five weeks earlier, with annual reports as much as eight months earlier.

A complete revision of the employment program was made in 1947, which made possible a 100 percent coverage of Pennsylvania nonfarm employment, replacing the previous two-thirds coverage. The Negro Research and Planning Unit has been responsible for the reclassification of many Negro workers from laborer to skilled jobs. This is unique in that Pennsylvania is one of only six States with such a program.

Also accomplished since January, 1947 was reopening of the library. Special studies were published and numerous requests answered, many requiring additional tabulations. All of the improvements within the Bureau during the past four years have been made without additional personnel, by the development of higher standards and more efficient procedure.

Bureau of Women and Children

Eight years ago this Bureau had to turn its entire attention to a rapidly expanding war production program. There were a number of features in the Women's Labor Law, as well as a number of regulations promulgated by the Industrial Board, which seriously hampered our efforts in Pennsylvania. After the war was over, these provisions were carefully reviewed and in the 1947 Session of the Legislature, the Women's Labor Law was amended so that today we have entered another war production effort with our laws, rules and regulations stream-lined to meet the emergency situation.

The far sighted efforts of the present Administration are responsible for the fact that the women of Pennsylvania enter an all out production effort with good standards of employment which include reasonable hours of work, suitable rest periods, elimination of occupational hazards, equal pay for equal work, and the opportunity for jobs and advancement along lines with their abilities.

The Child Labor Law was not amended and continues to give to the children of Pennsylvania protection which will insure their educational opportunities and good safety provisions when they are employed. It is with pride that a proficient Republican Administration can point up the fact that the exploitation of children in Pennsylvania has been eliminated without in any way hampering our production efforts.

Since the Women's Labor Law was amended in 1947 to permit the employment of women more than 18 on a two or three shift basis, more than 1000 permits have been granted to manufacturing establishments for women to be employed on a two or three shift basis. This employment is entirely in those industries where women do work, and so far we have not had any report of men being displaced because men do not do work traditionally done by women.

Division of Private Employment Agency Licenses

The Division of Private Employment Agency Licenses set an all-time record during the Administration. Receipts since January, 1947, totaling \$147,832 were the largest since its inception in 1915, exceeding by \$34,057 the previous record of \$113,775 reached during the period January, 1943 to January 1947.

Employment Agency License Fees	\$144,000.00
Non-Fee Registration & Theatre Rep. Licenses	3,512.00
Labor Recruiting Certificates	195.00
Prosecution Fees	125.00

Total \$147,832.00

Bureau of Employment and Unemployment Compensation

Two sessions of the General Assembly made further refinements and substantial changes in the State's Unemployment Compensation system. The most important changes came in the 1949 legislation, whereby the experience-rating program was revised from the benefit-wage ratio plan to the employer reserve plan. Altogether, Pennsylvania employers have been saved about \$500 million in reduced contributions during the past four years by its experience-rating system. The lower rates have been favorable to the competitive needs of Pennsylvania industry. On the other hand, benefits to the unemployed were substantially liberalized by legislation. The maximum compensation payable has been increased from \$20 a week for a maximum of 20 weeks in 1946 to \$25 a week for a maximum of 24 weeks in 1950.

Easements, limitations, requirements, and privileges favorable to a better unemployment-insurance system were legislated, some applying to employers, some to employees, as well as to the administrative agency and to the appeals authority. By use of the general criminal code in county courts, prosecutions of fraudulent claims have increased, with a consequent decline in attempted violations of the law's penal provisions. A total of \$950 thousand was recovered from claimants to whom overpayments were made.

Periods of very heavy unemployment and high employment were experienced, due to the post-war adjustment and growth of Pennsylvania industry to new all-time record high levels. Taxable payrolls are running at a \$7.7-billion-per-year level, as of the latest information compiled, with total payrolls of covered employers at \$9 billion. Further expansion is anticipated in this basic source of revenue for the financing of this employment security program.

The most recent statistics show that the Pennsylvania Unemployment Compensation Fund is still in sound condition despite heavy withdrawals. The financial estimated balance as of December 31, 1950, is \$536,000,000.

Workmen's Compensation Board

During this administration, the Workmen's Compensation Board has materially speeded the disposition of cases appealed to it. On January 1, 1947, there were 305 appeals pending before the Board. From January 1, 1947 to October 31, 1950, inclusive, 3,405 appeals were filed, and during the same period of time, the Board disposed of 3,297 appeals. On October 31, 1950 there were 319 appeals pending before the Board.

In addition, the Board handled a large number of miscellaneous petitions. From January 1, 1947 to October 31, 1950, inclusive, the Board disposed of 841 commutation petitions; 1,527 guardian petitions; 78 counsel fee

petitions; 279 further medical petitions; 118 physical examination petitions and 146 miscellaneous petitions.

The appeals taken to the Board were slightly increased in the years 1947 to October 31, 1950, inclusive. Appeals from the Board to the courts are less than heretofore, and the number of cases in which the Board is sustained by the Common Pleas and Superior Courts shows a steady increase.

On January 1, 1947 there were 2,862 cases pending before the referees. From January 1, 1947 to October 31, 1950, inclusive, 25,689 cases were assigned to the referees and during the same period of time, 25,351 cases were disposed of by the referees. On October 31, 1950 there were 3,200 cases pending before the referees.

Labor Relations Board

During the past four years, 838 cases were filed with and processed by the Pennsylvania Labor Relations Board. During this period, there has been considerable uncertainty concerning the conflict of jurisdiction between the National and State Board. Undoubtedly by reason of this fact, many labor disputes which would otherwise have been referred to this Board were filed elsewhere or neglected. In spite of this fact, however, the activities of the Board have constantly increased. The 240 cases filed as of November 27, 1950, makes the year of 1950 the banner year in the Board's history. This shows conclusively the increased need for the services performed by the Board and the greater reliance placed in the Board.

Industrial Board

A total of 1,334 petitions were handled by the Industrial Board, 430 in 1947, 204 in 1948, 290 in 1949 and 410 in 1950. The petitions handled include appeals from decisions of the Department on the application of Labor Laws, Fire and Panic Act, Boiler Law, Elevator Law, Bedding and Upholstery Law, Lead Law, Dry Cleaning Law, Child Labor Law and the Women's Law and the regulations of the Department. These petitions also include requests for modification of existing regulations and extensions of time to comply with these regulations.

The Boiler Advisory Board considered and acted upon 239 cases, examined 149 applicants for commissions as boiler inspectors, 109 of whom were issued certificates as approved inspectors. In addition, 117 inspectors were commissioned as approved Pennsylvania inspectors for inspection of boilers during construction on the basis of a reciprocal agreement existing between several States enforcing the same boiler code.

The Elevator Advisory Board submitted recommendations to the Industrial Board on 314 petitions. One hundred thirty-eight applicants for commissions as elevator inspectors were examined and 85 were issued certificates of competency.

Recapitulation

New Regulations Approved	9
Regulations Revised	6
Regulations Extended	5
Amendment to Regulations	25
Regulations Rescinded	7
Interpretations of Regulations	7
Administrative Rulings	1
Petitions Handled	1334
Safety Devices:	
Final Approval	179
Special Approval	2
Tentative Approval	74
Disapproved	29
Hearings Held in Conjunction with Industrial Board Meetings	25
Industrial Board Meetings	42
Boiler Advisory Board Meetings	15
Boiler Board Cases Handled	239
Boiler Inspectors Examined	149
Boiler Inspectors Commissioned After Examination	109
Reciprocal Commissions Issued	117
Elevator Advisory Board Meetings	15

Elevator Board Cases Handled	314
Elevator Inspectors Examined	138
Elevator Inspectors Commissioned	85

Pennsylvania Unemployment Compensation Board of Review

Procedures in connection with the scheduling of hearings and the preparation of decisions have been streamlined in order to facilitate prompt and efficient determination of appeals at both Referee and Board levels. In order to expedite the disposition of further appeals from Referee decisions, the Board has adopted a procedure whereby claimants and employers may waive a hearing in connection with the further appeal and request that the Board proceed to review the Referee's decision and apply the Law to the facts based on the record of testimony established at the Referee level. This procedure has eliminated the scheduling of additional hearings in approximately 15% of the further appeals filed with the Board from Referee decisions.

State Workmen's Insurance Fund

The net premiums written for the first three years of the Administration amounted to \$12,546,847, and on the basis of premiums written for the first ten months of this year, net premium writings for the year 1950 will be approximately \$4,180,304, or a total for the Administration of approximately \$16,727,151.

The losses paid during the same period will amount to approximately \$9,505,175.

Invested assets for the four year period averages approximately \$15,654,243 per year of which \$9,000,000 represents Government Bonds.

The reserve for the payment of outstanding claims has averaged \$6,131,155 each year; while the surplus has averaged \$6,017,940 for each of the four years. In addition to the regular reserve for the payment of claims, a Contingency Reserve of \$1,000,000 has been set aside, and a Catastrophe Reserve of \$1,000,000.

Pennsylvania Apprenticeship Council

During the Administration coming to a close, 4,854 employers registered standards of training with the Council which were approved and covered 10,141 potential apprentices in a wide variety of trades, crafts and skilled occupations. At the same time, a total of 2,722 certificates were issued to apprentices who completed their course of training.

Respectfully submitted

WILLIAM H. CHESNUT,
Secretary of Labor and Industry

COMMONWEALTH OF PENNSYLVANIA
PENNSYLVANIA GAME COMMISSION

HARRISBURG

December 1, 1950.

Dear Governor Duff:

The Pennsylvania Game Commission during your Administration has continued to set an example of efficiency in the fields of wildlife management, protection and restoration, as well as by the business methods used in its administration.

Much credit for the success must go to you personally for your interest, determination, and wonderful cooperation with our every effort in behalf of conservation in general and wildlife specifically. Pennsylvania is the envy of many beyond our borders only because of what we have and what we have accomplished. Our efforts are constantly in behalf of preserving and using wisely our natural resources, which have been in complete harmony with your progressive program of conservation.

One of the Commission's major accomplishments was the complete reorganization of its forces to obtain better results and give improved service at less cost. The administrative set-up was streamlined to fix definite re-

sponsibility for functions and to have it operate more efficiently; the field divisions rearranged to provide better administration at reduced cost, and the game protector districts defined within county areas as an aid to public understanding and to improve law enforcement and co-operation.

Bureau of Administration

The Game Commission is charged with the responsibility of administering one of the special funds of the Commonwealth—the Game Fund. It is constantly endeavoring to secure maximum results from the revenue for wildlife conservation, and seeing to it that the money is spent wisely, for the benefit of wildlife and all the people of the Keystone State. Briefly, the following report of our finances and various statistical data are related to the Commission's program:

Fiscal Year	Revenue	Expenditures
June 1, 1946-May 31, 1947	\$ 2,396,130.63	\$ 2,467,963.20
June 1, 1947-May 31, 1948	2,330,788.00	2,858,251.08
June 1, 1948-May 31, 1949	2,623,036.58	3,035,537.01
June 1, 1949-May 31, 1950	3,960,735.31	3,651,823.52
Totals	\$11,310,690.52	\$12,013,574.81

The substantial increase noted in revenue beginning with the 1949-50 fiscal year was primarily the result of the increase in the Resident Hunter's License fee from \$2.00 to \$3.15 and the Non-Resident Hunter's License fee from \$15.00 to \$20.00 by the 1949 General Assembly, effective September 1, 1949.

The reserve of more than \$1,350,000 which was accumulated during the war, on hand May 31, 1946, was spent during the three fiscal years which ended May 31, 1949, as planned in advance by the Commission. This explains why the expenditures exceeded the revenue.

The following hunting licenses were issued:

Year	Fee	Resident Number	Fee	Non-Resident Number
1946	\$2.00	*832,846	\$15.00	23,174
1947	2.00	*822,423	15.00	28,012
1948	2.00	*854,840	15.00	28,085
1949	3.15	*815,915	20.00	24,032

* Includes free licenses issued to members of the Armed forces: 1946, 7,418; 1947, 2,876; 1948, 3,770; 1949, 5,581; and 275 free licenses issued to Disabled Veterans authorized by 1949 General Assembly.

The following Hunting Accidents were reported:

Year	Fatal	Non-Fatal	Total
1946	29	337	366
1947	29	426	455
1948	23	418	441
1949	25	453	478

Despite the fact that more hunters were afield during the past four years than any like period, the percentage of fatal accidents was reduced. Your Hunt Safely Week Proclamations have had the effect of arousing the people of Pennsylvania into action and opened the way for a new approach by the Game Commission to prevent shooting accidents and to stress the safe handling of firearms. The Widespread use of mats by newspapers portraying the cause of hunting casualties through the careless use of firearms has been proving helpful. There was an average of one fatal accident for every 32,352 licensed hunters, based on an average of 857,331 licenses sold per year, as compared to an average of one fatal accident for every 13,006 licensed hunters during the 31 years preceding May 31, 1946, based on an average of 523,801 licenses sold per year.

Official Game Kill

Federal Aid for Wildlife

The Commission has taken advantage of all the federal funds made available under the Pittman-Robertson Federal Aid in Wildlife Restoration Act since its inception in 1939. This fund comprises the excise tax on the sale of firearms and ammunition. It is allotted to the various State, 50% on the basis of the ratio of hunter's licenses sold, and 50% on the ratio of square miles of area in the Commonwealth. During the four (4) fiscal years included in this report Pennsylvania's apportionment amounted to \$1,333,645.62. The 75% reimbursement on completed projects, or those in process of completion, from June 1, 1946 to May 31, 1950 amounted to \$1,091,382.95.

Conservation Education

The Conservation Agencies of other states like the Pennsylvania Game Commission now realize more than ever the importance of having its people better informed on the necessity for conservation of natural resources, including wildlife. Pennsylvania has, therefore, advanced considerably its conservation education program and is working towards the ultimate goal of having our youth learn the fundamental lessons in our schools. An informed public will result in better cooperation and observance of the Game Laws and a greater appreciation of the Great Outdoors.

Conservation as a basic educational factor in the schools was stressed and many new motion pictures, bulletins, etc., were made available for schools, sportsmen's and other groups. Much conservation feature material for the use of teachers was published in the Commission's monthly publication "Pennsylvania Game News."

A conservation manual sponsored and subsidized by the conservation branches of the State Government for the use of Junior Conservation Clubs in high schools was prepared and will be published. When available it will be released by the Department of Public Instruction to the high schools.

Specific conservation programs were conducted with several agencies all of which were subsidized wholly or in part by the Commission. Among them were:

1. Cash awards amounting to a total of \$500 (\$250 annually) were made to the winners of first, second and third places in conservation essay, poster and photographic contests sponsored by the Forensic League of the University of Pittsburgh. This project is now in its third year and is very popular among the students.

2. Cash subsidies in the amount of \$1,000 each were granted annually to the Academy of Sciences, Philadelphia, and the Carnegie Museum, Pittsburgh, to develop conservation education exhibits.

3. One thousand dollars was donated to the Pennsylvania State College also to help maintain the Conservation Education Laboratory for Teachers, which is being subsidized at present by the several state conservation agencies and private groups. Commission personnel also assisted in field and classroom instruction insofar as the wildlife program was concerned.

Wildlife Exhibits

Under the present policy of the Game Commission three

major wildlife exhibits are displayed annually, at the State Farm Show at Harrisburg in January, the Philadelphia Motor Boat and Sportsmen's Show in March, and the Allegheny County Free Fair at Pittsburgh in September. Attendance at these three exhibits totals approximately 800,000 persons a year.

Hershey Park officials made available the use of a permanent facility wherein a wildlife conservation education exhibit was displayed from May through September. More than 500,000 persons, many of them school children, visited the exhibition, which is scheduled to be a permanent annual affair.

Junior Conservation Activities

The Commission is cooperating with other state conservation agencies and the Federated Sportsmen of Pennsylvania in providing a program for a summer Junior Conservation Camp, south of State College, sponsored by the Pennsylvania Federation of Sportsmen's Clubs. This camp was started in the summer of 1948 and is conducted for sophomores and juniors in high schools. It is also working closely with the 4-H Clubs and Boy Scouts, encouraging them to carry on wildlife projects.

Ross Leffler School of Conservation

Ever since Pennsylvania inaugurated the first school for conservation officers in the United States in 1936, the training program has been constantly improved. Nowhere in the world are potential conservation officers given such intensive training for so long a time, and the noticeable improvement in the Commission's work, especially during the past several years, is proof of the effectiveness of the conservation training course. The present handicap is the inadequate facilities for the school.

The fourth student class consisting of twenty-eight men was graduated from the Ross Leffler School of Conservation on June 3, 1947. The fifth class, comprising twenty-five Pennsylvania men and one man from the State of Washington, was graduated on May 27, 1949. The Sixth Class comprising twenty-five Pennsylvania men was enrolled April 30, 1950 and is at present undergoing a year's course of rigid training.

A field conference and school of instruction for all field and staff employees of the Commission was held at Indian-town Gap Military Reservation during the latter part of August, 1948, and a refresher course was given to all field personnel during the summer of 1949.

Wildlife Research Division

The Game Commission is constantly searching for more information concerning the habits of birds and animals; how to improve the quality and numbers of our beneficial wild creatures, and how to improve the food and general habitat conditions for all wildlife. The following are the principal accomplishments of the Wildlife Research Division during the past four years:

1. A mammal survey of the entire state was inaugurated. Two-thirds of the state has been completed and the reports prepared. By June 30, 1951, the entire survey will be finished.

2. A wild waterfowl survey and inventory of Pennsylvania was completed. Management recommendations have been submitted and are being put into effect.

3. Field investigations of bobwhite quail have led to a program of selective breeding at the Game Farm in an attempt to increase the breeding of these game birds in the wild throughout the state.

4. The study of the use of the bulldozer in game management has been completed, with the result that the bulldozer is an accepted tool of wildlife management under certain conditions.

5. Comprehensive studies of predator-prey relationships are under way. Initial studies, prior to field investigations, have been completed.

6. Cottontail rabbit management studies are under way in three sections of the state. These studies are intended to provide management recommendations for the restora-

tion of rabbits to abandoned lands now supporting little or no game populations.

7. Game bird nutritional studies are being conducted. These studies have already been used in game ratios at our State Game Farms.

8. Woodcock censuses have been conducted and the information secured has been forwarded to the U. S. Fish and Wildlife Service.

9. More than 700 wood duck nesting boxes were constructed and erected. The report on the success of this venture in Pennsylvania shows the practicability of the program.

10. Life history studies of the cottontail rabbit, the ruffed grouse, the gray squirrel, and the ringneck pheasant, are under way. The object of all these studies is to provide management recommendations in order to increase the population of these various game species.

11. A study of the use of fertilizers, chemical sprays, etc., in order to increase mast production, is being made.

12. A study of the effects of weather on the oaks, hickories and walnuts in order that a forecast of mast production may be accomplished, is in progress.

Bureau of Wildlife Conservation

Proper land management is recognized as essential to good wildlife management. Fertile soils produce the best game crop. The Commission is endeavoring to increase the food supply for wildlife by improving, first, the lands it owns, known as State Game Lands, and secondly, the lands it leases, known as Farm-Game Cooperative Projects, Game Propagation Areas, Auxiliary, Game Refuges, etc. Vast strides have been made in the food and cover program of the Commission during the past four years as follows:

The wild waterfowl program in Pennsylvania is now being expanded through the selection, improvement, and development of suitable waterfowl habitat throughout the State to attract these birds, and increase the waterfowl population.

The Commission purchased 28,767.53 additional acres of State Game Lands, and received 14,019 acres (a portion of the former Tobyhanna Military Reservation) from the War Assets Administration. This brings the total State Game Lands area to 881,876.21 acres.

The land management program was expanded greatly and improved with special emphasis on food and cover development on Commission-owned and controlled lands.

The following Food Plots were established: (1) 8440 acres planted to improve food and cover conditions for wildlife; (2) 3920 acres cleared for planting; (3) 7600 acres farmed by sharecroppers; (4) 1100 acres mowed; (5) 1400 acres limed and fertilized to improve the natural grasses and clovers.

Three thousand plots, containing 1005 acres, of standing grain, mostly corn and soy beans, were purchased from farmers. Of this total, 535 acres were purchased on Cooperative Farm-Game Projects and 470 acres in general open hunting territory, usually where game had been restocked or there was a heavy game concentration. This program aids greatly in establishing good public relations with the farmer, and educating the sportsmen to recognize the value of food requirements for wildlife.

Ten small nurseries, totaling 11 acres, were established on State Game Lands throughout the State. Seedlings produced are being planted in the Food and Cover program. Soil conservation practices have been established on 20,000 acres. In addition, nine new dams were built impounding 330 acres. One thousand four hundred additional acres were improved for wild waterfowl by the planting of seed and plants required by ducks, geese, etc.

Approximately 1,000 miles of road were maintained each year during this four-year period and a total of more than 330 additional miles was constructed. 600 miles of fire trails were maintained each year and 125 additional miles were constructed during the four-year period.

During the period personnel constructed 26 storage and implement buildings and 39 corn cribs to provide facilities to expand the Food and Cover program.

Boundary maintenance of the State Game Lands totals 3,500 miles while refuges total an additional 2,200 miles. Refuges especially must be maintained each year, but the boundary lines can for the most part be maintained by servicing once each fifth year.

A Food and Cover Corps of per diem field employees was inaugurated on June 1, 1947 as a service corps. These employees are used principally on the Commission's program financed from the \$1.25 allocation from the resident hunter's license money. The Corps is used primarily on habitat improvement and development work on the Game Lands and leased areas. Their accomplishments have been state-wide for the benefit of wildlife.

On June 1, 1946 the Cooperative Farm-Game Program consisted of 68 projects containing 2,066 individual farms with an area of 164,425 acres. On September 1, 1950 the Cooperative Farm-Game Program consisted of 168 projects containing 8,224 farms with a total of 825,427 acres—an increase of 100 projects, 6,158 farms containing 661,002 acres.

In an effort to increase the supply of wildlife and provide protection to farm buildings and other farm property more than 8,000 safety zones and refuges were maintained.

Cooperators were aided in establishing beneficial soil conservation practices on more than 20,000 acres. In addition more than 100 tons of rye grass seed were furnished cooperators to benefit more than 15,000 acres.

Habitat for farm game species was improved by distributing 1,500,000 evergreen and deciduous tree, shrub and vine seedlings to Cooperators. In addition to benefiting wildlife, these plantings will help conserve soil and water.

More than 200,000 pieces of small game, of the various species, were stocked on project areas.

The Allegheny National Forest Commission cooperated for the first time last year by managing wildlife in the Allegheny National Forest. Two food and cover crews, operating since February 1, 1950, improved wildlife habitat by completing 180 acres of forest cuttings; releasing 5,375 trees on 425 acres; pruning 3,670 trees on 325 acres; planting thirty-four food plots totaling 45 acres; planting 30,000 seedling and transplants; and developing 6 seep areas.

Wildlife Protection

The Wildlife Protection Division which is responsible for the statewide law enforcement activities, the releasing and feeding of wildlife; the settlement of damage complaints and the many and varied duties that are usually looked upon by the public and the sportsmen as duties of the Game Protector, even though the Game Protector's responsibilities go far beyond those activities, expanded and intensified its program to cope with changing conditions and requirements.

During the fiscal year ending May 31, 1950, a record high was established in Pennsylvania in the collection of Game Law penalties, when a total of \$200,888.35 was collected from 6,107 violators of the Game Law.

During this past four-year period, the Game Commission revoked the hunting privileges of 3,604 hunters for major infractions of the law. The revocation of license privileges is recognized as by far the most potent method of dealing with serious violations and persistent violators. Furthermore, the settlement of cases in the field, usually at the point of apprehension, where the evidence is frequently at hand, results in better enforcement and greater economies otherwise impossible.

Predator Control

Every reasonable effort is being made to do an effective job of predator control. Bounties were paid for the killing of the most harmful predatory birds and animals, and during the period of almost four years \$549,354 has been expended for this purpose. In addition, field employees of the Commission have been actively engaged in trapping and the general control of predators. A trial of hiring professional trappers was abandoned because of its cost.

For 1947 through 1950 the Commission paid 307 claims for damage by bears to bee hives, sheep and other livestock. A total of \$10,205.46 was paid for bear damage.

Volunteer Game Protectors

The Commission, in its attempt to control a serious wave of disregard for the Game Laws, authorized the number of Deputy Game Protectors increased from 750 to 3,000. The number of voluntary Deputies has actually been increased to approximately 1,600, each of which has been trained by experienced District Game Protectors to assist in Law Enforcement and other field activities of the Commission.

Special Game Permits

In the past four years 6,472 Special Game Permits were issued to Fur Dealers, Fur Farmers, Game Propagators, Taxi-dermists, etc., for which a total of \$67,399.00 was collected and deposited in the Game Fund.

New Legislation

1. 1947—Among the amendments to the Game Law in 1947, two are outstanding; namely:

(a) Making it unlawful for any person to hunt, disturb or chase game within 150 yards of a farmer's buildings, called a safety zone, without the permission of the owner. (Noncompliance with this safety law is no doubt the biggest obstacle to better farmer-sportsman relationship and the principal cause of closing lands to hunting.)

(b) Every person involved in a hunting accident is now required to file a report.

2. 1949—In order to provide additional funds for the Commission to conduct its program and because of higher prices, the resident hunter's license fee was increased from \$2.00 to \$3.15. The non-resident license fee was increased from \$15.00 to \$20.00 and a non-resident trapping license was authorized at a fee of \$25.00. Free hunting licenses were authorized for disabled war veterans.

The sum of \$1.25 from each resident hunter's license fee was earmarked for food and cover development, the purchase and trapping of game, game propagation, and the purchase, planting, etc., of game foods.

A new provision increased the number of dog training areas that may be established within a county from four to six.

Game Propagation Division

Propagation of game in the wild, in a state with a population of nearly eleven million people and in a mechanized age with changed farming practices, seems impractical and inadequate without being supplemented by game farm propagation and by game purchase, game trapping, etc. Some species of game birds are suitable for game farm production in Pennsylvania, viz., ringneck pheasant, wild turkey and bobwhite quail. The quality of this domestically raised game has improved greatly within the past few years. Native wild game trapped from protected areas such as parks, cities, towns, institutional grounds, etc., has proven ideal for restocking elsewhere. The following report is submitted of game propagation, purchase, and trapping activities during the past four years:

The Commission's program for the distribution of day-old pheasant chicks to sportsmen's organizations and farmers has been doubled during the past four years. Approximately 166,000 day-old chicks were distributed in 1950. The success of rearing these birds to maturity for releasing has increased to a point higher than 75%.

The Commission in 1949 authorized the leasing of farms in eight counties of Pennsylvania as rabbit farms. These will serve as small game refuges and rabbits will be trapped therefrom for restocking for which the farmers will be paid \$1.00 for each cottontail. On November 28, 1950 there were almost 200 farms under lease for this purpose.

Large fenced in areas in typical wild turkey habitat known as wilding pens have been built in which to place young toms from the turkey farms. They will be given reasonable protection and have a good chance to become more mature and much wilder before release. Re-

ports this fall indicate that the stock was much wilder and more capable of caring for themselves than those released previously. The wild turkey population in Pennsylvania today is at its highest level.

Experiments are now being conducted with bobwhite quail in hardening pens, similar to the wild turkeys. Results indicate that this may be the solution to re-establishing the bobwhite quail in Pennsylvania. Another experiment is being tried; namely, placing bobwhite quail eggs in nests of jungle fowl in the wild.

Pheasant releases have been gradually increased throughout the past few years. In 1949, a new plan of release was tried to release only birds just prior to the open season and in some sections during week-ends of the open season, retaining and protecting all the hens for release in the spring with enough cock birds to produce a maximum nature propagation and to increase the shootable supply. The 1950 program places these policies on a statewide basis and has already proven to be a means of increasing the ringneck population.

Nine thousand additional rabbit traps have been made so that the program of trapping rabbits from protected areas and releasing them in the wild is being expanded. The yield at present is about 40,000 rabbits annually.

Summary of all Game Released

Species	Fiscal Year 1946-47	Fiscal Year 1947-48	Fiscal Year 1948-49	Fiscal Year 1949-50	Total
Cottontail Rabbits	111,728	112,446	68,519	100,942	393,635
Ringneck Pheasants ..	63,412	83,830	104,250	150,942	402,434
Bobwhite Quail	18,915	21,051	13,915	10,059	63,940
Wild Turkeys	3,513	4,810	5,925	4,322	18,570
Gray Squirrels	225	128	117	64	534
Raccoons	25	12	21	53	111
Snowshoe Rabbits	274	274

1950 Hunting Season

From preliminary reports received, we have just concluded a highly successful small game and bear season during 1950. The recent severe snow storms, cold weather, and floods, combined to create extremely difficult transportation and hunting conditions for the opening of the deer seasons. It is, therefore, likely that the kill of deer during 1950 will be far below that anticipated and desired, especially in the areas where the herd is in serious need of reduction.

It is apparent from reports that there will be an increased supply of breeding stock of all kinds of game remaining following the 1950 seasons, but weather conditions this winter and next spring will control to a great extent the supply of game for 1951.

Respectfully submitted,

THOS. D. FRYE,
Executive Director, Game Commission.

COMMONWEALTH OF PENNSYLVANIA
HIGHWAY PLANNING COMMISSION

HARRISBURG

December 5, 1950.

Dear Governor Duff:

The Highway Planning Commission was established under authority of Act No. 537 of 1949. Starting at the closing months of 1949 and going throughout 1950, the Commission conducted one of the most extensive inventories of major roads ever made in any state, covering more than 20,000 miles of road by actual field check.

It has recommended a program for improvement of state and local roads to cost \$1,726,000,000 over the next 12 years. If carried out, this should correct the deficiencies in our present highway system, furnish our urban centers with greatly needed improvements and making both state and local roads in rural areas serviceable by modern standards.

A report of the Commission is before this legislature for study and consideration. In addition to the improve-

ment program, it includes recommendations for road classification and better administrative and fiscal relationships between state and political subdivisions.

Members of the Commission are: State Senator James S. Berger of Coudersport, Chairman; M. D. Howell of Pittsburgh, Vice President of the U. S. Steel Corporation; Arthur C. Kaufmann of Philadelphia, Vice President of Gimbel's Department Store; Edgar J. Kaufmann of Pittsburgh, President of Kaufmann Department Store; Ralph Kelly of Philadelphia, President of the Philadelphia Chamber of Commerce; Walter W. Krebs of Johnstown,

Publisher of the Johnstown Tribune; George R. Lamade of Williamsport, publisher of Grit; Donald Markle of Jeddo, President of Jeddo-Highland Coal Company; Judge J. Paul Rupp of Harrisburg, Dauphin County Court; Dr. Charles S. Tippetts of Mercersburg, Headmaster of Mercersburg Academy; and William H. Worrilow of Lebanon, President of Lebanon Steel Foundry Company.

Respectfully submitted,

WELLES A. GRAY,
Secretary, Highway Planning Commission.

APPENDIX TO THE

FIFTEENTH BIENNIAL BUDGET OF THE COMMONWEALTH OF PENNSYLVANIA FOR THE FISCAL BIENN-
NIUM JUNE 1, 1951, TO MAY 31, 1953

Submitted to the

GENERAL ASSEMBLY

By JOHN S. FINE, Governor

March, 1951

TABLE OF CONTENTS

GOVERNOR'S BUDGET MESSAGE

SUMMARY OF THE BUDGET BY FUNDS

SECTION ONE

General Fund, Showing Summary of the General Fund Budget; Deficiency Appropriations for 1949-1951 Recommended by the Governor; Appropriations for 1951-1953 Recommended by the Governor; Revenues and Receipts to the General Fund.

SECTION TWO

Motor License Fund, Showing Summary of the Motor License Fund Budget; Appropriations Recommended by the Governor; Department of Highways Functional Expenditures for 1945-1949 Compared with Estimates for 1949-1953; and Revenues and Receipts to the Motor License Fund.

SECTION THREE

Other Special Funds, Showing Revenues, Receipts, Bal-

ances, and Appropriations Recommended by the Governor from the Operating Special Funds; and the Specific Appropriations Recommended From All Other Special Funds.

SECTION FOUR

The Sinking Funds and Public Debt as of November 30, 1950.

INDEX

(See Last Page)

NOTE

Statements of the Actual Classified Operating Expenditures of the State Government by Departments and Appropriations from June 1, 1943 to May 31, 1950 are presented in a Supplement to the Budget under separate cover.

See also Supplement to the Budget for the State Stores Fund, and the Custodial Special Funds except the Sinking Funds.

COMMONWEALTH OF PENNSYLVANIA

EXECUTIVE CHAMBER

Harrisburg, March 19, 1951.

To the Honorable, the General Assembly of the Commonwealth of Pennsylvania:

In compliance with Article VI of the Act of April 9, 1929, P. L. 177, I have the honor to lay before the General Assembly a State Budget for the fiscal biennium from June 1, 1951 to May 31, 1953.

The two budgets Governor Duff submitted to you during his tenure called upon the General Assembly to meet the complex situations of a post-war period. Provision necessarily had to be made for many deferred demands. In many instances State facilities and services suffered during the war period and the depression which preceded it. These had to be rehabilitated and some had to be extended. State appropriations had to be greatly stepped up to meet the high costs brought about by inflation.

A sizeable program of public works was undertaken during this time both from appropriations and by the various Authorities. To the latter this Legislature must now appropriate rentals in excess of 13 millions of dollars, only a small portion of which obligation heretofore existed. While some of that program was completed in the last Administration, much of it remains to be completed by this Administration. That program is now our obligation—yours and mine. In addition, commitments were made by the Legislature approximating 100 millions of dollars for which no revenue was provided, as will be hereinafter detailed.

Moreover, in the conduct of State Government we are on a different level than that of ten years ago, or even of four years ago. We cannot today think in the same terms as then. Many State costs have doubled. Some costs such as building construction are three times what they were then. Compensation of State employes has increased. The minimum salaries of many public school teachers have been doubled and the maximum considerably more than doubled. Public assistance grants now per person are nearly two and one-half times 1940 grants. The general cost of living stands 75 percent above that of ten years ago but for many items, particularly food and clothing, the costs are more than double.

When the budget under which the State Government is now operating was prepared in 1949 it was assumed that the level of National income would remain somewhat at the level then existing—the price level was expected to remain somewhat the same. Those assumptions were not far off the mark for most of this two-year period. But they changed rapidly and they no longer hold true. Price levels have risen higher and higher. Since the beginning of the Korean war there has been a sharp increase in the cost of living and National income has stepped up rapidly. The prospect is for still higher costs. We have a soaring economy which has not yet been fully harnessed.

Before taking up the 1951-1953 budget, let us review the General Fund finances during the biennium.

The financial program set up two years ago for this biennial period has operated successfully and as planned with the exception of expenditures for public assistance and for public school subsidies. Due primarily to strikes, public assistance expenditures have far exceeded ex-

pectations. Fortunately a \$25,000,000 contingent appropriation was made. That appropriation is now nearly exhausted and there is need of a deficiency appropriation of \$10,000,000 to complete the biennium.

The appropriations for school subsidies, it appears, will fall \$5,342,820 below the amount estimated to be necessary when present appropriations were made. Outside of that there is need of additional deficiency appropriations amounting to \$1,240,725, which deficiencies will be explained in detail later.

Total appropriations for 1949-1951 were \$725,129,000 plus a contingency appropriation of \$25,000,000 for public assistance. To meet these appropriations there were estimated revenues of \$657,800,000, a surplus of \$63,235,000, \$1,650,000 transferred from special funds, and \$2,800,000 of appropriations to be repaid to the General Fund. There was an unappropriated balance of \$356,000.

In order to provide funds to meet the \$25,000,000 public assistance contingency appropriation, a number of appropriations were curtailed as follows:

Act 75-A—1943 Sessions	\$ 546,591.72
Act 73-A—1945 Session	5,585,199.46
Act 55-A—1947 Session	8,996,906.43
Act 56-A—1947 Session	8,138,032.48
Act 23-A—1947 Session	1,000,000.00
Act 89-A—1949 Session (World War II Veterans Compensation Sinking Fund, Excess Interest)	733,269.91
Total	\$25,000,000.00

To secure funds for the \$25,000,000 conditional appropriation for Public Assistance, it was necessary to transfer construction projects amounting to \$16,154,000 to the General State Authority. These projects either have been completed or are under way.

At the end of the first year of this biennium, May 31, 1950, the estimate of revenue, \$327,862,899, was realized, (excepting the sum of \$361,054.36). During the second year of the biennium, due primarily to a much higher level of business activity, it now appears safe to predict that revenues will be higher than for the year ending May 31, 1950. We can therefore predict that total revenues for the present biennium will be \$678,500,000. After providing for the deficiency appropriations which I am recommending in the sum of \$16,583,545, there will remain an estimated surplus of \$10,026,557. This will be available for use during the next biennium, 1951-1953.

As we then turn to the budget for the 1951-1953 biennium we find ourselves confronted by one of the most uncertain outlooks imaginable. Who can predict what conditions will prevail in the two-year period from next June first? Yet that is the task we have to undertake. A new function, Civil Defense, confronts us. This eventually could require a large outlay of funds. One of the great difficulties in preparing a financial program for the next two years is the uncertainty of what the Federal Government will do in this emergency, and what requirements will be imposed upon us by our National Government. We do not know what controls will be imposed or to what extent our economy will be regulated. Both revenues and expenditures are thus made most difficult. Both revenues and expenditures are thus made most difficult to predict.

The situation four years ago, as I explained, required the undertaking during the post-war period of a vast amount of necessary work was impossible of accomplishment during the war years. There is much of that work still to be done. But, we find a situation wherein civil defense and production required in defense of our Country must have top priority. In view of this, we should reappraise projects which have been planned but have not yet been started. All projects should meet the strictest test of necessity before being undertaken. Projects which have been started should be completed as soon as possible. We should not consider new projects or activities which in any way interfere with the defense effort. The State Government must be conducted in such a way that maximum help will be given to the National defense.

The tremendous expenditures and huge taxation programs of the Federal Government dictate that all State expenditures should be essential and be kept to a minimum. This policy combats inflation and should be pursued on all governmental levels. Moreover, we must do everything possible to make manpower and materials available for defense and bring our State Government in line with that policy.

Necessarily for our next budget, we have to make some bold assumptions. We assume that the price level will not be less than that presently prevailing and that there will probably be considerable further increase. Correspondingly there should be a very substantial increase in National income because of the great increase in military expenditures. Business activity, even though production for civilian use is limited, is expected to be a level higher than that presently existing. Employment should be at a peak level with very little unemployment.

The budget I am presenting to you calls for General Fund appropriations for the 1951-1953 biennium in the amount of \$853,513,930 which amount includes a reserve of \$20,000,000 for Civil Defense. The amount without the reserve, \$833,513,930, compares with \$766,094,548 for the 1949-1951 biennium, an increase of \$67,419,382. However, the recommended appropriations also include \$112,000,000 of obligations arising from actions taken before the advent of this Administration. These include \$60,000,000 for bonus financing, \$42,000,000 additional for school subsidies and retirement payments required under existing law, and approximately \$10,000,000 additional for State Authority rentals.

If these new obligations totaling \$112,000,000 were deducted from the recommended appropriations, the required appropriations for the 1951-1953 biennium would be \$741,513,930, or a reduction of \$24,580,618, below the amount of appropriations including deficiencies, required for the 1949-1951 biennium.

In the total of \$853,513,930 of appropriations which we recommended for the next biennium, it must be remembered there are included not only \$112 millions of dollars prior commitments for which no revenues were provided, but also included are, \$20,000,000 additional for public schools beyond the present requirements of law, \$20,000,000 reserve for civil defense and provisions for salary increases granted during the present biennium. In this total recommended is, also, an increase of \$9,310,570 for universities, colleges, and other State-aided institutions.

Our chief aim has been to keep the budget for the oper-

ating costs of the State Government at its lowest possible level, and at the same time provide adequately for civil defense for health and for education. An examination of the budget will show how well this intention has been carried out.

The appropriations recommended for the support of the public schools is an increase of \$47,000,000 from \$203,000,000 to \$250,000,000 or 23 percent. The appropriations recommended for teachers retirement is an increase of \$10,804,000 from \$26,640,000 to \$37,444,000, an increase of 41 percent. The amount recommended for appropriation for higher education represents an increase of 30 percent.

The appropriations recommended for the promotion of health appear in a number of places in the budget. Provisions are made for an increased patient population at the tuberculosis sanatoria and the Crippled Children's Hospital, for continuing stream pollution elimination, health examination of school children, care and treatment of mental patients, support of the medical hospitals, both State-owned and State-aided, and adequate provision for all the other functions of the Department of Health.

CIVIL DEFENSE

Civil Defense is a most vital function. We must carry it out to the fullest extent required. The amount of funds needed for the next two years is difficult to predict especially because much depends on the fluid program of the Federal Government which, of necessity, is our guide. I am recommending an appropriation of \$20,000,000. This appropriation is to be considered in the nature of a reserve to be used only in case of absolute necessity. The amount to be allotted for administrative purposes should be limited to a maximum of \$1,200,000. Other purposes for which funds may be needed are for stockpiling medical supplies and other materials and for such other purposes as may be deemed necessary by Federal and State authorities.

It appears that in case of an actual war emergency requiring greater expenditures than provided the Constitution would allow us to borrow funds immediately.

PUBLIC INSTRUCTION

The amount recommended to be appropriated to the Department of Public Instruction is \$368,688,687. This is \$70,483,187 more than the present appropriations and recommended deficiencies.

This increase is explained by the fact that under existing law \$27,000,000 additional is required for support of the public schools, \$4,000,000 additional for transportation subsidies, and \$10,804,987 for payments to the School Employees' Retirement Fund. I also, am recommending \$20,000,000 for the support of public schools beyond existing law, and \$11,204,120 additional for universities and colleges including Teachers' colleges and other educational institutions.

The 27,000,000 increase in the amount recommended for the support of public schools is due to several causes, the increase in the minimum appropriation provided in Act 536 of the 1949 Session, the special plan established for reimbursing school districts which operate high schools jointly, and the change in the formula for reimbursing school districts on account of tuition.

The increase of \$4,000,000 required for reimbursement for transportation is due to the provision in Act 443 of

the 1947 Session which mandated additional transportation effective for 1949-1950 and thereafter. It also is due to the fact that one-room schools are constantly being closed in rural area resulting in an increase in the number of pupils being transported, and further due to inflationary costs bringing about an increase in the unit cost in connection with transportation.

The increase of \$10,804,987 in the recommended appropriation to the School Employees' Retirement Fund is due to salary increases required by Act 542 of the 1949 Session, to greatly increased benefits at the time of retirement as provided in Act 185 of the 1949 Session, to additional liabilities caused by the admission of new members, to the payment of withdrawn contributions authorized by Act 275 of the 1949 Session, to a regular guaranteed annual allowance of \$1200 for an employee having forty or more years of service as required by Act 541 of the 1949 Session, and to the interest deficits for the years ending June 30, 1950 and June 30, 1951.

The increase of \$9,304,120 for universities and colleges and other state aided educational institutions is necessary because of loss of income to those institutions due to an expected decline in enrollment arising from military demands and because of increased costs since the last appropriation was made.

The increase of \$1,900,000 recommended for the teachers' colleges is due in large part to the expectation that there will be a considerable decrease in receipts to those institutions, estimated to be \$1,897,000, due to a considerably smaller number of veteran students and an anticipated decline in enrollment from students leaving for military service.

The appropriation of \$20,000,000 which I am recommending for the support of the public schools beyond the requirements of present law is being made available with the intention that it will be applied in the best way possible to help our schools. Whether it can best be used to raise the reimbursement level, to increase teachers' salaries, or perhaps a combination of both, or in some other manner, requires the serious study of the Legislature. I shall be glad to give you my full cooperation in dealing with that important problem.

Under Act 557 of the 1949 Session, the State assumed an obligation of helping to pay rentals for school buildings built by the Public School Building Authority for school districts. The appropriation for 1949-1951 was \$500,000, none of which has been used. But, it is expected that some buildings will be completed and that some districts will begin paying rentals in the next two-year period. The amount needed is quite uncertain, particularly in view of the emergency defense situation. I am recommending that an appropriation of \$1,000,000 be established for that purpose. This should be sufficient in addition to the \$500,000 unused appropriation.

PUBLIC ASSISTANCE

The amount appropriated for Public Assistance for the present biennium was \$161,100,000, and a conditional appropriation of \$25,000,000. The \$161,100,000 appropriation has been expended and the Department started spending the \$25,000,000 conditional appropriation, about the middle of December, 1950. The Department estimates that an additional appropriation of \$10,000,000 will be needed to complete the biennial period after the \$25,000,000 ap-

propriation has been exhausted. The amount, I recommend for the next biennium is \$136,300,000.

Since the beginning of the Korean War the employment situation has greatly improved in the State, and there has been a great drop in the number of persons dependent upon Public Assistance. With the great increase in defense production ahead, it is reasonable to believe there will be a further reduction in the Public Assistance caseload. This assumption motivates my recommendation of an appropriation of \$136,300,000. Also we intend stricter supervision to keep off the Public Assistance rolls, any who do not properly belong on them.

HEALTH

The appropriation I am recommending for the institutions under the jurisdiction of the Department of Health—the three sanatoria and the Crippled Children's Hospital is \$11,650,000 as compared with \$10,650,000 in the present biennium. This represents an increase of \$1,000,000 or 9.4 per cent. That amount will permit a very considerable increase in the number of patients in these institutions, if sufficient personnel can be obtained to minister to them.

I am recommending an appropriation of \$6,000,000 for school health examinations so that this important work can be continued.

I am also including a recommendation for appropriations for cancer research and for rheumatic fever treatment in the Department of Health in the same amounts as those of the present biennium. A further appropriation of \$300,000 is recommended to help finance the work of the Cancer Research Laboratory at Fox Chase.

I am recommending an appropriation of \$150,000 for the establishment of alcoholic clinics. This is a step in a field which needs more attention.

It is proposed to reorganize the State Health Department increasing its efficiency at no appreciable increased cost.

WELFARE

For the institutions under the jurisdiction of the Department of Welfare, I am recommending an appropriation totaling \$102,523,000. This compares with \$91,870,000 for the present biennium, an increase of \$10,653,000. Of this increase \$9,183,000 is recommended for the mental institutions. This increase is due primarily to increased patient population and for improved care and treatment of those patients in many new institutional buildings which will be completed and in operation in the next two-year period, and, further, to increased costs of operation.

The Department of Welfare is requesting an appropriation of \$250,000 to aid in establishing psychiatric services in private institutions, and an appropriation of \$300,000 to aid in establishing psychiatric wards in general hospitals. The present Mental Hospital Appropriation act permits use of that appropriation for these worthy purposes. The requested \$550,000 has been included in the appropriation recommended for mental hospitals.

The appropriation I am recommending for the State-aided hospitals—\$15,365,000—is an increase of \$1,000,000 over the appropriation in the present biennium and is recommended to help meet increased costs at these hospitals. I have recommended an approximate increase of another \$1,000,000 for state-owned hospitals.

At the last Session of the Legislature an appropriation of \$500,000 was made for the first time to promote nurses training in private hospitals. Under that appropriation, 89 hospitals received aid in nurses' training courses. The appropriation was not sufficient, and was exhausted last July. I am recommending a deficiency appropriation of \$440,000 to complete the biennium. As it is tremendously important to increase our nursing corps, I recommended an appropriation of \$940,000 for this purpose.

MINES

The Department of Mines, during the last two bienniums, has undertaken important work of sealing abandoned coal mines. This is done to prevent acid water contaminating the streams. In a recent report, the Secretary of Mines showed that 989 seals had been made.

There is much more work of this nature to be done, and it seems to me that this work should be continued. I am recommending an appropriation in the amount of \$1,407,000 which is the same amount as for the present biennium.

STATE POLICE

The total appropriation recommended for the Pennsylvania State Police is \$20,368,350. This compares with \$19,440,000 in the present biennium, or an increase of \$928,350.

The increase is due, in part, to salary increases which have been made during the past two years and, also, to the fact that the force was increased 400 men during the two-year period. However, all 400 did not serve the whole two-year period.

My recommendation is that the General Fund and the Motor License Fund carry the same proportions of appropriations for the next two years as they carried in the present biennium. This would result in an appropriation of \$6,118,350 from the General Fund, and the balance from the Motor License Fund.

PROPERTY AND SUPPLIES

The appropriation for salaries and expenses recommended for the Department of Property and Supplies, \$4,500,000, is less than the 1949-1951 appropriation of \$3,702,000 plus \$833,000 spent by the Construction Bureau of that Department and charged to projects undertaken. In the next biennium, all expenditures will be made from the \$4,500,000 appropriation recommended.

An appropriation of \$13,194,000 to the Department of Property and Supplies, is recommended for State Authority rentals. This is an increase of \$9,444,000 over the appropriation for that purpose in the present biennium. The \$13,194,000 is the amount estimated by the General State Authority and the Department of Property and Supplies to be sufficient for rentals for projects to be completed in the next two-year period. A detailed explanation of the request will be furnished to the Appropriation Committees along with the explanation of the other appropriations requested by the Department.

MILITARY AFFAIRS

The appropriation needed for the Department of Military Affairs is difficult to predict in view of the uncertainty with respect to the National Guard in the next two years. If the remainder of the National Guard should be called into the Federal Service the Department has com-

pleted plans to establish and finance a State Guard of three regiments.

During this two-year period in order to help finance the administrative cost of paying the Veterans Bonus, the Department had to eliminate considerable repair work which had been planned at the armories. The department estimates the amount of such work eliminated at \$498,000. During the next two years, the Department plans to undertake those repairs along with others as they become necessary.

These are the chief reasons for the increase requested by this department.

DEPARTMENT OF STATE

(A) State Employees' Retirement Fund

The appropriation recommended for the State Employees' Retirement Fund is \$6,755,000, which compares with \$4,642,000 in the present biennium—an increase of \$2,113,000 for 1951-1953 biennium.

There are a number of causes for this increase, chief of which are the laws, (1) The Act which admitted State per diem workers to the Retirement System, (2) the law which permitted transfers from the Public School Employees' Retirement System to the State Employees' Retirement System, (3) the law permitting transfers from the 1/160th class to the 1/100th class, retroactively, and, also, for the salary increases which were given since the last appropriation was made. Still another reason is the failure of the Fund to earn the required four per cent interest because of continuing low interest rates.

(B) Soldiers' Absentee Voting

A new appropriation becomes necessary to make effective Act 1, 1951, known as the Soldiers' Absentee Voting Law. The amount estimated for this purpose is \$383,000 and I recommend that amount be appropriated.

PUBLIC WORKS

As stated previously, there are large construction programs underway which this Administration is obligated to complete. As of March 1, 1951, there was a total of \$11,416,033 in projects uncompleted and being financed from General Fund construction appropriations in the Department of Property and Supplies. This uncompleted program can be classified as follows:

Welfare Institutions:

Mental Hospitals, Feeble-Minded and Epileptics	\$3,660,093
Penal and Correction Institutions	843,750
Medical and Surgical Hospitals	289,000
	<hr/>
	\$ 4,792,843

Educational Institutions:

Teachers Colleges and Other State-owned Institutions	\$ 831,000
Pennsylvania State College ...	1,950,614
	<hr/>
	\$ 2,781,614

Pennsylvania Historical and Museum Commission	33,576
Health Institutions	1,619,000
State Police Barracks	512,000

Miscellaneous—State-owned Institutions, State Parks, Et Cetera	1,677,000
Total	\$11,416,033

As of March 1, 1951 the General State Authority had a total program of \$148,364,194 in uncompleted projects. That program is as follows:

Welfare Institutions:

Mental Hospitals, Feeble- and Epileptics	\$88,003,221
Medical and Surgical Hospitals ..	5,455,345
Penal and Correctional Insti- tutions	2,527,019
Welfare Institutions—Equipment ..	4,624,910
	\$100,610,495

Educational Institutions:

Teachers Colleges and Other State-Owned Institutions	\$22,427,896
Pennsylvania State College	12,169,785
Educational Institutions—Equip- ment	1,063,651
	\$ 35,661,332

Health Institutions ..	2,945,045
State Police Barracks	2,852,577
Forests and Waters:	
Stream Clearance, Flood Control, and State Parks	6,115,822
Miscellaneous	178,923
Total	\$148,364,194

Requests are now on hand for a large amount of additional major public works, primarily at Welfare Institutions and Teachers Colleges.

Despite increased costs, many of these projects are necessary and urgent and should be undertaken as soon as possible. One of the many things which need special attention is provision for additional facilities for the care of youthful offenders. It appears that a new institution may be necessary for this purpose, and this should have your serious consideration.

In my General Fund appropriation recommendations in this budget, there is no provision for construction or other major public works. If a program of public works is economically feasible and is undertaken, I shall recommend that the borrowing limit of the General State Authority be raised and that the program be prosecuted by that agency.

But, as I stated previously, I am not in favor of any activity that will in any way interfere with the defense effort or further disturb our present economy. We should approach construction programs with extreme caution. I suggest that we study the situation during the Session and decide later, in the light of defense developments, the course we should pursue. I may need to communicate with you again on this subject at a later date.

FORESTS AND WATERS

The appropriation recommended for operation of the Department of Forests and Waters is \$6,845,000. in the present biennium the Department has made expenditures from three appropriations for the work of the Department—the appropriation for salaries and expenses in the gen-

eral bill, appropriation under Act 83-A of the 1945 Session, and appropriation under Act 23-A of the 1947 Session, estimated to be a total amount of \$11,583,682 by the end of the biennium. Therefore, the appropriation recommended for the next two years is a reduction of \$4,738,682.

The Department estimates that \$1,000,000 will be needed for dredging of the Auburn, Tamaqua, Kernsville, and Felix desilting basins in the Schuylkill River project, in accordance with the agreement with the Federal Government, and for maintaining and repairing the 23 silt impounding basins. I recommend an appropriation in that amount.

An appropriation of \$2,000,000 is recommended to continue the development of the Independence Mall in Philadelphia. The properties in the block between Chestnut and Market Streets and between Fifth and Sixth Streets have been purchased and demolition is underway. The \$2,000,000 appropriation recommended for the next two years would continue the project by allowing purchase of the properties or part of the properties in the black north of Market Street.

An appropriation of \$1,500,000 is recommended to continue the development of Point Park in Pittsburgh. All of the properties have been acquired for that project and about half of the demolition completed. This appropriation recommended is for the purpose of completing demolition and for grading and surfacing for temporary, revenue-producing parking facilities.

SALARIES OF STATE EMPLOYEES

During the present biennium a general salary increase was granted in the sum of \$200 per employe for those receiving \$3,000 or less. No general increase was given for those with salaries above \$3,000. However, there have been a number of meritorious increases for some employes receiving above that amount.

The appropriations I am recommending for the departments will permit some adjustments to be made where past salary increases have not been sufficient. The cost of living poses a serious question whether salary increases, beyond those now possible under recommended appropriations for the departments ought not to be made. I suggest that we consider this situation during the Session when we will have more information on the trend in cost of living and on the yield of our revenue sources. Then we can decide whether some provision not now included in the budget, should be made for increasing State employes' salaries.

DEFICIENCY APPROPRIATIONS RECOMMENDED

The budget includes a schedule of the deficiency appropriations I am recommending. Of the \$16,583,545 total, \$10,000,000 is for public assistance to complete this biennium when the \$25,000,000 appropriation is exhausted. The Department of Public Assistance estimates that the \$25,000,000 appropriation will be exhausted early in April and that \$10,000,000 will be required to May 31.

Of the \$16,583,545 total, \$5,342,820 is for deficiencies in public school subsidies. These amounts represent the differences in actual payments under existing law as compared with the estimates set up two years ago.

A deficiency of \$750,000 is requested for financially handicapped school districts. The \$750,000 appropriation for this purpose for this biennium has practically all

been obligated on applications received for the school year 1949-1950. The Department of Public Instruction found that in general the financial situation in districts investigated during 1949-1950 was more acute than in the previous year due to higher mandated teachers' salaries and to the fact that most of the financially distressed school districts are already levying the maximum tax on real estate permitted by law. Applications for assistance for 1950-1951 are being received by the Department at about the same rate as during 1949-1950 which makes the request for a deficiency appropriation of \$750,000 imperative.

The deficiency of \$312,650 requested for Legislative printing, is explained by the fact that it has been the practice to carry over certain expenses of a Session, particularly printing expenses, for payment under the appropriation immediately following the Session. The deficiency of \$7,275 requested for printing and distributing service organization convention reports, is due to an underestimate two years ago of the amount that would be required.

The amount requested for the Department of Labor and Industry is due to the fact that the appropriation for this biennium provided practically no margin for salary increases and other higher operational costs.

The amount requested for the Department of Justice, \$200,000, is due to expenditures incurred by that Department for salary increases not contemplated at the time the appropriation was made, for expenses incurred in trials and Grand Jury investigations in the City of Philadelphia and in Allegheny County.

The deficiency appropriation of \$440,000 requested for training of student nurses is necessary to make the payments required for the two-year period since the \$500,000 originally appropriated was exhausted last July.

I have specifically referred in this message only to the appropriations of those departments which required further explanation and clarification. The recommended appropriations of other departments present no unusual factors and are clearly set forth in the budget.

A detailed statement of the requests of all of the departments will be furnished the Appropriation Committees of the General Assembly.

MOTOR LICENSE FUND

The estimated total of funds available in the Motor License Fund for the 1951-1953 biennium, is \$335,407,372, assuming the present gasoline taxes are maintained. This total consists of an estimated unobligated cash balance of \$22,763,972, June 1, 1951, and \$362,643,400 of estimated receipts, including Federal aid, for the 1951-1953 biennium. This total of \$385,407,372 compares with \$402,098,200 estimated for the 1949-1951 biennium, a decrease of \$16,690,828.

For the 1951-1953 biennium the estimate of receipts from Federal aid is \$46,000,000. Receipts from sources other than Federal aid, are estimated at \$316,643,400 for 1951-1953 compared with \$307,619,900 for 1949-1951.

The estimate of funds available for 1951-1953, \$385,407,372, will permit the Department of Highways to have a budget of \$300,000,00 for the 1951-1953 biennium. This will permit the following expenditures during the two-year period compared with those estimated for the present biennium:

	Estimated 1949-1951	Estimated 1951-1953
Construction	\$207,556,000	\$188,805,000
Resurfacing	16,390,000	14,100,000
Overhead Engineering, Equipment, etc.	38,373,000	37,095,000
Maintenance	54,681,000	60,000,000
Totals	\$317,000,000	\$300,000,000

OTHER APPROPRIATIONS FOR MOTOR LICENSE FUND

An appropriation of \$10,000,000 is recommended for cities, boroughs, and first class townships and \$10,000,000 for townships of the second class. These are the same as the appropriations for the present biennium.

The allocation recommended for the Pennsylvania State Police, \$14,250,000, is an increase of \$610,000. This, as explained earlier in this message, is due primarily to salary increases which have occurred during the present two-year period and to the fact that the force was gradually increased by 400 men in the present biennium, whereas in the next biennium full provision is made for the two-year period for this increased force.

An allocation of \$12,000,000 is recommended for the Department of Revenue, an increase of \$1,337,500 over the amount expected to be spent in the present two-year period. This increase is explained chiefly by increases granted during this biennium, by greatly increased work, particularly in the Bureau of Motor Vehicles, and by increased cost of materials, postage and printing in that bureau, and for increased cost of the Highway Safety Program.

REVENUE

It is estimated \$680,000,120 will be raised from certain existing taxes. This amount plus the \$10,026,557 surplus is less than the recommended appropriations for 1951-1953 by \$163,487,253, which must be raised by additional taxes. How these respective revenues will be raised will be detailed in a special message to the Legislature on Wednesday of this week.

CONCLUSION

As there is a large amount of carry-over obligations to be financed because of legislative mandates prior to this Administration, and being conscious of the tremendous Federal and local tax loads and substantial State taxes now carried by the people of this Commonwealth, my aim in making this budget has been to cut requested appropriations to an irreducible minimum.

I have shown that when these carry-over obligations are deducted from my recommended appropriations, the remaining amounts requested from the Legislature are considerably less than those in the present biennium.

This budget shows that we estimate it will cost \$741,513,930 to operate the State Government for the 1951-1953 biennium with the aforesaid deductions. This is \$24,580,618 less than the appropriations, including deficiencies, required for the past two years. Moreover, without deducting the \$112,000,000 mandated obligations, over which we have no control, from our recommended budget, there is only a difference between the 1949-1951 and 1951-1953 budgets of \$1,240,843.88 for the whole State Government, all funds.

A further illustration of how this budget has been pared may be gathered from the fact that the amount we now recommend for running the State's business during the next two years is less than the amount the departments had available in the present two-year period.

Still further evidence of the fact that this budget has been severely pruned is that \$35,000,000 has been cut from normal departmental requests for appropriations not including requests for construction.

The two years ahead of us will not be ordinary years. They will be abnormal years and will impose extraordi-

nary demands on everyone of us and upon our State Government. To project State financing into the vagaries of the next two years is as hazardous as it now becomes necessary. There will be many serious and unusual problems which can only be solved through mutual cooperation. I pledge you my full support and the support of this Administration in this task.

Respectfully submitted,

JOHN J. FINE,
Governor

APPENDIX TO THE

SUMMARY OF THE BUDGET FOR THE BIENNIUMS 1949-1951 AND 1951-1953

	1949-1951	1951-1953
FUNDS AVAILABLE:		
General Fund (Federal Funds and Special Receipts Deducted)	\$ 835,199,469.95	\$ 690,026,677.33

Assistance—Additional	†25,000,000.00
Total Subsidies	\$ 76,005,200.00	\$ 110,900,000.00	\$ 145,600,000.00	\$ 195,000,000.00	\$ 135,000,000.00
TOTAL—Department of Public Assistance	\$ 89,232,000.00	\$ 111,620,000.00	\$ 146,490,000.00	\$ 196,100,000.00	\$ 136,300,000.00

Note: It had been the practice, in making appropriations for Aid to Dependent Children, Mothers Assistance, Pensions for the Blind, and General Assistance, to make lump sums covering both administrative costs and grants (subsidies). In this Statement, portions of appropriations which were spent for administration are shown under Administration and the remainder of the appropriation is shown under Subsidies. In the 1943-1945 column the amounts prefixed by the letter T must be added together to show the total amount of appropriation.

† Act 83-A, 1949.
